87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

703 Texas Education Agency

Our focus at the Texas Education Agency (TEA or Agency) is to improve outcomes for all students, so that we maximize the potential of every child, and so that every child leaving our public school system is prepared for a life of purpose and productivity in our republic. For the past four years, the Agency has relentlessly executed a strategic plan designed to improve outcomes for all Texas students. But COVID-19 has disrupted the educational landscape. While TEA has remained disciplined in its focus on student outcomes, the Agency has been forced to pivot to include remote instruction delivery support and initiatives to ensure a safer school experience for students, educators, and staff. Continued progress for students will require not just the Agency but also school systems, elected officials across the state, educators, parents, and communities to work together. Thankfully, we as a state were very well positioned to support students as we entered the COVID-19 crisis. The education policy landscape in Texas is as supportive for students as it has ever been, culminating with the passage of very significant bills such as House Bill 3 (HB 3) during the 86th legislative session. However, many challenges remain.

We understand the difficult task the Legislature has, given the financial disruption of COVID-19, but we cannot allow a public health crisis to become a generational education crisis. It is with this in mind—along with the understanding of a very tight budget situation—that TEA requests a baseline budget that funds current law and enables the state to continue implementing the strategic initiatives launched to date, while requesting only one exceptional item to ensure the challenges faced by different student groups as a result of COVID-19 do not widen the achievement gap. The Windham School District also has an exceptional item that is included in this Legislative Appropriations Request (LAR).

STATE OF TEXAS EDUCATION

There are more than 5.4 million students in over 9,000 public schools, across more than 1,200 school systems which employ more than 363,000 educators. The student population has grown by more than 37 percent over the past two decades. Growth trends have slowed over the last four years and are now 1.1 percent over the previous year. Achieving significant improvements across a system this big takes a tremendous amount of focus and determination on the part of TEA, state leadership, school district leadership, principals, teachers, parents, and students. It is also true that the face of Texas public education has become far more diverse over the past generation. Texas students are 53 percent Hispanic, 27 percent White, 13 percent African American, five percent Asian, three percent multiracial, 0.4 percent Native American, and 0.2 percent are Pacific Islanders. The proportion of school-aged children who are economically disadvantaged is 61 percent, more than 10 percentage points higher than 20 years ago. Notably, over one million Texas students are learning English as their second language.

Student outcomes in Texas have improved, reflecting the hard work of teachers, principals, and instructional leaders across the state. The current A–F accountability system has remained stable since its inception, allowing for meaningful comparisons across years, albeit without the benefit of analyzing performance from the 2019–20 school year because of COVID-19 disruptions and the cancellation of the STAAR assessment. Prior to COVID-19, progress was apparent when examining data at the campus, district, and state levels. From 2018 to 2019, 315 additional districts earned an overall A or B rating, a 26 percentage point increase; student achievement on all subjects, across all grade levels increased between 2018 and 2019 by two percentage points at both the Meets and Masters Grade Level standards. Data from the 2019 STAAR assessments indicates that the rate of students at the Masters Grade Level rose by six percentage points compared to three years prior. The A-F accountability system is the fairest system the state has ever utilized, emphasizing student achievement, school progress, and closing the gaps. Parents, educators, and community members can visit TXschools.gov to see where their schools currently stand, and where they need to focus in order to continuously improve. A-F ratings were issued for districts for the first time in August 2018, and for campuses in August 2019, but not issued to either in August 2020 because of COVID-19.

Graduates from the Class of 2019 improved College, Career, and Military Readiness (CCMR) outcomes by 19 percentage points compared to the Class of 2017, and the percentage of 2019 graduates who earned an industry-based certification increased by eight percentage points. Statewide, 10 percent more students graduated, and 3.5 percent fewer students dropped out compared to 2009. Texas' high school graduation rates are consistently among the highest in the country, and Texas remains

703 Texas Education Agency

committed to postsecondary outcomes for all students. The TEA has convened an Alternative Education Accountability Taskforce with a mission to enhance support and accountability for dropout recovery schools, with the taskforce on track to publish recommendations in Spring 2021.

In 2020, every Texas district and campus received a Not Rated: Declared State of Disaster rating due to COVID-19. The effects of the pandemic prevented most academic assessments from being conducted. This impact will be felt for at least two years given the inability to evaluate student proficiency during the 2019-20 school year and student growth for the year that follows. Our collective inability to administer a valid, reliable, and accurate assessment of student knowledge and skills aligned to Texas standards at the end of the 2019-20 school year has harmed the ability of educators and parents to support our students as the crisis continues into the 2020-21 school year.

POLICY LANDSCAPE

The state of Texas should be extremely proud of the Texas Legislature and their tremendous actions taken on behalf of school students during the 86th Legislative Session. Three bills in particular, House Bill 3 (HB 3), Senate Bill 11 (SB 11), and House Bill 3906 (HB 3906) will impact public education for years to come. HB 3 provided more money for Texas classrooms, increased teacher compensation, reduced recapture, and cut local property taxes for Texas taxpayers. It also made significant educational reforms. SB 11 is a compilation of school safety policies and grants, including facilities upgrades, mental health supports and trainings, creation of threat assessment teams on each campus, compliance requirements related to multi-hazard and emergency operations plans, and establishment of a school safety allotment to districts. HB 3906 authorized TEA to implement significant state assessment reforms. Each of these bills is worth examining in greater detail.

HB 3 contained significant initiatives that support teachers and reward them for excellence, while focusing funding on improving student outcomes, increasing equity, and reducing and reforming property taxes and recapture. A few major improvements from HB 3 include the establishment of the Teacher Incentive Allotment (TIA) with a stated goal of creating a pathway to six-figure teacher salaries, prioritizing high-needs and rural campuses. During the first TIA district application cycle, school systems have received an additional \$40 million for targeted teacher salaries and approximately 3,600 participating teachers have been identified. Another major focus of HB 3 was early education, including the requirement of full day high-quality Pre-K for 4-year-olds and a new Early Education Allotment for students in K-3. HB 3 also added several reading practice requirements including the use of phonics-based instructional materials, reading academies for teachers, the placement of highly effective teachers in K-2, the integration of reading diagnostics in Pre-K – 3, and a science of teaching reading certification requirement for new Pre-K – 6 teachers. Regarding Special Education supports, HB 3 increased the mainstream Special Education weight and added a new Dyslexia Allotment, while also creating a funding incentive to encourage more districts to ensure Special Education students obtain college, career, and military readiness. HB 3 also included two initiatives, the Additional Days School Year funding and Blended Learning funding, that have been especially important as we look for ways to improve public education during the COVID-19 pandemic.

SB 11 was a significant school safety bill that contained several important initiatives to support students and school staff to ensure that schools remain a safe place for learning and achieving at the highest levels. TEA has been working with the Texas School Safety Center (TxSSC), the regional education service centers (ESCs), the Health and Human Services Commission (HHSC) and other stakeholders to develop the Safe and Supportive School Program (SSSP). The SSSP is a comprehensive approach to school safety with an overarching goal to achieve both physical safety and psychological safety for all persons in the learning environment. The six primary functions of the SSSP are to: promote a positive school climate; build multi-tiered systems of support; conduct behavioral threat assessments; ensure campus staffs are well trained; collect data to continuously improve; and support facility safety and security, including planning and implementing multi-hazard emergency operations plans.

HB 3906 provided for a comprehensive set of changes to student assessment over the next several years. For example, it expanded input from educators in the test

703 Texas Education Agency

development process. It also established a gradual transition to 100 percent electronic testing statewide, which will level the playing field for students who need accommodations, while expediting test results, reducing cost, improving administration flexibility, and promoting future innovations. In addition, HB 3906 required TEA to ensure that 25 percent of any state assessment is comprised of non-multiple choice item types that are more likely to mirror effective classroom practices. It established an integrated formative assessment pilot program intended to improve classroom instruction and serve as a possible replacement to the current statewide summative assessment, and the bill eliminated the stand-alone writing assessments for grades 4 and 7.

