Item 15:
Discussion of Proposed Amendment to 19 TAC Chapter 232, General Certification Provisions, Subchapter A, Certificate Renewal and Continuing Professional Education Requirements, §232.11, Number and Content of Required Continuing Professional Education Hours

DISCUSSION

SUMMARY: This item provides the State Board for Educator Certification (SBEC) an opportunity to discuss an amendment to 19 TAC Chapter 232, General Certification Provisions, Subchapter A, Certificate Renewal and Continuing Professional Education Requirements, §232.11, Number and Content of Required Continuing Professional Education Hours. The proposed amendment would provide continuing professional education (CPE) credit for individuals who pass the components of the performance assessment for the recommended Principal as Instructional Leader endorsement.

STATUTORY AUTHORITY: The statutory authority for 19 TAC Chapter 232, Subchapter A, is the Texas Education Code (TEC), §§21.003(a); 21.0031(f); 21.031; 21.041(b)(1), (4), and (9); 21.0543; and 21.054.

TEC, §21.003(a), states that a person may not be employed as a teacher, teacher intern or teacher trainee, librarian, educational aide, administrator, educational diagnostician, or school counselor by a school district unless the person holds an appropriate certificate or permit issued as provided by the TEC, Chapter 21, Subchapter B.

TEC, §21.0031(f), clarifies and places certain limits on provisions authorizing termination of an educator's contract for failure to maintain a valid certificate.

TEC, §21.031, authorizes the SBEC to regulate and oversee all aspects of the certification, continuing education, and standards of conduct of public school educators.

TEC, §21.041(b)(1), requires the SBEC to propose rules that provide for the regulation of educators and the general administration of the TEC, Chapter 21, Subchapter B, in a manner consistent with the TEC, Chapter 21, Subchapter B.

TEC, §21.041(b)(4), requires the SBEC to propose rules that specify the requirements for the issuance and renewal of an educator certificate.

TEC, §21.041(b)(9), requires the SBEC to propose rules that provide for continuing education requirements.

TEC, §21.0543, requires the SBEC to propose rules that provide for CPE credit related to digital technology instruction.
TEC, §21.054, requires the SBEC to propose rules establishing a process for identifying continuing education courses and programs that fulfill educators’ continuing education requirements.

**FUTURE ACTION EXPECTED:** TEA staff anticipates bringing this item back for proposal in August 2018 after receiving input from the Board at the May 2018 meeting and collecting additional stakeholder input.

**BACKGROUND INFORMATION AND JUSTIFICATION:** 19 TAC Chapter 232, General Certification Provisions, establishes the renewal requirements relating to types and classes of certificates issued, CPE hours to be completed, and the national criminal history record information review. Educators who hold a standard principal certificate are required to participate in 200 hours of CPE activities every five years to maintain their certificates. Educators are required to maintain evidence of their CPE activities. When an educator applies to renew his or her certificate, he or she must verify through an affidavit whether he or she is in compliance with renewal requirements, including CPE activities. When an educator is selected for a CPE audit, the educator must provide Texas Education Agency (TEA) staff with documentation that supports certificate renewal.

At the April 2016 SBEC meeting, the Board adopted new principal standards to better align the standards to contemporary principal practices, principal appraisal, and professional development standards. With the adoption of new standards that reflect the knowledge and skills necessary for today’s principal, the work to draft a new test framework began in Spring 2016. In addition to the standards being updated, there was careful consideration of the changes to the essential role of a principal to schools, students, communities, teachers, etc., from 2002 (when the standards began to be used for assessment purposes) to the current role 16 years later in 2018. Given the changes from the prior 2002 until now, it is recommended that the new principal certification be given a new name that better reflects the current reality. The name that is being recommended is Principal as Instructional Leader.

To ensure candidates for principal certification are adequately prepared for success, the recommended sequence of certification examinations would be to successfully complete the new TExES Principal Examination (268) and then successfully complete a performance assessment. The performance assessment would be composed of authentic tasks that are aligned with the principal standards and submitted through an online system for scoring. The anticipated date for the performance assessment is fall 2019.

Proposed new §232.11(l) would allow individuals who are currently certified as principals the opportunity to strengthen their current certification through the completion of the performance assessment and attainment of a Principal as Instructional Leader endorsement. As an added incentive, the time spent on successfully completing the performance assessment would qualify for CPE hours. For each component of the performance assessment that is successfully completed, an individual would receive 50 clock hours of CPE credit for those serving in the role of principal, other than those with the Principal as an Instructional Leader certificate. Limiting this opportunity to those already currently certified to serve in the role of principal, will ensure that only those who are obtaining the endorsement to receive the CPE hours.

**PUBLIC AND STUDENT BENEFIT:** The public and student benefit will be better alignment of the principal certification standards and the continuing professional education activities that are required for renewal of a principal certificate.
