### **Public School Choice Website Reporting Requirements**

Districts with campuses in Title I School Improvement (SIP) Stage 1 or above are required to post specific information related to public school choice (SC) on their website. Guidance requires LEAs to post three (3) data components to the Internet in a timely manner; however, the list of available schools to which eligible students may transfer must be displayed sufficiently in advance of, but no later than 14 calendar days before, the start of the school year. See SC Guidance at: [http://www.tea.state.tx.us/index4.aspx?id=4459&menu\\_id=798](http://www.tea.state.tx.us/index4.aspx?id=4459&menu_id=798).

To comply with this website reporting requirement, LEAs must display the following on their website no later than August 13, 2012:

Beginning with the data from the first year the campus was in SIP and for each subsequent year in SIP:

- 1) The number of students eligible for SC.
- 2) The number of students participating in SC.

In addition, for the current 2012-2013 school year:

- 3) A list of available schools to which students eligible to participate in school choice may transfer.
