**SMART Goal**

Describe the summative SMART goal you have identified for this program (a goal that is Specific, Measurable, Achievable, Relevant, and Timely), either related to student outcome or consistent with the purpose of the grant.

100% of participants in the Principal Preparation grant program will complete the internship coursework and pass the appropriate certification exams by June 2019.

**Measurable Progress**

Identify the benchmarks that you will use at the end of the first three grant quarters to measure progress toward meeting the process and implementation goals defined for the grant.

First-Quarter Benchmark:
- Host an informational meeting on the Principal Preparation grant program.
- Disseminate applications for participation in the Principal Preparation grant program.
- Select candidates based on the selection rubric.
- Select mentor principals/administrators
- Hold orientation meeting to discuss program roles and responsibilities with participants and mentors.
- Participants will be enrolled in courses provided by the partnering IHE
- Participants and mentors will attend the TEA Principal Preparation Summer Institute in June 2018.
Second-Quarter Benchmark:

Participants will complete first semester coursework with partnering IHE.
District leaders will document and monitor participant attendance at AP Toolbox leadership sessions.
District leaders will analyze performance evaluation data on participants based on IHE and mentor observations and coaching notes.
Participants will implement campus leadership activities and shadow mentor principals.

Third-Quarter Benchmark:

District leaders will analyze performance evaluation data on participants based on IHE and mentor observations and coaching notes.
District leaders will analyze participant passing rate on practice certification exam.
District leaders will survey participants satisfaction with IHE and mentor principal and make adjustments as needed.
District leaders will collect and analyze program performance measure data.

Project Evaluation and Modification:

Describe how you will use project evaluation data to determine when and how to modify your program. If your benchmarks or summative SMART goals do not show progress, describe how you will use evaluation data to modify your program for sustainability.

Katy ISD agrees to collect data and report on the following mandatory performance measures:
Performance evaluation data on principal residents such as observations, teacher survey, and coaching notes will be used to monitor participants throughout the program and adjustments will be made during subsequent coaching sessions and classes. Participants will complete authentic leadership activities which will incorporate their ability to address and resolve a significant problem/challenge in the school that influences practice and student learning. Leadership activities will consist of the skills needed to establish and support effective and continuous professional development. Participants will lead activities that build a collaborative team within the school to improve instructional practice, student achievement, and the school culture. Each leadership activity planned will also consist of a pre-conference to guide the participant ensuring all required leadership aspects are present. After the leadership activity is conducted, the participant and the mentor will reflect on the success of the activity through the use of coaching protocols. Participants will take a practice exam to ensure successful completion of the culminating certification exam. Data based on the practice exam will be used to guide future instruction. Participant and mentor survey data will be periodically collected to ensure program goals are being met and feedback will be collected to inform any adjustments required throughout the program.

The following demographic/program data will also be collected for all participants to meet performance measure requirements and will be used to determine if program modifications are required:
- Post residency placement information for all principal residents.
- Demographic information of principal residents.
- Residents' program completion rates.
- Residents' satisfaction rates with IHE/EPP and mentor principal.
- Number of applicants for principal residency within an LEA.
- Residents' certification test scores.
1. The LEA must provide sustained and rigorous clinical learning in an authentic school setting and substantial leadership responsibilities such as the ability to address and resolve a significant problem/challenge in the school that influences practice and student learning; the skills needed to establish and support effective and continuous professional development with assigned teaching staff; and the ability to facilitate stakeholders’ efforts to build a collaborative team within the school to improve instructional practice, student achievement, and the school culture.

The Katy ISD Leadership Residency in conjunction with Houston Baptist University will provide field experiences in school leadership at the campus level with emphasis on public relations, personnel administration, pupil behavior and discipline, curriculum development, instructional leadership, and facilities management. Participants will be assigned to work with a certified campus leader for a minimum of 160 clock hours in the field. In the overall two-semester time period, participants are given experiences in applying management fundamentals to an on-going school program leading them to successful completion of an applicable certification exam.

