TEA Division of Charter School Administration Mission

Our mission is to cultivate innovative, high-quality learning opportunities and to empower the charter community through leadership, guidance, and support.

High-Quality Charter School

According to the *Every Student Succeeds Act* (ESSA), Title IV, Part C Section 4310(8), the term “high-quality charter school” means a charter school that—

- (A) shows evidence of strong academic results, which may include strong student academic growth, as determined by a State;
- (B) has no significant issues in the areas of student safety, financial and operational management, or statutory or regulatory compliance;
- (C) has demonstrated success in significantly increasing student academic achievement, including graduation rates where applicable, for all students served by the charter school; and
- (D) has demonstrated success in increasing student academic achievement, including graduation rates where applicable, for each of the subgroups of students, as defined in section 1111(c)(2), except that such demonstration is not required in a case in which the number of students in a group is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student.

Acknowledgments

The Charter School Performance Framework (CSPF) was developed in 2013 through a collaboration of statewide partners. This effort was made possible by the invaluable contributions of the Performance Framework Working Group. Special thanks to the representatives from the house and senate chambers, the State Board of Education, the Texas Charter School Association, the education service centers, and charter personnel from across the state.

Overview

The Texas Education Agency (TEA) evaluates all public schools and districts under state accountability requirements. Below you will find information about district and charter school accreditation status, financial accountability and state accountability ratings and standards.

TEA accredits public schools in Texas at the charter school or district level for grades K-12. The Accreditation Status, Standards, and Sanctions section of the Texas Administrative Code (TAC) states how accreditation statuses are determined and assigned to school districts. Those statuses are defined as **Accredited**, **Accredited-Warned**, **Accredited-Probation**, and **Not Accredited-Revoked**. The TAC rules also establish accreditation standards and sanctions, including definitions, purpose and oversight appointments.

The state's school financial accountability rating system, known as the [School Financial Integrity Rating System of Texas \(FIRST\)](#), ensures that all Texas public schools are held accountable for the quality of their financial management practices and that they improve those practices.

The Texas Legislature in 1993 enacted statutes that mandated the creation of the Texas public school accountability system to rate charter schools and districts as well as evaluate campuses. The [state accountability webpage](#) provides information about our academic accountability rating system, the Texas Academic Performance Reports (TAPR), school report cards, and the Texas Consolidated School Rating (TCSR) reports.

The Charter School Performance Framework is intended to provide parents, the public, charter operators, as well as the authorizer with a snapshot of each charter school's performance aligned to academic, financial, operational, and governance standards set forth in the Texas Education Code (TEC). These standards for charter school performance are clear, rigorous, and quantifiable and provide a comprehensive body of data that allow stakeholders to determine whether a charter school is meeting expectations or falling below them, as well as identify areas of particular strengths and weaknesses.

The Charter School Performance Framework is divided into three guiding areas or frameworks: academic, financial, and operational accountability. The purposes of the frameworks are to determine whether charter schools are:

- academically successful and effective;
- financially healthy and viable; and
- operationally effective, well-run, and compliant.

The three frameworks when used together form the comprehensive Charter School Performance Framework of Texas.

New for the 2017 Charter School Performance Framework Manual are performance frameworks for adult high school diploma and industry certification charter schools. TEC §29.259, enacted by the 83rd legislature, effective September 1, 2013, established an adult high school diploma and industry certification charter school pilot program. In the 85th Texas Legislature, regular session 2017, SB 276 was passed, which established reporting requirements and performance frameworks for charter schools operating under this pilot program.

TEC §12.1181(a)

The commissioner shall develop and by rule adopt **performance frameworks** that establish standards by which to measure the performance of an open-enrollment charter school.