Beyond legislative action, in the spring of 2018, TEA developed a five-year strategic plan to improve Special Education services in Texas public schools. With improved technical assistance and guidance, enhanced monitoring, and increased family and stakeholder engagement, Texas schools are better equipped to meet the needs of students with disabilities. As part of the strategic plan, TEA has improved guidance and technical assistance regarding “child find” practices and evaluation. This has resulted in an increase of approximately 112,000 more students receiving special education services over the past four school years.

Of note for the purposes of appropriation: The 86th Legislature provided \$219,554,812 in general revenue in Senate Bill 500 to address maintenance of state financial support for special education under 20 U.S.C. Section 1412(a)(18). As of the preparation of this LAR, the use of \$107,928,979 of that total remained pending due to ongoing negotiations with the federal Department of Education. The appropriation expires in June 2021, which prevents TEA from requesting unexpended balance authority to extend the life of the funds so that negotiations can conclude. If the dollars cease to be available for negotiation, the state will likely face the withholding of federal special education funds in a future year by a like amount. This would have a devastating impact on Texas schoolchildren with special needs throughout the state. TEA recommends the 87th Legislature reauthorize the remaining, unspent funding allocation.

COVID-19

As a direct result of COVID-19 and the immediate need of school systems to provide remote learning to students, TEA stood up a number of supports to assist districts in their response, focused on the twin goals of (1) helping keep students, teachers, and staff safe, and (2) re-engineering the school experience so students still reach high academic outcomes even with the effects of the pandemic. Additionally, TEA worked closely with Governor Abbott and legislative leadership to utilize federal funding to provide districts with adequate resources to address the challenges they faced. To date, we have made available nearly \$2 billion in new federal funds for public education as part of the COVID-19 response.

Part of this response ensured school systems received full funding for the 2019-20 school year, along with an additional \$400 million in funding to reimburse for COVID-19 related expenses. In preparation for the start of the 2020-21 school year, TEA worked closely with the Texas Division of Emergency Management (TDEM) to supply school systems with enough personal protective equipment to begin the school year.

In May, Governor Abbott established Operation Connectivity to solve the digital divide for all students in the state of Texas. As a result, legislative leadership and TEA announced this summer that \$200 million from the federal Coronavirus Relief Fund would be available for eLearning devices and home internet solutions. Over one million devices have been procured for students so far, which has been critical to ensuring that all students have access to remote learning as necessary throughout the school year.

Finally, to further assist school systems as our state has pivoted to large-scale remote instruction, TEA developed Texas Home Learning (THL). Early components of THL were designed as an immediate crisis response to the statewide closing of schools in Spring 2020 and provided educational supports to families throughout Summer 2020. THL 3.0 was developed as a free, optional resource for school systems as they face the 2020-21 school year in a COVID-19 environment. THL 3.0 supports instruction in

703 Texas Education Agency

most core subject areas and grade levels, with digitally native, made-for-Texas curricular resources aligned to the Texas Essential Knowledge and Skills (TEKS), and with embedded supports for students in special education and students learning English.

STATEWIDE PLAN FOR STUDENT MENTAL HEALTH

In accordance with SB 11, 86th Legislature, TEA developed a statewide plan for student mental health. The plan identifies the Agency's three goals for broad mental health access for all Texas students:

1. To develop and implement methods to objectively measure progress.
2. To increase the availability of effective school-connected mental health interventions and resources; and
3. To increase the availability of referrals for students and families to specialized services for students outside of school.

Student access to adequate school mental health resources are necessary to achieve the state's goals. Local Education Agencies (LEAs) and ESCs must be equipped to implement comprehensive school mental health strategies through a multi-tiered system of supports (MTSS) that is operationalized statewide as an integrated pillar of the Safe and Supportive School Program established under SB 11.

STATE OF THE TEXAS EDUCATION AGENCY

For the past several years, TEA has embraced the process of continuous improvement toward efficiency and effectiveness in our support of school systems and students. We are strategically focused on those areas that have the greatest impact on the academic achievement and growth of Texas' students. We have adopted a strategic plan to do just that. The plan revolves around four Strategic Priorities:

1. Recruiting, supporting, and retaining teachers and principals
2. Building a foundation of reading and math
3. Connecting high school to career and college
4. Improving low-performing schools

The plan is ambitious, focused, and yet still covers the continuum of education from Pre-K – 12 for a state as large as Texas. It is difficult to execute well, and it requires an adequately sized team of talented staff who are student-focused, tenacious, creative, and willing to learn from mistakes. We will continue to ensure we have such a team at TEA, because we will only be successful in reaching our goals for Texas students if we have the staff to do it, both centrally and in our regional ESCs. We also remain focused on ensuring our team is efficient. When compared to other large state agencies with significant responsibilities, TEA has relatively few full-time equivalent positions (FTEs). TEA had 989.62 FTEs as of August 23, 2020, which is well below the total of 1,100 in place prior to the 2011 budget cuts, even though there were 504,000 more students as of the 2018-19 school year versus 2010-11.

EXCEPTIONAL ITEM REQUESTS

Ensuring Equity in Opportunity through Targeted Supports: This LAR is focused on ensuring we continue to make progress for students, specifically targeting the achievement gap. The COVID-19 pandemic has forced Texas schools to confront unprecedented challenges. While educators and school systems have taken significant

Administrator's Statement

10/9/2020 11:52:47AM

87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

703 Texas Education Agency

actions to provide continuity of instruction for students, the likely negative impact on student learning outcomes remains high. The longer students lack access to on-campus instruction and support services, the higher the stakes become, especially for those students who have historically lacked access to equitable education opportunities, such as low-income, Black, and Hispanic students.

Addressing these challenges will require a new level of focus on proven strategies to accelerate student learning, with a targeted focus on providing additional supports and addressing the specific factors that are impacting these groups of students more significantly. This exceptional item requests funds to support better implementation of two proven strategies:

1. Attract and train effective, diverse educators to the profession, ensuring the equitable distribution of educators and educator training focused on accelerating the academic achievement of student groups that have historically fallen behind and are expected to experience further learning loss due to COVID-19.
2. Ensure support for the development of targeted interventions and campus supports to reduce achievement gaps within district and school environments, including providing equitable access to and effective implementation of high-quality instructional materials that have been shown to reduce the achievement gap.

BACKGROUND CHECKS

The statutory authority and duty of the Agency to conduct background checks on educators (TEC 22.0831), charter school teachers (TEC 22.0832), substitutes (TEC 22.0836), non-certified school employees (TEC 22.0833), and agency employees and contractors who work in schools and have direct contact with students (TEC 22.0834) are found in the Texas Education Code (TEC), Chapter 22, Subchapter C, Criminal History Records. TEA rules and procedures for these background checks are found in 19 Texas Administrative Code (TAC) Chapter 153, Subchapter DD; 19 TAC Chapter 232, Subchapter B; and Texas Education Agency Operating Procedures 04-02 and 07-45. In addition, TEA requires that criminal background checks be conducted on applicants, employees, and interns who have access to confidential databases pursuant to Texas Government Code §411.1405 and Agency OP 07-46. Further information about criminal history background checks is available on the TEA website. TEA's policy for background checks is to require all staff whose job duties may require them to have direct contact with students and all staff whose duties involve access to confidential databases to obtain a national criminal history background check that includes fingerprinting.

AGENCY TRANSITION TO STATEWIDE ERP SYSTEM

The Texas Education Agency has transitioned to the core CAPPs HR/PR application, and continued implementation of specific modules within the system during 2020-2021 biennium.

