Welcome Page and School District or Charter School Selection

Welcome to the 2016–2017 Bus Accident Reporting System survey. You will be asked to provide summary level data about bus accidents that occurred in your school district during the 2016–2017 school year.

EVERY school district and open-enrollment charter school must use the survey to submit its own individual report between July 1 and August 31. If no accidents meeting the reporting requirements occurred during the school year, your school district or charter school must submit a report showing zero as the number of bus accidents.

Please select your school district or charter school from one of three separate lists in the survey. The lists are arranged alphabetically by the first letter of the school district or charter school. The three lists are organized by school districts or charter schools that begin with A–G, H–R, and S–Z.

A note on what to report: If an incident involved a citation, your district or charter school must report the incident as an accident. For an incident that did not involve a citation, your district or charter school has discretion over whether to report the incident as an accident.

Please take a moment to preview the questions that will be asked of you. You may download a copy of the questions by visiting the Bus Accident Reporting System web page at http://tea.texas.gov/Finance_and_Grants/State_Funding/State_Funding_Reports_and_Data/Bus__Accident_Reporting_System/
