Landscape Irrigation Technician License

INDUSTRY-BASED CERTIFICATION DESCRIPTION

The Landscape Irrigation Technician License exam measures the following domains or competencies connect a landscape irrigation system to a water supply, including installing a back-flow prevention device; and may maintain, alter, repair, service, or direct the installation of an irrigation system under the supervision of a licensed irrigator.

To become licensed as a Irrigation Technician,an applicant must complete the required training, complete the TCEQ application, submit a criminal history attestation, pay the application fee ($111), and pass the applicable exam (minimum score of 70 percent for each section).
