Certified Superintendent Demographics by Preparation Route 2007-2011

This table shows the number and percentage of candidates who received their first standard Superintendent certificate through each preparation route, broken down by gender and by race or ethnicity.

Definition. A standard certificate is a certificate offered since 1998-99 that is renewed every five years.

Results

- In fiscal years 2009-10 and 2010-2011, a majority of Superintendents were male.
- Superintendents were largely white, with Hispanics/Latinos making up the second largest group.
- Few Superintendents were Asian, American Indian/Alaska Native, or identified as Other; none were Native Hawaiian.
- For most fiscal years, the university post-baccalaureate route produced many more Hispanic/Latino Superintendents than the alternative route.
- Conversely, the alternative route produced more white Superintendents.
- The number of certified Superintendents declined through fiscal year 2009-10.

* Results for individual routes may not sum to the total for All Routes, because the total is a count rather than a sum. A sum of routes may contain duplication as

Summary of methodology. Five tables were extracted containing identification numbers, preparation route codes, genders, and races or ethnicities of individuals obtaining their first standard Superintendent certificate for fiscal years 2006-07 through 2010-11. For each year and preparation route, a total of all Superintendents was obtained, together with counts by gender and race or ethnicity. Each count was then taken as a percentage of the corresponding total. The process was repeated to obtain overall results for all routes. Finally, the two sets of results were combined into one table.
