<b>Texas Title I Priority Schools Grant</b>		
<b>Schedule #4—Program Summary and Application Requirements</b>		
<b>Part 1: Grant Program Information;</b>		
<b>Summary of Program: Purpose and Goals</b>		
<p>School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.</p> <p>Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").</p> <p>In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.</p>		
<b>Allowable Activities</b>		
<p><b>Tier I and Tier II Grantees</b></p> <ul style="list-style-type: none"> <li>■ Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.</li> <li>■ Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.</li> <li>■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.</li> </ul> <p><b>Tier III Grantees</b></p> <ul style="list-style-type: none"> <li>■ Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.</li> <li>■ If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.</li> <li>■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.</li> </ul> <p>In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.</p> <p>The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.</p>

<p>Prior to the 2009-2010 school year, following the resignation of the principal, a new principal was hired to create the mission and vision for the new school program and work with district administration on the process of school transformation. Throughout the transition year, investigation of costs and implementation strategies associated with the multiple programs suggested by the task force occurred. Research conducted on best practices will be implemented at SOC during the 2010-2011 school year. Current SOC students and parents were apprised of the transformation. Students and parents wishing to return to SOC, next year, were asked to sign a rigorous commitment effectively promising to make preparation for college their number one priority as aligned with the District's Five Year Education Plan. The SOC teaching staff was asked to sign a commitment as part of their ability to return to SOC. Less than half of the original SOC staff will be retained with the opening of the school next year. During this transformational process, district and campus level administrators and counselors have investigated alternative learning programs throughout the state, paying particular attention to other districts and charters that seem to have a great deal of success with students who thrive in non-traditional learning scenarios. Through this process the following plans have been made for the non-traditional day school:</p> <ul style="list-style-type: none"> <li>• The formation of a ninth grade cohort of students (40 students) recommended by their home campus middle schools. This group of students will be taught their core classes by a group of four content area teacher specialists who will use problem-based learning, a career focused approach, blended learning, hybrid learning, field experiences, extra tutorials, cross curricular teaching methods, and technology based initiatives to motivate and enhance student learning. This group of students will also be taught physical education and reading as part of the four core courses, will take two electives, and will end their ninth grade year having been awarded 8 credits.</li> <li>• The remainder of the school will consist of current 10-12 grades from SOC who choose to remain by signing the student commitment, and new 10-12 graders from across the district who are looking for some flexibility in learning and acquiring high school credits in a different way than the traditional school model.</li> </ul> <p>Our needs assessment will be reviewed with the International Center for Leadership in Education (ICLE) for the specific purpose of providing objective feedback to the campus and district leadership teams interested in systemic campus improvement. The assessment will focus on factors that have the potential to impact the academic achievement of students. The International Center will assist the campus in identifying goals to implement strategies and activities to support the turnaround/transformation intervention model.</p>

**Schedule #4B—Program Description**

**Part 1: Comprehensive Needs Assessment Cont.**

**Section C: Process** Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.**

School of Choice (SOC) has existed in Spring Branch ISD for many years. Prior to the advent of *No Child Left Behind*, SOC was a productive and dynamic traditional high school program which successfully served high at-risk and academically deficient students. As accountability and students have changed, SOC has struggled to retain its effectiveness in educating at-risk youth using a traditional format. After meeting with parents, students, community members, and staff within the district, the Superintendent came to the conclusion that some investigation was needed into how the paradigm of the district could change to address the needs of not only current SOC students, but all students who needed something different in pursuing the completion of their high school education.

In the 2008-2009 school year, Spring Branch ISD formed an Alternative Learning Task Force charged by the Superintendent with crafting a district program that would allow all students access to non-traditional ways to learn. On October, 9, 2008 the task force met for the first time. By the third meeting, the committee had broken up into groups to investigate: work study programs, dropout recovery and prevention, virtual school, flexible time, and blended learning. Frank Kelly of SHW Architecture group, and author of a book on alternative learning methods, was asked to speak to the group about his research into alternative methods of content delivery and alternative settings. Linda Gillis, Educational Specialist from Region IV, spoke about virtual learning. After listening, learning, and data collection, members of the task force solidified their recommendations and presented them to the Assistant Superintendent of Curriculum and Instruction. The recommendations of the Alternative Learning Task Force took on graphic form and soon became known as the Parthenon.

