

The Vetted Teacher Residency Program list includes Texas educator preparation programs that currently offer high-quality teacher residency programs. The list has been established in preparation for state and federal grant opportunities that require LEAs to partner with a high-quality teacher residency program. In a teacher residency, the teacher candidate is paired with an experienced, highly effective mentor teacher for a full-year of clinical training/co-teaching in a K-12 classroom (minimum of 21 hours per week for full year). Residencies take place at the undergraduate and post-baccalaureate level. In some cases, residents receive a stipend during the year-long residency.
