Secondary School Completion and Dropouts in Texas Public Schools, 1998-99: Supplemental District Data

Introduction

The data tables and listings in this report provide secondary school completion and dropout data at the district level as a supplement to *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99* (Texas Education Agency (TEA), 2001a). This supplement includes annual dropout rates and the new longitudinal rates for secondary school graduates, General Educational Development (GED) recipients, continuing students, and dropouts. District-by-district listings of 1998-99 annual dropout rates and completion/student status rates for the classes of 1998 and 1999 are presented. Also included is a table with selected rates for the 20 largest school districts. A schematic is provided illustrating the relationship, at the district level, of annual and longitudinal dropout counts. In addition, the district listing of returning and non-returning students has been reproduced. Finally, tables are presented allowing comparisons of average annual dropout and longitudinal dropout rates for district groupings based on a variety of enrollment, staffing, and financial characteristics. Supplemental listings at the county, district, and campus level are available in *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99: County, District, and Campus Listings* (TEA, 2001b) and *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99: District and Campus Listings* (TEA, 2001c).

Calculations

All data used in this report were collected and reported by Texas school districts and charter schools through the Public Education Information Management System (PEIMS) maintained by the TEA. The rate calculations are the same as those used in the Academic Excellence Indicator System (AEIS).

The annual dropout rate in this report is the percentage of students who dropped out of Grades 7-12 during the 1998-99 school year:

$$\text{annual dropout rate} = \frac{\text{number of dropouts during the school year}}{\text{total number of students served during the school year}} \times 100$$

Dropouts are defined and counted as per *1998-99 Public Education Information Management System Data Standards* (TEA, 1998), the *1999-2000 Public Education Information Management System Data Standards* (TEA, 1999a), the *2000 Accountability Manual* (TEA, 2000), and *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99* (TEA, 2001a). The total number of students in the denominator is the cumulative number of students in attendance in the district at any time during the school year. The 1998-99 annual dropout rate is a base indicator in the 2000 campus and district ratings.

This year, TEA has introduced a new set of longitudinal rates. These rates show the high school outcomes for the members of a Grade 9 cohort of students. Students who transferred out are removed from the

cohort. Students who transferred in on grade-level are added to the cohort. The final status of each student is determined the year graduation was expected, or four years after entering Grade 9. The final four outcomes included are: graduated, received a GED certificate, continued high school, or dropped out. As an example, the longitudinal rate for graduates is calculated by dividing the number of students who graduated by the number of students in the cohort:

$$\text{longitudinal rate, graduated} = \frac{\text{number of students graduating by year 4}}{(\text{number of students entering Grade 9}) - (\text{transfers out}) + (\text{transfers in})} \times 100$$

Longitudinal rates for GED recipients, students who continued high school, and dropouts are calculated in a similar manner. The sum of the four rates is equal to 100 percent. This year, rates are reported for two years: the class of 1998, or the 1994-95 Grade 9 cohort, and the class of 1999, or the 1995-96 Grade 9 cohort. The class of 1998 and class of 1999 longitudinal rates are report-only indicators in the 2000 AEIS.

Notes on Tables 1 through 3

Cohort

TEA longitudinal secondary school student status rates are based on a Grade 7 or Grade 9 cohort. A 1994-95 Grade 9 cohort, for example, consists of all students who attended Grade 9 in a Texas public school for the first time during the 1994-95 school year. The cohort is named based on the expected year of graduation. In our example, this is the class of 1998. Each member of the cohort is tracked through the fall of 1998, and a final status is assigned. Students who transfer out are removed from the cohort. Students who transfer in on grade-level—for example, into Grade 10 in 1995-96—are added to the cohort. The final status assigned may be: graduate, General Educational Development (GED) recipient, continuing, or dropout. Students with any other final statuses, or without final statuses, are removed from the cohort.

Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

Dropout

Dropouts are defined and counted as per *1998-99 Public Education Information Management System Data Standards* (TEA, 1998), the *1999-2000 Public Education Information Management System Data Standards* (TEA, 1999a), the *2000 Accountability Manual* (TEA, 2000), and *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99* (TEA, 2001a). A student who drops out but later returns or receives a diploma or GED certificate is counted based on his or her final status, not as a dropout.

Economically Disadvantaged

The number of students eligible for free or reduced-price lunch or eligible for other public assistance as defined in the *1999-2000 Public Education Information Management System Data Standards* (TEA, 1999a) is used as a proxy for the number of economically disadvantaged students. Eligibility for free or reduced price lunch or other public assistance is reported for each student at the time of enrollment.

