**Submitted: February 15, 2013**

## Table of Contents

Overview of the Annual Performance Report .....iv

### Monitoring Priority | FAPE in the LRE

<b>Indicator 1</b>	<b>Graduation</b> .....	1
	<i>Percent of youth with IEPs graduating from high school with a regular diploma.</i>	
<b>Indicator 2</b>	<b>Dropout</b> .....	4
	<i>Percent of youth with IEPs dropping out of high school.</i>	
<b>Indicator 3</b>	<b>Adequate Yearly Progress (AYP)</b> .....	9
	<i>Participation and performance of children with IEPs on statewide assessments</i>	
	A. <i>Percent of the districts with a disability subgroup that meets the State’s minimum “n” size that meet the State’s AYP targets for the disability subgroup.</i>	
	B. <i>Participation rate for children with IEPs.</i>	
	C. <i>Proficiency rate for children with IEPs against grade level, modified and alternate academic achievement standards.</i>	
<b>Indicator 4</b>	<b>Suspension and Expulsion</b> .....	26
	<i>Rates of suspension and expulsion:</i>	
	A. <i>Percent of districts that have a significant discrepancy in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs.</i>	
	B. <i>Percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.</i>	
<b>Indicator 5</b>	<b>Educational Environment, Ages 6 - 21</b> .....	34
	<i>Percent of children with IEPs aged 6 through 21 served:</i>	
	A. <i>Inside the regular class 80% or more of the day;</i>	
	B. <i>Inside the regular class less than 40% of the day; and</i>	
	C. <i>In separate schools, residential facilities, or homebound/hospital placements.</i>	
<b>Indicator 6</b>	<b>Educational Environment, Ages 3 - 5</b> .....	39
	<i>Percent of children aged 3 through 5 with IEPs attending a:</i>	
	A. <i>Regular early childhood program and receiving the majority of special education and related services in the regular early childhood program; and</i>	

B. *Separate special education class, separate school or residential facility.*

**Indicator 7 Early Childhood Outcomes** ..... 45

*Percent of preschool children aged 3 through 5 with IEPs who demonstrate improved:*

- A. *Positive social-emotional skills (including social relationships).*
- B. *Acquisition and use of knowledge and skills (including early language/communication and early literacy).*
- C. *Use of appropriate behaviors to meet their needs.*

**Indicator 8 Parent Involvement** ..... 51

*Percent of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.*

**Monitoring Priority | Disproportionality**

**Indicator 9 Disproportionality** ..... 62

*Percent of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.*

**Indicator 10 Disproportionality** ..... 66

*Percent of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification.*

**Monitoring Priority | Effective General Supervision Part B / Child Find**

**Indicator 11 Child Find** ..... 70

*Percent of children who were evaluated within 60 days of receiving parental consent for initial evaluation or, if the State establishes a timeframe within which the evaluation must be conducted, within that timeframe.*

**Monitoring Priority | Effective General Supervision Part B / Effective Transition**

**Indicator 12 Early Childhood Transition** ..... 79

*Percent of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays.*

**Indicator 13 Secondary Transition** ..... 88

*Percent of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services,*

*including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student’s transition service’s needs.*

**Indicator 14 Post-School Outcomes** ..... 96

*Percent of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:*

- A. *Enrolled in higher education within one year of leaving high school.*
- B. *Enrolled in higher education or competitively employed within one year of leaving high school.*
- C. *Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.*

**Monitoring Priority | Effective General Supervision Part B / General Supervision**

**Indicator 15 Effective General Supervision** ..... 102

*General supervision system (including monitoring, complaints, hearings, etc.) identifies and corrects noncompliance as soon as possible but in no case later than one year from identification.*

**Indicator 18 Resolution Sessions**..... 111

*Percent of hearing requests that went to resolution sessions that were resolved through resolution session settlement agreements.*

**Indicator 19 Mediation Agreements** ..... 114

*Percent of mediations held that resulted in mediation agreements.*

**Indicator 20 State Data Reporting** ..... 117

*State reported data (618 and State Performance Plan and Annual Performance Report) are timely and accurate.*

## **Part B FFY 2011 Annual Performance Report (Overview)**

### **Overview**

**February 15, 2013**

The Individuals with Disabilities Education Act (IDEA) of 2004, signed on December 3, 2004, requires each state to develop a six-year performance plan. This State Performance Plan (SPP) evaluates the State's efforts to implement the requirements and purposes of IDEA and illustrates how the State will continuously improve upon this implementation. The SPP is submitted to the Office of Special Education Programs (OSEP) at the U.S. Department of Education (USDE). In February 2007, the first annual progress report related to the SPP, known as the State's Annual Performance Report (APR), was submitted to the Secretary of Education. An APR will be submitted annually through the 2012-2013 school year (based on OSEP receiving approval to extend the original SPP six-year timeframe two additional years).

The State of Texas views the SPP as the blueprint for the Texas Continuous Improvement Process (TCIP). The requirements of IDEA related to the development of the SPP and the accompanying APR correlate directly with the Division of Federal and State Education Policy's philosophy to build a system which encompasses data-driven, research-based improvement efforts according to stakeholder needs and input. The overview demonstrates how this philosophy guides the State in its efforts to improve results for students with disabilities. The following organizational elements are discussed: Organizational Structure Designed for Alignment with SPP; Overview of Texas Continuous Improvement Process; Broad Stakeholder Input; Public Dissemination of Information; Communication; Technical Assistance, and SPP/APR Submission Status.

#### **Organizational Structure Designed for Alignment with the SPP**

The Division of Federal and State Education Policy (Division) of the Texas Education Agency (TEA) provides leadership in implementing the requirements of IDEA 2004 in Texas. It is supported in that responsibility by twenty regional education service centers (ESCs) established throughout the state to provide training and technical assistance for the parents, school districts, charter schools, and other community stakeholders of each region. To facilitate the TEA's commitment to improve results for all students, responsibilities of the Division and the ESCs are aligned with SPP Indicators.

Divisional teams provide support and leadership for all Division duties and responsibilities. Division duties and responsibilities are determined by the results inherent in the TEA's mission statement. Since results accountability is integral to this organizational alignment, the Division has shifted its focus from measuring team efforts to measuring effective team results.

The alignment with SPP Indicators and results accountability extends to ESC responsibilities. Each ESC develops a regional special education continuous improvement plan (SECIP) based on improvement activities and progress/slippage as compared to the state targets. Statewide leadership in addressing identified areas of need in special education services is provided through eleven functions and five projects directed by various ESCs. Their primary responsibility is to provide leadership, training, technical assistance, and the dissemination of information throughout the state. Additionally, the ESCs coordinating these statewide leadership functions and projects are responsible for the implementation of many of the state's continuous improvement activities. The alignment of these activities with the SPP priorities is illustrated in the SPP alignment graphic at the end of the Overview. Information about "Statewide leadership functions and projects" can be found at <http://www.tea.state.tx.us/special.ed/>.

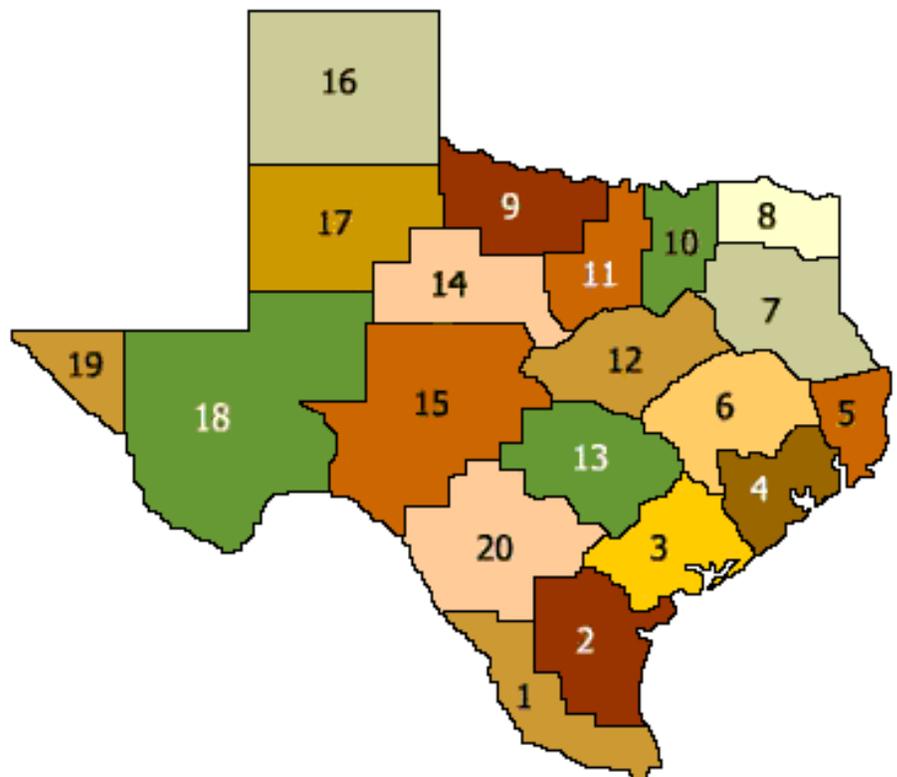

The ESC statewide leadership function leads establish and coordinate a 20-region network (see Figure 1.). This network ensures ongoing communication among ESCs about state-level needs assessment processes and planning, as well as implementing and evaluating statewide activities. Project leadership is focused on a specific activity. Measurable results for ESC statewide function and project activities are reflected in special education continuous improvement plan (SECIP) reports submitted to the TEA by the ESCs.

**Statewide Leadership Function and Project activities for 2011-2012 and 2012-2013 are reflected in the Improvement Activities section found in Appendix A.**

ESC contact information, including links to all 20 ESC websites, can be found on the TEA website at <http://www.tea.state.tx.us/special.ed/>.

**Figure 1. 20 Regional Education Service Centers**

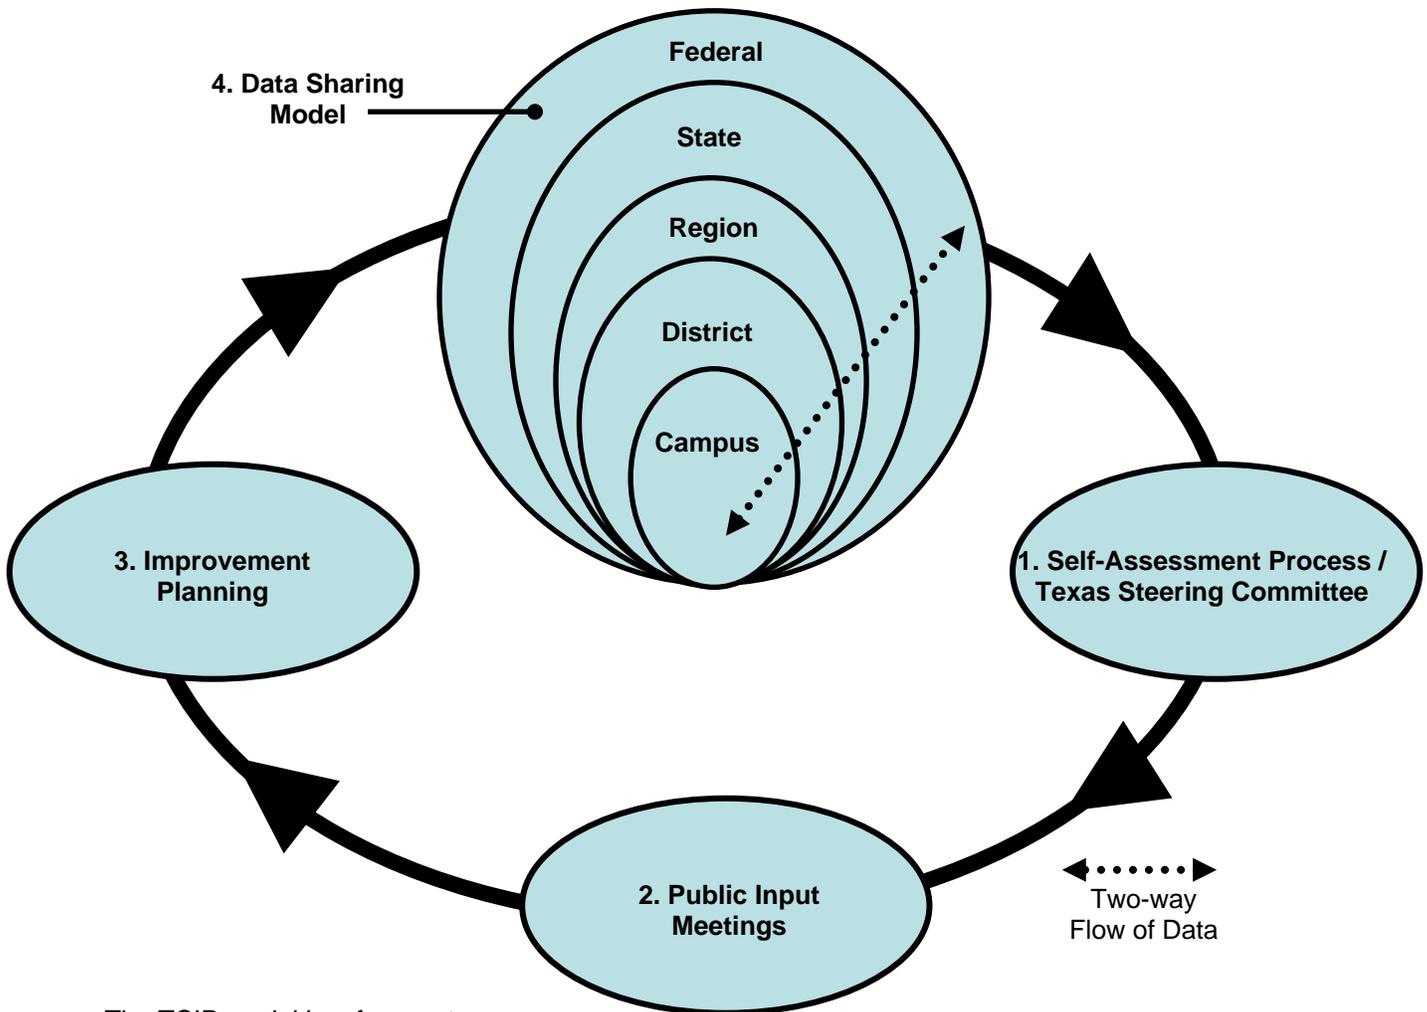

Region 01	Edinburg
Region 02	Corpus Christi
Region 03	Victoria
Region 04	Houston
Region 05	Beaumont
Region 06	Huntsville
Region 07	Kilgore
Region 08	Mt. Pleasant
Region 09	Wichita Falls
Region 10	Richardson
Region 11	Ft. Worth
Region 12	Waco
Region 13	Austin
Region 14	Abilene
Region 15	San Angelo
Region 16	Amarillo
Region 17	Lubbock
Region 18	Midland
Region 19	El Paso
Region 20	San Antonio

## Overview of the Texas Continuous Improvement Process

The origins of the Texas Continuous Improvement Process (TCIP) can be traced back to September of 2000 when the Office of Special Education Programs (OSEP) monitored the state using the Continuous Improvement Monitoring Process (CIMP). The State adopted aspects of the CIMP and created the TCIP Model (Figure 2).

Figure 2. Texas Continuous Improvement Process

The TCIP model has four parts:

### 1. Self-Assessment

The self-assessment is the first part of the TCIP. It is conducted by the Texas Steering Committee (TSC), a group of 20-25 special education stakeholders with diverse perspectives (parents, teachers, administrators, advocates, etc.). The TSC performs the self-assessment in January, prior to the annual submission of the State Performance Plan (SPP) / Annual Performance Report (APR) on February 1 of each year.

The self-assessment is accomplished by reviewing current data, discussing State progress and slippage, sharing on statewide improvement activities, and advising on targets.

## **2. Public Input and Information**

Another source of data the State considers in the course of continuous improvement for the future is feedback gathered through a variety of methods statewide including surveys, public forums, and stakeholder meetings.

The ESCs and the TEA collaborate in selecting which SPP indicators are selected for review and discussion based on a review of state data for the 2011-2012 school year, the following SPP Indicators were selected:

- Indicator 8: Parent Involvement
- Indicator 11: Child Find (Timely Evaluation)
- Indicator 12: Early Childhood Transition

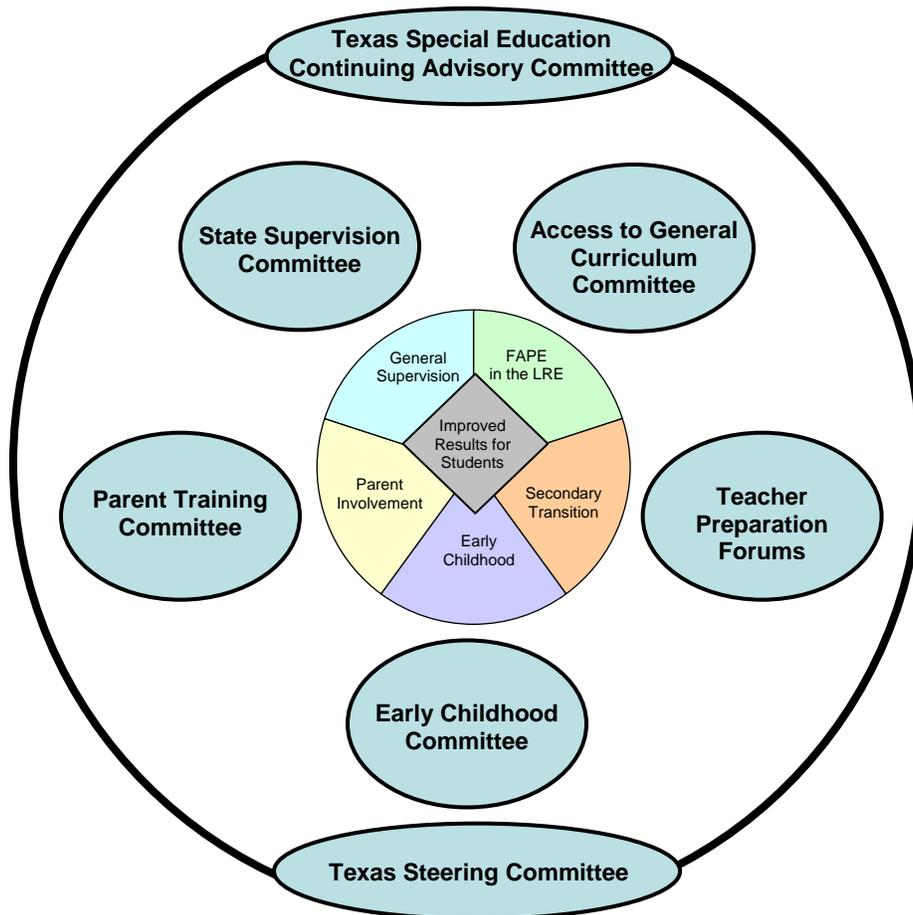

The TEA analyzes the feedback reported from all twenty regions in order to identify trends for guiding improvement planning within the State. Feedback at the regional level remains at the ESC and is used for guiding improvement planning within the region.

### 3. Improvement Committees (ICs), 2011-2012

There are currently five improvement committees that advise the TEA on data, improvement activities, and targets (see Figure 3). While the Texas Steering Committee performs the self-assessment, the Texas Special Education Continuing Advisory Committee, the federally required state advisory panel, provides a broad perspective on improvement in the state. Improvement committees focus on a particular state priority (indicators in the SPP/APR).

In addition, the TEA convenes task forces to advise the agency on special education related topics in the areas of monitoring, assessment, etc.

Figure 3. TCIP Improvement Committees

### TCIP Improvement Committees

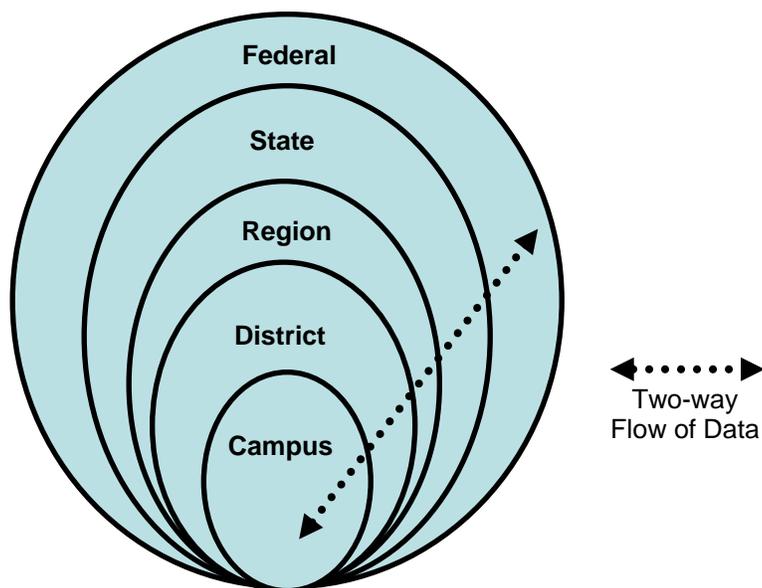

TCIP Improvement Committee	Focus
Access to General Curriculum	Provides advisement on free appropriate public education in the least restrictive environment (FAPE/LRE) issues, discipline, secondary transition, post-school outcomes, and disproportionate representation in special education
Continuing Advisory Committee	Provides broad perspective on Texas Continuous Improvement Process (Federally required, governor-appointed state advisory panel)
Early Childhood	Provides advisement on effective transition between IDEA Part C (ECI) and IDEA Part B (TEA) , Early Childhood Outcomes, Preschool Least Restrictive Environment (LRE) issues
Parent Training	Provides advisement on the building a coordinated system of consistent, accurate information and training available to parents
State Supervision	Provides advisement on issues related to complaint resolution, mediation, due process hearings, and monitoring processes
Texas Steering Committee	Performs annual self-assessment (State Performance Plan/Annual Performance Report) and advises on Texas Continuous Improvement Process

#### 4. Data Sharing Model

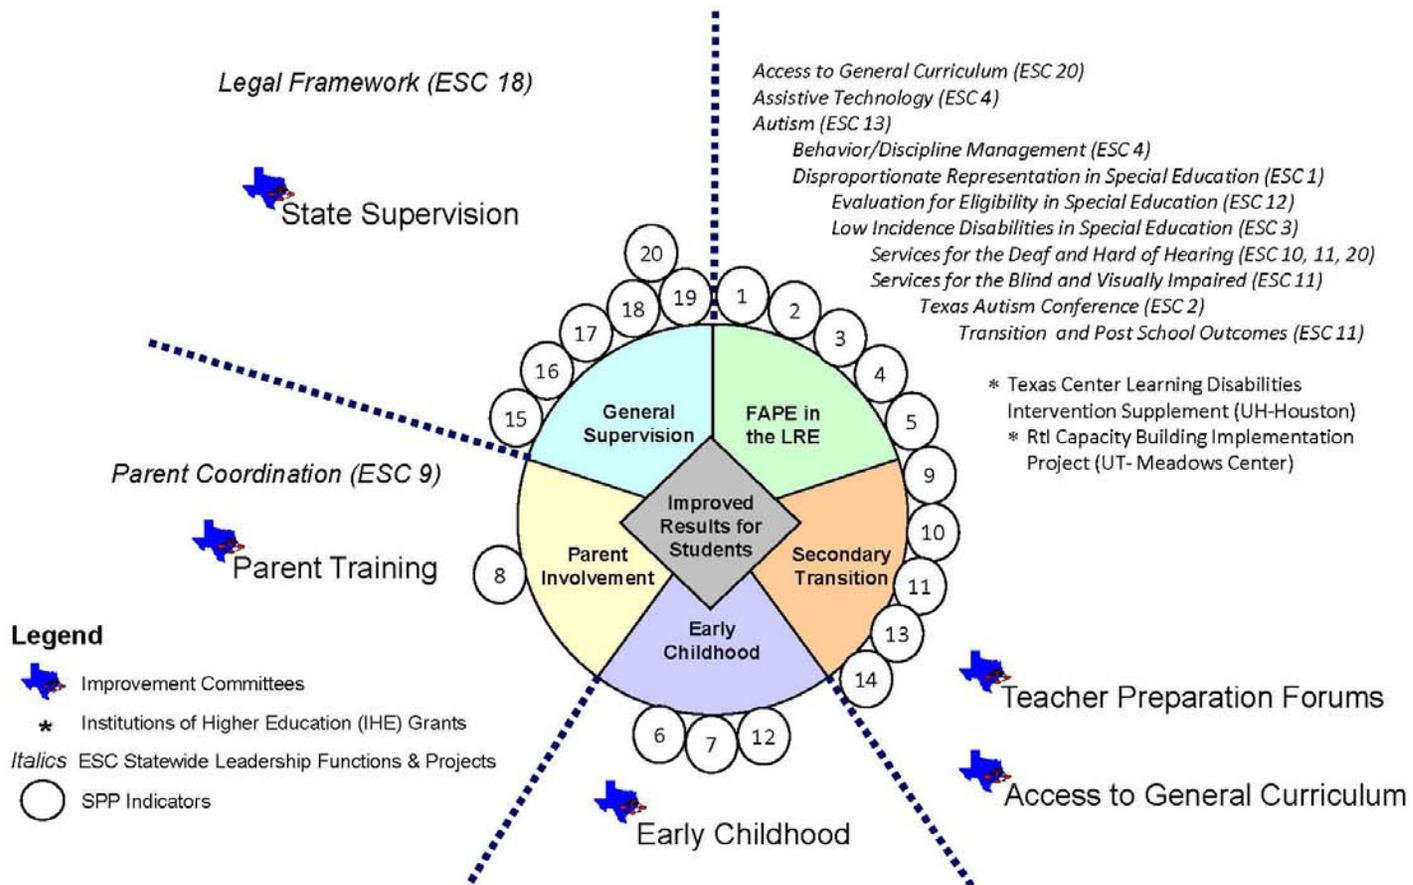

TCIP uses a multi-level, data-sharing model in order to inform improvement (see Figure 4). Data is reported from the campus level and aggregated at the district level for submission to the TEA. The TEA generates reports for districts and regional ESCs for improvement planning purposes. The TEA reports aggregate data to the OSEP.

This data-sharing model reflects the accountability aspects in the Elementary and Secondary Education Act (ESEA) statute (which focuses on campus and district level accountability), as well as the reauthorized Individuals with Disabilities Education Act, 2004 (which has always focused on student level accountability).

**Figure 4.  
Data Sharing  
Model**

# Texas Continuous Improvement Process Alignment Map

## **Broad Stakeholder Input**

The cornerstone of the Texas Continuous Improvement Process is access to broad stakeholder input. To ensure feedback that is truly representative of the state's geographic and ethnic diversity, a systematic approach for obtaining stakeholder participation was developed. Key stakeholder roles were determined, and a recruitment plan was implemented. The key perspectives or roles included in all improvement committees are parents, teachers, campus and school district administrators, parent-support and advocacy groups, higher education institutions, and other state agencies. The TEA routinely reviews group membership to keep it current and contacts ESCs seeking recommendations to fill vacancies. In particular, parent involvement is sought through the Parent Coordination Network led by Region 9 ESC, as well as through the Parent Training and Information (PTI) Projects. Further, the expertise of group members is fully leveraged through requests for recommendations of other parents and professional colleagues for improvement group membership, and in some cases, some group members serve on additional improvement committees themselves. All 20 regions are represented within the overall improvement group membership. More information about the Texas Continuous Improvement Process and these improvement groups can be found on the TEA website at <http://www.tea.state.tx.us/special.ed/>.

## **Technical Assistance Related to SPP Indicators and Determinations**

As required in Sections 616(e)(1) and 642 of the Individuals with Disabilities Education Act (IDEA), if the Department of Education determines, for two consecutive years, that a State needs assistance, the Department must take one of a number of specific actions. One of the three possible actions is to advise the State of available sources of technical assistance that may help the State address the areas in which the State needs assistance. In June 2010, the Department notified those states with a determination level of needs assistance or lower for two consecutive years to access technical assistance. Texas was one of those states that received such notification.

