Item 14:

Discussion of Proposed Amendments to 19 TAC Chapter 239, Student Services Certificates, Subchapter A, School Counselor Certificate, and Subchapter C, Educational Diagnostician Certificate

DISCUSSION

SUMMARY: This item provides the State Board for Educator Certification (SBEC) an opportunity to discuss proposed amendments to 19 TAC Chapter 239, Student Services Certificates, Subchapter A, School Counselor Certificate, and Subchapter C, Educational Diagnostician Certificate.

STATUTORY AUTHORITY: The statutory authority for 19 TAC Chapter 239 is the Texas Education Code (TEC), §§21.031(a), 21.040(4), 21.041(a), 21.041(b)(1)-(5) and (9), 21.044, 21.048(a), 21.054, and 22.0831(f), for Subchapter A, and the TEC, §21.031(a) and §21.041(a) and (b)(1)-(4), for Subchapter C.

TEC, §21.031(a), charges the SBEC with regulating and overseeing all aspects of the certification, continuing education, and standards of conduct for public school educators.

TEC, §21.040(4), states that the SBEC shall, for each class of educator certificate, appoint an advisory committee composed of members of that class to recommend standards for that class to the board.

TEC, §21.041(a), authorizes the SBEC to adopt rules as necessary to implement its procedures. TEC, §21.041(b)(1), requires the SBEC to propose rules that provide for the regulation of educators and the general administration of the TEC, Chapter 21, Subchapter B, in a manner consistent with the TEC, Chapter 21, Subchapter B. TEC, §21.041(b)(2)-(4), require the SBEC to propose rules that specify the classes of educator certificates to be issued, including emergency certificates; the period for which each class of educator certificate is valid; and the requirements for the issuance and renewal of an educator certificate. TEC, §21.041(b)(5) and (9), require the SBEC to propose rules that provide for the issuance of an educator certificate to a person who holds a similar certificate issued by another state or foreign country, subject to the TEC, §21.052, and continuing education requirements.

TEC, §21.044, requires the SBEC to propose rules establishing training requirements a person must accomplish to obtain a certificate, enter an internship, or enter an induction-year program.

TEC, §21.048(a), requires the SBEC to propose rules prescribing comprehensive examinations for each class of certificate issued by the SBEC and requires the commissioner of education to determine the satisfactory level of performance required for each certification examination and each core subject covered by the generalist certification examination.
TEC, §21.054, requires classroom teachers, principals, and school counselors to earn continuing professional education units in specific areas and directs the SBEC to propose rules relating to continuing education courses and programs for educators.

TEC, §22.0831(f), authorizes the SBEC to propose rules to implement the national criminal history record information review of certified educators.

FUTURE ACTION EXPECTED: Texas Education Agency (TEA) anticipates bringing this item back for proposal in August after receiving input from the Board at the June meeting and completing additional follow-up work as needed with the advisory committees.

The SBEC-appointed advisory committees for the School Counselor Certificate and Educational Diagnostician Certificate have been convened to provide feedback on the current rules and processes related to preparation, testing, certification, and renewal for both certificate areas. As part of their advisory work, committee members also explored recommended alternatives or changes for consideration by the SBEC at a future meeting.

Prior to meeting as a group, members of both advisory committees completed independent reviews of the current rule text and indicated their level of satisfaction using one of three options (Very, Somewhat, or Not at All). In addition, committee members were asked to provide feedback on how to improve current rule text with rationales for their suggested revisions. The very thoughtful and thorough work completed on this initial task by both committees was discussed during webinars for both committees. The School Counselor Advisory committee met via webinars on February 8, 2017 and February 22, 2017, and the Educational Diagnostician Advisory Committee met on February 9, 2017.

TEA staff updated the Board on the activities completed by both advisory committees and provided a high-level overview of key issues relevant to each certificate as part of the discussion item on the SBEC March 3, 2017 meeting agenda. Attachment III includes an updated action plan/timeline of activities for both committees and Attachment IV provides the names of the School Counselor and Educational Diagnostician Advisory Committee members.

Following is a description of the proposed revisions included in Attachment II.

Subchapter A. School Counselor Certificate

§239.1. General Provisions

The proposed amendment to 19 TAC §239.1(a) adds the words “and credentials” to more fully reflect the scope of preparation required of candidates seeking the School Counselor certificate. The proposed amendment to subsection (b) specifies the expectation that individuals certified as a School Counselor, Grades EC-12, will participate in counseling-related professional development activities as a way to remain current with best practices and procedures for school counseling and in developing quality, comprehensive school counseling programs. The
proposed amendment for subsection (c) provides additional confirmation that individuals with this certificate are appropriately licensed to provide counseling services to all students in prekindergarten to grade 12.

§239.5. Minimum Requirements for Admission to a School Counselor Preparation Program

There are no changes proposed for this section.

§239.10. Preparation Program Requirements

The proposed amendment to 19 TAC §239.10(a) adds “school-based” to further emphasize the importance of having structured, field-based training experiences in an actual school setting, but removes the reference to “campuses” to acknowledge that serving in the role of school counselor within several campus settings is not always possible for each certification candidate. The proposed change to subsection (b) removes “and/or experience” directly related to the standards as an option for substituting preparation coursework and other requirements leading to issuance of the school counselor certificate. New proposed subsection (c) specifies that educator preparation programs must incorporate processes to ensure certification candidates can understand and implement the Texas Model for Comprehensive School Counseling Programs.

§239.15. Standards Required for the School Counselor Certificate

The proposed amendment to 19 TAC §239.15(b)(1) adds the word “philosophy” to accompany the importance of understanding the history of counseling. New proposed (b)(4) adds an emphasis on the role of college and career readiness standards and the ability of the school counselor to infuse these important knowledge and skills into his or her interactions with students as they explore postsecondary options. With the insertion of a new number (4), original numbers (4) through (13) have been renumbered accordingly to numbers (5) through (14). The proposed change to (b)(5) adds “test interpretation” to the list of key assessment principles and procedures important to a school counselor’s repertoire. The proposed change to (b)(7) adds “educational, career, personal, and social development, along with comprehensive school” to highlight the various phases of learners’ development, and with removal of the words “guidance and” allows the rules to further confirm importance of the breadth and depth of the counseling programs. The proposed change to (b)(9) deletes the “and” prior to the word “issues,” deletes the semicolon at the end, and allows for greater focus on conducting oneself in an ethical manner by expanding the current text to include “and the importance of commitment to and implementation of ethical principles.” The proposed change to (b)(11) deletes “theories and techniques in pedagogy and classroom management” and replaces it with more current and expansive language, “techniques and behavioral interventions to assist teachers with classroom management.” The proposed change to (b)(12) adds “a school counseling program,” deletes the words “the guidance” to use the more current reference to the counseling program, and also adds reference to the Texas College and Career Readiness Standards as important components to be blended together with academic curricula to ensure the best preparation for all students. The proposed change to (b)(13) adds the words “a comprehensive,” deletes the words “the counselor in a developmental guidance and” to better express that the counselor is instrumental in ensuring the comprehensiveness of the school counseling program and its ability to be responsive to the needs of all students, and deletes the “and” at the end of the text to reflect that there are additional concepts added after (b)(14). The proposed technical edit to (b)(14) removes the period and adds a semicolon to reflect additional information incorporated into Standard I. New proposed (b)(15) through (b)(19) addresses the importance of developing
and teaching best practices related to leadership skills; focuses on the impact that cultural factors and group membership can have on students; stipulates a necessary understanding of the comprehensive school counseling program model; emphasizes the importance and use of technology in its various forms, and the personal and professional harm of technology misuse; and highlights the importance of understanding systems, with a special emphasis on family dynamics and school environments.

