

Certified Principal Demographics by Preparation Route 2010-2014

This table shows the number and percentage of candidates who received their first standard Principal certificate through each preparation route, broken down by gender and by race or ethnicity.

Definition. A standard certificate is a certificate offered since 1998-99 that is renewed every five years.

Results

- Overall, majorities of Principals were female and white.
- In academic year 2013-14, more than three-fourths of Principals were female, an increase over the four previous academic years.
- All in-state preparation routes declined over the years examined, but the out-of-state route increase in academic years 2012-13 and 2013-14.
- By academic year 2013-14, the alternative route produced fewer than half as many Principals as in academic years 2009-10 and 2010-11.

* Results for individual routes may not sum to the total for All Routes, because the total is a count rather than a sum. A sum of routes may contain duplication as educators can be prepared through more than one route.

Certified Principal Demographics by Preparation Route 2010-2014

Summary of methodology . Five tables were extracted containing identification numbers, preparation route codes, genders, and races or ethnicities of individuals obtaining their first standard Principal certificate for academic years 2008-09 through 2012-13. For each year and preparation route, a total of all Principals was obtained, together with counts by gender and race or ethnicity. Each count was then taken as a percentage of the corresponding total. The process was repeated to obtain overall results for all routes. Finally, the two sets of results were combined into one table.