Each State identified as needing assistance for two consecutive years is responsible for determining the technical assistance appropriate to meet the State's improvement needs and for informing OSEP, in the next Annual Performance Report (APR), of the technical assistance sources from which the State received assistance, and what actions the State took as a result of that technical assistance. A State's use of any technical assistance resources, including services and products, is voluntary, even if the State is required by its June 2010 Determination Letter to access technical assistance.

This technical assistance may take numerous forms including but not limited to the following:

- Assistance from OSEP
- Other offices of the USDE
- OSEP's Technical Assistance Centers
- Advice by Experts to address the areas in which the state needs assistance
- Designating and using distinguished superintendents, principals, special education administrators, special education teachers, and other teachers to provide advice, technical assistance and other support.

## **FFY 2011 and 2012 Technical Assistance Update**

As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period. In addition to participating in the regularly scheduled monthly technical assistance calls with OSEP, TEA staff attended the following conferences and webinars:

**FFY 2011**

- NASDSE Annual Conference, October 2011
- National Early Childhood Transition Initiative webinars, July 2011
- SERRC Director's Meeting, April 2011
- State Directors Meeting, August 2011
- NECTAC/ECO COSF/ IEP Process Webinar, September, March, May 2011
- OSEP Project Director's Conference, July 2011
- OSEP Leadership Mega-conference, August 2011
- TA&D Network/ TACC Part C Regulations Webcast, November 2011
- ECO Improving Child Outcomes Webinar, December 2011
- FIEP Workgroup Face to Face, October 2011
- FIEP Cadre Conference Calls and Webinars, December 2011-June 2012

**FFY 2012**

- FIEP Cadre Conference Calls, July 2012 - Present
- SERRC Director's Meeting, November 2012
- Texas Parent to Parent Conference, November 2012
- NASDSE Annual Conference, October 2012
- National Early Childhood Transition Initiative webinars, July 2012 – August 2012
- OSEP Leadership Mega-conference, August 2012

## Public Dissemination of Information

The TEA is committed to fully informing the parents of students with disabilities, educators, and the general public of Texas on the development of the Texas SPP and results reported in the APR as required by the United States Department of Education (USDE) Office of Special Education Programs (OSEP). The Special Education section of the TEA website at <http://www.tea.state.tx.us/special.ed/> serves as a principal source for disseminating this information. In addition, all 20 ESCs maintain websites to provide regional, as well as statewide, information (see <http://www.tea.state.tx.us/>), and the Texas Project First website (see <http://www.texasprojectfirst.org/>) focuses on accurate and timely dissemination of information to parents and families of children with disabilities.

District performance against the state targets in the State Performance Plan is reported in the *District Profiles* webpage at <http://www.tea.state.tx.us/special.ed/>. Profiles are updated each spring. State performance against state targets is reported in the APR which is posted to the web each spring after final approval of the APR from OSEP. Complete information about the SPP/APR, SPP/APR Reports, State Targets, District Public Reporting, and State Performance Plan can be found on the TEA website at <http://www.tea.state.tx.us/special.ed/>.

## APR Submission Status

States are required to submit an APR for each year in the eight-year extended timeframe of the SPP.

Below is a chart depicting the APR submissions (past, present, and future):

Submission Date	Indicators
February 2007	Indicators 1, 2, 3A-C, 4A, 5A-C, 6, 15, 16, 17, 19, 20
February 2008	Indicators 1, 2, 3A-C, 4A, 5, 9, 10, 15, 16, 17, 18, 19, 20
February 2009	Indicators 1, 2, 3A-C, 5, 7A-C*, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20
February 2010	Indicators 1, 2, 3A-C, 4A, 5A-C, 7A-C*, 8, 9, 10, 11, 12, 15, 16, 17, 18, 19, 20
February 2011	Indicators 1, 2, 3A-C, 4A, 4B*, 5A-C, 7A-C, 8, 9, 10, 11, 12, 13*, 14*, 15, 16, 17, 18, 19, 20
February 2012	Indicators 1, 2, 3A-C, 4A, 4B, 5A-C, 7A-C, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20
February 2013	Indicators 1, 2, 3A-C, 4A, 4B, 5A-C, 6A-B*, 7A-C, 8, 9, 10, 11, 12, 13, 14, 15, 18, 19, 20
February 2014	Indicators 1, 2, 3A-C, 4A, 4B, 5A-C, 6A-B, 7A-C, 8, 9, 10, 11, 12, 13, 14, 15, 18, 19, 20

\*SPP Submission

## Part B State Annual Performance Report (APR) for 2011 (Indicator 1)

**Monitoring Priority: FAPE in the LRE**

**Indicator 1:** Percent of youth with IEPs graduating from high school with a regular diploma.

(20 U.S.C. 1416 (a)(3)(A))

**Measurement:** States must report using the graduation rate calculation and timeline established by the Department under the ESEA

A detailed description of the State's methodology for calculating the graduation rate can be found in the State's *2011 Consolidated State Application Accountability Workbook*, page 46, on the TEA website at: <http://www.tea.state.tx.us/WorkArea/DownloadAsset.aspx?id=2147504135>

FFY	Measurable and Rigorous Target
2011	75% of students with disabilities graduate from high school with a regular diploma. Note: Target is the same target as for all students.

**Actual Target Data for FFY 2011:**

**Table 1:  
4-Year Graduation Rates for Students with Disabilities**

	<b>FFY 2004 Class of 2004</b>	<b>FFY 2005 Class of 2005</b>	<b>FFY 2006 Class of 2006</b>	<b>FFY 2007 Class of 2007</b>	<b>FFY 2008 Class of 2008</b>	<b>FFY 2009 Class of 2009</b>	<b>FFY 2010 Class of 2010</b>	<b>FFY 2011 Class of 2011</b>	<b>FFY 2012 Class of 2012</b>
a. Graduates	23,750	24,974	24,851	24,513	23,966	23,856	24,191	25,069	To be reported February 2014
b. Cohort	31,491	33,408	34,176	34,845	34,357	33,209	32,501	32,702

**Source:** Academic Excellence Indicator System (AEIS) Datasets  
same % reported to USDE

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

The Class of 2011 graduation rate for students with disabilities was 76.7%. The graduation rate increased 2.3% from the previous year, a trend that has continued since FFY 2008. The increase may be the result of the continued emphasis on access to the general curriculum, performance on exit level assessments, effective graduation and dropout prevention strategies for at risk students, and standards based IEP and positive behavior support training throughout the state.

The State met the graduation rate targets under Title 1 of the ESEA of 75%.

A detailed description of the State's methodology for calculating the graduation rate can be found in the State's *2011 Consolidated State Application Accountability Workbook*, page 46, on the TEA website at <http://www.tea.state.tx.us/WorkArea/DownloadAsset.aspx?id=2147504135>.

Additionally, an analysis of the State's graduation and dropout rates can be found in the report *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* which is located on the TEA website at: [http://www.tea.state.tx.us/acctres/dropcomp\\_index.html](http://www.tea.state.tx.us/acctres/dropcomp_index.html)

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

The annual graduation rate targets under Title 1 of the ESEA applicable to the Class of 2012(FFY 2013) are currently pending review by the U.S. Department of Education.

Updated targets for SPP Indicator 1 will be posted on the TEA website at <http://www.tea.state.tx.us/special.ed/>.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year

## Part B State Annual Performance Report (APR) for 2011 (Indicator 2)

**Monitoring Priority: FAPE in the LRE**

**Indicator 2:** Percent of youth with IEPs dropping out of high school.

(20 U.S.C. 1416 (a)(3)(A))

**Measurement:** States must report using the dropout data used in the ESEA graduation rate calculation and follow the timeline established by the Department under the ESEA.

A complete description of the State's graduation and dropout rates can be found in the report *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* which is located on the TEA website at: [http://www.tea.state.tx.us/acctres/dropcomp\\_index.html](http://www.tea.state.tx.us/acctres/dropcomp_index.html).

FFY	Measurable and Rigorous Target
2011	The dropout rate for students with disabilities shall not exceed 10%.

**Actual Target Data for FFY 2011:**

**Table 1:  
4-Year Dropout Rates for Students with Disabilities**

	<b>FFY 2004 Class of 2004</b>	<b>FFY 2005 Class of 2005</b>	<b>FFY 2006 Class of 2006</b>	<b>FFY 2007 Class of 2007</b>	<b>FFY 2008 Class of 2008</b>	<b>FFY 2009 Class of 2009</b>	<b>FFY 2010 Class of 2010</b>	<b>FFY 2011 Class of 2011</b>	<b>FFY 2012 Class of 2012</b>
a. Dropouts	1,978	2,273	3,622	4,858	4,965	4,690	3,928	3,696	To be reported February 2014
b. Cohort	31,491	33,408	34,176	34,845	34,357	33,209	32,501	32,702	
a / b * 100= %	6.3%	6.8%	10.6%	13.9%	14.5%	14.1%	12.1%	11.3%	

**Table 2:  
4-Year Dropout Rates for All Students**

	<b>FFY 2004 Class of 2004</b>	<b>FFY 2005 Class of 2005</b>	<b>FFY 2006 Class of 2006</b>	<b>FFY 2007 Class of 2007</b>	<b>FFY 2008 Class of 2008</b>	<b>FFY 2009 Class of 2009</b>	<b>FFY 2010 Class of 2010</b>	<b>FFY 2011 Class of 2011</b>	<b>FFY 2012 Class of 2012</b>

## **Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2010:**

### **I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

### **II. Explanation of Progress or Slippage**

The Class of 2011 dropout rate for students with disabilities was 11.3%. The dropout rate decreased 0.8% from the previous year. The 0.8% decrease could be attributed to effective dropout prevention strategies implemented at the state and local level. Additionally, increased emphasis on secondary transition as evidenced by the collection of SPP 13 data has strengthened the message that quality IEPs for students with disabilities keeps students engaged and focused on the attainment of positive post school outcomes. The State did not meet the state target of 10%.

In response to dropout data, the State is continuing to increase their efforts to improve the graduation rate for students with disabilities. The efforts include but are not limited to; (a) utilization of the State's 20 Education Service Centers (ESC) to disseminate additional guidance, provide assistance to districts in analyzing their data, and provide technical assistance to districts to support their individual efforts, and (b) the Texas Education Agency (TEA) is continuing its efforts to support intra-agency collaboration on Dropout Prevention to identify resources and provide guidance.

The State is continuing to access resources provided by the National High School Center (NHSC), the National Dropout Prevention Center for Students with Disabilities, the What Works Clearinghouse, the Texas Comprehensive Center (TXCC), and other state and national organizations that focus on dropout prevention and school improvement to leverage resources to improve program, district, school, and student outcomes.

One of the resources the State is continuing to leverage is the Early Warning Data System (EWDS) developed by the TXCC. The EWDS Tool was originally developed by the NHSC to calculate automatically the high-yield indicators related to dropout. With permission of and in collaboration with the NHSC, the TXCC adapted the EWDS to produce a customized database version of the tool called the Early Warning Data System (EWDS). The EWDS consists not only of the database tool, but also several imbedded component systems: working as a collaborative team, creating individual, group, and school-wide data reports, designing successful interventions, and verifying student success based on implementation and impact data. For more information about the tool, see the Texas Comprehensive Center's website at <http://txcc.sedl.org/resources/ewst/>.

Additionally, a complete description of the State's graduation and dropout rates can be found in the report *Secondary School Completion and Dropouts in Texas Public Schools, 2009-10* which is located on the TEA website at: [http://www.tea.state.tx.us/acctres/dropcomp\\_index.html](http://www.tea.state.tx.us/acctres/dropcomp_index.html).

## **Office of Special Education Programs (OSEP) Continuous Improvement Visit: Results Meeting**

In October 2011, the U.S. Department of Education Office of Special Education Programs (OSEP) scheduled a Continuous Improvement Visit (CIV) during the week of October 24-28, 2011. The CIV contained two components: Verification and Results. During the Verification component, OSEP staff conducted on-site verification of the effectiveness of critical State systems (monitoring, data collection and analysis, and finance). The verification process included interviews with state staff, review of documentation, and panel conversations with ESC and LEA representatives.

The Results component included a “Results Meeting.” The Results Meeting was an opportunity for OSEP and the State, along with critical stakeholders and technical assistance providers, to work collaboratively to improve results for students with disabilities. The State identified Dropout (Indicator 2) as the area of improvement.

At the Results Meeting, the State provided an overview of current statewide activities and data related to dropout rates for students with disabilities. Stakeholders had an opportunity to advise the State on implementation of future improvement activities. As a result, the following tentative timeline was developed and implemented for the use of EWDS:

### **Timeline**

- |             |  |
|-------------|--|
| Fall 2011   | Statewide delivery of Overviews on the EWDS tool by each of the 20 regional education service centers, along with follow up technical assistance and training.   |
| Spring 2012 | Pilot program implementation of EWDS at select LEAs in order to further refine the tool. Based on data collected, decision for reimplementation of pilot program for fall 2012 was made.   |
| Summer 2012 | Development of reports for use at local, regional, and state levels as well as guidance and resources for LEAs struggling with dropout.  |
| Fall 2012   | Statewide delivery of Overviews on the EWDS tool by each of the 20 regional education service centers, along with follow up technical assistance and training. Pilot program reimplementation of EWDS at select LEAs to further refine the tool. |
| Spring 2013 | Data collection and results review of EWDS from piloted LEAs to determine effectiveness of the tool.   |
| Summer 2013 | Development of reports for use at local, regional, and state levels as well as guidance and resources for LEAs struggling with dropout.  |

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

**FFY 2012 Target Revision:** 9%

The revised target corresponds to about half the difference between the current state dropout rate for all students (6.8%) and for students receiving special education services (11.3%).

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 3)

**Monitoring Priority: FAPE in the LRE**

**Indicator 3:** Participation and performance of children with IEPs on statewide assessments:

- A. Percent of the districts with a disability subgroup that meets the State's minimum "n" size that meet the State's AYP targets for the disability subgroup.
- B. Participation rate for children with IEPs.
- C. Proficiency rate for children with IEPs against grade level, modified and alternate academic achievement standards.

(20 U.S.C. 1416 (a)(3)(A))

**Measurement:**

- 3A. AYP percent = [(# of districts with a disability subgroup that meets the State's minimum "n" size that meet the State's AYP targets for the disability subgroup) divided by the (total # of districts that have a disability subgroup that meets the State's minimum "n" size)] times 100.
- 3B. Participation rate percent = [(# of children with IEPs participating in the assessment) divided by the (total # of children with IEPs enrolled during the testing window, calculated separately for reading and math)]. The participation rate is based on all children with IEPs, including both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year.
- 3C. Proficiency rate percent = [(# of children with IEPs enrolled for a full academic year scoring at or above proficient) divided by the (total # of children with IEPs enrolled for a full academic year, calculated separately for reading and math)].

FFY	Measurable and Rigorous Target
2011	Indicator 3A    100%  Indicator 3B    Participation on Math Assessments = 95% Participation on Reading Assessments = 95%  Indicator 3C    Proficiency on Math Assessments = 83% (AYP Target in NCLB) Proficiency on Reading Assessments = 87% (AYP Target in NCLB)

**Indicator 3A | Adequate Yearly Progress Targets for District Performance on AYP Objective**

Year	State's AYP objectives for progress for disability subgroup ("n" size = 50):
2011	<ol style="list-style-type: none"> <li>1. 95% of students with disabilities participated in assessment in Reading/ELA</li> <li>2. 95% of students with disabilities participated in assessment in Mathematics</li> <li>3. 87% of students with disabilities meet the proficiency standard in Reading/ELA</li> <li>4. 83% of students with disabilities meet the proficiency standard in Mathematics</li> </ol>

## Texas Assessment Program Overview

For more than 25 years, Texas has had a statewide student assessment program. Over time, changes to state and federal statute as well as to the state-mandated curriculum, currently the Texas Essential Knowledge and Skills (TEKS), have required the Texas Education Agency to expand the state assessment program, making it more inclusive of and accessible to all student groups. Whether students are served through general education, special education, or bilingual/English as a Second Language programs, the state tests provide a snapshot of the degree to which students are learning the TEKS. As a result of this snapshot, students can receive the additional help they need to strengthen their knowledge and skills in core academic areas; and districts and campuses can evaluate the effectiveness of their instructional programs. In this way, the state assessment program plays an important role in helping all students, no matter what their instructional setting, reach their academic potential.

**State of Texas Assessments of Academic Readiness (STAAR™)** Beginning in spring 2012, the State of Texas Assessments of Academic Readiness (STAAR™) replaced the Texas Assessment of Knowledge and Skills (TAKS). The STAAR program at grades 3–8 assesses the same subjects and grades that were assessed on TAKS. At high school, however, grade-specific assessments were replaced with 12 end-of-course (EOC) assessments: Algebra I, geometry, Algebra II, biology, chemistry, physics, English I, English II, English III, world geography, world history, and U.S. history. STAAR is administered for:

- Grades 3–8 reading
- Grades 3–8 mathematics
- Grades 4 and 7 writing
- Grade 10 and exit level English language arts (ELA)
- Grades 5, 8 science
- Grades 8 social studies

Eligible students may meet testing requirements with Spanish-version STAAR assessments, available for:

- Grades 3–5 reading
- Grades 3–5 mathematics
- Grade 4 writing
- Grade 5 science

### **STAAR–Modified**

The State of Texas Assessments of Academic Readiness Modified (STAAR™ Modified) replaced the Texas Assessment of Knowledge and Skills–Modified (TAKS–M) beginning in the 2011–2012 school year for third through entering ninth grade students who meet the STAAR Modified participation requirements. STAAR Modified includes end-of-course (EOC) assessments and new grades 3–8 assessments implemented in the 2011–2012 school year.

### **STAAR–Alternate**

The State of Texas Assessments of Academic Readiness Alternate (STAAR™ Alternate) replaced Texas Assessment of Knowledge and Skills–Alternate (TAKS–Alt) beginning in the 2011–2012 school year. STAAR Alternate is designed for the purpose of assessing students in grades 3–8 and high school that have significant cognitive disabilities and are receiving special education services.

Additional information about the Texas Assessment Program can be found on the TEA website at:  
<http://www.tea.state.tx.us/student.assessment/>

## **Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

### **I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

### **II. Explanation of Progress or Slippage**

- 3A. The State reported 77 districts out of 376 districts met AYP Objectives (20.5%). This continuing decrease in districts not meeting AYP objectives is not surprising considering that AYP performance targets increased in 2010, 2011, and 2012. Also, the use of the Texas Performance Measure (TPM) remains discontinued from 2011. This same trend holds true in overall state AYP data; the number of districts that missed AYP in 2012 grew by 45% compared to 2011 (603 to 827). Of those districts missing AYP, 12% missed solely due to the 1% and/or 2% federal caps on special education passers.
- 3B. The State exceeded the 95% target for students participating on math assessments (99%) and on reading assessments (99%). The number of non-participants continues to decrease. Reasons for nonparticipation include those students who were absent; those students who participated in testing, but their tests were not scored because of illness during the test, cheating, etc.; those students who participated in the testing by taking a linguistically accommodated mathematics test, but were exempted because they were in their first year in U.S. schools; and those students who participated in an alternate assessment based on alternative achievement standards, but were cognitively impaired to the degree they could not respond. The TEA will continue to monitor the number of non-participants annually. The TEA continues to emphasize the overall importance of Adequate Yearly Progress by providing timely and accurate information to school districts and the public on the TEA's website at <http://www.tea.state.tx.us/ayp/index.html>.
- 3C. The State did not meet the 83% target for student proficiency rates on math assessments (59%) or the 87% target for student proficiency rates on reading assessments (63%).

Beginning in spring 2012, the State of Texas Assessments of Academic Readiness (STAAR™) replaced the Texas Assessment of Knowledge and Skills (TAKS). The STAAR is a more rigorous testing program. It emphasizes "readiness" standards, which are the knowledge and skills that are considered most important for success in the grade or course subject that follows and for college and career. Texas proposed to use bridge studies that identified the existing TAKS performance standards on the new STAAR assessments for the grades 3-8 tests on which STAAR performance standards were not yet available. The STAAR Bridge Study for AYP was approved by the USDE on February 17, 2012. The Table below illustrates the assessment and performance standards bridged for the 2011-2012 AYP Evaluations.

## Assessment and Performance Standards for 2011-2012 AYP Evaluations

Enrolled Grades	Assessment	Performance Standard Planned for AYP Calculations
<b>Grade 3-8</b>	STAAR (English and Spanish) reading and mathematics*	Bridged to TAKS <i>Met Standard</i>
	STAAR Modified reading and mathematics	Bridged to TAKS-M <i>Met Standard</i>
	STAAR Alternate reading and mathematics	Bridged to TAKS-Alt <i>Met Standard</i>
	STAAR EOC English I reading and Algebra I*	Bridged to TAKS <i>Met Standard</i> for grade 9 reading and mathematics
	STAAR Modified EOC English I reading and Algebra I	<i>No Standard Available</i> - performance results not included in AYP. Students counted as participants only.
	STAAR EOC English II reading, Geometry and Algebra II*	STAAR <i>Phase-in Standard**</i>
	STAAR Modified EOC English II reading and Geometry	Not operational / results not included in AYP
<b>Grade 10</b>	TAKS and TAKS (Accommodated) ELA and mathematics*	TAKS <i>Met Standard</i>
	TAKS-M ELA and mathematics*	TAKS-M <i>Met Standard</i>
	STAAR Alternate EOC English I and Algebra I	Bridged to TAKS-Alt <i>Met Standard</i> for grade 9 reading and mathematics
	STAAR Alternate EOC English II and Geometry	Bridged to TAKS-Alt <i>Met Standard</i> for grade 10 reading and mathematics

\* Includes linguistically accommodated assessments, where applicable

\*\* A small number of students in middle school grades enrolled in high school courses are required to meet the STAAR phase-in standard to satisfy their End-of-Course testing requirements for graduation.

### Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2011:

#### I. Targets

State will not revise the targets associated with Adequate Yearly Progress for FFY 2012:

- 3A = Meet AYP Objectives = 100%
- 3B = Participation Rates, Math and Reading = 95%
- 3C = Proficiency Rates, Math (92%) and Reading (93%)

#### II. Improvement Activities / Timelines / Resources

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 4 A)

<b>Monitoring Priority: FAPE in the LRE</b>
---

**Indicator 4:** Rates of suspension and expulsion

- A. Percent of districts that have a significant discrepancy in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs.

(20 U.S.C. 1416(a)(3)(A); 1412(a)(22))

<b>Measurement:</b>
---------------------

- |   |
|---|
| <p>A. Percent = [(# of districts that have a significant discrepancy in the rates of suspensions and expulsions for greater than 10 days in a school year of children with IEPs) divided by the (# of districts in the State)] times 100.</p> |
|---|

The State's definition of significant discrepancy is any district exceeding the 2.22 rate difference threshold in 2010-2011. Comparison groups consist of district-level data.

**Minimum “n” Size Requirements**

Districts must have at least 40 students receiving special education services and there must be at least 100 enrolled students in the district. Additionally there must be at least five students receiving special education services who also received a discipline action that resulted in a cumulative removal of greater than 10 days.

1096 districts were excluded from the analysis based on the state established minimum “n” size requirements.

A detailed description of the updated methodology used for Indicator 4A can be found on the TEA website under “Discipline and School Removals” at <http://www.tea.state.tx.us/special.ed/>.

FFY	Measurable and Rigorous Target
2011	0% of districts with a significant discrepancy in the rates of suspensions and expulsions of students with disabilities for greater than 10 school days in a school year.

## **Identification and Notification of Districts in FFY 2011**

The TEA, using the methodology referenced previously, identified 6 districts that met State-defined criteria for having a significant discrepancy in the rates of suspension and expulsion of students with disabilities for Indicator 4A.

The 6 identified districts were required, through a self-assessment, to review policies, procedures, and practices related to the development and implementation of individualized education programs (IEPs), the use of positive behavioral interventions and supports, and procedural safeguards to ensure compliance with the IDEA, as required by 34 CFR §300.170.

Upon the completion of this self-assessment of policies and procedures, districts were required to submit an assurance statement affirming that its policies, procedures, and practices were in compliance with federal regulations and state rules related to the discipline of students with disabilities. These processes were then analyzed by one of the State's Educational Services Centers under the direction of TEA.

All 6 districts submitted assurance statements reflecting compliance with policies, procedures, and practices, and a review of the data by the State did not reveal any noncompliance.

**Actual Target Data for FFY 2011:**

**Indicator 4A: Suspensions/Expulsions, Students with Disabilities**

	<b>FFY 2006 2005-06</b>	<b>FFY 2007 2006-07</b>	<b>FFY 2008 2007-08</b>	<b>FFY 2009 2008-09</b>	<b>FFY 2010 2009-10</b>	<b>FFY 2011 2010-11</b>	<b>FFY 2012 2011-12</b>

**Source:** Public Education Information Management System (PEIMS) Datasets

\*State revised its methodology for identifying districts

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

In FFY 2011, 6 districts were identified as having a significant discrepancy, a decrease from 12 districts identified from FFY 2010. The FFY 2011 methodology was revised after consideration of other methodologies listed in the Methods for Assessing Racial/Ethnic Disproportionality in Special Education: Revised Technical Assistance Guide, produced in October 2011 by the Data Accountability Center (DAC) under U.S. Department of Education, Office of Special Education Programs Grant No. H373Y070002. The methodology selected uses a rate difference calculation similar to other systems currently being used in the State.

Although the State has reported a decrease, the State did not meet the 0% target.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision to the 0% target for FFY 2012.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 4 B)

**Monitoring Priority: FAPE in the LRE**

**Indicator 4:** Rates of suspension and expulsion

- B. Percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.

(20 U.S.C. 1416(a)(3)(A); 1412(a)(22))

**Measurement:**

Percent = [(# of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rates of suspensions and expulsions of greater than 10 days in a school year of children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards) divided by the (# of districts in the State)] times 100.

The State's definition of significant discrepancy is any district exceeding the 3.47 rate difference threshold in 2010-2011. Comparison groups consist of district-level data.

**Minimum “n” Size Requirement**

Districts must have at least 40 students receiving special education services and there must be at least 100 enrolled students in the district. Additionally there must be at least three students of a specific race or ethnicity receiving special education services who also received a discipline action that resulted in a cumulative removal of greater than 10 days.

1080 districts were excluded from the analysis based on the state established minimum “n” size requirement.

A detailed description of the updated methodology used for Indicator 4B can be found on the TEA website under “Discipline and School Removals” at <http://www.tea.state.tx.us/special.ed/>.

FFY	Measurable and Rigorous Target
2011	0% of districts with a significant discrepancy in the rates of suspension and expulsions of students with disabilities for greater than 10 school days in a school year.

## Identification and Notification of Districts in FFY 2011

The TEA, using the methodology referenced previously, identified 9 districts that met State-defined criteria for having a significant discrepancy in the rates of suspension and expulsion of students with disabilities for Indicator 4B.

The 9 identified districts were required, through a self-assessment, to review policies, procedures, and practices related to the development and implementation of individualized education programs (IEPs), the use of positive behavioral interventions and supports, and procedural safeguards to ensure compliance with the IDEA, as required by 34 CFR §300.170.

Upon the completion of this self-assessment of policies and procedures, districts were required to submit an assurance statement affirming that its policies, procedures, and practices were in compliance with federal regulations and state rules related to the discipline of students with disabilities. These processes were then analyzed by one of the State's Educational Services Centers under the direction of TEA.

All 9 districts submitted assurance statements reflecting compliance with policies, procedures, and practices, and a review of the data by the State did not reveal any noncompliance.