The Parthenon called for a program to be started in the district which would be called The Academy of Choice. The program would be multi-dimensional and include a day school where non-traditional students, who wanted a different learning environment from their home campus, could physically go to school. A virtual school would also be established for students who needed the flexibility of any time, any place learning. Additionally, the current Spring Branch ISD night school would be expanded to include more non-traditional learning opportunities. It was the task force vision that in addition to offering some traditional face-to-face classes, the day school and night school would be expanded to include hybrid courses, SAT/ACT prep, dual credit, innovative courses, independent study, internships, community connections, flexible scheduling, year round school, seminar style learning, mini-mesters, and GED classes. The grant application focuses on students enrolled in the day school currently called the School of Choice.

Our needs assessment will be reviewed with the International Center for Leadership in Education (ICLE) for the specific purpose of providing objective feedback to the campus and district leadership teams interested in systemic campus improvement.

<b>Part 2: Project Management Cont.</b>		
<b>Section A: LEA (District) Capacity</b> Responses are limited to <b>one page each</b> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
<b>Partnership/Involvement of Others</b> – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.		
<p>In the 2008-2009 school year, Spring Branch ISD formed an Alternative Learning Task Force charged by the Superintendent with crafting a district program that would allow all students access to non-traditional ways to learn. The task force broke into analytical groups to examine: work study programs, dropout recovery and prevention, virtual school, flexible time, and blended learning. SHW Group presented methods of content delivery and alternative settings. Linda Gillis, Educational Specialist from Region IV, discussed the instructional benefits of virtual learning. It was the task force vision that, in addition to offering some traditional face-to-face classes, the day school and night school would be expanded to include hybrid and virtual courses, SAT/ACT prep, dual credit, innovative courses, independent study, internships, community connections, flexible scheduling, year round school, seminar style learning, mini-mesters, and GED classes. The task force solidified their recommendations and presented them to the Assistant Superintendent of Curriculum and Instruction. In the 2009-2010 school year, the district began the process of transforming SOC, and the physical resources attached to it into a research-based learning community for non-traditional learners. The SOC principal resigned and a new principal was hired to create the vision and mission for transforming the school.</p> <p>A campus task force consisting of the principal, an assistant principal, the night school assistant principal, two counselors, two school improvement specialists, the district graduation success coach, and an outside consultant was established to initiate the transformation and prepare this application to accelerate implementation of a school turnaround/transformation model. This group carefully researched methods, examined data, and identified the Critical Success Factors (CSFs) and how transformation in each could be appropriately measured.</p> <p>The performance goals and CSFs developed by the task force were then given to the Campus Improvement Team (CIT). The CIT consists of administrators, teachers, support staff and parents whose charge is to guide the campus toward school improvement. Since parents currently on the CIT have not been attending monthly meetings consistently, other key parents were invited to participate in this meeting. The consensus of the CIT was that the task force had done a good job of (1) soliciting input from a variety of stakeholders, (2) defining the needs of the school within the community, and (3) proposing a model that will transform the school into a place where students will re-engage in their own education. After discussing the task force's student performance goals and rationales, the CIT voted unanimously to approve the task force's recommendations</p>

<b>Program Continuation and Sustainability</b> – Describe how the LEA will sustain the campus reforms after the funding period ends.		
<p>Sustainability is a key concern and therefore a top priority of the District and the District Turnaround Office. Strong administrative commitment is the number one reason the campus reforms will be sustainable into the future. Our school board and administrative leadership team view this transformation plan as essential to improving student achievement and in alignment with the goals and objectives of the District's Five Year Educational Plan.</p> <p>The campus is committed to having the initiatives included in the grant application become operational over the three-year funding period. The job-embedded professional development and coaching for our leadership team and teachers will have a long term impact as we implement transformational intervention strategies developed as part of this plan. Other professional development opportunities provided for in this grant will continue as our teachers implement the strategies into their lessons.</p> <p>The additional positions added during the grant will provide support for our teachers and staff in making the transformational changes. We do not envision that these positions will be necessary after the grant period as the initiatives should become self-sustaining after the initial start up.</p> <p>We expect that the Vision 2020 student laptops purchased will exceed the life of the grant. Once these laptops have exceeded their useful life, the campus will participate in the District's established equipment replacement cycle so that the students will continue to have access to this technology.</p>

The process of identifying and analyzing the high schools is part of a major joint initiative of the International Center and the Council of Chief State School Officers, with financial support from the Bill & Melinda Gates Foundation.