The proposed amendment to the text for Standard II in subsection (c) adds the words “as outlined in the Texas Model for Comprehensive School Counseling Programs” to confirm the important role of this key Texas document and its necessary use in all educator preparation programs. The proposed change to (c)(1) adds the reference, “the Texas Model for Comprehensive School Counseling Programs,” and deletes the outdated terminology, “a developmental guidance and counseling program.” The proposed change to (c)(2) adds the updated terminology, “comprehensive” and “school counseling” and deletes outdated terminology, “guidance” when referencing the school counseling program, and also adds the words “as set forth in the Texas Model for Comprehensive School Counseling Programs,” to the end of the statement to further confirm the important role of this Texas-specific document to the development and maintenance of a successful school counseling program. The proposed change to (c)(5) adds “referrals, and follow-up procedures” to emphasize the important, proactive role of the school counselor in making referrals and following-up on their effectiveness as relates to student needs within the school and community. The proposed change to (c)(8) adds “multiple sets of information and data to make decisions about students, programs, and services” and deletes “varied sources of information about students for assessment purposes” to highlight the importance of a school counselor taking time to complete a thorough assessment of student needs not only as relates to assessment data, but to also ensure there is sufficient information available to make informed and effective decisions on best ways to support that student in any other critical needs areas. The proposed amendment to (c)(9) adds “evidence-based” to specify the types of practices that should be used to address student needs. The proposed amendment to (c)(10) adds “comprehensive school” and deletes “developmental guidance and” to use current terminology for school counseling programs, deletes the period, and adds a semicolon at the end to reflect additional information incorporated into Standard II. Proposed new (c)(11) and (c)(12) addresses the school counselor’s role in facilitating learners’ ability to achieve their potential by helping them set and attain challenging educational, career, personal, and social goals; and also highlights the importance of remaining proficient in counseling and campus-related technology. Proposed new (c)(13) adds a reference to the use of various resources to counsel students about postsecondary college and career readiness opportunities.

The proposed amendment to the text for Standard III in subsection (d) adds the word “revision” to the list of key activities completed by the school counselor when evaluating a campus, adds reference to the Texas Model for Comprehensive School Counseling Programs, and removes the text “developmental school guidance and counseling program that promotes learners’ knowledge, skills, motivation, and personal growth” to further confirm the importance of this Texas-specific document to the development and maintenance of a successful school counseling program. The proposed amendment to (d)(2) deletes the “and” before “personal,” and deletes the backslash between “personal” and “social” and replaces it with “and” for clarification of the importance of each individual goal. The proposed amendment to (d)(4) deletes the “and” following the semicolon to reflect additional information incorporated into Standard III. The proposed amendment to (d)(5) deletes “and/or coordinator” to accurately reflect the school counselor’s role as a consultant to help learners achieve success inside and outside of school, deletes the period at the end of the text, and adds a semicolon to reflect
additional information incorporated into Standard III. Proposed new (d)(6) through (d)(13) emphasizes the school counselor’s role as advocate for a comprehensive school counseling program that understands the necessary time commitment for ensuring a successful program implementation; the school counselor’s active role in creating a program mission, goal, and services that align with the school mission and campus improvement plan; the school counselor’s role in creating and disseminating applicable literature or newsletters to all stakeholders as an awareness-building opportunity to describe the comprehensive school counseling program and reduce negative stigmas associated with receiving counseling services in a school-based program; the school counselor’s role in establishing an advisory council or board that encompasses all stakeholders; the school counselor’s role in increasing public relations and awareness through community outreach; the school counselor’s role in providing school-wide professional development and parent workshops throughout the school year; the school counselor’s role in supporting participation in fair-share responsibilities versus non-counseling related duties; and the school counselor’s need to know district, state, and federal initiatives that are to be reflected in a comprehensive school counseling program. Proposed new (d)(14) encourages the school counselor to develop practices to promote learner’s knowledge about college and career readiness processes necessary to pursue postsecondary opportunities.

The proposed amendment to the text in Standard IV, subsection (e)(1) adds “race,” and “socio-economic levels, academic ability” to the list of things important for the school counselor to understand as he or she works to create and maintain a positive school environment that is inclusive of and responsive to all learners. The proposed amendment to (e)(2) inserts “all” in front of “cultures,” followed by new terms “genders, ethnicities, and learning styles” to illustrate the inclusiveness necessary in a school counseling program that acknowledges and respects diversity. The proposed amendment to (e)(3) adds “to ensure services that cover an array of exceptionalities” to further emphasize the need for full inclusion of all students and their unique needs. Proposed new (e)(4) through (e)(9) specifies the need for school counselors to build on commonalities versus differences in all learners; understand the impact of environment and behavior on individual learners; ensure equitable access to programs and services for all students; understand how family values, group membership, and culture intersect; acknowledge learners’ gifts, strengths, and extra-curricular talents when considering programs and services; and increase students’ awareness and include their voice regarding educational and individualized plans. Proposed new (e)(10) emphasizes the important role of the school counselor in ensuring all students and their parents/guardians have equitable access to information about postsecondary opportunities and that they utilize available resources to become college and career ready.

The proposed amendments to the text for Standard V in subsection (f)(7) deletes “and” at the end of the sentence and deletes the period and inserts the semicolon at the end of (f)(8) to illustrate continuation of the list. Proposed new (f)(9) through (f)(11) illustrates the school counselor’s opportunity to take a positive, strength-based approach that verbalizes commonalities versus differences in all learners; highlights the importance of effectively communicating the school counselor’s roles and responsibilities to all stakeholders; and emphasizes the need for school counselors to adhere to best practices connected to ethical and legal considerations related to appropriate use of technology and email, documentation, record-keeping, privileged communication, and informed consent process. Proposed new (f)(12) highlights the role of the school counselor in facilitating learners’ and parent/guardians’ access to school and community resources related to postsecondary opportunities and college and career readiness.
The proposed amendments to the text for Standard VI in subsection (g)(5) deletes the word “continue” and replaces it with “engage in ongoing” to show the importance of school counselors engaging in active professional development on a regular basis. Proposed new (g)(6) acknowledges the important role of professional development in a school counselor’s ability to increase college and career readiness and the promotion of postsecondary opportunities and preparation for all learners.