EXEMPT POSITIONS

The Agency is not asking for any additional exempt positions. In order to align with compensation incentives available at the comparably sized fund managed by Employee Retirement System of Texas (ERS), we are asking for TEA's current Chief Investment Officer's salary ceiling to be set at \$416,401, the same level as the ceiling for the ERS Chief Investment Officer.

CONCLUSION

Even with the challenges posed by COVID-19, there are many reasons to be hopeful for Texas students. The state legislature has wisely crafted a policy framework that is

703 Texas Education Agency

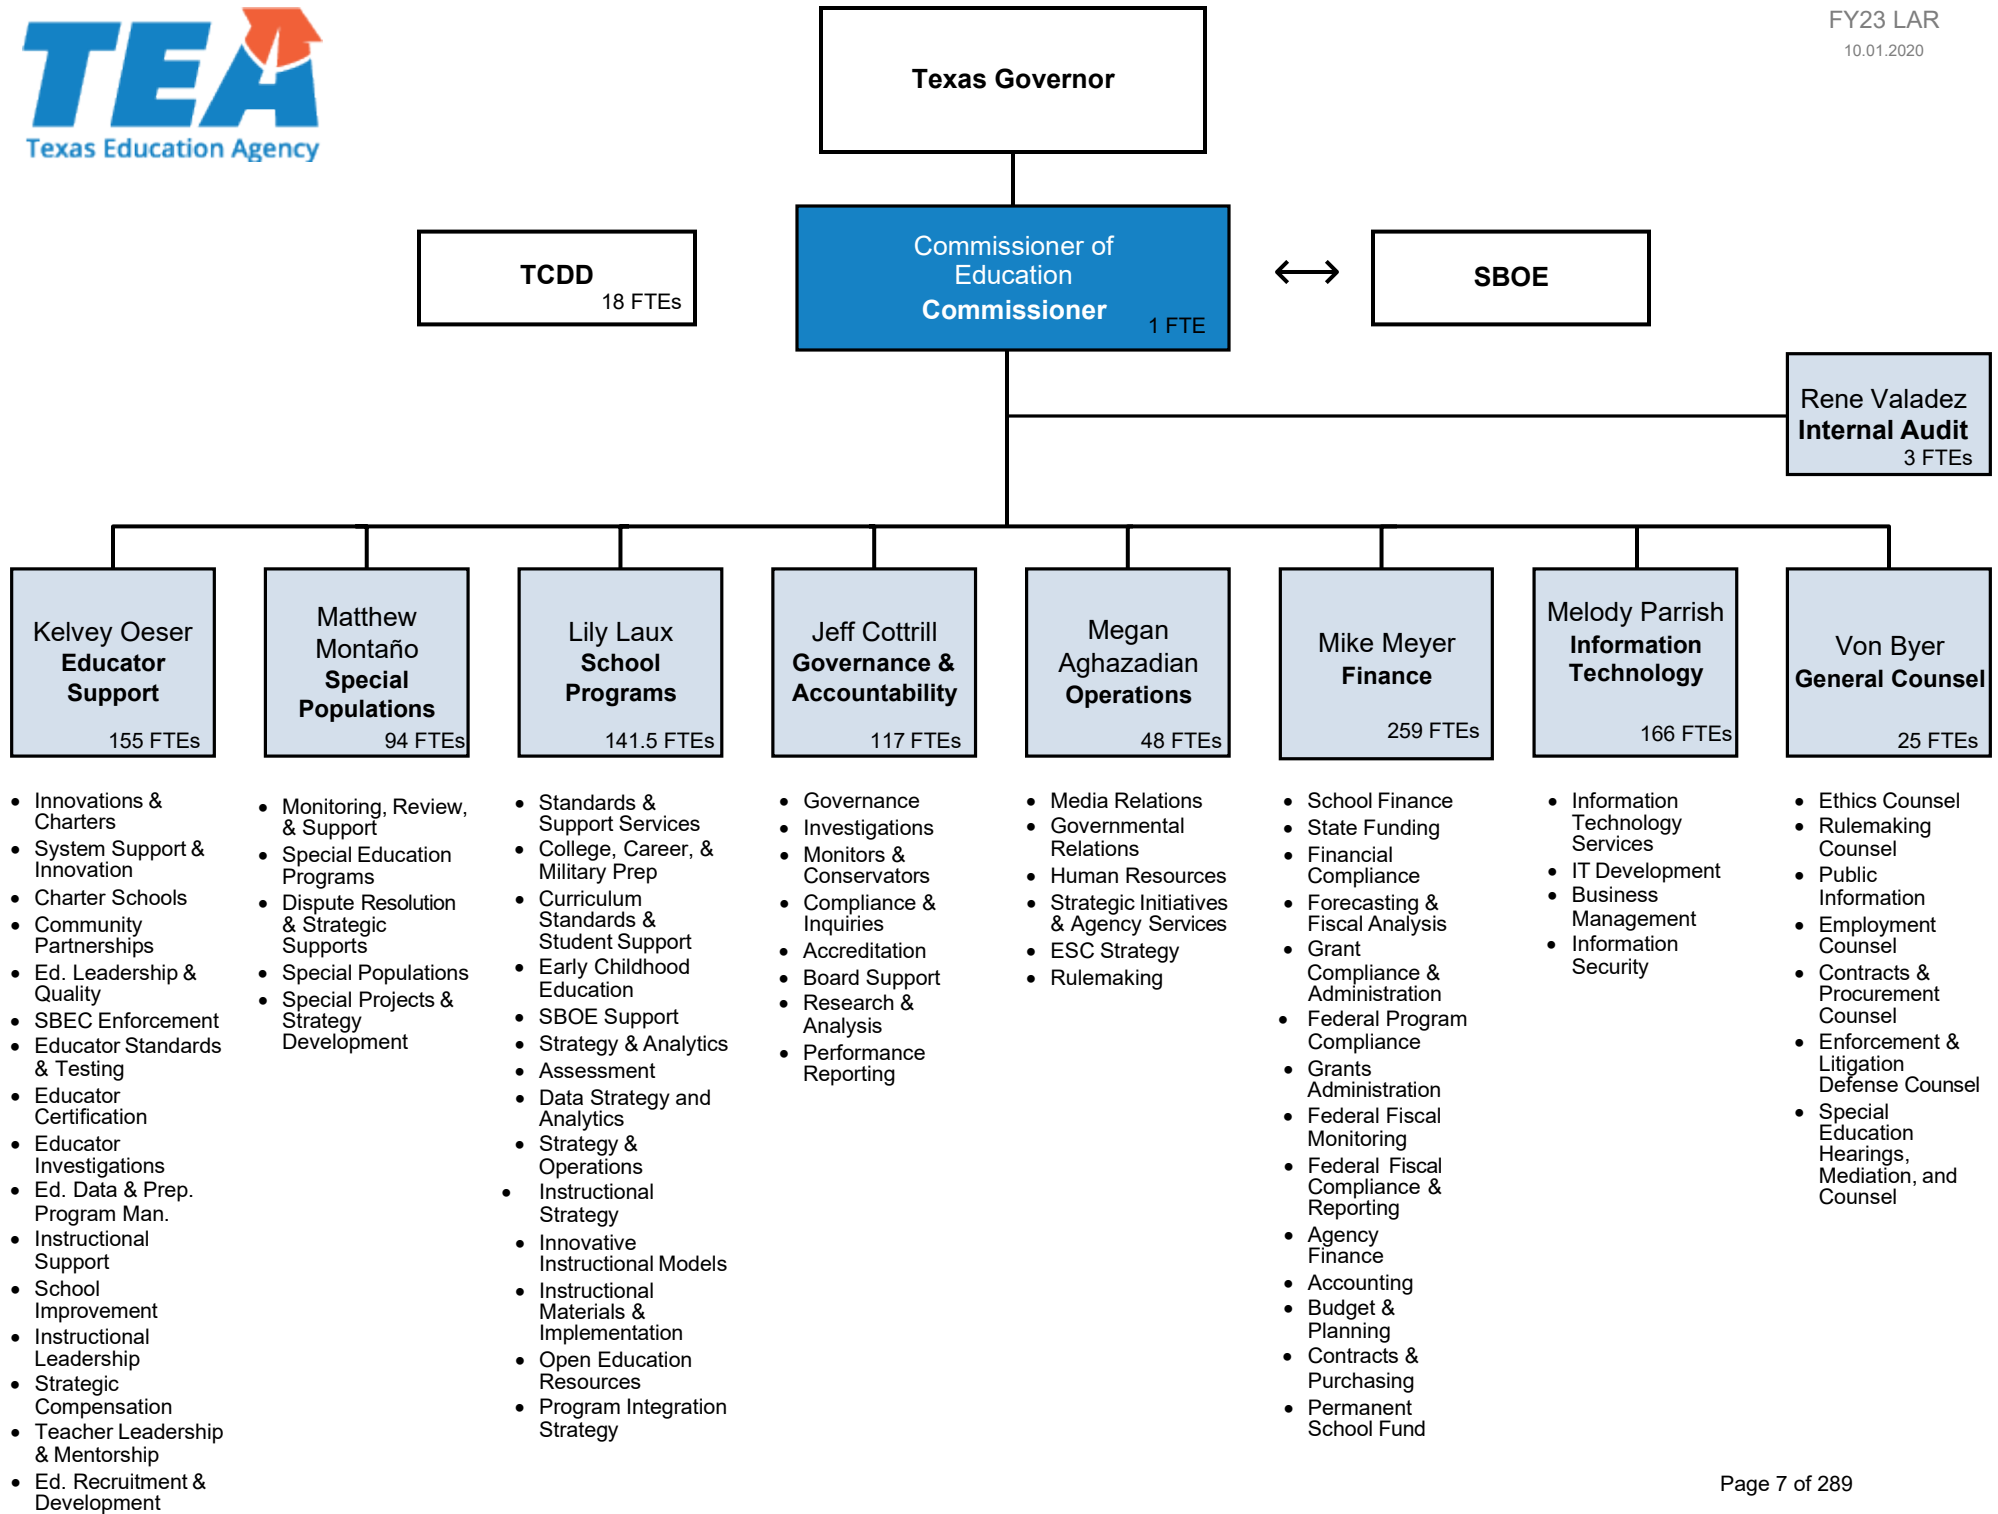

focused on the needs of students. TEA remains diligently focused on executing key strategic priorities for our students. And hundreds of thousands of principals and teachers across Texas work tenaciously to provide students the best education possible. I look forward to continuing to work with you to improve outcomes for all Texas children.

Every child. Every classroom. Every day.

Mike Morath

Organizational Chart

Legislative Appropriations Request – Fiscal Years 2022 and 2023
Texas Education Agency

Commissioner of Education provides statewide leadership and strategic direction for Texas public education. The commissioner is the educational leader of the state, the executive officer of the Texas Education Agency, and executive secretary of the State Board of Education. The commissioner ensures that the agency carries out the duties imposed by the legislature and employs talented leaders to perform the duties of the agency. The commissioner visits different areas of the state, addresses a wide variety of organizations and stakeholders, and works with state leaders and other agencies on education issues.

Internal Audit provides an objective, independent assurance and consulting function whose purpose is to evaluate and improve the effectiveness of risk management, control, and governance processes as a service to agency management and the Commissioner of Education. Internal auditors have free and unrestricted access to all agency activities, records, property, and personnel and to those of agency contractors and subcontractors.

The **Office of General Counsel** provides legal counsel and representation to the agency; provides legal information to school district and charter school personnel and parents regarding school law; responds to thousands of public inquiries; and provides administrative staff and support for all legal activities of the agency. Other major responsibilities include (but are not limited to) serving as liaison to the Attorney General of Texas, providing guidance on ethics to the State Board of Education (SBOE), State Board for Educator Certification (SBEC) and agency staff, as well as providing legal guidance on contracts and procurement matters for TEA.

The **Office of Educator Support** oversees all aspects of the agency's functions regarding educator leadership and quality, guidance and support to the charter school community, and transformation of low-performing schools. Specific areas include: Innovations and Charters, System Support and Innovation, Charter Schools, Community Partnerships, Educator Leadership and Quality, State Board for Educator Certification Enforcement, Educator Standards and Testing, Educator Certification, Educator Investigations, Educator Data and Preparation Program Management, Instructional Support, School Improvement, Instructional Leadership, Strategic Compensation, Teacher Leadership and Mentorship, and Educator Recruitment and Development.

