Introduction
The Educator Preparation Program (EPP) Data Reporting Manual includes information to guide EPP data reporting during the 2018-2019 Academic Year (AY)\(^1\). This manual has been updated to reflect changes that became effective in the prior AY\(^2\). The Texas Education Agency (TEA) will continue to update this manual as reporting systems are updated.

During AY 2018-2019, EPPs submit data about AY 2017-2018 and AY 2018-2019. Where applicable, we have worked to provide clarity on the reporting time frame.

This manual is subject to change over the course of the reporting year. Please refer the updated date on the bottom of the page to ensure you have the most up-to-date edition.

This manual is a service and a resource only. Nothing in this manual overrules statute, code, or other authoritative sources.

This manual is a companion to a series of short webinars that are available on the TEA website.

We appreciate all you do to prepare outstanding educators for our children and our future.

\(^1\) The title of this document has been changed from the “ASEP Technical Manual” to better reflect the contents.
\(^2\) Only those screenshots that have changed have been updated in this edition.

What’s New for 2018-2019?

Testing Company
As of 9/1/2018, NCS Pearson is the central vendor for teacher certification exams. This role had previously been occupied by ETS. Information about the transition is available online at http://www.tx.nesinc.com.

Title II Reporting
This shift in testing company greatly affects the procedures for Title II reporting. Pearson has developed a manual for Title II reporting along with online guidance. Due to this additional guidance, the Title II section of this manual has been changed.

GPA Spreadsheet
The GPA Spreadsheet used to report AY 2017-2018 data has been changed. We have revised the data dictionary with consistent explanations of how the data must be reported.

Formal Admission
Texas Administrative Code (TAC) §227.17 implemented formal admission procedures for EPPs. The formal admission date is the effective date that you specified in the written (paper or electronic) offer of formal admission. EPPs must notify TEA within seven calendar days of a candidate’s formal admission by uploading or entering the candidate in the Test Approval window. The admission date should be the same for all tests approved.

Observations
All programs must record observations for their candidates in ECOS. TAC §228.35(g) has detailed requirements for different levels of support for different types of candidates. In August 2018, ECOS was updated to capture different assignment types and related observation types, along with assignment end dates.

Manual
The SBEC rules that the manual supports have changed significantly. We have worked to incorporate feedback from users of this manual, and later editions will continue to incorporate your improvements. Send comments regarding this manual to Mark Olofson at Mark.Olofson@tea.texas.gov.
Candidate Definitions

Throughout this manual, candidates are described by their status in relation to the EPP and their programs of study. These commonly used terms will appear as capitalized in the text when referring to candidates as a class.

Applied
An individual seeking admission to an educator preparation program for any class of certificate

Admitted
An individual who has been formally or contingently admitted to an educator preparation program

Other Enrolled
Candidates who were admitted in the current reporting year or in any earlier reporting year who were still in the process of completing the program requirements as of August 31 of the academic year

Retained
A designation on the Annual Performance Report that is the same as Other Enrolled

Finisher
Candidates who have finished all educator preparation program requirements of coursework, training, and practicum, clinical teaching, or internship by August 31 of the academic year

Completer
A designation on the Annual Performance Report that is the same as Finisher

ASEP Reporting

The following sections will describe how to report data related to the Accountability System for Educator Preparation (ASEP). This data is reported in the Educator Certification Online System (ECOS) and via the GPA Spreadsheet. This section starts with the admission of a candidate and walks you, the reporter, through the reporting that must take place at different stages of the teacher’s candidacy. We will follow one candidate, Ivana Teach, through her education and training to demonstrate how you report candidate data for ASEP. Certainly, the details will vary per your program’s procedures, but the major reporting requirements are generally the same across programs.

The Big Picture

Imagine a candidate going through your program. She will show up on your reporting at different points in her training. Consider a candidate who earns her certificate in about a year.

<table>
<thead>

<td></td>
</tr>
</tbody>
</table>

After the candidate finishes your program, if she completes all required tests and obtains a standard certificate, her data will show up in the numbers of certified persons/certificates awarded lists. She will also be included in the EPP data for the Principal Survey, Exit Survey, New Teacher Survey, and retention.