§239.20. Requirements for the Issuance of the Standard School Counselor Certificate

The proposed amendment to 19 TAC §239.20 subsection (c) changes the minimum degree requirement to a “48-hour master's degree in counseling.” TEA staff has included the more rigorous of the two options discussed during the advisory committee meetings, but maintains the committee was not unanimous in this recommendation. All members agree in the importance of strong preparation to become certified as a school counselor, but many expressed that the option to be admitted into a preparation program with an established master’s degree is equally worthy of consideration. TEA staff believes it will be important for the Board to discuss this requirement in more detail and provide guidance on further conversations with the advisory committees prior to taking action on the proposed rule changes.

§239.25. Requirements to Renew the Standard School Counselor Certificate

The proposed amendment to 19 TAC §239.25 deletes subsection (a) in its entirety to remove outdated references to renewal requirements for certificates issued September 1, 1999 to August 31, 2000. The proposed amendment to subsection (b) would re-letter it to become new subsection (a) and adds the text “and must satisfy the most current requirements for renewal” to confirm it is necessary for individuals issued the standard school counselor certificate to comply with renewal requirements in place for the certificate. Proposed amendment to subsection (c) would re-letter it to become new subsection (b) and deletes the outdated rule reference, §232.810, and replaces it with the current renewal rule reference of §232.3.

§239.30. Transition and Implementation Dates

The proposed amendment to 19 TAC §239.30 subsection (a) strikes the outdated implementation date of September 1, 2002 and replaces it with a date to be determined by the TEA Rulemaking Division. The proposed amendment to subsection (b) strikes the outdated date of September 1, 2003 and replaces it with a date to be determined by the TEA Rulemaking Division, and deletes (b)(1) and (b)(2) as those rule text references and accompanying provisions have all expired.

Subchapter B. Educational Diagnostician Certificate

§239.80. General Provisions

The proposed amendment to 19 TAC §239.80 subsection (b) deletes “campus leadership” and replaces it with “assessment” to emphasize the importance of the educational diagnostician remaining current in this area as it has a direct impact on student learning. The proposed amendment to subsection (c) changes the grade range from Early Childhood-Grade 12 to “birth through adulthood” to more accurately reflect the student grade range served by educational diagnosticians.
§239.81. Minimum Requirements for Admission to an Educational Diagnostician Preparation Program

There were no recommended changes to this section.

§239.82. Preparation Program Requirements

The proposed amendment to 19 TAC §239.82 subsection (b) changes “must” to “may” to allow flexibility in educator preparation program design.

§239.83. Standards Required for the Educational Diagnostician Certificate

The proposed amendment to 19 TAC §239.83 removes the word “beginning” from every reference to the educational diagnostician in Standard I, subsection (b) through Standard X, subsection (k).

The proposed amendment to text in Standard I, subsection (b)(1)(D), adds the words “in the least restrictive environment” to highlight the importance of the type of placement within the broad range of options for the student.

The proposed amendment to text in Standard IV, subsection (e)(1)(A), add the words “in the least restrictive environment” to highlight the importance of the type of placement within the broad range of options for the student. The proposed amendment in subsection (e)(2)(A) adds the words “establish measurable annual goals and objectives” to expand on things to consider when making decisions about appropriate services for students.

The proposed amendment to Standard VI, subsection (g)(l), adds the example RTI (response to intervention) to further explain what is meant by use of the term “prereferral.”

The proposed amendment to Standard VII, subsection (h)(1)(D), adds the words “native language and” before the word “diversity” to highlight the importance of understanding and considering a student’s native language and its impact on a student’s evaluation.

The proposed amendment to Standard IX, subsection (1)(A) adds “that incorporate positive behavioral supports and interventions” to the end of the phrase to emphasize the type of support that will have the most appropriate impact on student behavior.

The proposed amendment to Standard X, subsection (1)(D) adds “accommodating and/or” before the term modifying to show the need for the educational diagnostician to be able to distinguish between techniques and apply them as necessary to positively impact student living.

§239.84. Requirements for the Issuance of the Standard Educational Diagnostician Certificate

The proposed amendment to 19 TAC §239.84 subsection (5) changes the required number of creditable years of teaching experience as a classroom teacher from two to three. The committee was unanimous in this recommendation, and felt that returning to three years of experience allows the individual interested in pursuing the educational diagnostician certificate to gain a much-needed additional year in the classroom before stepping into the important role of educational diagnostician.
§239.85. Requirements to Renew the Standard Educational Diagnostician Certificate

There are no recommended changes to this section.

§239.86. Transition and Implementation Dates

The proposed amendment to 19 TAC §239.86 deletes the outdated date reference of September 1, 2003 and replaces it with a date to be determined by the TEA Rulemaking Division.

PUBLIC AND STUDENT BENEFIT: The public and student benefit anticipated as a result of the work of both advisory committees would be more rigorous requirements for the preparation, certification, testing, and renewal of School Counselor and Educational Diagnostician certificates that result in highly effective certified School Counselors and Educational Diagnosticians upon entry into the profession, and retention of these qualified professionals for years to come.

Texas Education Code §21.031, Certification of Educators:

(a) The State Board for Educator Certification is established to recognize public school educators as professionals and to grant educators the authority to govern the standards of their profession. The board shall regulate and oversee all aspects of the certification, continuing education, and standards of conduct of public school educators.

(b) In proposing rules under this subchapter, the board shall ensure that all candidates for certification or renewal of certification demonstrate the knowledge and skills necessary to improve the performance of the diverse student population of this state.

Texas Education Code §21.040, General Powers and Duties of Board (excerpt):

The board shall:
(3) appoint the members of any advisory committee to the board;
(4) for each class of educator certificate, appoint an advisory committee composed of members of that class to recommend standards for that class to the board;

Texas Education Code, §21.041, Rules; Fees (excerpt):

(a) The board may adopt rules as necessary for its own procedures.
(b) The board shall propose rules that:
   (1) provide for the regulation of educators and the general administration of this subchapter in a manner consistent with this subchapter;
   (2) specify the classes of educator certificates to be issued, including emergency certificates;
   (3) specify the period for which each class of educator certificate is valid;
   (4) specify the requirements for the issuance and renewal of an educator certificate;
   (5) provide for the issuance of an educator certificate to a person who holds a similar certificate issued by another state or foreign country, subject to Section 21.052;

Texas Education Code, §21.044, Educator Preparation:

(a) The board shall propose rules establishing the training requirements a person must accomplish to obtain a certificate, enter an internship, or enter an induction-year program. The board shall specify the minimum academic qualifications required for a certificate.

(b) Any minimum academic qualifications for a certificate specified under Subsection (a) that require a person to possess a bachelor's degree must also require that the person receive, as part of the training required to obtain that certificate, instruction in detection and education of students with dyslexia.

