Registered Diagnostic Medical Sonographer Abdomen

INDUSTRY-BASED CERTIFICATION DESCRIPTION

The Registered Diagnostic Medical Sonographer Abdomen examination assesses the knowledge, skills and abilities in the areas of soft tissues, blood vessels and organs of the abdominal cavities.

To earn a Registered Diagnostic Medical Sonographer (RDMS) credential with an AB specialty, you must pass the Sonography Principles & Instrumentation (SPI) examination and the AB examination within five years. After passing the SPI examination, you can earn additional credentials without having to retake the SPI examination, provided you maintain active status.

The governing body for medical sonographers in Texas is the Texas Medical Board. All requirements designated by the TMB must be met.
