- ☐ is capable of organizing and developing ideas and understands the basic function and use of written language conventions (e.g., sentence structures, irregular verbs) but has a disability that is so severe that he or she cannot apply basic spelling rules or word patterns (e.g., silent letters, base words with affixes) to written responses.

- In the case of an ELL with a disability, the decision is made by the applicable group above in conjunction with the student’s LPAC. The decision is to be documented by the LPAC in the student’s permanent record file and by the other applicable group, as described above.
- After state testing, GA must be recorded in the ACCOMM. field on the student’s answer document or in the Texas Assessment Management System for online administrations. This indicates that an allowable general accommodation was made available to the student.

Special Instructions/Considerations

1. A student who uses this accommodation may complete the test in a separate setting to eliminate distractions to other students and to ensure the confidentiality of the test.
2. The use of spelling assistance as a testing accommodation should not replace the teaching of spelling skills as outlined in the TEKS.
3. Dictionaries are a required part of standard test administration procedures (and not considered a testing accommodation) for some state assessments. For more information, refer to the STAAR Dictionary Policy on the TEA’s STAAR Resources webpage. For these assessments, any spelling assistance listed in the Examples/Types section may be provided, along with the required dictionary, to a student who meets the eligibility criteria.
4. If a student needs his or her typed response transcribed onto an answer document or into the Texas Assessment Management System for online administrations, refer to the Basic Transcribing accommodation policy.
5. Districts are required to have procedures in place to prevent the use of cell phones and personal electronic devices during test administrations. Electronic devices can disrupt the testing environment and compromise the security and confidentiality of the test. When using technology-based accommodations (e.g., speech-to-text, text-to-speech), students are NOT permitted Internet access during testing. Also, electronic devices with Internet or photographic capabilities cannot be used.