(c) The instruction under Subsection (b) must:
   (1) be developed by a panel of experts in the diagnosis and treatment of dyslexia who are:
(A) employed by institutions of higher education; and
(B) approved by the board; and

(2) include information on:
(A) characteristics of dyslexia;
(B) identification of dyslexia; and
(C) effective, multisensory strategies for teaching students with dyslexia.

(c-1) Any minimum academic qualifications for a certificate specified under Subsection (a) that require a person to possess a bachelor’s degree must also require that the person receive, as part of the training required to obtain that certificate, instruction regarding mental health, substance abuse, and youth suicide. The instruction required must:

(1) be provided through a program selected from the list of recommended best practice-based programs established under Section 161.325, Health and Safety Code; and

(2) include effective strategies for teaching and intervening with students with mental or emotional disorders, including de-escalation techniques and positive behavioral interventions and supports.

(c-2) Repealed by Acts 2015, 84th Leg., R.S., Ch. 1157, Sec. 2, eff. September 1, 2015.

(d) In proposing rules under this section, the board shall specify that to obtain a certificate to teach an "applied STEM course," as that term is defined by Section 28.027, at a secondary school, a person must:

(1) pass the certification test administered by the recognized national or international business and industry group that created the curriculum the applied STEM course is based on; and

(2) have at a minimum:
(A) an associate degree from an accredited institution of higher education; and

(B) three years of work experience in an occupation for which the applied STEM course is intended to prepare the student.

(e) In proposing rules under this section for a person to obtain a certificate to teach a health science technology education course, the board shall specify that a person must have:

(1) an associate degree or more advanced degree from an accredited institution of higher education;

(2) current licensure, certification, or registration as a health professions practitioner issued by a nationally recognized accrediting agency for health professionals; and

(3) at least two years of wage earning experience utilizing the licensure requirement.

(f) The board may not propose rules for a certificate to teach a health science technology education course that specify that a person must have a bachelor’s degree or that establish any other credential or teaching experience requirements that exceed the requirements under Subsection (e).

(g) Each educator preparation program must provide information regarding:
(1) the skills that educators are required to possess, the responsibilities that educators are required to accept, and the high expectations for students in this state;

(2) the effect of supply and demand forces on the educator workforce in this state;

(3) the performance over time of the educator preparation program;

(4) the importance of building strong classroom management skills; and

(5) the framework in this state for teacher and principal evaluation, including the procedures followed in accordance with Subchapter H.

Texas Education Code, §21.048, Certification Examinations (excerpt):
(a) The board shall propose rules prescribing comprehensive examinations for each class of certificate issued by the board. The commissioner shall determine the satisfactory level of performance required for each certification examination. For the issuance of a generalist certificate, the commissioner shall require a satisfactory level of examination performance in each core subject covered by the examination.

Texas Education Code, §21.054, Continuing Education:
(a) The board shall propose rules establishing a process for identifying continuing education courses and programs that fulfill educators’ continuing education requirements.

(b) Continuing education requirements for an educator who teaches students with dyslexia must include training regarding new research and practices in educating students with dyslexia.

(c) The training required under Subsection (b) may be offered in an online course.

(d) Continuing education requirements for a classroom teacher must provide that not more than 25 percent of the training required every five years include instruction regarding:

   (1) collecting and analyzing information that will improve effectiveness in the classroom;

   (2) recognizing early warning indicators that a student may be at risk of dropping out of school;

   (3) integrating technology into classroom instruction; and

   (4) educating diverse student populations, including:

       (A) students with disabilities, including mental health disorders;

       (B) students who are educationally disadvantaged;

       (C) students of limited English proficiency; and

       (D) students at risk of dropping out of school.

(e) Continuing education requirements for a principal must provide that not more than 25 percent of the training required every five years include instruction regarding:

   (1) effective and efficient management, including:

       (A) collecting and analyzing information;

       (B) making decisions and managing time; and
(C) supervising student discipline and managing behavior;
(2) recognizing early warning indicators that a student may be at risk of dropping out of school;
(3) integrating technology into campus curriculum and instruction; and
(4) educating diverse student populations, including:
   (A) students with disabilities, including mental health disorders;
   (B) students who are educationally disadvantaged;
   (C) students of limited English proficiency; and
   (D) students at risk of dropping out of school.

(f) Continuing education requirements for a counselor must provide that not more than 25 percent of training required every five years include instruction regarding:
   (1) assisting students in developing high school graduation plans;
   (2) implementing dropout prevention strategies; and
   (3) informing students concerning:
      (A) college admissions, including college financial aid resources and application procedures; and
      (B) career opportunities.

(g) The board shall adopt rules that allow an educator to fulfill up to 12 hours of continuing education by participating in a mental health first aid training program offered by a local mental health authority under Section 1001.203, Health and Safety Code. The number of hours of continuing education an educator may fulfill under this subsection may not exceed the number of hours the educator actually spends participating in a mental health first aid training program.

Texas Education Code, §22.0831, National Criminal History Record Information Review of Certificated Educators (excerpt):

(f) The board may propose rules to implement this section, including rules establishing:
   (1) deadlines for a person to submit fingerprints and photographs in compliance with this section; and
   (2) sanctions for a person's failure to comply with the requirements of this section, including suspension or revocation of a certificate or refusal to issue a certificate.
ATTACHMENT II
Text of Proposed Amendments to 19 TAC

Chapter 239. Student Services Certificates

Subchapter A. School Counselor Certificate

(a) Because the school counselor plays a critical role in campus effectiveness and student achievement, the rules adopted by the State Board for Educator Certification in this subchapter ensure that each candidate for the School Counselor Certificate is of the highest caliber and possesses the knowledge, skills, and credentials necessary to improve the performance of the diverse student population of this state.

(b) An individual serving as a school counselor is expected to actively participate in counseling-related professional development activities to continually update his or her knowledge, skills, and credentials. Currency in best practices and research related to both campus leadership and student learning is essential in developing a quality, comprehensive school counseling program, which includes both campus leadership and student learning, is essential for all students.

(c) The holder of the School Counselor Certificate issued under the provisions of this subchapter may be certified to provide counseling services to all students in Prekindergarten-Grade 12.

§239.5. Minimum Requirements for Admission to a School Counselor Preparation Program.
(a) Prior to admission to an educator preparation program leading to the School Counselor Certificate, an individual must:

(1) hold a baccalaureate degree from an accredited institution of higher education that at the time was accredited or otherwise approved by an accrediting organization recognized by the Texas Higher Education Coordinating Board; and

(2) meet the requirements for admission to an educator preparation program under Chapter 227 of this title (relating to Provisions for Educator Preparation Candidates).

(b) An educator preparation program may adopt requirements for admission in addition to those required in subsection (a) of this section.