The **Office of Governance and Accountability** is responsible for governance-related agency operations to improve student outcomes. Specific areas include: Governance, which accepts and administers complaints filed with the agency against an LEA; Performance Reporting, which develops and implements systems that are used to report on campus and school district performance, program effectiveness, and data quality; and Research and Analysis, which is responsible for research, analysis, and policy development related to state and federal accountability measures, educational policy research, and educational progress in Texas public schools.

The **Office of School Programs** supports the programmatic needs of public schools throughout the state. Specific areas include: Standards and Support Services; College, Career, and Military Preparation; Curriculum Standards and Student Support; Early Childhood Education; SBOE Support; Strategy and Analytics; Assessment; Data Strategy and Analytics; Strategy and Operations; Instructional Strategy; Innovative Instructional Models; Instructional Materials and Implementation; Open Education Resources; and Program Integration Strategy.

The **Office of Special Populations** is responsible for the agency's support of Texas public school special education programs; strategy development and support for special populations; and monitoring, review, and support of LEAs related to the Individuals with Disabilities Education Act (IDEA) and federal and state statutes. The office also leads a division dedicated to special projects and strategy development.

The **Office of Operations** supports effective and efficient agency operations, the agency's strategic initiatives, Education Service Center (ESC) strategy, and implementation of statutorily required rulemaking and rule review processes for the Commissioner of Education, SBOE, and SBEC. Additional areas include media relations and communications, government relations, human resources, and agency/building services.

The **Office of Finance** leads the agency's efforts to flow resources to Texas Local Education Agencies (LEAs); manage available funding to efficiently improve student outcomes; ensure effective financial controls, monitoring, and reporting; and provide information for legislative appropriations processes and fiscal analyses. Specific areas include School Finance, State Funding, Financial Compliance, Forecasting and Fiscal Analysis, Grant Compliance and Administration, Federal Program Compliance, Grants Administration, Federal Fiscal Monitoring, Federal Fiscal Compliance and Reporting, Agency Finance, Accounting, Budget and Planning, Contracts and Purchasing, and the Texas Permanent School Fund.

The **Office of Information Technology** works closely with all agency divisions to implement innovative technology solutions in a cost-efficient manner to support the goals and priorities of the agency; works closely with education stakeholders to ensure effective implementation and use of the Texas Student Data System (TSDS), which streamlines the school district data collection and submission process and equips educators with timely and actionable student data; and supports 72 in-house applications used by internal and external users. Specific areas include Information Technology Services, IT Development, Business Management, and Information Security.

The **Texas Council for Development Disabilities (TCDD)** is an independent entity administratively tied to TEA, that is responsible for creating change so that all people with disabilities are fully included in their communities and exercise control over their own lives.