Ethnicity/race

Ethnicity/race is one of the demographic characteristics reported for each student at the time of enrollment.

GED recipient

A student awarded a GED certificate.

Graduate

A student awarded a high school diploma by a Texas public school.

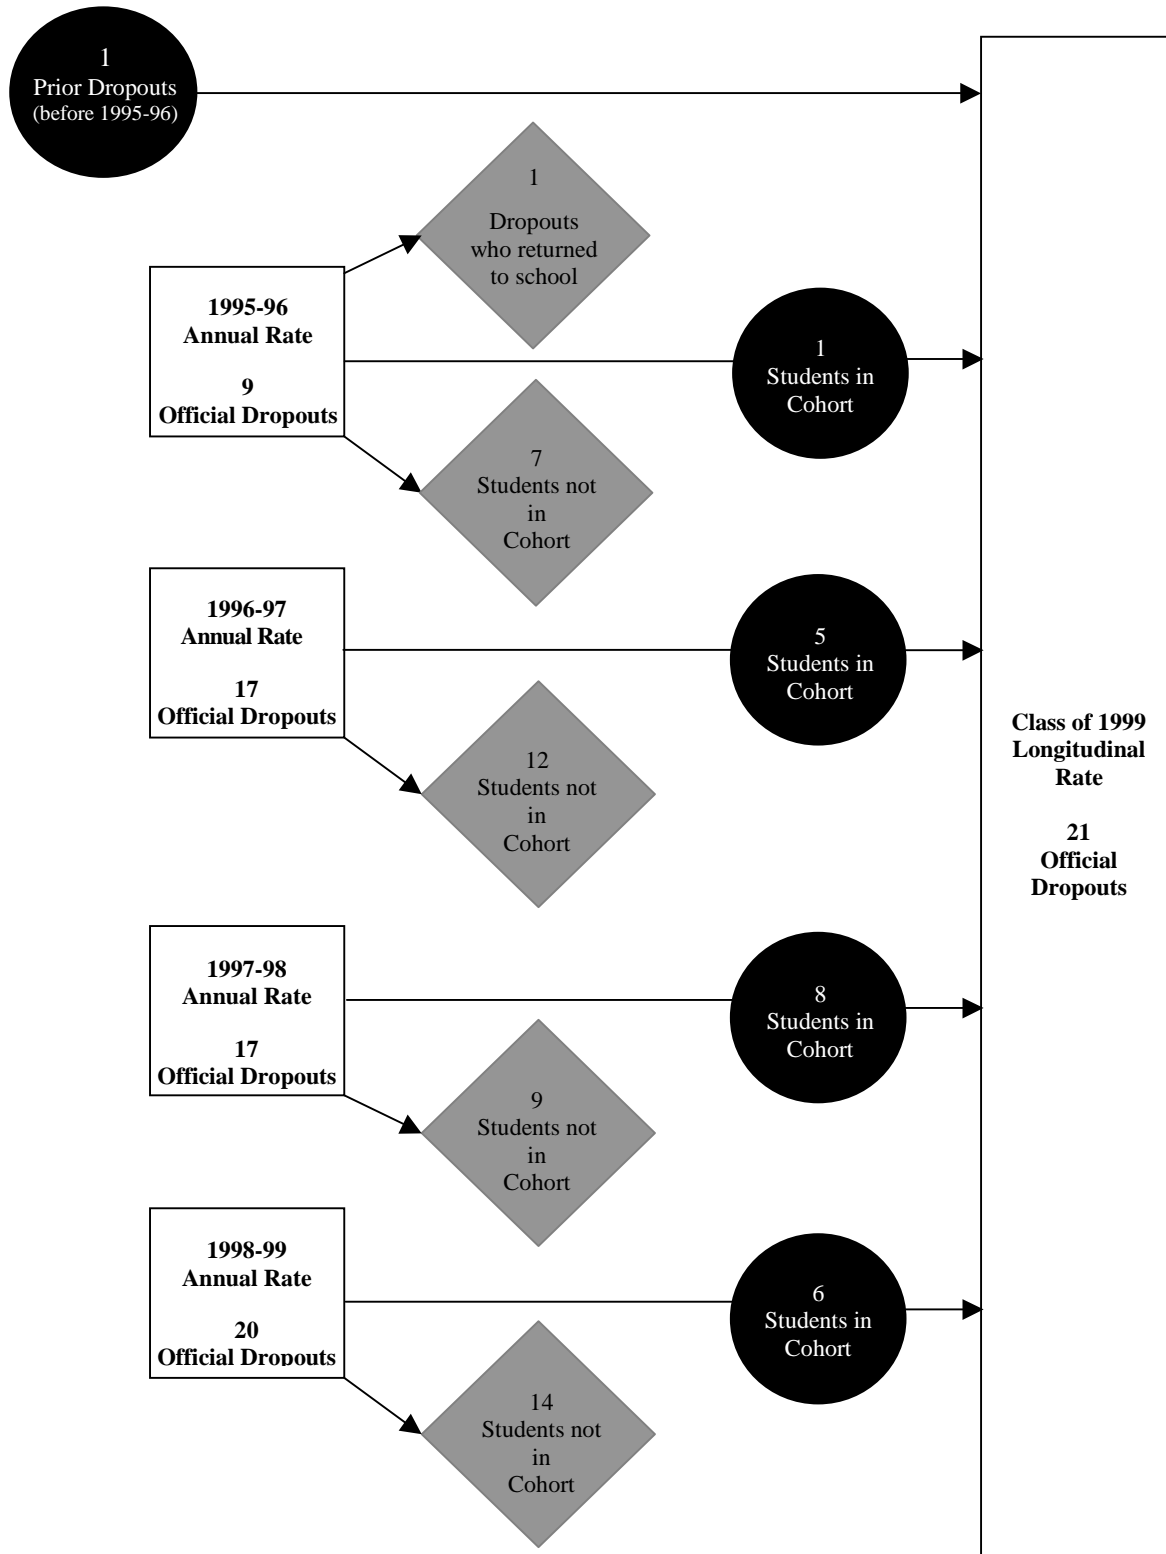

Total Students

A cumulative total of students served at the campus, or in the district, county, or state, during the school year.

Figure 1

Comparing Annual and Longitudinal Dropout Counts at the District Level

Figure 1. Comparing Annual and Longitudinal Dropout Counts at the District Level. This chart demonstrates how annual counts of official dropouts are related to the number of dropouts in the longitudinal rate at the district level. The numbers provided in this chart are for illustration only. See facing page for a detailed explanation of each element in the chart.

Notes on Table 4

Note. A district is listed if any students in Grades 7-12 were enrolled in 1998-99. Methods of counting over-reported, under-reported, and, therefore, reporting total, differed slightly in 1998-99 from 1997-98. This difference is due to slightly different matching criteria used between the two years. "No data available" indicates enrollment and leavers were not reported in that year. "Data masked to protect student anonymity" indicates a reporting total of less than five student records.

Dropout Records Excluded (5)

Students reported by districts as dropouts but whose records were excluded from the dropout counts. Students were excluded from the dropout count if, for example, they were found in enrollment or attendance elsewhere in the Texas public school system or earned a GED.

Leaver Records Excluded (7)

Students reported by districts as having left school, but whose records were excluded from the leaver count. Students were excluded from the Official Leavers count if, for example, they were found re-enrolled or in attendance elsewhere in the Texas public school system or had earned a GED.

