Each rating is assigned a target for each indicator. A district or campus is assigned the rating for which each of its student groups meets the targets for all indicators.

For the TAKS indicator, each student group must meet the target passing percentage for every subject area.

The Commended Performance indicator evaluates only two student groups: All Students and Economically Disadvantaged.

The ELL Progress Indicator and Commended Performance indicator are used to assign only Recognized and Exemplary ratings.

A district cannot be rated Exemplary or Recognized if one of its campuses is rated Academically Unacceptable, if it underreports 150 or more students, or if it underreports 3 percent or more of its student population.