Agency code: 703

Agency name: Texas Education Agency

METHOD OF FINANCING	Exp 2019	Est 2020	Bud 2021	Req 2022	Req 2023
<p>Comments: The 86th Legislature passed HB 3, which included the Teacher Incentive Allotment (TIA). In its fiscal impact analysis for the bill, TEA projected increasing participation in the TIA over the first several years of implementation, including an increasing administrative impact and an increase in FTEs by four comparing FY22 to FY21. TEA's base funding request realigns administrative funds accordingly and includes an increase of four FTEs beginning in FY22.</p>					
<p>Article IX, Sec 18.117, 2020-2021 GAA, SB 11</p>	0.0	0.0	0.0	1.0	1.0
<p>Comments: The 86th Legislature passed SB 11, which included significant reforms to school mental health programs, but did not appropriate funding to implement the bill. In FY20, TEA requested to make a funding transfer to achieve a scaled-back implementation; however, as of the preparation of this LAR no action had been taken on the request. TEA's base funding request realigns administrative funds to achieve the scaled-back implementation of the bill and includes an increase of one FTE beginning in FY22.</p>					
<p>Article IX, Sec 6.10, 2020-2021 GAA Limitation on State Employee Levels</p>	0.0	0.0	0.0	22.0	0.0
<p>Comments: TEA anticipates adding a total of 26 federally-funded positions in late FY20 and early FY21 to administer discretionary programs funded under the Coronavirus Aid, Relief, and Economic Security (CARES) Act (22 positions associated with ESSER programs and 4 associated with GEER). The FTE counts in this LAR do not include CARES positions for FY21 as they were unanticipated/unbudgeted; however, they are included in TEA's base request for FY22. All CARES positions are time-limited and expire with the federal dollars in FY23.</p>					
<p>Article IX, Sec 6.10, 2020-2021 GAA Limitation on State Employee Levels</p>	0.0	0.0	0.0	4.0	0.0

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

Chapter 48 of the Texas Education Code (TEC) dictates that the agency determines formula allocations for the Foundation School Program and disburses these funds accordingly. The formula allocations and payments are constantly monitored to ensure that all school districts are receiving the correct amount of state aid. Chapter 49 of the TEC prescribes the mechanisms by which wealth equalization is achieved. Together, these efforts contribute to the state's goals for public school education; the agency's goal of program leadership, guidance, and resources; and the state benchmarks pertaining to increasing the high school graduation rate.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors that may affect this strategy are tied to the number of districts able to receive funds under the program and include local tax effort , student counts, and district property wealth. Internally, the agency's ability to support the administration of a school finance system will depend on adequate staffing and technological support in the applicable areas.

703 Texas Education Agency

GOAL: 1 Provide Education System Leadership, Guidance, and Resources
 OBJECTIVE: 1 Public Education Excellence Service Categories:
 STRATEGY: 2 Foundation School Program - Equalized Facilities Service: 10 Income: A.2 Age: B.1

CODE	DESCRIPTION	Exp 2019	Est 2020	Bud 2021	BL 2022	BL 2023
------	-------------	----------	----------	----------	---------	---------

The Texas Education Code (TEC) establishes a state Instructional Facilities Allotment (IFA) and a state Existing Debt Allotment (EDA) program. These programs provide equalized funding for school facilities. The code directs the agency to determine the amount of money to which each school district is entitled. These programs coordinate with the state's goals for public education; and the agency's goal of program leadership, guidance, and resources.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors that may affect this strategy are tied to the number of districts able to receive funds under the program and include local tax effort, student counts, district property wealth, and the funding levels of the facilities assistance program. The current equalized yield for IFA has remained unchanged since 1999, and the equalized yield for the EDA program has only increased marginally since 2017. As a result, fewer districts are eligible to receive funding.

EXPLANATION OF BIENNIAL CHANGE (includes Rider amounts):

STRATEGY DESCRIPTION AND JUSTIFICATION:

Chapter 28 of the Texas Education Code requires that students possess essential knowledge and skills in all subject areas and requires that students demonstrate satisfactory performance on the state assessment to advance to specific grades. Chapter 28 also outlines high school graduation requirements. Chapter 29 of the code establishes a number of programs to help students achieve academic excellence. This strategy is tied to the state's goals for public education, the agency's goal of program leadership, and the state benchmarks pertaining to reading, mathematics, mastery of the required curriculum, performance on the state assessment, increasing kindergarten readiness and high school graduation rates, and providing instruction to prepare students for postsecondary college or career opportunities.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors impacting this strategy include the agency's ability to provide state leadership and build the capacity of the state public education system to ensure high levels of excellence and achievement for all students, district education programs, and practices. Additional factors that may affect this strategy are the implementation and effectiveness of the student success initiative, local instructional programs, and the state's implementation of a more rigorous curriculum and assessments.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy tracks the implementation of the federal Elementary and Secondary Education Act. The legislation increases accountability for results and provides school districts, charter schools, and state agencies opportunities for increased flexibility in the use of funds. The strategy is tied to the state's goals for public education; the agency's goal of program leadership, guidance, and resources; and the state benchmarks pertaining to reading, mathematics, mastery of foundation subjects as part of the required curriculum, performance on the state assessment, and increasing the high school graduation rate.

Chapters 29 and 30 of the Texas Education Code and the federal Individuals with Disabilities Education Act (IDEA) authorize and direct state and school district programs for students with disabilities receiving special education services, students with visual impairments, and students who are deaf or hard of hearing. Activities that are undertaken in this effort promote and support sound educational practice for students with disabilities and build the capacity of the state 's public education system to ensure high levels of academic performance for students with disabilities. This strategy is tied to the state's goals for public education, the agency's Strategic Plan for Special Education, the agency's goal of program leadership, and the state benchmark pertaining to increasing the high school graduation rate.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors impacting this strategy include the number of students with disabilities, the agency's ability to provide state leadership and build the capacity of the state public education system to ensure high levels of excellence and achievement for all students, district education programs, and practices.

------	-------------	----------	----------	----------	---------	---------

The Texas Education Code (TEC) authorizes a number of school improvement and support programs designed to improve student learning and meet student needs. TEC Chapter 12 provides for home rule school districts, campus charter schools, open-enrollment charter schools, and college, university, or junior college charter schools. Funding in this strategy supports technical assistance to support charter schools and school turnaround and improvement support in coordination with the education service centers (ESCs). TEC Chapter 33 authorizes developmental guidance and counseling programs for at-risk students. This strategy also includes programs such as Communities In Schools (TEC Chapter 33, Subchapter E) and 21st Century Learning Communities designed to support schools by providing supplementary academic and social services targeting students at risk of failing to advance to the next grade or of dropping out. This strategy is also tied to programs such as GEAR UP which is designed to support schools with college awareness and preparation resources. These programs offer education and services to ensure that all students achieve high levels of learning to meet the state's goals for public education. This strategy is tied to the state's goals for public education, the agency's goal of program leadership, and the state benchmarks pertaining to the high school graduation rate and the number of students served under local governance or choice options.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors impacting this strategy include the number of students in need of services as compared to available funding, the level of effort by families, and the availability and effectiveness of state leadership and local programs. Other factors that may impact this strategy include the rate of participation of districts, campuses, and campus programs in these various programs; state-level support and funding; and the ability of districts and charter schools to secure non-state level support and funding, including from private foundations and local fund sources, to provide high quality academic programs.

------	-------------	----------	----------	----------	---------	---------

Chapter 39 of the Texas Education Code (TEC) mandates the creation and implementation of a statewide assessment system to ensure school accountability for student performance. State statute directs the agency to adopt assessment instruments for grades 3 through 8 in reading, writing, mathematics, social studies, and science and five end-of course assessments that are required for graduation from high school. Chapter 39 of the TEC also establishes academic excellence indicators and a statewide accountability system based on those indicators. The statute directs the agency to review annually the performance of each district and campus and rate each district and campus based on the standards for each indicator, including college and career readiness standards on selected end-of-course assessments. The state accountability system is tied to the statewide assessment program and contributes to reaching the state's goals for public education, the agency's goal of operational excellence, and the state benchmarks pertaining to performance on state assessments, increasing the high school graduation rate, and ensuring college and career readiness of high school graduates.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors that may affect this strategy include increases in student enrollment, changes in state and federal legislation related to assessment and accountability, and availability of state and federal funding to support the state assessment program and the state and federal accountability systems.

