Who is eligible for the free Supplemental Educational Services (SES) tutoring?

Student Eligibility: All students from low-income families are eligible to request free SES tutoring if they attend a Title I, Part A campus that has not met Adequate Yearly Progress (AYP) standards for three or more consecutive years.

Definition of SES: Free tutoring under the Supplemental Educational Services (SES) program is a great opportunity for your student in school at no cost to you. This free tutoring helps your student improve his/her academic achievement (TAKS scores). The tutoring must be provided outside of the regular school day and be high-quality, research-based, and specifically designed to improve student academic achievement. SES is not homework help.

How to choose a SES Tutor:

1. Review the approved tutors on the list provided by the school district.
2. If you wish, attend any provider fairs or other information sessions offered by the school district.
3. If you wish, ask the school district for help in choosing a tutor.
4. Complete the form on the other side of this sheet and turn it in to the school your student attends as soon as possible and at the latest by the deadline.

The complete list of state-approved SES providers (tutors) is also available at <http://www.tcdss.net/ses/index.html>

Parent Notification: Parents must be notified of the availability of SES tutoring annually at the beginning of the school year and must be allowed a minimum of 60 calendar days to select a provider. Once a parent has submitted a request for a provider, services for the student must begin within 30 calendar days. Additional information on SES and approved SES providers is available on the School Improvement Resource Center (SIRC) web site at <http://www.tcdss.net/ses/index.html>.
