

Certified Principal Demographics by Preparation Route 2008-2012

This table shows the number and percentage of candidates who received their first standard Principal certificate through each preparation route, broken down by gender and by race or ethnicity.

Definition. A standard certificate is a certificate offered since 1998-99 that is renewed every five years.

Results

- More than two-thirds of Principals were female, and most Principals were white.
- The university post-baccalaureate route produced the smallest percentages of black/African American Principals.
- In fiscal year 2010-11, both in-state routes showed a substantial decline of certified Principals.
- In the following fiscal year, all three routes showed a decline.

* Results for individual routes may not sum to the total for All Routes, because the total is a count rather than a sum. A sum of routes may contain duplication as educators can be prepared through more than one route.

Certified Principal Demographics by Preparation Route 2008-2012

Summary of methodology. Five tables were extracted containing identification numbers, preparation route codes, genders, and races or ethnicities of individuals obtaining their first standard Principal certificate for fiscal years 2007-08 through 2011-12. For each year and preparation route, a total of all Principals was obtained, together with counts by gender and race or ethnicity. Each count was then taken as a percentage of the corresponding total. The process was repeated to obtain overall results for all routes. Finally, the two sets of results were combined into one table.