The internship will include an analysis of the role of the principal in curriculum development, organization and evaluation, discipline, student behavior, community relations, the teaching/learning process, in-service training, and leadership in teacher growth and evaluation. Emphasis is on the personal qualities of leadership conducive to good human relations. Participants will gain substantial leadership tools such as the ability to address and resolve a significant problem/challenge in the school that influences practice and student learning. Additionally, participants will acquire the skills needed to establish and support effective and continuous professional development with assigned teaching staff.

In partnership with the IHE, participants will address the requisite knowledge, performances, and dispositions necessary for a school leader to collaborate with families and community members, respond to diverse community interests and needs, and mobilize community resources. Participants will study the meaning of collaborative leadership and the actions necessary to build working alliances. Much attention is focused on the strategies needed to connect across multiple and diverse community boundaries. Participants also become familiar with an emergent body of research regarding school, family, and community collaboration around schooling issues. In addition, participants explore the interpersonal communication skills necessary to become effective communicators of the campus vision and mission.

Coursework will be combined with district-led leadership development sessions. The AP Toolbox meetings are designed to strengthen instructional knowledge and leadership skills and to provide meaningful, collaborative and inclusive leadership trainings for current assistant principals, instructional coordinators, and Principal Preparation grant participants. These shared meeting times provide avenues to explore, learn, evaluate, communicate, collaborate and share pressing topics, as well as experience situational leadership.

Additionally, participants will be assigned a district mentor who has exhibited excellent leadership skills and has been able to make an exceptional impact in the lives of students. These mentors will assist and guide program participants as they implement leadership activities on their campuses and with the community. Participants will benefit from the informal transfer of knowledge grounded in many years of successful leadership and education.
2. The LEA must ensure that there is a systematic and informed targeted recruitment and selection process utilizing demonstrated criteria such as track record of measurable student achievement, evaluations/appraisals, interpersonal leadership, response to observations and feedback, and growth mindset to ensure quality of future principal pool. Plan for consideration of the following in LEA recruitment and selection strategy: degree to which the diversity of the residents mirrors that of the student population.

District leadership, in conjunction with campus administration, will implement a systematic plan to recruit a diverse body of applicants who exhibit promising leadership skills. Applicants will complete a rigorous application process to ensure the best candidates are selected in preparation for future campus leadership positions. Applicants will be selected using a selection rubric based on the following criteria:

- Minimum 2 years teaching experience
- Two letters of recommendation from campus/department leadership
- Essay illustrating evidence of campus leadership experience
- Proven history of effective teaching practices based on previous evaluations/appraisals
- Currently holding a master’s degree or less than one year to complete
- Meets admission requirements for Houston Baptist University
- Interview with district leadership selection committee

3. The LEA must provide the name of the institution of higher education (IHE) or educator preparation program (EPP) providing principal preparation; the IHE’s or EPP’s scope and sequence that includes topics such as student culture routines, data-driven instruction, observation and feedback, team effectiveness, personal leadership, change management, and delivering effective professional development; and the IHE’s or EPP’s required reading and textbooks.

Katy ISD will partner with Houston Baptist University to offer coursework and principal certification to participants in the Principal Preparation grant program who currently hold a master’s degree or have less than one year remaining and lack principal certification. Participants will enhance their understanding of how consistent and systemic use of data shifts school cultures toward learner-centered communities that recognize achievement gaps in learning among student populations. Through the analysis of data, participants learn a process for collaboratively inquiring with school faculty to identify significant student learning problems, design research-based intervention strategies, and monitor effectiveness, which contribute to building school capacity and instructional expertise. Through data-driven dialogue, participants practice and learn facilitation strategies to establish high performing teams and enhance personal accountability. Participants explore achievement gaps related to minority and special populations and recognize how their personal belief systems and expectations may impact schooling practices. Participants will facilitate communication and collaboration with educational stakeholders and colleagues by providing professional development opportunities for faculty and making decisions based on converging evidence from research.
4. The LEA must provide the IHE's or EPP's candidate evaluation process and metrics; IHE's or EPP's instructional coaching protocols such as the tools used during observations to identify the highest leverage action steps for the principal resident and the protocol the IHE or EPP uses to conduct feedback sessions.