Following the Model Schools Conference, school leadership will investigate making a site visit to one of Texas schools that have been identified as a model school by the International Center. Schools include:

- A.J. Moore Academy, Waco
- Caprock High School, Amarillo
- Carver High School, Houston
- W.T. White High School, Dallas

<p>This is the third year that School of Choice (SOC) has been in school improvement. In school year 2007-2008, SOC entered school improvement status based on math scores. In 2008-2009, SOC was in year 2/stage 1 for math scores and also entered year 1/stage 1 for completion rate. This school year 2009-2010, SOC continues in school improvement for completion rate (year 2/stage 1). The School Improvement Resource Center (SIRC) provides a Campus Administrator Mentor (CAM). Karleen Noake provides assistance by helping with the campus improvement plan, assisting with the growth of the new principal, advising the leadership team on how the school improvement funds should be spent, and advising the district on how the school should be restructured to better suit the needs of the student population and the district.</p> <p>After the results were obtained from the Alternative Learning Task Force, the principal at SOC, her CAM, and district level representatives began the process of implementing the task force plan to turn SOC around. Through this process, it was discovered that the State of Texas was also formulating a plan to turn around low-performing schools. The district Grant Director and the principal of the school attended the informational meeting on the Texas Title I Priority Schools Grant. After some discussion with district and school level staff about the opportunities that the grant would offer, the district decided to pursue the grant. After studying the options available, a district-level committee, with input from school staff determined that the turnaround/transformation model would best fit, and enhances the plans that were already in place for changing SOC.</p> <p>The process continued with meetings with the Superintendent and Senior Staff that established that the district has the capacity and willingness to support this campus in a school improvement plan as outlined in the TTIPS Grant. To select a school intervention model, the district formed a TTIPS Decision-Making Team ("Team") which included District Administrators, a School Board Representative, Campus Administrators from each eligible secondary campus, Teachers and Staff from each eligible secondary campus, parents and community members.</p> <p>The Team discussed the intervention model that would best suit School of Choice (SOC). As a Tier I campus, they had the option of one of the four intervention models in the federal regulations or the state's Tier I Transformation Model. After a review of the "Narrowing Questions" and "Questions for Consideration", the Team decided that Turnaround was the appropriate intervention model for SOC. This decision was based on past achievement results and past improvement efforts. Senior Staff concurred with the campus representatives that the campus has both consistent leadership with a common vision as well as a majority of the campus staff demonstrating the skills necessary to meet the needs of the students. The Team recommended the Tier I Turnaround model.</p>

**Section B: Model Selection Process** –Describe in detail:

1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus.
2. The timeline delineating the steps the campus will take to implement the selected intervention.

To fulfill the community's goal of transforming instruction at the secondary school level described in the district's 5 year Education Plan, Spring Branch ISD (SBISD) senior level administrators guided its eligible secondary campuses in the selection of the International Center for Leadership in Education (ICLE) as its key service provider. SBISD is applying for option 2 so that ICLE's executive coaches can meet with staff, gather data and further assist in the planning process and the completion of the Model Selection and Description Report.

The team discussed whether to use the Texas Transformation Project (TTP) or a district designed model. While the team was impressed by the goals and resources available for TTP, the team wanted to customize the model so that the activities included in this grant utilized district resources and initiatives as much as possible. In addition, the campus wanted to tailor the timeline to match its most immediate needs.

