Currently Operating Charter Campuses

There is no legislative cap on the number of campus charters that can be authorized by the board of trustees of an independent school district under Texas Education Code (TEC) Chapter 12, **Subchapter C**.

TEC §12.101(b) placed a cap of 215 on the number of **Subchapter D** open-enrollment charters that could be awarded by the State Board of Education. Legislation passed by the 83rd Texas Legislature amended the award process and transferred the authority to grant open-enrollment charters to the commissioner of education. The new legislation also allowed for a graduated cap increase from 215 to 305 Subchapter D charters. In addition, there is not a cap on the number of charter schools that may be added via the expansion amendment process for existing Subchapter D charters. This process is described in Texas Administrative Code (TAC) §100.1033.

There is no legislative cap on the number of college or university charter schools that can be awarded by the State Board of Education under TEC Chapter 12, **Subchapter E.** These charters may also add campuses via the expansion amendment process.

The pages that follow list all the campuses under these subchapters that were operating as of Fall Snapshot 2014.