§239.10. Preparation Program Requirements.
(a) Structured, field-based training must be focused on actual school-based experiences with each of the standards identified in §239.15 of this title (relating to Standards Required for the School Counselor Certificate) to include experiences with diverse types of students and grade levels.

(b) An educator preparation program must develop and implement specific criteria and procedures that allow a candidate to substitute related professional counselor training and/or experience directly related to the standards identified in §239.15 of this title for part of the preparation coursework or other program requirements.

(c) An educator preparation program for the school counselor certificate must prepare students to understand and implement the Texas Model for Comprehensive School Counseling Programs (relating to Chapter 33, Subchapter A, of the Texas Education Code).
§239.15. Standards Required for the School Counselor Certificate.

(a) School Counselor Certificate Standards. The knowledge and skills identified in this section must be used by an educator preparation program in the development of curricula and coursework and by the State Board for Educator Certification as the basis for developing the examination required to obtain the School Counselor Certificate. The standards also serve as the foundation for the professional growth plan and continuing professional education activities required by §239.25 of this title (relating to Requirements to Renew the Standard School Counselor Certificate).

(b) Standard I. Learner-Centered Knowledge: The certified school counselor has a broad knowledge base. The certified school counselor must know and understand:

1. the history and philosophy of counseling;
2. counseling and consultation theories and practices;
3. career development theories and practices;
4. the roles and responsibilities of a comprehensive school counseling program that emphasizes college and career readiness and postsecondary options for all students, including college admissions, college financial aid resources, application procedures, and workforce and career opportunities;
5. assessment principles and procedures, including the appropriate use of tests, test interpretation, and test results;
6. changing societal trends, including demographic, economic, and technological tendencies, and their relevance to school counseling;
7. environmental, social, and cultural factors that affect learners' development and the relevance of those factors to educational, career, personal, and social development, along with comprehensive school guidance and counseling programs;
8. learners' developmental characteristics and needs and their relevance to educational and career choices;
9. legal and ethical standards, practices, and issues, and the importance of commitment to and implementation of ethical principles;
10. the characteristics and educational needs of special populations;
11. theories and techniques in pedagogy and classroom management, techniques and behavioral interventions to assist teachers with classroom management;
12. the integration of a school counseling program with the Texas College and Career Readiness Standards, and academic curricula;
13. the roles and responsibilities of a comprehensive school counselor in a developmental guidance and counseling program that is responsive to all students;
14. counseling-related research techniques and practices;
15. developing and teaching best practices on leadership skills;
16. how cultural factors and group membership impact individual students;
17. the comprehensive school counseling program model;
18. how to utilize various forms of technology and how inappropriate use could be professionally and personally harmful; and
19. an understanding of systems, including family dynamics and school environments.
Standard II. Learner-Centered Skills: The certified school counselor applies the knowledge base to promote the educational, personal, social, and career development of the learner as outlined in the Texas Model for Comprehensive School Counseling Programs. The certified school counselor must:

1. develop processes and procedures for planning, designing, implementing, and evaluating the Texas Model for Comprehensive School Counseling Programs [a developmental guidance and counseling program];
2. provide a proactive, comprehensive, developmental school counseling [guidance] program based on the needs of students, as set forth in the Texas Model for Comprehensive School Counseling Programs;
3. counsel individuals and small groups using appropriate counseling theories and techniques in response to students' needs;
4. consult with parents/guardians, teachers, administrators, and other individuals as appropriate to enhance their work with students;
5. coordinate resources, referrals, and follow-up procedures for students within the school and community;
6. demonstrate proficiency in teaching small and large groups by actively engaging students in the learning process;
7. participate in the selection, use, and interpretation of assessments and assessment results;
8. use multiple sets of information and data to make decisions about students, programs, and services; [varied sources of information about students for assessment purposes];
9. use counseling-related research techniques and evidence-based practices to address student needs; [and]
10. advocate for a comprehensive school [developmental guidance and] counseling program that is responsive to all students;[4]
11. facilitate learners’ ability to achieve their potential by helping them set and attain challenging educational, career, personal, and social goals based on various types of information; and
12. maintain proficiency in counseling and campus-related technology; and
13. use varied sources of information, resources, and practices to counsel students about postsecondary opportunities and college and career readiness.

Standard III. Learner-Centered Process: The certified school counselor participates in the development, monitoring, revision, and evaluation of a campus based on the Texas Model for Comprehensive School Counseling Programs [developmental school guidance and counseling program] that promotes learners' knowledge, skills, motivation, and personal growth. The certified school counselor must:

1. collaborate with others in the school and community to implement a guidance curriculum that promotes learners' development in all domains, including cognitive, social, and emotional areas;
2. facilitate learners' ability to achieve their potential by helping them set and attain challenging educational, career, [and] personal, [and] social goals based on various types of information;
3. use both preventive and intervening strategies to address the concerns of learners and to help them clarify problems and situations, set goals, explore options, and implement change;
4. implement effective referral procedures to facilitate the use of special programs and services; [and]
5. act as a consultant [and/or coordinator] to help learners achieve success inside and outside of school[5]
(6) advocate for a comprehensive school counseling program and recognize the required time commitment to fully apply the program implementation cycle;

(7) create a program mission, goal, and services in alignment with the school mission and campus improvement plan;

(8) create and disseminate literature or newsletters to all stakeholders that describe the comprehensive school counseling program and reduces negative stigmas associated with receiving counseling services in a school-based program;

(9) establish an advisory council or board with membership of all stakeholders (student, parent, teacher, administrator, community member, other personnel, and support specialists);

(10) increase public relations and awareness through community outreach, such as fundraising, grant writing, donations, volunteerism, local businesses, and use of public or guest speakers;

(11) provide school-wide professional development and parent workshops throughout the school year;

(12) support participation in fair-share responsibilities versus non-counseling related duties;

(13) know district, state, and federal initiatives that are to be reflected in a comprehensive school counseling program; and

(14) develop practices to promote learners’ knowledge about college and career readiness processes necessary to pursue postsecondary opportunities.

(e) Standard IV. Learner-Centered Equity and Excellence for All Learners: The certified school counselor promotes academic success for all learners by acknowledging, respecting, and responding to diversity while building on similarities that bond all people. The certified school counselor must:

(1) understand learner differences, including those related to cultural background, gender, race, ethnicity, socio-economic levels, academic ability, and learning styles, and know ways to create and maintain a positive school environment that is responsive to all learners;

(2) advocate for a school environment in which diversity is acknowledged and respected, resulting in positive interactions across all cultures, genders, ethnicities, and learning styles; and

(3) facilitate learning and achievement for all students to ensure services that cover an array of exceptionalities, including special populations, by promoting a cooperative, inclusive, and purposeful learning environment;

(4) take a positive, strength-based approach that builds on commonalities versus differences in all learners;

(5) understand how environment and behavior may impact or influence individual learners;

(6) ensure equitable access to programs and services for all students;

(7) understand how family values, group membership, and culture intersect;

(8) acknowledge learners’ gifts, strengths, and extra-curricular talents when considering programs and services;

(9) increase students’ awareness and include their voice regarding educational and individualized plans; and

(10) ensure equitable access and exposure to postsecondary opportunities and college and career readiness information, and resources for students and parents/guardians.