**Developing teacher and school leader effectiveness**

- *Evaluation of principal:* Job-embedded professional development for leadership with ICLE
- *Rigorous, transparent and equitable evaluation systems:* Work with ICLE to incorporate use of SAS EVAAS (Education Value Added Assessment System). Coordinate with PDAS, a four tier system recently implemented in the District that sets clear instructional expectations for teachers to be proficient in delivering instruction to ensure students are successful.
- *Identify and reward staff who has increased student achievement:* Work with ICLE and coordinate with District's Performance Pay Task Force, the Administration and the School Board. Coordinate with the District's D.A.T.E. Cycle 2 grant performance pay plan which is designed to award math and science teachers who meet or exceed established performance measures at four levels of achievement on the TAKS test.
- *Provide ongoing, high-quality, job-embedded professional development:* Job-embedded professional development for core academic teachers with ICLE plus other professional development opportunities based on identified needs (project based learning, small group instruction, etc.). Provide targeted professional development to teachers based on EVAAS.
- *Implement strategies such as financial incentives, increased opportunities etc.:* Work with ICLE and coordinate with District's Performance Pay Task Force, the Administration and the School Board and with the District's D.A.T.E. Cycle 2 grant performance pay plan to develop a compensation schedule for teachers.

### Schedule #4B--Program Description

#### Part 3: Intervention Model

**Section B: Model Selection Process Cont.** Responses are limited to **five pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

#### Comprehensive instructional reform strategies

- *Use data to implement an instructional research-based, vertically aligned instructional program:* Proposed model is about changing the way we teach - from a teacher-oriented model to a student-centered model.
  - Research has shown that students [with a one-to-one laptop ratio] direct their own learning, report a greater reliance on active learning strategies, readily engage in problem solving and critical thinking, and consistently show deeper and more flexible uses of technology than students without individual laptops (Gulek & Demirtas, 2005).
  - Response-to-Intervention (RTI) will be used to assist in providing comprehensive support to students.
  - Expand team strategies with the addition of cross-curriculum pairing for school-wide project-based learning teams
- *Promote the continuous use of student data:* Work with District and campus administrators and ICLE to improve and promote teacher use of student data recently converted to a centralized web-based system, Eduphoria Aware, for managing student information and performance data as well as data from more frequent campus internal "checkpoints"

#### Extending learning time and creating community-oriented schools

- *Schedules and strategies that provide increased learning time:* Implement schedules and strategies that provide increased and more effective learning time including activity periods and zero-hour and online classes. Increase time for teacher collaboration and planning
- *Provide ongoing mechanisms for family and community engagement:*
  - Implement a parent commitment program, using a parent liaison, involving parental engagement through dual-language monthly parent meetings, parent volunteer opportunities, participation in the campus improvement team, home visits, and Love and Logic training classes.
  - Hire and incorporate a parent liaison into the school community to reach out and assist parents

#### Schedule #4B—Program Description

#### Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

☒ Extending the period of availability of school improvement funds.

*This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.*

**Note:** Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and must be checked.

☒ "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.

*Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.*

☐ Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.

*This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.*

(Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)		
<b>Section A: Ongoing Monitoring/Continuous Improvement</b> - Describe the LEA/campus' process for providing ongoing monitoring of grant activities to ensure continuous improvement		
<p>The Project Manager will work with the campus principal to monitor the performance objectives stated in the grant. The Project Manager will gather and compile statistical data for measurable project objectives. The Project Manager will ensure that this information is included in quarterly reports for this grant. This information will be provided to the District Turnaround Office for review.</p>		
<p>In addition to the grant performance goals, we will utilize the district's accountability plan to provide ongoing monitoring. The District Turnaround Office includes the Associate Superintendent of Curriculum &amp; Instruction, the Executive Director of Secondary Teaching and Learning and the Executive Director for Accountability and Research who are also involved in the District's accountability plan described below. These directors will coordinate and provide support to the campuses for both its district goals and the goals specific to this grant.</p>		
<p>The SBISD Accountability Plan, <i>SBISD AIMS for Student Success</i>, is designed to guide school instructional leadership teams through a process for identifying the <i>current status</i> of their school, for establishing their <i>desired outcomes</i>, and for creating a plan to close <i>the gap</i> between current status and desired outcomes. Components of the SBISD Accountability Plan include data collection, monitoring, reflection and action planning. The SBISD Accountability Plan is a proactive approach for ensuring that district efforts are focused and deliberately targeted at making Spring Branch ISD an Exemplary district as defined by state criteria.</p>		
<p>The AIMS Manual provides recommendations in the form of driving questions that suggest monthly activities to support student success at the schools. As part of the monitoring process, principals also will be asked to meet with their school instructional leadership team to respond to self-assessment/monitoring questions at specified intervals. The school leadership team will include some or all of the following roles: assistant principals, SISs, team leaders and department chairs. All responses to the monitoring questions will be submitted electronically to the Executive Directors of Teaching and Learning and will be shared with curriculum directors and the secondary Executive Directors.</p>

