

Certified Principal Demographics by Preparation Route 2011-2015

This table shows the number and percentage of candidates who received their first standard Principal certificate through each preparation route, broken down by gender and by race or ethnicity.

Definition. A standard certificate is a certificate offered since 1998-99 that is renewed every five years.

Results

- In academic year 2014-15, about two-thirds of Principals were female for each preparation route and for all routes combined; a majority were white.
- African Americans were these second largest racial or ethnic group for the out-of-state route, and Hispanics/Latinos, for all other routes.
- All in-state preparation routes declined over the years shown, but the out-of-state route increased from academic year 2012-13 onward.
- By academic year 2014-15, these changes were very small, appearing negligible for the alternative route.
- The alternative route produced fewer than half as many Principals in academic years 2013-14 and 2014-15 as in academic year 2010-11.

* Results for individual routes may not sum to the total for All Routes, because the total is a count rather than a sum. A sum of routes may contain duplication as educators can be prepared through more than one route.

Certified Principal Demographics by Preparation Route 2011-2015

Summary of methodology. Five tables were extracted containing identification numbers, preparation route codes, genders, and races or ethnicities of individuals obtaining their first standard Principal certificate for fiscal years 2010-11 through 2014-15. For each year and preparation route, a total of all Principals was obtained, together with counts by gender and race or ethnicity. Each count was then taken as a percentage of the corresponding total. The process was repeated to obtain overall results for all routes. Finally, the two sets of results were combined into one table.