### Actual Target Data for FFY 2011:

#### Indicator 4B Suspensions/Expulsions, Students with Disabilities

	FFY 2009 2008-09	FFY 2010 2009-10	FFY 2011* 2010-11	FFY 2012 2011-12
a. # of districts with significant discrepancy	6	16	9*	To be reported February 2014
b. Total districts	1,247	1,256	1,249	
c. # of districts that reported noncompliance related to the review of policies, procedures, and practices	0	0	0	
Calculation: $a / b * 100$	0.5%	1.3%	0.7%

**Additional Information Required by the OSEP APR Response Table for this Indicator:**

Statement from the Response Table	State's Response
<p>The State did not provide valid and reliable data and the State must provide the required data for FFY 2010 in the FFY 2011 APR (in addition to the data from the FFY 2011).</p> <p>The State did not conduct the review of policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards, to ensure that these policies, procedures, and practices comply with IDEA, as required in 34 CFR §300.170(b).</p>	<p>In the FFY 2010 APR, the State reported 16 districts were identified to have met the State-defined criteria for having a significant discrepancy in the rates of suspension and expulsion of students with disabilities for Indicator 4B. The State additionally stated the status of these 16 districts would be reported in the FFY 2011 APR. (These districts were determined and reported using the methodology utilized and referenced in the FFY 2010 APR)</p>
<p>In the FFY 2011 APR, the State must report correction of this noncompliance by describing the review, and if appropriate, revision of policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards to ensure that these policies, procedures, and practices comply with the IDEA, for districts identified with significant discrepancies in FFY 2010, as required in 34 CFR §300.170(b).</p>	<p>The 16 identified districts were required, through a self-assessment, to review policies, procedures, and practices related to the development and implementation of individualized education programs (IEPs), the use of positive behavioral interventions and supports, and procedural safeguards to ensure compliance with the IDEA, as required by 34 CFR §300.170.</p> <p>Upon the completion of this self-assessment of policies and procedures, districts were required to submit an assurance statement affirming that its policies, procedures, and practices were in compliance with federal regulations and state rules related to the discipline of students with disabilities. These processes were then analyzed by one of the State's Educational Services Centers under the direction of TEA.</p> <p>All 16 districts submitted assurance statements reflecting compliance with policies, procedures, and practices, and a review of the data by the State did not reveal any noncompliance.</p>
<p>Further, in the FFY 2011 APR, the State must provide the required data for FFY 2010 (using 2009-2010 data) and FFY 2011 (using 2010-2011 data) for this indicator.</p>	<p>All required data for FFY 2010 and FFY 2011 are included in the data table entitled "Actual Target Data for FFY 2011: Indicator 4B Suspensions/Expulsions, Students with Disabilities" for this indicator.</p>

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

In FFY 2011, 9 districts were identified as having a significant discrepancy, a decrease from 16 districts identified from FFY 2010. The FFY 2011 methodology was revised after consideration of other methodologies listed in the Methods for Assessing Racial/Ethnic Disproportionality in Special Education: Revised Technical Assistance Guide, produced in October 2011 by the Data Accountability Center (DAC) under U.S. Department of Education, Office of Special Education Programs Grant No. H373Y070002. The methodology selected uses a rate difference calculation similar to other systems currently being used in the State.

Although the State has reported a decrease, the State did not meet the 0% target.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2011:**

**I. Targets**

No revision to the 0% target for FFY 2012.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 5)

<b>Monitoring Priority: FAPE in the LRE</b>
---

**Indicator 5:** Percent of children with IEPs aged 6 through 21 served:

- A. Inside the regular class 80% or more of the day;
- B. Inside the regular class less than 40% of the day; and
- C. In separate schools, residential facilities, or homebound/hospital placements.

(20 U.S.C. 1416(a)(3)(A))

<b>Measurement:</b>
---------------------

- |   |
|---|
| <ul style="list-style-type: none"> <li>A. Percent = [(# of children with IEPs served inside the regular class 80% or more of the day) divided by the (total # of students aged 6 through 21 with IEPs)] times 100.</li> <li>B. Percent = [(# of children with IEPs served inside the regular class less than 40% of the day) divided by the (total # of students aged 6 through 21 with IEPs)] times 100.</li> <li>C. Percent = [(# of children with IEPs served in separate schools, residential facilities, or homebound/hospital placements) divided by the (total # of students aged 6 through 21 with IEPs)] times 100.</li> </ul> |
|---|

FFY	Measurable and Rigorous Target
2011	<p>Indicator 5A The percent of children with IEPs ages 6-21 inside the regular class 80% or more of the day will be equal to or greater than 68%.</p> <p>Indicator 5B The percent of children with IEPs ages 6-21 inside the regular class less than 40% of the day will be equal to or less than 10%.</p> <p>Indicator 5C The percent of children with IEPs ages 6-21 in separate schools, residential facilities, or homebound/hospital placements will be equal to or less than 1%.</p>

Data Source: Annual Federal Data Report (Public Education Information Management System (PEIMS) Fall Snapshot)

\* In an effort to have the column balance/total to match the Sec. 618 Data Collection, the Row C cell for FFY 2010 and FFY 2011 includes two additional setting totals. The non-bracketed number matches what Row C requires to be submitted. The bracketed number includes the total number of students from two additional settings (Correctional Facilities + Parentally Placed in Private Schools) required in the Sec. 618 Data Collection. The additional data allows the column to total/match the Sec. 618 Data Collection total for students with disabilities, ages 6-21.

Data Source: Annual Federal Data Report (Public Education Information Management System (PEIMS) Fall Snapshot)

**Federal Definitions for Educational Environments, ages 6-21**  
with Texas PEIMS Instructional Arrangement Codes

**Inside the regular class 80% or more of the day**

Children with disabilities receiving special education and related services inside the regular class 80 percent or more of the school day.

00 <i>No Instructional Setting</i>	82 <i>RCT, Resource room &lt; 21%</i>
40 <i>Mainstream</i>	91 <i>Off Home Campus, Mainstream</i>
41 <i>Resource room &lt; 21%</i>	92 <i>Off Home Campus, Resource room &lt;21%</i>
81 <i>Residential Care &amp; Treatment (RCT), Mainstream</i>	

**Inside regular class no more than 79% of day and no less than 40% percent of the day**

Children with disabilities receiving special education and related services inside regular class no more than 79% of day and no less than 40% percent of the school day.

42 <i>Resource room at least 21% and less than 50%</i>	93 <i>Off Home Campus and Resource room at least 21% and less than 50%</i>
43 <i>Self-contained, regular campus at least 50% and no more than 60%</i>	94 <i>Off Home Campus, Self-contained, regular campus at least 50% &amp; no more than 60%</i>
83 <i>RCT, Resource room at least 21% and less than 50%</i>	
84 <i>RCT, Self-contained, regular campus at least 50% and no more than 60%</i>	

**Inside regular class less than 40% of the day**

Children with disabilities receiving special education and related services inside regular class less than 40 percent of the school day.

08 <i>Vocational Adjustment Class Program</i>	88 <i>RCT, Vocational Adjustment Class/Program</i>
44 <i>Self-contained, regular campus more than 60%</i>	95 <i>Off Home Campus, Self-contained, regular campus more than 60%</i>
85 <i>RCT, Self-contained, regular campus more than 60%</i>	

**Separate school**

Children with disabilities who received education programs in public or private separate day school facilities. This includes children with disabilities receiving special education and related services, at public expense, for greater than 50 percent of the school day in public or private separate schools.

60 <i>Nonpublic Day School</i>	96 <i>Off Home Campus, Separate campus</i>
86 <i>RCT, Separate campus</i>	97 <i>Off Home Campus, Community class</i>
87 <i>RCT, Community class</i>	

**Residential Facility**

Children with disabilities who received education programs and lived in public or private residential facilities during the school week. This includes children with disabilities receiving special education and related services, at public expense, for greater than 50 percent of the school day in public or private residential facilities.

30 <i>State School</i>	70 <i>Texas School for the Blind and Visually Impaired</i>
50 <i>Residential Nonpublic School Program</i>	71 <i>Texas School for the Deaf</i>

**Correctional facilities**

All children receiving special education in short-term detention facilities (community-based or residential), or correctional facilities.

- *Windham School District*
- *Texas Juvenile Justice Department (TJJD)*

**Parentally Placed in Private Schools**

Children with disabilities who have been enrolled by their parents or guardians in regular parochial or other private schools and whose basic education is paid through private resources and who receive special education and related services at public expense from a local educational agency or intermediate educational unit under a service plan. Include children whose parents chose to home-school them, but who receive special education and related services at the public expense. Do not include children who are placed in private schools by the LEA.

*These parentally-placed private school children are coded on the 101 STUDENT DATA –DEMOGRAPHIC record, E1000 STUDENT ATTRIBUTION CODE as “12” for “Private School” (see code translation below).*

*Student Attribution Code 12 – Private School*

Student is a student with a disability enrolled by their parent(s) in a private school (including a home school) but who receives special education and/or related services from the public school district under an individualized services plan (ISP). [For Special Education Use Only]

Note: dually enrolled students ages 3-4 must not be included in this count. However, students, ages 3-4, whose parents decline dual enrollment and who receive special education and/or related services from the public school district under an ISP must be included in this count.

Definitions for the PEIMS Instructional Arrangements are in the  
*Student Attendance Accounting Handbook* located on the TEA website at  
[http://www.tea.state.tx.us/index4\\_wide.aspx?id=7739&menu\\_id=645&menu\\_id2=789](http://www.tea.state.tx.us/index4_wide.aspx?id=7739&menu_id=645&menu_id2=789)

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

5A. The State did not meet the 68% or higher target (67%).

5B. The State did not meet the 10% or lower target (13%).

5C. The State met the 1% or lower target (1%).

The percentage of students with IEPs served inside the regular class 80% or more of the day (5A) has remained static for the past four years at 67%. Since FFY 2008, the total number of students counted in 5A has declined between 1-2% each year and is proportional to the overall total population decline reported.

The percentage of students with IEPs served inside the regular class less than 40% of the day (5B) has also remained static for the past three years at 13%. There has been a slight increase over time in the total number of students counted in 5B. This increase may be the result of the continued decrease in the number of students enrolled in separate schools, residential facilities, or homebound/hospital placements (5C) who have returned to a regular campus and are transitioning to a less restrictive environment.

Data for Indicator 5C remained static at 1% and includes two additional settings (Correctional Facilities and Parentally Placed in Private Schools) required in the Sec. 618 Data Collection.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revisions to the targets for FFY 2012:

- 5A = 68% or higher
- 5B = 10% or lower
- 5C = 1% or lower

**II. Improvement Activities /Timelines and Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 6)

### Monitoring Priority: FAPE in the LRE

**Indicator 6:** Percent of children aged 3 through 5 with IEPs attending a:

- A. Regular early childhood program and receiving the majority of special education and related services in the regular early childhood program; and
- B. Separate special education class, separate school or residential facility.

(20 U.S.C. 1416(a)(3)(A))

### Measurement:

- 6A. Percent = [(# of children aged 3 through 5 with IEPs attending a regular early childhood program and receiving the majority of special education and related services in the regular early childhood program) divided by the (total # of children aged 3 through 5 with IEPs)] times 100.
- 6B. Percent = [(# of children aged 3 through 5 with IEPs attending a separate special education class, separate school or residential facility) divided by the (total # of children aged 3 through 5 with IEPs)] times 100.

### Overview of Issue/Description of System or Process:

The Texas Education Agency (TEA) collects data on students with disabilities through the Public Education Information Management System (PEIMS) and reports Educational Environment of Children with Disabilities, ages 3-5, to the U.S. Department of Education Office of Special Education Programs (OSEP) on the Annual Federal Data Report (AFDR) each spring.

In August 2007 and additionally in August 2008, the OSEP proposed changes to the reporting requirements for Educational Environment of Children with Disabilities, ages 3-5. The changes were significant to how educational environment data for the preschool population are collected and reported at the local and state level.

Originally notified by the OSEP in August of 2008, and in subsequent reporting years, data reporting for Indicator 6 was not required in the FFY 2007, FFY 2008, FFY 2009, and FFY 2010 Annual Performance Report (APR).

Beginning in FFY 2010 data collection language in the AFDR specified “children aged 3 through 5 with IEPs attending a regular early childhood program and receiving the majority of special education and related services in the regular early childhood program”.

The TEA has included data from FFY 2010 and FFY 2011 in its baseline data.

**Baseline Data for FFY 2011:**

	FFY 2010 2010-11		FFY 2011 2011-12		FFY 2012 2012-2013	
	#	%	#	%	#	%
<b>Educational Environments, ages 3-5</b>						
A. Attending a regular early childhood program and receiving majority of special education and related services in a regular early childhood program	9,097	22%	8,771	22%	To be reported February 2014	
B. Attending a special education program (not in any regular early childhood program) in separate special education class, separate school or residential facility placements	7,855	19%	8,059	20%		
C. Attending a regular early childhood program and receiving majority of special education and related services in some other location	4,164	10%	4,108	10%		
D. Attending neither a regular early childhood program nor special education program, and receiving the majority of special education and related services at home, the service provider location, or some other location not listed	20,378	49%	19,818	49%		
<b>Total Students, Ages 3-5</b>	<b>41,494</b>	<b>100%</b>	<b>40,756</b>	<b>100%</b>		

Data Source: Annual Federal Data Report (Public Education Information Management System (PEIMS) Fall Snapshot)

**Discussion of Baseline Data:**

During FFY 2010 data on educational environments for children ages 3-5 were collected from all districts that specified students attending a regular early childhood program, attending a special education program (not in any regular early childhood program), and attending neither a regular early childhood program nor special education program. Further data elements provided distinction of where the majority of special education and related services were provided.

The number of children aged 3 through 5 with IEPs attending a regular early childhood program and receiving the majority of special education and related services in the regular early childhood program (6A) remained static at 22% from FFY 2010 to FFY 2011.

This is also true for the number of children aged 3 through 5 with IEPs attending a separate special education class, separate school or residential facility (6B) which remained static at 19% from FFY 2010 to FFY 2011.

Data from FFY 2010 and data from FFY 2011 were analyzed with regards to the number of children ages 3-5 reported in the corresponding Annual Federal Data Reports attending; neither a regular early childhood program nor special education program, and receiving the majority of special education and related services at home, the service provider location, or some other location not listed (D).

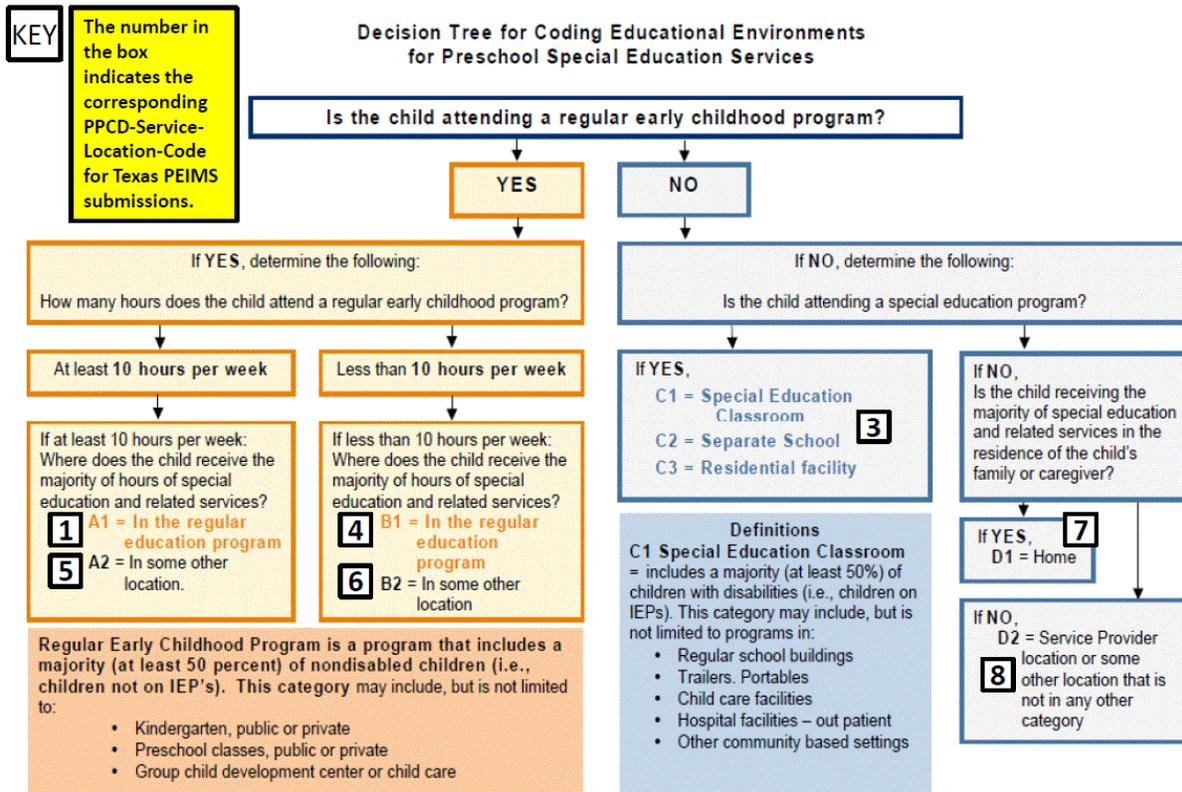

During this analysis, the State found that a large percentage of students reported in this category for both FFY 2010 and FFY 2011 were identified in the State Public Education Information Management System (PEIMS) with a code of 00 (No Instructional Arrangement) which indicates that a student is receiving speech therapy services and an instructional arrangement/setting (e.g., mainstream, resource room) is not appropriate. This code may also be used for a student who receives only speech therapy or for a student who receives speech therapy as well as one or more special education related services (i.e., supportive services that do not constitute instructional services, such as occupational therapy or physical therapy).

Based on these findings, the State determined the need to add an additional data collection element for children ages 3-5, and began use of location codes during the fall 2012 data collection period (see descriptions below). Additionally the State has included these location codes on the Decision Tree of Coding Educational Environments for Preschool Special Education Services published by the National Early Childhood Technical Center (NECTAC) and last amended October 2010 (see chart below). This format was further developed by regional service center personnel in an interactive format to help district personnel in applying the correct location code for this population and can be found at <http://www.esc20.net/portal/page/portal/esc20public/SpecialEducation/ppcdportal>.

The information collected from the location codes will allow the State to correctly report in the AFDR for FFY 2012 students aged 3-5 attending a regular early childhood program.

Code	Translation
0	Not applicable to this student (i.e. students who do not meet PPCD reporting requirement).
1	<p>(A1) PPCD child participates in a regular early childhood program at least 10 hours per week, and receives the majority of his/her special education services in the regular early childhood education program. The program is designed for typically developing children ages 3-5 and is not specifically or primarily designed for children with disabilities which includes (at the time of the placement decision) a majority of at least 50 percent of nondisabled children (i.e., children without an individualized education program (IEP)),</p> <p>The location of the program may include; but is not limited to: (a) Community-Based Preschool (3- Through 5-Year-Olds); (b) District or Community Child Care Programs; (c) Head Start Programs; (d) Kindergarten Programs; (e) Prekindergarten Programs; or (f) School-Based Preschool, Staff and/or Community Access (3- Through 5-Year-Olds).</p>
3	(C1, C2, C3) PPCD child participates in a special education program and receives the majority of his/her special education services in a program that is specifically or primarily designed for children with disabilities and includes (at the time of the placement decision) a majority of at least 50 percent of disabled children (i.e., children with an individualized education program (IEP)).

4	<p>(B1)PPCD child participates in a regular early childhood program less than 10 hours per week, and receives the majority of his/her special education services in the regular early childhood education program. The program is designed for typically developing children ages 3-5 and is not specifically or primarily designed for children with disabilities which includes (at the time of the placement decision) a majority of at least 50 percent of nondisabled children (i.e., children without an individualized education program (IEP)),</p> <p>The location of the program may include; but is not limited to: (a) Community-Based Preschool (3-Through 5-Year-Olds); (b) District or Community Child Care Programs; (c) Head Start Programs; (d) Kindergarten Programs; (e) Prekindergarten Programs; or (f) School-Based Preschool, Staff and/or Community Access (3- Through 5-Year-Olds).</p>
5	<p>(A2)PPCD child participates in a regular early childhood program at least 10 hours per week, and receives the majority of his/her special education services in another location outside of the regular early childhood program. The program is designed for typically developing children ages 3-5 and is not specifically or primarily designed for children with disabilities which includes (at the time of the placement decision) a majority of at least 50 percent of nondisabled children (i.e., children without an individualized education program (IEP)),</p> <p>The location of the program may include; but is not limited to: (a) Community-Based Preschool (3-Through 5-Year-Olds); (b) District or Community Child Care Programs; (c) Head Start Programs; (d) Kindergarten Programs; (e) Prekindergarten Programs; or (f) School-Based Preschool, Staff and/or Community Access (3- Through 5-Year-Olds).</p>
6	<p>(B2)PPCD child participates in a regular early childhood program less than 10 hours per week, and receives the majority of his/her special education services in another location outside of the regular early childhood program. The program is designed for typically developing children ages 3-5 and is not specifically or primarily designed for children with disabilities which includes (at the time of the placement decision) a majority of at least 50 percent of nondisabled children (i.e., children without an individualized education program (IEP)),</p> <p>The location of the program may include; but is not limited to: (a) Community-Based Preschool (3-Through 5-Year-Olds); (b) District or Community Child Care Programs; (c) Head Start Programs; (d) Kindergarten Programs; (e) Prekindergarten Programs; or (f) School-Based Preschool, Staff and/or Community Access (3- Through 5-Year-Olds).</p>
7	<p>(D1)PPCD child participates in a neither a regular education or special education program and receives the majority of his/her special education services in the principal residence of the child's family or caregiver.</p>
8	<p>(D2)PPCD child participates in a neither a regular education or special education program and receives the majority of special education services in an service providers locations setting but does not participate in a regular early childhood program designed for typically developing children.</p> <p>The service provider location may include; but is not limited to: (a) private clinicians' offices (b) private clinicians' offices located in a school building (This child is "dropped in" to the school or another setting to receive special education services but is at home for the remainder of the school day. He/she is not attending the school except to receive speech therapy/instruction.); (c) hospital facilities on an outpatient basis.</p>

This document is available at <http://www.nectac.org/~pdfs/sec619/settingsdecisiontree.pdf> Nancy Skorheim, ND Section 619 Coordinator, Martha Diefendorf & Debbie Cate, NECTAC, June 2010, amended Oct 2010

Targets were proposed after further consideration by stakeholders of preliminary data to be reported for this population in the 2012-2013 AFDR data reports.

FFY	Measurable and Rigorous Target
2012	Indicator 6A 30%  Indicator 6B 17%

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed:**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

States were not required to report on Indicator 6 in the FFY 2010 APR. However, an analysis of the data collected during FFY 2010 and FFY 2011 shows no change in the percent of children aged 3 through 5 with IEPs collected in 6A and 6B.

The State anticipates, based on preliminary data reports from FFY 2012, the number of children ages 3-5 identified in 6A will significantly increase, and slightly decrease in 6B based on implementation of additional location code indicators.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2011:**

**I. Targets**

Targets for FFY 2012:

- 6A = 30%
- 6B = 17%

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 7)

### Monitoring Priority: FAPE in the LRE

**Indicator 7:** Percent of preschool children ages 3 through 5 with IEPs who demonstrate improved:

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/ communication and early literacy); and
- C. Use of appropriate behaviors to meet their needs.

(20 U.S.C. 1416 (a)(3)(A))

### Measurement:

Outcomes:

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/communication and early literacy); and
- C. Use of appropriate behaviors to meet their needs.

Progress categories for A, B and C:

- a. Percent of preschool children who did not improve functioning =  $[(\# \text{ of preschool children who did not improve functioning}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$ .
- b. Percent of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers =  $[(\# \text{ of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$ .
- c. Percent of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it =  $[(\# \text{ of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$ .
- d. Percent of preschool children who improved functioning to reach a level comparable to same-aged peers =  $[(\# \text{ of preschool children who improved functioning to reach a level comparable to same-aged peers}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$ .
- e. Percent of preschool children who maintained functioning at a level comparable to same-aged peers =  $[(\# \text{ of preschool children who maintained functioning at a level comparable to same-aged peers}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$ .

**Summary Statements for Each of the Three Outcomes**

**Summary Statement 1:** Of those preschool children who entered the preschool program below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 6 years of age or exited the program.

**Measurement for Summary Statement 1:**

Percent = # of preschool children reported in progress category (c) plus # of preschool children reported in category (d) divided by [# of preschool children reported in progress category (a) plus # of preschool children reported in progress category (b) plus # of preschool children reported in progress category (c) plus # of preschool children reported in progress category (d)] times 100.

**Summary Statement 2:** The percent of preschool children who were functioning within age expectations in each Outcome by the time they turned 6 years of age or exited the program.

**Measurement for Summary Statement 2:** Percent = # of preschool children reported in progress category (d) plus [# of preschool children reported in progress category (e) divided by the total # of preschool children reported in progress categories (a) + (b) + (c) + (d) + (e)] times 100.

2011	<p><b>Indicator 7A</b></p> <p><b>Summary Statement 1:</b> Of those children who entered the preschool program below age expectations for Outcome 7A, the percent who substantially increased their rate of growth by the time they exited the program will be <b>79%</b>.</p> <p><b>Summary Statement 2:</b> The percent of children who were functioning within age expectations for Outcome 7A by the time they exited the program will be <b>61%</b>.</p> <p><b>Indicator 7B</b></p> <p><b>Summary Statement 1:</b> Of those children who entered the preschool program below age expectations for Outcome 7B, the percent who substantially increased their rate of growth by the time they exited the program will be <b>80%</b>.</p> <p><b>Summary Statement 2:</b> The percent of children who were functioning within age expectations for Outcome 7B by the time they exited the program will be <b>57%</b>.</p> <p><b>Indicator 7C</b></p> <p><b>Summary Statement 1:</b> Of those children who entered the preschool program below age expectations for Outcome 7C, the percent who substantially increased their rate of growth by the time they exited the program will be <b>81%</b>.</p> <p><b>Summary Statement 2:</b> The percent of children who were functioning within age expectations for Outcome 7C by the time they exited the program will be <b>72%</b>.</p>

### **Overview of Issue/Description of System or Process:**

During the State's continuous examination of the data collection process and a self-evaluation of the online data collection application with the Indicator 7 Data Collection Design Team, the following actions were determined necessary prior to opening the application for 2011-2012 data collection:

Enhancements to the SPP 7 online application were introduced prior to the start of the 2010-2011 data collection to ensure greater data integrity. The application validated a child's age at entry and at exit. In addition, the enhancement verified the child was in the program for at least 6 months prior to exiting. A variety of data reports were created and accessible to ESCs and districts. The reports will allow districts to link other data elements to progress data for complex data analysis. ESCs continued to provide technical assistance and training to districts concerning reporting requirements and the enhancements to the SPP7 online application.

Review of data collected in the SPP 7 online application is continuous. Feedback from internal and external users (including the ECO Center) on the SPP 7 online application is used to develop future enhancements to the data collection system.

In addition, the State is one of six states which participated in *Enhance*, "a research project designed to improve the quality of child outcomes data." As part of the project, state data was analyzed to "examine the patterns to explore whether the observed patterns are consistent with the patterns that would be predicted if the Child Outcome Summary Form (COSF) data were of high quality." The State's participation in this project is just one aspect of continuously improving data integrity.

**Actual Target Data for FFY 2011:**

**Summary Statements for the Early Childhood Outcomes**

**Outcome 7A:** Positive social-emotional skills (including social relationships);

**Outcome 7B:** Acquisition and use of knowledge and skills (including early language/ communication and early literacy); and

**Outcome 7C:** Use of appropriate behaviors to meet their needs.

	Outcome 7A		Outcome 7B		Outcome 7C	
	#	%	#	%	#	%
a. Percent of preschool children who did not improve functioning	109	0.8%	116	0.9%	114	0.9%
b. Percent of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers	1,691	13.1%	1,882	14.5%	1,297	10.0%
c. Percent of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it	3,099	24.0%	3,349	25.9%	2,067	16.0%
d. Percent of preschool children who improved functioning to reach a level comparable to same-aged peers	4,697	36.3%	5,053	39.1%	4,655	36.0%
e. Percent of preschool children who maintained functioning at a level comparable to same-aged peers	3,345	25.9%	2,541	19.6%	4,808	37.2%
Total (a + b + c + d + e)	12,941		12,941		12,941

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

In FFY 2011, districts reported progress data on 12,941 Preschool Program for Children with Disabilities (PPCD) who met the State's entry and exit level definitions. This reflected an increase of 627 children from the previous reporting year. Progress data is only reported on children who received at least 6 months in the preschool program for children with disabilities (PPCD). The data indicated that an increased number of preschool children entering below age expectation increased their rate of growth in all three outcomes by the time they exited the program.

