Texas Title I Priority Schools Grant

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information;

Summary of Program: Purpose and Goals

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Allowable Activities

Tier I and Tier II Grantees

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

Tier III Grantees

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.		
-To identify the needs of the campus, all staff met at Dr. Armando Cuellar Middle School Library. Groups were formed to study various aspects, including demographics, student achievement, school culture and climate, curriculum, instruction and assessment, family and community involvement; school organization; and technology. In April of 2010, the Principal scheduled a general meeting with all staff to inform them of the grant available to the campus as a Tier III school under school improvement, a sign-in form was provided. In order to facilitate the process and ensure buy-in from all stakeholders, a meeting was convened to organize cadres and sub-groups to work on their areas of interest. The Cadres selected a Chairperson and a discussion regarding the implementation of a school intervention model was initiated to promote unity of purpose. The various sources of data were discussed and studied by various teachers, chairpersons, departments, and department chairs. In conjunction with department meetings Campus Facilitators oversaw discussions on the process determining which data would be collected to provide the most information regarding the strengths and the needs of the school. Cadres continued to examine longitudinal studies. In early May, content area chairpersons and the Bilingual Chair met regarding the CNA and discussed potential data sources, quotes, and research to support the proposed campus activities to accomplish our campus program goals. All stakeholders including community, parents, staff, and students will continue to meet to develop the Campus Improvement Plan and develop the Student Achievement Improvement Plan with the proposed Transformational Intervention model as the focus.

Resource Management – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.		
The leadership team for this grant will be comprised of our executive curriculum department in secondary education who has been at his position for over 5 years and has a proven track record of success in helping to bridge academic gaps for our district. Mr. Salinas, our executive director for curriculum is always on the cutting edge of evidence based research curriculum and our needs assessments are always based on a quasi-experimental design plan that includes pre and post assessments and implementing appropriate instructional interventions of a prescriptive nature for all students in jeopardy of failing. Serving as co-director will be our Title one coordinator, Mr. Villarreal who has been in charge of Title One services for the last 20 years and is in charge of all academic curriculum of an accelerated and supplemental nature for students with big achievement gaps. The campus level leadership team will be comprised of two instructional coaches at the district level, Ms. Anna Gonzalez who has been a math teacher for the district for over 5 years and currently serves as a district mathematics instructional coach, assisting her will be two campus level facilitators, one at each school. The district leadership team has already begun communication with partnering entities regarding the program they provide and how to best meet the needs of our students and address the significant gaps that are evidenced at both middle schools. Our management plan will ensure that meetings are held with campus based teams to ensure that our curriculum always spirals down so that the lower grades are suitably preparing our students for entry into school level. Our management plan will include specific protocols to be in place that will assure that our objectives are on time, within budget, within the appropriate timelines and with definite milestones for accomplishing all project tasks. We will have significant input from all teachers involved in this project through departmental meetings to be held at school, through staff development trainings, through classroom observations and through individual conferencing with all teachers involved in this project. We will build a website solely dedicated to our transformation project in which teachers will have a Forum in which they can address issues that are concerning them in an anonymous fashion so that all concerns can be addressed in a timely fashion. Participant feedback will provide the district level leadership team with the necessary information needed to share with service providers about the concerns or suggestions our teachers have and through surveys of all teachers involved we will be able to meet their needs and concerns. As a result of this we will be able to focus with laser sharp precision on exactly what it is our students need from their teachers in the delivery of mathematics and language arts instruction. We can also meet the needs of our teachers' pedagogical and content knowledge needs.

Because she is knowledgeable in, Practical Parenting techniques, Mrs. Solis worked with various departments and stakeholders to write an ARRA Funds grant. This grant was awarded to improve school culture and create a Parental Involvement Program which was successfully initiated by having campus teachers train parents in content area lessons and Practical Parenting strategies on Saturdays. She solicited community and partnerships with District Personnel. Parents maintained regular attendance while their children attended Saturday School for seven weeks. This increases the campus performance and the rapport between support staff, teachers, parents and students. Evidence from school surveys showed growth in Positive school climate, and increased parent involvement was evident. Due to the success of the interventions as prescribed, and in analyzing the initial raw data, the campus acquired an Exemplary Status and scores improved in Reading and Math.