5 Ivana Teach is fictional. Her SSN is a random set of numbers, and all other demographic information is made up. Any similarities to a real teacher candidate are purely coincidental.

©Copyright Texas Education Agency

Updated September 16, 2018
Getting ECOS Access

TEA online applications work best with Internet Explorer or Firefox. They are less reliable with Google Chrome or Safari.

Before you begin you must be able to get into ECOS using your TEAL (TEA Login) account. TEA has provided guidance on how to get access to the necessary reporting features through the ECOS for Entities link on the TEA Secure Applications page. There you can find TEAL Access Instructions for ECOS Entity Users and you can Request Access Online. The TEA Secure Applications link is featured prominently in the blue “Popular Applications” ribbon on the TEA Home Page. If you are unable to get into TEAL and ECOS, speak first to your legal authority or the person at your institution responsible for providing ECOS access permission. If necessary, you can also get help from your program specialist.

Application and Admission

The first point of contact with teacher candidates is likely at the application stage. In our example, Ivana arrived at your program in October 2018 wanting to be an elementary school teacher. She completed an application, submitted her transcripts and other required paperwork, and paid an application fee. Ivana is an Applicant.

A different person applied the same day, Don Elvin. You decided to admit Ivana but not admit Don. Ivana is Admitted. Don is only an Applicant.

Now that you’ve accepted Ivana into your program, you will record her enrollment in six places:

1. Test approval window
2. GPA spreadsheet
3. Finisher Records List
4. APR Table
5. Pearson Title II website
6. Westat Title II website

Application and Admission Record Keeping

In applying, Ivana brings her application, her enthusiasm, her records, and required reporting in for ASEP. EPPs are required to report the number of candidates who apply, are admitted, retained, and complete the program, disaggregated by race, gender, and ethnicity. Because you don’t know all the candidates who will apply, be admitted to, retained, or complete your program, TEA advises EPPs to develop a table to track this information over the year so you will be able to easily complete the Annual Performance Report (APR). If Ivana and Don were the first candidates of AY 2018-2019, your table would look something like this.

---

6 This has also been called the “Finisher List” and the “Other Enrolled List.” The Finisher Records List contains both Finishers and Other Enrolled. ECOS users can apply filters to view only Finishers (yielding the “Finisher List”) or only Other Enrolled (yielding the “Other Enrolled List”). See the Finisher Records List section for additional information.

7 See TEC §21.045(b)
Both Don and Ivana are in the Applied column, but only Ivana is in the Admitted column. Ivana is also listed in the Retained column, because as soon as she is admitted she is considered retained. The AY when Ivana is admitted is the only year she will be in the Admitted column, but she will remain in the Retained column until she completes or leaves your program. Notice that the sum of male and female equals All, and the sum of the ethnic groups equals All. This is required in APR reporting.

Admission Notification
Having decided to admit Ivana to your program, you must notify her of the offer of formal admission in writing by mail, personal delivery, facsimile, email or an electronic notification, including the effective date of formal admission. The applicant must accept your offer to be formally admitted to your program. Finally, you must notify the TEA within seven calendar days of a candidate’s formal admission. Because of the short deadline, TEA recommends that EPPs give candidates a deadline for accepting or refusing admission. Please see Appendix 1 for a sample formal admission letter. You must notify TEA that you have admitted Ivana by adding her information through the Test Approval screen in ECOS.

Test Approval
The test approval screen in ECOS is where EPPs approve candidates to take certification exams and where EPPs communicate candidate admission to their program. This reporting can be done for candidates through individual data entry or as part of a bulk upload.

Adding Test Approval Individually
1. Log on to ECOS for Entities for your program (this is the “Green Screen”)
2. Select Test Approval menu
3. Select Search Add/Edit Applicants

---

8 Any candidate who applies, is admitted, retained, or completes a program at any point during the year must be captured on the APR.
9 TAC §227.17
10 TEA plans to provide EPPs with a separate upload screen to provide admission information in the future.
4. If Ivana already has a TEA ID, enter her TEA ID and click **Search**
5. If Ivana does not have a TEA ID and has never been in ECOS, enter her social security number (SSN), tick the **Create with Given SSN** box, and click **Search**

6. Add the relevant information for the applicant. Enter the name exactly as it appears on the candidate’s driver’s license or passport. **DOUBLE-CHECK** the information you entered to be sure it is correct
7. Click **Save**
8. Click **OK** to continue.