The state reported increases in performance for Summary Statement 1 for 7A-C, and for Summary Statement 2 for 7A-C. The State believes the outcomes reported in FFY 2011 are more reflective of early childhood outcomes as a result of improved training and technical assistance. Revisions to the targets were discussed at the January 2012 Texas Steering Committee meeting.

The State met the established targets for this indicator.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revisions to the targets for FFY 2012 based on current reported data:

- 7A = Summary Statement 1 = 79%; Summary Statement 2 = 61%
- 7B = Summary Statement 1 = 80%; Summary Statement 2 = 57%
- 7C = Summary Statement 1 = 81%; Summary Statement 2 = 72%

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 8)

**Monitoring Priority: FAPE in the LRE**

**Indicator 8:** Percent of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

(20 U.S.C. 1416(a)(3)(A))

**Measurement:**

Percent = [(# of respondent parents who report schools facilitated parent involvement as a means of improving services and results for children with disabilities) divided by the (total # of respondent parents of children with disabilities)] times 100.

FFY	Measurable and Rigorous Target
2011	76% of parents with a child receiving special education services report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

**Overview of Issue/Description of System or Process:**

**Parent Survey**

*Survey purpose.* This survey was developed to obtain information regarding parent involvement with their child's school. The survey was directed to parents of students receiving special education services. Information derived from this survey will be included in the six-year Texas State Performance Plan (SPP). Following the Individuals with Disability Education Act (IDEA) of 2004, each state developed a plan to address 20 indicators, one of which is Indicator 8: Parent Participation (percent of parents with a child receiving special education services that report that schools facilitated parent involvement as a means of improving services and results for children with disabilities). Although not required by the SPP, a parallel survey of principals of schools included in the survey was undertaken to obtain strategies used by schools to enhance parent involvement.

*Survey development and production.* The survey, distributed in fall 2006, spring 2007, and spring 2008, was revised for use in spring 2009, spring 2010, and spring 2011. In September 2005, the Parent Coordination Network reviewed questions from the National Center for Special Education Accountability Monitoring (NCSEAM) Parent Survey and the Statewide Survey of Parents of Students with Disabilities distributed by TEA and Region 9 in 2003. A separate survey development committee was created to develop the SPP survey. Committee members included representatives from TEA, Region 9, Academic Information Management, and from local schools and districts. In addition to the surveys reviewed, committee members also reviewed SPP resources from the Federal Resource Center website ([www.dssc.org](http://www.dssc.org)) and information included in Joyce Epstein's Parent Involvement Survey. Lastly, committee members reviewed findings from the Statewide Survey of Parents of Students with Disabilities Receiving Special Education Services.

A one-page, scannable questionnaire was then developed. The committee selected questions from prior surveys with a focus on parent involvement, in addition to creating new items. The survey's questions focus on the following issues: parent satisfaction, communication between parents and school, parents' understanding of information, services and information provided, school climate, the teacher's role, and parent participation in training. The survey was distributed on scan able forms. Both English and Spanish-language surveys were sent when the child's TEA home language survey indicated that Spanish was spoken in the home. A sample of the parent survey is included in Appendix A.

*Sampling.* The spring 2012 parent survey included 18,409 parents, from which PTV NuStats received 3,646 returned packages. One-sixth of all Texas districts are sampled each year with every district included at some point during the six-year cycle. However, each district that enrolls 50,000 students or more is included each year.

To select districts and campuses, a sampling matrix that considered geographic area, district size, and student demographics was developed. The sample for the spring 2012 (and samples for annual surveys that will be distributed through 2012-2013) was derived from this matrix. In large districts (those enrolling more than 50,000 students), a further sample of campuses was selected. Selecting campuses within the larger districts facilitated the distribution of surveys so that campuses would not receive only one or two parent surveys. A list of all districts and campuses sampled each year will be maintained to ensure that all districts (and campuses within the larger districts) will be included in the survey during the six-year cycle.

For the spring 2012 survey, 143 districts were included in the final sample of eligible schools. Note that districts with fewer than 10 listed students receiving special education services were not included in the final sample due to privacy concerns. To reduce the burden on school staff members, every participating campus received a maximum of 25 surveys.

Once the districts and campuses were selected, a sample of students was drawn based on data provided by the Texas Education Agency (TEA) from the Public Education Information Management System (PEIMS) database. Students were selected from the 2010–2011 school year to ensure the most recent data for identifying students' campuses. PTV NuStats entered into a confidentiality agreement with TEA to protect the identity of students. Following all analyses, data sets containing personally identifiable data were destroyed and/or overwritten. The final database includes information regarding student grade level, gender, ethnicity, and eligibility (formerly disability) category. Students were then selected according to a sampling framework that considered these variables proportionately from the various campuses/districts. From this process, 18,409 students were selected to be included in the spring sample. To increase the return rates for smaller incidence eligibility categories, over- and under-sampling were used. For example, while students with a learning disability constitute about 40 percent of the state population, they were included at about 35 percent in the sampling framework.

*Survey Distribution.* Letters, included in Appendix B, were sent to district superintendents and special education directors informing them of the purpose of the survey. Approximately one month after the letters were distributed, surveys were sent bundled by campus to the districts included in the survey. Each package included the surveys and instructions to the campus contact person outlining methods for distributing the surveys. These surveys were to be completed by the parent or guardian of the students listed on the return envelopes. Each campus was asked to distribute the surveys to parents. Campuses were allowed to select their own method—sent home with the student, hand-delivered, or mailed to the student's home. For parents of students where the TEA Home Language Survey indicated that Spanish was spoken, both English and Spanish versions were included. Additional surveys in English and Spanish were made available by request.

Each parent received an envelope with the child's name, a letter of instruction, the survey, and a return (postage-paid) envelope. For questions, phone numbers were provided for Region 9, TEA, and PTV NuStats. Survey assistance was available in both English and Spanish. Parents were asked to return the surveys by the end of June 2012. Surveys received through the end of June 2012 were included in the analyses.

## Findings

A total of 3,646 parent surveys were returned (a return rate of 20 percent). Of these, 3,058 English and 588 Spanish-language surveys were returned in time to be included in the quantitative analyses. Roughly 2,500 parents also provided responses to the open-ended questions. Of the 1,012 principal surveys that were distributed, 410 were returned, representing a 41 percent return rate.

A total of 23 questions from the parent survey were divided into five topic-specific categories and examined. Grouping the three types of responses (Always-Never, Yes-No, and Agree-Disagree), Table 1 presents a summary of responses within these categories. For each category, responses were overall positive. The percentages of responses in the least positive category were under 5 percent, with the exception of General School Issues and Information and Understanding. The response patterns for this year's survey were very similar to findings from the previous five years. This consistency argues for both the reliability and validity of findings.

Table 1: Summary by Category

Category	Positive	Neutral	Negative
	Always Agree Yes	Sometimes Neutral	Never Disagree No
General School Issues	73.2%	29.5%	11.7%
Communication Issues	72.1%	25.3%	2.7%
Information and Understanding	62.9%	68.1%	11.0%
Teacher Issues	73.6%	23.9%	2.4%
IEP and ARD	84.4%	12.4%	3.2%

\* Note that percentages may not total 100 due to rounding.

Although the respondents generally responded positively to questions regarding their interactions with the school (as seen in the summary ratings in Table 1), there were items for which the ratings were less positive (parental actions are not included for this consideration). Below are selected areas for which 15 percent of the ratings fell into the *Negative* category, as identified in Table 1.

*The school provides transition services to help my child reach his or her goals after high school.* (This issue was also identified in spring 2008, 2009, 2010 and 2011.)

*Special education services have helped my family and I get the services that my child needs outside of school.* (This issue was also identified in spring 2007, 2008, 2009, 2010 and 2011.)

*The school provides me with information about my child's disability.* (This issue was also identified in spring 2008, 2009, 2010 and 2011.)

*The school provides information on agencies that assist my child in the transition from high school.* (This issue was also identified in spring 2007, 2008, 2009, 2010 and 2011.)

Three of these items center on transition issues and on the information and coordination provided regarding outside agencies and support. The other item regarding information about a child's disability likely reflects providing *understandable* and *useful* information.

Generally, within each of the categories in Table 1, findings from respondents in the spring 2011 survey were similar to the spring 2012, but there is a slight increase in Negative responses. This year, General School Issues was the lowest-rated area, similar to last year's survey. These low ratings were driven primarily by negative responses to the transition questions noted above.

Overall, parent open-ended responses parallel the responses received in the structured survey. Parents who responded to the survey were overall satisfied with the services received by their child's school. The following is a list of the overall findings from parent responses.

- *Overall satisfaction* – The majority of respondents expressed being satisfied with the special education services provided by schools.
- *More information and training* – Parents noted that they need help understanding their child's disability. They asked for the school to provide more specific and relevant information.
- *Communication improvements* – While overall satisfied, parents noted concern with communication between parents and the special education staff (or communication between the special education setting and the general education setting). Parents want to be kept informed and want to know how to contribute to the academic progress of their children.

*Survey Return Rates and Demographics.* Table 2 presents demographic information of students whose parents returned surveys. In general, the percentages returned mirror the sample distributions. As noted earlier, deliberate over- and under-sampling were utilized to try and match return percentages to state distributions based on previous surveys. Of the 143 districts included in the original mailing, 137 were included in the analyses. Surveys from the remaining districts may have been received after the processing date (approximately one month after the survey return due date). In some cases, students may have left the district after the PEIMS data collection in fall 2011

Table 2 gives an indication of the relative success of the over-/under-sampling approach. The number of surveys returned is relatively close to the overall state special education population.

Table 2: Student Demographics\*

Categories		Surveys Analyzed n=3,646	Initial Sample n=18,409	State Special Education**
<i>Ethnicity</i>	African American	19.7%	23.8%	17.7%
	Hispanic	46.1%	47.7%	40.0%
	White	30.8%	25.5%	40.8%
	Other	3.4%	3.0%	1.5%
<i>Gender</i>	Male	65.9%	68.1%	66.8%

\*Note that percentages in this, and other tables, may not total 100 due to rounding.

\*\*The data presented for the state special education population (2004).

### Survey Return Rates

A total of 3,646 parent surveys were returned in time to be included in the analyses. There were 3,058 English and 588 Spanish-language surveys that were usable (that is, non-blank). The total number is within the desired bounds of +/- 3% at the 95% confidence level. Otherwise stated, we can be (at least) 95 percent sure that the findings to individual questions are within +/- 3 percentage points of the actual population distributions. The overall return rate for parent surveys was 20 percent. Of the 3,646 returned surveys, roughly 2,500 parents also answered the open-ended questions. Of these, 1,800 provided feedback in English, and 650 responded in Spanish. Of the 1,012 principal surveys that were distributed, 410 were returned, which represents a 40 percent return rate.

## Factors Affecting Whether Parents Receive Survey Packets

- *Leaving school.* For a variety of reasons—graduation, dropout, or withdrawal from home school, among others—some students leave the school system altogether. However, this effect is likely small given the minimal time interval between PEIMS collection and survey distribution.
- *Not taken home.* As previously noted, although several methods for delivering survey materials to students' parents were suggested, it was likely that many schools sent the surveys home with students. It is quite possible that some survey packets did not make it home or that occasionally the survey was completed by the student instead of the parent.
- *Mobility.* Mobility is defined as student movement from one district to another during a school year. According to previous TEA Academic Excellence Indicator System (2007 AEIS) reports, roughly 22 percent of Texas students are considered mobile. Mobility data are not available separately for students receiving special education services, but there is no reason to suspect that they would differ dramatically from students in general. The return percentage was slightly lower in 2012 (20 percent) compared to 24 percent in 2011, 27 percent in 2010, 26 percent in 2009, and 23 percent in 2008.
- *Not distributed by school.* It is possible that some districts or campuses opted not to distribute the survey materials to parents.

In summary, NuStats estimates that about 20–25 percent of survey packets were never received from the parents for one or more of the reasons listed above.

## Important Factors after Parents Receive Survey Packets

- *Doubt that completing a survey will help their child.* Another reason for non-return of the survey might be parents' skepticism that this survey would have any positive impact for their child.
- *Suspicion.* Other parents may have been suspicious of the intent of the survey. Although reassurances were given that the unique code number would not identify the child or the school for any reason other than for analysis, the unique number may have influenced some parents not to complete the survey.
- *Apathy.* Some parents, unfortunately, did not care to fill out the survey. It is likely that this is a relatively small percentage.
- *Lack of time.* While many parents would like to complete the survey, many feel that they do not have enough time and, given other pressing responsibilities, choose not to complete the survey.
- *Loss, other.* It is likely that a certain percentage of parents lost the questionnaire, forgot about it, or did not complete the survey for some reason other than those listed above.

## Actual Target Data for FFY 2011:

The results from questions 2b, 3b, 4a, and 6b from the 2011 Parent Involvement Survey were aggregated and averaged to measure the facilitation of parental involvement. The results are reflected in the following data tables included in this report:

- Question 2b (Table 33)
- Question 3b (Table 10)
- Question 4a (Table 20)
- Question 6b (Table 38)

The following data tables are excerpted from *Survey of Parents of Students Receiving Special Education Services in Texas; Spring Administration, September 2012* on the Education Service Center Region 9 website at [http://www.esc9.net/vnews/display.v/ART/4ed7a03fba2ca?in\\_archive=1](http://www.esc9.net/vnews/display.v/ART/4ed7a03fba2ca?in_archive=1)

Central to issues surrounding parent involvement is the relationship between the school staff and parents, as shown in Table 10. Overall, about three-quarters (75 percent) of parents believed that they were an equal partner with teachers and other professionals in planning their child's program, which is lower than the proportion from the 2011 survey. However, this year's results have a smaller difference between the English and Spanish-language survey results than in 2011. In keeping with the pattern found in most other responses, the Spanish-language survey takers were more likely to agree that they were an equal partner.

**Table 10**

'I am considered an equal partner with teachers and other professionals in planning my child's program'

Response	English n=3,058	Spanish n=588	Overall n=3,646
Agree	75.1%	73.6%	74.9%
Neutral	19.3%	22.4%	19.7%
Disagree	5.6%	4.1%	5.4%

**Trend Data for Table 10**

	FFY 2007 2007-08	FFY 2008 2008-09	FFY 2009 2009-10	FFY 2010 2010-11	FFY 2011 2011-12	FFY 2012 2012-13
A. Number of respondents who agree	1,874	3,483	3,590	3,302	2,731	To be reported in Feb. 2014
B. Number of respondents	2,658	4,688	4,878	4,277	3,646	
(A / B * 100)	70.5%	74.3%	73.6%	77.7%	74.9%	

Table 20 presents the distribution of responses on the extent to which the school communicated regularly with the parent regarding their child's IEP progress and other important issues. As shown in the table, the responses to this question were fairly positive, with over three-quarters of parents (78 percent) reporting *always*. As seen in most of the other questions, the responses from the Spanish-language surveys were more positive, with 85 percent responding *always*. Overall, one-fifth of parents reported that the communication from the school occurred *sometimes*, while three percent reported *never*. As with the surveys conducted in the previous four years, almost one-quarter of the parents surveyed noted that the school communicated *sometimes* or *never*, suggesting that communication is an area that continually needs improvement.

**Table 20**

'The school communicates regularly with me regarding my child's IEP progress and other important issues'

Table 33 pertains to a teacher's attitude and caring for a child and not necessarily to the teacher's skills in instruction. Overall, parents were more positive about the teacher's willingness to discuss their child's needs than the teacher's understanding of those needs. In reference to the results in the 2011 survey, two-thirds (68 percent) of the parents reported that the teachers *a/ways* understood their child's needs which is consistent with the percentages reported since FFY 2008.

**Table 33**

Table 38 presents the distribution of responses on the extent to which the concerns and recommendations of parents were considered by the ARD committee in the development of their child's IEP. Overall, more than four out of five parents (85 percent) reported that their concerns and recommendations were *always* considered by the ARD committee, and only two percent reported they were *never* considered. As with the previous question, the parents who completed the English-language survey were more positive than those who completed the survey in Spanish, although the difference was much smaller for this question.

Source: Parent Survey Results

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed:**

The improvement activities related to parent involvement completed in FFY 2011 are interrelated to several other indicators in the Annual Performance Report. Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

The State reported 77% parent participation which exceeded the 76% target. The survey questions focused on the following issues: parent satisfaction, communication between parents and school, parent's understating of information, services and information provided, school climate, teacher role, and parent participation in training.

In general, with few exceptions, the responses were overall positive. The response patterns for this year's survey were very similar to previous findings. This consistency argues for both the reliability and validity of findings.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision to the 76% target for FFY 2012.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 9)

### Monitoring Priority: Disproportionality

**Indicator 9:** Percent of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.

(20 U.S.C. 1416(a)(3)(C))

#### Measurement:

Percent = [(# of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification) divided by the (# of districts in the State)] times 100.

The State's definition of disproportionate representation is any district exceeding the 11.95 risk difference threshold in 2011-12. Comparison groups consist of district-level data.

#### Minimum "n" Size Requirement

Districts must have at least 100 enrolled students in the district with at least 40 students, ages 6-21 receiving special education services. The total special education population cannot exceed 40% of the total population. Additionally there must be at least 30 students of a specific race or ethnicity comprising at least 10% of the total student population.

602 districts were excluded from the analysis based on the state established minimum "n" size requirement.

A detailed description of the updated methodology used for Indicator 9 can be found on the TEA website under "Disproportionate Representation and Significant Disproportionality" at <http://www.tea.state.tx.us/special.ed/>.

FFY	Measurable and Rigorous Target
2011	0% of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.

#### Identification and Notification of Districts

The TEA, using the methodology referenced previously, identified 9 districts that met State-defined criteria for disproportionate representation of racial and ethnic groups in special education and related services for Indicator 9.

The 9 identified districts were required, through a self-assessment, to review policies, procedures, and practices related to the identification of students with disabilities to ensure compliance with 34 CFR §§300.111, 300.201, and 300.301 through 300.311.

Upon the completion of this self-assessment, districts were required to submit a written assurance statement affirming that its policies, procedures, and practices were in compliance with federal regulations and state rules related to the identification of students with disabilities. These processes were then analyzed by one of the State's Educational Services Centers under the direction of TEA.

All 9 districts submitted assurance statements reflecting compliance with policies, procedures, and practices, and a review of the data by the State did not reveal any noncompliance.

**Actual Target Data for FFY 2011:**

	<b>FFY 2007 2007-08</b>	<b>FFY 2008 2008-09</b>	<b>FFY 2009 2009-10</b>	<b>FFY 2010 2010-11</b>	<b>FFY 2011 2011-12</b>	<b>FFY 2012 2012-13</b>
a. # of districts with disproportionate representation	100	14*	7	7*	9*	To be reported February 2014
b. # of districts with disproportionate representation that is the result of inappropriate identification	0	0	0	0	0	
c. Total # of districts in the state	1,230	1,247	1,256	1,256	1,246	
d. % of districts with disproportionate representation that is the result of inappropriate identification Calculation: d. = ( b. / c.) * 100	0%	0%	0%	0%	0%	

\*State revised its methodology for identifying districts

**Additional Information Required by the OSEP APR Response Table for this Indicator:**

Statement from the Response Table	State's Response
<p>The State did not provide valid and reliable data because the State did not determine if disproportionate representation in identified districts was the result of inappropriate identification for FFY 2010. Therefore, the State must provide the number of districts with disproportionate representation of racial and ethnic groups in special education and related services that was the result of inappropriate identification for FFY 2010 in the FFY 2011 APR (in addition to data consistent with the indicator for FFY 2011).</p>	<p>In the FFY 2010 APR, the State reported 7 districts were identified to have met the State-defined criteria for disproportionate representation of racial and ethnic groups in special education and related services. The State additionally stated the status of these 7 districts would be reported in the FFY 2011 APR. (These districts were determined and reported using the methodology utilized and referenced in the FFY 2010 APR)</p> <p>The State, using the annual determination procedures listed below, determined none of the 7 districts identified having met the State-defined criteria for disproportionate representation of racial and ethnic groups in special education and related services was the result of inappropriate identification for FFY 2010.</p>
<p>In the FFY 2011 APR, the State must describe how it made its annual determination that the disproportionate representation it identified of racial and ethnic groups in special education and related services was the result of inappropriate identification, i.e., that the districts were not in compliance with the child find, evaluation, and eligibility requirements in 34 CFR §§300.111, 300.201, and 300.301 through 300.311.</p>	<p>The 7 identified districts were required, through a self-assessment, to review policies, procedures, and practices related to the identification of students with disabilities to ensure compliance with 34 CFR §§300.111, 300.201, and 300.301 through 300.311.</p> <p>Upon the completion of this self-assessment, districts were required to submit a written assurance statement affirming that its policies, procedures, and practices were in compliance with federal regulations and state rules related to the identification of students with disabilities. These processes were then analyzed by one of the State's Educational Services Centers under the direction of TEA.</p> <p>All 7 districts submitted assurance statements reflecting compliance with policies, procedures, and practices, and a review of the data by the State did not reveal any noncompliance.</p>

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

In FFY 2011, 9 districts were identified as having disproportionate representation, a slight change in the number from the districts identified in FFY 2010. The FFY 2011 methodology was revised after consideration of other methodologies listed in the Methods for Assessing Racial/Ethnic Disproportionality in Special Education: Revised Technical Assistance Guide, produced in October 2011 by the Data Accountability Center (DAC) under U.S. Department of Education, Office of Special Education Programs Grant No. H373Y070002. The methodology selected uses a risk difference calculation similar to other systems currently being used in the State.

Although a slight increase was noted in the number of districts with disproportionate representation, the State maintained its performance from FFY 2010 and continued to meet its target of 0% of districts having disproportionate representation that was the result of inappropriate identification for FFY 2011.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision. This is an indicator with a 0% noncompliance target.

**II. Improvement Activities /Timelines and Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

**FFY 2011 and 2012 Technical Assistance Update**

As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period. A complete listing of the activities the State participated in and the resulting action from its participation can be found in the "Overview" section of the APR.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 10)

**Monitoring Priority: Disproportionality**

**Indicator 10:** Percent of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification.

(20 U.S.C. 1416(a)(3)(C))

**Measurement:**

Percent = [(# of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification) divided by the (# of districts in the State)] times 100.

The State's definition of disproportionate representation of racial and ethnic groups in any specific disability category is any district exceeding the 7.34 risk difference threshold in 2011-12. Comparison groups consist of district-level data.

**Minimum “n” Size Requirements**

Districts must have at least 100 enrolled students in the district with at least 40 students, ages 6-21 receiving special education services. The total special education population cannot exceed 40% of the total population, and there must be at least 30 students of a specific race or ethnicity comprising at least 10% of the total student population. Additionally there must be at least 10 students of a race or ethnicity population in a specific disability category.

697 districts were excluded from the analysis based on the state established minimum “n” size requirement.

A detailed description of the updated methodology used for Indicator 10 can be found on the TEA website under “Disproportionate Representation and Significant Disproportionality” at <http://www.tea.state.tx.us/special.ed/>.

FFY	Measurable and Rigorous Target
2011	0% of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.

**Identification and Notification of Districts**

The TEA, using the methodology referenced previously, identified 25 districts that met State-defined criteria for disproportionate representation of racial and ethnic groups in specific disability categories for Indicator 10.

The 25 identified districts were required, through a self-assessment, to review policies, procedures, and practices related to the identification of students with disabilities to ensure compliance with 34 CFR §§300.111, 300.201, and 300.301 through 300.311.

Upon the completion of this self-assessment, districts were required to submit a written assurance statement affirming that its policies, procedures, and practices were in compliance with federal regulations and state rules related to the identification of students with disabilities. These processes were then analyzed by one of the State’s Educational Services Centers under the direction of TEA.

All 25 districts submitted assurance statements reflecting compliance with policies, procedures, and practices, and a review of the data by the State did not reveal any noncompliance.

**Actual Target Data for FFY 2011:**

	<b>FFY 2007 2007-08</b>	<b>FFY 2008 2008-09</b>	<b>FFY 2009 2009-10</b>	<b>FFY 2010 2010-11</b>	<b>FFY 2011 2011-12</b>	<b>FFY 2012 2012-13</b>
a. # of districts with disproportionate representation	138	5*	11	20*	25*	To be reported February 2014
b. # of districts with disproportionate representation that is the result of inappropriate identification	0	0	0	0	0	
c. Total # of districts in the state	1,230	1,247	1,256	1,256	1,246	
d. % of districts with disproportionate representation that is the result of inappropriate identification Calculation: $d. = (b. / c.) * 100$	0%	0%	0%	0%	0%	

\*State revised its methodology for identifying districts

**Additional Information Required by the OSEP APR Response Table for this Indicator:**

Statement from the Response Table	State's Response
<p>The State did not provide valid and reliable data because the State did not determine if disproportionate representation in identified districts was the result of inappropriate identification for FFY 2010. Therefore, the State must provide the number of districts with disproportionate representation of racial and ethnic groups in specific disability categories that was the result of inappropriate identification for FFY 2010 in the FFY 2011 APR (in addition to data consistent with the indicator for FFY 2011).</p>	<p>In the FFY 2010 APR, the State reported 20 districts were identified to have met the State-defined criteria for disproportionate representation of racial and ethnic groups in specific disability categories. The State additionally stated the status of these 20 districts would be reported in the FFY 2011 APR. (These districts were determined and reported using the methodology utilized and referenced in the FFY 2010 APR)</p> <p>The State, using the annual determination procedures listed below, determined none of the 20 districts identified having met the State-defined criteria for disproportionate representation of racial and ethnic groups in specific disability categories was the result of inappropriate identification for FFY 2010.</p>
<p>In the FFY 2011 APR, the State must describe how it made its annual determination that the disproportionate representation it identified of racial and ethnic groups in specific disability categories was the result of inappropriate identification, i.e., that the districts were not in compliance with the child find, evaluation, and eligibility requirements in 34 CFR §§300.111, 300.201, and 300.301 through 300.311.</p>	<p>The 20 identified districts were required, through a self-assessment, to review policies, procedures, and practices related to the identification of students with disabilities to ensure compliance with 34 CFR §§300.111, 300.201, and 300.301 through 300.311.</p> <p>Upon the completion of this self-assessment, districts were required to submit a written assurance statement affirming that its policies, procedures, and practices were in compliance with federal regulations and state rules related to the identification of students with disabilities. These processes were then analyzed by one of the State's Educational Services Centers under the direction of TEA.</p> <p>All 20 districts submitted assurance statements reflecting compliance with policies, procedures, and practices, and a review of the data by the State did not reveal any noncompliance.</p>

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

In FFY 2011, 25 districts were identified as having disproportionate representation, a slight increase in number from the districts identified in FFY 2010. The FFY 2011 methodology was revised after consideration of other methodologies listed in the Methods for Assessing Racial/Ethnic Disproportionality in Special Education: Revised Technical Assistance Guide, produced in October 2011 by the Data Accountability Center (DAC) under U.S. Department of Education, Office of Special Education Programs Grant No. H373Y070002. The methodology selected uses a risk difference calculation similar to other systems currently being used in the State.

Although a slight increase was noted in the number of districts with disproportionate representation, the State maintained its performance from FFY 2010 and continued to meet its target of 0% of districts having disproportionate representation that was the result of inappropriate identification for FFY 2011.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision. This is an indicator with a 0% noncompliance target.

**II. Improvement Activities /Timelines and Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

**FFY 2011 and 2012 Technical Assistance Update**

As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period. A complete listing of the activities the State participated in and the resulting action from its participation can be found in the "Overview" section of the APR.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 11)

### Monitoring Priority: Effective General Supervision Part B / Child Find

**Indicator 11:** Percent of children who were evaluated within 60 days of receiving parental consent for initial evaluation or, if the State establishes a timeframe within which the evaluation must be conducted, within that timeframe.

(20 U.S.C. 1416(a)(3)(B))

#### Measurement:

- a. # of children for whom parental consent to evaluate was received.
- b. # of children whose evaluations were completed within 60 days (or State-established timeline).

Account for children included in a. but not included in b. Indicate the range of days beyond the timeline when the evaluation was completed and any reasons for the delays.

Percent = [(b) divided by (a)] times 100.

FFY	Measurable and Rigorous Target
2011	100% of children with parental consent to evaluate are evaluated and eligibility determined within the State established timeline of 90 days.