<b>Section B: Formative Evaluation-</b> Describe the LEA/campus' process for formative evaluation, including how the results of the evaluation will be used to improve the grant program		
<p>In order to determine the effectiveness of the planning, design, implementation and evaluation of the project, the District Turnaround Office will work with Campus Project Manager and the International Center for Leadership in Education (ICLE) to ensure that all performance measures identified in the grant are derived from the appropriate source, calculated and reported on a timely basis.</p> <p>The Quarterly Implementation Report will be provided to the Turnaround Office prior to submission for review of the available performance measure results to determine if appropriate progress is being made on each measure. This report and the findings of the Turnaround Office and ICLE will then be reviewed with the campus and District administration. Any area where there is no or insignificant progress will be addressed to determine if revised strategies are necessary. This review will be documented by the District Shepherd and circulated among the members of the Turnaround Office, District Administrators, Campus Administrators and the Campus Improvement Team.</p> <p>Observations from ICLE and other providers will be incorporated into the formative evaluation. The District Turnaround Office will also receive reports from the Spring Branch ISD accountability plan, AIMS, feedback from the locally developed curriculum-based assessments and other District assessment tools.</p> <p>Evaluation surveys will be given for all professional development. In addition, periodic surveys on the conduct of the project will be given to obtain feedback from stakeholders (principals, teachers, parents and students).</p> <p>This plan will address the following:</p> <ul style="list-style-type: none"> <li>• Quality, type, and degree of planning, implementation, and evaluation of project activities</li> <li>• Quality, type, and degree of collaboration with project partners</li> <li>• Quality and level of communication with and reporting to management on the progress of the project and any problems encountered</li> <li>• Quality, type, and degree of participatory involvement practiced by the principals, teachers, parents, and, when appropriate, students</li> <li>• Quality, type, and level of professional development activities</li> <li>• Quality, type, and level of services actually provided to the targeted population</li> <li>• Quality and type of curriculum that is utilized</li> <li>• Quality and type of instruction</li> <li>• Quality of any products or documents developed as part of the project</li> <li>• Strengths and weaknesses of the project design, implementation, and evaluation</li> <li>• Extent to which recommendations for modifying or improving the program as a result of on-going evaluation activities were implemented</li> </ul>

**Part 1: Component Description.** By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

**Section C: Qualitative and Quantitative Data Collection Methods-** Describe the LEA/campus' process for data collection methods to be implemented and 1) how the data will be disaggregated; 2) used to improve instruction; and 3) obtain continuous improvement results

The district has a centralized web-based system for managing student information and student performance data – EDUPHORIA AWARE – that teachers access on their classroom computers. Teachers use this data to plan instruction and address individual student need. Campus administrators meet regularly with teacher teams to review data and to plan horizontally and vertically.

In addition, most campuses have an internal “checkpoint” assessment system that provides more frequent feedback on student performance and program effectiveness. These data, in combination with more comprehensive district assessments, form the basis for teacher, team and campus data conferences.

The district accountability plan (the Academic Improvement, Monitoring and Support – AIMS Plan) provides structures and timelines that promote sound instructional leadership among campus administrators. These tools include:

- Guiding questions for informal and formal data conferences
- Quarterly “monitoring” reflection questions that campuses at all levels complete and send to the Division of Curriculum & Instruction
- Suggested structure, membership & roles/responsibilities for data conferences
- Specific guidance in using data to plan at weekly, quarterly and semester intervals

The data used for these data conferences go beyond objective student performance data and include:

- Report card grades
- Course failure lists
- Attendance
- Discipline records
- ACT/SAT/Explore/PLAN/NRT scores
- Reading and mathematics inventories
- Progress measures for second language learners
- Student mobility data
- Teacher certification and tenure data

The above are specific structures and processes that are embedded in our district and campus improvement planning process.