(f) Standard V. Learner-Centered Communications: The certified school counselor, an advocate for all students and the school, demonstrates effective professional and interpersonal communication skills. The certified school counselor must:
demonstrate effective communication through oral, written, and nonverbal expression;

(2) use knowledge of group dynamics and productive group interaction;

(3) support responsive interventions by effectively communicating with parents/guardians, teachers, administrators, and community members;

(4) facilitate learners' access to community resources;

(5) develop and implement strategies for effective internal and external communications;

(6) facilitate parent/guardian involvement in their children's education;

(7) develop partnerships with parents/guardians, businesses, and other groups in the community to facilitate learning; 

(8) work effectively as a team member to promote positive change for individuals, groups, and the school community;

(9) take a positive, strength-based approach that verbalizes commonalities versus differences in all learners;

(10) effectively communicate their roles and responsibility and counselor identity to all stakeholders to reduce confusion about the duties of a school counselor;

(11) adhere to best practices connected to ethical and legal considerations around appropriate use of technology and email, documentation, record-keeping, privileged communication, and informed consent process; and

(12) facilitate access to and use of school and community information and resources related to postsecondary opportunities and college and career readiness by learners, parents/guardians, teachers, administrators, and community members.

Standard VI. Learner-Centered Professional Development: The certified school counselor continues professional development, demonstrating a commitment to learn, to improve the profession, and to model professional ethics and personal integrity. The certified school counselor must:

(1) use reflection, self-assessment, and interactions with colleagues to promote personal professional development;

(2) use counseling-related research techniques and practices as well as technology and other resources to facilitate continued professional growth;

(3) strive toward the highest level of professionalism by adhering to and modeling professional, ethical, and legal standards;

(4) apply research-based practice to improve the school guidance and counseling program; and

(5) continue engage in ongoing professional development to improve the school guidance and counseling program; and

(6) engage in continued professional development experiences to learn and apply concepts, skills, and practices related to increasing college and career readiness and promoting postsecondary opportunities and preparation for all learners.

To be eligible to receive the standard School Counselor Certificate, a candidate must:

(1) successfully complete a school counselor preparation program that meets the requirements of §239.10 of this title (relating to Preparation Program Requirements) and §239.15 of this title (relating to Standards Required for the School Counselor Certificate);

(2) successfully complete the examination based on the standards identified in §239.15 of this title;
(3) hold, at a minimum, a 48-hour master's degree in counseling from an accredited institution of higher education that at the time was accredited or otherwise approved by an accrediting organization recognized by the Texas Higher Education Coordinating Board; and

(4) have two creditable years of teaching experience as a classroom teacher, as defined in Chapter 153, Subchapter CC, of this title (relating to Commissioner's Rules on Creditable Years of Service) and the Texas Education Code, §5.001(2).

§239.25. Requirements to Renew the Standard School Counselor Certificate.

(a) An individual issued a standard counselor certificate under this title from September 1, 1999, to August 31, 2000, is subject to Chapter 232, Subchapter B, of this title (relating to Certificate Renewal and Continuing Professional Education Requirements), except that only 150 clock hours of continuing professional education must be completed during the first five-year renewal period. During subsequent renewal periods, the holder of such an active standard counselor certificate must satisfy the most current requirements for renewal.

(b) An individual issued the standard School Counselor Certificate on or after September 1, 2000, is subject to Chapter 232, Subchapter B, of this title, and must satisfy the most current requirements for renewal.

(c) An individual who holds a valid Texas counselor certificate issued prior to September 1, 1999, may voluntarily comply with the requirements of this section under procedures implemented by the Texas Education Agency staff under §232.810 of this title (relating to Voluntary Renewal of Current Texas Educators).

§239.30. Transition and Implementation Dates.

(a) Section 239.20 of this title (relating to Requirements for the Issuance of the Standard School Counselor Certificate) shall be implemented [September 1, 2002] (with a date to be determined by the TEA Rulemaking Division), and shall supersede all conflicting provisions in this title on [September 1, 2003] insert new date TBD. All other sections of this subchapter shall take effect pursuant to the Texas Government Code, §2001.036.

(b) Not later than [September 1, 2003] (with a date to be determined by the TEA Rulemaking Division), the following provisions shall no longer apply to the School Counselor Certificate:

(1) Section 245.5(a)(2) of this title (relating to Requirements for Issuance of a Texas Certificate Based on Certification from Another Country), as it existed on May 5, 2000; and

(2) the "teaching practicum" requirement in §245.10(a)(2)(B) of this title (relating to Application Procedures), as it existed on May 5, 2000.

Chapter 239. Student Services Certificates

Subchapter C. Educational Diagnostician Certificate

§239.80. General Provisions.

(a) Because the educational diagnostician plays a critical role in campus effectiveness and student achievement, the rules adopted by the State Board for Educator Certification in this subchapter ensure that each candidate for the Educational Diagnostician Certificate is of the highest caliber and possesses the knowledge and skills necessary to improve the performance of the diverse student population of this state.

(b) An individual serving as an educational diagnostician is expected to actively participate in professional development activities to continually update his or her knowledge and skills. Currency in best practices and research as related to both campus leadership assessment and student learning is essential.

(c) The holder of the Educational Diagnostician Certificate issued under the provisions of this subchapter may serve as an educational diagnostician, including providing educational assessment and evaluation, as
required by the Individuals with Disabilities Education Act (IDEA) or other applicable law, for students from Early Childhood-Grade 12 birth through adulthood.

§239.81. Minimum Requirements for Admission to an Educational Diagnostician Preparation Program.

(a) Prior to admission to an educator preparation program leading to the Educational Diagnostician Certificate, an individual must:

(1) hold a baccalaureate degree from an accredited institution of higher education that at the time was accredited or otherwise approved by an accrediting organization recognized by the Texas Higher Education Coordinating Board;

(2) hold a valid classroom teaching certificate; and

(3) meet the requirements for admission to an educator preparation program under Chapter 227 of this title (relating to Provisions for Educator Preparation Candidates).

(b) An educator preparation program may adopt requirements for admission in addition to those required in subsection (a) of this section.

§239.82. Preparation Program Requirements.

(a) Structured, field-based training must be focused on actual experiences with each of the standards identified in §239.83 of this title (relating to Standards Required for the Educational Diagnostician Certificate) to include experiences with diverse types of students, grade levels, and campuses.

(b) An educator preparation program [must] may develop and implement specific criteria and procedures that allow a candidate to substitute related professional educational diagnostician training and/or experience directly related to the standards identified in §239.83 of this title for part of the preparation coursework or other program requirements.