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

Chapter 32 of the Texas Education Code (TEC) authorizes the development of a Long-Range Plan for Technology for the purpose of integrating technology into curriculum and instruction and emphasizing online learning through virtual education, electronic instructional materials, web 2.0 tools, online professional development, online diagnostic assessments, current data systems and electronic business transactions. Chapter 31 of the Texas Education Code authorizes the commissioner to provide a biennial technology and instructional materials allotment to each school district and open-enrollment charter school. Districts may purchase instructional materials, technological equipment and technology services that are essential to the learning process, or use state-developed open education resource instructional materials. TEC Chapter 30 A authorizes the Texas Virtual School Network that includes a statewide course catalog of supplemental online courses for credit toward high school graduation and full-time online learning options for public school students in grades 3 to 12. This strategy is tied to the state's goals for public education, the agency's goal of operational excellence, and the state benchmark of increasing the high school graduation rate.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors impacting this strategy include the significant expense of implementing advancements in technology. Public school district and open-enrollment charter ability to have the necessary local broadband infrastructures to meet state and national internet connectivity goals can impact their ability to ensure appropriate use of technology as required by this strategy.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Chapter 38 of the Texas Education Code requires implementation of coordinated school health programs, while Chapter 37 of the Texas Education Code directs school districts to develop student codes of conduct and establishes procedures for removing students to disciplinary alternative education programs. The agency will provide coordination, administrative leadership, policy development, and implementation for specific state and federal requirements and programs whose emphasis is on providing opportunities for students to achieve their maximum potential by developing a safe and healthy lifestyle as well as effective student discipline programs based on Chapter 37, Subchapter A, Texas Education Code. This strategy is tied to the state's goals for public education, the agency's goal of operational excellence, and the state benchmark pertaining to the high school graduation rate.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors impacting this strategy include available funding, the number of students exposed to an effective coordinated school health program, actively educating school administrators on the requirements of Chapter 37, Subchapter A of the Texas Education Code, and encouraging the use of Restorative Discipline Practices at fidelity using TEA's recommended tool, and other programs aimed at reducing discipline incidents to districts identified with high numbers of discretionary placements.

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Child Nutrition Act of 1996 (42 U.S.C. Section 1773) and Chapter 33 of the Texas Education Code authorize child nutrition programs and establish guidelines for program participation. These efforts are related to the state's goals for public education and the agency's goal of operational excellence.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors that may impact this strategy include the number of students enrolled in the program, levels of funding, operational changes and challenges in response to the COVID-19 pandemic and possible changes to federal law related to block grants and programs.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Chapter 19 of the Texas Education Code establishes the Windham School District and authorizes the district to establish and operate schools at the various facilities of the Texas Department of Criminal Justice. This strategy is tied to the state's goals for the Windham School District, Section 19.003 of the Texas Education Code, the state's goals for public education, and the agency's goal of operational excellence.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors that may affect this strategy include increases or decreases in the enrollment in the Windham School District and costs of providing academic and career and technical education programs in the schools of the district.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas Education Code (TEC) authorizes a number of programs designed to help recruit, retain, evaluate, and support quality educators to ensure that students succeed in school and graduate prepared for college and careers. TEC Chapter 8 requires the establishment of 20 regional education service centers (ESCs), and funding in this strategy supports the core services of the ESCs. TEC Chapter 21 requires the commissioner to adopt a recommended appraisal process and criteria to appraise the performance of teachers and principals, establishes the local teacher designation systems for strategic compensation, and provides guidance for mentorship programs. This strategy is tied to the state's goals for public education, the agency's goal on instructional leadership, and the state's benchmarks pertaining to educator quality, teacher retention, and student achievement.

------	-------------	----------	----------	----------	---------	---------

Factors impacting this strategy include information technology needs, federal and state funding, the state’s continued support of educator evaluation and support systems, and local funding and support for the implementation of programs related to educator leadership and quality. Other factors include the composition of the teacher workforce, specifically, the increasing number of new teachers who will require support during the induction and early years of their teaching career and the changing demographics of the student population in need of teachers with expertise in supporting students struggling with the effects of language, economic, and special needs barriers.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This administrative strategy is tied to TEA’s efforts to effectively carry out the provisions of the Education Code, achieve the agency's goal of operational excellence, and to surpass state benchmarks pertaining to reading and mathematics, mastery of the foundation subjects, performance on the TAKS/STAAR, high school graduation rate, and others. FY20-21 amounts include transfers under Rider 25. FY22-23 amounts do not; however, TEA anticipates continuing to make use of that authority.

TEA expects to exceed its FTE cap in FY21 as a result of 26 additional federally-funded FTEs to administer programs through the CARES Act. Nearly all of the additional positions (25) will appear in Strategy B.3.2 during FY21 and FY22 and are responsible for the apparent increase in salary expenditures in FY21. The FTE counts in this LAR do not include CARES positions for FY21 as they were unanticipated/unbudgeted; however, they are included in TEA’s base request for FY22. Other FTE increases for FY22-23 in this strategy include the PSF liquid account (8), PSF general operations (1), TIA administration (4), and SB 11 implementation (1). See also Section 2.B.

TEA’s base funding request for FY22-23 realigns administrative funds within the agency’s GR limit to address several items, primarily: (1) updating cost allocation methods for indirect and IT costs attributed to PSF; (2) costs associated with legislative requirements with an IT component that have yet to be implemented; and (3) increasing administrative costs for the Teacher Incentive Allotment as program participation expands.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors that may impact this strategy include: (1) the agency's ability to attract and retain qualified staff with expertise to lead the development, implementation, and evaluation of service center, district, and campus programs and to carry out interventions or sanctions for districts and campuses requiring improvement; (2) TEA's ability to achieve effective technological support for outdated/legacy software applications, and to collect and manipulate high volumes of school district and campus performance data; (3) the complexity and challenges inherent in developing/maintaining conforming and nonconforming lists of textbooks and electronic learning systems, implementing the Commissioner of Education's plan for information access, and implementing/evaluating professional development programs and strategies across a state as large and diverse as Texas; and (4) the impact of stock market volatility on rates of return on investment strategies of agency staff and external managers for the Permanent School Fund.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Chapter 21, Subchapter B, of the Texas Education Code is the enabling statute for this strategy. The State Board for Educator Certification (SBEC), is responsible for regulating and overseeing all aspects of the preparation, certification, continuing education, fingerprinting, and standards of conduct of public school educators. To meet these responsibilities and ensure that educators are qualified to serve in Texas public schools, the following major functions are performed: ensuring the quality of educators upon entry into the teaching profession through certification and the accreditation of educator preparation programs; enforcing professional standards of conduct; and promoting continuous professional development of educators. This strategy is tied to the state's goals for public education, the agency's goal of operational excellence, and the state's benchmarks pertaining to the number of teachers certified through alternative programs.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

703 Texas Education Agency

GOAL: 2 Provide System Oversight & Support
 OBJECTIVE: 3 Educator Recruitment, Retention, and Support Service Categories:
 STRATEGY: 3 State Board for Educator Certification Service: 16 Income: A.2 Age: B.3

CODE	DESCRIPTION	Exp 2019	Est 2020	Bud 2021	BL 2022	BL 2023
------	-------------	----------	----------	----------	---------	---------

As the student population and the Texas economy continue to grow, all districts are challenged to recruit and retain certified teachers. There is an increasing demand for effective educators who can meet high standards designed to improve student performance. These demands will require issuing credentials efficiently, ensuring high standards for preparation programs, and upholding standards of conduct of public school educators. As the number of educators increases, the demands for investigations and sanctions will continue to grow. Information technology needs also factor greatly into the success of implementing this strategy.