Data Sources for the Frameworks

The Academic Framework utilizes the State Accountability Rating System and other publicly available information from the TAPR. The Financial Framework pulls information primarily from annual financial reports and the School FIRST. The Operational Framework includes self-reported data, third-party monitoring, and authorizer monitoring (e.g. school visits). The performance frameworks for adult high school diploma and industry certification charter schools draw from the TAPR, the Texas Higher Education Coordinating Board (THECB), the Texas Workforce Commission (TWC), and Public Education Information Management System (PEIMS).

Using the Frameworks

A performance framework is a tool for decision-making that outlines expectations for performance and compliance that are enforced through monitoring, evaluation, and intervention.

Charter schools are encouraged to refer to the frameworks on a continuing basis to self-assess overall health and viability of their school throughout the charter term. The frameworks will also be used to inform decisions and help identify charter schools that are candidates for replication, expansion, intervention, renewal, nonrenewal, or closure.

The Charter School Performance Framework neither negates any ratings [including but not limited to state accountability, Charter FIRST, Accreditation, or Performance-Based Monitoring Analysis System (PBMAS)] that a charter school or charter campus receives, nor removes the requirements associated with any sanctions or interventions required as a result of their ratings.

Charter School Performance Framework Manual

The CSPF manual is a resource that describes the 2017 indicators, ratings, targets/standards, data sources, and other helpful information. The Academic, Financial, and Operational Framework sections of the manual are adopted as Commissioner of Education rule, 19 TAC §100.1010 *Performance Frameworks*, giving legal standing to the CSPF. See *Statutory Citations* later in this manual.

The 2017 *Charter School Performance Framework Manual* is available on the [TEA Charter Schools website](#).

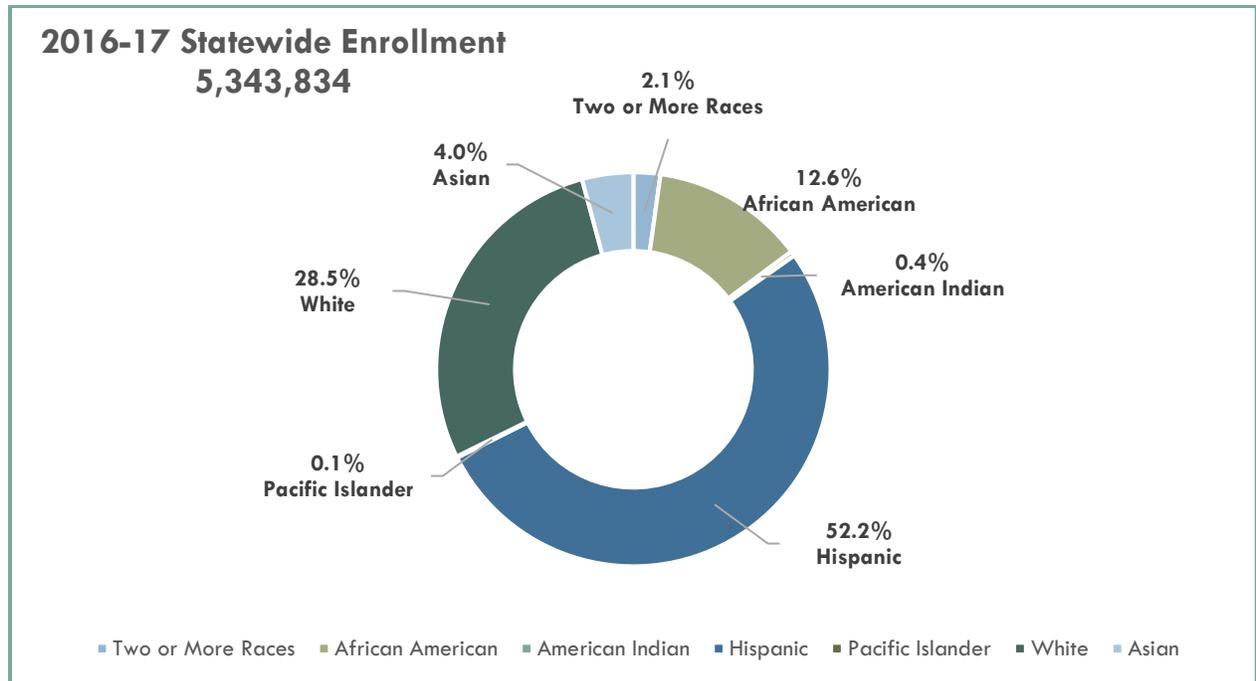

Manual Changes

The 2017 Charter School Performance Framework differs from 2016 due to these changes.

