Introduction

The data tables and listings in this report provide secondary school completion and dropout data at the district level as a supplement to *Secondary School Completion and Dropouts in Texas Public Schools, 2000-01* (Texas Education Agency (TEA), 2002a). This supplement includes annual dropout rates and longitudinal rates for secondary school graduates, General Educational Development (GED) recipients, continuing students, and dropouts. District-by-district listings of 2000-01 annual dropout rates and completion/student status rates for the class of 2001 are presented. Also included is a table with selected rates for the 20 largest school districts. A schematic is provided illustrating the relationship, at the district level, of annual and longitudinal dropout counts. A district listing of year-to-year reporting of students is included. Tables are presented allowing comparisons of average annual dropout and longitudinal dropout rates for district groupings based on a variety of enrollment, staffing, and financial characteristics. For reference, a list of school districts in each Texas county was prepared. Supplemental listings at the county, district, and campus levels are available in *Secondary School Completion and Dropouts in Texas Public Schools, 2000-01: County Listings* (TEA, 2002b) and *Secondary School Completion and Dropouts in Texas Public Schools, 2000-01: District and Campus Listings* (TEA, 2002c).

Calculations

All data used in this report were collected and reported by Texas school districts and charter schools through the Public Education Information Management System (PEIMS) maintained by the Texas Education Agency (TEA). The rate calculations are the same as those used in the Academic Excellence Indicator System (AEIS).

In this report, the Grades 7-12 annual dropout rate is the percentage of students who dropped out of Grades 7-12 during the 2000-01 school year:

$$\text{annual dropout rate} = \frac{\text{number of dropouts during the school year}}{\text{total number of students served during the school year}} \times 100$$

The Grades 9-12 annual dropout rate is calculated in a similar manner.

Dropouts are defined and counted as per *2000-2001 Public Education Information Management System Data Standards* (TEA, 2000a), the *2001-2002 Public Education Information Management System Data Standards* (TEA, 2001a), the *2002 Accountability Manual* (TEA, 2002d), and *Secondary School Completion and Dropouts in Texas Public Schools, 2000-01* (TEA, 2002a). The total number of students in the denominator is the cumulative number of students in attendance in the district at any time during the school year. The 2000-01 annual dropout rate is a base indicator in the 2002 campus and district ratings.

In 1998-99, TEA introduced a new set of longitudinal rates. These rates show the high school outcomes for the members of a Grade 9 cohort of students. Students who transferred out are removed from the cohort. Students who transferred in on grade-level are added to the cohort. The final status of each student is determined the year graduation was expected, or four years after entering Grade 9. The final four outcomes included are: graduated, received a GED certificate, continued high school, or dropped out. As an example, the longitudinal rate for graduates is calculated by dividing the number of students who graduated by the number of students in the cohort:

$$\text{longitudinal rate, graduated} = \frac{\text{number of students graduating by year 4}}{(\text{number of students entering Grade 9}) - (\text{transfers out}) + (\text{transfers in})} \times 100$$

Longitudinal rates for GED recipients, students who continued high school, and dropouts are calculated in a similar manner. The sum of the four rates is equal to 100 percent. The class of 2001 longitudinal rates are report-only indicators in the 2002 accountability system.

Notes on Tables 1 through 4

Cohort

TEA longitudinal secondary school student status rates are based on a Grade 7 or Grade 9 cohort. A 1997-98 Grade 9 cohort, for example, consists of all students who attended Grade 9 in a Texas public school for the first time during the 1997-98 school year. The cohort is named based on the expected year of graduation. In our example, this is the class of 2001. Each member of the cohort is tracked through the fall of 2001, and a final status is assigned. Students who transfer out are removed from the cohort. Students who transfer in on grade-level—for example, into Grade 10 in 1998-99—are added to the cohort. The final status assigned may be: graduate, General Educational Development (GED) recipient, continuing, or dropout. Students with any other final statuses, or without final statuses, are removed from the cohort.

Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

Dropout

Dropouts are defined and counted as per *2000-2001 Public Education Information Management System Data Standards* (TEA, 2000), the *2001-2002 Public Education Information Management System Data Standards* (TEA, 2001), the *2002 Accountability Manual* (TEA, 2002d), and *Secondary School Completion and Dropouts in Texas Public Schools, 2001-02* (TEA, 2002a). A student who dropped out but later returned or received a diploma or GED certificate is counted based on his or her final status, not as a dropout.

Economically Disadvantaged

The number of students eligible for free or reduced-price lunch or eligible for other public assistance as defined in the *2001-2002 Public Education Information Management System Data Standards* (TEA, 2001) is used as a proxy for the number of economically disadvantaged students. Eligibility for free or reduced price lunch or other public assistance is reported for each student at the time of enrollment.

Ethnicity/race

Ethnicity/race is one of the demographic characteristics reported for each student at the time of enrollment.

GED recipient

A GED recipient is a student awarded a GED certificate.

Graduate

A graduate is a student awarded a high school diploma by a Texas public school.

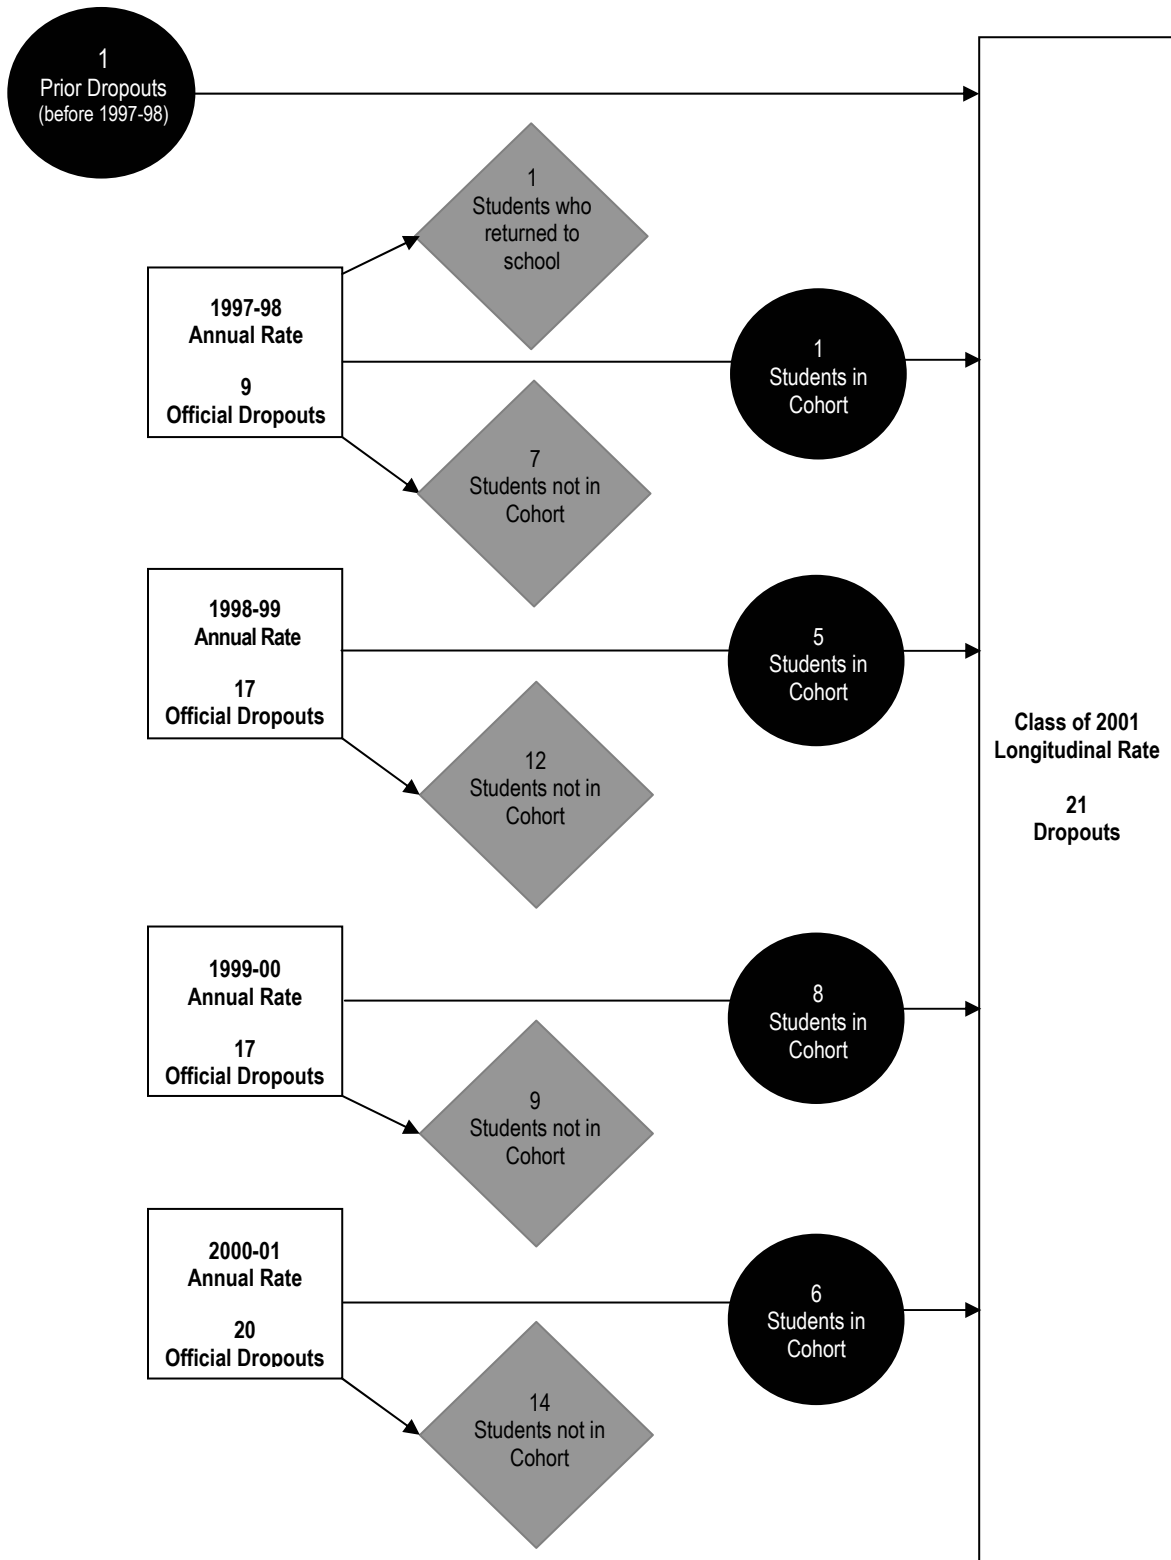

Total Students

Total students reported is a cumulative total of students served at the campus, or in the district, county, or state, during the school year.

Figure 1
Comparing Annual and Longitudinal Dropout Counts
at the District Level

Figure 1
Comparing Annual and Longitudinal Dropout Counts at the District Level

This chart demonstrates how annual counts of official dropouts are related to the number of dropouts in the longitudinal rate at the district level. The numbers provided in this chart are for illustration only. See facing page for a detailed explanation of each element in the chart.

Note. A dash (-) indicates data are not reported to protect student anonymity.

Notes on Table 5

Note. A district is listed if any students in Grades 7-12 were enrolled in 2000-01. Methods of counting **Overreported**, **Underreported**, and, therefore, **Reporting Total**, differed slightly in 1998-99 from 1997-98. This difference is due to slightly different matching criteria used between the two years. Data are masked to protect student anonymity when the **Reporting Total** is less than five student records.

