**Texas Title I Priority Schools Grant**

**Schedule #4—Program Summary and Application Requirements**

**Part 1: Grant Program Information;**

**Summary of Program: Purpose and Goals**

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

**Allowable Activities**

**Tier I and Tier II Grantees**

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

**Tier III Grantees**

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

A response to this question must be completed in the original submission regardless of whether the LEA/campus has selected an intervention model at this time or not.

Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Rosebud Lott High School is committed to the TIER III -Transformation Model for improvement in all areas of learning. The improvement plan has been named, REFORM: Recognizing Everyone For Opportunities Requires Many, which not only focuses on the students' acquisition of knowledge but the other factors for success, teachers and their instruction and Principals and their leadership. Rosebud-Lott High School is a campus of a little over 150 students from an approximate 63% poverty level that continues to grow. Our Economically Disadvantaged students show a greater lag of success on the TAKS test than any other sub-group.

Therefore we are in need of the TTIPS:REFORM grant providing us the resources we cannot afford on our own to meet our students growing needs. Being a small rural district without industry or adequate housing it is difficult to hire and maintain a Highly Qualified staff. We have found we often work with staff in alternative programs who move on once they have the complete credentials for better paying districts. Through the grant we have asked for incentive performance pay to aide us in stabilizing our staff turnover and quality. We also see the need for targeted trainings and travel to successful schools and conferences such as the Model School Conference to aide us in changing our deficit thinking and the culture of our campus. We see a need to grow and develop our own administrative and teacher leadership skills.

We see the need to continue working with SIRC and our external CIT as a curriculum and instruction best practices leader. Though the grant we can garner the funds to help with this need that as a District we had to provide without special funding.

We have identified the need to assist students into transitioning to the campus from the younger campuses in the district. A three to five day Transition Camp experience will be planned to prepare the students for the new campus, inclusive of social needs, team building, and academic informal, engaging assessment of basic math, writing and reading skills by the grade level staff in early August in year two and three of the funds. This year a one or two day entering class experience may be planned for the winter break to mentor and build relationships with students. We also see the need to engage parents and community more fully in our efforts and provide them opportunities through this funding.

We see the need for extending the daily learning opportunities in before and after school hours as well as modifying a day a week schedule for mentoring and club activities to build the students' skills and goal setting. We will continue to work with business and higher education institutes to hold a Job Fair and assemblies where students can see the need for their education beyond graduation. We need a Math Interventionist on campus. Through the purchase of Study Island and OdysseyWare programs we feel we can initiate engagement, intervention and skill practice that will lead to higher TAKS scores, based on information of other districts that have used these programs to reach higher levels of success and credit recovery. They also attribute these programs to better attendance and graduation rates, which are in our goals.

<p><b>Section C: Process</b> Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).</p>		
<p><b>Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.</b></p>		
<p>Rosebud-Lott ISD is in the continual process of identifying our needs through multiple sources and data.</p> <p>As a Title I campus we are continually asking our families to partner with us and asking for input. We have sent home a survey to our families to evaluate our programs and leadership as well as the climate of the campus as our families perceive it to be. We have also held a Family Focus Group meeting in the afternoon and the evening where we took the student roster and invited every fifth student's family through a letter to come and be a part of the Family Focus Group. Sadly we had only one percent of the Familys sent the letters participate, though only one parent of the seven High School parents invited participated. We will again ask families to meet in the fall to re-evaluate the Student, Family, School Pact we distribute and have signed and returned in the fall as our working PAC as the team for the students success.</p> <p>We are conducting our formal Needs Assessment for next year, on each campus, in which staff from each campus serve on one of three teams: Parent and Community Involvement, Student and Staff, or Safe and Orderly Environment and collect the required data and documentation to address the questions of the Needs Assessment. This is then shared with the Superintendent and the Campus and District Site Base Committees, where it becomes part of the Campus and Districts Plan that is approved by the School Board. The final data from the AEIS report is a critical part of the data review and a driving factor in the planning for the district when we identify the weaknesses and strengths of our programs. The previous year's Needs Assessment is also evaluated for our growth in meeting the identified needs.</p> <p>Principals and Staff meet on at least a monthly basis to evaluate the campus programs and progress both formally and informally in faculty meetings, content meetings and grade level meetings as well as in informal conversation. District Administrators, SIRC External CIT and the principal conduct classroom Walkthroughs to encourage Best Practices in teaching and focus on different aspects of instruction and learning engagement throughout the year. The formal PDAS evaluation is also used to identify areas of need for the individual staff members. The Highly Qualified Report is used to focus our staffing patterns and professional needs.</p> <p>A Study of the <u>Six Pillars of Dynamic Schools</u> by Steven Edwards and Paul Chapman is being planned for the fall 2010 semester. It is to be the vehicle to forward our Transition and Change based on the 6 pillars that correlate to this grant's requirements. It will be the means to buy in and climate change. We are also planning In Service to address Dr. Victoria Bernhardt's work on <u>Using Data to Improve Student Learning</u>. This again focuses on the need for communication and defining our goals and where we want to be and how we will be able to judge when we get there.</p> <p>Through the participation in Model School Conferences and the like as well as possibly visiting successful schools we will continually be recognizing and planning our own roads and means to becoming a more successful organization with all members being represented in the decision making and outcomes.</p>