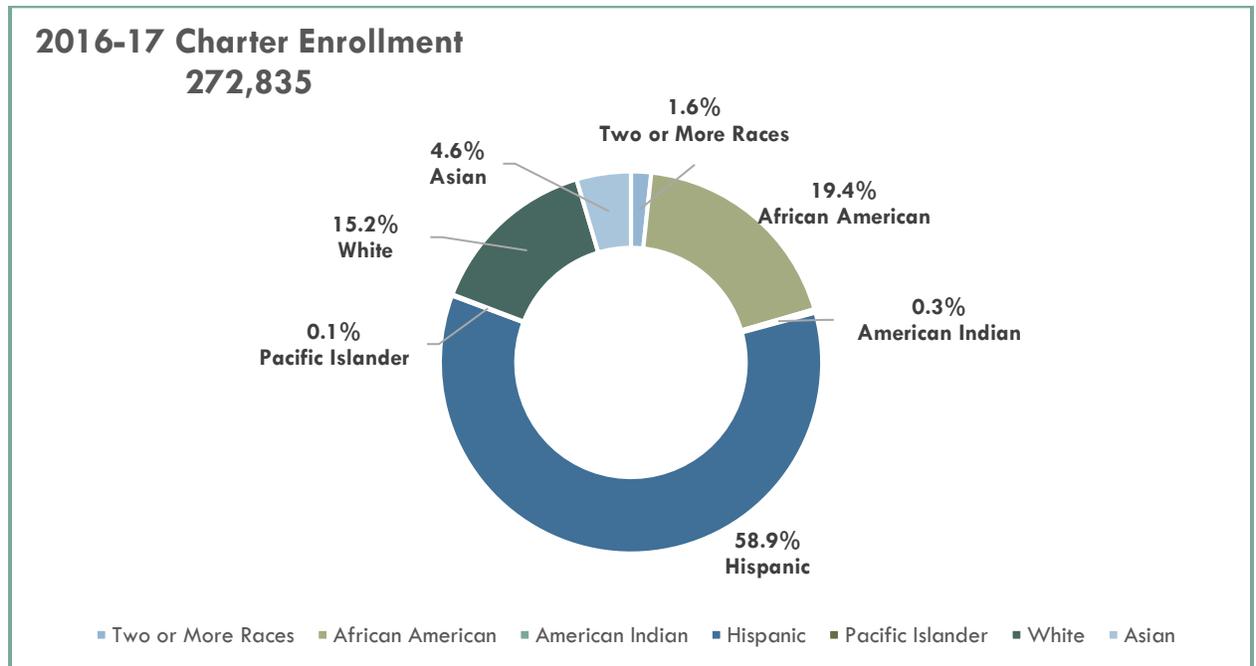

- **Academic Framework:** Language in the Student Achievement indicators was updated to reflect changes in the nomenclature of state performance assessment.
- **Financial Framework:** A minor grammatical change was made in Indicator 2a.
- **Operational Framework:** The “community and student engagement” reporting requirement (in TEC §§39.0545 and 39.0546) was repealed by HB 22 in the 85th leg session (2017), so that indicator has been removed.

2017 Academic Framework Indicators

The Academic Framework evaluates student academic performance on the State of Texas Assessments of Academic Readiness (STAAR) and longitudinal graduation rates. This framework answers the evaluative question: Is the academic program a success? Meeting the expectations in this framework is indicative of an effective academic program where student learning – the central purpose of every school – is taking place.

