Texas Title I Priority Schools Grant		
Schedule #4—Program Summary and Application Requirements		
Part 1: Grant Program Information;		
Summary of Program: Purpose and Goals		
<p>School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.</p> <p>Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").</p> <p>In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.</p>		
Allowable Activities		
<p>Tier I and Tier II Grantees</p> <ul style="list-style-type: none"> ■ Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected. <p>Tier III Grantees</p> <ul style="list-style-type: none"> ■ Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model. ■ If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected. <p>In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.</p> <p>The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.</p>

Part 1: Comprehensive Needs Assessment Cont.		
Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.		
<p>Throughout May 2010, campuses conducted the annual Federal Title I needs assessment. By conducting this assessment, campuses identify program strengths and weaknesses and develop a resource bank of information to guide educational decisions and establish priorities for improving student achievement. The assessment, consisting of three phases, provides a structure and process for continued self-evaluation, allows for the strategic allocation of funds to fulfill identified needs, and serves as a guide for further planning and problem solving.</p> <p>Phase I - To facilitate evaluation of data, an Academic Emphasis Team was convened consisting of the following members: principal, assistant principal, one teacher representative from each grade level, counselor, district-level administrator/curriculum specialist, instructional intervention teacher/instructional facilitator, family specialist, special education campus coordinator, ELL/Bilingual specialist, parents and community/business partners.</p> <p>Phase II - The Academic Emphasis Team used guiding questions to review data and collect baseline information in six focus areas:</p> <ul style="list-style-type: none"> • Student Achievement – How well are the students attaining the challenging academic standards set forth by the state and school district? What does the analysis of performance by student groups tell us about how well our school is meeting the needs of all students? • Curriculum, Instruction, and Assessment – What are teachers and administrators doing to ensure that teaching methods are research-based best practices and that the curriculum reflects fidelity to the content standards? • Professional Development – Are there job-embedded opportunities for teachers to participate in meaningful professional development? To what extent is professional development improving teacher performance? • Family and Community Involvement – In what ways are parents and the community involved in meaningful activities that support students' learning? How are parents and the community involved in school decisions? Can parents develop their own parenting skills or gain access to other educational opportunities through the school? • Leadership and Governance – In what ways does the leadership create a culture and systems that lead to high levels of learning? How effective are the procedures and processes for analyzing the progress of the school in achieving its objectives that lead to high levels of learning? • School Context and Organization – How large are classes? Is adequate time devoted to subjects in which students perform poorly? To what extent are teachers utilizing collaborative planning to improve teaching and learning? <p>Phase III - The campus will conduct an equity audit, which is a systematic way for the Academic Emphasis Team to assess the degree of equity or inequity present in three key areas of their school: curricular and extra-curricular programs, teacher quality, and student achievement. Based on the information gathered in Phase I, Phase II, and the Equity Audit, the Academic Emphasis Team will further prioritize areas of focus based on the urgency of the issues and problems identified. Teams will use data analysis to answer the following questions:</p> <ul style="list-style-type: none"> ▪ What are the strengths and needs of the current educational program in our school? ▪ Does the evidence support assertions about strengths and needs? ▪ What priority needs does the data suggest? Identify 3 – 5. ▪ What are some possible solutions? ▪ What actions will be taken or strategies will be implemented in the first year to address the needs? <p>The outcome of the needs assessment will be a Three-Year Plan of Action for improved student achievement focusing on 3 – 5 improvement goals.</p>

Texas Title I Priority Schools Grant

Schedule #4B—Program Description

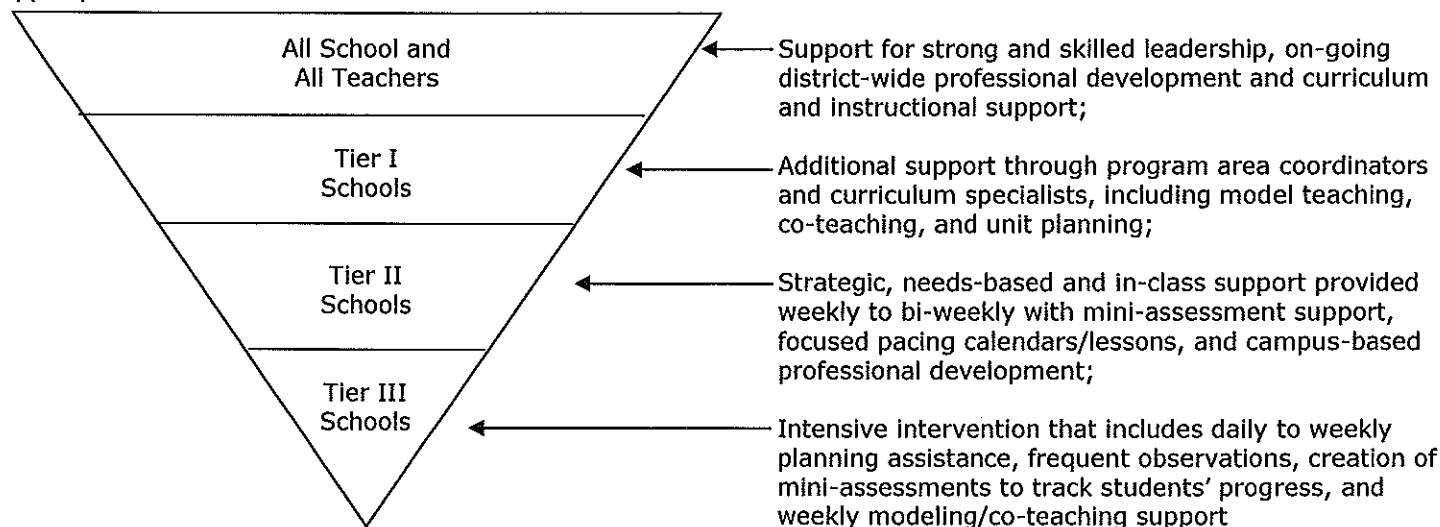

Part 2: Project Management

Section A: LEA (District) Capacity Responses are limited to **one page each**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Capacity -- Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model.