#### Overview of Issue/Description of System or Process:

##### Data Collection Activities

The Texas Education Agency (TEA) has developed a secure, online application for the collection of data related to Indicator 11. Students for whom the evaluation process was *completed during* the **July 1, 2011** to **June 30, 2012** school year are included in this data collections. This would also include students for whom the parental consent was obtained late in the 2010-11 reporting period and the eligibility process was completed between **July 1, 2011** and **June 30, 2012**.

During the FFY 2011, all districts that evaluated students with disabilities submitted aggregate data on timely initial evaluation. Districts that did not evaluate any students with disabilities submitted a zero count. The application was designed to validate data and to ensure integrity (for example, certain counts could not exceed the totals entered). Technical assistance and associated documents increased the accuracy of the data for Indicator 11. Additional information about the data collection process for Indicator 11 (instructions, collection instrument, etc.) can be found on the TEA website at: <http://www.tea.state.tx.us/special.ed/>.

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

During FFY 2011, districts received parental consent for 75,149 initial evaluations. 98.8% of those students were evaluated and eligibility determined within 90 days (State established timeline). Though the State did not meet the 100% compliance target, the data reflects a 9.6% increase from the baseline data collected during FFY 2007 and a 1.3% increase from the data reported in FFY 2010.

The increase can be attributed to multiple actions taken by the State:

- Guidance and resources were developed to improve the data entry (e.g. more explicit instructions, flowcharts to guide decision making process on how to enter students in the online system, new regional and district reports for use in analyzing data, etc.)
- Targeted technical assistance was provided by the Education Service Centers (ESC) to noncompliant districts.
- Direct technical assistance provided by the indicator 11 Support team and ESC was easily and readily available from 7:00-5:00 daily.
- Reports were developed and accessible for district use to analyze their trend data, compliance issues, and data validation.
- Refined guidance, awareness, and ongoing technical assistance increased the number of initial evaluations reported.

**Correction of FFY 2010 Findings of Noncompliance (if State reported less than 100% compliance):**

Level of compliance (actual target data) State reported for FFY 2010 for this indicator: 97.5%

1. Number of findings of noncompliance the State made during FFY 2010 (the period from July 1, 2010 through June 30, 2011)	<b>145</b>
2. Number of FFY 2010 findings the State verified as timely corrected (corrected within one year from the date of notification to the LEA of the finding)	<b>91</b>
3. Number of FFY 2010 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	<b>54</b>

**Correction of FFY 2010 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance):**

4. Number of FFY 2010 findings not timely corrected (same as the number from (3) above)	<b>54</b>
5. Number of FFY 2010 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	<b>42</b>
6. Number of FFY 2010 findings <u>not</u> verified as corrected [(4) minus (5)]	<b>12*</b>

\*The state has identified 12 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (9 findings continue from 2009 with 3 additional identified in 2010)

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled “Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities” found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2010:**

The Texas Education Agency Division of Federal and State Education Policy notified districts of their noncompliance with FFY 2010 SPP Indicators 11, 12, and 13 in October 2011. Districts were required to submit a “Corrective Action Plan (CAP).” The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 11.

**Correction of FFY 2009 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2009 APR):**

1. Number of remaining FFY 2009 findings noted in OSEP’s June 2012 FFY 2010 APR response table for this indicator	<b>75</b>
2. Number of remaining FFY 2009 findings the State has verified as corrected	<b>66</b>
3. Number of remaining FFY 2009 findings the State has NOT verified as corrected [(1) minus (2)]	<b>9*</b>

\*The state has identified 9 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (8 findings continue from 2008 with 1 additional identified in 2009)

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled “Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities” found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2009:**

The Texas Education Agency Division of IDEA Coordination notified districts of their noncompliance with FFY 2009 SPP Indicators 11, 12, and 13 in November 2010. Districts were required to submit a “Corrective Action Plan (CAP).” The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 11.

**Correction of FFY 2008 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2008 APR):**

1. Number of remaining FFY 2008 findings noted in OSEP’s June 2012 FFY 2010 APR response table for this indicator	<b>44</b>
2. Number of remaining FFY 2008 findings the State has verified as corrected	<b>36</b>
3. Number of remaining FFY 2008 findings the State has NOT verified as corrected [(1) minus (2)]	<b>8*</b>

\*The state has identified 8 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (7 findings continue from 2007 with 1 additional identified in 2008)

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled “Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities” found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2008:**

The Texas Education Agency Division of IDEA Coordination notified districts of their noncompliance with FFY 2008 SPP Indicators 11, 12, and 13 in November 2009. Districts were required to submit a “Corrective Action Plan (CAP).” The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 11.

**Correction of FFY 2007 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2007 APR):**

1. Number of remaining FFY 2007 findings noted in OSEP’s June 2012 FFY 2010 APR response table for this indicator	<b>28</b>
2. Number of remaining FFY 2007 findings the State has verified as corrected	<b>21</b>
3. Number of remaining FFY 2007 findings the State has NOT verified as corrected [(1) minus (2)]	<b>7*</b>

\*The state has identified 7 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2).

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled “Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities” found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2007:**

The Texas Education Agency Division of IDEA Coordination notified districts of their noncompliance with FFY 2007 SPP Indicators 11, 12, and 13 in April 2009. Districts were required to submit either an “Explanation/Resolution” form or a “SPP Corrective Action Plan.” The “Explanation/Resolution” form was required of those districts that had data reporting issues (e.g. reporting nonexistent noncompliance as a result of the implementation of a first year data collection). The “SPP Corrective Action Plan” was required of those districts that had serious systemic issues to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the forms and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 11.

**Additional Information Required by the OSEP APR Response Table for this Indicator:**

Statement from the Response Table	State's Response
<p>If the state cannot report in the 2011 APR that this [longstanding noncompliance] has been corrected, the State must report:</p> <p>(1) the specific nature of the noncompliance;</p>	<p>(1) The State has implemented monitoring systems to ensure all individual instances of noncompliance have been corrected for each finding. The specific nature of the remaining noncompliance for the identified findings is lack of assurance that the remaining LEAs represented in findings have correctly implemented the specific regulatory requirements based on the State's review of updated data from subsequent on-site monitoring or data collected through the State data system.</p>
<p>(2) the State's explanation as to why the noncompliance has persisted;</p>	<p>(2) Through monitoring efforts, the State has identified various affects contributing to the continuing noncompliance in these identified findings which include, but are not limited to:</p> <ul style="list-style-type: none"> <li>a) lack of qualified personnel responsible for implementing specific regulatory requirements;</li> <li>b) changes in staff assignments, administrative leadership, or other staffing disruptions; and</li> <li>c) lack of continuous and substantive engagement in available technical assistance leading to incorrect application of specific regulatory requirements and/or reporting requirements.</li> </ul>
<p>(3) the steps that the State has taken to ensure the correction of each finding of the remaining findings of noncompliance, and any new or different actions the State has taken, since the submission of its FFY 2010 APR to ensure such correction; and</p>	<p>(3) The State has remained diligent in working with LEAs represented in findings. This includes technical assistance from regional education service centers to establish systemic changes through policy and procedures development and/or revisions to address individual district efforts in maintaining consistency with implementing these specific regulatory requirements. For information about how the State is addressing the continued lack of compliance, including as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15. Additionally, the State is in process or reviewing current data collection systems for identification of noncompliance, utilizing available options outlined in OSEP provided guidance, and application of both prongs for correction of noncompliance specified in OSEP Memo 09-02.</p>

<p>(4) any new or different actions the State will take to ensure such correction</p>	<p>(4) The State will continue to diligently work with LEAs identified in continued noncompliance through monitoring efforts and enforcement activities. Additionally the State will implement an updated data collection system and revised guidance for Indicators 11, 12, and 13 to include components for refining the collection and identification of specific instances of noncompliance, as well as refined assurances and verification for prompt correction of noncompliance.</p>
---	---

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision. This is an indicator with a 100% compliance target.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

**FFY 2011 and 2012 Technical Assistance Update**

As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period. A complete listing of the activities the State participated in and the resulting action from its participation can be found in the "Overview" section of the APR.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 12)

### Monitoring Priority: Effective General Supervision Part B / Effective Transition

**Indicator 12:** Percent of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays.

(20 U.S.C. 1416(a)(3)(B))

#### Measurement:

- a. # of children who have been served in Part C and referred to Part B (LEA notified pursuant to 637(a)(9)(A)) for Part B eligibility determination.
- b. # of those referred determined to be NOT eligible and whose eligibility was determined prior to their third birthdays.
- c. # of those found eligible who have an IEP developed and implemented by their third birthdays.
- d. # of children for whom parent refusal to provide consent caused delays in evaluation or initial services.
- e. # of children who were referred to Part C less than 90 days before their third birthday.

Account for children included in a but not included in b, c, d, or e. Indicate the range of days beyond the third birthday when eligibility was determined and the IEP developed and the reasons for the delays.

Percent = [(c) divided by (a - b - d - e)] times 100.

FFY	Measurable and Rigorous Target
2011	100% of children referred by Part C prior to age 3, who are found eligible for Part B, have an IEP developed and implemented by their third birthdays.

#### Overview of Issue/Description of System or Process:

##### Data Collection Activities

The Texas Education Agency (TEA) has developed a secure, online application for the collection of data related to Indicator 12. Students for whom the IEP is developed and implemented by their third birthdays *during* the **July 1, 2011** to **June 30, 2012** school year are included in this data collections.

During the FFY 2011, all districts that evaluated students with disabilities submitted aggregate data on the transition of children referred by Part C to Part B. Districts that did not evaluate any students with disabilities referred submitted a zero count. The application was designed to validate data to ensure integrity (for example, certain counts could not exceed the totals entered). Additional information about the data collection process for Indicator 12 (instructions, collection instrument, etc.) can be found on the TEA website at: <http://www.tea.state.tx.us/special.ed/>.

**Actual Target Data for FFY 2011:**

	<b>FFY 2007 2007-08</b>	<b>FFY 2008 2008-09</b>	<b>FFY 2009 2009-10</b>	<b>FFY 2010 2010-11</b>	<b>FFY 2011 2011-12</b>	<b>FFY 2012 2012-13</b>
<b>Statewide Percentage of Early Childhood Transition</b>						
a. # of children who have been served in Part C and referred to Part B for eligibility determination	8,667	9,173	11,092	12,448	10,764	To be reported February 2014
b. # of those referred determined to be NOT eligible and whose eligibilities were determined prior to their third birthdays	1,237	1,406	1,878	2,212	1,796	
c. # of those found eligible who have an IEP developed and implemented by their third birthdays	5,706	6,896	8,118	8,396	7,582	
d. # of children for whom parent refusal to provide consent caused delays in evaluation or initial services.	0	0	419	823	676	
e. # of children who were referred to Part C less than 90 days before their third birthday.	NR*	NR*	NA**	837	642	
Percent of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays. Calculation = ( c. / ( a. – b. – d. – e. ) ) * 100	76.8%	88.8%	92.3%	97.9%	99.1%

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

During FFY 2011, districts reported that 10,764 children were served in Part C and referred to Part B for eligibility determination. 99.2% of those children who were found eligible for special education services had an IEP developed and implemented by their third birthday. Though the State did not meet the 100% compliance target, the data reflects a 22.4% increase from the baseline data collected during FFY 2007 and a 1.3% increase from the data reported in FFY 2010.

The increase can be attributed to multiple actions taken by the State:

- Guidance and resources were developed to improve the data entry (e.g. more explicit instructions, flowcharts to guide decision making process on how to enter students in the online system, new regional and district reports for use in analyzing data, etc.).
- Targeted technical assistance was provided by the Education Service Centers (ESC) to noncompliant districts.
- Continued communication and collaboration with Texas Department of Assistive and Rehabilitative Services Division of Early Childhood Intervention on early transition issues.
- Direct technical assistance provided by the Indicator 12 Support team and ESC was easily and readily available from 7:00-5:00 daily.
- Reports were developed and accessible for district use to analyze their trend data, compliance issues, and data validation.
- Refined guidance, statewide awareness, and ongoing technical assistance increased the number of children reported.

**Correction of FFY 2010 Findings of Noncompliance (if State reported less than 100% compliance):**

Level of compliance (actual target data) State reported for FFY 2010 for this indicator: 97.9%

1. Number of findings of noncompliance the State made during FFY 2010 (the period from July 1, 2010 through June 30, 2011)	<b>40</b>
2. Number of FFY 2010 findings the State verified as timely corrected (corrected within one year from the date of notification to the LEA of the finding)	<b>31</b>
3. Number of FFY 2010 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	<b>9</b>

**Correction of FFY 2010 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance):**

4. Number of FFY 2010 findings not timely corrected (same as the number from (3) above)	<b>9</b>
---	----------

5. Number of FFY 2010 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	5
6. Number of FFY 2010 findings <u>not</u> verified as corrected [(4) minus (5)]	4*

\*The state has identified 4 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (3 findings continue from 2009 with 1 additional identified in 2010)

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2010:**

The Texas Education Agency Division of Federal and State Education Policy notified districts of their noncompliance with FFY 2010 SPP Indicators 11, 12, and 13 in October 2011. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 12.

**Correction of FFY 2009 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2009 APR):**

1. Number of remaining FFY 2009 findings noted in OSEP's June 2012 FFY 2010 APR response table for this indicator	81**
2. Number of remaining FFY 2009 findings the State has verified as corrected	78
3. Number of remaining FFY 2009 findings the State has NOT verified as corrected [(1) minus (2)]	3*

\*The state has identified 3 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (2 findings continue from 2008 with 1 additional identified in 2009)

\*\*As reported in the FFY 2010 APR on pages 134, 81 findings of noncompliance for FFY 2009 were identified and 60 of those findings were identified as corrected within one year from the date of notification to the LEA of the finding. Per OSEP Analysis/Next Steps in the Texas Part B FFY 2010 SPP/APR, OSEP considered the findings to be continuing and required the State to demonstrate, in the FFY 2011, correction of the remaining 81 uncorrected noncompliance findings.

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2009:**

The Texas Education Agency Division of IDEA Coordination notified districts of their noncompliance with FFY 2009 SPP Indicators 11, 12, and 13 in November 2010. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 12.

**Correction of FFY 2008 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2008 APR):**

1. Number of remaining FFY 2008 findings noted in OSEP's June 2012 FFY 2010 APR response table for this indicator	<b>15</b>
2. Number of remaining FFY 2008 findings the State has verified as corrected	<b>13</b>
3. Number of remaining FFY 2008 findings the State has NOT verified as corrected [(1) minus (2)]	<b>2*</b>

\*The state has identified 2 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (2 findings continue from 2007 with no additional identified in 2008)

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2008:**

The Texas Education Agency Division of IDEA Coordination notified districts of their noncompliance with FFY 2008 SPP Indicators 11, 12, and 13 in November 2009. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 12.

**Correction of FFY 2007 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2007 APR):**

1. Number of remaining FFY 2007 findings noted in OSEP's June 2012 FFY 2010 APR response table for this indicator	<b>32**</b>
2. Number of remaining FFY 2007 findings the State has verified as corrected	<b>30</b>
3. Number of remaining FFY 2007 findings the State has NOT verified as corrected [(1) minus (2)]	<b>2*</b>

\*The state has identified 2 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2).

\*\*As reported in the FFY 2010 APR on pages 136, 32 findings of noncompliance for FFY 2009 were identified and 20 of those findings were identified as corrected within one year from the date of notification to the LEA of the finding. Per OSEP Analysis/Next Steps in the Texas Part B FFY 2010 SPP/APR, OSEP considered the findings to be continuing and required the State to demonstrate, in the FFY 2011, correction of the remaining 32 uncorrected noncompliance findings.

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2007:**

The Texas Education Agency Division of IDEA Coordination notified districts of their noncompliance with FFY 2007 SPP Indicators 11, 12, and 13 in April 2009. Districts were required to submit either an "Explanation/Resolution" form or a "SPP Corrective Action Plan." The "Explanation/Resolution" form was required of those districts that had data reporting issues (e.g. reporting nonexistent noncompliance as a result of the implementation of a first year data collection). The "SPP Corrective Action Plan" was required of those districts that had serious systemic issues to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the forms and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 12.

**Additional Information Required by the OSEP APR Response Table for this Indicator:**

Statement from the Response Table	State's Response
<p>If the state cannot report in the 2011 APR that this [longstanding noncompliance] has been corrected, the State must report:</p> <p>(1) the specific nature of the noncompliance;</p>	<p>(1) The State has implemented monitoring systems to ensure all individual instances of noncompliance have been corrected for each finding. The specific nature of the remaining noncompliance for the identified findings is lack of assurance that the remaining LEAs represented in findings have correctly implemented the specific regulatory requirements based on the State's review of updated data from subsequent on-site monitoring or data collected through the State data system.</p>
<p>(2) the State's explanation as to why the noncompliance has persisted;</p>	<p>(2) Through monitoring efforts, the State has identified various affects contributing to the continuing noncompliance in these identified findings which include, but are not limited to:</p> <ul style="list-style-type: none"> <li>a) lack of qualified personnel responsible for implementing specific regulatory requirements;</li> <li>b) changes in staff assignments, administrative leadership, or other staffing disruptions; and</li> <li>c) lack of continuous and substantive engagement in available technical assistance leading to incorrect application of specific regulatory requirements and/or reporting requirements.</li> </ul>
<p>(3) the steps that the State has taken to ensure the correction of each finding of the remaining findings of noncompliance, and any new or different actions the State has taken, since the submission of its FFY 2010 APR to ensure such correction; and</p>	<p>(3) The State has remained diligent in working with LEAs represented in findings. This includes technical assistance from regional education service centers to establish systemic changes through policy and procedures development and/or revisions to address individual district efforts in maintaining consistency with implementing these specific regulatory requirements. For information about how the State is addressing the continued lack of compliance, including as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15. Additionally, the State is in process or reviewing current data collection systems for identification of noncompliance, utilizing available options outlined in OSEP provided guidance, and application of both prongs for correction of noncompliance specified in OSEP Memo 09-02.</p>

<p>(4) any new or different actions the State will take to ensure such correction</p>	<p>(4) The State will continue to diligently work with LEAs identified in continued noncompliance through monitoring efforts and enforcement activities. Additionally the State will implement an updated data collection system and revised guidance for Indicators 11, 12, and 13 to include components for refining the collection and identification of specific instances of noncompliance, as well as refined assurances and verification for prompt correction of noncompliance.</p>
---	---

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision. This is an indicator with a 100% compliance target.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

<p style="text-align: center;"><b>FFY 2010 and 2011 Technical Assistance Update</b></p> <p>As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period. A complete listing of the activities the State participated in and the resulting action from its participation can be found in the "Overview" section of the APR.</p>
---

## Part B State Annual Performance Report (APR) for 2011 (Indicator 13)

### Monitoring Priority: Effective General Supervision Part B / Effective Transition

**Indicator 13:** Percent of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition service needs. There also must be evidence that the student was invited to the IEP Team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency was invited to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority.

(20 U.S.C. 1416(a)(3)(B))

#### Measurement:

Percent = [(# of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition service needs. There also must be evidence that the student was invited to the IEP Team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency was invited to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority) divided by the (# of youth with an IEP age 16 and above)] times 100.

FFY	Measurable and Rigorous Target
2011	100% of youth aged 16 and above have an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition service needs.

#### Overview of Issue/Description of System or Process:

##### Data Collection Activities

The Texas Education Agency (TEA) has developed a secure, online application for the collection of data related to Indicator 13. Included in this data collection are students with disabilities who were at least age **16** up through age **21** (age **22** if appropriate) between **July 1, 2011** and **June 30, 2012**, and included students who were age **15** but turned age **16** by **June 30, 2012**.

During FFY 2011, all districts serving students with disabilities receiving special education services ages 16-21 submitted student level data on compliance aspects of the secondary transition process. Districts that did not serve students with disabilities ages 16-21 were required to submit a zero count. Districts with less than 30 students with disabilities ages 16-21 were required to submit data on all students. Districts with more than 30 students with disabilities ages 16-21 were required to follow a sampling procedure to ensure the submission of data reflective of the district's student with disabilities ages 16-21 population. A description of the sampling procedures can be found on the TEA website at: <http://www.tea.state.tx.us/special.ed/>.

Data collection and use of an online SPP 13 application was an integral part of the statewide training process for this indicator. The training presented data collection tools including a *Checklist* for measuring SPP Indicator 13 and the *Check List Guidance* (Student Folder/IEP Review Chart). These tools facilitated the review of students' folders.

The *Checklist* for measurement of SPP Indicator 13 is aligned with the National Secondary Transition Technical Assistance Center (NSTTAC) guidance on data collection. The use of these tools ensures that comparable data is collected throughout the state. The reviewer responds either "yes" or "no" to each of the thirteen compliance items included in the *Checklist*, which addresses key elements of secondary transition reflected in the Individuals with Disabilities Education Act (IDEA).

In order to report an IEP in compliance for Indicator 13, all thirteen compliance *Checklist* items must have a "yes" response. Therefore, if there was one "no" response, the IEP did not meet the SPP Indicator 13 measurement requirements. The online SPP 13 automatically calculates compliance based on the response to the *Checklist* items. Data collection resources can be found on the TEA website at <http://www.tea.state.tx.us/special.ed/>.

**Actual Target Data for FFY 2011:**

	FFY 2006	FFY 2007	FFY 2008	FFY 2009	FFY 2010	FFY 2011	FFY 2012
Statewide Percentage of Secondary Transition	2006-07	2007-08	2008-09	2009-10	2010-11	2011-12	2012-13
a. # of youth with disabilities aged 16 and above with an IEP that includes coordinated, measurable, annual IEP goals and transition services	677*	18,917	19,682	19,218	18,282	15,637	To be reported February 2014
b. # of youth with disabilities aged 16 and above in the dataset	3,308*	28,084	21,392	19,791	18,554	15,748	
c. % of youth with disabilities aged 16 and above with an IEP that includes coordinated, measurable, annual IEP goals and transition services (c. = ( a. / b. ) * 100)	20.5%*	67.4%	92.0%	97.1%	98.5%	99.3%	

Source: SPP13 Data Collection Application

\*reflects data collection limited to 14 largest districts in the state

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

During FFY 2011, districts reported a total of 15,748 youth aged 16 and above in the required data set. 99.3% of those youth identified in the data set were found to have an IEP that includes coordinated, measurable, annual IEP goals and transition services.

Although not required to report Indicator 13 data for the FFY 2008 APR due February 2010, the State collected data in accordance with the new requirements for the FFY 2009 reporting year and thereafter; therefore, progress was able to be determined. Though the State did not meet the 100% compliance target, the data reflects a 31.9% increase from the data collected during FFY 2007 and a .8% increase from the data reported in FFY 2010.

The increase can be attributed to multiple actions taken by the State:

- Guidance and resources were developed to improve the data entry (e.g. more explicit instructions, flowcharts to guide decision making process on how to enter students in the online system, new regional and district reports for use in analyzing data, etc.).
- Targeted technical assistance was provided by the Education Service Centers (ESC) to noncompliant districts.
- Direct technical assistance provided by the Indicator 13 Support team and ESC was easily and readily available from 7:00-5:00 daily.
- Reports were developed and accessible for district use to analyze their trend data, compliance issues, and data validation.
- Refined guidance, statewide awareness, and ongoing technical assistance increased the number of children reported.

**Correction of FFY 2010 Findings of Noncompliance (if State reported less than 100% compliance):**

Level of compliance (actual target data) State reported for FFY 2010 for this indicator: 98.5%

1. Number of findings of noncompliance the State made during FFY 2010 (the period from July 1, 2010 through June 30, 2011)	<b>43</b>
2. Number of FFY 2010 findings the State verified as timely corrected (corrected within one year from the date of notification to the local educational agency (LEA) of the finding)	<b>35</b>
3. Number of FFY 2010 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	<b>8</b>

**Correction of FFY 2010 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance):**

4. Number of FFY 2010 findings not timely corrected (same as the number from (3) above)	<b>8</b>
5. Number of FFY 2010 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	<b>3</b>
6. Number of FFY 2010 findings not verified as corrected [(4) minus (5)]	<b>5*</b>

\*The state has identified 5 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (4 findings continue from 2009 with 1 additional identified in 2010)

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action (e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2010:**

The Texas Education Agency Division of Federal and State Education Policy notified districts of their noncompliance with FFY 2010 SPP Indicators 11, 12, and 13 in October 2011. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 13.

**Correction of FFY 2009 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2009 APR):**

1. Number of remaining FFY 2009 findings noted in OSEP's June 2012 FFY 2010 APR response table for this indicator	<b>88**</b>
2. Number of remaining FFY 2009 findings the State has verified as corrected	<b>84</b>
3. Number of remaining FFY 2009 findings the State has NOT verified as corrected [(1) minus (2)]	<b>4*</b>

\*The state has identified 4 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2). (4 findings continue from 2008 with 0 additional identified in 2009)

\*\*As reported in the FFY 2010 APR on pages 142, 88 findings of noncompliance for FFY 2009 were identified and 68 of those findings were identified as corrected within one year from the date of notification to the LEA of the finding. Per OSEP Analysis/Next Steps in the Texas Part B FFY 2010 SPP/APR, OSEP considered the findings to be continuing and required the State to demonstrate, in the FFY 2011, correction of the remaining 88 uncorrected noncompliance findings.

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2009:**

The Texas Education Agency Division of Federal and State Education Policy notified districts of their noncompliance with FFY 2009 SPP Indicators 11, 12, and 13 in November 2010. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 13.

**Correction of FFY 2008 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2008 APR):**

1. Number of remaining FFY 2008 findings noted in OSEP's June 2012 FFY 2010 APR response table for this indicator	<b>9</b>
2. Number of remaining FFY 2008 findings the State has verified as corrected	<b>5</b>
3. Number of remaining FFY 2008 findings the State has NOT verified as corrected [(1) minus (2)]	<b>4*</b>

\*The state has identified 4 findings that remain due to continued noncompliance based on lack of evidence of correctly implementing the specific regulatory requirements (Prong 2).

**Actions Taken if Noncompliance Not Corrected:**

For information about what the State is doing about the continued lack of compliance, including, as appropriate, enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15.

**Verification of Correction (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has completed the required action(e.g., the evaluation or initiation of services), though late, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2008:**

The Texas Education Agency Division of Federal and State Education Policy notified districts of their noncompliance with FFY 2008 SPP Indicators 11, 12, and 13 in November 2009. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations associated with the indicators and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of systemic correction through subsequent data collection in the secure, online application for the collection of data related to Indicator 13.

**Additional Information Required by the OSEP APR Response Table for this Indicator:**

Statement from the Response Table	State's Response
<p>If the state cannot report in the 2011 APR that this [longstanding noncompliance] has been corrected, the State must report:</p> <p>(1) the specific nature of the noncompliance;</p>	<p>(1) The State has implemented monitoring systems to ensure all individual instances of noncompliance have been corrected for each finding. The specific nature of the remaining noncompliance for the identified findings is lack of assurance that the remaining LEAs represented in findings have correctly implemented the specific regulatory requirements based on the State's review of updated data from subsequent on-site monitoring or data collected through the State data system.</p>
<p>(2) the State's explanation as to why the noncompliance has persisted;</p>	<p>(2) Through monitoring efforts, the State has identified various affects contributing to the continuing noncompliance in these identified findings which include, but are not limited to:</p> <ul style="list-style-type: none"> <li>a) lack of qualified personnel responsible for implementing specific regulatory requirements;</li> <li>b) changes in staff assignments, administrative leadership, or other staffing disruptions; and</li> <li>c) lack of continuous and substantive engagement in available technical assistance leading to incorrect application of specific regulatory requirements and/or reporting requirements.</li> </ul>
<p>(3) the steps that the State has taken to ensure the correction of each finding of the remaining findings of noncompliance, and any new or different actions the State has taken, since the submission of its FFY 2010 APR to ensure such correction; and</p>	<p>(3) The State has remained diligent in working with LEAs represented in findings. This includes technical assistance from regional education service centers to establish systemic changes through policy and procedures development and/or revisions to address individual district efforts in maintaining consistency with implementing these specific regulatory requirements. For information about how the State is addressing the continued lack of compliance, including as appropriate,</p>

	<p>enforcement actions taken against an LEA that continues to show noncompliance, see the table titled "Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities" found in Indicator 15. Additionally, the State is in process or reviewing current data collection systems for identification of noncompliance, utilizing available options outlined in OSEP provided guidance, and application of both prongs for correction of noncompliance specified in OSEP Memo 09-02.</p>
<p>(4) any new or different actions the State will take to ensure such correction</p>	<p>(4) The State will continue to diligently work with LEAs identified in continued noncompliance through monitoring efforts and enforcement activities. Additionally the State will implement an updated data collection system and revised guidance for Indicators 11, 12, and 13 to include components for refining the collection and identification of specific instances of noncompliance, as well as refined assurances and verification for prompt correction of noncompliance.</p>

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision. This is an indicator with a 100% compliance target.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

**FFY 2011 and 2012 Technical Assistance Update**

As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period. A complete listing of the activities the State participated in and the resulting action from its participation can be found in the "Overview" section of the APR.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 14)

**Monitoring Priority: Effective General Supervision Part B / Effective Transition**

**Indicator 14:** Percent of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:

- A. Enrolled in higher education within one year of leaving high school.
- B. Enrolled in higher education or competitively employed within one year of leaving high school.
- C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

(20 U.S.C. 1416(a)(3)(B))

**Measurement:**

- A. Percent enrolled in higher education =  $[(\# \text{ of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education within one year of leaving high school}) \div (\# \text{ of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school})] \times 100$ .
- B. Percent enrolled in higher education or competitively employed within one year of leaving high school =  $[(\# \text{ of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education or competitively employed within one year of leaving high school}) \div (\# \text{ of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school})] \times 100$ .
- C. Percent enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment =  $[(\# \text{ of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment}) \div (\# \text{ of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school})] \times 100$ .

