Microsoft Technology Associate Cloud Fundamentals

INDUSTRY-BASED CERTIFICATION DESCRIPTION

The Microsoft Technology Associate Cloud Fundamentals exam measures the following objectives: understanding the cloud, enable Microsoft cloud services, administer Office 365 and Microsoft Intune, use and configure Microsoft cloud services, and support cloud users.

This exam is designed for candidates looking to demonstrate fundamental knowledge of and basic skills using Microsoft cloud services. The exam can serve as a stepping stone to the Microsoft Certified Solutions Associate (MCSA) exams.

It is recommended that candidates become familiar with the concepts and technologies described here by taking relevant training courses. Candidates are expected to have some hands-on experience with Office 365, Microsoft Intune, firewalls, network topologies and devices, and network ports.
