

## Section 2 - TREx Data Element Descriptions

### Introduction

TREx is a web-based application using an Extensible Markup Language (XML) schema, which is a defined structure based on standard tag-based formatting instructions. XML applications work with a schema to allow institutions to transfer data in a format (extract file) that will be understood between varying applications.

An XML schema is comprised of elements, also known as data elements. Elements can be blank, required, or optional as specified by the schema. Elements also can be repeated if declared in the schema. An example of this type of data element is a course grade. Other elements can be limited to a single instance by the schema. An example of this type of data element is the student name.

Data elements that are shown as coded, refer to enumerated values for data types within the schema, which is similar to using a code table. These are included in or defined as part of an XML Simple Type. To reuse common data elements (such as Address, City, StateProvince and PostalCode), simple types are grouped within a Complex Type. A data element is further defined by the related complex type within the schema.

This section describes each of the TREx data elements. A legend of the information found on each data element definition follows:

| Information          | Description                                                                                                                                                                                             |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Common Name          | Common name of the element, many of which follow PEIMS and AAR standards                                                                                                                                |
| XML Name             | XML name or tag for the data element as found in the XML schema                                                                                                                                         |
| Complex Type         | Name of the related XML complex type as found in the XML schema                                                                                                                                         |
| Definition           | Meaning of the data element                                                                                                                                                                             |
| Special Instructions | Additional information or edit criteria for the data element, when applicable                                                                                                                           |
| Element ID           | Unique ID assigned to the TREx data element and formatted as TE---.<br>(Reference to PEIMS data element number in the form "E----" is included if applicable.)                                          |
| Code Table ID        | Unique ID assigned to the TREx code table and formatted as TC--.<br>(Reference to a PEIMS code table that includes the same codes for this data element in the form "C----" is included if applicable.) |

| ADVANCED-MEASURE is a code corresponding to one of the six measures described in the 2009-2010 AAR Minimum Standards 1.13(k) and in table TC29. In order to be recognized as part of the Distinguished Achievements Program – Advanced High School Program, a student must achieve any combination of four advanced measures as defined in TAC §74.13. The measures must focus on demonstrated student performance at the college or professional level. |               |                 |                            |

This data element may be repeated for each assessment.</p> <p>If assessment name is provided, then AdditionalTestName must be blank within each assessment.</p> <p>Exit-level TAKS data appears on the student record, and will be transmitted electronically to colleges and universities through SPEEDE if provided.</p> <p>House Bill 5 changed the way English I and English II assessments will be administered beginning in the 2014 administration year. In the first two years of the STAAR EOC administration, there were separate assessments for the Reading and Writing components. These are now combined into one assessment. For the purpose of sending transcripts to Higher ed institutions, the assessment data pulled from Pearson Online will merge the Reading and Writing components into a single entry.</p> <p>The following pop-up message will be displayed on the Assessment Selection page within TREx to notify the sender this merge is occurring,<br/>“ The data for English I and II assessments provided by Pearson reflect combined results of the Reading and Writing assessments delivers during the 2012 and 2013 school years. These combined results are what must be provided to the target Higher Education institution. “</p> <p>Code    Assessment Name<br/>E0      English I Reading<br/>E1      English I Writing<br/>E2      English II Reading<br/>E3      English II Writing</p> |               |                |                                        |

| <p>Course completion is defined by the local district.</p> <p>This field can be blank only if the coursework is in progress; otherwise, all completed coursework should reflect the appropriate credit awarded. If a class is failed, the credit earned is shown as 0.0.</p> <p>TEA accepts only full or half credits; the last digit can be 5 or 0 only.</p> <p>Course credit data cannot be deleted from a transcript once credit has been awarded to a student.</p> |               |              |                  |

| FINAL-GRADE-AVERAGE reflects the average of the grades earned by the student for a year long course. If local policy allows schools to average two semesters for a full-year credit, then the final grade average column must be completed. This element, if present, will be sent to SPEEDE in lieu of COURSE-GRADE-AVERAGE. |               |                   |                  |

| <p>Foster Care status should be handled with the utmost sensitivity and in accordance with all FERPA guidelines. Foster Care status is included as a part of the TREx records transfer to aid supportive and smooth school transitions. Each school district and open-enrollment charter is required to appoint a foster care liaison to facilitate successful enrollment and transfers for students in foster care (TEC 33.904). Additionally, there are a number of statutory requirements specifically for students in Texas Department of Family and Protective Services (DFPS) conservatorship, 'foster care'. This information is provided to support districts in advancing the educational achievement of students. Ensuring that students benefit from these provisions, receive additional support, if needed, and experience a positive-supportive school environment is important.</p> <p>In some instances a student may return home or find a permanent placement during the school year and therefore <b><i>no-longer</i></b> be in 'foster care' although it is indicated on the student's TREx academic record at the time of transfer during that school year. Please handle all foster care information with extreme sensitivity. It is important that all students, regardless if the student is currently or was previously in the conservatorship of the DFPS, receive appropriate, sensitive and timely services to advance their educational progress.</p> |                       |            |                        |

| <p>PERSONAL-GRADUATION-PLAN indicates the student is working under a personal graduation plan.</p> <p>School districts are required to develop <u>and review</u> a personal graduation plan for a <u>middle school/junior high</u> student who did not perform satisfactorily on an assessment instrument administered under Subchapter B, Chapter 39; or who is not likely to receive a high school diploma before the fifth school year following the student's enrollment in grade 9 (as determined by the district). (TEC §28.0212)</p> <p>Beginning with the 2014-2015 school year, school districts must designate staff to review graduation plans with each student entering ninth grade and the student's parent/guardian. Before the conclusion of the school year, the student and parent/guardian must confirm and sign a personal graduation plan for the student. | SPECIAL-EXPLANATION-CODE is a description authorized by TEA as a means to document on the transcript (AAR) specific information regarding the course to which the code is associated. Examples include explanation codes for course credit earned in middle school or at a college-level.                                                                                                      |               |             |                  |
