Reading Assistance for STAAR Grade 3 Math

Students who require reading assistance for the STAAR grade 3 online math administration must have Text-to-Speech (TTS) enabled to receive this support.

- Test administrators should **NOT** provide this support by reading test content from the screen.
- Prior to the administration, campuses should identify students who regularly request this support during classroom instruction so TTS can be enabled in advance of testing.
- During the school year, the student should practice receiving reading assistance via TTS so they can become familiar with using headphones, locating the tool, adjusting to a comfortable volume, selecting their preferred voice/rate/pitch, etc., prior to testing.
- If a student requests this support during testing, the test will need to be paused, TTS enabled, and then the student may resume testing. TTS can stay enabled for the remainder of the test.

Question: How can the TA support students who have TTS enabled the day of or during the test?

Answer: The TA may use the chart provided in the appendix A of the STAAR test administrator manual. If a student is having trouble locating the tool, the TA may point to the proper icon in the ICON column below. If a student asks how a tool or button functions, the test administrator may read aloud the information in the TEXT column. The information in this column may be read verbatim, paraphrased, or clarified as needed. **No additional prompting, demonstration, or explanation may be provided.**

Note: For students participating in a STAAR paper administration, the test administrator trained in oral administration will provide this support.

Reading Assistance for Constructed Response Questions

Students participating in a STAAR online administration who need test questions, including short and extended constructed response questions, to be read aloud must have Text-to-Speech (TTS) turned on to receive this support.

- ✔ Students **must** meet eligibility requirements for oral administration prior to the administration of the test.
- ✘ Test administrators should **not** be providing this support by reading the secure test content from the screen.

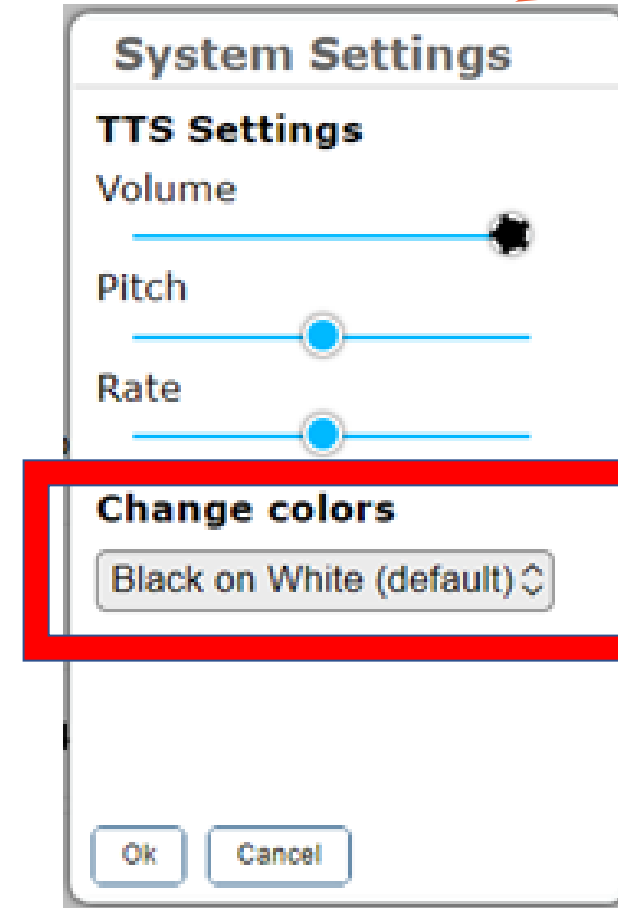

Note: For students participating in a STAAR paper administration, the test administrator trained in oral administration will provide this support.

STAAR ALTERNATE 2 PARTICIPATION REQUIREMENTS

Student Name: _____ Grade: _____ Date: _____
Name of District Personnel Completing Form: _____ Position: _____

Background and Instructions

Prior to reviewing the participation requirements for the State of Texas Assessments of Academic Readiness (STAAR) Alternate 2, the admission, review, and dismissal (ARD) committee must understand of assessment options, including the characteristics of each assessment and the potential implications of each assessment choice. STAAR Alternate 2 is a classroom assessment that may only be considered for students with the most significant cognitive disabilities. A student with the most significant cognitive disability is a student who exhibits significant intellectual and adaptive behavior deficits in their ability to plan, comprehend, and reason, and also who indicates adaptive behavior deficits that result in their inability to easily social and practical skills (e.g., personal care, social problem-solving skills, dressing, eating, using money) across all the domains. The student requires extensive, direct, individualized instruction and needs substantial supports that are neither temporary nor specific to a particular content area.

If STAAR Alternate 2 is being considered, the ARD committee must review these participation requirements against the supporting documentation within the individualized education program (IEP), such as in the present levels of academic achievement and functional performance (PLAFP), to determine eligibility. If it is determined that the student meets the participation requirements for STAAR Alternate 2, this form and supporting IEP documentation may serve as the required IEP statement under 39 Texas Administrative Code (TEAC) 89.00333 and must be available for review during regular and targeted monitoring.

