Background Information

All Texas school districts and charter schools are entitled, under the Texas Constitution, to receive payments from the ASF for each eligible student enrolled. The ASF is primarily made up of earnings from the Permanent School Fund (PSF), 25% of the state’s motor fuels tax, and transfers from the General Land Office (GLO).

Charter schools began receiving ASF payments in March 2013.

Program Description

The ASF serves as a finance method for the Foundation School Program (FSP). This source of revenue helps pay the state’s FSP payments to school districts and charter schools. ASF payments are based on a district’s or charter school’s prior year average daily attendance (ADA). The payment rate per ADA (the distribution rate) is adopted each year by the State Board of Education. ASF payments are referred to as “per capita” payments. The following table shows the payment rates for the last several years.