Serving over 65,000 students, North East ISD is a large urban district whose mission is to prepare all students for college, career readiness and global competitiveness in the 21st century. To this end, the primary goal is to ensure that all schools are rated Recognized or Exemplary under the state accountability system and meet the federal standard (No Child Left Behind) of Adequate Yearly Progress.

North East ISD is committed to grant program continuation and sustainability and identifies schools using a tiered system for campuses in need of additional assistance. This tiered system reflects a continuum of time, intensity of support, and allocation of resources.

North East ISD is actively involved with the community, partnering with businesses such as Rackspace Hosting to implement academic interventions in support of increased student achievement.

The District has received the Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA) in 2009 and a Superior Rating from the Schools Financial Integrity Rating System (FIRST) awarded by the Texas Education Agency in 2008. In addition, North East ISD was among five school districts recognized on April 30, 2010, by the Commissioner of Education, Robert Scott for its exceptional high school completion and college readiness programs implemented with 2008-2009 High School Allotment funds. Most recently, North East ISD was named state winner for the H-E-B Excellence in Education Award in the large district category to celebrate and recognize the contributions of public school district professionals whose leadership and dedication inspire a love of learning in students of all backgrounds and abilities.

Funds provided through the School Improvement Grant will be used to enhance and enrich the existing instructional program provided to students and will not be used to supplant existing funding. The District further assures TEA that it will monitor the school to ensure that all funds allocated through the award of grant funds are used in accordance with grant guidelines and for the specified activities outlined in this proposal. District and school administrators will monitor programs at each school to ensure that grant funds are not used for any services or activities required by state law, the State Board of Education, or local policy.

Each campus will develop and implement a clear Three-Year Plan of Action that adheres closely to the integrity of the chosen intervention model to maintain fidelity of implementation.		
<p>To assist schools in meeting the challenges of increased accountability and to support the intervention model and rapid improvement in student achievement, campus principals are provided waivers and exemption options whereby schools can petition for relief from district policies that restrict their flexibility in staffing, scheduling, and budgeting. These exemptions will provide for greater school-level flexibility, while encouraging strong school-level accountability for results. Exemptions will be aligned to identified needs and will be evaluated and approved on a campus-by-campus basis.</p>		
<p>Principal may consider</p> <ul style="list-style-type: none"> • Modified schedules to accommodate longer periods for some subjects, “double dosing” or block scheduling in the academic core • Modified schedules to accommodate longer periods for teachers to meet to discuss student work • Allocating money to hire extra reading and/or math teachers to reduce class size • Allocating money to hire extra science teachers to reduce class size • Allocating money to provide additional opportunities for teachers to monitor student progress, analyze data, plan collaboratively, and attend professional development • Allocating money to pay teachers for extra hours spent examining data and using data to plan effective core instruction and targeted interventions • Allocating money to pay teachers for engaging in professional development activities related to campus improvement goals • Modified hiring and placement practices • Reallocating resources to support identified needs as determined through needs assessments • Modifications to district scope and sequence and pacing guides • Modifications to in-district benchmark assessment calendar

Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

- ☒ Extending the period of availability of school improvement funds.
This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and must be checked.

- ☐ "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.
- ☐ Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.
This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.

Section C: Qualitative and Quantitative Data Collection Methods- Describe the LEA/campus' process for data collection methods to be implemented and 1) how the data will be disaggregated; 2) used to improve instruction; and 3) obtain continuous improvement results		
<p>North East ISD utilizes Compass, a web-based data management system used to ensure continuous monitoring of performance data. This system allows teachers, counselors, administrators, and school improvement support team members to have immediate access to the District benchmark assessments, student grades, TAKS results, attendance data, and other student demographic and programmatic information. Such data monitoring provides opportunities for mid-course corrections in instructional and curricular planning and will provide "just-in-time" data for proactive intervention for struggling students. Interventions will be monitored and modified to assure continuous improvement.</p> <p>In addition to Compass, other in-district data management systems are used. Campuses have the ability to disaggregate data by demographics which allows for the analysis and observation of trends. Disaggregation of data by student groups allows campuses to isolate variations among student groups to determine if all students are experiencing school in the same way. Disaggregation of data is used as a problem-finding strategy and allows campuses to determine if interventions are meeting the needs of all students. Demographic information variables include:</p> <ul style="list-style-type: none"> • enrollment • ethnicity • indicators of poverty • English language proficiency • Special education disabilities • giftedness • gender • mobility • attendance • retention rates • discipline indicators • socioeconomic status <p>Quantitative data will be analyzed to determine the impact of interventions on student achievement. - J. **Gun-Free Schools Act:** The local education agency assures that it is in compliance with Section 37.007(e) of the Texas Education Code, which requires expulsion of a student who brings to school or possesses at school a firearm as defined by 18 U.S.C. In addition, the local educational agency certifies that it has a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm or weapon to school [P. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.