FFY	Measurable and Rigorous Target
2011	<ul style="list-style-type: none"> <li>A. 24% of youth who are no longer in secondary school are enrolled in higher education within one year of leaving high school.</li> <li>B. 56% of youth who are no longer in secondary school are enrolled in higher education or competitively employed within one year of leaving high school.</li> <li>C. 71% of youth who are no longer in secondary school are enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.</li> </ul>

## Overview of Issue/Description of System or Process:

The 2011-2012 Indicator 14: Extended Postsecondary Follow-Up Study is a statewide survey that was administered during the summer of 2012 by PTV NuStats. Sponsored by the Texas Education Agency, the purpose of the survey is to follow-up with persons previously enrolled in high schools within the state of Texas to collect data on their post-high school activities. Eligible respondents either graduated or dropped out during the 2010-2011 school year. The survey included a total of eleven questions: eight questions needed for the SPP Indicator 14 reporting and three questions to address statewide and district high school program improvement.

A total of 4,233 surveys were completed statewide.

Table 1: Data Collection Summary

Summary	N
Available Sample Records to Contact	12,389
Completed Surveys	4,233
Completion Rate	35%
Average Call Attempts per Record	5.35

Since leaving high school, 42 percent of respondents reported they have been enrolled in school, job training, or an education program. Of those, 72 percent have completed an entire term, and 67 percent were enrolled in a two- or four-year college or university.

Sixty-five percent of respondents reported being employed since they left high school. Of those who reported being employed, 84 percent worked at least three months, which may or may not have been continuous; 83 percent worked an average of 20 hours per week; and 94 percent earned at least minimum wage. The majority of those employed (84 percent) reported working for a company, business, or service that employed persons with and without disabilities.

Of those students enrolled in a two- or four-year college or university, 34 percent reported contacting the Office of Disability Services. Thirty-six percent of those received "additional time for assignments," 39 percent received "test accommodations," and 29 percent received "tutoring." Since leaving high school, 62 percent of respondents reported not contacting any of the adult service agencies for support. Seventeen percent reported contacting the Department of Assistive and Rehabilitative Services, and 14 percent reported contacting the Social Security Administration.

## Data Collection

Data collection, using the VOXCO Computer Assisted Telephone Interviewing (CATI) software program, began on June 26, 2012 and ended on August 14, 2012. A total of 4,238 completed cases were collected: 4,060 English cases and 178 Spanish cases. Five English cases did not have sufficient data to be considered as complete and were not included in the data delivery.

Call attempts were made each day of the week (Monday through Sunday). Calls on weekdays were primarily made in the evening from 5:00 p.m. to 9:00 p.m. to increase the likelihood of finding the target respondent at home. On weekends, the calling window was primarily from 12:00 p.m. to 8:00 p.m. If a respondent requested or suggested a call back at a time outside of this range, arrangements were made to accommodate the request within the hours of 8:00 a.m. to 9:00 p.m. Central Standard Time.

For a variety of reasons, some people are reluctant to participate in surveys. For example, when contacted by an interviewer, potential respondents may tell the interviewer that they are too busy, not interested, suspicious of the call, or think the call is taking too long. When a respondent refused, these cases were coded as first refusals, or soft refusals, and were re-contacted after several days to a week had passed, since many people are willing to participate in a survey if they are called again at a time more convenient for them. Attempts to contact a potential respondent were discontinued if the potential respondent gave two soft refusals. More strongly worded refusals—for example, refusals in which the respondent asked to be taken off the list, yelled, made threats, or used profanity—were coded as hard refusals and were not re-contacted.

This year, 14 percent of respondents could not be found, as compared to the 31 percent from last year. Refusal rates increased this year (8 percent), as compared to the 3 percent last year. Invalid number rates slightly increased this year (15 percent), as compared to the 14 percent last year. However, the percentage of respondents who could not be found in 2012 had a significant decrease from 2011. As a result, data collection yielded a completion rate of 35 percent, as opposed to the 33 percent obtained in 2011.

### Sample Management

A total of 12,389 sample records were received to conduct this year’s study, and 92,126 calls were made to find qualified respondents. Calls were made at varying times of day and days of the week to maximize the chance to make contact. The average number of call attempts to all sampled records was 5.35 calls. After various call attempts were made to the different possible phone numbers available, PTV NuStats made contact with 5,377 students, or 43 percent of the cases.

After the initial sample release, subsequent “waves” of dialing included refusal conversion to non-final refusal records to maximize the chances of finding the target population, as well as re-dialing all non-working numbers prior to closing the fielding effort. As shown in Table A2, for telephone numbers that eventually resulted in a completed interview, a maximum of 36 call attempts were made to convert the initial non-final disposition (such as no answer, busy, or answering machine) to a completed interview. Final dispositions are permanent and close the record from further dialing.

### Representative Sample

Demographic data from the sample has been provided to reflect that data from the survey was representative of the state’s special education population (2004).

	Female	Male
<b>Respondents</b>	1372	2861
<b>Sample</b>	32%	68%
<b>State</b>	33%	66%

	American Indian or Alaska Native	Asian/Pacific Islander	Black or African American	Hispanic / Latino	White	Two or more
<b>Respondents</b>	25	45	634	1,618	1,866	45
<b>Sample</b>	1%	1%	15%	38%	44%	1%
<b>State</b>	>1%	>1%	17%	40%	40%	>1%

	Learning Disability	Other Health Impairment	Other disabilities
<b>Respondents</b>	2640	520	1073
<b>Sample</b>	62%	12%	25%
<b>State</b>	50%	10%	20%

## Survey Data for FFY 2011:

States are required to report post school outcome data in the following mutually exclusive categories:

Post School Outcomes	Count	Percent
1. Higher Education	939	22%
2. Competitively Employed	1,489	35%
3. Some Other Postsecondary Education or Training Program	207	5%
4. Some Other Employment	268	6%
Not Engaged in 1-4 Above	1,330	31%
Total	4,233	100%

## Actual Target Data for FFY 2011:

	FFY 2009 2009-10	FFY 2010 2010-11	FFY 2011 2011-12	FFY 2012 2012-13
14A. Enrolled in higher education within one year of leaving high school (1)	26%	23%	22%	
14B. Enrolled in higher education or competitively employed within one year of leaving high school. (1 + 2)	59%	55%	57%	To be reported February 2014
14C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment with one year of leaving high school.(1 + 2 + 3 + 4)	72%	70%	69%	

Source: Post School Outcome Survey Data

## Federal Definitions

**Enrolled in higher education** as used in measures 14A, 14B, and 14 C means youth have been enrolled on a full- or part-time basis in a community college (two year program) or college/university (four or more year program) for at least one complete term, at any time in the year since leaving high school.

**Competitive employment** as used in measures 14B and 14C means that youth have worked for pay at or above the minimum wage in a setting with others who are nondisabled for a period of 20 hours a week for at least 90 days at any time in the year since leaving high school. This includes military employment.

**Enrolled in other postsecondary education or training** as used in measure 14C, means youth have been enrolled on a full- or part-time basis for at least one complete term at any time in the year since leaving high school in an education or training program (e.g., Job Corps, adult education, workforce development program, vocational technical school which is less than a two year program).

**Some other employment** as used in measure 14C means youth have worked for pay or been self-employed for a period of at least 90 days at any time in the year since leaving high school. This includes working in a family business (e.g., farm, store, fishing, ranching, catering services, etc.).

## **Summary of Results**

Most post-school survey participants have been both enrolled in postsecondary training, technical school, community college or university and employed (69%). Thirty-one percent of the participants reported they were neither enrolled, nor employed. Twenty-seven percent of the participants have been enrolled in postsecondary training regardless of their employment status. It is clear that more participants have been employed (41%), regardless of their enrollment status.

Of the participants that worked/work, the overwhelming majority report being employed by the community. Most participants who have been employed worked/work at least 35 hours a week and were/are paid minimum wage. After high school, the majority of participants who enrolled in school entered a 2-year Community College and were/are enrolled full-time.

## **Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

### **I. Improvement Activities Completed:**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

### **II. Explanation of Progress or Slippage**

The State reported a slight decrease (1%) in two (14A and 14C) of three categories from the baseline reporting year of FFY 2010. The State surpassed its target for one category (14B) by a 1% margin. Possible explanations for decrease in categories 14A and 14C include:

The state is still experiencing difficulty in collecting accurate follow-up contact information from grade 12 exiting students. District personnel need to work more diligently before students exit to obtain the most accurate and reliable information to be used one year later in contacting students.

The economic downturn and slowed economic turnaround nationwide and statewide may be reflective of the ability for some students to engage in enrollment in higher education or in some other postsecondary education or training program within one year of leaving high school.

A significant increase (3%) presented in Post School Outcomes category 2 (Competitively Employed) is encouraging for LEA Career and Technical Education (CTE) programs which are dedicated to preparing young people to manage the dual roles of family member and wage earner. Career and technical programs are designed to enable students to gain entry-level employment in a high-skill, high-wage job and/or to continue their education.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revisions to the targets for FFY 2012:

- 14A = 25%
- 14B = 57%
- 14C = 72%

Targets for FFY 2011 were based on data obtained from the 2009-2010 Indicator 14: Extended Postsecondary Follow-up Study administered during the summer of 2010. The Texas Steering Committee was convened in January 2011, to review the baseline data and advise the State on targets for Indicator 14A-C through FFY 2012.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 15)

<b>Monitoring Priority: Effective General Supervision Part B / General Supervision</b>
--

**Indicator 15:** General supervision system (including monitoring, complaints, hearings, etc.) identifies and corrects noncompliance as soon as possible but in no case later than one year from identification.

(20 U.S.C. 1416 (a)(3)(B))

**Measurement:**

Percent of noncompliance corrected within one year of identification:

- a. # of findings of noncompliance.
- b. # of corrections completed as soon as possible but in no case later than one year from identification.

Percent = [(b) divided by (a)] times 100.

FFY	Measurable and Rigorous Target
2011	The State will demonstrate 100% compliance with requirement for correction of noncompliance within one year of identification.

**Overview of Issue/Description of System or Process:**

**Monitoring Activities 2011-2012**

The 2011-2012 special education monitoring process included four types of monitoring activities: Performance-Based Monitoring (PBM) of public school districts including charter schools; approval and re-approval of nonpublic schools; cyclical monitoring of other entities that provide services to students with disabilities; and residential facility monitoring.

**PBM**

All districts were evaluated through an analysis of district data against standards of the Performance-Based Monitoring Analysis System (PBMAS). Information on the 2011-2012 PBMAS is available at <http://www.tea.state.tx.us/pbm/PBMASManuals.aspx>. 516 districts received ratings that placed them into one of four stages of intervention. Depending on the stage of intervention, districts were required to engage in various self-evaluation activities to focus on improving results for students with disabilities and to facilitate continuous feedback and use of information to support continuous improvement. The following table shows how the 516 districts that received ratings were distributed among the five stages of intervention:

Stage of Intervention	# of districts
1	347
2	97
3	51
4	21
Total	516

Districts in stages 1 and 2 interventions retained their self-evaluation data and continuous improvement plan (CIP). Each district in stages 3 and 4 interventions was required to submit its self-evaluation data and CIP to the TEA. Based on the findings from all TEA required intervention activities, the district developed a CIP to incorporate the district's plans, to improve results for students with disabilities and a corrective action plan (CAP) to correct any instances of identified noncompliance. TEA staff reviewed all documents submitted by districts including the CIP, and the CAP for any identified noncompliance. Follow-up activities were conducted with districts throughout the year to verify the progress and implementation of the CIP and if applicable, the CAP.

On-site investigations by the TEA Division of Program Monitoring and Interventions were conducted to address program effectiveness and/or systemic concerns related to documented substantial, imminent, or ongoing risks evidenced through data reported through PBMAS. The decision to conduct an on-site investigation was not contingent on the stage of intervention, but rather on identification of program effectiveness and/or systemic concerns. The on-site investigation activities was combined with other monitoring activities as appropriate, and districts were required to conduct program improvement activities as required by the TEA.

For districts staged in multiple program areas, customized interventions activities were developed to address specific areas of low performance and/or systemic issues. Districts were to approach the intervention activities as one integrated and comprehensive process to identify causes of low performance and poor program effectiveness and develop plans to positively impact program effectiveness, student performance, and compliance with federal and state requirements. Findings from all components of the monitoring process were evaluated and addressed in a CIP as appropriate. Any findings of noncompliance were included in a CAP to correct noncompliance as soon as possible, but in no case later than one year from identification.

Of the 65 on-site investigations conducted during the 2011-2012 year, 38 included investigation of special education issues as part of the integrated process. Only 3 investigations were solely for special education purposes.

### **Initial and Re-approval for Nonpublic Schools**

The TEA monitors both day and residential nonpublic schools with which districts may contract for special education instructional and related services. Information on the process of approving and monitoring non-public schools is available on the TEA website: <http://www.tea.state.tx.us/pmi>. During the 2011-2012 year, the TEA reviewed five nonpublic schools for re-approval. A total of 13 districts contracted with these 5 nonpublic schools during the school year. Each nonpublic school completed a self-analysis concerning state and federal regulations prior to the on-site review. Additionally, the contracting district completed and submitted a focused compliance report for each student who is being educated in the nonpublic school. The on-site review focused on programs and services relative to appropriate staffing, specific program locations, specific areas of disabilities, and age ranges. Noncompliance may be identified as issues for the nonpublic school, and, if applicable, any contracting district.

### **Other Monitoring Activities**

The TEA also monitors four entities that are under the oversight of other state agencies, but provide educational services to students with disabilities: Texas School for the Deaf, Texas School for the Blind and Visually Impaired, Texas Youth Commission, and the Windham Prison System. These entities are monitored on a four-year cycle. A monitoring review of the Texas School for the Blind and Visually Impaired was conducted during 2011-2012.

### Residential Facility Monitoring

Under the authority of 19 Texas Administrative Code (TAC) §97.1072 the TEA monitors districts who serve students with disabilities who reside in residential facilities.

(<http://ritttter.tea.state.tx.us/rules/tac/chapter097/ch097ee.html#97.1072>).

Additionally, RF monitoring has become a part of the integrated process if districts are staged in more than one program area.

For the 2011-2012 year, the number of districts who were staged for RF monitoring was:

Stage of Intervention	# of district
1	27
2	15
3	11
4	12

### Federal Definitions:

**MONITORING:** Activities or actions conducted to determine the functioning of a program or services compared to what is required by a regulation or requirement for the purpose of accountability.

**IDENTIFICATION OF NONCOMPLIANCE:** The one-year correction timeline should be counted from when the State notifies the local educational agency (LEA) in writing of the noncompliant policies, procedures, or practices. Notification of findings needs to occur as soon as possible after the State concludes that the LEA has noncompliance.

**CORRECTION OF NONCOMPLIANCE:** The State requires the LEA to revise any noncompliant policies, procedures and/or practices and the State verifies through follow-up review of data, other documentation and/or interviews that the noncompliant policies, procedures and/or practices have been revised and the noncompliance has been corrected. The State should notify the LEA in writing that the noncompliance is corrected. For purposes of the SPP/APR reporting, timely correction occurs when noncompliance is corrected as soon as possible but no later than one year from the identification of noncompliance.

**ENFORCEMENT ACTIONS:** Actions taken by the State education agency or Lead Agency against an LEA that has not corrected noncompliance within one year from its identification and that are designed to promptly bring the LEA into compliance.

**Actual Target Data for FFY 2011:**

**Disaggregated Findings of Noncompliance\***

SPP Indicators	Function	Total # of LEAs issued Findings	Total # of Findings	# Corrected Within Year	# Corrected Beyond Year or Continuing Noncompliance	
1. Percent of youth with IEPs graduating from high school with a regular diploma. 2. Percent of youth with IEPs dropping out of high school. 14. Percent of youth who had IEPs, are no longer in secondary school and who have been competitively employed, enrolled in some type of postsecondary school, or both, within one year of leaving high school.	Monitoring	0	0	0	0	
	Complaints	0	0	0	0	
	Due Process	0	0	0	0	
3. Participation and performance of children with disabilities on statewide assessments. 7. Percent of preschool children with IEPs who demonstrated improved outcomes.	Monitoring	30	35	28	7	
	Complaints	1	1	1	0	
	Due Process	0	0	0	0	
4A. Percent of districts identified as having a significant discrepancy in the rates of suspensions and expulsions of children with disabilities for greater than 10 days in a school year. 4B. Percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.	Monitoring	10	20	18	2	
	Complaints	6	7	7	0	
	Due Process	1	1	1	0	
5. Percent of children with IEPs ages 6 through -1 - educational placements. 6. Percent of preschool children ages 3 through 5 – early childhood placement.	Monitoring	0	0	0	0	
	Complaints	2	2	2	0	
	Due Process	4	8	8	0	
8. Percent of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.	Monitoring	17	27	8	19	
	Complaints	8	8	8	0	
	Due Process	1	1	1	0	
9. Percent of districts with disproportionate representation of racial and ethnic groups in special education that is the result of inappropriate identification. 10. Percent of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification.	Monitoring	0	0	0	0	
	Complaints	0	0	0	0	
	Due Process	0	0	0	0	
11. Percent of children who were evaluated within 60 days of receiving parental consent for initial evaluation or, if the State establishes a timeframe within which the evaluation must be conducted, within that timeframe.	Monitoring	206	206	130	76	
	Complaints	0	0	0	0	
	Due Process	0	0	0	0	
12. Percent of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays.	Monitoring	89	89	65	24	
	Complaints	0	0	0	0	
	Due Process	0	0	0	0	
13. Percent of youth aged 16 and above with IEP that includes coordinated, measurable, annual IEP goals and transition services that will reasonably enable student to meet the post-secondary goals.	Monitoring	93	93	71	22

\*Findings identified in 2010-11, Corrected in 2011-12

### Timely Correction of Noncompliance

Findings are identified in the year previous to the FFY reporting year; for example, FFY 2010 reporting year reflects findings identified in 2009-10 that were corrected by 2010-11

	FFY 2005 2005-06	FFY 2006 2006-07	FFY 2007 2007-08	FFY 2008 2008-09	FFY 2009 2009-10	FFY 2010 2010-11	FFY 2011 2011-12	FFY 2012 2012-13
a. # of findings of noncompliance	234	774	539	935	1,758	1,422	967	To be reported February 2014
b. # of corrections completed as soon as possible but in no case later than one year from identification	222	705	472	816	1,458	1,261	645	
Percent of noncompliance corrected within one year of identification Calculation: ( a. / b. ) * 100	95%	92%	88%	87%	83%	89%	67%	

**Source** | Texas Education Agency, State Supervision Data

**Note:** 2005-06 data limited to findings of noncompliance identified by the State's Performance-Based monitoring system. Beginning in 2006-07, data includes findings of noncompliance identified by the State's Performance-Based monitoring system, complaints resolution and due process hearing processes.

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that Occurred for FFY 2011:**

During the FFY 2011, 645 of 967 findings of noncompliance were corrected within one year of identification (67%). This includes data related to findings of noncompliance across the State Supervision functions including the complaints resolution process, due process hearings, and the monitoring system.

The overall number of findings of noncompliance decreased from 1,422 reported last year to 967 reported this year (a decrease of 455 findings). The number of uncorrected noncompliance increased from 161 reported last year to 322 reported this year.

The 322 findings of uncorrected noncompliance are all in the monitoring function. Districts with uncorrected noncompliance in escalated sanctions from FFY 2011 are reflected in the Agency Action Related to Uncorrected Noncompliance in Monitoring table in this indicator.

The Agency has implemented a monitoring system, discussed in the overview section of this indicator, in which customized intervention activities were developed to address specific areas of low performance and/or systemic issues. By completing these activities, districts were able to identify causes of low performance and poor program effectiveness and develop plans to positively impact program effectiveness, student performance, and compliance with federal and state requirements across district program areas; thereby impacting overall findings of noncompliance.

Correction of noncompliance verified by the State has been impacted by several factors. In 2011, the TEA launched an integrated monitoring system and began cross-training all monitoring personnel across multiple program areas. Although the State saw a decrease in the percentage of noncompliance verified as corrected within one year for this reporting period, it is strongly felt that improvements at the local district level that will be gained from integrated monitoring and cross training all monitoring personnel will be comprehensively beneficial for all students, and will positively impact student performance and compliance with federal and state requirements across all district program areas.

The State did not meet the 100% compliance target, however, the Agency is committed to working with these districts to ensure the correction of these findings and to increase efforts associated with the timely correction of all findings of noncompliance.

**Timely Correction of FFY 2010 Findings of Noncompliance (corrected within one year from identification of the noncompliance):**

1. Number of findings of noncompliance the State identified in FFY 2010 (the period from July 1, 2010 through June 30, 2011) (Sum of Column a on the Indicator B15 Worksheet)	967
2. Number of findings the State verified as timely corrected (corrected within one year from the date of notification to the LEA of the finding) (Sum of Column b on the Indicator B15 Worksheet)	645
3. Number of findings <u>not</u> verified as corrected within one year [(1) minus (2)]	322

**FFY 2010 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance and/or Not Corrected):**

4. Number of FFY 2010 findings not timely corrected (same as the number from (3) above)	322
5. Number of FFY 2010 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	150
6. Number of FFY 2010 findings <u>not</u> yet verified as corrected [(4) minus (5)]	172

**Actions Taken if Noncompliance Not Corrected:**

**Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities**

Types of Intervention <i>Based on 19 Texas Administrative Code (TAC) §89.1076</i>	Districts with Continuing Noncompliance Notified during the period of October 1, 2010 through October 1, 2011	Further Action of TEA
Escalated Oversight <sup>1</sup>	86 districts/ 172 findings	Agency staff will conduct more frequent follow-up communication to work with districts and to verify correction of noncompliance. If correction is not achieved, sanctions, such as a focused technical assistance team or monitor, may be assigned.
Corrected before sanctions	30 districts/ 150 findings	N/A
	107 districts/ 322 findings	

<sup>1</sup>**Escalated Oversight** is more frequent contact by TEA staff with a district. If correction is not achieved within reasonable time, sanctions, such as a focused technical assistance team or monitor, may be assigned.

**Verification of Correction for findings of noncompliance identified in FFY 2010 (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2010:**

The Texas Education notified districts of their noncompliance during FFY 2010. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of correction consistent with the OSEP Memorandum 09-02, dated October 17, 2008.

**Correction of Remaining FFY 2009 Findings of Noncompliance (if applicable)**

If the State reported <100% for this indicator in its FFY 2010 APR and did not report in the FFY 2010 APR that the remaining FFY 2009 findings were subsequently corrected, provide the information below:

4. Number of remaining FFY 2009 findings noted in OSEP's FFY 2010 APR response table for this indicator	161
5. Number of remaining FFY 2009 findings the State has verified as corrected	136
6. Number of remaining FFY 2009 findings the State has NOT verified as corrected [(1) minus (2)]	25

**Actions Taken if Noncompliance Not Corrected:**

**Agency Action Related to Uncorrected Noncompliance Across All Monitoring Activities**

<b>Types of Intervention</b> <i>Based on 19 Texas Administrative Code (TAC) §89.1076</i>	<b>Districts with Continuing Noncompliance Notified during the period of October 1, 2009 through October 1, 2010</b>	<b>Further Action of TEA</b>
Escalated Oversight <sup>1</sup>	17 districts/ 25 findings	Agency staff will conduct more frequent follow-up communication to work with districts and to verify correction of noncompliance. If correction is not achieved, sanctions, such as a focused technical assistance team or monitor, may be assigned.  One district has a management team <sup>2</sup> assigned.

<sup>1</sup>**Escalated Oversight** is more frequent contact by TEA staff with a district. If correction is not achieved within reasonable time, sanctions, such as a focused technical assistance team or monitor, may be assigned.

<sup>2</sup> A **Management Team** is comprised of two or more conservators who are assigned when the nature or duration of the deficiencies require that the TEA directly oversee the operations of the district in the areas of deficiency, the district has not been responsive to or compliant with TEA intervention requirements, and/or such intervention is needed to prevent substantial or imminent harm to the welfare of the district's students or to the public interest. The conservators have the authority to direct an action to be taken by or approve or disapprove any action of a principal of a campus, the superintendent of the district, or the district's board of trustees as necessary to achieve their charges.

**Verification of Correction for findings of noncompliance identified in FFY 2009 (either timely or subsequent):**

The State has verified that each LEA with corrected noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system (Prong 2); and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the LEA (Prong 1), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

**Describe the specific actions that the State took to verify the correction of findings of noncompliance identified in FFY 2009:**

The Texas Education notified districts of their noncompliance during FFY 2009. Districts were required to submit a "Corrective Action Plan (CAP)." The CAP was required of all districts that had issues of noncompliance to address. The TEA Division of Program Monitoring and Interventions (PMI) staff reviewed the CAP and updated data and documentation to determine if districts were implementing the appropriate regulations and corrected the noncompliance. Districts that exceeded the one year timeline for correction were in follow-up status until they submitted documentation that sufficiently provided evidence of correction consistent with the OSEP Memorandum 09-02, dated October 17, 2008.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision. This is an indicator with a 100% compliance target.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

**FFY 2011 and 2012 Technical Assistance Update**

As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period. A complete listing of the activities the State participated in and the resulting action from its participation can be found in the "Overview" section of the APR.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 18)

### Monitoring Priority: Effective General Supervision Part B / General Supervision

**Indicator 18:** Percent of hearing requests that went to resolution sessions that were resolved through resolution session settlement agreements.

(20 U.S.C. 1416(a)(3)(B))

**Measurement:** Percent = (3.1(a) divided by 3.1) times 100.

FFY	Measurable and Rigorous Target
2011	25-30% of hearing requests that go to resolution sessions will result in settlement agreements.

### Overview of Issue/Description of System or Process:

The due process hearing program is managed by the TEA's Office of Legal Services. The TEA contracts with private attorneys to serve as hearing officers. The special education hearing officers are responsible for assuring that each party to a due process hearing is aware of the requirement that the LEA convene a resolution meeting with the parents of the child who is the subject of the hearing and the relevant members of the individualized education program (IEP) team whenever a parent requests a due process hearing. This information is conveyed to both parties in the hearing officer's initial scheduling order and during the initial prehearing conference call required by 19 Texas Administration Code (TAC) §89.1180. During the prehearing conference call, the hearing officer also notifies the parties that if the LEA has not resolved the due process complaint to the satisfaction of the parent within 30 days of the receipt of the complaint, then the due process hearing will move forward. The hearing officer further informs the parties that the 30-day resolution period may be adjusted in accordance with 34 CFR §300.510(c).

