RF Tracker Group Activity

If RFT is discontinued, what could districts generate in order to provide TEA current information on RF students and/or facilities?

- LEA to submit list 2y/yr. (through ISAM or TEASE)
  - Facilities
  - Students
- Sampling to include students from all facilities
- Sampling used to determine student specific data submissions (i.e. 1-10 = all; 11-29 = 20% or 15...etc)
- Spreadsheet/template of data
  - ARD dates
  - FIE dates (not “just” REEDs)
  - IEP Process
    - PLAAFPs, goals, progress reporting, transition, supp. aids/services, setting, LRE, frequency/service logs, duration, state assessment, AIP, etc.
    - Duly constituted ARD
    - PWN
    - Discipline (including ISS/DSS/DAEP & BIPs)
    - Procedural safeguards
- TEA to review using a rubric for compliance & quality to determine staging/monitoring

1. Front-end Process
   - Local collection of facility, students, enrollment, withdraw, etc... w/ submission dates (stored electronically).
   - TEA criteria for scheduled student level reviews, submit through TEAL account.
   - Develop progress measure for specific students identified as “more at risk” from SLR.

PEIMS attribution codes 21-25 to run a report that enables TEA to identify districts that support RF students and then develop a “sampling procedure” much like what is used for SPP13 to identify which district(s) will be visited OR chosen for a desk audit (which could lead to a visit).

It seems that many districts are deeply concerned regarding the “Picture” that the data portrays. So, what if the question changed from not IF I will be visited, but WHEN?

Request data from each district. District can provide data reports with the required information.
RF Tracker Group Activity

If RFT is discontinued, what could districts generate in order to provide TEA current information on RF students and/or facilities?

1. Reports from SIS:
   - Demographics
   - FIE
   - CSO
   - LRE
   - RS
   - SOS
   - ESY
   - Eligibilities
   - Etc.

2. PEIMS Records
   - IA
   - *Foster
   - Foster/SE

3. List of surrogates with student assignments

4. PBMAS info

5. Schedules (sos, student schedule)

6. Folder reviews – systematically done by district

7. SHARS (FED)

8. SPP13 &14 re: transition planning

9. ESY count
