ADMINISTRATION, MET STANDARD, AND COMMENDED PERFORMANCE SUMMARY DATA FILE

Information presented in this file is the data from the Administration, Met Standard, and Commended Performance Summary areas of the Summary Report–Test Performance. Each record on the file is for a given grade, summary type, record type, and category type. Aggregated information contained in the Confidential Summary Data File is from TAKS and TAKS (Accommodated) assessments only. TAKS-Modified results are excluded.

1-6	6	DISTRICT NUMBER (Note: For Regions only, district number = 999999)
7-9	3	CAMPUS NUMBER (Note: 999 = district record or region record)
10-24	15	DISTRICT NAME (Note: For regions only, district name = STATEWIDE)
25-39	15	CAMPUS-NAME (Note: For regions only, campus name = REGION XX, where XX = 01-20)
40-41	2	GRADE
42-42	1	SUMMARY TYPE E = English
43-43	1	RECORD TYPE 1 = Campus 2 = District 3 = Region
44-45	2	CATEGORY TYPE 01 = All students 02 = All students not in special education 03 = Special education 04 = Not currently used 05 = Not currently used 06 = LEP students 07 = Non-LEP students

SUBJECT SUMMARY DATA BY DEMOGRAPHIC GROUP FILE

Information presented in this file is the data from the Summary Report–Group Performance, Demographic Performance, and Written Performance Summaries. Each record on the file is for a given grade, summary type, record type, category type, and demographic group. Please consult the [TAKS Data File Format](#) to determine the subjects that are appropriate for each grade, the number of objectives for each grade/subject, and the number of items per grade/subject/objective. Aggregated information contained in the Confidential Summary Data File is from TAKS and TAKS (Accommodated) assessments only. TAKS-Modified results are excluded.

Please note that numeric fields with decimals are noted as W.D, where W is the whole number portion (digits to the left of the decimal) and D is the decimal portion of the number (digits to the right of the decimal). All decimals are implied (“.” does not actually exist in the file). For example, a format of 2.1 would be a three-position field where the first two positions are to the left of the decimal and the last position would be to the right of the decimal. The number 11.2 would be in the file as 112. (The decimal is implicit so is not present in the file.)

1-6	6	DISTRICT NUMBER (Note: For regions only, district number = 999999)
7-9	3	CAMPUS NUMBER (Note: 999 = district record or region record)