§239.83. Standards Required for the Educational Diagnostician Certificate.

(a) Educational Diagnostician Certificate Standards. The knowledge and skills identified in this section must be used by an educator preparation program in the development of curricula and coursework and by the State Board for Educator Certification as the basis for developing the examination required to obtain the standard Educational Diagnostician Certificate. The standards also serve as the foundation for the professional growth plan and continuing professional education activities required by §239.85 of this title (relating to Requirements to Renew the Standard Educational Diagnostician Certificate).

(b) Standard I. The educational diagnostician understands and applies knowledge of the purpose, philosophy, and legal foundations of evaluation and special education.

(1) The [beginning] educational diagnostician knows and understands:

(A) state and federal regulations relevant to the role of the educational diagnostician;

(B) laws and legal issues related to the assessment and evaluation of individuals with educational needs;

(C) models, theories, and philosophies that provide the basis for special education evaluations;

(D) issues, assurances, and due process rights related to evaluation, eligibility, and placement in the least restrictive environment within a continuum of services; and

(E) rights and responsibilities of parents/guardians, schools, students, and teachers and other professionals in relation to individual learning needs.

(2) The [beginning] educational diagnostician is able to:

(A) articulate the purpose of evaluation procedures and their relationship to educational programming; and
(B) conduct evaluations and other professional activities consistent with the requirements of laws, rules and regulations, and local district policies and procedures.

(c) Standard II. The educational diagnostician understands and applies knowledge of ethical and professional practices, roles, and responsibilities.

(1) The [beginning] educational diagnostician knows and understands:
   (A) ethical practices regarding procedural safeguards (e.g., confidentiality issues, informed consent) for individuals with disabilities;
   (B) ethical practices related to assessment and evaluation;
   (C) qualifications necessary to administer and interpret various instruments and procedures; and
   (D) organizations and publications relevant to the field of educational diagnosis.

(2) The [beginning] educational diagnostician is able to:
   (A) demonstrate commitment to developing quality educational opportunities appropriate for individuals with disabilities;
   (B) demonstrate positive regard for the culture, gender, and personal beliefs of individual students;
   (C) promote and maintain a high level of competence and integrity in the practice of the profession;
   (D) exercise objective professional judgment in the practice of the profession;
   (E) engage in professional activities that benefit individuals with exceptional learning needs, their families, and/or colleagues;
   (F) comply with local, state, and federal monitoring and evaluation requirements;
   (G) use copyrighted educational materials in an ethical manner; and
   (H) participate in the activities of professional organizations in the field of educational diagnosis.

(d) Standard III. The educational diagnostician develops collaborative relationships with families, educators, the school, the community, outside agencies, and related service personnel.

(1) The [beginning] educational diagnostician knows and understands:
   (A) strategies for promoting effective communication and collaboration with others, including parents/guardians and school and community personnel, in a culturally responsive manner;
   (B) concerns of parents/guardians of individuals with exceptional learning needs and appropriate strategies to help parents/guardians address these concerns;
   (C) strategies for developing educational programs for individuals through collaboration with team members;
   (D) roles of individuals with disabilities, parents/caregivers, teachers, and other school and community personnel in planning educational programs for individuals; and
   (E) family systems and the role of families in supporting student development and educational progress.

(2) The [beginning] educational diagnostician is able to:
(A) use collaborative strategies in working with individuals with disabilities, parents/caregivers, and school and community personnel in various learning environments;

(B) communicate and consult effectively with individuals, parents/guardians, teachers, and other school and community personnel;

(C) foster respectful and beneficial relationships between families and education professionals;

(D) encourage and assist individuals with disabilities and their families to become active participants in the educational team;

(E) plan and conduct collaborative conferences with individuals who have exceptional learning needs and their families or primary caregivers;

(F) collaborate with classroom teachers and other school and community personnel in including individuals with exceptional learning needs in various learning environments;

(G) communicate with classroom teachers, administrators, and other school personnel about characteristics and needs of individuals with disabilities;

(H) use appropriate communication skills to report and interpret assessment and evaluation results;

(I) provide assistance to others who collect informal and observational data;

(J) effectively communicate to parents/guardians and professionals the purposes, methods, findings, and implications of assessments; and

(K) keep accurate and detailed records of assessments, evaluations, and related proceedings (e.g., admission, review, and dismissal/individualized education program (ARD/IEP) meetings, parent/guardian communications and notifications).

(e) Standard IV. The educational diagnostician understands and applies knowledge of student assessment and evaluation, program planning, and instructional decision making.

(1) The [beginning] educational diagnostician knows and understands:

(A) the characteristics, needs, and rights of individual students in relation to assessment and evaluation for placement in the least restrictive environment within a continuum of services;

(B) the relationship between evaluation and placement decisions; and

(C) the role of team members, including the student when appropriate, in planning an individualized program.

(2) The [beginning] educational diagnostician is able to:

(A) use assessment and evaluation information to plan individualized programs, establish measurable annual goals and objectives, and make instructional decisions that result in appropriate services for individuals with disabilities, including those from culturally and/or linguistically diverse backgrounds;

(B) interpret and use assessment and evaluation data for targeted instruction and ongoing review; and

(C) assist in identifying realistic expectations for educationally relevant behavior (e.g., vocational, functional, academic, social) in various settings.
Standard V. The educational diagnostician knows eligibility criteria and procedures for identifying students with disabilities and determining the presence of an educational need.

1. The beginning educational diagnostician knows and understands:
   A. characteristics of individuals with disabilities, including those with different levels of severity and with multiple disabilities;
   B. educational implications of various disabilities; and
   C. the variation in ability exhibited by individuals with particular types of disabilities.

2. The beginning educational diagnostician is able to:
   A. access information on the cognitive, communicative, physical, social, and emotional characteristics of individuals with disabilities and the assistive technology needs of those students;
   B. gather background information regarding the academic, medical, and family history of individuals with disabilities; and
   C. use various types of assessment and evaluation procedures appropriately to identify students with disabilities and to determine the presence of an educational need.

Standard VI. The educational diagnostician selects, administers, and interprets appropriate formal and informal assessments and evaluations.

1. The beginning educational diagnostician knows and understands:
   A. basic terminology used in assessment and evaluation;
   B. standards for test reliability;
   C. standards for test validity;
   D. procedures used in standardizing assessment instruments;
   E. possible sources of test error;
   F. the meaning and use of basic statistical concepts used in assessment and evaluation (e.g., standard error of measurement, mean, standard deviation);
   G. uses and limitations of each type of assessment instrument;
   H. uses and limitations of various types of assessment data;
   I. procedures for screening, prereferral, including RTI (e.g., response to intervention/multi-tiered support), referral, and eligibility;
   J. the appropriate application and interpretation of derived scores (e.g., standard scores, percentile ranks, age and grade equivalents, stanines);
   K. the necessity of monitoring the progress of individuals with disabilities;
   L. methods of academic and nonacademic (e.g., vocational, transition, developmental, assistive technology) assessment and evaluation; and
   M. methods of motor skills assessment.