The State collects data regarding the number of resolution sessions held and the number of resolution session settlement agreements that were reached. The State also collects data regarding the reason a resolution session was not held (e.g., the parties waived the resolution session in writing, opted to use the mediation process instead, etc.).

**Actual Target Data for FFY 2011:**

<b>Resolution Meetings</b>	<b>FFY 2005 2005-06</b>	<b>FFY 2006 2006-07</b>	<b>FFY 2007 2007-08</b>	<b>FFY 2008 2008-09</b>	<b>FFY 2009 2009-10</b>	<b>FFY 2010 2010-11</b>	<b>FFY 2011 2011-12</b>	<b>FFY 2012 2012-13</b>

**Source** | Texas Education Agency, State Supervision Data

**Federal Definitions**

*(3) Due Process complaints* – a filing by a parent or public agency to initiate an impartial due process hearing on matters relating to the identification, evaluation, or educational placement of a child with a disability, or the provision of FAPE to the child.

*(3.1) Resolution Meeting* – A meeting, convened by the LEA, between the parent(s) and school personnel to discuss the parent’s *due process complaint* and the facts that form the basis of the *due process complaint* so that the LEA has the opportunity to resolve the dispute that is the basis for the *due process complaint*.

*(3.1)(a) Written settlement agreement* – A legally binding written document, signed by the parent and a representative of the public agency, specifying the resolution of the dispute that formed the basis for a *due process complaint* arrived at in a *resolution meeting*.

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

**FFY 2011 Technical Assistance Update**

As part of the consequence of the State's determination level of Needs Assistance or lower for two consecutive years, the State is required to report in its Annual Performance Report technical assistance it sought during the reporting period.

- TEA consulted with other states that participate in the Center for Appropriate Dispute Resolution in Special Education's (CADRE's) listserv to find out what activities they have engaged in to increase the number of hearing requests that go to resolution sessions.

**II. Explanation of Progress or Slippage**

TEA met the 25-30% state target for this indicator. The percentage of cases in which resolution meetings were held and the percentage of resolution meetings that resulted in written settlement agreements both increased from the last reporting period. TEA attributes the progress to the training it has provided to the hearing officers to ensure that they encourage the parties to participate in the resolution process.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision to the 25-30% target.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 19)

<b>Monitoring Priority: Effective General Supervision Part B / General Supervision</b>
--

**Indicator 19:** Percent of mediations held that resulted in mediation agreements.  
 (20 U.S.C. 1416(a)(3)(B))

<b>Measurement:</b> Percent = [(2.1(a)(i) + 2.1(b)(i)) divided by 2.1] times 100.
--

FFY	Measurable and Rigorous Target
2011	75-80% of mediations will result in mediation agreements.

**Overview of Issue/Description of System or Process:**

The mediation program is managed by the TEA’s Office of Legal Services. The TEA contracts with private attorneys to serve as mediators. In addition to mediators having mediation certification, they also have knowledge of special education law and regulations. Many of the mediators are also due process hearing officers. The mediators’ contracts require that they participate in continuing legal education training sessions annually provided by TEA. The mediators are also required to attend outside continuing legal education trainings that are relevant to their duties as a mediator.

As each request for a due process hearing is received by TEA, it is forwarded to the TEA Mediation Coordinator who contacts both parties to the hearing to discuss whether they would consider participating in mediation. If both parties agree to participate in mediation, a TEA mediator is assigned. The parties may agree to use a specific mediator. Otherwise, TEA will randomly assign a mediator. The TEA faxes contact information for each party to the assigned mediator. At this point, the mediator manages the mediation with no further assistance from the TEA.

When the TEA receives a direct request for mediation from a parent or a local educational agency (LEA) that is not involved in a due process hearing, the TEA Mediation Coordinator calls the non-requesting party to ask whether that party will agree to participate in mediation. If the non-requesting party agrees, a TEA mediator is assigned. The parties may agree to use a specific mediator, or a mediator will be randomly assigned. These mediations follow the same process as mediations associated with due process hearings.

Mediators are required to report to TEA whether mediation was held and whether it resulted in an agreement. The TEA collects data regarding the mediation activities and outcomes.

**Actual Target Data for FFY 2011:**

Mediation Agreements	FFY 2005 2005-06	FFY 2006 2006-07	FFY 2007 2007-08	FFY 2008 2008-09	FFY 2009 2009-10	FFY 2010 2010-11	FFY 2011 2011-12	FFY 2012 2012-13
(2) Mediation requests total	250	238	302	314	342	297	319	To be reported February 2014

(b) Mediations held not related to due process complaints	74	70	77	70	67	78	69	
(i) Mediation agreements	58	47	60	51	51	65	55	
Percent of mediations held that resulted in mediation agreements Calculation: 2.1(a)(i) + 2.1(b)(i) divided by 2.1 * 100	80%	74%	78%	77%	78%	80%	77%	

Source | Texas Education Agency, State Supervision Data

**Federal Definitions**

*(2) Mediation request* – A request by a party to a dispute involving any matter under Part B of IDEA to meet with a qualified and impartial mediator to resolve the dispute(s).

*(2.1)(a) Mediation held related to due process complaint* – A process conducted by a qualified and impartial mediator to resolve a disagreement between a parent and public agency that was initiated by the filing of a *due process complaint*

*(2.1)(a)(i) and (2.1)(b)(ii) Mediation agreement* – A written legally binding agreement, signed by a parent and a representative of the public agency that specifies the resolution of any issues in the dispute that were reached through the mediation process.

*(2.1)(b) Mediation held not related to due process complaint* – A process conducted by a qualified and impartial mediator to resolve a disagreement between a parent and public agency that was not initiated by the filing of a *due process complaint*.

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

**II. Explanation of Progress or Slippage**

The TEA met the 75-80% target for this indicator. While the percentage of mediations held that resulted in written settlement agreements decreased slightly from the last reporting period, the settlement rate for mediations that were held remains high. Furthermore, the percentage of cases in which resolution meetings were held that resulted in written settlement agreements increased, which TEA attributes to its overall effort to encourage the early resolution of disputes.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision to the 75-80% target.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

## Part B State Annual Performance Report (APR) for 2011 (Indicator 20)

**Monitoring Priority: Effective General Supervision Part B / General Supervision**

**Indicator 20:** State reported data (618 and State Performance Plan and Annual Performance Report) are timely and accurate.

(20 U.S.C. 1416(a)(3)(B))

**Measurement:**

State reported data, including 618 data, State Performance Plan, and Annual Performance Reports, are:

- a. Submitted on or before due dates (February 1 for child count, including race and ethnicity; placement; November 1 for exiting, discipline, personnel and dispute resolution; and February 1 for Annual Performance Reports and assessment); and
- b. Accurate, including covering the correct year and following the correct measurement.

FFY	Measurable and Rigorous Target
2011	The State will demonstrate 100% compliance in reporting timely and accurate data.

**Actual Target Data for FFY 2011:**

**State Reported Data**

**Discussion of Improvement Activities Completed and Explanation of Progress or Slippage that occurred for FFY 2011:**

**I. Improvement Activities Completed**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

**II. Explanation of Progress or Slippage**

The State requests that OSEP complete the Part B Indicator 20 Data Rubric as permitted. The State will review OSEP's completed rubric during the Clarification Period and will provide additional information/data if needed.

**Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012:**

**I. Targets**

No revision. This is an indicator with a 100% compliance target.

**II. Improvement Activities / Timelines / Resources**

Specific improvement activities related to these areas include all the activities listed in the separate Improvement Activities and referenced to this indicator found in Appendix A.

Improvement activities for this indicator will be ongoing through the 2013-2014 school year.

# APPENDIX A

---

## Part B State Annual Performance Report (APR) (Improvement Activities)

### Improvement Activities with Indicator Reference

#### Education Service Center (ESC) Statewide Leadership Improvement Activities

Designated ESCs are responsible for establishing and coordinating a 20-region network, which ensures ongoing communication among ESCs about state-level, planning, implementing, and evaluating statewide activities and needs assessment processes. The 20-region network for each of the leadership areas provides training and technical assistance to districts throughout the state. Statewide leadership focused on specific activities related to Indicators 1-14 (see table below):

Statewide Leadership Function/Project	Indicators
Access to General Curriculum	3A-C,4B, 5A-C, 6A-B, 7A-C, 13, 14
Assistive Technology	All
Autism	All
Behavior/Discipline	4A-B, 5, 6, 7
Disproportionate Representation	4A-B, 9, 10
Evaluation for Special Education Eligibility	11, 12
Low Incidence Disabilities	All
Parent Coordination	8
Secondary Transition/Post School Results	1, 2, 13, 14

Improvement Activities have been divided into three categories:

- **Conference/Meeting Participation**  
Staff attend conferences to gain knowledge and expertise which is shared throughout the 20-region network. Staff facilitates meetings to gather and share information for continuous improvement.
- **Technical Assistance**  
Technical assistance can take on many forms from fielding phone calls, communication at monthly director's meeting, developing guidance for the web, etc.
- **Training**  
All training was developed and delivered to educators, parents and/or students. Annual training is updated to reflect new federal and state rules and regulations.

**Access to the General Curriculum Network Improvement Activities:**

<b>Conference/Meeting Participation</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
<p><b>Inclusion Works Conference</b></p> <p>The AGC Network collaborated with the Arc of Texas to plan, market, and present the Inclusion Conference in Texas. The Inclusion Works Conference continues to support all AGC Statewide Leadership goals related to FAPE in the LRE. The role of the AGC Network is to provide guidance on the conference program, present at the conference and help build administrator and parent attendance.</p>	Feb 2012	Completed	3A-C, 4B, 5A-C, 6A-B
<p>The AGC Network collaborates with the Arc of Texas to plan, market, and present the Inclusion Conference in Texas. The Inclusion Works Conference continues to support all AGC Statewide Leadership goals related to FAPE in the LRE. The role of the AGC Network is to provide guidance on the conference program, present at the conference and help build administrator and parent attendance.</p>	Feb 2013	Continuing	3A-C, 4B, 5A-C, 6A-B
<p><b>Technical Assistance</b></p> <p>Face-to-Face meeting with Network members was used to discuss statewide plan for 2011-2012 and to form workgroups and work on projects and updates of existing trainings and projects.</p>	Sep 8-9, 2011	Completed	3A-C, 4B, 5A-C, 6A-B
<p>Face-to-Face meeting with Network members was used to discuss statewide plan for 2010-2011 and to form workgroups and work on projects and updates of existing trainings and projects.</p>	Sep 5-6, 2012	Continuing	3A-C, 4B, 5A-C, 6A-B
<p>Technical Assistance is provided to districts with data concerns identified through data analysis to address LRE settings regarding students with disabilities.</p> <p><b>Texas Education Telecommunications Network (TETN) Updates:</b></p>	Nov 2011 – May 2012	Continuing	3A-C, 4B, 5A-C, 6A-B
<p>Jan TETN was used for updates on statewide projects/activities; planning of Inclusion Works! conference; and preplanning of 2012-2013 Network plan.</p>	Jan 2012	Completed	3A-C, 4B, 5A-C, 6A-B
<p>Apr TETN was used for updates on statewide projects/activities; debrief of Inclusion Works! conference; projected 2012-2013 Network activities/projects.</p>	Apr 2012	Completed	3A-C, 4B, 5A-C, 6A-B
<p>Jan TETN will be used for updates on statewide projects/activities; planning of Inclusion Works! conference; and preplanning of 2013-2014 Network plan.</p>	Jan 2013	Continuing	3A-C, 4B, 5A-C, 6A-B
<p>Apr TETN will be used for updates on statewide projects/activities; debrief of Inclusion Works! conference; projected 2013-2014 Network activities/projects.</p>	Apr 2013	Continuing	3A-C, 4B, 5A-C, 6A-B

Training	Timeline	Status	Indicators Impacted
<p><b>Training on Standards-Based IEPs:</b> AGC and PLRE Specialists provided input regarding necessary updates to the online training for the 2011-2012 school year. Existing online training is being updated to include information regarding functional goals, new state assessment and measuring/reporting progress on goals.</p>	Sep 2011 - Jun 2013	Continuing	3A-C, 4B, 5A-C, 6A-B, 7A-C, 13, 14
<p><b>Standards-Based IEP Q &amp; A Document:</b> Renamed Individualized Education Program Annual Goal Development Q &amp; A and included information regarding Academic vs. Non-Academic (Functional Goals).</p>	Oct 2011	Completed	3A-C, 4B, 5A-C, 6A-B, 7A-C, 13, 14
<p>AGC and PLRE Specialists will review and update IEP Q &amp; A document (existing document) on the AGC webpage, as needed (need for update(s) to be identified by TEA and/or AGC Network with TEA's approval).</p>	Sep 2012	Continuing	3A-C, 4B, 5A-C, 6A-B, 7A-C, 13, 14
<p><b>LRE Question &amp; Answer Document:</b> AGC and PLRE Specialists reviewed and gave input into updates for the LRE Q &amp; A document on the AGC webpage, as needed.</p>	Mar 2012	Continuing	5A-C, 6A-B
<p><b>Guidelines for the Use of Paraprofessionals:</b> The AGC Network drafted guidelines for the appropriate use of paraprofessionals as a supplementary aid and service for a student who receives special education services in a general education classroom.</p>	Jul 2011	Continuing	3A-C, 4B, 5A-C, 6A-B, 7A-C
<p>The AGC Network created guidelines for the appropriate use of paraprofessionals as a supplementary aid and service for a student who receives special education services in a general education classroom. Network will provide input to revisions, and will be posted to AGC webpage by Aug 2013 pending TEA approval.</p>	Sep 2012	Continuing	3A-C, 4B, 5A-C, 6A-B, 7A-C
<p><b>Co-Teaching Guidelines Document:</b> Finalized online document related to best practice for co-teaching in Texas. Utilize input from all stakeholders gathered during 2009-2010 and 2010-2011.</p>	Dec 2011	Completed	3A-C, 4B, 5A-C, 6A-B, 7A-C
<p>AGC and PLRE Specialists will provide input regarding necessary updates to the online training for the 2012-2013 school year.</p>	Sep 2012	Continuing	3A-C, 4B, 5A-C, 6A-B, 7A-C
<p><b>Differentiated Instruction vs. Specially Designed Instruction Resource:</b> The AGC Network and a stakeholder group gave input into the resource, to be housed online on the AGC Network webpage, to distinguish between differentiated instruction and specially designed instruction.</p>	Aug 2012	Continuing	3A-C, 4B, 5A-C, 6A-B, 7A-C
<p>AGC and PLRE Specialists will provide input regarding necessary updates to the document for the 2013-2014 school year. The final determination regarding the need for updates will be made in collaboration with TEA.</p>	Sep 2012	Continuing	3A-C, 4B, 5A-C, 6A-B, 7A-C

<b>Network Collaboration:</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
<p><b><u>Texas Assistive Technology Network (TATN):</u></b> The TATN presented at the Inclusion Works Conference.</p> <p>The TATN will present at the Inclusion Works Conference.</p> <p>AGC Network and TATN continue to collaborate on areas of common interest, such as Accessible Instructional Materials (AIM) and universal design for learning (UDL).</p>	<p>Sep 2011-Aug 2012</p> <p>Sep 2012-Aug 2013</p> <p>Sep 2011-Aug 2013</p>	<p>Completed</p> <p>Continuing</p> <p>Continuing</p>	<p>3A-C, 5A-C, 6A-B</p> <p>3A-C, 5A-C, 6A-B</p> <p>3A-C, 5A-C, 6A-B</p>
<p><b><u>Transition Network:</u></b> The AGC and Transition Network Leads collaborate to ensure that trainings on IEPs include accurate information regarding the difference between annual goals and postsecondary goals and information on annual goals to facilitate movement toward postsecondary goals.</p>	<p>Sep 2011-Aug 2013</p>	<p>Continuing</p>	<p>3A-C, 5A-C, 6A-B</p>

<p><b>Collaborated with other statewide leadership functions and projects:</b></p> <p><i>Technical assistance for Texas Visual Impairment Network:</i></p> <ul style="list-style-type: none"> <li>Collaborate with Network to provide AIM updates and any processes for the implementation for providing print materials to students with visual impairments in Texas</li> <li>Communicate information and activities on respective Networks</li> </ul> <p><i>Texas Behavior Support Initiative</i></p> <ul style="list-style-type: none"> <li>Development of a training that will incorporate principles of UDL and PBIS to address classroom behavior problems</li> </ul> <p><b>Access to the General Curriculum Network:</b></p> <ul style="list-style-type: none"> <li>Shared and collaborated on current educational issues which were common for both Networks, specifically regarding assistive technology.</li> <li>Provision of an Assistive Technology Lab at the Inclusion Works! conference</li> </ul> <p><b>Collaborate on Statewide and National Levels:</b></p> <p>Collaborated on statewide and national levels to promote the use of AT for student achievement and functional performance.</p> <ul style="list-style-type: none"> <li>DARS – worked with technology-related staff designees to have a presence at the statewide AT conference</li> <li>TTAP – Texas Technology Access Program – served on their advisory board and collaborate to have a presence at the statewide AT conference</li> <li>TSHA – was active member of TSHA and to promote assistive technology</li> </ul> <p>Represented and promoted the Texas Assistive Technology Network (TATN) at the annual “State Leaders of Assistive Technology in Education (SLATE)” meeting and the “National Assistive Technology in Education (NATE)” meeting at ATIA conference.</p>	<p>Sep 2011 – Aug 2013</p> <p>Sep 2011 – Aug 2013</p> <p>Sep 2011- Aug 2013</p> <p>Sep 2011- Aug 2012</p>	<p>Continuing</p> <p>Continuing</p> <p>Continuing</p> <p>Completed</p>	<p>All</p> <p>All</p> <p>All</p> <p>All</p>

**Autism Training Network Improvement Activities:**

<b>Conference/Meeting Participation</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
Assisted in planning and participated in the Texas State Conference on Autism.	October 2011 & Mar 2012	Completed	All
Assist in planning and will participate in the Texas State Conference on Autism. Leadership for Autism Training will facilitate support from ESC 13 the conference by facilitating multiple sessions and provide staffing for registration on first two days of the conference.	Oct 2012	Continuing	All
Attended one national conference on autism—Ohio Center for Low Incidence Disabilities and Autism Training (OCALI).	Nov 2011	Completed	All
Attend one national conference on autism—Ohio Center for Low Incidence Disabilities and Autism Training (OCALI).	Nov 2012	Continuing	All

Technical Assistance	Timeline	Status	Indicators Impacted
Face to Face Meeting held in San Antonio. Topics: Evidence-based practices, teacher standards, training module revisions, program evaluation, planning, training collaboration, other topics as may be needed.	Feb 27-28, 2012	Completed	All
Face to Face Meeting in Austin. Scheduled topics include coaching training, discussion of teacher standards resources, training module reviews, 2013-14 planning, DSM-V changes and implications for districts, litigation of issues in ASD, and other topics as requested by a majority of the contacts.	Feb 25-26, 2013	Continuing	All
Electronic Meeting (9-Noon). Updated module information, preview conference, update on model sites, information and resource sharing	Sep 2011 - May 2013	Continuing	All
<b>Texas Statewide Leadership for Autism (Website)</b>			
Update, expand and maintain website. Publish materials as generated by other activities within this grant.	Aug 2012- Aug 2013	Continuing	All
<b>Texas Autism Resource Guide for Effective Teaching (TARGET)</b>			
A survey was created and posted to the project website for users to respond on how they use TARGET. In an attempt to get a random survey of users, the survey link was posted 5 days during selected time frames. The information will guide future updates.	Sep 2011- Jul 2012	Completed	All
In an effort to provide more current data for users, a vendor will collect research on interventions published from Jan 1, 2012 through December 31, 2012. Review to be completed by university personnel providing letter of interest and vita for a flat fee contract.	Jul 2012		
<b>National Professional Development Center (NPDC) Grant – Model Sites for Evidence Based Practices in Autism</b>			
<i>Coordinated the Interagency Planning Group (IAPG).</i> This group includes members from the Agency representatives from Act Early Planning Group, ESC Regional Autism Contacts from Regions 17, 8 and 4, and 2 parent representatives. This group is tasked with the following responsibilities: · Review progress reports, receive information about postings from the teams, review evaluation process for the project, and verify the final reports that detail the project.	Sep 2011 – Aug 2012	Completed	All
<i>Model Sites – Cohort 1 (9 Teams)</i> Continued to oversee and provided input on model sites project. Technical assistance was provided electronically. Final report in Aug 2012.	Aug 2012	Completed	All
<i>Cohort 2 Expansion Sites (9 teams):</i> Continued to oversee and provided input to model sites. Much of the ongoing technical assistance was scheduled to be done electronically. Final report in Aug 2012.	Aug 2012	Completed	All
<i>Autism Conference for Model Sites Cohorts 1 &amp; 2 (18 Teams).</i> Cohort 2 Teams were required to attend specific trainings during this conference as per requirements of NPDC grant. One full day was grant staff provided. One and a half days was participant chosen and session was coded to identify the Evidence-Based Practice the session covered.	Oct 2011	Completed	All
As part of their data collection and participation, each model site submitted short video segments for coaching/mentoring.	May 2012	Completed	All
Used an electronic training and meeting format with all the teams.	May 2012	Completed	All

**Disproportionate Representation Improvement Activities:**

<b>Conference/Meeting Participation</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
Attend a National Conference to review the national perspective of disproportionality in special education	Feb 2013	Continuing	4A-B, 9, 10
<p><b>Technical Assistance</b></p> <p>Continued Development of a Disproportionality technical assistance manual and Trainer of Trainers that involves analyzing data, reviewing policy and practice to determine root causes and mapping solutions.</p> <p>Continued Contract with Metropolitan Center for Urban Education, led by Dr. Pedro Noguera to provide consultation services that focus on developing a Trainer of Trainers manual with guidance documents (<a href="http://steinhardt.nyu.edu/metrocenter.olde/programs/TACD/documents/Equity%20in%20Education%20Manual%20FINAL%205000.pdf">sample found at http://steinhardt.nyu.edu/metrocenter.olde/programs/TACD/documents/Equity%20in%20Education%20Manual%20FINAL%205000.pdf</a>)</p> <p>ESC One continued to collaborate with Dr. Noguera and Dr. Fergas on the development of this resource:</p> <ul style="list-style-type: none"> <li>Draft guidance document for districts to address disproportionality SPP indicators 4, 9, and 10</li> <li>Sent draft manual to TEA for feedback</li> <li>Received feedback from TEA regarding draft guidance documents.</li> <li>Dr. Fergus developed second draft guidance document for districts to address disproportionality SPP indicators 4, 9, and 10</li> <li>Finalized guidance documents with TEA</li> <li>Dr. Fergus and ESC One coordinated the formal webinar presentations of an overview of technical manual and guidance documents to TEA and ESC representatives via webinar</li> <li>One half day formal webinar presentation of technical assistance manual to TEA and ESC Dispr. Representatives.</li> <li>Follow up webinar</li> </ul>	Aug 2012	Completed	4A-B, 9, 10
	Feb 2012	Completed	4A-B, 9, 10

<p>On-site support during the development and delivery of the webinar from an ESC technology integration specialist. Worked with the ESC technology integration department to support the subscription to the online secure webinar service; scheduling; technical assistance support; review and orientation for the presenter (if needed) on the use of the adobe connect platform for delivery.</p>	Feb 2012	Completed	4A-B, 9, 10
<p>ESC disproportionality contacts provided technical assistance to districts/charters not in compliance with disproportionality indicators 4, 9 and/or 10 by:</p> <ul style="list-style-type: none"> <li>· Promoting district participation in the <i>Disproportionality in Special Education</i> on line training</li> <li>· Promoting the use of the online Significant Disproportionality data analysis tool that monitors disproportionality</li> <li>· Promoting and providing training on resources such as R.E.A.L.; Culturally Responsive Rtl; Leading for Systemic Change, and Collection and Use of Evidence from the Equity Alliance at Arizona State University (formally National for Culturally Responsive Educational Systems); and Culture of Poverty as provided to ESC representatives by the former Texas Statewide Decentralized Multicultural and Diverse Learners Network</li> <li>· Promoted the resources and tools from the Disproportionate Representation in Special Education website across decentralized functions and projects, with special focus on those addressing appropriate evaluation, culturally responsive response to intervention, least restrictive environment, differentiated instruction, and SPP indicators 4, 9, and 10.</li> <li>· Promoting and using resources and tools from the Disproportionality website to help LEAs address the issue of significant disproportionality or potential for disproportionality.</li> <li>· Participated in the presentations by the Metropolitan Center for Urban Education on the new guidance documents.</li> </ul> <p>Promoted and/or trained on the use of the new guidance documents from Metropolitan Center for Urban Education.</p>	Sep 2011- Aug 2012	Completed	4A-B, 9, 10
<p>Work with TEA project contact on initiating collaboration with the Division of Performance-Based Monitoring on incorporating the process outlined in the technical assistance manual into the discussion with staged LEAs with PBMAS levels of 2 and 3 on SE indicators 12 - 15 for CIP development and Noncompliance with SPP 9 and 10 identification.</p>	Jun 2012	Completed	4A-B, 9, 10
<p>Work with data specialist on development of electronic tools aligned to data analysis steps Tables 1-12 of SPP 4 and Tables 1-13 of SPP 9 and 10 in the technical assistance manual process or purchase from the contractor data tools already developed.</p>	Nov 2012	New	4A-B, 9, 10
<p>Develop electronic recording documents for recording findings during the Quality Indicator Reviews of SPP 4</p>	Jan 2013	New	4A-B, 9, 10
<p>Review, revise and rerecord the online disproportionality training to incorporate the new calculation method for disproportionate representation and best practices.</p>	Mar 2013	New	4A-B, 9, 10
<p>Review data of districts identified as disproportionate and/or significantly disproportionate or PBMAS performance levels of 3 on indicators of overrepresentation who have shown improvement over a two year period.</p>	October 2012	Continuing	4A-B, 9, 10
<p>Through the respective ESC Disproportionate representative, initiate contact with districts from above list, contact LEA SE director to identify activities affecting improvement to include in the best practices and web site.</p>	Nov 2012	Continuing	4A-B, 9, 10
	Jan 2013	Continuing	4A-B, 9, 10

Provide support on the implementation of the State Performance Plan Technical Assistance System for Disproportionality: A Plan for Districts manual	Sep 2012- Aug 2013	Continuing	4A-B, 9, 10
Research and locate additional resources to enhance the information/process provided in the manual and provide through e-mail message to the Disproportionate Representatives of the ESCs.	Sep 2012- Aug 2013	Continuing	4A-B, 9, 10
Continue to conduct ongoing review of literature of scientifically based research practices, strategies, and trainings related to addressing the needs of struggling students of culturally and linguistically diverse backgrounds	Sep 2012- Aug 2013	Continuing	4A-B, 9, 10
<b>Disproportionality Web Site</b> Update resources and data analysis tools available on the web site based on changes to the critical values set by the state for significant disproportionate representation. On-site technical assistance from the ESC One Office of Information Technology to maintain a professional, yet flexible website for promoting and researching information related to disproportionate representation in Texas. Specialist will administer the website by monitoring server, update design and posting resources as directed. Maintain disproportionality website current with rules, calculation, links, and updates to resource tools. Monitor use of web site	Sep 2011 – Aug 2013	Continuing	4A-B, 9, 10
<b>Monitor use of resources</b> Monitor the use of the <i>Disproportionality in Special Education</i> online presentation on disproportionate representation Monitor the use of the REAL modules and other resources distributed by the former Texas Statewide Decentralized Multicultural and Diverse Learners Network Monitor and analyze data from the <i>Resources for Disproportionate Representation Survey</i> once distributed. Use data collected from the <i>Resources for Disproportionate Representation Survey</i> to determine needs and use of tools found on the Disproportionality in Special Education web site. Report survey results and online presentation access to TEA	Sep 2011- Aug 2012	Completed	4A-B, 9, 10
ESC disproportionality contacts will provide technical assistance to districts/charters not in compliance with disproportionality indicators 4, 9 and/or 10 by: <ul style="list-style-type: none"> <li>· Promoting and/or training on the use of the State Performance Plan Technical Assistance System for Disproportionality: A Plan for Districts</li> <li>· Promoting district participation in the Disproportionality in Special Education on line training</li> <li>· Promoting the use of the online Significant Disproportionality data analysis tool that monitors disproportionality</li> <li>· Promoting and providing training on resources such as R.E.A.L. ; Culturally Responsive Rtl; and Leading for Systemic Change</li> <li>· Promote the resources and tools from the Disproportionate Representation in Special Education website across decentralized functions and projects, with special focus on those addressing appropriate evaluation, culturally responsive response to intervention, least restrictive environment, differentiated instruction, and SPP indicators 4, 9, and 10.</li> <li>· Promoting and using resources and tools from the Disproportionality website to help LEAs address the issue of significant disproportionality or potential for disproportionality.</li> </ul>	Jan 2012	Completed	4A-B, 9, 10
ESC disproportionality contacts will provide technical assistance to districts/charters not in compliance with disproportionality indicators 4, 9 and/or 10 by: <ul style="list-style-type: none"> <li>· Promoting and/or training on the use of the State Performance Plan Technical Assistance System for Disproportionality: A Plan for Districts</li> <li>· Promoting district participation in the Disproportionality in Special Education on line training</li> <li>· Promoting the use of the online Significant Disproportionality data analysis tool that monitors disproportionality</li> <li>· Promoting and providing training on resources such as R.E.A.L. ; Culturally Responsive Rtl; and Leading for Systemic Change</li> <li>· Promote the resources and tools from the Disproportionate Representation in Special Education website across decentralized functions and projects, with special focus on those addressing appropriate evaluation, culturally responsive response to intervention, least restrictive environment, differentiated instruction, and SPP indicators 4, 9, and 10.</li> <li>· Promoting and using resources and tools from the Disproportionality website to help LEAs address the issue of significant disproportionality or potential for disproportionality.</li> </ul>	Sep 2012- Aug 2013	Continuing	4A-B, 9, 10