STEP I: DETERMINE IF STAAR ALTERNATE 2 PARTICIPATION REQUIREMENTS SHOULD BE REVIEWED

1. The student meets eligibility for special education and related services due to a specific learning disability (SLD).
 Yes
 No

STOP If "No" is marked, stop here. The student does not meet the eligibility criteria as a student with a significant cognitive disability per 34 Code of Federal Regulations (CFR) 300.303(b)(2). An IEP team may include learning problems that are primarily the result of visual, hearing, or motor disabilities; of intellectual disability; of emotional disturbance; or of environmental, cultural, or economic disadvantage.

2. The student meets eligibility for special education and related services due to a speech impairment (SI), which is the ONLY disability designation.
 Yes
 No

STOP If "No" is marked, stop here. The student does not meet the eligibility criteria as a student with a significant cognitive disability per 34 CFR 300.303(b)(2). An IEP team may include communication disorders such as stuttering, impaired articulation, a language impairment, or a voice impairment that adversely affects a child's educational performance.

STEP II: DETERMINE IF THE STUDENT HAS THE MOST

Review the criteria in each row below regarding the student's skills and check the box that is most applicable to the student. Reviewing of available data the committee is engaging to do so meet the criteria in Section I.

The student's IEP documents that address:

COGNITIVE & COMMUNICATIVE

Academic goals aligned to enrolled grade-level Texas Essential Knowledge and Skills (TEKS) with accommodations or modifications in some or all content areas.

Readiness to participate in traditional methods of assessment (e.g., multiple-choice, short answer, essay) with or without individualized support (e.g., modifications, accommodations, assistive technology).

Companion Document
STAAR Alternate 2 Participation Requirements

This document should be used in conjunction with the State of Texas Assessments of Academic Readiness (STAAR) Alternate 2 Participation Requirements. Admission, review, and dismissal (ARD) committees are responsible for determining state assessment eligibility by reviewing the student's unique educational and adaptive needs. Sources of evidence for a student's eligibility for STAAR Alternate 2 are on page 2 of this document.

A student that meets eligibility for special education and related services due to a specific learning disability (SLD) or a speech impairment (SI) as the ONLY disability designation is NOT eligible for STAAR Alternate 2 and must take STAAR.

The student is NOT eligible for STAAR Alternate 2 and must be assessed with STAAR. Members of the ARD committee should be trained on STAAR accommodations to make informed assessment decisions.

Does the student have academic goals aligned to prerequisite skills significantly below enrolled grade-level Texas Essential Knowledge and Skills (TEKS) in ALL content areas? YES NO

Does the student routinely participate in alternate or non-traditional methods of assessments?
This may include but is not limited to isolating information, tactile support, formulating a response using a choice board, pointing to, reaching for, and touching on an answer choice one at a time. YES NO

Does the student have significant needs that impact access and progress in ALL academic areas, which affect the student's ability to function independently? YES NO

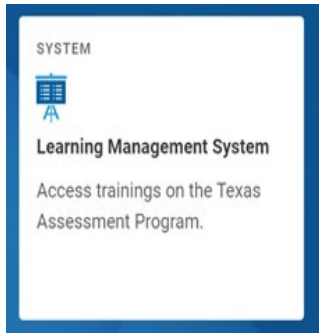

Does the student have functional goals implemented across ALL settings to support access to the grade-level TEKS with the need for ongoing adult assistance for student progress?
Functional goals include personal care and hygiene and social skills. Ongoing adult assistance includes prompting, cueing, and physical assist. YES NO

Does the student need ongoing, individualized, specialized supports to function safely in daily life and to participate in academic instruction across ALL settings?
These supports may include but are not limited to voice output devices, tactile support, symbol or picture text support, repeated prompting and cueing, and isolating information to present one at a time. YES NO

TELPAS ALTERNATE PARTICIPATION REQUIREMENTS

Student Name: _____ Grade: _____ Date: _____
Name of District Personnel Completing Form: _____ Position: _____

Background and Introduction
Prior to reviewing the participation requirements for the Texas English Language Proficiency Assessment System (TELPAS) Alternate, the admission, review, and dismissal (ARD) committee, in conjunction with the language proficiency assessment committee (LPAC), must understand an assessment system, including the characteristics of each assessment. TELPAS Alternate is a criterion-referenced assessment that may only be considered for emergent bilingual (EB) students with the most significant cognitive disabilities. A student with the most significant cognitive disability is a student who exhibits significant intellectual and adaptive behavior deficits in their ability to plan, comprehend, and reason, and who also exhibits adaptive behavior deficits that limit his or her ability to apply social and practical skills (e.g., personal care, social problem-solving skills, dressing, eating, using money) across all life domains. The student requires extensive, direct, individualized instruction and needs substantial supports that are neither temporary nor specific to a particular content area. An EB student is a student who has been identified in the Public Education Information Management System (PEIMS) as an EB student (English learner (EL)), and the score includes EB students whose parents have declined bilingual or English as a second language (ESL) program services (PEIMS code C).