External Providers -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.		
The LEA has: - Met with all stakeholders and created a rubric detailing specific criteria in the selection of external providers. - Delineated the specific criteria on research-based best practices as listed on the "What Works" website of the United States Department of Education. - Ensured through sign-in sheets and agendas that all stakeholders participated in the interview process during the selection of external providers. - Ensured that external providers' services have gone through rigorous clinical trials, both of a qualitative and quantitative nature with control and non-control groups demonstrating data that can be replicated with different populations across the country. - Ensured that "white papers" were reviewed by all stakeholders. White Papers have included an annotated bibliography of the research conducted and published in high-end, peer-reviewed journals.

Section B: Model Selection Process –Describe in detail: 1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus. 2. The timeline delineating the steps the campus will take to implement the selected intervention.		
Responses are limited to five pages , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
The process that was followed to select a school intervention model is one that takes into account all No Child Left Behind (NCLB) requirements. Taking into account all Campus Improvement Plan procedures, the campus department chairs and administrators attended a grant planning meeting where information was disseminated regarding the Texas Title I Priority School Grant Initiating the Comprehensive Needs Assessment (CNA). All stakeholders participated in staff meetings where cadres were formed and a schedule of meetings was created. Each cadre met to discuss the information provided in consultation with parents, school staff, LEA, and outside experts. As a Campus Improvement Plan (CIP) was reviewed specific data-based needs and school environment circumstances were identified. According to SIRC, it is highly recommended to have the entire campus staff be involved in a thorough examination of what the data says about the campus. Therefore, Cadres researched vast school intervention models that align to the identified needs of the campus. According to Victoria Bernhardt, Data analysis for continuous school improvement (2004), there are four types of data that should be collected and disaggregated: student achievement, school processes, perception, and demographics. Using the disaggregated data below, cadres studied and established high priority areas. <u>Special Ed. Reading-WITHOUT-Texas Projection Measures(TPM)</u> -Improve 6th grade TAKS scores from 44% passing to 71% -Improve 7th grade TAKS scores from 67% passing to 71%. -Improve 8th grade TAKS scores from 71.4% passing to 77% in Special Ed. <u>Special Ed. Math-</u> -Improve TAKS scores from 57% passing in 6th grade to 63% -Improve TAKS scores from 57% passing in 8th grade to 77% <u>Special Ed. Science-</u> -Improve 8th grade TAKS scores from 43% passing to 66% <u>Special Ed. Social Studies-</u> -Maintain and exceed 2009-2010 TAKS scores. <u>Limited English Proficient-Reading</u> -Improve TAKS scores from 57% passing in 6th grade to 71% -Improve TAKS scores from 1% passing in 7th grade to 71% - Total Reading 7th grade TAKS scores with TPM-62.07% for LEP <u>Limited English Proficient-Math</u> -Total Math TAKS scores with TPM for 7th grade is 58.06% <u>Technology</u> -Improve Student/Teacher Technology skills as identified in surveys and observations and improve higher cognitive level thinking, engage learning using LoTi model, Daggett's Rigor and Relevance, Marzano's research-Best Practices, Webb's Dept. of Knowledge. Cadres selected specific improvement activities to be aligned with the planning tool that the TTIPS suggested. The specific activities were selected because they are supported by research that indicates that the activities will be effective. The effective methods and instructional strategies selected will need to be implemented once approved to improve academic performance in Reading/ELA, Math, Science, and Social Studies.