<b>Part 2: Project Management</b>		
<b>Section A: LEA (District) Capacity</b> Responses are limited to <b>one page each</b> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
<b>Capacity</b> -- Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model.		
<p>Rosebud-Lott ISD will use any grant garnered funds to fulfill the program requirements and goals identified in the grant and any requirements as we have with other grants. Through TTPS:REFORM funds we will strive to develop administrative and classroom, campus leaders as well as student scholars that identify with the grants goals and measuring success at a personal as well as campus and district level. Without the grant we could not provide the performance incentive funds to maintain our strengthening professional and support staff to our small community and be competitive with neighboring districts.</p> <p>We will focus on preparing students new to the campus for the experience through the Prep camps and use identifying data to focus on weaknesses and needs in the programs and individual student concerns. We will purchase such programs as Eduphoria to collect the data and make it accessible to the required staff and intervention team members. The programs of Study Island and OdysseyWare will be used for engagement, evaluation, practice, credit recovery and means for cohort graduation timeline success.</p> <p>Through an extended hour in the morning and afternoon students will have access to teachers for support and re-teaching of subject matter as well as mentoring. Students with actual TAKS failures will have a double block in the failed area through a TAKS enhancement class. Mentoring time will be provided on a weekly schedule for all students though club times.</p> <p>Family support and involvement is being enhanced with the extension of the Family Involvement Coordinators time on campus to a full day, providing a full time counselor, with only two campuses to serve and evening scheduled parent conference time once during each six weeks. Opportunities to use the Odyssey and Study Island program will be available for parents and community wishing to prepare for a GED or college entrance tests.</p> <p>Through purchasing a Cart of computers we will have increased access to 21<sup>st</sup> Century tools and experiences in writing and improve critical thinking and project outcome learning experiences, skills necessary if we are to be competitive and successful in a global world beyond Rosebud-Lott ISD.</p>

<b>Part 2: Project Management Cont.</b>		
<b>Section A: LEA (District) Capacity</b> Responses are limited to <b>one page each</b> , front side only, with a font size no smaller than 9-point (Arial or Verdana).		
<b>Partnership/Involvement of Others</b> – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.		
<p>Conversations have been held with all the stakeholders in finding out the needs of members from each group and what type of programs need to be provided or developed to meet identified needs. Staff members have talked with students on how they might need assistance or what they think will help them in learning materials and what time they can carve for the extra time and effort to get to a successful level. The students are the ones asking for a Math Interventionist since the Science Interventionist help is recognized as the support that got them through the Science TAKS test this year. Parents and community have been invited to participate in District and Campus Site-base committees, Family Focus Group, Family/School Pact Review committee, Family/School Survey, ESL representatives, and G/T Parent Program Evaluation committee. Rosebud-Lott ISD has a standing Open Door Policy to our parents from the classroom, principal and Superintendent office. We have PTO organizations, Parents along on UIL competitions and sports events, and Open Houses, Programs, Band Concerts, Art Shows, Science Fairs and Career /Technology Showcases with businesses and Institutes of Higher learning that partnered with us.</p> <p>Formally we study our assessments/benchmarks through the year and look at our programs and curriculum as a staff. TAKS data and other assessments are broken down to evaluate and adjust or programs or see funds such as these. These are one part of the Campus and District Needs Assessment process that involves representatives of all stakeholders.</p> <p>As a District we had to form a committee and report to SIRC which has been a very beneficial process that shows in our Science score outcomes, but needs to continue and grow to address the writing and math area. Our wanting to participate in this grant with the assistance of SIRC shows we know we have needs that we must address. We will form another SIRC committee for this next year with some old and new members. We will also reform our Site Base Teams on the two year cycle and form a student advisory team.</p>