---

11 Accurate names and social security numbers are critical. Be sure the name you enter is exactly the name that appears on the candidate’s driver’s license or passport. The candidate will be turned away from testing if the names differ.
9. Click **Add Test Approval**

10. Put the effective date of formal admission in the **Date of Admittance** window. This is the date you specified in your admission correspondence to the applicant/candidate.
   a. Each candidate should have only one admission date
   b. This date must be between 9/1/2018 and 8/31/2019 for AY 2018-2019 candidates

11. Select the route for Ivana’s program and your institution.
12. Select the test for the certification the candidate is pursuing or “Not Assigned”
13. Select the appropriate approval level (“Eligible” or “Approved for One Attempt”)  
14. Click **Save**

---

12 TEC §21.048 limits a candidate to an initial attempt at a test and four retakes. TAC §229.4 holds programs accountable for candidate success on certification exams. Consequently, you should be sure your candidates are well prepared to pass the test before you change them from Eligible (0) to Approved for 1 Attempt (1).
Check your work when you’re finished.
1. Click the Maintain Test List menu option
2. Select the relevant filter (“All”)
3. Select the relevant “Academic Year”
4. Click the Refresh List button
5. Check that you put the right information in for Ivana

Uploading Test Approval in Bulk
Uploading individual candidates one at a time can be time consuming for larger programs. If you create a .csv file using Excel with the relevant candidate data, you can upload as many as 200 candidates at one time. This can be done by following these steps:

1. Click on Upload New Students/Test Approvals. The file layout is shown below with an example.
2. Create your .csv file taking guidance from the Upload screen. Do not use headers. There should be 10 columns (A-J) when you’re done. These are the same values provided in the individual data entry screen.
   A. SSN or P number\(^\text{13}\)  
   B. Last Name  
   C. First Name  
   D. Middle Name (Optional)  
   E. Date of Birth (mm/dd/yyyy)  
   F. Email address  
   G. Admittance Date (mm/dd/yyyy)  
   H. Route  
   I. Test Code  
   J. Test Approval

Your completed file will look something like this:

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
<th>E</th>
<th>F</th>
<th>G</th>
<th>H</th>
<th>I</th>
<th>J</th>
</tr>
</thead>
<tbody>
<tr>
<td>2080762</td>
<td>Teach</td>
<td>Ivana</td>
<td>01/01/1900</td>
<td><a href="mailto:iteach@epp.edu">iteach@epp.edu</a></td>
<td>10/01/2018</td>
<td>31</td>
<td>291</td>
<td>0</td>
<td></td>
</tr>
</tbody>
</table>

3. Save your file as .csv to a location where you will be able to locate it

\(^{13}\) Accurate names and social security numbers are critical. Be sure the name you enter is exactly the name that appears on the candidate’s driver’s license or passport. The candidate will be turned away from testing if the names differ.
4. Click **Yes** as necessary through multiple dialogue windows to save as .csv
5. Close the file, ensuring it remains in .csv format
6. On the **Upload** screen, click **Browse...**
7. Browse to find the .csv file you saved
8. Click **Upload**

If your file was created correctly, you will get a message confirming the upload.

**Test Approval Upload Tips**
1. You cannot edit existing test approvals using the upload function
2. Disable pop-up blockers
3. Spam blockers may block TEA notifications
4. No stray numbers, commas, additional lines, spaces, or columns
5. Check for extra lines by opening the spreadsheet in Notepad or Wordpad
6. If you get a message that the upload failed, you will need to upload the file again
Confirm Test Approvals

1. Click the **Test Approval** menu
2. Select **Upload Status**
3. Click the **Test Approvals** link in the “Upload Type” column to see a text version of what you uploaded. It will look like:

   741852963, TEACH, IVANA,,01/01/1900,ivana.teach@gmail.com,10/01/2018,31,291,0

4. Click the appropriate date/time stamp in the “Upload Results” column to see any errors that occurred when you uploaded.
5. If necessary, correct any errors and upload again.

