- C. The following fee terms and conditions will apply for a fully bundled custody and securities lending service delivery provided by Contractor to the Texas Permanent School Fund ("TPSF") as administered by TEA:

1. Annual Fee for Scope of Services: \$200,000

Contractor is willing to provide performance guarantees and to participate in penalty/incentive compensation based on an agreed upon set of performance standards. Contractor will put 100% of the flat fee at risk, should it fail to meet the performance standards agreed upon.

2. Short Term Investment Fund (STIF) Asset Management Fee: 12 basis points applied to daily balances.
3. Global Investment Transaction Charges: The following charges will be passed through to the TPSF at direct cost:

Global out-of-pocket expenses including, but not limited to, postage, courier expense, registration fees, stamp duties, telex charges, internal/external taxes, internal/external legal or consulting. Does not include pass through proxy costs or internal/external legal or consulting expenses with respect to the negotiation and drafting of the Contract. All out-of-pocket expenses will be documented at a detail level that sufficiently describes the services rendered and requested for reimbursement.

4. Overdraft Fees: Federal Funds Rate applied against the amount of the overdraft.
5. Securities Lending Revenue Split:

On an Annual Basis	Texas Permanent School Fund	Contractor
Until \$12 Million in Gross Revenue has been earned	85%	15%

In all years subsequent to the first year of the contract, the anniversary date for the revenue split calculation will be September 1<sup>st</sup> and the split will be based on the \$12 million gross revenue target.

Contractor is TPSF's sole securities lending agent and may lend the entire pool of assets.

Collateral investments will be maintained in a separate account managed to the TPSF guidelines.

There are no additional charges for participating in securities lending.

For purposes hereof, net securities lending revenues shall mean (i) all loan premium fees derived from Contractor's acceptance of non-cash collateral; plus (ii) all income and earnings from the investment and reinvestment of the cash collateral received and held on behalf of the Client minus broker rebate fees paid by the Contractor to the borrower in respect of the loans of

the Client's securities. The Contractor is hereby authorized to charge such compensation against and collect and/or retain such compensation from the revenues derived from the securities lending activities conducted on behalf of the Client pursuant to the Securities Lending Authorization Agreement.

6. Class Action Claim Filing: No charge (\$0.00) to file claims including using historical data provided to Contractor by TPSF.
7. Proxy Voting Services for TPSF Internally Managed Portfolios: Cost of RiskMetrics (or other TPSF selected provider) proxy voting service is paid for by Contractor directly to the vendor on an annual basis.

9. Business Process Redesign: Contractor agrees to perform a complete best practices review or business process redesign to include an analysis of both TPSF internal processes and procedures as well as those processes and procedures and interfaces utilized by the Contractor service delivery teams assigned to TPSF and other clients of the Contractor. The product of such a review will be made available to the TPSF no later than March 31, 2010 for discussion and implementation, with the understanding that TPSF and Contractor will work together to prioritize the implementation phase.
10. Out-Sourced Performance Measurement Services for the State Board of Education: Contractor agrees to provide daily, monthly and quarterly performance measurement services to the TPSF staff, including the publication of quarterly performance summary books.

In addition, Contractor agrees to transfer all necessary accounting data on a monthly basis to a third party performance measurement advisor, if such a service provider is selected by the State Board of Education ("SBOE") from RFP 701-09-026.

In the event of selection of a third party provider, Contractor is not required to present performance measurement results to the State Board of Education nor are they required to analyze, interpret or consult on such performance measurement results for the benefit of TPSF management.

For the benefit of TPSF, Contractor has agreed to pay to the third party service provider, the cost of out-sourced performance measurement quarterly reporting and consulting not to exceed \$75,000 per year. In any month in which a third party service provider is not on retainer for the SBOE, \$6,250.00 will be credited back against the fees incurred on the account.

11. *privateInformant*® software: Effective upon execution of the amendment, TEA has agreed to avail itself of *privateInformant*®, a Burgiss Group software offering at the following fee rates to be billed in arrears by BYN Mellon on the monthly invoice:

- \$480 per LP/per year (1-50 LPs, assumes data is received from GP 4 times per year)
- \$460 per LP/per year (51-100 LPs, assumes data is received from GP 4 times per year)
- \$440 per LP/per year (101-200 LPs, assumes data is received from GP 4 times per year)

**Additional Comments:**

All custody, accounting, compliance, technology, reporting, securities lending and performance measurement services outlined in the request for proposal dated to close May 1, 2009 and attached to

Appendix 1 to the TEA Standard Contract, and specifically agreed to in *Document E Affirmation of Scope of Services Required* of the proposal response dated May 1, 2009, submitted by Contractor and attached to Appendix 1 to the TEA Standard Contract, are covered in Contractor's commitment to service delivery.

Service delivery for a daily processing environment will include daily audited security pricing producing daily audited Net Asset Valuations (NAV). A "soft-close" procedure will be utilized to close the books daily, with a monthly hard-close for accounting, reconciliation and reporting purposes.

In addition, daily security level performance, analytics and attribution analysis will be available on all portfolios. Wilshire Analytics and Factor Based Attribution are available for the fixed income assets. Look through risk exposure by GICS country and sector will also be included.

Contractor guarantees the fee schedule for the initial term of the contract, effective December 1, 2009 through August 31, 2011.

After the initial term, Contractor reserves the right to amend its fees if the service requirements change in a way that materially affects the responsibilities or costs. TEA reserves the right to decline and enter into negotiations if such fee changes are deemed to be unacceptable to the TPSF.

A separate Service Level Agreement has been negotiated between the parties to encompass the specifics of service delivery including product deliverables, mutually agreed timelines/deadlines, the use of a quarterly "contract performance report card" and appropriate means of communication between the parties.

- D. Unless otherwise indicated by TEA, payments will be made upon satisfactory performance in accordance with the CUSTODY AGREEMENT by and between TEXAS EDUCATION AGENCY and The Bank of New York Mellon, Section 7.6 Fees, (page 25) and in accordance with the SECURITIES LENDING AUTHORIZATION AGREEMENT by and between THE TEXAS EDUCATION AGENCY and The Bank of New York Mellon, Section 11.