<b>Part 2: Project Management Cont.</b>		
<b>Section A: LEA (District) Capacity</b> Responses are limited to <b>one page each</b> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
<b>Management of Grant Activities</b> – Describe how the LEA and campus will modify its practices and/or policies, as necessary, to ensure its implementation of the intervention(s) fully and effectively.		
<p>The TTIPS: REFORM will allow us to extend the opportunity for students to have assistance through the Interventionist and an hour before school or after school which changes the practices of intervention. The use of the OdysseyWare and Study Island programs also changes the means of engaging the students into the practices.</p> <p>Through the Performance Incentive to all staff should assist in buy-in, team and support at all levels, changing the climate of the campus and away from deficit thinking but to how can we meet these goals and how do we now we are there and how to sustain them.</p> <p>The principal and administration will continue to have the power to evaluate and remove staff not meeting the goals or expectations. Through developing mentor lead teachers and peer appraisal will be a step in the positive direction and expand our appraisal practices.</p> <p>By attending the Model School Conference and visiting other successful schools and trainings we will expand the new practice of the last three years of attending workshops away from the district. This has been a big adjustment and growing experience for staff to travel to National Conferences such as the Technology Conference in San Antonio and the state C-Scope conference this summer again in San Antonio. Many of our staff have never left the state, so it is hard to get them to see the nation, much less the world beyond our own county even through the Internet. By doing the traveling we can give them experiences that they can share and encourage our children to take.</p>

<b>Resource Management</b> – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.		
<p>The grant funds allow us to expand our programs funded by other resource funds in ways we could not have otherwise. It allows us to add the Interventionist in the Math area just for this campus, but continue sharing the District Science Interventionist paid for through ARRA funds. It continues to support the RTI program by paying for the Study Island and Odyssey Ware programs we could not afford otherwise but will allow us to closely monitor and engage student success. It allows us to update our Credit Recovery to the new TEKS with the Odyssey Ware program.</p> <p>We are in the last year of the 21<sup>st</sup> Century Afterschool Program and have had to cut our certified teacher staffing due to the cut back in funding, so this grant allows us to keep the tutorial program going and expand it to the higher level that the previous funds were allowing.</p> <p>It will allow us to send staff to out of state conferences such as Model Schools and Principal Leadership that would be totally impossible if it were only funded through local funds. It gives our staff the opportunity to be life-long learners and bring back new knowledge and experiences to engage and excite our students.</p> <p>We will not cut any required programs or supplant any funding as required with other funds through these funds.</p>

<b>Grant Project Manager Qualifications</b> – Describe the qualifications of the person selected to be the project manager for this grant on the campus.		
<p>The person chosen to be the Project Grant Manager is the Special Programs Director for the district. She has been in the district for six years and knows the staffing pattern and concerns with recruiting Highly Qualified Staff. She has been the Internal CIT for the District SIRC requirements and worked closely with the External CIT in meeting all reporting requirements. She communicates and builds a bond with the staff and administrators throughout the district. She has a good standing in the community with parents and students, as she served as a district principal for four years. She has her Principal Certification and Masters in School Administration through Baylor University. She served as an assistant Principal 4 years, technology grant facilitator 2 years, and classroom teacher 13 years in a neighboring high performing district as lead teacher, which demonstrates her understanding of developing leaders within the system. She is trained in PDAS, 360 Walk Through and Data Disaggregation at ESC 12 with Dr. Victoria Bernhardt. She has completed the Superintendent Institute and holds a Superintendent Certificate.</p> <p>In order for her to meet the requirements for this position, other responsibilities will be given to other staff members beginning the opportunity to bring up new leadership in the staff, some of which will involve stipends making it more feasible for some teachers to stay in the district.</p>