Part 3: Intervention Model

Section B: Model Selection Process Cont. Responses are limited to **five pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The process that was followed to select a school intervention model is one that takes into account all No Child Left Behind (NCLB) requirements. Stakeholders, LEA, and Administration voted and agreed to implement technical assistance by School Improvement Resource Center (SIRC). Procedures continued until SIRC can implement recommendations are as follows: Taking into account all Campus Improvement Plan procedures the campus department chairs and administrators attended a meeting to initiate data collection for the use of conducting a Comprehensive Needs Assessment (CNA). All stakeholders participated in staff scheduled meetings where cadres were formed and members signed up to work on specific tasks. While some teachers worked on demographics, parents chose to work on parental involvement needs, administrators chose to work with curriculum and data analysis. Each member participated by looking for information, conducting research and discussion was initiated. The ideas formed into a campus plan where the Transformation model was discussed and voted on by all stakeholders, and will implement all areas required to increase Principal's training and where Response to Intervention and Professional Development is the key focus.

Teachers attending training sessions will be awarded stipends within the fair district pay range.

With the intervention model in place, systematic change will take place by intense school wide Response To Intervention with intensive initial and ongoing training and staff development for all staff. Those teachers that have been identified as first year teachers or Teachers In Need Of Assistance (TINA) will be assigned a mentor to assist in ascertaining the skills necessary to improve academic performance. Weekly monitoring and collaboration as suggested by rubrics and agreement merits mentoring stipends starting the first year and as teachers attain student growth and teachers attain necessary skills to exit TINA requirements, mentors will have created a Win-Win situation that is beneficial to the all stakeholders. According to ERIC #7, "Mentoring is the establishment of a personal relationship for the purpose of professional instruction and guidance." In education, the value of mentoring has been recognized in the use of teachers and other professionals in one-on-one instruction of students for vocational education, science, and reading, (Evenson, 1982). -To provide intensive assistance for students that are Limited English Learners, a Read 180/READING and Math TAKS LAB will be formed to include online technology that addresses the development of their language and reading skills. Benjamin D. Wright and J. Stenner, stated in Institute of Educational Science that, reading ability also limits how much we can expect to earn. (1992). "This should motivate middle school student to read to raise their lexile, (a numerical reading score conducted through technology), scores through increased time spent reading. READ 180 was found to have potentially positive effects on comprehension and general literacy achievement for adolescent learners. Wright stated that, From 1000 to 1300 Lexiles, each reading ability increase of 150 Lexiles doubles our earning expectations. If we read at 1000 Lexiles and want to double our potential, then we have to improve our reading to 1150 Lexiles. When students can see the financial consequences of reading ability on an easy to understand scale that connects reading ability and income, then they have a persuasive reason to spend more time improving their reading abilities." <u>http://ies.ed.gov/ncee/wwc/reports/adolescent_literacy/read180/index.asp</u> All students below reading level will: ▪ remain in Read 180 system to post test 2nd, 4th, and post test early 6th six weeks, ▪ use class libraries in their content area including other than Language Arts classes, to log books read and test in Reading Counts to increase time spent reading at home and school, ▪ have tutorials where independent reading and shared reading are incorporated into lessons, ▪ use eBooks/technology to increase student interest and increase focus on reading. -Teachers will discuss benchmark scores with the students to instill ownership. Benchmark growth will be documented in District "Scoreboard" data reporting forms. Interventions will be prescribed through RTI model process. Regular meetings to discuss student growth in SRI/Benchmark scores will be scheduled. Agreement forms with stipend requirement will be signed for anyone who will be receiving stipends. Stipends will be awarded as scheduled and as reviewed by Principal, LEA, and Program Director; Campus Plan Initiatives will be selected for students who failed 2009-2010 TAKS, or were identified as Beginning Reader (BR) in Read 180. Other activities will be recommended to students who are below performance level in lexile levels such as: • Mentor Monday, where a campus adult meets with students after benchmarks to increase student awareness of personal and academic goals and to establish a rapport. PDAS supervisors will monitor and report quantitative data per six weeks • Academic Counseling, so that counselors may meet with students and parents to review personal goals in academics and affective areas, • Tutorials with the Sylvan Learning techniques, and teachers trained, • LoTi and online programs increasing comprehension including: Achieve3000, History Alive, Study Island, -Science, Math, and Reading Camps will meet on Saturday to scaffold learning.