Official Dropouts (4)

Students counted as dropouts for accountability ratings.

Official Leavers (6)

Students reported by districts as having left school without graduating or dropping out.

Over-reported (8)

Students reported as graduates, dropouts, or other leavers in the fall data submission of the next year, although the students had not been reported as enrolled or in attendance in the district during the year.

Reported Graduates (3)

Students reported as graduates in the leaver record in the fall data submission of the next year.

Reporting Total (1)

Total number of records for students in Grades 7-12 who (a) were reported in enrollment or attendance, or (b) were not reported in enrollment or attendance, but were reported as a graduate, dropout, or other leaver in the fall data submission of the next year.

Returning Students (2)

Students reported in enrollment or attendance in the current school year who were reported to have re-enrolled in the same district by January of the next school year.

Under-reported (9)

Students reported in enrollment or attendance for whom neither re-enrollment nor leaver information was reported in the fall data submission of the next year. The Percent Under-reported is calculated by dividing the number of Under-reported students by the Reporting Total and multiplying by 100: $\text{Percent Under-reported} = (\text{Under-reported} / \text{Reporting Total}) \times 100$

Table 5

Annual Dropout Rates, Grades 7-12, by District Characteristic, 1998-99

Notes on Tables 5 and 6

Average Teacher Experience

A four-category grouping based on average years of teacher experience. This average is computed by taking the total years of professional experience for each district teacher, multiplying by each teacher's full-time-equivalent (FTE) count, summing these products for the whole district, and dividing by the total teacher FTE count.