The following Academic Framework indicators allow evaluation of charter school academic performance.

- 1a. Student Achievement – All Students
- 1b. Student Achievement – African American
- 1c. Student Achievement – Hispanic
- 1d. Student Achievement – White
- 1e. Student Achievement – American Indian
- 1f. Student Achievement – Asian
- 1g. Student Achievement – Pacific Islander
- 1h. Student Achievement – Two or More Races
- 1i. Student Achievement – Special Education
- 1j. Student Achievement – Economically Disadvantaged
- 1k. Student Achievement – English Language Learners (ELL)
- 1l. Student Achievement – At Risk
- 1m. Graduation Rate, 4-Year Longitudinal – All Students
- 1n. Graduation Rate, 5-Year Extended Longitudinal – All Students

In accordance with TEC §12.1181 and 19 TAC §100.1010, the Academic Framework includes indicators for charter schools evaluated under both standard accountability procedures and alternative education accountability (AEA) provisions of the State Accountability Rating System. The 2017 *Accountability Manual*, which is available online at the following link: <http://tea.texas.gov/2017accountability.aspx>, contains additional details.

For each Academic Framework indicator, a charter school receives one of four ratings:

- *Exceeds Expectations*,
- *Meets Expectations*,
- *Does Not Meet Expectations*, or
- *Not Applicable*.

Academic Framework indicators are included in the Texas Academic Performance Reports (TAPR) which are available online at <https://rptsvr1.tea.texas.gov/perfreport/tapr/>.

Academic Framework data are evaluated in the State Accountability Rating System which is described online at <http://tea.texas.gov/2016accountability.aspx>. Student achievement data are used in Index 1 and graduation rate in Index 4. The graduation, continuation, or General Educational Development (GED) certification rate is used in Index 4 to evaluate AEA charters.

Further details on graduation rates are online at the following link: http://tea.texas.gov/acctres/dropcomp_index.html. Academic Framework indicators and targets may change over time to remain in alignment with the State Accountability Rating System.

The Operational Framework indicators allow evaluation of the compliance-related standards that each charter school must meet. Charter schools are already required to meet the standards in this section through state and federal law, rules, regulations, or the charter contract.

The ratings assigned to indicators in the Operational Framework neither negate any ratings (including but not limited to state accountability, Charter FIRST, Accreditation, or PBMAS) that a charter school or charter campus receives, nor removes the requirements associated with any sanctions or interventions required as a result of their ratings.

Operational Framework indicators evaluate the charter school's compliance with education program, governance, and reporting requirements.

2017 Adult High School Diploma and Industry Certification Public Charter School Performance Framework Indicators

The Adult High School Diploma Charter School Framework contains standards by which to measure the performance of an adult high school program operated under a charter granted under Texas Education Code (TEC) §29.259.

The following indicators allow evaluation of adult high school diploma charter school performance.

1. Student achievement on exit-level assessment
2. Completion of high school diploma program
3. Enrollment in institutions of higher education
4. Completion of industry certification program
5. Significant income increase

For each indicator, a charter school receives one of four ratings:

- *Exceeds Expectations,*
- *Meets Expectations,*
- *Does Not Meet Expectations,* or
- *Not Applicable.*

1. Student Achievement on exit-level assessment

Measures graduating students' performance on applicable exit-level assessments.

Exceeds Expectations

The percentage of tests taken that met the Approaches Grade Level Standard for all students/students in the group was greater than or equal to 90.

Meets Expectations

The percentage of tests taken that met the Approaches Grade Level Standard for all students/students in the group was greater than or equal to 60, but less than 90.

Does Not Meet Expectations

The percentage of tests taken that met the Approaches Grade Level Standard for all students/students in the group was less than 60.

Data Source: 2016-17 TAPR District Performance – STAAR Percent at “Approaches” Standard or Above (All Grades), All Subjects

Notes: For each charter school evaluated under AEA provisions, the passing rate is compared to the State Accountability Rating System Index 1 target of 35%.