Note, teacher certification and assessment exams dropped off significantly during FY20 as a result of the coronavirus pandemic, resulting in a base reduction totaling 5M to related fees (MOF 0751). However, TEA anticipates a rebound in exams during FY21, and a return to more normal patterns during the 2022/2023 biennium. The agency respectfully requests that its appropriation be increased to match the Biennial Revenue Estimate once that is available to ensure TEA has adequate resources available to effectively administer teacher certification programs.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy provides central organizational support to all Texas Education Agency programs. This includes establishing and administering overall agency policy and directing and managing agency business and fiscal operations. These functions include Commissioner leadership, communications, governmental relations, financial operations, payroll, human resources, internal audit and legal services. This strategy is tied to the state's goals for public education, the agency's goal of operational excellence, and the state benchmark pertaining to the high school graduation rate.

TEA's base funding request for FY22-23 realigns administrative funds within the agency's GR limit to address several items, primarily: (1) updating cost allocation methods for indirect and IT costs attributed to PSF; (2) costs associated with legislative requirements with an IT component that have yet to be implemented; and (3) increasing administrative costs for the Teacher Incentive Allotment as program participation expands.

-------------	--------------------	-----------------	-----------------	-----------------	----------------	----------------

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Factors that may impact this strategy include the agency's ability to attract and retain qualified staff and effectively address information technology needs. Staff recruitment and retention are impacted by market competition, including from other state agencies that may offer higher salaries for certain functions, such as contracting, fiscal management, and legal services.

------	-------------	----------	----------	----------	---------	---------

The Office of Information Technology Services goals are to improve technology systems to provide reliable and secure services, especially with regard to student data, that meet educator stakeholder needs; and to protect and secure technology assets, information, and citizen privacy. This will ensure that TEA securely collects, manages and provides high-quality, near real-time and actionable data from the 1,247 school districts and charter schools. The agency must ensure sufficient information technology services are available and hardware and software support is in place to ensure availability of all resources and compatibility between systems. The agency is dependent on sufficient funding for new, ongoing, and recurring technology costs to successfully meet these goals.

TEA expects to exceed its FTE cap in FY21 as a result of 26 additional federally-funded FTEs to administer programs through the CARES Act. One of the positions will appear in Strategy B.3.5 during FY21 and FY22. The FTE counts in this LAR do not include CARES positions for FY21 as they were unanticipated/unbudgeted; however, they are included in TEA's base request for FY22.

TEA's base funding request for FY22-23 realigns administrative funds within the agency's GR limit to address several items, primarily: (1) updating cost allocation methods for indirect and IT costs attributed to PSF; (2) costs associated with legislative requirements with an IT component that have yet to be implemented; and (3) increasing administrative costs for the Teacher Incentive Allotment as program participation expands.

------	-------------	----------	----------	----------	---------	---------

Factors that may affect this strategy include: statutory changes to business/program area requirements requiring automation; shifting of the procurement model from commodities to services; implementation and upgrades of data privacy and cybersecurity initiatives; support of ongoing maintenance in the Texas Student Data System (TSDS); continued transition to a Service-Oriented Architecture (SOA) environment to allow reuse of shared components within a scalable systems architecture; continued use of business intelligence tools; and continued use of electronic forms and data capture tools.

Note, teacher certification and assessment exams dropped off significantly during FY20 as a result of the coronavirus pandemic, resulting in a base reduction totaling 5M to related fees (MOF 0751). However, TEA anticipates a rebound in exams during FY21, and a return to more normal patterns during the 2022/2023 biennium. The agency respectfully requests that its appropriation be increased to match the Biennial Revenue Estimate once that is available to ensure TEA has adequate resources available to effectively administer teacher certification programs.

CODE	DESCRIPTION	Exp 2019	Est 2020	Bud 2021	BL 2022	BL 2023
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas Education Code (TEC), Section 21.048 requires that individuals pass examinations in the areas in which they seek certification. This function ensures the quality of educators upon entry into the teaching profession through development and administration of the Texas Examinations for Master Teachers (TExMaT); Texas Examinations of Educator Standards (TExES); Bilingual Target Language Proficiency Test (BTLPT); Languages other than English (LOTE) and Texas Assessment of Sign Communication (TASC) and (TASC-ASL) testing programs. Individuals typically take the TExES Pedagogy & Professional Responsibilities test and additional tests in the academic disciplines in which they seek certification while completing a program of preparation for the specific certificate(s). These tests assess the prospective educator's knowledge of academic content and teaching, including understanding of research-based pedagogy and appropriate methodologies.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

As the Texas Education Agency (TEA) and the State Board for Educator Certification (SBEC) continue to seek ways to improve educator quality, teacher certification examinations must be aligned with the Texas Essential Knowledge and Skills (TEKS) and ensure a strong foundation in content pedagogy. Additionally, as the State Board of Education engages in an ongoing process of reviewing, revising, and updating the TEKS, teacher certification exams are adjusted accordingly as a part of the test development and review of current certification exams. It is critical that newly certified Texas teachers have more than sufficient content and pedagogical knowledge and skills to teach the TEKS.

Note, teacher certification and assessment exams dropped off significantly during FY20 as a result of the coronavirus pandemic, resulting in a base reduction totaling 5M to related fees (MOF 0751). However, TEA anticipates a rebound in exams during FY21, and a return to more normal patterns during the 2022/2023 biennium. The agency respectfully requests that its appropriation be increased to match the Biennial Revenue Estimate once that is available to ensure TEA has adequate resources available to effectively administer teacher certification programs.

3.A.1. PROGRAM-LEVEL REQUEST SCHEDULE
87th Regular Session, Agency Submission, Version 1

Agency Code: 703		Agency: TEXAS EDUCATION AGENCY			Prepared By: Budget Division					
Date:	10/9/2020	Program							Biennial Difference	
Strategy	Strategy Name	Priority	Program Name	Legal Authority	2020-21 Base	Requested 2022	Requested 2023	Biennial Total 2022-23	\$	%

Program Prioritization: *Indicate the methodology or approach taken by the agency, court, or institution to determine the ranking of each program by priority.*

TEA began prioritizing its 108 items by grouping them into four tiers:
 (1) programs required by state or federal law,
 (2) administrative activities,
 (3) discretionary programs, and
 (4) items that expire during the 2020/2021 biennium.

Within each tier, any programs that appeared more than once (for example, an administrative activity funded out of more than one appropriation strategy) were considered as a unit.

Within Tier 1, programs were ordered based on factors such as reach, impact on special/vulnerable populations, and impact to student outcomes.

Within Tier 2, activities were ordered based primarily on their impact to TEA's ability to deliver on its statutorily required functions.

Within Tier 3, programs were again ordered based on factors such as reach, impact on special/vulnerable populations, and impact to student outcomes, with additional consideration given to the degree of connection to TEA's strategic plan.

Within Tier 4, programs were ordered primarily based on how they would have been categorized amongst the other tiers if not for the fact that they were expiring.

