# How Was My District Selected for Data Validation Monitoring-Leaver Intervention Activities?

Data validation monitoring for leaver records (DVM-L) staging determinations and interventions are based upon district performance on eight core indicators.

The data source for Indicators #1-5 and #8 is the TSDS PEIMS 40203 Sub-Category.2 (See Appendix A for a list of the leaver reason codes used in these indicators.) These data are part of districts’ annual fall TSDS PEIMS submission and reflect the 2015-2016 leaver data submitted by districts in the fall of 2016. Indicators #1 and #8 also include TSDS PEIMS data submitted by districts in the fall of 2015; additionally, Indicator #1 includes TSDS PEIMS data submitted by districts in the fall of 2014. The data source for Indicators #6 and #7 is PID Enrollment Tracking reports for August 15, 2016 through September 15, 2017.1,2

Additional information on DVM-L indicators is provided in the [2017 Leaver Records Data Validation Manual](#), and information on district performance on individual indicators is found the [Accountability application](#) within the TEA Secure Environment (TEASE).

| 3     | Had anomalous data for:  
       | • 3 or more indicators  
       | OR  
       | • Indicator #2, percentage of underreported students is **greater than or equal** to 4% |
| 2     | Had anomalous data for:  
       | • 2 indicators  
       | OR  
       | • Indicator #5  
       | OR  
       | • Indicator #2, Percentage of underreported students is **less than or equal** to 3.9%  
       | OR  
       | • Indicator #1 |
| 1     | Had anomalous data for:  
       | • Indicator #8  
       | OR  
       | • Indicator #4  
       | OR  
       | • Indicator #3 |

1. Indicator #6 was suspended for 2017 due to the impact of Hurricane Harvey and the subsequent change to the school start date window.
2. Indicator #7 is not included in the staging chart because no districts triggered the indicator.
