My New Pet

I have a new pet hamster. What should I name my hamster? I will name my hamster Sam.
What should I name my hamster.

What should I name my hamster!

What should I name my hamster?
One morning I didn’t see Sam in his cage? I looked around the cage. Where could he be?
I finally found him curled up in some shavings in his cage. What a surprise to find three tiny hamsters beside him! I realized that my hamster wasn’t a boy. Wow, Sam was a girl!

Chimpanzees are animals with black hair.
Chimpanzees are clever animals. Chimps have learned to use tools. A chimp can use a stick as a club. A lion can use a stone as a hammer.
Chimpanzees use tools to find food. For example, chimps poke sticks deep into termite nests. When they pull out the sticks, some termites come out too. Chimps sleep and travel in small groups. Then the chimpanzees eat a delicious meal of termites.