If TELPAS Alternate 2 is being considered, the ARD committee, in conjunction with the LPAC, must review these participation requirements against the supporting documentation within the individualized education program (IEP), such as the present levels of academic achievement and functional performance (PLAAP), to determine eligibility. If it is determined that the student meets the participation requirements for TELPAS Alternate, this form and supporting IEP documentation may serve as the required IEP requirement under 22 Texas Administrative Code (22 TAC) §89.2022(a) and must be available for review during initial and targeted monitoring.

TELPAS Alternate is only available for students enrolled in grades 2-12.

STEP I: DETERMINE IF THE STUDENT MEETS THE PARTICIPATION REQUIREMENTS

1. Is the student identified in PEIMS as EB/EL?
 Yes
 No

If No is marked, stop here. The student does not meet the participation requirements for TELPAS Alternate.

Specific Instructions based on student's reported grade level

Grade 2
For EB students in grade 2, review questions 2-3 and mark Yes or No.
If Yes is marked, provide a justification containing evidence that the student meets the criterion.
If No is marked for any question below, stop. The student does not meet the participation requirements for TELPAS Alternate and must take TELPAS.

Grades 3-12
For EB students in grades 3-12, if the ARD committee has followed the state guidelines and determined that the student will participate in the State of Texas Assessments of Academic Readiness (STAAR) Alternate 2, the EB student must take TELPAS Alternate. The TELPAS Alternate 2 participation requirements apply to the remaining participation requirements for these students; therefore, questions 2-3 do not need to be answered.

2. Does the student have the most significant cognitive disability?
 Yes
 No

A determination of the most significant cognitive disability is made by the ARD committee and must be based on the student's most recent full and individual evaluation (IEE). Results from the IEE must indicate a deficit in the student's ability to plan, comprehend, and reason. IEE results must also indicate adaptive behavior deficits that limit a student's ability to apply social and practical skills, such as personal care, social problem-solving skills, dressing, eating, using money, and other functional skills across all life domains.

- The TELPAS Alternate Participation Requirements (for grades 2–12) have been updated and are available on TEA’s [TELPAS Alternate Resources](#) webpage.
- Participation requirements are intended to guide the ARD committee, in conjunction with the LPAC, when determining the appropriate English language proficiency assessment to administer to EB students.
- Documentation of eligibility is different for students in grade 2 compared to students in grades 3–12.
- For student in grades 3–12, the LPAC will answer question 1: “Is the student identified in PEIMS as EB/EL?”, initial the assurances in Step II, and answer “Yes” in question 6.

TELPAS Alternate Participation Requirements: Question 6 for Grades 3-12: **Reminder**

STEP II: PROVIDE ASSURANCES AND CONFIRM TELPAS ALTERNATE PARTICIPATION

All assurances must be reviewed and marked for the student to participate in TELPAS Alternate.

- The ARD committee, in conjunction with the LPAC, confirms that the decision to administer TELPAS Alternate was NOT based on a student's disability category, educational environment, instructional setting, demographic information (i.e., sex, ethnicity, race, at-risk, homelessness, immigrant, migrant, economically disadvantaged), need for accommodations, below-grade-level reading skills, excessive or extended absences, anticipated disruptive behavior or emotional distress, or expected poor performance on the general assessment and its impact on accountability calculations.
- Under 34 CFR §300.320(a)(6) and 19 Texas Administrative Code (TAC) §89.1055, if the ARD committee, in conjunction with the LPAC, determines that the EB student will take TELPAS Alternate, the student's IEP must provide a statement of why the student cannot participate in the general assessment, TELPAS, with or without accommodations, and why the alternate assessment is appropriate for the student.
- Under 34 CFR §300.320(a)(6) and 19 TAC §89.1055, if the ARD committee, in conjunction with the LPAC, determines that the EB student is eligible to take TELPAS Alternate with individually appropriate and allowable accommodations, the student's IEP must provide a statement of why the accommodations are necessary to measure the language proficiency of the student on the alternate assessment.

Document rationale below per 34 CFR §300.320(a)(6) and 19 TAC §89.1055.

For grades 3-12, if the student has met the updated STAAR Alternate 2 participation requirements, all the assurances should be marked, and the response should be "Yes" to Question #6.

6. Are the answers to questions 2–5 "Yes," and have all assurances been marked?

- Yes, the student meets the participation requirements for TELPAS Alternate and must be rated in all four domains.
- No, the student does not meet the participation requirements for TELPAS Alternate and must take TELPAS.

Texas Educator Assessment Committees

Classroom teachers, instructional coaches, campus and district content specialists, and campus administrators can serve in a variety of ways:

- **Educator passage review** – each potential passage for the RLA test is reviewed and approved by a committee of Texas educators
- **Educator item review** – each potential question for a state test is reviewed and approved by a committee of Texas educators
- **Constructed response range-finding** – educators are convened to set the scoring boundaries for student essays based on the rubric
- **Subject-area advisory groups** – groups of educators are convened to provide feedback on subject-area-specific topics