<b>Part 2: Process for Development of Performance Goals</b>		
Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals.		
Responses are limited to <b>two pages</b> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
<p>In order to develop our campus performance measures, a campus leadership team was created consisting of the principal, two assistant principals, two counselors, two school improvement specialists, the district graduation success coach and an outside consultant. This leadership team met for two full days and parts of others over a three week period to develop goals based on the charge of the Alternative Learning Taskforce that would set new standards for student success. As charged by the taskforce the team worked to develop a transformational model to offer multiple learning options for students while increasing academic achievement through a student-centered approach. All performance objectives were created around the need to (1) shift student learning away from passive compliance and move toward an active, authentic learning experience, (2) increase students' intrinsic motivation to learn by intensifying the curriculum with more depth, (3) give students more choices and control over their instructional activities and (4) provide multiple options in scheduling and course delivery. Based on the recommendations of the Alternative Learning Taskforce the team developed an organizational plan centered around the needs of students in the district.</p>		
<p>The district and campus level administrators and counselors have investigated alternative learning programs throughout the state, paying particular attention to other districts and charters that seem to have a great deal of success with students who thrive in non-traditional learning scenarios. Utilizing best practice research regarding student-centered learning and alternative learning options, the team developed improvement activities to enhance leadership, teaching, and student learning (International Center for Leadership in Education; Squires, 2008; Moylan, 2008; Schmitt, et al., 2009). Goals were developed related to student-centered learning, alternative learning practices, parent and community involvement, quality teacher skills, and comprehensive/effective leadership.</p>		
<p>Once these goals were in place, the group began to discuss the Critical Success Factors (CSFs) and decide how transformation in each could be appropriately measured. Numbers and percentages were used for each of the CSF activities that could be measured mathematically. However, some CSF activities (e.g., staff development opportunities) did not lend themselves to quantitative measures.</p>		
<p>The campus leadership team reviewed the campus' performance goals with district administrators who provided additional support, direction, and approval of the goals.</p>

The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. If an audit has been announced, the records shall be retained until such audit has been completed.

Nonprofit organizations (other than charter schools) and universities/colleges shall submit the audit report to the TEA Division of Discretionary Grants. The following special provisions apply to all programs funded under the Elementary and Secondary Education Act, as amended by P. L. 107-110, No Child Left Behind (NCLB) Act of 2001. By signing Schedule #1 of this SAS, the applicant is assuring it is in compliance with the following provisions:

- A. Each such program will be administered in accordance with all applicable statutes, regulations, program plans, and applications.
- B. The control of funds provided under each such program and title to property acquired with program funds will be in a public agency or in a nonprofit private agency, institution, organization, or Indian tribe, if the law authorizing the program provides for assistance to such entities.
- C. The public agency, nonprofit private agency, institution, or organization, or Indian tribe will administer such funds and property to the extent required by the authorizing statutes.
- D. The applicant will adopt and use proper methods of administering each such program, including the enforcement of any obligations imposed by law on agencies, institutions, organizations, and other recipients responsible for carrying out each program and the correction of deficiencies in program operations that are identified through audits, monitoring, or evaluation.
- E. The applicant will cooperate in carrying out any evaluation of each such program conducted by or for the Texas Education Agency, the Secretary of Education or other federal officials.
- F. The applicant will use such fiscal control and fund accounting procedures as will ensure proper disbursement of, and accounting for, federal funds paid to such applicant under each such program.
- G. The applicant will submit such reports to the Texas Education Agency (which shall make the reports available to the Governor) and the Secretary of Education, as the Texas Education Agency and the Secretary of Education may require to enable the Texas Education Agency and the Secretary of Education to perform their duties under each such program.
- H. The applicant will maintain such records, provide such information, and afford access to the records as the Agency (after consultation with the Governor) or the Secretary may find necessary to carry out the Agency's or the Secretary's duties.
- I. Before the application was submitted, the applicant afforded a reasonable opportunity for public comment on the application and has considered such comment.
- J. **Gun-Free Schools Act:** The local education agency assures that it is in compliance with Section 37.007(e) of the Texas Education Code, which requires expulsion of a student who brings to school or possesses at school a firearm as defined by 18 U.S.C. Section 2891 [pursuant to the requirements in P. L. 107-110, Section 4141(d)(1)]. In addition, the local educational agency certifies that it has a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm or weapon to school [P. L. 107-110, Section 4141(h)(1)].
- K. **Student Records Transfer:** The local educational agency shall ensure that a student's records and, if applicable, a student's individualized education program as defined in section 602(11) of the Individuals with Disabilities Education Act, are transferred to a charter school upon the transfer of the student to the charter school, and to another public school upon the transfer of the student from a charter school to another public school, in accordance with applicable state law (P. L. 107-110, section 5208).