Dropout Records Reconciled

Students reported by districts as dropouts but whose records were excluded from the dropout counts. Students were excluded from the dropout count if, for example, they were found in enrollment or attendance elsewhere in the Texas public school system or earned GEDs.

Leaver Records Reconciled

Students reported by districts as having left school, but whose records were excluded from the leaver count. Students were excluded from the **Official Leavers** count if, for example, they were found re-enrolled or in attendance elsewhere in the Texas public school system or had earned GEDs.

Official Dropouts

Students counted as dropouts for accountability ratings.

Official Leavers

Students reported by districts as having left school without graduating or dropping out.

Overreported

Students reported as graduates, dropouts, or other leavers in the fall data submission of the next year, although the students had not been reported as enrolled or in attendance in the district during the year.

Reported Graduates

Students reported as graduates on the leaver record in the fall data submission of the next year.

Reporting Total

Total number of records for students in Grades 7-12 who (a) were reported in enrollment or attendance, or (b) were not reported in enrollment or attendance, but

were reported as graduates, dropouts, or other leavers in the fall data submission of the next year.

Returning Students

Students reported in enrollment or attendance in the current school year who were reported to have re-enrolled in the same district by January of the next school year.

Underreported

Students reported in enrollment or attendance for whom neither re-enrollment nor leaver information was reported in the fall data submission of the next year. The **Percent Underreported** is calculated by dividing the **Number of Underreported** students by the **Reporting Total** and multiplying by 100:

$$\text{Percent Underreported} = \frac{\text{Underreported}}{\text{Reporting Total}} \times 100$$

Rates by District Characteristic

Table 6
Annual Dropout Rates, Grades 7-12,
by District Characteristic, 2000-01

Notes on Tables 6 and 7

ADA-eligible

Students eligible for Foundation School Program (FSP) funds (TEA, 2001b). All public schools in Texas are required to maintain records to reflect the average daily attendance (ADA) for the allocation of FSP funds and other funds allocated by the Texas Education Agency (TEA) (19 Texas Administrative Code §129.21(a)).

Average Teacher Experience

In this category, districts are grouped into four subcategories with approximately equal numbers of districts in each. Weighted averages are obtained by multiplying each teacher's FTE count by years of experience. These amounts, when summed for all teachers within a district and divided by the total teacher FTE count within that respective district, result in the average years of teacher experience.

Average Teacher Salary

In this category, districts are grouped into four subcategories with approximately equal numbers of districts in each. Average teacher salary is calculated as the total salary of teachers divided by the total FTE count of teachers. The total salary amount is for regular duties only and does not include pay for any supplemental duties.

CEI Level, see Cost of Education Index.

Cohort

TEA longitudinal secondary school student status rates are based on a Grade 7 or Grade 9 cohort. A 1997-98 Grade 9 cohort, for example, consists of all students who attended Grade 9 in a Texas public school for the first time during the 1997-98 school year. The cohort is named based on the expected year of graduation. In our example, this is the class of 2001. Each member of the cohort is tracked through the fall of 2001, and a final status is assigned. Students who transfer out are removed from the cohort. Students who transfer in on grade-level—for example, into Grade 10 in 1998-99—are added to the cohort. The final status assigned may be: graduate, General Educational Development (GED) recipient, continuing, or dropout. Students with any other final

statuses, or without final statuses, are removed from the cohort.

Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

Cost of Education Index

The Cost of Education Index (CEI) reflects geographic variations in costs beyond the control of school districts. The index currently in use was first implemented in 1991-92. The CEI has a minimum value of 1.0 and a maximum of 1.20. This category divides districts into five groups with approximately equal numbers of districts in each.

Density, see Student Density.

