Early Childhood Data System (ECDS)

The Early Childhood Data System (ECDS) is the collection of both prekindergarten and kindergarten student data, which includes student demographic, classroom link information, and assessment data.

The purpose of ECDS is to inform parents, school administrators, the public, statewide stakeholders, the early childhood education community, and policy makers about the quality of early childhood education and help direct resources in an informed manner.

Reporting ECDS Kindergarten Data to TEA

Kindergarten Program Data

The reporting of kindergarten program data for ECDS is **mandatory** for all public-school districts and open-enrollment charter schools. The data collection includes student demographics, classroom link information, and assessment data**.**

Refer to the Kindergarten Program Data Elements for more information.

Kindergarten Assessment Data

LEAs who administer an assessment on the Commissioner's List of Approved Kindergarten Assessment Instruments are required to collect and report assessment results for the Beginning of Year (BOY) administration.

LEAs administering a kindergarten assessment that is not included in the Commissioner's List of Assessment Instruments, should notify the TEA Academics Division of the type of assessment administered. The LEA will be responsible for retaining the data should the TEA decide to collect it at a later date.

LEAs may submit their assessment data in one of the following ways:

Option 1: The LEA's assessment vendor will provide the ECDS assessment data directly to the LEA in TEDS-compliant XML format. The LEA will load the assessment data files into TSDS.

Option 2: The LEA will enter the ECDS assessment data into the TEA provided ECDS Collection Spreadsheet referenced below.

2017-2018 ECDS Collection Spreadsheets

LEAs should utilize the TSDS Validation Tool to convert the data entered in the template into TEDS-compliant XML files. The LEA will load the assessment data files into TSDS.

Refer to the Kindergarten Assessment Data Elements for more information.

Kindergarten Program Data Elements

LEAs are required to submit the following demographic, classroom link, and special program data elements for the 2017-2018 ECDS Kindergarten Collection.

All elements will be submitted by the LEA in the **PEIMS Summer Collection**.

Reporting ECDS Private Prekindergarten Data to TEA

Private Prekindergarten Program Data

The reporting of private prekindergarten program data is **optional**. The data collection includes student demographics, classroom link information, and special program data.

The participating private prekindergarten program will enter ECDS program data into the TEA provided ECDS Collection Spreadsheet referenced below.

2017-2018 ECDS Collection Spreadsheets

The participating private prekindergarten should then utilize the TSDS Validation Tool to convert the data entered in the Excel template into TEDS-compliant XML files. The private prekindergarten will load the program data files into TSDS.

Refer to the Private Prekindergarten Program Data Elements for more information.

Private Prekindergarten Assessments