An *Exceeds Expectations* rating is assigned when the charter school's all students/student group performance is at least 80%.

2. Completion of high school diploma program

Measures number of program participants who successfully completed high school diploma program.

Exceeds Expectations

The number of students classified as seniors was equal to or within five percentage points of actual graduates.

Texas Administrative Code (TAC)

Portions of this manual are adopted on an annual basis as Commissioner of Education rule. With the publication of this manual, the Texas Education Agency (TEA) files a Commissioner's Rule amendment to 19 TAC §100.1010 *Performance Frameworks*, with the Office of the Secretary of State. This rule adopts pages 7 – 29 of the 2017 *Charter School Performance Framework Manual* giving legal standing to said framework. Final adoption is scheduled to take place summer 2018. The rule is online at <http://ritter.tea.state.tx.us/rules/tac/chapter100/index.html>.

19 TAC §100.1010 *Performance Frameworks*.

The performance of an open-enrollment charter school will be measured annually against a set of criteria set forth in the Charter School Performance Framework (CSPF) Manual established under Texas Education Code, §12.1181. The CSPF Manual will include measures for charters registered under the standard system and measures for charters registered under the alternative education accountability system as adopted under §97.1001 of this title (relating to Accountability Rating System).

Texas Education Code (TEC)

Performance frameworks are based on statutory mandates of the Texas Legislature in *TEC Chapter 12. Charters*. The full text of Chapter 12 is online at <http://www.statutes.legis.state.tx.us/Docs/ED/pdf/ED.12.pdf>.

TEC §12.111 *Content*.

- (a) Each charter granted under this subchapter must:
 - (3) specify the academic, operational, and financial performance expectations by which a school operating under the charter will be evaluated, which must include applicable elements of the performance frameworks adopted under Section 12.1181.

TEC §12.1141 *Renewal of Charter; Denial of Renewal; Expiration*.

- (c) At the end of the term of a charter for an open-enrollment charter school, if a charter holder submits to the commissioner a petition for renewal of the charter and the charter does not meet the criteria for expedited renewal under Subsection (b) or for expiration under Subsection (d), the commissioner shall use the discretionary consideration process. The commissioner's decision under the discretionary consideration process must take into consideration the results of annual evaluations under the performance frameworks established under Section 12.1181. The renewal of the charter of an open-enrollment charter school that is registered under the agency's alternative education accountability procedures for evaluation under Chapter 39 shall be considered under the discretionary consideration process regardless of the performance ratings under Subchapter C, Chapter 39, of the open-enrollment charter school or of any campus operating under the charter, except that if the charter holder has been assigned a financial accountability performance rating under Subchapter D, Chapter 39, indicating financial performance that is lower than satisfactory for any three of the five preceding school years, the commissioner shall allow the charter to expire under Subsection (d).

TEC §12.115 *Basis for Charter Revocation or Modification of Governance*.

- (a) Except as provided by Subsection (c), the commissioner shall revoke the charter of an open-enrollment charter school or reconstitute the governing body of the charter holder if the commissioner determines that the charter holder:
 - (1) committed a material violation of the charter, including failure to satisfy accountability provisions prescribed by the charter;
 - (2) failed to satisfy generally accepted accounting standards of fiscal management;
 - (3) failed to protect the health, safety, or welfare of the students enrolled at the school;

- (4) failed to comply with this subchapter or another applicable law or rule;
- (5) failed to satisfy the performance framework standards adopted under Section 12.1181; or
- (6) is imminently insolvent as determined by the commissioner in accordance with commissioner rule.

TEC §12.1181 Performance Frameworks; Annual Evaluations.