NOTE: Don’t rely on the computer to identify errors. ECOS will identify some data type errors, but it will not identify data content errors. Ask a colleague to cross-check your work.

Congratulations, you have successfully recorded Ivana Teach as a candidate in your program in an internal table you will use to complete the APR and in the test approval system. The next step is to record her on the GPA spreadsheet.

GPA Spreadsheet

EPPs provide information for all candidates admitted in the prior academic year using the GPA spreadsheet. In determining whether you would enroll Ivana in your program, you reviewed her transcripts; much of this transcript information must be listed on the GPA spreadsheet. It is the responsibility of the EPP to ensure that the individuals reported as admitted using the Test Approval screen are identical to the persons listed on your GPA spreadsheet.

TEA posts a blank GPA spreadsheet on the Program Provider Resources page, along with a GPA Spreadsheet Data Dictionary. This spreadsheet is updated annually so programs must be sure to get the new template every year. As a practical matter, you should update a working version of the GPA spreadsheet whenever you admit a new candidate. This will allow you to keep up with your new candidates and monitor how your program is doing in relation to minimum GPA requirements for cohorts. Here is how a portion of the spreadsheet will look for Ivana.
The GPA spreadsheet for the AY should only include candidates admitted between September 1 and August 31 of that academic year. A candidate will likely only appear on your GPA spreadsheet one year\textsuperscript{14}. For example, if Ivana was admitted in AY 2018-2019 and remains with your program through AY 2019-2020, she will not be on the 2019-2020 GPA spreadsheet.

Once you have completed your GPA spreadsheet for the AY, you will email it to the program specialist who works with your EPP. The GPA spreadsheet is due on or before September 15\textsuperscript{15}, following the close of the academic year on August 31. Since a GPA spreadsheet must contain all candidates admitted through August 31, GPA spreadsheets are generally submitted in the 15-day period between September 1 and September 15. If a program has updated the GPA spreadsheet throughout the year, final preparation for submission should only require double-checking information for quality assurance. Failure to supply an accurate and timely GPA spreadsheet can result in negative consequences for your EPP.

**Finisher Records List**
All candidates, including newly admitted candidates, must be entered on the Finisher Records List. Within the ECOS system, the Finisher Records List contains two types of candidates\textsuperscript{16}.

1. Other Enrolled – Candidates who were admitted in the current reporting year or in any earlier reporting year who were still in the process of completing the program requirements as of August 31 of the reporting year
2. Finisher – Candidates who have finished all educator preparation program requirements of coursework, training, and practicum, clinical teaching, or internship by August 31 of the reporting year

\textsuperscript{14} There are possible exceptions. If a candidate is dis-enrolled from your program without finishing, then re-applies and is re-admitted to the program, then the candidate could be on a GPA spreadsheet more than one year.

\textsuperscript{15} TAC §229.3(e) specifies September 15 as the reporting deadline.

\textsuperscript{16} There is also an “All but Clinical” category in ECOS. This is an archival designation and is no longer used. Do not put any candidates in “All but Clinical.”

©Copyright Texas Education Agency Updated September 16, 2018
Since Ivana is now part of your program but has a lot of work to do before she finishes your program, her name must be listed as Other Enrolled on the Finisher Records List. You can add Ivana as Other Enrolled individually or as part of a bulk upload.

ECOS migrates Other Enrolled candidates from one year to the next, but EPPs must update the year for these candidates, and you should check this list for accuracy.

Adding an Other Enrolled Candidate Individually

1. Select Student Search in the ASEP menu
2. Enter the candidate’s Social Security Number or TEA ID number
3. Select Search
4. Select the appropriate code in the “Certification Code” column
5. Select the appropriate AY in the “Reporting Year” column
6. Select proper “Status” (Other Enrolled)
7. Click Save

Check to ensure Ivana Teach is on your Other Enrolled list.
1. Click **Maint Finishers**
2. Select the appropriate year group
3. Select Other Enrolled
4. Click **Continue**
5. Double-check that Ivana’s information is correct

6. If needed, click on Ivana’s name to reopen the **Student Maintenance** window. Note the current information is listed on top. If necessary, you can edit data fields for accuracy.