District Type

Districts are classified on a scale ranging from major urban to rural. The charter school districts are in a separate subcategory. Factors such as size, growth rates, student economic status, and proximity to urban areas are used to determine the appropriate group. The groups are:

Major Urban. The largest school districts in the state that serve the six metropolitan areas of Houston, Dallas, San Antonio, Fort Worth, Austin, and El Paso. A district is designated major urban if it is the largest district in counties with populations of 650,000 or over, and there is greater than 35% low-income students in the school district. Or, if not the largest district in the county, the number of students in membership is 75% of the largest district and there are more than 35% low-income students in the district.

Major Suburban. Other school districts in and around the major urban areas. A district is major suburban if it is contiguous to a major urban district and the number of students in membership is at least 3% of the major urban district or an enrollment of at least 4,500. If a district is not contiguous to a major urban area, then it must be within the same county and have an enrollment of 15% of the major urban district or an enrollment of at least 4,500 in order to be classified as major suburban.

Other Central City. The major school districts in other large Texas cities. If the district is not contiguous to one of the major urban districts but the county population is between 100,000 and 650,000 and it is the largest district in the county or its population is

75% of the largest district then the district is designated as other central city.

Other Central City Suburban. Other school districts in and around the other large, but not major, Texas cities. If the district is in a county between 100,000 and 650,000 population and the number of students in membership is at least 15% of the largest district in the county then it is designated central city suburban. If a district is contiguous to a central city district, its population is greater than 3% of that district's, and the number of students in membership is greater than the corresponding median figure for the state, it is also central city suburban.

Independent Town. If the district is the largest in a county having a population of 25,000 to 100,000, or the number of students in membership is greater than 75% of the largest district, the district is considered an independent town.

Non-Metro: Fast Growing. The school districts that fail to be in any of the above subcategories and that exhibit a five-year growth rate of at least 20 percent. These districts must have at least 300 students in membership.

Non-Metro: Stable. The school districts that fail to be in any of the above subcategories, yet the number of students in membership exceed the state median of 726.

Rural. The school districts that fail all of the above tests for placement into a subcategory. These districts either have a growth rate less than 20 percent and the number of students in membership is between 300 and the state median of 726, or the number of students in membership is less than 300.

Charter Schools. The 159 open-enrollment schools granted a charter by the State Board of Education for operation during 2000-2001. Open-enrollment charter schools operate in a facility of a commercial or nonprofit entity or a school district.

Dropout

Dropouts are defined and counted as per *2000-2001 Public Education Information Management System Data Standards* (TEA, 2000), the *2001-2002 Public Education Information Management System Data Standards* (TEA, 2001), the *2002 Accountability Manual* (TEA, 2002d), and *Secondary School Completion and Dropouts in Texas Public Schools, 2000-01* (TEA, 2002a). A student who dropped out but later returned or received a diploma or GED

certificate is counted based on his or her final status, not as a dropout.

ESC Regions, see Education Service Center Regions.

Economically Disadvantaged

The number of students eligible for free or reduced-price lunch or eligible for other public assistance as defined in the *2001-2002 Public Education Information Management System Data Standards* (TEA, 2001) is used as a proxy for the number of economically disadvantaged students. Eligibility for free or reduced price lunch or other public assistance is reported for each student at the time of enrollment. (See also Percent Economically Disadvantaged Students.)

Education Service Center Regions

The state is divided into 20 geographic regions, each served by an Education Service Center (ESC). The ESC region reflected in this category is the region from which the district receives services, not the geographically assigned ESC region. For the vast majority of districts, these are the same.

Enrollment

Districts are grouped by size into nine subcategories based on their number of students in membership. This is the total number of students in membership in the district on a day in late October of each year. It does not include students who are served by the district but are not in membership in the serving district.

Enrollment Groupings, see Enrollment.

Ethnicity/race

Ethnicity/race is one of the demographic characteristics reported for each student at the time of enrollment.

GED recipient

A GED recipient is a student awarded a GED certificate.

Graduate

A graduate is a student awarded a high school diploma by a Texas public school.

Highest Property Value Category

Currently, the Comptroller's Property Tax Division (CPTD) classifies property into multiple subcategories based on how the property is used.