Average Teacher Salary

A four-category grouping based on average district teacher salary. This average is computed as the total salary of teachers divided by the total teacher FTE count. Total salary amount does not include any other supplement.

Cohort

TEA longitudinal secondary school student status rates are based on a Grade 7 or Grade 9 cohort. A 1994-95 Grade 9 cohort, for example, consists of all students who attended Grade 9 in a Texas public school for the first time during the 1994-95 school year. The cohort is named based on the expected year of graduation. In our example, this is the class of 1998. Each member of the cohort is tracked through the fall of 1998, and a final status is assigned. Students who transfer out are removed from the cohort. Students who transfer in on grade-level—for example, into Grade 10 in 1995-96—are added to the cohort. The final status assigned may be: graduate, General Educational Development (GED) recipient, continuing, or dropout. Students with any other final statuses, or without final statuses, are removed from the cohort.

Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

Cost of Education Index (CEI) Level

A five-category grouping of districts based on the CEI level. It reflects geographic variations in costs and prices outside district control. The current index, which has a minimum value of 1.0 and maximum of 1.2, was implemented in 1991-92.

Density

A four-category grouping based on density, or the number of students enrolled per square mile. District square miles were determined through a joint effort by the State Property Tax Board (SPTB, now the Comptroller's Property Tax Division (CPTD)), TEA, and the Texas Water Commission (TWC). Maps provided by districts to the SPTB were

digitized by TWC to determine acreage. A fifth category is reserved for the special statutory and charter school districts that lack area information.

District Type

Classification of school districts based on factors such as size, growth rates, and proximity to urban areas is listed below. Charter school districts form a separate category.

Major Urban. The state's largest metropolitan districts serving the Houston, Dallas, San Antonio, Fort Worth, Austin, and El Paso areas.

Major Suburban. Other districts in and around the major urban areas.

Other Central City. Major districts in other large Texas cities.

Other Central City Suburban. Other districts in and around the other large, but not major, Texas cities.

Independent Town. Largest districts in counties with populations of 25,000 to 100,000, or the number of students enrolled is greater than 75 percent of the largest district.

Non-Metro: Fast Growing. Districts not fitting in any of the above categories but exhibiting a five-year growth rate of at least 20 percent with at least 300 students enrolled.

Non-Metro: Stable. Districts not fitting any of the above categories but with an enrollment exceeding the state median.

Rural. Districts not fitting any of the above categories; districts either with an enrollment between 300 and the state median and a growth rate less than 20 percent, or with an enrollment less than 300.

Charter School Districts. The open-enrollment school districts chartered by the State Board of Education. Charter schools operate in facilities of commercial or nonprofit entities or a school district.

Dropout

Dropouts are defined and counted as per 1998-99 *Public Education Information Management System Data Standards* (TEA, 1998), the 1999-2000 *Public Education Information Management System Data Standards* (TEA, 1999a), the 2000 *Accountability Manual* (TEA, 2000), and *Secondary School Completion and Dropouts in Texas Public Schools, 1998-99* (TEA, 2001a). A student who drops out but later returns or receives a diploma or GED certificate is counted based on his or her final status, not as a dropout.

Economically Disadvantaged

The number of students eligible for free or reduced-price lunch or eligible for other public assistance as defined in the 1999-2000 *Public Education Information Management System Data Standards* (TEA, 1999a) is used as a proxy for the number of economically disadvantaged students. Eligibility for free or reduced price lunch or other public assistance is reported for each student at the time of enrollment. (See also **Percentage Economically Disadvantaged Pupils**.)

Education Service Center (ESC) Region

The state is divided into 20 geographic regions, each served by an ESC. This category reflects the ESC region from which the district receives services, not the geographically assigned ESC region. For the vast majority of districts, these are the same.

Enrollment Groupings

A nine-category grouping based on the total number of students enrolled by district as of the Public Education Information Management System (PEIMS) fall collection date (late October of each year). Enrollment excludes students who are served but not enrolled by districts.

Ethnicity/race

Ethnicity/race is one of the demographic characteristics reported for each student at the time of enrollment.

GED recipient

A student awarded a GED certificate.

Graduate

A student awarded a high school diploma by a Texas public school.

Highest Property Value Category

A four-category CPTD classification based on property use. A district is placed into the category that represents its greatest total property value. A fifth category is reserved for the special statutory and charter school districts without taxable property wealth.

Residential. Single-family, multi-family, and residential inventory.

Land. Vacant lots and rural real (taxable).