Students will participate in visits with the Houston Baptist University (HBU) supervisor for a minimum of 135 minutes per internship. The visits may occur on the HBU campus, on the intern's school campus, electronically or by telephone. On one of the campus site visits, the HBU supervisor will observe the intern conducting a leadership activity. The HBU supervisor and intern will conduct a pre/post-conference following this leadership activity. Participants must work with the university supervisor to set up dates and times for campus visits. The university supervisor will visit the candidate at least 3 times a semester. During the pre-conference, participants are asked to discuss the following:

- Type of campus leadership activity
- Standards to be addressed
- Goals and expected outcomes of the activity
- Strategies to be used
- Learning focus and evaluation method

Each campus visit will be centered around one of the 6 TAC standards and observation feedback will be provided for each standard. The observation post-conference will be based on the following discussion items:

- Overall impression of the activity
- Strengths and weaknesses
- Areas for refinement
- Evidence of goal and outcome attainment

Participants are assigned a cooperating site administrator and must complete a minimum of 160 hours on internship activities at one or more school sites. The internship activities shall be completed by the last semester of the program.

*x* The LEA must assure that the principal preparation residency is at least one year in length.

The LEA must assure that partner IHE/EPP provides residents with certification; evidence-based coursework; opportunities to practice and be evaluated in a school setting; and in-person and on-site coaching and evaluation with a minimum of three visits per year.

**ASSESSMENT OF LEARNING**

**Course Requirements.**

- All assignments are to be word-processed (12 pt. font, 1-inch margins, double-spaced, no cover page) unless otherwise indicated. **Print on only one side of the paper.** Points will be deducted and/or the effort revised if these directions are not followed.

- All submissions should be grammatically correct as well as free from misspellings. This is an essential skill for professionals. For that reason, each grammatical error or misspelling will be subject to a 3-point deduction from the total grade for the assignment.

- **Formal Standard English.** It is expected that all oral and written communication be in formal Standard English, including all e-mail correspondence. In written work, penalties will be assessed for difficulties with organization, clarity, punctuation, capitalization and usage as well as use of informal language/slang—even if the content is appropriate.

- All work should include page numbers.

- All classwork efforts (papers/projects and topics) are to be original work that has not been submitted previously or simultaneously or addressed in any other manner in another course.

- All work submitted electronically must have the **student’s last name** in the title of the file/attachment.

- **APA Formatting.** All references and resources should be cited using the American Psychological Association (APA) 6th Ed. style. Questions regarding that style will be welcomed and a style manual is available for viewing. Here is a very helpful website: [http://owl.english.purdue.edu/owl/resource/560/01/](http://owl.english.purdue.edu/owl/resource/560/01/)

- **NOTE:** *The use of Blackboard and ONLY the HBU e-mail system are required*

ASSIGNMENT DESCRIPTIONS AND RUBRICS

Online Journal Assignments (7)
Throughout the semester, students will complete reflection journal entries relating to the class discussions and assigned readings in the Hattie & Yates book. Responses should be no less than 500 words and should cover their interpretation of the concepts discussed and relationship to instructional leadership practices. Entries should be double spaced and in 12 pt. font with respect to APA 6th Ed. citation rules. (30%) TAC 1,4; PSEL4,6; ELCC 1,2

1. Hattie & Yates Chapters 1 & 2
Although there is no necessary connection between knowing an area well and being able to teach it well within a whole class situation, nevertheless, there are many times when the depth of your curriculum knowledge is of incredible importance to you as a principal. Just when is the case?

2. Hattie& Yates Chapters 10, 11, 12
The Bloom report from 1980s point to a consistent pattern underpinning the development of high performers. What sequence of effects and influences was described? Do you agree or disagree? Why?

3. Hattie& Yates Chapters 13, 14
What types of learning are retained easily? What things are forgotten quickly? How can this information be used when coaching teachers?

4. Hattie& Yates Chapters 16, 17, 18
Cognitive load theory says that many aspects of classroom instruction introduce extraneous load. Often learners can tolerate a level of extraneous load. No big deal. So, just when does it become a serious matter, and for whom?

5. Hattie& Yates Chapters 21,22
The advent of the electronic revolution and Internet has not always met with approval from significant educators. Outline the critical or alarmist view? Where are you in this debate? Defend your position.