These subcategories are aggregated into four classifications as follows:

Residential. Single-family and multi-family residential, and residential inventory

Land. Vacant lots, and rural real (taxable)

Oil and Gas. Oil, gas, and minerals

Business. Commercial and industrial real, commercial and industrial personal, and utilities

The one subcategory of these four which has the greatest total property value for a district determines in which category the district is placed. The six special statutory and 159 charter school districts form a separate group because they have no taxable property wealth.

Loc. Adopt Tax Rate, see Locally Adopted Tax Rate.

Local M&O Tax Rate, see Local Maintenance and Operations Tax Rate.

Local Maintenance and Operations Tax Rate
Districts are grouped into four tax effort subcategories, or quartiles, with approximately equal numbers of districts in each. This category shows the maintenance and operation (M&O) adopted tax rate, as reported by the CPTD office. The M&O levy includes money generated by districts for equalizing wealth. The six special statutory and 159 charter school districts form a separate group in both categories because they do not levy property taxes.

Locally Adopted Tax Rate
Districts are grouped into four tax effort subcategories, or quartiles, with approximately equal numbers of districts in each. This category shows the total adopted tax rate, as reported by the CPTD office. The six special statutory and 159 charter school districts are in a separate subcategory because they do not levy property taxes.

Operating Cost Per Student
Operating costs are the sum of all expenditures budgeted for the operation of the district, for all funds which are reported. The operating expenditures are a subset of the total expenditures; they do not include debt service, capital outlay, or ancillary services expenditures. Per student amounts are the current school year expenditures divided by the current number of students. Districts are grouped into five

subcategories with approximately equal numbers of districts in each. The source for budgeted expenditures is the fall submission of the Public Education Information Management System (PEIMS).

Percent African American, Hispanic, and Minority Students

In these categories, districts are grouped according to the ethnic composition of their student populations, as reported on PEIMS. Minority percent is calculated as the sum of all non-white populations expressed as a percent of the total. The non-white populations include Native American or Alaska Native; Asian or Pacific Islander; African American, not of Hispanic origin; and Hispanic. Each of the three categories has six subgroups with the particular population ranging from “under 5%” to “50 percent and over.”

Percent Economically Disadvantaged (Low Income) Students

Percent low income is the number of students reported as economically disadvantaged on PEIMS, expressed as a percent of the total number of students. Districts report students as economically disadvantaged if they meet any of the following conditions:

- a. eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
- b. from a family with an annual income at or below the federal poverty line;
- c. eligible for AFDC or other public assistance;
- d. recipients of a Pell Grant or comparable state program of need-based financial assistance;
- e. eligible for programs assisted under Title II of the Job Training Partnership Act.

Districts are grouped into six subgroups ranging from “under 20%” to “80% and over.”

Percent Minority Teachers

In this category, districts are grouped according to the minority composition of their teacher populations, as reported on PEIMS. Minority percent is calculated as the sum of all non-white teacher FTEs expressed as a percent of total teacher FTEs. The category has six groupings with the minority population ranging from “under 5%” to “50% and over.”

Percent of Teachers with Advanced Degrees

In this category, districts are grouped into four subcategories with approximately equal numbers of

districts in each. The percent of teachers with an advanced degree is calculated as the FTE count of teachers with a master's degree or doctorate divided by the FTE count for all teachers.

Property Wealth

Wealth is defined as total taxable property value divided by the total number of students and is used as an indicator of a district's ability to raise local funds on a per pupil basis. The property value used is total taxable value for the last completed calendar year, i.e. 2001, as determined by the Comptroller's Property Tax Division (CPTD). This taxable value includes a reduction for 50% of a locally adopted optimal homestead exemption, and will affect state aid in the 2001-02 school year. The total number of students is for the current school year, i.e. 2001-2002. The first wealth grouping classifies districts into ten subcategories with approximately equal numbers of districts in each, called deciles. The second grouping simply shows districts above and below state average wealth. The third wealth grouping classifies districts into 20 subcategories with approximately equal numbers of students in each. The six special statutory and 159 charter school districts form a separate group in all three categories because they have no taxable property wealth.

