Approved Innovative Course

- Districts must have local board approval to implement innovative courses
- Innovative courses may meet state elective credit only
- CTE Innovative courses may not be the final course in a coherent sequence for an endorsement
- Course requirements must be met without modification

Course: Parenting Education I
PEIMS Code: N1302536
Abbreviation: PAED1
Grade Level(s): 9-12
Number of Credits: 1.0

Course description:

This course is designed to address the special needs and interests of students who are parents or expectant parents. Special emphasis is placed on prenatal care and development, postnatal care, infant care, child development, and parenting skills. Other units of study address personal development, responsible parenthood and adult roles, family problems and crises, conflict resolution, family health issues, nutrition, safety, management, and employability skills. Students develop the knowledge and skills to the multiple roles of student, parent, family member, and provider.

Essential knowledge and skills:

(a) General requirements. This course is recommended for students in Grades 9-12. Students shall be awarded one credit for successful completion of each course.

(b) Introduction

1. Career and technical education instruction provides content aligned with challenging academic standards and relevant technical knowledge and skills for students to further their education and succeed in current or emerging professions.

2. The Human Services Career Cluster focuses on preparing individuals for employment in career pathways that relate to families and human needs such as counseling and mental health services, family and community services, personal care services and consumer services.

3. This course is designed to address the special needs and interests of students who are parents or expectant parents. Special emphasis is placed on prenatal care and development, postnatal care, infant care, child development, and parenting skills. Other units of study address personal development, responsible parenthood and adult roles, family problems and crises, conflict resolution, family health issues, nutrition, safety, management, and employability skills.
Approved Innovative Course

health issues, nutrition, safety, management, and employability skills. Students develop the knowledge and skills to the multiple roles of student, parent, family member, and provider.

(4) Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

(c) Knowledge and skills

(1) The student demonstrates professional standards/employability skills. The student is expected to:

   (A) demonstrate effective methods to secure, maintain, and terminate employment;
   (B) explain the importance of a positive work ethic;
   (C) practice positive human-relations skills; and
   (D) demonstrate appropriate grooming, appearance, and etiquette for the workplace;
   (E) apply interpersonal communication skills in business and industry settings;
   (F) explain the value of collaboration within the workplace;
   (G) discuss the importance of time management on workplace success; and
   (H) identify the impact of social media and technology use on employability.

(2) The student evaluates factors related to personal development and interpersonal relationships. The student is expected to:

   (A) analyze personal strengths and abilities;
   (B) apply techniques to develop self-awareness;
   (C) apply strategies and skills for self-direction;
   (D) describe adjustments related to achieving independence;
   (E) determine responsibilities of living as an independent adult;
   (F) describe qualities necessary to support strong, healthy relationships;
   (G) describe the development of healthy relationships;
   (H) identify strategies for coping with peer and family pressures;
Approved Innovative Course

- **Districts must have local board approval to implement innovative courses**
- **Innovative courses may meet state elective credit only**
- **CTE Innovative courses may not be the final course in a coherent sequence for an endorsement**
- **Course requirements must be met without modification**

*Approved Innovative Course*

(I) analyze the importance and benefits of sex education as it relates to the emotional health of unmarried persons and the prevention of un-planned pregnancy and sexually-transmitted diseases; and

(J) research the effectiveness or ineffectiveness of abstinence, barrier protection, and other contraceptive methods in the prevention of pregnancy, sexually-transmitted diseases, and the sexual transmission of HIV or acquired immune deficiency syndrome, and repeat pregnancy.

(3) The student describes parenthood and adult roles. The student is expected to:

(A) explain the legal responsibilities involved in parenting such as paternity testing or self-identification of the biological parent;
(B) identify and summarize the roles of parents;
(C) explain the changing roles of parents throughout the family life cycle;
(D) analyze the impact of changing societal patterns, demographics, and cultural diversity on the role of parents and families throughout the life span;
(E) determine strategies for managing the multiple roles of parents;
(F) analyze resources affecting management of multiple adult roles including parent, student, and provider;
(G) summarize the impact of pregnancy on the family;
(H) identify commitments and decisions involved in child rearing such as selecting health care, providing insurance, providing financial support, and securing housing and child care; and
(I) evaluate the potential effects of the addition of children on family members.

(4) The student analyzes the impact of prenatal care and development on the child and mother. The student is expected to:

(A) explain the human reproductive system;
(B) describe the signs of pregnancy;
(C) discuss the role of genetics in prenatal development;
(D) summarize the stages of prenatal development
(E) describe the components and effects of good prenatal care
(F) analyze the effects of alcohol, tobacco, other drugs, and environmental factors on the development of the fetus;
Approved Innovative Course

- Districts must have local board approval to implement innovative courses
- Innovative courses may meet state elective credit only
- CTE Innovative courses may not be the final course in a coherent sequence for an endorsement
- Course requirements must be met without modification

(G) describe the components and effects of good prenatal care;
(H) summarize the stages of prenatal development;
(I) describe the process of labor and delivery;
(J) discuss the impact of technological advances on prenatal care and development;
(K) describe neonatal care and its potential effect on the well-being of the child;
(L) describe postnatal care and its potential effect on the well-being of the mother; and
(M) describe nutritional needs prior to and during pregnancy and lactation.