### Uploading Other Enrolled in Bulk

You can add up to 500 candidates at a time through the **Upload Finishers** function. Note: you cannot update candidate statuses on the Finisher Records List using the Upload function. For guidance on how to change a candidate’s status, for example from Finisher to Other Enrolled, see the “Maintain Finishers” section of this manual.

1. In the ASEP menu click **Upload Finishers**
2. Create your .csv file. Do not use headers. Use the guidance on the **Upload Finishers** screen when creating your .csv file. There should be 6 columns.
   - A. TEA ID
   - B. Last Name
   - C. First Name
   - D. Cert License ID
   - E. Route (3 = Alternative, 4=Post-Baccalaureate, 5 = Traditional)

17. You can edit within limits. Only TEA can modify a candidate’s SSN or name. That is another reason why it’s very important to enter the candidate’s name correctly when you first put her into ECOS.

18. See the Bulk Upload section above for details about creating a .csv file.
F. Finishing Status (4 = Finisher, 6 = Other Enrolled)\textsuperscript{19}

Your spreadsheet will look something like this.

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
<th>E</th>
<th>F</th>
</tr>
</thead>
<tbody>
<tr>
<td>2080762</td>
<td>Teach</td>
<td>Ivana</td>
<td>1772</td>
<td>5</td>
<td>4</td>
</tr>
</tbody>
</table>

3. Save your spreadsheet as a .csv file
4. On the *Upload Finishers* screen, select the Reporting Year from the dropdown menu
5. Click the *Browse* button and select your .csv file for uploading
6. Click *Upload*

6. Click *OK*

7. Click *Test Approval* in the Main Menu.
8. Click *Upload Status*
9. Just as you did with the test approval bulk upload, check the upload in the “Upload Type” column and look for errors “Upload Results” column.

\textsuperscript{19} Use 4 or 6 only. Do not use 5 = All But Clinical.
Remember: The list of candidates who are Other Enrolled will roll over when the new academic year is activated and the past year is closed. You do not have to add Other Enrolled candidates back into the ASEP system each year. You should view this list to ensure and certify its accuracy.

Annual Performance Report
The Annual Performance Report is where you provide a complete list in ECOS of all the candidates who applied, admitted, retained, and completed the program, disaggregated by gender and ethnicity. This report is the complete version of the table we recommended you create in the Application and Admission section. If you diligently updated your table throughout the year, this report should be relatively straight-forward.

Let’s update the table you began earlier. Remember that a candidate who is Retained is a candidate who has been admitted to the program but has not completed the program, withdrawn from the program, or been removed from the program. This definition includes candidates you admitted this year, and it also includes candidates admitted in prior years who are still in your program. This is the same as Other Enrolled. Retained candidates are listed by name and certification field on the Finisher Records List as Other Enrolled.

Remember that Retained on the APR is a snapshot of all the candidates in your program on August 31. Applied, Admitted and Completed are continuously collected data that include anyone who moved in or out of those categories during the academic year.

For illustration, let’s consider a program that admitted 100 of 120 applicants as of December 31, 2018. In this example, 75 candidates continued in the program from 2017-2018 and earlier. Here is what the table looks like as of December 31, 2018:

<table>
<thead>
<tr>
<th>Group</th>
<th>Applied</th>
<th>Admitted</th>
<th>Retained</th>
<th>Completed</th>
</tr>
</thead>
<tbody>
<tr>
<td>All</td>
<td>120</td>
<td>100</td>
<td>175</td>
<td></td>
</tr>
<tr>
<td>Female</td>
<td>80</td>
<td>75</td>
<td>125</td>
<td></td>
</tr>
<tr>
<td>Male</td>
<td>40</td>
<td>25</td>
<td>50</td>
<td></td>
</tr>
<tr>
<td>African-American</td>
<td>12</td>
<td>10</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Hispanic</td>
<td>28</td>
<td>25</td>
<td>45</td>
<td></td>
</tr>
<tr>
<td>Other</td>
<td>10</td>
<td>5</td>
<td>10</td>
<td></td>
</tr>
<tr>
<td>White</td>
<td>70</td>
<td>60</td>
<td>105</td>
<td></td>
</tr>
</tbody>
</table>
Please note:

- The number of males and females equals “All” in each column.
- The total of the ethnic groups equals “All” in each column²⁰.
- The “Retained” column includes the 100 newly admitted candidates and the 75 candidates from previous years who were still in the program.
- The number listed in “All” in the “Retained” column is equal to the number of Other Enrolled on the Finisher Records List.

Now fast forward to August 31, 2019. In this example, 65 of the 75 candidates admitted in prior academic years have completed the program, along with Ivana Teach. Here is what the table looks like as of August 31, 2019. The 66 Completers (65 + 1) are listed in the “Completed” column. Counts for gender groups sum to “All” in each column, and counts for ethnic groups sum to “All” in each column. In ECOS the 2018-2019 Finisher Records List has 109 Other Enrolled and 66 Finishers. These correspond with the values for Retained and Completed in the APR.

<table>
<thead>
<tr>
<th>Group</th>
<th>Applied</th>
<th>Admitted</th>
<th>Retained</th>
<th>Completed</th>
</tr>
</thead>
<tbody>
<tr>
<td>All</td>
<td>120</td>
<td>100</td>
<td>109</td>
<td>66</td>
</tr>
<tr>
<td>Female</td>
<td>80</td>
<td>75</td>
<td>79</td>
<td>46</td>
</tr>
<tr>
<td>Male</td>
<td>40</td>
<td>25</td>
<td>30</td>
<td>20</td>
</tr>
<tr>
<td>African-American</td>
<td>12</td>
<td>10</td>
<td>10</td>
<td>5</td>
</tr>
<tr>
<td>Hispanic</td>
<td>28</td>
<td>25</td>
<td>30</td>
<td>15</td>
</tr>
<tr>
<td>Other</td>
<td>10</td>
<td>5</td>
<td>4</td>
<td>6</td>
</tr>
<tr>
<td>White</td>
<td>70</td>
<td>60</td>
<td>65</td>
<td>40</td>
</tr>
</tbody>
</table>

**Regarding Ethnicity Group Designations**

The ethnicity categories available for the APR in ECOS do not match the federal ethnicity categories. Use the following table to match the federal category to the APR category.

<table>
<thead>
<tr>
<th>APR Category</th>
<th>Federal/ECOS Category</th>
</tr>
</thead>
<tbody>
<tr>
<td>African-American</td>
<td>African American, Black/African Amer</td>
</tr>
<tr>
<td>Hispanic</td>
<td>Hispanic, Hispanic/Latino</td>
</tr>
<tr>
<td>Other</td>
<td>Asian, Am Indian/Alaska Nat, Hawaiian/Pac Isl, Two or more races</td>
</tr>
</tbody>
</table>

²⁰ If a candidate does not provide gender or ethnicity, please use the candidate’s self-reported ECOS demographic data.
Submitting the Annual Performance Report
With your accurate table listing the number of Applied, Admitted, Retained and Completed by gender and ethnicity, you are prepared to enter these data into the Annual Performance Report in ECOS.

1. Select **Annual Performance Entry/Review** in the ASEP menu
2. Select the year by the last part of the academic year (e.g., AY 2017-2018 → 2018)
3. Select the demographic group. Note that you will report the rows of the APR table one by one
4. Click **Continue**

5. Click **Add Record**
6. **Reselect the year** (This is very important, otherwise you will not be recording the data properly, and you must re-enter the information again later)
7. Select the Demographic Group
8. Enter the number of Applied, Admitted, Retained, and Completed from your table
9. Click **Save**
10. ECOS reports “Record Added”
11. Repeat the same process for each row in your table – All, Female, Male, African-American, Hispanic, Other and White.

**Before you enter any numbers in the cells, be sure the correct reporting year is showing in the “Year” dropdown.**
Check you work when you’re finished.