2. The beginning educational diagnostician is able to:
   A. collaborate with families and other professionals in the assessment and evaluation of individuals with disabilities;
   B. select and use assessment and evaluation materials based on technical quality and individual student needs;
(C) score assessment and evaluation instruments accurately;
(D) create and maintain assessment reports;
(E) select or modify assessment procedures to ensure nonbiased results;
(F) use a variety of observation techniques;
(G) assess and interpret information using formal/informal instruments and procedures in the areas of cognitive/adaptive behavior and academic skills;
(H) determine the need for further assessment in the areas of language skills, physical skills, social/emotional behavior, and assistive technology;
(I) determine a student's needs in various curricular areas, and make intervention, instructional, and transition planning recommendations based on assessment and evaluation results;
(J) make recommendations based on assessment and evaluation results;
(K) prepare assessment reports; and
(L) use performance data and information from teachers, other professionals, individuals with disabilities, and parents/guardians to make or suggest appropriate modifications and/or accommodations within learning environments.

(h) Standard VII. The educational diagnostician understands and applies knowledge of ethnic, linguistic, cultural, and socioeconomic diversity and the significance of student diversity for evaluation, planning, and instruction.

(1) The [beginning] educational diagnostician knows and understands:

(A) issues related to definition and identification procedures for individuals with disabilities, including individuals from culturally and/or linguistically diverse backgrounds;
(B) characteristics and effects of the cultural and environmental backgrounds of students and their families, including cultural and linguistic diversity, socioeconomic diversity, abuse/neglect, and substance abuse;
(C) issues related to the representation in special education of populations that are culturally and linguistically diverse;
(D) ways in which native language and diversity may affect evaluation; and
(E) strategies that are responsive to the diverse backgrounds and particular disabilities of individuals in relation to evaluation, programming, and placement.

(2) The [beginning] educational diagnostician is able to:

(A) apply knowledge of cultural and linguistic factors to make appropriate evaluation decisions and instructional recommendations for individuals with disabilities; and
(B) recognize how student diversity and particular disabilities may affect evaluation, programming, and placement, and use procedures that ensure nonbiased results.

(i) Standard VIII. The educational diagnostician knows and demonstrates skills necessary for scheduling, time management, and organization.

(1) The [beginning] educational diagnostician knows and understands:

(A) time-management strategies and systems appropriate for various educational situations and environments;
(B) legal and regulatory timelines, schedules, deadlines, and reporting requirements; and
methods for organizing, maintaining, accessing, and storing records and information.

(2) The educational diagnostician is able to:
(A) select, adapt, or design forms to facilitate planning, scheduling, and time management;
(B) maintain eligibility folders; and
(C) use technology appropriately to organize information and schedules.

(j) Standard IX. The educational diagnostician addresses students' behavioral and social interaction skills through appropriate assessment, evaluation, planning, and instructional strategies.
(1) The educational diagnostician knows and understands:
(A) requirements and procedures for functional behavioral assessment, manifestation determination review, and behavioral intervention plans that incorporate positive behavioral supports and interventions;
(B) applicable laws, rules and regulations, and procedural safeguards regarding the planning and implementation of behavioral intervention plans for individuals with disabilities;
(C) ethical considerations inherent in behavior interventions;
(D) teacher attitudes and behaviors that influence the behavior of individuals with disabilities;
(E) social skills needed for school, home, community, and work environments;
(F) strategies for crisis prevention, intervention, and management;
(G) strategies for preparing individuals to live productively in a multiclass, multiethnic, multicultural, and multinational world; and
(H) key concepts in behavior intervention (e.g., least intrusive accommodations/modifications within the learning environment, reasonable expectations for social behavior, social skills curricula, cognitive behavioral strategies).

(2) The educational diagnostician is able to:
(A) conduct functional behavioral assessments;
(B) assist in the development of behavioral intervention plans; and
(C) participate in manifestation determination review.

(k) Standard X. The educational diagnostician knows and understands appropriate curricula and instructional strategies for individuals with disabilities.
(1) The educational diagnostician knows and understands:
(A) instructional strategies, technology tools and applications, and curriculum materials for students with disabilities within the continuum of services;
(B) varied learning styles of individuals with disabilities;
(C) curricula for the development of motor, cognitive, academic, social, language, affective, career, and functional skills for individuals with disabilities;
(D) techniques for accommodating and/or modifying instructional methods and materials for individuals with disabilities;
(E) functional skills instruction relevant to transitioning across environments (e.g., preschool to elementary school, school to work);
(F) supports needed for integration into various program placements; and
individualized assessment strategies for instruction (e.g., authentic assessment, contextual assessment, curriculum-based assessment).

(2) The [beginning] educational diagnostician is able to:

(A) interpret and use assessment and evaluation data for instructional planning; and

(B) use assessment and evaluation, planning, and management procedures that are appropriate in relation to student needs and the instructional environment.

§239.84. Requirements for the Issuance of the Standard Educational Diagnostician Certificate.

To be eligible to receive the standard Educational Diagnostician Certificate, a candidate must:

(1) successfully complete an educational diagnostician preparation program that meets the requirements of §239.82 of this title (relating to Preparation Program Requirements) and §239.83 of this title (relating to Standards Required for the Educational Diagnostician Certificate);

(2) successfully complete the examination based on the standards identified in §239.83 of this title;

(3) hold, at a minimum, a master’s degree from an accredited institution of higher education that at the time was accredited or otherwise approved by an accrediting organization recognized by the Texas Higher Education Coordinating Board;

(4) hold a valid classroom teaching certificate; and

(5) have [two] three creditable years of teaching experience as a classroom teacher, as defined in Chapter 153, Subchapter CC, of this title (relating to Commissioner’s Rules on Creditable Years of Service) and the Texas Education Code, §5.001(2).

§239.85. Requirements to Renew the Standard Educational Diagnostician Certificate.

(a) An individual issued the standard Educational Diagnostician Certificate under this title is subject to Chapter 232, Subchapter B, of this title (relating to Certificate Renewal and Continuing Professional Education Requirements).

(b) An individual who holds a valid Texas educational diagnostician certificate issued prior to September 1, 1999, may voluntarily comply with the requirements of this section under procedures implemented by the Texas Education Agency staff under §232.810 of this title (relating to Voluntary Renewal of Current Texas Educators).

§239.86. Transition and Implementation Dates.

Section 239.84 of this title (relating to Requirements for the Issuance of the Standard Educational Diagnostician Certificate) shall be implemented and shall supersede all conflicting provisions in this title on [September 1, 2003] (with a date to be determined by the TEA Rulemaking Division). All other sections of this subchapter shall take effect pursuant to the Texas Government Code, §2001.036.