- (a) The commissioner shall develop and by rule adopt performance frameworks that establish standards by which to measure the performance of an open-enrollment charter school. The commissioner shall develop and by rule adopt separate, specific performance frameworks by which to measure the performance of an open-enrollment charter school that is registered under the agency's alternative education accountability procedures for evaluation under Chapter 39. The performance frameworks shall be based on national best practices that charter school authorizers use in developing and applying standards for charter school performance. In developing the performance frameworks, the commissioner shall solicit advice from charter holders, the members of the governing bodies of open-enrollment charter schools, and other interested persons.
- (b) The performance frameworks may include a variety of standards. In evaluating an open-enrollment charter school, the commissioner shall measure school performance against an established set of quality standards developed and adopted by the commissioner.
- (c) Each year, the commissioner shall evaluate the performance of each open-enrollment charter school based on the applicable performance frameworks adopted under Subsection (a). The performance of a school on a performance framework may not be considered for purposes of renewal of a charter under Section 12.1141(d) or revocation of a charter under Section 12.115(c).

TEC §29.259 Adult High School Diploma and Industry Certification Charter School Pilot Program.

- (o) The commissioner shall develop and adopt performance frameworks that establish standards by which to measure the performance of an adult high school program operated under a charter granted under this section in a manner consistent with the requirements provided for an open-enrollment charter school under Sections 12.1181(a) and (b). The commissioner shall include in the performance frameworks adopted under this subsection the following performance indicators:
 - (1) the percentage of program participants who performed satisfactorily on the standardized secondary exit-level assessment instrument described by Subsection (c);
 - (2) the percentage of program participants who successfully completed the high school program and earned a high school diploma;
 - (3) the percentage of program participants who successfully completed career and technology education courses and obtained industry certification;
 - (4) the percentage of program participants who have enrolled in an institution of higher education or private or independent institution of higher education, as those terms are defined under Section 61.003; and
 - (5) the percentage of program participants who earned a wage, salary, or other income increase that was significant as determined and reported by the Texas Workforce Commission.
- (p) Each year, the commissioner shall evaluate the performance of an adult high school program operated under a charter granted under this section based on the applicable performance frameworks adopted under Subsection (o).

Definition of Terms

Accreditation – Each year, TEA assigns school districts and charter schools one of the following statuses: Accredited, Accredited-Warning, Accredited-Probation, or Not Accredited-Revoked. The accreditation status is based on the academic accountability rating and financial ratings from the FIRST. A district or charter school must be accredited by the state to operate as a public school.

Administrative Cost Ratio – An additional accountability measure used by the state legislature and TEA in assessing district and charter school performance. Administrative costs are defined as operating expenses made from funds other than federal funds associated with managing, planning, directing, coordinating, and evaluating a school district or charter school. TEA sets annual rules for the calculation of administrative costs and the “acceptable” administrative cost ratio for school districts and charter schools based upon their size, sparsity, and student population characteristics.

Alternative Education Accountability (AEA) Provisions – The provisions under which accountability ratings are assigned to eligible charter districts. AEA provisions include modified targets and specific components in Index 4 of the State Accountability Rating System.

Annual Financial Report (AFR) – The audited annual report required by TEC §44.008 that is due to TEA no later than 150 days after the close of a school district’s or charter school’s fiscal year. Each school district and charter school is required to report information and financial accountability ratings to parents and taxpayers by holding a public hearing on the AFR within two months after receipt of a final financial accountability rating. The AFR must include a description of the district’s or charter school’s performance compared to state-established standards and the district’s or charter school’s previous year’s financial accountability rating. It must also include a description of the data submitted using the electronic-based program for the financial solvency review. The AFR must be disseminated to the parents and taxpayers in attendance at the public hearing.

Average Daily Attendance (ADA) – The number of students who are in attendance each day of the school year for the entire school year divided by the number of instructional days in the school year.

Bilingual Education/English as a Second Language (BE/ESL) – Bilingual education and special language programs are designed to help students whose primary language is other than English to master basic English and participate effectively in the state's educational program.

Career and Technical Education (CTE) – Courses and programs designed to enable students to gain entry-level employment in high-skill, high-wage jobs or to continue their education or both.