- O. Equal Access to Public Schools Facilities – Boy Scouts of America Equal Access Act:** No public elementary school, public secondary school or local educational agency that has a designated open forum or a limited public forum and that receives funds made available from the U. Department of Education shall deny equal access or a fair opportunity to meet, or to discriminate against, any group officially affiliated with the Boy Scouts of America, or any other youth group listed in Title 36 of the United States Code (as a patriotic society), that wishes to conduct a meeting within that designated open forum or limited public forum, including denying such access or opportunity or discriminating for reasons based on the membership or leadership criteria or oath of allegiance to God and country of the Boy Scouts of America or of the youth group listed in Title 36 of the United States Code (as a patriotic society). For the purposes of this section, an elementary school or secondary school has a limited public forum whenever the school involved grants an offering to, or opportunity for, one or more outside youth or community groups to meet on school premises or in school facilities before or after the hours during which attendance at the school is compulsory. Nothing in this section shall be construed to require any school, agency, or a school served by an agency to sponsor any group officially affiliated with the Boy Scouts of America, or any other youth group listed in Title 36 of the United States Code (as a patriotic society). Compliance with this provision will be enforced through rules and orders issued by the Office for Civil Rights. Each local educational agency receiving assistance under the No Child Left Behind Act shall provide military recruiters the same access to secondary school students as is provided generally to post secondary educational institutions or to prospective employers of those students (P. L. 107-110, section 9528).
- R. Unsafe School Choice Option:** The local educational agency certifies that it shall establish and implement a policy requiring that a student attending a persistently dangerous public elementary school or secondary school, as determined by the Texas Education Agency, or who becomes a victim of a violent criminal offense, while in or on the grounds of a public elementary or secondary school that the student attends, be allowed to attend a safe public elementary or secondary school within the local educational agency, including a public charter school (P. L. 107-110, section 9532).
- S. **By submitting the application for American Recovery and Reinvestment Act (ARRA) funds (P.L. 111-5), the applicant agrees to comply with the following provisions and assurances for all programs authorized in Division A of the ARRA, Title I School Improvement Grant (SIG). The applicant understands that failure to comply with one or more of these provisions and assurances may result in the Texas Education Agency (TEA) taking one or more enforcement actions authorized in Title 34 of the Code of Federal Regulations (CFR) §§ 74.62 and 80.43.**

In addition to the standard terms of award, all funding provided under the Recovery Act will be subject to the provisions, assurances and conditions for American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

**Terms defined:**

**RECIPIENT** – The term “recipient” means a State and includes the Texas Education Agency (TEA). It also includes any entity that applies for and receives a grant directly from the federal government.

**RECOVERY FUNDS** –The term “recovery funds” means any funds that are made available from appropriations made under the Recovery Act.

**RECOVERY ACT** – the American Recovery and Reinvestment Act (ARRA) of 2009 (P.L. 111-5)

**GRANTEE** – the subrecipient of TEA and applicant of funds.

**A. One-Time Funding:** Unless otherwise specified, ARRA funding is considered one-time funding that is expected to be temporary. Grantees should expend funds in ways that do not result in unsustainable continuing commitments after the funding expires. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

**B. Period of Availability and Encumbrances/Obligations:** Unless otherwise specified in the Notice of Grant Award (NOGA), all funds are effective from the beginning date specified on the Notice of Grant Award (NOGA) through June 30, 2013. When an obligation is made is defined in 34 CFR 76.707.

The assignment of a DUNS number is a condition of award of ARRA funds and must be validated by TEA prior to issuing a NOGA for ARRA funds. (Section 1512[c][4] of ARRA and the federal Office of Management and Budget (OMB) to comply with the Federal Funding Accountability and Transparency Act [FFATA], P.L. 109-282. OMB adopted the DUNS number as the "unique identifier" required for reporting under FFATA).