1. Click **Annual Performance Report** in the ASEP menu.
2. Select the reporting year (e.g., AY 2017-2018 → 2018).
3. Click **Continue**
4. Check the data on the ASEP Annual Performance Report against the table you created.
   Ensure all the data is entered correctly. Remember:
   - “All” in Retained should equal the number of persons listed as Other Enrolled on your Finisher Records List
   - “All” in Completed should equal the number of persons listed as Finisher on your Finisher Records List
5. If the data is not correct, go back to the **Annual Performance Entry/Review** screen and enter the correct data
Note: Due to a glitch in ECOS, the ASEP Annual Performance Report shows duplicate lines for the race/ethnicity categories. You may disregard the duplicate line. This duplicate line does not reflect the accuracy of the data.

Candidate Withdrawals
Sometimes a candidate will apply to your program, be admitted to your program, and then change her mind about pursuing certification through your program. Here is how you should report a candidate who applies and is admitted then withdraws, across the various reporting locations.

1. APR Applied: +1
2. APR Admitted: +1
3. APR Retained: 0
4. APR Finisher: 0
5. Test Approval: Listed initially, approval can be updated to “removed.”
6. GPA Spreadsheet: Listed with all relevant information
7. Finisher Records List – Listed upon admission as Other Enrolled and then removed.
8. Title II – A candidate who is admitted then resigns before the end of the academic year should not appear on either the Pearson or the Westat Title II reports21.

21 See later sections for Title II reporting information
Ongoing Reporting on ECOS

Throughout the reporting year there are several things that must be reported in the ECOS system. These include information on field observations, updating candidate statuses, reporting changes in certification fields, and providing test approval.

Observations

Ivana is making great progress in her training, and now she is now conducting her internship or clinical teaching experience. Your program is supporting her by observing her teaching and providing feedback and advice.

Programs must report clinical and intern/probationary teacher observations, with a field supervisor (identified by TEA ID) for each observation. This information allows programs to understand and track the efficacy of their observation systems.

Accurate reporting of observations is vital. The number of observations for each candidate is a performance standard, and affects EPP accreditation\textsuperscript{22}. The ratio of field supervisors to candidates is reported publicly along with other consumer information.

Although the system requires continued reporting, it also provides more information to programs, including lists of field supervisors, candidate-to-supervisor ratios broken down by semester and year, and lists of observations for your program.

Note: Observation reporting has changed since the beginning of AY 2017-2018.

Adding Field Supervisors Manually

1. From the ASEP menu select Field Supervisors

\textsuperscript{22} See TAC §229.4(a)(4)(A) and TAC 229.4(d), (e), and (f) for additional information.
2. Click the **Add Field Supervisors** button.

3. Enter the supervisor’s TEA ID\textsuperscript{23}. The supervisor name will populate from their ECOS account.

4. Select the state from which the supervisor holds a certificate.
   - If the candidate holds a Texas certificate as well as certificates from other states, select “Texas”
   - If the supervisor holds certificates from multiple states, select the most recent state
   - If the supervisor does not have a certificate, select “Yukon\textsuperscript{24}”

5. Click **Save**

\textsuperscript{23} Field supervisors must be reported by their TEA ID numbers.

\textsuperscript{24} Currently the IT system does not have a “No Certificate” option even though the rule allows this. The rule changed after the IT system was established. Selecting “Yukon” allows us to identify uncertified field supervisors until the IT system can catch up with the rules.
The field supervisor’s data will appear in the Field Supervisor Maintenance screen.

You can add another field supervisor by clicking the Add Field Supervisor button. You can delete a field supervisor or change her certification state by clicking on her last name.

Uploading Field Supervisors in Bulk

You can upload field supervisors as a group rather than individually. This requires creating a .csv file and uploading it through the Upload Observations screen.

1. In the ASEP menu click Upload Observations
2. Create your .csv file. Do not use headers. Use the guidance on the Upload Observations screen to create your .csv file. Your spreadsheet should be 4 columns when you’re done.