(5) The student analyzes parental responsibilities that promote health and wellness of infants and toddlers. The student is expected to:

(A) identify signs of good health and symptoms of illness in infants and toddlers;
(B) describe techniques for caring for a sick infant or toddler;
(C) identify strategies that promote a safe environment for infants and toddlers;
(D) identify and describe the responsibilities of parents in appropriately managing the safety and health care of infants and toddlers;
(E) identify nutritional needs during infancy and early childhood;
(F) explain the responsibilities of parents in providing infants and toddlers with nutritionally adequate diets; and
(G) demonstrate for the appropriate feeding of a baby and a toddler;

(6) The student analyzes the growth and development of the child from infancy through age three. The student is expected to:

(A) describe characteristics of the newborn;
(B) summarize various theories related to child growth and development such as those by Freud, Erikson, Brazelton, or Piaget;
(C) explain the physical, emotional, social, and cognitive development of the newborn, infant, and toddler;
(D) describe characteristics and safety considerations of developmentally appropriate play activities, reading, toys, and equipment for infants and toddlers;
(E) explain strategies for caring for children with special needs; and
(F) describe the responsibilities of parents as their children's first teacher.

(7) The student summarizes appropriate guidance techniques for children of various ages and developmental levels. The student is expected to:

(A) identify various types of guidance techniques and programs such as Positive Guidance, responsive language, and modeling;
(B) identify developmentally appropriate guidance techniques;
(C) identify and discuss the characteristics of a positive role model;
(D) describe parenting styles such as authoritarian, authoritative, permissive, or uninvolved and the effects on children;
(E) identify and discuss strategies for promoting communication between parents and children;
(F) identify behaviors that may lead to child abuse; and
(G) identify strategies that deter abusive behavior.

(8) The student evaluates how individual and family crises affect family relationships and parenting. The student is expected to:

(A) identify family crises that may affect housing, finances, relationships, or childcare;
(B) analyze how family crises affect family and parenting relationships;
(C) identify strategies for preventing and coping with family crises;
(D) identify various communication and conflict resolution strategies such as asking questions, listening, feedback, observation, open a book, managing stress; and
(E) evaluate the impact of social media on relationships.

(9) The student analyzes child care options and services. The student is expected to:

(A) identify criteria for selecting quality child care;
(B) research and compare child care options for children of various ages;
(C) explain the financial considerations of child care options;
Approved Innovative Course

- Districts must have local board approval to implement innovative courses
- Innovative courses may meet state elective credit only
- CTE Innovative courses may not be the final course in a coherent sequence for an endorsement
- Course requirements must be met without modification

and

(D) identify agencies and services that protect the rights of children.

(10) The student demonstrates effective practices for managing financial resources. The student is expected to:

- (A) demonstrate strategies for meeting individual and family needs through resource management;
- (B) identify sources of income;
- (C) describe the effect of personal and family priorities and goals on income and financial planning;
- (D) identify the components of budgeting and develop a working budget for the student and the child;
- (E) identify strategies for coping with financial emergencies;
- (F) explain the components of effective consumer awareness and practices to meet the needs of the child and family;
- (G) identify and summarize the resources available to assist families in need; and
- (H) summarize the effects of financial management on quality of life.

Description of specific student needs this course is designed to meet:

This course is designed to address the special needs and interests of male and female students who are parents or who are pregnant. Special emphasis is placed on prenatal care and development, postnatal care, infant care, child development, and parenting skills. Other units of study address personal development, responsible parenthood and adult roles, family problems and crises, conflict resolution, family health issues, nutrition, safety, management, and employability skills. Students develop the knowledge and skills to manage the multiple roles of student, parent, family member, and wage earner.

Suggested methods for evaluating student outcomes:

Objective Information:
Approved Innovative Course

- Districts must have local board approval to implement innovative courses
- Innovative courses may meet state elective credit only
- CTE Innovative courses may not be the final course in a coherent sequence for an endorsement
- Course requirements must be met without modification

Achievement tests
- Criterion-referenced tests
- Participation counts in activities planned
- Journal/Workbook activities and evaluations
- Research Projects-Rubric grading
- Special Projects as determined by the teacher related to readings, reports, current events or resources

Subjective Information (opinion surveys):
- Teacher questionnaires
- Student questionnaires
- Parental questionnaires

Teacher qualifications:

An assignment for Parenting Education is allowed with one of the following certificates:
- Family and Consumer Sciences, Composite: Grades 6-12
- Human Development and Family Studies: Grades 8-12