Pupil Change: 99/00 – 00/01

This category looks at the growth or decline in student population over a one-year period. Districts where the total number of students declined represent one grouping, while the remaining groups show one year growth rate ranging from "0%-3%" to "10% and over."

SAT I/ACT: Percent Scoring At or Above Criterion

Districts are grouped into five subcategories based on the number of examinees who scored at or above the criterion score for either the ACT or SAT I in the previous year. The number of examinees meeting the criterion is divided by the number of examinees. A sixth subcategory is for those districts that have no test takers. The criterion score is 1110 for the SAT I Total and 24 for the ACT Composite.

SAT I/ACT: Percent Taking

Districts are grouped into three subcategories based on the number of prior year graduates who were administered either the SAT I or ACT, or both. The number of test-takers taking one or both tests is divided by the number of non-special education graduates. A fourth subcategory is for those districts that have no graduates.

Small/Sparse Adjustment

Districts are grouped into four small/sparse subcategories, or quartiles, with approximately equal numbers of districts in each. The category shows the amount of small/sparse adjustment as a percent of the total adjusted basic allotment amount. A fifth subcategory contains all districts receiving no small/sparse adjustment. This small/sparse percentage is a measure of the extent to which state funding is adjusted to compensate for small and/or sparsely populated districts.

Student Density

Many years ago, the square miles in a school district were determined through a joint effort by the State Property Tax Board, now the CPTD, the Texas Education Agency, and the Texas Water Commission. School district maps provided by school districts to the CPTD were digitized by the Water Commission and acreage was determined. Density is the number of students per square mile. Density groups range from "fewer than five students per square mile" to "100 or more students per square mile." The six special statutory and 159 charter school districts form a separate group because mileage information is not available for them.

TAAS: Percent Passing All Tests Taken

For grades 3-8 and 10, the total number of students who passed all sections taken is expressed as a percentage of the total number of students taking one or more tests. Districts are grouped into five subcategories with the percent passing ranging from "under 73.7%" to "90.4% and over." These percentages exclude performance on Science and Social Studies in grade 8. Furthermore, these percentages include only those students enrolled in the district in October of the school year. These are the results used for accountability purposes. A sixth subcategory refers to districts not administering the test.

Total Students

Total students reported is a cumulative total of students served at the campus, or in the district, county, or state, during the school year.

Wealth, see Property Wealth.

Wealth By Equal Pupils Per Group, see Property Wealth.

Compliance Statement

Title VI, Civil Rights Act of 1964, the Modified Court Order, Civil Action 5281, Federal District Court, Eastern District of Texas, Tyler Division.

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

1. acceptance policies on student transfers from other school districts;
2. operation of school bus routes or runs on a nonsegregated basis;
3. nondiscrimination in extracurricular activities and the use of school facilities;
4. nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;
5. enrollment and assignment of students without discrimination on the basis of race, color, or national origin;
6. nondiscriminatory practices relating to the use of a student's first language; and
7. evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

Title VII, Civil Rights Act of 1964 as Amended by the Equal Employment Opportunity Act of 1972; Executive Orders 11246 and 11375; Equal Pay Act of 1964; Title IX, Education Amendments; Rehabilitation Act of 1973 as Amended; 1974 Amendments to the Wage-Hour Law Expanding the Age Discrimination in Employment Act of 1967; Vietnam Era Veterans Readjustment Assistance Act of 1972 as Amended; Immigration Reform and Control Act of 1986; Americans With Disabilities Act of 1990; and the Civil Rights Act of 1991.

The Texas Education Agency shall comply fully with the nondiscrimination provisions of all federal and state laws, rules, and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any educational programs or activities which it operates on the grounds of race, religion, color, national origin, sex, disability, age, or veteran status (except where age, sex, or disability constitutes a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency is an Equal Opportunity/Affirmative Action employer.