<b>LEA Support</b> – Describe how the LEA will structure and implement an individual or office with responsibility for supporting the campus' school improvement efforts.		
<p>The District will have the Special Program Director relinquish some of her other areas of responsibility allowing her to take on the campus school improvement efforts. She will do Walk throughs, hold curriculum meetings, monitor CSCOPE curriculum use, Lesson plans through Eduphoria and Data from Benchmark and Assessments. She will mentor new staff to have buy-in and prevent frustrations if completely new to teaching. She will continue to work and assist with the External SIT and see that all reports are done on time and properly. She will attend training such as Dr. Victoria Bernhardt's Data training and bring trainings back to the staff. She will form the Student Advisory committee and meet with them on a monthly basis, as well as continue to work with the District Site Base Committee and over see the Needs Assessment process for the district. She will work with the campus principal as he leads his campus and help identify and work with staff who will be encouraged to take on greater leadership roles on the campus.</p>

**Section A: LEA (District) Capacity** Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Program Continuation and Sustainability** – Describe how the LEA will sustain the campus reforms after the funding period ends.

The greatest way to sustain the campus reforms is to have total campus buy-in and they will support and assist in finding ways to support the reform. Through conferences, site visits, training and staff stabilization we should develop an understanding and the foundation for the reforms beyond the grant period. The finding of other resources would be needed for continued Performance recognition pay though we are explaining it is part of the grant and may not be funded once the grant period is over. The Interventionist and cost of the web-based Study Island and OdysseyWare programs would have to be funded through other resources such as other grants or increased revenues from local funds or different state and local grants or funds if they become available. The Campus and District Site Base committees will have a responsibility in seeing that reforms are carried on in our plans and identify possible funding resources. At no time will TTIPS funds be used for grant writing or fund raising.

<b>External Providers</b> -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.		
<p>The LEA will work with the SIRC model as we have done this year as a district, though funds were not available for districts. We used the SIRC list of the providers they have trained and will again use this method. Since the relationship and respect has been bonded with our current External CIT we will continue with the relationship. Looking at our double digit increases in science TAKS scores she has aided us tremendously and we will continue our adventure in improving the Writing and Math areas while maintaining our Science gains and using data to focus our needs and target the subgroups that are apparently needing intervention.</p> <p>We will continue to use our ESC 12 Service Center for training and look for Region 13 Service Center to supplement any training ours does not focus on.</p>

**Site Visits –** If the intervention program includes site visits to other campuses successfully implementing the intervention model, describe the process for selecting the locations and the expected outcomes of the site visit.

The campus would have to buy into the site visit model for it to bring about a successful reform on our campus but if you have never seen a reform or another way of doing things it is hard to develop your own adaption and create success. No one has ever gotten different results by doing the same thing over and over. Our staff must see that you can change the variables/programs/ attitudes and take ownership in change. We have to see what it looks like to not have deficit thinking controlling your outcomes. The Principal may find a place to visit through his Leadership Institute or the attendees of the Model School Institute or the SIRC SIT in which we can allow the staff to decide what and where they want to go and see the site that has been successful in reform. We would guide them in doing reform research in choosing which site to visit and why. We would have to meet and decide on criteria of what we may be looking for at the site and the questions we think could be answered. It would be interesting to pose a mentoring relationship or partnership with the purposed site.

We will not be applying for the Elementary or Primary campuses to be served through these grant funds as they are not on the eligibility list, only the High School and High School are eligible to make these applications. Other Title I and ARRA funds will continue to be used for the students on the lower campuses.

**Texas Title I Priority Schools Grant**  
**Schedule #4B—Program Description**

**Part 3: Intervention Model**

**Section B: Model Selection Process** –Describe in detail:

1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus.
2. The timeline delineating the steps the campus will take to implement the selected intervention.

Responses are limited to **five pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The Rosebud-Lott District and High School campus chose the Modified Transformation model since they were a Tier III camps. The Special Programs director attended the grant meeting in Austin at ESC 13. The Superintendent, Principal, Special Programs Director and Assistant Superintendent of Finance meet to evaluate the grant itself, to identify the reasons for applying and if the campus could meet the requirements. The previous Needs Assessments, SIRC data, walk through data, benchmark data, TAKS and informal conversational comments were considered during this meeting. District goals were also considered and areas we would like to address yet, such as technology.

Conversations took place over the fact that the Principal is just completing his second year with the district in August. The Superintendent was happy with the TEA Principal Appraisal results for the year he had just completed. It was also recognized that the current superintendent has just completed his first year in the district so changes are happening and transition time has been taking place.