-Dr. Armando Cuellar Middle School, an identified Tier III campus, has selected in agreement with all stakeholders to implement the transformation model. The campus has identified through the Campus Needs Assessment program goals for the next three years and merits sustainability by the district to include the following: • To develop and increase teacher and school leader effectiveness by providing SIRC Leadership training, mentorship and innovative internship collaboration, • To address the SIRC Mentor recommendations for the Principal and provide leadership coaching or training as needed, and to attend conferences, and partake in sites visits, • To identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and improve attendance rates, • To identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so. Use documentation such as: walkthroughs, and formal observations, reports that district provides to show student growth provided to support the removal if needed; • To provide staff ongoing, high-quality, job-embedded professional development as provided by various trainers such as the Sylvan Group, SIRC , Region I, Region XIII, Servant Leadership training, and Loti professional technology training. • To provide subject-specific pedagogy, instruction that reflects a deeper understanding of the diverse population in our community, and differentiated instruction provided for sub-groups within the school communities that is aligned with the school's comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and increase opportunity for effective communication between home and school and community partnerships; • To implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation school based on rigorous, transparent, and equitable evaluation systems for teachers and principals; • Attend Response To Intervention training to take into account data on student growth as a factor and such as multiple observation-based assessments of student performance and ongoing collections of professional practice reflective of student achievement and increased attendance rates; and are designed and developed and with teacher and principal involvement.

Texas Title I Priority Schools Grant
Schedule #4B—Program Description

Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

- ☒ Extending the period of availability of school improvement funds.
This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and *must* be checked.

- ☐ "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.
- ☐ Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.
This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a School wide program to do so in order to implement the Tier I reform model selected.

After the Principal, Administrators, and Teacher Leaders attended the Texas School Improvement School Improvement Resource Center trainings in 2009, it became evident that the process needed to develop the campus' performance goals, needed to be revamped. All staff needed to meet to discuss the campus scores and other school wide reports. In the meeting, further collaboration regarding the SBDM committee was needed. This committee comprised of Dr. Armando Cuellar Middle School teachers, Para professionals, parents, a community business member, and Administrators in the areas of Language Arts, Math, Science, Social Studies, and Technology. It was clear that that the campus goals needed to address the areas of greatest need. The data needed to include all AYP/AEIS indicators, especially those indicators not meeting standards. The committee would review all sub group scores to find a baseline and to research an attainable measurable goals. Discussion whether the goals are realistic and attainable also needs to be initiated by any of the Leaders. One thing that the committee also needs to project with the goals is to meet the 100% passing standard by 2014.

- D. The applicant will adopt and use proper methods of administering each such program, including the enforcement of any obligations imposed by law on agencies, institutions, organizations, and other recipients responsible for carrying out each program and the correction of deficiencies in program operations that are identified through audits, monitoring, or evaluation.
- E. The applicant will cooperate in carrying out any evaluation of each such program conducted by or for the Texas Education Agency, the Secretary of Education or other federal officials.

- H. The applicant will maintain such records, provide such information, and afford access to the records as the Agency (after consultation with the Governor) or the Secretary may find necessary to carry out the Agency's or the Secretary's duties.
- I. Before the application was submitted, the applicant afforded a reasonable opportunity for public comment on the application and has considered such comment.
- J. **Gun-Free Schools Act:** The local education agency assures that it is in compliance with Section 37.007(e) of the Texas Education Code, which requires expulsion of a student who brings to school or possesses at school a firearm as defined by 18 U.S.C. Section 2891 [pursuant to the requirements in P. L. 107-110, Section 4141(d)(1)]. In addition, the local educational agency certifies that it has a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm or weapon to school [P. L. 107-110, Section 4141(h)(1)].
- K. **Student Records Transfer:** The local educational agency shall ensure that a student's records and, if applicable, a student's individualized education program as defined in section 602(11) of the Individuals with Disabilities Education Act, are transferred to a charter school upon the transfer of the student to the charter school, and to another public school upon the transfer of the student from a charter school to another public school, in accordance with applicable state law (P. L. 107-110, section 5208).