3	III-5 – III-6	<p>Foundation School Program Funding. In addition to funds appropriated above, the Foundation School Program is funded with local school district tax revenue. Local school district tax rates are adopted by locally elected school board trustees. Local school property tax rates are not set by the Legislature.</p> <p>Out of the funds appropriated above, and any other funds appropriated for the Foundation School Program during the 2020-21 2022-23 biennium, a total of \$25,659,116,928<u>25,168,743,286</u> in fiscal year 2020<u>2022</u> and \$26,247,131,739<u>26,813,200,938</u> in fiscal year 2021<u>2023</u> shall represent the sum-certain appropriation to the Foundation School Program. The total appropriation may not exceed the sum-certain amount. This appropriation includes allocations under Chapters 46, 48 and 49 of the Texas Education Code.</p> <p>Formula Funding: The Commissioner shall make allocations to local school districts under Chapters 46, 48 and 49 based on:</p> <ul style="list-style-type: none"> (a) estimates of average daily attendance provided by the Texas Education Agency in March <u>2021</u>; (b) local district tax rates as determined by the Legislative Budget Board; (c) final tax year 2018-2020 property values; (d) and assumed increases in property values, and the estimates of local tax collections on which they are based, as estimated by the Comptroller of Public Accounts, of 5.764<u>4.01</u> percent for tax year 2019 <u>2021</u> and by 4.01 percent for tax year 2020 <u>2022</u>. <p>The estimates identified in subsections (a) - (d) are projections provided by the Comptroller of Public Accounts and Texas Education Agency and used solely to determine initial state aid payments to school districts, and do not factor into the calculations of local tax base changes. Actual property value changes are determined by local appraisal districts.</p> <p>To the extent that estimates provided for in subsections (a) - (d) above differ from a school district's actual average daily attendance, tax rates, property values, or local tax collections, the Commissioner shall settle-up with local school districts pursuant to Rider 7, Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues and applicable provisions in Chapters 46, 48, and 49 of the Education Code.</p>

6	III – 7	<p>Windham Schools. The funds appropriated above in Strategy B.2.4, Windham School District, are to be expended only for academic and vocational educational programs approved by the Texas Education Agency. The Commissioner of Education shall allocate \$58,356,507<u>54,259,259</u> in fiscal year 2020<u>2022</u> and \$55,873,512<u>54,259,258</u> in fiscal year 2021<u>2023</u> to the Windham Schools based on contact hours for the best 180 of 210 school days in each year of the biennium. The contact hour rates for the 2020-2021<u>2022-2023</u> biennium are estimated to be: \$4.478<u>264.698</u><u>07</u> for academic education, \$3.674<u>453.876</u><u>48</u> for vocational education.</p> <p>Included in amounts allocated to the Windham Schools is \$2,506,611 in each fiscal year of the 2020-2021 biennium to provide a salary increase of \$3,000 for each academic staff member, librarian, academic counselor, and school nurse, and a four percent salary increase for all other field staff.</p> <p>The Windham School District shall use funds appropriated above to serve those students whose participation will help achieve the goals of reduced recidivism and the increased success of former inmates in obtaining and maintaining employment. To achieve these goals, younger offenders with the lowest educational levels and the earliest projected release or parole eligibility dates should receive high priority. This policy shall not preclude the Windham School District from serving other populations according to needs and resources. For students who successfully complete the district's program during the 2018-19<u>2020-21</u> biennium, the Windham School District shall report to the Eighty-seventh Legislature on the following: recidivism rates, employment rates, and attainment of GEDs, high school diplomas, professional certifications, and adult education literacy levels.</p> <p><i>Justification: Updated year references. Struck portion of this rider added by the 86th Legislature in it's response to HB 3. However, it is no longer necessary as salary increases for school personnel have been operationalized. Removing unnecessary language simplifies TEA's bill pattern.</i></p>

28	III-12	<p>FSP Funding for the Texas Juvenile Justice Department. Out of the funds appropriated above in Strategy B.2.2, Health and Safety, the Texas Education Agency shall allocate to the Texas Juvenile Justice Department a prorated basic allotment of the Foundation School Program equivalent to the basic allotment that would be generated by a school district with an \$0.86 maintenance and operations tax effort minus the amounts allocated to the commission department pursuant to Texas Education Code §30.102 (a) for each student in average daily attendance. These amounts are estimated to be \$4,789,7034,392,040 in fiscal year 2020 2022 and \$4,789,7034,001,840 in fiscal year 2021 2023. This transfer shall not be subject to the limitation in Rider 25, Limitation on the Transfer and Use of Funds.</p> <p><i>Justification: Updated year references. These changes consolidate school funding provided to TJJD under TEA Rider 88 into other school funding provided through TEA Rider 28. This simplifies TEA's bill pattern by allowing deletion of Rider 88, while streamlining program administration. The merger of the funding is accomplished by removing the proration factor in current Rider 28. This results in total funding provided to TJJD that slightly exceeds (by 5%) the funding that would be provided between the two riders if the language was left unchanged. Removal of the proration factor carries a secondary benefit in that it has been a source of confusion and debate in prior legislative cycles. Calculating funding using a non-prorated basic allotment is more transparent and equitable.</i></p>

35	III-14	<p>Receipt and Use of Grants, Federal Funds, and Royalties. The Commissioner of Education is authorized to apply for, receive and disburse funds in accordance with plans or applications acceptable to the responsible federal agency or other public or private entity that are made available to the State of Texas for the benefit of education and such funds are appropriated to the specific purpose for which they are granted. For the 2020-21 <u>2022-23</u> biennium, the Texas Education Agency is appropriated any royalties and license fees from the sale or use of education products developed through federal and state funded contracts managed by the agency. The Texas Education Agency shall report on a quarterly basis to the Legislative Budget Board and to the Governor on grants or earnings received pursuant to the provisions of this rider, and on the planned use of those funds.</p> <p>Any grant or royalty balances as of August 31, 2020-2022, are appropriated for the 2021-2023 fiscal year for the same purpose.</p> <p style="margin-top: 20px;"><i>Justification: Updated year references.</i></p>

75	III-25	<p>Administrative Cost Savings Through Strategic Insourcing. It is the intent of the Legislature that the Texas Education Agency shall internally provide previously contracted maintenance services for certain software applications. Accordingly, included in appropriations above in Strategy B.3.5, Information Systems—Technology, are reductions of \$295,000 from the General Revenue Fund in each fiscal year of the biennium, and included in the Number of Full Time Equivalents (FTE) listed above is an increase of 12.0 in each fiscal year of the biennium. The purpose of these changes is to reduce costs associated with contracted services for software application maintenance by bringing these functions in house to be accomplished by Texas Education Agency employees. A portion of the reduction in General Revenue savings is expected to be offset by increased costs associated with employee benefits.</p> <p style="text-align: right;"><i>Justification: Deletion of rider as the rider is no longer necessary as the funding and FTEs have been integrated into TEA operations and are already accounted for in the agency's base funding request.</i></p>

Description/Justification for continuation of existing riders or proposed new rider

Fee appropriation adjustments from GED Fees and Guaranteed Bond Funds. Rider 24 specifies that the revenue generated by certain fee-supported programs cover, at a minimum the cost of the appropriation made to support the program, as well as the "other direct and indirect costs" associated with those functions. All fees collected in excess of the Comptroller of Public Accounts Biennial Revenue Estimate are appropriated to the Texas Education Agency. When actual and/or projected fee collections are insufficient to offset program cost, the Legislative Budget board may direct the Comptroller of Public Accounts to reduce the appropriation authority to the amount of fee revenue expected to be available. No significant impact on performance measures or FTE's are anticipated in 2022 and 2023 and this rider needs to continue.

Description/Justification for continuation of existing riders or proposed new rider

Beginning in 2019, TEA assumed responsibility for the administration of the Texas Virtual School Network (TxVSN) which had previously been administered by Educational Service Center Region 10. Revenue received is for training courses provided to Local Education Agencies. No significant impact on performance measures or FTE's are anticipated in 2022 and 2023 and this rider needs to continue.