Also during this time the budgeting process began for next year with all principals and department heads, representing their staff, meeting and expressing their concerns, needs and wants for next year's budget. This information was then also considered in writing the grant.

Each campus was asked to evaluate last year's campus/district needs assessment s and to develop this year's assessments. This data is being discussed and collected as the process evolves, though many of the needs are already being addressed in this grant. The Assessments will have one copy stay on the campus to revise and update the campus plan and one will be sent to the Special Programs office to be used in developing the next District Plan by the Site Base Committee.

Preliminary TAKS data is being evaluated and compared to last years. Programs that were implemented such as the Science Interventionist are proving to be a success with double digit improvement with the preliminary TPM scores. We are looking for strengths, weaknesses and improvements so we can adjust programs if need be and plan for staff in service and trainings. Grant funds would provide a great advantage in the trainings we could take part in and implement.

Currently the actual student grades and promotion rates are being analyzed. We have identified about two -thirds of the current students needing to attend Flex days for intervention and enhancement of their current learning based on TAKS scores, failing a six week, or attendance. This adds to the urgency to fund more interventions and reform our current programs so more students are successful and not needing the Flex intervention at the end of the school year.

The School Board encourages going out for grant funds and the Superintendent has advised them through his weekly Board memo that we are trying for the TTIP funds.

In working on the budget, positions are being identified to be sought staff for and performance incentive pay is being calculated. Quotes for the programs are being asked for including the required training to fully implement their use.

We are looking at transportation needs and route adjustments to accommodate the morning and afternoon tutorial times.

**Part 3: Intervention Model**

**Section B: Model Selection Process Cont.** Responses are limited to **five pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Schedule of classes are being developed to accommodate the double class of TAKS enrichment and policy for credits and for graduation. A schedule for Intervention services and RTI services would need to be developed. A modified schedule for the mentoring/club time would need to be developed more fully and students assigned to mentors. Teachers of the youngest grade would begin plans for the transition camp in December, though this would be a three to four day camp in August of the next two years I the grant cycle.

Grant goals would be part of the August In Service week and the Performance incentive pay be explained. Plans would be discussed for training and in service through the grant.

We would need to identify strong substitutes and train them for the teachers' time away from class since it would increase. We would identify teachers to take on more leadership responsibility on the campus.

The Counselor, Family Involvement Director and Special Programs Director would meet and develop a calendar and initiate family contacts and programs to increase the family involvement with the students' life at school.

The purchase of the OdysseyWare and Study Island and their set up would need to be taken care of so training and implementation could begin immediately.

Teachers and staff would be scheduled to conduct the one time a six week conferences for working parent so that each teacher would only have to attend once during each semester. The Parent Portal to lesson plans and grades and teacher WebPages would need to be set up and updated in a timely manner to also communicate with parents. Phone contact and other contacts could be arranged with more ease when the family has meet with the staff members at least once.

Tutorials times will have staff identified as the needs of the students are identified. This will take place four days of the week, as Friday attendance has not proven to b successful in the upper grades. The administration team would begin monitoring the use of the CSCOE curriculum by checking online lesson plans in Eduphoria and classroom walk throughs. Eduphoria will also be used to look at the disaggregation of assessment data from TAKS, benchmarks, teacher assessments and CSCOE assessment.

Supplies and materials to enhance the science program will be ordered. Current library books and reference material will be purchased and placed into our dated 1980's collection. Furniture will be purchased to allow for classroom engagement and collaborative learning over the traditional desk setup.

The Special Program Director will fulfill all reports and evaluations of progress for the requirement s of the grant and SIRC. All required travel and training of identified staff will also be attended as required by the grant.

Annual evaluation of the grant goals and requirements will be undertaken and amendments will be requested if required.

Annual preparation and implementation will take place throughout the cycles of the grant funding.