6. Hattie& Yates Chapters 24, 25, 26
What is the relationship between self-esteem and one's perceived competencies? When do they converge? When are they likely to be quite unrelated? How does this affect you as an instructional leader?

7. Hattie& Yates Chapters 28, 29
Have you ever experienced an incident in school where you simply did not see what you "should have: seen? Given hindsight, was it carelessness? Could I have contributed? Why or why not?
Interview with Instructional Leader

Interview one (1) instructional leader—preferably a principal—to gather information about how this individual articulates his/her instructional leadership and describe his/her practice as an instructional leader. Take notes during the interview and record the interview (if possible). Type up an outline of your notes from the interview, including salient themes, unique insights, and meaningful quotes. Students should include follow up questions to expand missing or clarifying content. Additionally, include a summary of overall learning gained or key “take aways” for becoming a more effective instructional leader. Students should be prepared to participate in a “share-out” activity with the class. (10%) TAC 1,4; PSEL4,6; ELCC 1,2

Questions

- **What does it mean to you to be an “instructional leader”? What gets in the way?**
- **Describe your vision for instruction on your campus.**
- **How do you promote this vision for your school?**
- **How can a leader promote positive change to improve teaching practices?**
- **What do you think makes a “great” teacher?**
- **How do you help teachers set realistic and achievable goals and then meet those goals?**
- **What do you think is the most powerful strategy for improving both teaching and learning?**
- **How do you ensure that staff members continue to grow as professionals?**
- **How do you support teachers to ensure professional development will influence student learning?**
- **How do you motivate teachers (especially ineffective ones) to improve?**
- **How does the new teacher evaluation and support system will effectively improve teaching and learning?**

Instructional Leadership Vision Summary: Creating Your Vision of Instructional Leadership

Throughout the semester, students will complete a short reflective response (1 page, double spaced) to support the development of a personal vision for instructional leadership. This reflection should incorporate concepts from course readings, discuss examples of principles of instructional leadership in practice, and envision the implications to future or observed leadership practice. This reflection is intended to promote more self-directive and self-reflective practitioner leaders as well as cultivate students’ vision of their own Instructional Leadership. T-TESS Pre-Conference and Lesson Observation Summary

Each student will conduct a pre-conference and observe a lesson conducted by a teacher on their home campus. Using the T-TESS rubric, evidence (3 statements of evidence per dimension) and score for the Planning and Instruction Domains will be written. The student will also prepare the feedback/post conference plan which will include the areas of reinforcement and refinement for the teacher with supporting evidence and effective teaching strategies. (15%) TAC 1Aiv; 2Aiv, VII; PASL 4,6,7,10; ISTE 4a; ELCC 1,2

Instructional Action Plan (Paper & Presentation)

An action plan is a detailed sequence of events and/or activities to accomplish a goal.

**Characteristics of a Good Action Plan**

- Links clearly to an identified problem and solutions based on data
- Provides a logical sequence of activities
- Identifies who will be responsible for the activities
- Provides a reasonable timeline for each activity
Teams will collaborate to build an action plan around a specific school-based challenge area. The goal of the assignment is to apply the information and ideas discussed throughout the course into a very practical plan to address the problem. The expectation is not to solve the problem, but to create an action plan for getting the problem solved. This plan should be based on campus data, connected to your campus strategic plan, and budget priorities. (10%) TAC 1,4; PSEL 4,6, 10; ITSE 1,3,4; ELCC 1,2

**Format of Assignments**
All online reflections must be at least 500 words, no longer than 1000 words. Font: Times New Roman, 12 pt. font. Double spaced.
If you refer to any outside sources of information, you must cite it correctly using APA 6th Ed formatting. References must be included at the end of the paper linked to any citation you made. If you use a direct quote, the page number must be included in the citation.

For example, are you more authoritarian or participatory? Why? Be sure to discuss any major discoveries that you found interesting or profound and use citations current research to support your work (three to five pages). Suggested Leadership Profile Links: Examples: yourleadershiplegacy.com/assessment.html, testyourself.psychtests.com, mindtools.com/pages.