Charter School Tracking System (CSTS) – A secure TEA application that allows charter schools to submit governance information and to securely view their performance framework report before it is published on the TEA website.

Default on Debt – The failure to promptly pay interest or principal when due. Default occurs when a charter school is unable to meet the legal obligation of debt repayment.

English Language Learner (ELL) – A person who is in the process of acquiring English and has another language as the first native language. The terms English language learner and limited English proficient student are used interchangeably.

General Educational Development (GED) – A proprietary, four-subject test designed to determine whether the education level of someone without a high school diploma is equivalent to successful completion of high school.

High-Quality Charter School – In accordance with ESSA, Title IV, Part C Section 4310(8), a high-quality charter school:

- (A) shows evidence of strong academic results, which may include strong student academic growth, as determined by a State;

- (B) has no significant issues in the areas of student safety, financial and operational management, or statutory or regulatory compliance;
- (C) has demonstrated success in significantly increasing student academic achievement, including graduation rates where applicable, for all students served by the charter school; and
- (D) has demonstrated success in increasing student academic achievement, including graduation rates where applicable, for each of the subgroups of students, as defined in section 1111(c)(2), except that such demonstration is not required in a case in which the number of students in a group is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student.

Intervention Stage and Activity Manager (ISAM) – A secure TEA application that allows districts, charter schools, and campuses identified for interventions through various monitoring systems to add program contacts, download resources, and submit activity documentation.

Material Weakness – When one or more internal controls, put in place to prevent significant financial statement irregularities, is considered to be ineffective.

Performance-Based Monitoring Analysis System (PBMAS) – An automated data system that reports annually on the performance of school districts and charter schools in selected program areas (BE/ESL, CTE, special education, and certain Title programs under federal law).

Public Education Information Management System (PEIMS) – All data submitted by school districts, charter schools, campuses, and other educational organizations and entities to TEA including student demographic and academic performance, personnel, financial, and organizational information.

School Financial Integrity Rating System of Texas (FIRST) for Charter Schools – The purpose of the financial accountability rating system, School FIRST for Charter Schools, is to ensure that open-enrollment charter schools are held accountable for the quality of their financial management practices and that they improve those practices. The system is designed to encourage Texas public schools to better manage their financial resources in order to provide the maximum allocation possible for direct instructional purposes.

Standard Accountability Procedures – The procedures under which most districts and campuses are evaluated. If a charter school (district) does not qualify for evaluation under AEA provisions, then the charter school (district) is evaluated under standard accountability procedures.

Texas Academic Performance Report (TAPR) – An annual report that includes a wide range of information on the performance of students in each district, charter school, and campus in Texas. Performance is shown disaggregated by student groups, including ethnicity and low income status. The reports also provide extensive information on school and district staff, programs, and student demographics.

Texas Consolidated School Rating (TCSR) Report – These reports provide the following information for each Texas public school district, charter school, and campus:

- Academic accountability ratings and distinction designations,
- Financial accountability ratings reported in School FIRST, and
- Locally-assigned Community and Student Engagement ratings and statutory compliance statuses.

Texas Education Agency Login (TEAL) – This portal allows school district and charter school superintendents and personnel secure access to TEA applications.

Texas Education Agency Secure Environment (TEASE) – Access to school district and charter school data in TEA secure web applications is protected by one of TEA’s security gateways, TEASE or TEAL.

Texas Records Exchange (TReX) – A web-based system designed for the exchange of electronic student records between Texas public school districts and for the submission of electronic transcripts to Texas public colleges and universities.

Total Variance – The comparison of PEIMS data to like information in the charter school’s AFR. The acceptable threshold for percentage of total variance is 3% of all expenses by function.

Unmodified/Unqualified Opinion – The opinion expressed when the external independent auditor concludes that the financial statements are presented fairly, in all material respects, in accordance with the applicable financial reporting requirements.