<b>Section A: Ongoing Monitoring/Continuous Improvement</b> - Describe the LEA/campus' process for providing on-going monitoring of grant activities to ensure continuous improvement		
<p>The grant manager will have the shepherding responsibility of monitoring the grant activities within the district for continuous improvement, but this will be accomplished with all stakeholders having a part. The principal as campus leader will work closely with the grant manager in monitoring the progress and they will work closely with the team leader teachers. The External CIT will consult and aide in monitoring the progress of the campus. SIRC will also monitor with the required reports as will the grant reporting process.</p> <p>Student grades, attendance, benchmarks, tutorial sessions, and TAKS scores will all be used for monitoring purposes quantitatively. Through mentoring activities and student advisory groups, staff meetings we will gather qualitative information. Lesson plans, Walk throughs, CSCOPE resources, grade books, teacher WebPages, grade portals, communication documentation and such will be used to monitor instruction and contact with parents. Trainings will be monitored by attendance records, certificates and records through Project SHARE.</p> <p>Interventionist activities will be monitored through the means mentioned above as well as conversation with classroom teachers, the principal, and internal and external monitors.</p> <p>The Assistant Superintendent of Finance will also work closely with the grant manager in monitoring the funds being used correctly and within grant compliance. These students will be monitored closely with benchmarks, CSCOPE assessments and teacher made progress assessments.</p> <p>All students will be monitored with the CSOPE assessments and benchmarks. The reports of the grant and SIRC will aide us in our formative evaluation and the desegregation of the data.</p> <p>We will monitor classroom grades for teaching success, use the Walkthrough data, and external SITs evaluation, and PDAS to gather formative evaluation on teacher strength and needs.</p> <p>Program monitoring will be tied to data of student success in TAKS and grade promotion.</p> <p>Attendance will be formatively evaluated through the PEIMS data.</p> <p>Graduation with Cohorts will be monitored through credits records of the students.</p> <p>Family Involvement will be monitored through attendance records at conferences and activities on the campus as well as contact logs.</p>

(Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

**Section C: Qualitative and Quantitative Data Collection Methods-** Describe the LEA/campus' process for data collection methods to be implemented and 1) how the data will be disaggregated; 2) used to improve instruction; and 3) obtain continuous improvement results

We will begin by looking at the TAKS data that is already disaggregated for us and it is used to form TAKS enhancement classes, double blocking key areas of need and allowing us to continually monitor for progress. Through the purchase and use of the Eduphoria monitoring program we will be able to disaggregate our benchmarks and assessments and teachers will have on-line access at their finger tips. This should allow them to make adjustments and interventions as needed to their instruction. It also will allow us to place students with the Interventionists as we see needs arise and in RTI resources.

The mentoring/club activities will allow us to monitor students with needs not only academically but at a personal and family level so the Family Involvement Coordinator and campus counselor can aide in interventions as needed. This should aide in allowing the students to concentrate on their academics and achieve success.

By monitoring the staff through walk throughs and Highly Qualified requirements we should also see improvement in teacher's instructional ability and therefore improvements in student success.

<b>Schedule # 4C—Performance Assessment and Evaluation</b>		
<b>Part 2: Process for Development of Performance Goals</b>		
Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals.		
Responses are limited to <b>two pages</b> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
<p>Performance Goals have come about through many processes. It begins with informal conversation amongst all stakeholders. It then includes all parent advisory groups' recommendations being considered and taken to the campus and district site base committees. The annual Needs Assessments from the three different areas of Parent/Community Involvement, Student/Staff, and Safe and Orderly Environment are reviewed for previous year progress and done again each year at each campus.</p> <p>The state and federal requirements and evaluation factors are also considered and written into our goals. This is part of our relationship with SIRC, in making or goals and monitoring our progress this past year as a district. Due to our district SIRC requirements we have identified key members who attended Turn Around and Data Dig training at ESC XII. Several members have attended a three day training at the service center with Dr. Victoria Bernhardt, training on <u>Using Data to Improve Student Learning</u>. This training will continue to be a part of in service so all staff members have a part in setting the goals and understanding where we are, where we want to go, how we will get there, how will we know when we get there, and how will we sustain the focus and momentum when we are there. The study of the Six Pillars of Dynamic Schools by Steen Edwards and Paul Chapman will help us to plot our path and answer these questions. The TTIPS:REFORM funds will aid us in the process and allow resources that would be out of our reach otherwise.</p> <p>We will also need to change the climate of the campus away from deficit thinking to capable thinking for all. Until we see how others have overcome the same barriers and the reforms others have achieved it is difficult to see all avenues to the goals we want to meet. This is why we need to develop leaders throughout the staff who have buy-in and take on the challenges of meeting the goals. Forming a student advisory group that meets monthly and scheduling a formal mentoring/club time into our schedules will allow us to include the students in planning and evaluating our success with the goals we have set. Through our continued efforts at relationships with businesses and institutes of higher education, through programs and job fairs, we hope to give students an understanding of the reason and value of an education and graduating above a minimum graduation plan. Students must be targeted to individually recognize what they must do to be successful at school and thus contribute to the campuses success.</p> <p>As in all growing processes, reform and change is an ongoing adventure that will take all stakeholders participating and evaluating the goals and process. The goals that are written are current to the needs as we see them, but as we grow and learn we may find that we add others or adapt the ones we have, but we cannot accept where we are now for our students' sake.</p>

