Organization Information

Organization Name: HeyTutor, Inc.

Organization Description: HeyTutor is the leading platform providing in-person and online tutoring for dozens of K-12 Texas districts (i.e., Austin ISD, ECISD, and many more). Founded in 2013, we've assisted 250K+ students and delivered over 1 million lessons on 200 subjects in 20+ languages for MTSS Tier 1, 2, and 3 support. We currently employ 100K+ trained tutors and provide our own custom TEKS aligned curriculum with in-depth reporting to track student attendance, engagement, and district-wide performance. While everyone says they're the best, or the cheapest—HeyTutor is the custom solution. With us, you pay for services after they're rendered, allowing you to adjust your program as needed based on critical insights. We'd love to meet and even connect you with partnered district administrators to provide the greatest impact for your students.

Tutor Types

Please list the types of tutors your organization has available (e.g., college students, retired teachers, etc.).