<b>Network Collaboration</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
Coordinate with other ESCs such as Evaluation, AGC and Behavior Network to share, post and /or link: link information based on other state Network websites to address disproportionality.	Sep 2011 – Aug 2013	Continuing	4A-B, 9, 10
Share data with Evaluation, AGC, Transition, and Behavior Network to address critical issues, such as behavior and how it affects disproportionality in the referral and identification process, discipline, educational setting, environment, etc.	Sep 2011 – Aug 2013	Continuing	4A-B, 9, 10
Provide leadership, guidance, and ongoing communication with Texas Education Agency, ESC executive directors, special education directors and other administrators as appropriate	Sep 2011 – Aug 2013	Continuing	4A-B, 9, 10
Continue discussions and collaboration with ESC 4's TBSI decentralized function during the revision of the TBSI modules to ensure the implementation of cultural considerations, culturally appropriate practices and culturally responsive teaching through PBIS to counter significant discrepancies in discipline of students with disabilities by race and ethnicity.	Sep 2011 – Aug 2013	Continuing	4A-B, 9, 10
<p><b>For the 2012-13 school year, the primary focus of the Disproportionate Representation in Special Education statewide leadership project will be to :</b></p> <ul style="list-style-type: none"> <li>· Provide support and training on the use of the Technical Assistance Manual for Disproportionality.</li> <li>· Continue to conduct ongoing review of literature of scientifically based research practices, strategies, and trainings related to addressing the needs of struggling students of culturally and linguistically diverse backgrounds.</li> <li>· Continue to upgrade and post new information on web site for district use.</li> <li>· Promote district participation in the <i>Disproportionality in Special Education</i> on line training</li> <li>· Promote the use of the online Significant Disproportionality data analysis tool that monitors disproportionality</li> </ul>	Sep 2012- Aug 2013	Continuing	4A-B, 9, 10

**Evaluation for Special Education Eligibility Improvements Activities:**

<p><b>Statewide Evaluation Personnel (SWEP) Conference</b></p> <p>Provided a statewide conference for evaluation personnel. The conference brings national and state speakers to address the current issues in the field of evaluation for special education.</p>	Feb 2012	Completed	11, 12
<ul style="list-style-type: none"> <li>· TETN Update (9:00-12:00): To finalize conference plans for Feb 2012.</li> </ul>	Sep 2011	Completed	11,12
Provide a statewide conference for evaluation personnel. The conference brings national and state speakers to address the current issues in the field of evaluation for special education.	Feb 4-5, 2013	Continuing	11,12

**Low Incidence Disabilities Network Improvement Activities:**

<b>Conference/Meeting Participation</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
Attended the <b>TASH Conference</b> 2011 in Atlanta, Georgia. (This conference is specific to individuals with severe disabilities and has sessions on the education issues.)	Nov 30-December 3, 2011	Completed	All
Presented a break-out session at Autism Conference in collaboration with Autism Project on “self-help/functional skills instruction”	October 13-15, 2011	Completed	All
Support the <b>Statewide Conference on Deafness (SWCED)</b>			
· Provided Low Functioning Deaf (LFD) break-out sessions presented by out of state speakers (not in-state personnel currently working in districts or service centers)	Jul 2012	Completed	All
· Presented a pre-conference session on “Supporting the Students with LFD: A Team Approach” with some of the field test teachers	Jul 2012	Completed	All
Attend the <b>CEC Conference</b> 2013 in San Antonio, Texas	Apr 2013	Continuing	All
Present a break-out session at Autism Conference in collaboration with Autism Project on “grading that is meaningful for students with severe disabilities”	October 11-13, 2012	Continuing	All
<b>Technical Assistance</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
<b>Face to Face Network Planning Meeting will discuss:</b>	Dec 2011	Completed	All
· Planning/evaluation			
· Comprehensive needs assessment process			
· Submit negotiation plan, dates, implementation plan, SECIP/eGrant information			
· TOT on new on-line course on Grading in Life Skills			
· TOT on new materials on Self Help & Functional Skills			
· 30-minute private tour of Morgan’s Wonderland (amusement park for people with significant disabilities)	Feb 2011	Completed	All
· Coordinate face to face Network meeting to coincide with Deaf blind Symposium so that LID specialists attend face to face meeting on day one and attend DB Symposium on day two. Specialists will then share highlights and information gained using Projectshare.	Feb 21-22, 2013	Continuing	All
<b>TETNs</b>			
· Participated in professional development training over TETN provided by Texas Deaf blind Project staff	Aug 2012	Completed	All
· Presented a Training of Trainers (TOT) for “Supporting the Student who is Low Functioning Deaf: A Team Approach” to LID and Deaf Ed contacts at each ESC	Aug 2012	Completed	All
· Participate in ½ day professional development training over TETN provided by Texas Deaf blind Project staff topic to be determined by need assessment of LID/DB education specialists.	Apr 2013	Continuing	All
· Participate in half day professional development training over TETN provided by Region11 DHH lead on Sign Language for Life skills.	Aug 2013	Continuing	All
<b>Professional development and technical assistance to Regional Deaf blind Specialists</b>			
· Participated in a needs assessment process using Deaf blind Census data conducted over a Webinar by Texas Deaf blind Project (webinar)	Sep 2011	Completed	All

Training	Timeline	Status	Indicators Impacted
<p><b>Trainings in Regions:</b> (Lead updated/revised training materials and keep them available to Network members):</p> <ul style="list-style-type: none"> <li>· Teaching Literacy to Students with Significant Disabilities</li> <li>· Teaching Math to Students with Significant Disabilities</li> <li>· Project MASTERY training</li> </ul>	Sep 2011-Aug 2013	Continuing	All
<p><b>Collaboration with Region 11 DHH lead on communication issues/resources for low functioning deaf.</b></p> <ul style="list-style-type: none"> <li>· Linked to their new on-line training modules for “Communication Access for Students who are Deaf and Low Functioning or Multiply Impaired”</li> </ul>	Sep 2011-Aug 2012	Completed	All
<p><b>Support to the National Coalition on Deaf blindness (NCDB)</b></p> <p>Established competencies for teachers of deaf blind that have been adopted and posted on the Council of Exceptional Children (CEC) website. A job description was developed for an itinerant position by Texas School for the Blind (TSBVI). Coursework is available through Texas Tech University. A mentor program is available through TSBVI.</p> <ul style="list-style-type: none"> <li>· Provided capacity building funds for teachers pursuing endorsement coursework in deaf blindness. There is an application evaluation rubric used to determine the recipients of the funds. Applicants documented their present work or future intent to work with deaf blind students. Funds were paid directly to the university for Spring, Summer, or Fall 2012 courses. The selection of recipients was in collaboration with the TSBVI Deaf blind Outreach DB Mentor Program.</li> </ul>	Sep 2011-Aug 2012	Continuing	All
<p><b>Professional Development Training</b></p> <p>for Network members on “Assessment and Instruction of Recreation &amp; Leisure Skills for Students with Low Incidence Disabilities” by Dr. Lauren Lieberman.</p> <ul style="list-style-type: none"> <li>· Purchased recreation/leisure assessment/instruction resources for Network members to accompany this training.</li> </ul>	Dec 2011	Completed	All
<ul style="list-style-type: none"> <li>· Developed Guidance for Communication Assessments in collaboration with Region 11 DHH lead and TEA</li> </ul>	Aug 2012	Completed	All
<p>Maintained a web page dedicated to LFD Issues and post links to resources and trainings.</p>	Sep 2011-Aug 2013	Continuing	All
<p>Maintained the LFD Stakeholders Group for two meetings a year.</p> <ul style="list-style-type: none"> <li>· Developed title &amp; job description for “in class support” person</li> <li>· Prepared a list of communication assessment tools appropriate for students who are low functioning deaf</li> <li>· Facilitated the development of training materials called “Supporting the Student who is LFD: A Team Approach” through field testing.</li> </ul>	Sep 2011-May 2012	Completed	All
<p><b>Development of Online Module:</b></p> <p><b>Purpose:</b> To provide high quality, accessible training to teachers and administrators of students with low incidence disabilities. The training will draw on previously developed Literacy modules and incorporate best practices for aligned instruction from start to finish; planning to grading, including guidance to administrators. A <b>result</b> of these trainings should be increased access to the general curriculum and increased student performance.</p>	Sep 2012-Aug 2013	New	All

<p>The Academy will provide attendees current special education information and the opportunities to Network with various organization representatives. The goal is to provide organizations which frequently respond to parents' questions and concerns with accurate information and resources. Proposed topics for the 2012 Academy are updates from the Legal Framework team and Positive Behavior Interventions and Supports.</p>	<p>Nov 29-30, 2012</p>	<p>Continuing</p>	<p>8</p>
<p><b>State Parent Training Improvement Committee</b>  Reviewed data from the Texas Parent Survey-Spring 2011, results of the Parent Organization Academy, Texas Project FIRST activities, and other data such as the Public Input Meeting results. The State Parent Training Committee consisted of parent organization members, the Parent Training and Information Centers' directors, school personnel representatives, parents, and members of the Parent Coordination Network. Under TEA's direction, Region 9 assisted with this meeting.</p>	<p>Sep 2011-Sep 2012</p>	<p>Completed</p>	<p>8</p>
<p><b>Technical Assistance</b></p>	<p><b>Timeline</b></p>	<p><b>Status</b></p>	<p><b>Indicators Impacted</b></p>
<p><b>Data Collection</b>  Coordinated the State Performance Plan Parent Survey process. Approximately 18,000 parents of students receiving special education services were surveyed. The purpose of the survey is to determine if school facilitated parent involvement improves services and results for children with disabilities. The data collected will be utilized in the Annual Performance Report. An outside contractor will be utilized for this project.  Follow-up activity:  · The first two weeks of May the survey contractors will provide the districts' current return rates. PC Network members will notify districts on the number of surveys that have been returned from their districts and will encourage them to send reminders to the parents. Additional surveys will be resent if needed.</p> <p><b>Coordinate and facilitate Parent Coordination Network Meetings:</b>  Face-to-Face meeting with Network members.</p> <p>TETN Updates.</p> <p>TETN Updates.</p> <p>Provide information, technical assistance, or training to school personnel and parents to facilitate parent involvement.</p> <p><b>Texas Project FIRST</b>  With the support of the Texas Education Agency Division of IDEA Coordination, the Texas Parent Coordination Network, and parent consultants identified in each regional education service center area, Texas Project FIRST addresses the Parent Involvement Improvement Plan Goal of ensuring that the provision of a free appropriate public education for students with disabilities is facilitated through parent involvement in the special education process. NOTE: All materials are provided in English and Spanish.  · Maintain an accessible approved, bilingual website that is written in a parent friendly, easy to understand manner.  · Improve access to Parent training across Texas.</p>	<p>Sep 2011-August 2013</p> <p>May-Aug 2012  May-Aug 2013</p> <p>Nov 2012 - 2013</p> <p>October 2011 and Mar 2012</p> <p>October 2012 and Mar 2013</p> <p>Sep 2011-Aug 2013</p> <p>Sep 2010 – Aug 2011</p> <p>Sep 2012-Aug 2013</p>	<p>Continuing</p> <p>Completed  Continuing</p> <p>Continuing</p> <p>Completed</p> <p>Continuing</p> <p>Continuing</p> <p>Completed</p> <p>Continuing</p>	<p>8</p> <p>8</p> <p>8</p> <p>8</p> <p>8</p> <p>8</p> <p>8</p>

<ul style="list-style-type: none"> <li>· Continue organization of E-List and Yahoo group to inform parents/educators/others about training opportunities, conferences, additions to website, opportunities for public input, and other important TEA information.</li> <li>· Conduct outreach activities, including to parents who are traditionally underserved and/or lacking internet access, to disseminate project information.</li> <li>· Using current Texas Project FIRST users who have registered for updates and training event participants develop &amp; distribute a survey using online survey tool to ensure that the website and training events are improving parents' understanding of the ARD process, enhancing their ability to effectively communicate with schools, and increasing parental involvement.</li> <li>· Investigate ability to provide web based trainings through use of PowerPoint, remote camera, phone systems similar to web based training currently offered by the Rural Institute in Montana.</li> </ul>	Sep 2012- Aug 2013	Continuing	8
<b>Technical Assistance</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
<p>Goal A: Texas Project FIRST coordinates a statewide system for delivery of training and information dissemination to parents of students with disabilities, ages 0-22, and the professionals who work with them, including parents who are traditionally underserved.</p> <p>Goal B: Project FIRST coordinates a statewide system for collaboration between ESCs, districts, and parent organizations that will result in parents receiving accurate and consistent information.</p> <p>Maintains an accessible bilingual website that is written in a parent friendly, easy to understand manner. The website was designed to inform parents across Texas of:</p> <ul style="list-style-type: none"> <li>· parent organizations;</li> <li>· training opportunities;</li> <li>· credible publications that can benefit families;</li> <li>· information on significant school reform issues such as the No Child Left Behind Act of 2001;</li> <li>· information on state law or rules governing special education or other relevant education services;</li> <li>· updated information with changes in state agency websites;</li> <li>· any other pertinent information for families/young adults with disabilities.</li> <li>· translate any necessary information into Spanish;</li> <li>· add translation link to website pages for other languages</li> <li>· investigate other methods of accurate information dissemination (i.e. Smart phone apps, RSS feed, etc.)</li> </ul> <p>Goals of website additions include, but are not limited to:</p> <ul style="list-style-type: none"> <li>· Update Testing Pages, Least Restrictive Environment; Highly Qualified Teachers; Response to Intervention; Early Intervening Services; Graduation; Employment; Post-Secondary Education, Facilitated IEPs, etc.</li> </ul>	Sep 2011 – Aug 2012	Completed	8
<p>Region 9 and Texas Project FIRST staff coordinate with other Networks to post parent information related to each specific area on Texas Project FIRST. Establish links from Texas Project FIRST to the different Networks' websites.</p>	Sep 2011- Aug 2013	Continuing	8

Network meetings – all Network members will attend: a. October 25-26, 2011 (F2F meeting – Fort Worth) 1. 25th 8:30 – 5:00 All members 2. 26th 8:30 – 4:00 All members b. Feb 8, 2012 TETN (9-1)	Oct 2012  Feb 2012	Continuing  Completed	1,2,13,14
Network meetings – all Network members will attend: a. October 24-25, 2012 (F2F meeting – Fort Worth)	Oct 2012	Continuing	1,2,13,14
b. Apr 9, 2013 TETN (9-1)	Apr 2013	Continuing	1,2,13,14

<p>All Network members will attend the Texas Transition Conference (TTC)</p> <p>Network members will provide overviews/training on the Early Warning Data System to assist districts/campuses in dropout prevention especially related to the student with disabilities. This is a collaborative effort with ESC NCLB staff with assistance from the Texas Comprehensive Center. The following are to be addressed:</p> <ol style="list-style-type: none"> <li>1. Assistance will continue to be provided for districts/campuses identified during 2011-2012. New districts/campuses may be identified based on analysis of regional/district data for SPP Indicators 1 and 2 and data from the EWDS. Training and technical assistance will be provided to these identified districts.</li> <li>2. Information on data analysis and technical assistance will be included in the SECIP reports of each region which in turn will be compiled and reported by TEA in the APR.</li> </ol> <p>Continue the development of a training model for designing an 18-21 year old program.</p> <p>Continue the development of an on-line model of Leaving A Clear Trail that will be used as a refresher course for those having had the full day training</p>	<p>Feb 2012 Feb 2013</p> <p>Aug 2013</p> <p>Aug 2013</p> <p>May 2013</p>	<p>Completed Continuing</p> <p>Continuing</p> <p>Continuing</p> <p>Continuing</p>	<p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p>
<p><b>Network Collaboration</b></p>	<p><b>Timeline</b></p>	<p><b>Status</b></p>	<p><b>Indicators Impacted</b></p>
<p>The Secondary Transition Network collaborated with the following state leads/projects:</p> <p><b>AGC</b> Discuss with lead clarification in AGC and Transition trainings with regard to postsecondary goals and annual goals. Discussion will include when objectives for annual goals are needed and how this needs to unfold in training pieces. Collaborate to ensure that Network documents align for the development of the annual goals and that those goals facilitate movement toward the postsecondary goals.</p> <p><b>AI Network</b> Lead for AI Communication will speak to Network at F2F on issues that need to be considered during the transition process</p> <p><b>VI Network</b> VI Lead will speak to Network at F2F on specific issues that need to be considered for students who have visual impairments when transition is being discussed</p> <p><b>Parent Coordination</b> Present at Parent Advisory Council</p> <p><b>Behavior</b> Collaborate in the development of free material to be used in IEP development to help design appropriate transition services for students with behavioral issues. These materials will be placed on the ESC 4 website.</p>	<p>Sep 2011 – Aug 2013</p>	<p>Continuing</p> <p>Continuing</p> <p>Continuing</p> <p>Continuing</p> <p>Continuing</p> <p>Continuing</p>	<p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p>

<p><b>Collaboration with other Entities</b></p> <p>Continue to collaborate with the National Secondary Transition Technical Assistance Center (NSTTAC), our technical assistance center in Charlotte, NC. This collaboration is an expectation of TEA since this leadership function is responsible for working to get the state of Texas in 100% compliance for Indicator 13. This also fulfills part of the OSEP requirement for technical assistance (for Indicator 13) based on the state's determination level. In addition, the leadership (lead and coordinator) represent the state of Texas at the national institutes (see 4b &amp; 4c below).</p> <ul style="list-style-type: none"> <li>· Continue to collaborate through conference calls, emails, and/or webinars</li> <li>· Attend Secondary Transition Follow-up State Planning Institute (Lead and Coordinator) in conjunction with the International DCDDT Conference in Kansas City, Mo.</li> </ul> <p>This is co-sponsored by the National Dropout Prevention Center for Students with Disabilities (NDPC-SD), the National Post-School Outcomes Center (NPSO), and the National Secondary Transition Technical Assistance Center (NSTTAC). Additional assistance will be provided by the IDEA Partnership at NASDSE's Community of Practice on Transition.</p> <ul style="list-style-type: none"> <li>· Attend NSTTAC Secondary Transition State Planning Institute in Charlotte NC (Lead and Coordinator)</li> </ul> <p>Develop online video modules which provide basic information on transition process to be accessed via the Network website. These modules will run from 2-20 minutes each with the goal being to address all modules within an hour timeframe. There are 8 proposed modules with each of these topics covered per module: introduction and overview, age-appropriate transition assessments, measurable post-secondary goals, transition services, course of study, agency collaboration, annual IEP goals, and summary of performance. These modules can be accessed by parents, educators, or any other interested personnel. The intent is to give an overview of transition services provides to students with disabilities in Texas.</p> <p>Network leadership will continue to make connections for providing transition services for students who are deaf and hard of hearing. The Network will be made aware of information, services, and resources. Discussions will take place on using this information in training and technical assistance. Connections will be made with:</p> <ul style="list-style-type: none"> <li>· Educational Resource Center on Deafness (ERCOD)</li> <li>· PEPNet – Network will be made aware of trainings that facilitate post-school success for youth who are deaf and hard of hearing</li> </ul>	<p>Aug 2012</p> <p>Oct 2012</p> <p>May 2012</p> <p>May 2012</p> <p>May 2012</p>	<p>Continuing</p> <p>Continuing</p> <p>Completed</p> <p>Continuing</p> <p>Continuing</p>	<p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p> <p>1,2,13,14</p>

**Texas Education Agency Improvement Activities:**

<b>Data Collection Improvement</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
TEA staff continued collaborating with the Indicator 7 Development Team to develop enhancements of the application and report capabilities.	Jul 2011 – Jun 2012	Completed	7
Web guidance on the data collection process was reviewed to identify any needs for further improvements, updates will occur as needed.	Jul 2011 – Jun 2012	Completed	7, 11, 12, 13, 14
Data Integrity Checklist was developed and accessible online to help district collect and submit valid and reliable data.	Mar 2012	Completed	7, 11, 12, 13, 14
TEA staff continued to participate in the Child Outcomes Summary Form Data Community of Practice and the Family Outcomes Survey Community of Practice.	Jul 2011 – Jun 2012	Completed	7
Indicator 7 Support Team from the Federal and State Education Policy division, continued to provide targeted technical assistance with data collection to the 20 ESC Preschool Specialists.	Jan 2009 – Jun 2012	Completed	7
Texas was one of six states participating in the “Enhance Research Project” designed to improve the quality of child outcomes data.	Jan 2010 – Jan 2013	Continuing	7
TEA staff attended the Nov 7-8, 2011, Preschool Leadership Meeting with NECTAC.	Nov 2011	Completed	6, 7, 12
TEA staff attended the Mar 6-7 2012, Preschool Leadership Meeting in which NECTAC provided information on analysis and interpreting child outcome data.	Mar 2012	Completed	7, 12
TEA staff will continue collaborating with the SPP Indicator 7 Development Team to develop enhancements of the application and report capabilities.	Jul 2012 – Jun 2013	Continuing	7
TEA staff will continue to review and analyze data to determine state barriers to meeting targets and timelines, and develop a course of action.	Aug 2012 - Aug 2013	Continuing	All
The TEA will notify districts regarding their compliance status and required action plan.	Aug 2012 - Aug 2013	Continuing	All
Web guidance on the data collection process will be reviewed to identify any needs for further improvements, updates will occur as needed.	Jul 2012 – Jun 2013	Continuing	7, 11, 12, 13, 14
TEA staff will continue to participate in the Child Outcomes Summary Form Data Community of Practice, the Family Outcomes Survey Community of Practice, and the Integration Learning Community.	Jul 2008 – Jun 2013	Continuing	7
Indicator 7 Support Team will continue to provide targeted technical assistance with data collection to the 20 ESC Preschool Specialists.	Jan 2009 – Aug 2013	Continuing	7
Texas will be one of six states participating in the “Enhance Research Project” designed to improve the quality of child outcomes data.	Jan 2010 – Jan 2013	Continuing	7
TEA added enhancements to CDRMS to collect data regarding the reason a resolution session was not held in a case.	Aug 2011 - Aug 2013	Continuing	18
The TEA continues with data collection and data analysis related to resolution sessions.	Aug 2011 - Aug 2013	Continuing	18
TEA continues with data collection and data analysis related to mediation.	Aug 2011 - Aug 2013	Continuing	19

<b>Technical Assistance</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
TEA staff provided monthly updates via a Texas Education Telecommunications Network (TETN) broadcast to the 20 ESC Special Education Directors.	Jul 2011 – Jun 2012	Completed	All
Web guidance and resources were developed to improve the data integrity and data entry (e.g. more explicit instructions, flowcharts to guide decision making process on how to enter students in the online system, new regional and district reports for use in analyzing data, etc.)	Jul 2011 – Jun 2012	Completed	7, 11, 12, 13, 14
Web guidance continued to be updated as the need arose with alerts to the ESCs of new guidance posting.	Jun 2012	Completed	7, 11, 12, 13, 14
The 20 ESC preschool specialists continued to provide training on Indicator 7 modules 1-5.	Jul 2011 – Jun 2012	Completed	7
Work continued on the alignment of State Pre-K guidelines to COSF.	Jul 2011 – Jun 2012	Completed	6, 7, 12
TEA staff attended the ESC Preschool Leadership Meetings to provide updates on Indicators 6, 7, & 12 and dialogue with the preschool leadership on current issues within the 3-5 year old population.	Nov 2011 and Mar 2012	Completed	6, 7, 12
TEA staff will provide monthly updates via a Texas Education Telecommunications Network (TETN) broadcast to the 20 ESC Special Education Directors.	Jul 2011 – Jun 2013	Continuing	All
Web guidance and resources will be developed to improve the data integrity and data entry (e.g. more explicit instructions, flowcharts to guide decision making process on how to enter students in the online system, new regional and district reports for use in analyzing data, etc.)	Jul 2011 – Jun 2013	Continuing	7, 11, 12, 13, 14
Web guidance will continue to be updated as the need arises with alerts to the ESCs of new guidance posting.	Jul 2012-Jun 2013	Continuing	7, 11, 12, 13, 14
The 20 ESC preschool specialists will continue to provide training on Indicator 7 modules 1-5.	Jul 2012-Jun 2013	Continuing	7
Continuation of the alignment of State Pre-K guidelines to COSF.	Jul 2012-Jun 2013	Continuing	6, 7, 12
TEA staff will attend the ESC Preschool Leadership Meetings to provide updates on Indicators 6, 7, & 12 and dialogue with the preschool leadership on current issues within the 3-5 year old population.	Nov 2012, Jan 2013	Continuing	6, 7, 12
The TEA continues to disseminate information regarding the resolution process.	Aug 2011 – Aug 2013	Continuing	18
TEA continues to disseminate information regarding the mediation process.	Aug 2011 – Aug 2013	Continuing	18
TEA encourages the use of the mediation process to resolve disputes before a due process hearing is initiated.	Aug 2011 – Aug 2013	Continuing	19
<b>Training</b>	<b>Timeline</b>	<b>Status</b>	<b>Indicators Impacted</b>
ESC preschool specialists provided a yearly and updated Training Module #5 Early Childhood Counts – State Performance Plan # 7 Data Submission to their districts.	Jul 2011 – Jun 2012	Completed	6, 7, 12
TEA staff provided an interactive training via a TETN broadcast prior to the opening of the data collection system in Jan 2012.	Jan 2012	Completed	7
Training and technical assistance materials were revised and updated to reflect the most recent revisions to the data collection system.	Jul 2011 – Jun 2012	Completed	7, 11, 12, 13, 14

Preschool specialists will provide a yearly and updated Training Module #5 Early Childhood Counts – State Performance Plan #7 Data Submission to their districts.	Jul 2012-Jun 2013	Continuing	6, 7, 12
TEA staff will provide an interactive training via a TETN broadcast prior to the opening of the data collection system in Jan 2013.	Jan 2013	Continuing	7
Training and technical assistance materials will be revised and updated to reflect the most recent revisions to the data collection system.	Jul 2012-Jun 2013	Continuing	7, 11, 12, 13, 14
The TEA provides training to hearing officers to ensure that they have all of the information necessary to encourage the parties to participate in the resolution process.	Aug 2011 – Aug 2013	Continuing	18
The TEA provides training to hearing officers to ensure that they report resolution session outcomes with accuracy.	Aug 2011 – Aug 2013	Continuing	18
TEA continues to provide in-house training for mediators.	Aug 2011 – Aug 2013	Continuing	19
TEA informs mediators of advanced mediation training opportunities and encouraged them to participate in such trainings.	Aug 2011 – Aug 2013	Continuing	19