- L. Financial Management and Accounting:** Grantee assures it will maintain a financial management system that complies with federal standards established in 34 CFR 80.20 and 74.21 and that provides for accurate, current, and complete disclosure of the financial results of each grant project. The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

Refunds Due to TEA:** If Agency determines that Agency is due a refund of money paid to Contractor pursuant to this contract, Contractor shall pay the money due to Agency within 30 days of Contractor's receipt of written notice that such money is due to Agency. If Contractor fails to make timely payment, Agency may obtain such money from Contractor by any means permitted by law, including but not limited to offset, counterclaim, cancellation, termination, suspension, total withholding, and/or disapproval of all or any subsequent applications for said funds.
- O. Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.

Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

- R. Intellectual Property Ownership:** Contractor agrees that all Works are, upon creation, works made for hire and the sole property of TEA. If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

These warranties will survive the termination of the Contract. If any preexisting rights are embodied in the Works, Contractor grants to TEA the irrevocable, perpetual, non-exclusive, worldwide, royalty-free right and license to (i) use, execute, reproduce, display, perform, distribute copies of, and prepare derivative works based upon such preexisting rights and any derivative works thereof and (ii) authorize others to do any or all of the foregoing. **For School Districts and Nonprofit Organizations:** The foregoing Intellectual Property Ownership provisions apply to any school districts, nonprofit organizations, and their employees, agents, representatives, consultants and subcontractors. If a school district or nonprofit organization or any of its subcontractor(s) wish to obtain a license agreement to use, advertise, offer for sale, sell, distribute, publicly display, publicly perform or reproduce the Works, or make derivative works from the Works, then express written permission must first be obtained from the TEA Copyright Office.

**For Education Service Centers (ESCs):** The foregoing Intellectual Property Ownership provisions apply to an Education Service Center (ESC) and its employees, agents, representatives, consultants, and subcontractors. If an ESC or any of its subcontractor(s) wish to obtain a license agreement to use, advertise, offer for sale, sell, distribute, publicly display, publicly perform or reproduce the Works, or make derivative works from the Works, then express written permission must first be obtained from the TEA Copyright Office.

**For Colleges and Universities:** The foregoing Intellectual Property Ownership provisions apply to any colleges and universities and their employees, agents, representatives, consultants, and subcontractors; provided, that for all Works and derivative works created or conceived by colleges or universities under the Contract, they are granted a non-exclusive, non-transferable, royalty-free license to use the Works for their own academic and educational purposes only. The license for academic and educational purposes specifically excludes advertising, offering for sale, selling, distributing, publicly displaying, publicly performing, or reproducing the Works, or making derivative works from the Works that are created or conceived under this Contract and colleges and universities and their employees, agents, representatives, consultants, and subcontractors are prohibited from engaging in these uses and activities with regard to the Works unless the prior express written permission of the TEA Copyright Office is obtained.

Contractor, whether a state agency or not a state agency, certifies that no funds provided under this Contract shall be used to purchase supplies, equipment, or services from any companies found to be guilty of unfair business practices within 12 months from the determination of guilt.

- T. Subcontracting:** Contractor shall not assign or subcontract any of its rights or responsibilities under this contract, except as may be otherwise provided for in this application, without prior formal written amendment to this contract properly executed by both Agency and Contractor.

