Subject: New Research Portal for the Texas Assessment Program

To the Regional and District Testing Coordinators Addressed:

The purpose of this communication is to notify local educational agencies that the new Research Portal for the Texas Assessment Program is now available on the [Testing Personnel](#) page of the Texas Assessment website. The new portal can be accessed directly at <https://txresearchportal.com>.

As previously announced, Cambium's new research portal replaces the eMetric analytic portal. The Research Portal provides aggregate assessment data for all Texas students who participated in statewide test administrations and includes a glossary, user guide, and overview video to help users navigate the system. Users can analyze and compare assessment results across multiple administrations and across regions, districts, and campuses. The Research Portal also allows users to generate various reports for each operational assessment program and to analyze the results by different student groups. Generated reports can be downloaded and printed in PDF or .csv format.

If you have general questions about the information in this communication or about the Texas Assessment Program, contact TEA using the Student Assessment [Help Desk](#). If you have specific questions about the Research Portal, contact Texas Testing Support at (833) 601-8821, TexasTestingSupport@cambiumassessment.com, or [TexasAssessment.gov](#) via [live chat](#).