Oil and Gas. Oil, gas, and minerals.

Business. Commercial and industrial real property, commercial and industrial personal property, and utilities.

Maintenance and Operations (M&O) Effective Tax Effort

A four-category tax effort grouping of districts showing the M&O effective tax rate, which was determined by dividing the last completed calendar year's M&O levy amount by that year's CPTD total taxable property value. The M&O rates shown include money generated by districts for equalizing wealth. A fifth category is reserved for the special statutory and charter school districts without property tax levies.

Operating Cost Per Pupil

A five-category grouping of districts based on operating cost per student. Operating costs are the sum of all expenditures budgeted for the operation of the district for all funds. The operating expenditures are a subset of the total expenditures; they do not include debt service, capital outlay, or ancillary services expenditures. Per student amounts are the school year expenditures divided by

enrollment. The source for budgeted expenditures is the fall PEIMS submission.

Percentage African American, Hispanic, and Minority Pupils

Three six-category groupings based on the ethnic composition of district student populations, as reported in PEIMS. Minority percentage is calculated as the sum of all non-White populations expressed as a percentage of the total. Non-White populations include American Indian or Alaskan Native; Asian or Pacific Islander; African American, not of Hispanic origin; and Hispanic.

Percentage Economically Disadvantaged Pupils

A six-category grouping based on the percentage of students enrolled in the district who are classified as economically disadvantaged in PEIMS as follows:

- a) eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
- b) from a family with annual income at/below the federal poverty line;
- c) eligible for Aid to Families With Dependent Children (AFDC) or other public assistance;
- d) recipient of a Pell Grant or comparable state, need-based, financial assistance program; or
- e) eligible for programs assisted under Title II of the Job Training Partnership Act.

Percentage Minority Teachers

A six-category grouping based on the minority composition of district teaching populations. Minority percentage is calculated by summing all non-White teacher FTEs and dividing by the total teacher FTEs.

Percentage Teachers with Advanced Degrees

A four-category grouping based on the district percentage of teachers with advanced degrees. This percentage is computed as the FTE count of teachers with a master's or doctoral degree divided by the total teacher FTE count.

Property Wealth

Total taxable property value divided by enrollment, which indicates district ability to raise local funds on a per pupil basis. The property value used is total taxable value for the last completed calendar year as determined by the CPTD. The total number of students is for the school year for which data are being reported. The first wealth grouping shows 10 categories; the second simply shows districts above and below state average wealth; the third is a 20-category grouping, with each category representing about five percent of the state's students. The special statutory and charter school districts without taxable property wealth form a separate category in all three wealth groupings.

Pupil Change From Prior Year

A five-category grouping based on the growth or decline in district student population over a one-year period. Districts

with declining enrollment represent one category, while the remaining categories show one-year growth rates ranging from "0% to 3%" to "10% and over."

SAT I / ACT: Percentage Scoring At or Above Criterion

A five-category grouping based on the percentage of examinees who scored at or above the criterion (1110 on SAT I Total and/or 24 on ACT Composite) on the SAT I and/or ACT in the previous year. The number meeting the criterion is divided by the number of examinees. A sixth category is reserved for districts that had no examinees.

SAT I / ACT: Percentage Taking

A three-category grouping based on the percentage of graduates taking the SAT I and/or the ACT Assessment in the previous year. A fourth category is reserved for districts that had no graduates.

Small/Sparse Adjustment

A four-category grouping of districts based on the small/sparse adjustment amount as a percentage of the total adjusted basic allotment amount. The small/sparse percentage represents the extent to which state funding is adjusted to compensate for small and/or sparsely populated districts. A fifth category contains all districts receiving no small/sparse adjustment.

TAAS: Percentage Passing All Tests Taken

A five-category grouping of districts based on the percentage of students passing the Texas Assessment of Academic Skills (TAAS). For Grades 3-8 and 10, the total number of students passing all sections of the TAAS taken is expressed as a percentage of the total number of students taking one or more tests. This percentage excludes special education students and third- through sixth-graders taking the test in Spanish and includes only those students in the district in October of the school year, which is the percentage used for accountability purposes. A sixth category is reserved for districts not administering the test.

Total Students

A cumulative total of students served at the campus, or in the district, county, or state, during the school year.

Total Tax Effort

A four-category tax effort grouping of districts defined by the total effective tax rate, which was determined by dividing the last completed calendar year's total levy amount by that year's CPTD total taxable property value. Rates are expressed per \$100 of taxable value. A fifth category is reserved for the six special statutory and charter school districts without property tax levies.