- V. Capital Outlay:** If Contractor purchases capital outlay (furniture and/or equipment) to accomplish the objective(s) of the project, title will remain with Contractor for the period of the contract. Any amount over this limit must come from local funding sources. Applicant must recover funds at a lesser rate if local policy amounts are less than the maximum allowed by the state. Out-of-state travel may not exceed the federal government rate for the locale. Travel allowances are not allowable costs.
- Y. Funds for Religious Worship, Instruction:** No funds will be used to pay for religious worship, instruction, or proselytization, or for any equipment or supplies for such, or for any construction, remodeling, repair, operation, or maintenance of any facility or part of a facility to be used for religious worship, instruction, or proselytization (34 CFR 76.532 and P. Nonprofit organizations (other than charter schools) and universities/colleges shall submit the audit report to the TEA Division of Discretionary Grants. In addition, as a condition of receiving funds under the No Child Left Behind Act, the local educational agency certifies that no policy of the local educational agency prevents, or otherwise denies participation in, constitutionally protected prayer in public elementary schools and secondary schools, as detailed in the guidance provided by the U. S. Secretary of Education pertaining to such. The state educational agency shall report to the Secretary of Education each year a list of those local educational agencies that have not filed this assurance or against which complaints have been made to the State educational agency that the local educational agencies are not in compliance with this requirement (P. L. 107-110, section 9524(b)).
- O. Equal Access to Public Schools Facilities – Boy Scouts of America Equal Access Act:** No public elementary school, public secondary school or local educational agency that has a designated open forum or a limited public forum and that receives funds made available from the U. S. Department of Education shall deny equal access or a fair opportunity to meet, or to discriminate against, any group officially affiliated with the Boy Scouts of America, or any other youth group listed in Title 36 of the United States Code (as a patriotic society), that wishes to conduct a meeting within that designated open forum or limited public forum, including denying such access or opportunity or discriminating for reasons based on the membership or leadership criteria or oath of allegiance to God and country of the Boy Scouts of America or of the youth group listed in Title 36 of the United States Code (as a patriotic society). For the purposes of this section, an elementary school or secondary school has a limited public forum whenever the school involved grants an offering to, or opportunity for, one or more outside youth or community groups to meet on school premises or in school facilities before or after the hours during which attendance at the school is compulsory. Nothing in this section shall be construed to require any school, agency, or a school served by an agency to sponsor any group officially affiliated with the Boy Scouts of America, or any other youth group listed in Title 36 of the United States Code (as a patriotic society). Compliance with this provision will be enforced through rules and orders issued by the Office for Civil Rights. If the public school or agency does not comply with the rules or orders, no funds made available through the Department of Education shall be provided by a school that fails to comply with such rules or orders or to any agency or school served by an agency that fails to comply with such rules or orders (P. L. 107-110, section 9525).
- P. General Prohibitions:** None of the funds authorized under the No Child Left Behind Act shall be used to develop or distribute materials, or operate programs or courses of instruction directed at youth, that are designed to promote or encourage sexual activity, whether homosexual or heterosexual; to distribute or to aid in the distribution by any organization of legally obscene materials to minors on school grounds; to provide sex education or HIV-prevention education in schools that instruction is age appropriate and includes the health benefits of abstinence; or to operate a program of contraceptive distribution in schools (P. L. 107-110, section 9526).
- Q. Armed Forces Recruiter Access to Students and Student Recruiting Information:** In accordance with guidance issued by the U. S. Department of Education, each local educational agency receiving assistance under the No Child Left Behind Act shall provide, on a request made by military recruiters or an institution of higher education, access to secondary school students names, address, and telephone listings, upon prior written consent of a student or the parent of a student. A secondary school student or the parent of the student may request that the student's name, address, and telephone listing not be released without prior written parental consent, and the local educational or private nonprofit school shall notify parents of the option to make a request and shall comply with any request. Each local educational agency receiving assistance under the No Child Left Behind Act shall provide military recruiters the same access to secondary school students as is provided generally to post secondary educational institutions or to prospective employers of those students (P. L. 107-110, section 9528).
- R. Unsafe School Choice Option:** The local educational agency certifies that it shall establish and implement a policy requiring that a student attending a persistently dangerous public elementary school or secondary school, as determined by the Texas Education Agency, or who becomes a victim of a violent criminal offense, while in or on the grounds of a public elementary or secondary school that the student attends, be allowed to attend a safe public elementary or secondary school within the local educational agency, including a public charter school (P. L. 107-110, section 9532).
- S. Civil Rights:** Nothing in the No Child Left Behind Act shall be construed to permit discrimination on the basis of race, color, religion, sex (except as otherwise permitted under Title IX of the Education Amendments of 1972), national origin, or disability in any program funded under the No Child Left Behind Act (P. L. 107-110, section 9534).
