A photograph of a school staircase with large windows in the background. Several students with backpacks are walking up and down the stairs. The image is slightly faded to allow the text to be read clearly.

State Performance Plan Indicator 14 (SPPI 14)

About SPPI 14: Post-School Outcomes

- Measures the percent of youth who are:
 - Enrolled in higher education,
 - Competitively employed,
 - Enrolled in other postsecondary education or training, or
 - Engaged in other employment.
- Includes students with individual education programs (IEPs) in effect at the time of exit from public school.
- Survey conducted one year after exit from public school.

SPPI 14: Data Submission Timeline

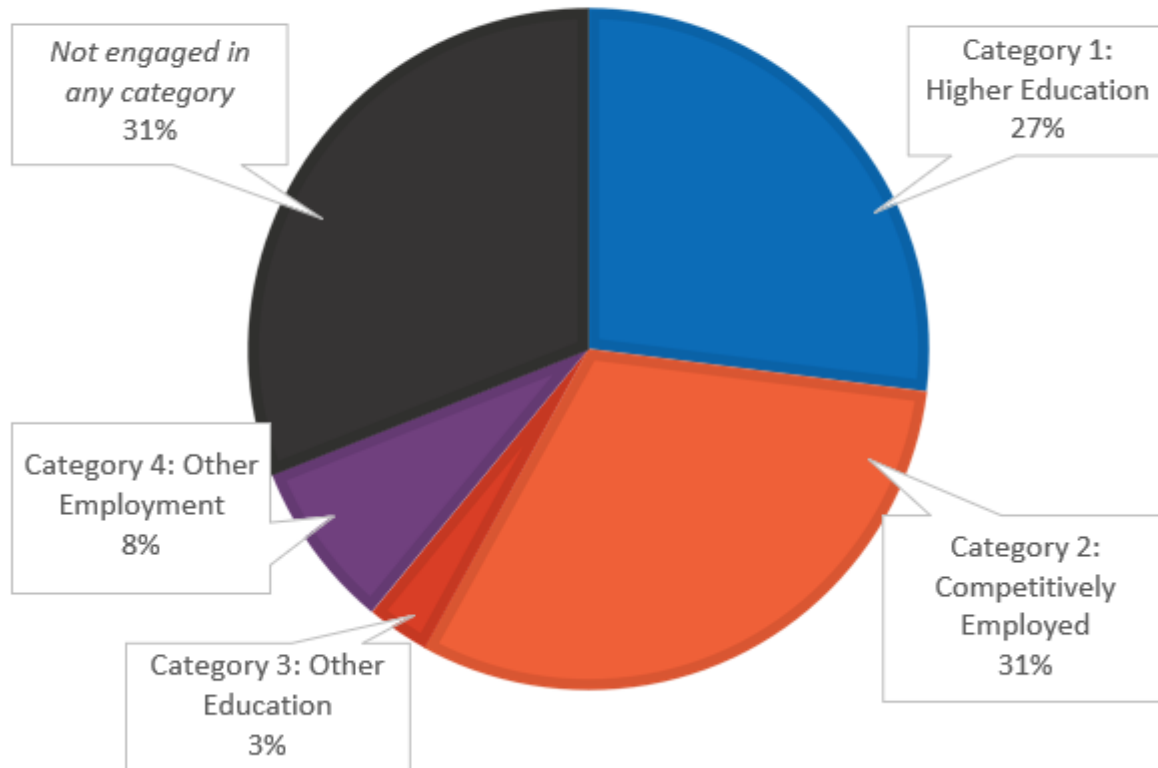

SPPI 14 LEA Reports

- Shared by Student-Centered Transitions Network (SCTN) contact for each region with LEA special education directors and transition and employment designees (TEDs)
- Masked reports for LEAs with fewer than five completed surveys
- New this year:
 - Combined LEA results over **2 years**
 - Combined results with member districts in a **Shared Service Arrangement (SSA)**
 - If either method results in meeting the threshold of five completed surveys, the LEA will receive an unmasked report

SPPI 14: Highlighted Results

PERCENTAGE OF RESPONDENTS

- 34,796 students invited to complete the survey
- 8,300 completed surveys
- 23.9% response rate

Next Steps

- Watch for Texas report to be posted to Texas Transition website: www.texastransition.org
- Watch for email from SCTN contact to special education director (as listed in AskTED). LEA data is considered confidential.
- Review the SPPI 14 videos to learn more about the survey and reports.