25 Once a field supervisor has been linked to a candidate through an observation, you cannot delete the field supervisor unless you first delete the observation(s) the supervisor is credited with conducting.
A. Supervisor Last Name (25 max)  
B. Supervisor First Name (20 max)  
C. Supervisor TEA ID (9 max)  
D. In or Out of State Certificate (2-letter Postal Code State Abbreviation)

Your spreadsheet will look something like this.

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dumbledore</td>
<td>Albus</td>
<td>123456</td>
<td>TX</td>
</tr>
</tbody>
</table>

3. On the Upload Observations screen, select “Field Supervisor” from the “Upload File Type” dropdown menu
4. Use the Choose File button to browse to and select your .csv file for uploading.
5. Click Upload
6. Click on Test Approval in the Main Menu.
7. Click Upload Status
8. Just as you did with the test approval bulk upload, check the upload in the “Upload Type” column and look for errors in the “Upload Results” column.
9. Review the list of field supervisors in the Field Supervisor Maintenance screen.

Entering Observations

Once you have entered your field supervisors in ECOS, you are ready to record observations. You can record and modify observations individually, or you can upload observations in bulk. Upload all the observations your program conducts, including those beyond the required minimum and those for candidates who withdrew or were removed from the program.

IMPORTANT FOR OBSERVATIONS THAT OCCUR FROM 7/1 – 9/14: Due to how the system works, observations that occur between July 1 and the rollover date cannot be entered until after the rollover date of 9/15. Please log these observations offline and enter them into ECOS after the rollover.

Adding Observations Individually

1. In the ASEP menu select Observations
2. Enter the candidate’s TEA ID number
3. Click Add Record
4. Select the Supervisor TEA ID from the dropdown menu
   • NOTE: The supervisor’s first and last names will populate automatically
5. Enter a comment
6. Select the observation date from the popup calendar

7. Enter the observation duration using the arrows
8. Select the Assignment Begin Date from the popup calendar
• NOTE: This is the beginning date for the candidate’s field experience assignment. There should be just one assignment begin date for all the observations for a candidate in a single academic year.

9. Select the Assignment End Date from the popup calendar.
• NOTE: This is the end date for the candidate’s field experience assignment. There should be just one assignment end date for all the observations for a candidate in a single academic year.

10. Select the Assignment Type from the dropdown list. A legend for the assignment types is provided at the bottom of the screen.
   a. NOTE: If candidates have more than two assignments during their internship or clinical teaching, please select the two assignments option.

11. Click Save
12. View the new record

Uploading Observations in Bulk
If your program has many observations to enter at one time, you can upload observations in bulk rather than individually.

1. In the ASEP menu click **Upload Observations**
2. Create your .csv file. Use guidance from the *Upload Observation* screen to create your file. Do not use headers. There should be 12 columns when you’re done.

   A. Supervisor Last Name (maximum 25 characters)
   B. Supervisor First Name (maximum 20 characters)
   C. Beginning Date of Assignment (should not be a future date) (mm/dd/yyyy)
   D. Candidate’s TEA ID Number (should be existing TEA ID) (maximum 9 characters)
   E. Candidate’s Last Name
   F. Candidate’s First Name
   G. Observation Date (should be unlocked year) (should be on or after Beginning Date of Assignment) (should not be a future date) (mm/dd/yyyy)
   H. Observation Duration (hh:mm) (00:01 to 12:59)
   I. Supervisor Comments (Length range 1 to 250 characters)
   J. Supervisor TEA ID (maximum 9 characters)
   K. Assignment Type (maximum 9 characters)
   L. End date of Assignment (mm/dd/yyyy)

Your spreadsheet will look something like this:

<p>| | | | | | | | | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>B</td>
<td>C</td>
<td>D</td>
<td>E</td>
<td>F</td>
<td>G</td>
<td>H</td>
<td>I</td>
<td>J</td>
<td>K</td>
<td>L</td>
</tr>
<tr>
<td>---</td>
<td>-----</td>
<td>---------</td>
<td>-------</td>
<td>-----</td>
<td>-------</td>
<td>---------</td>
<td>-----</td>
<td>---------</td>
<td>------</td>
<td>------</td>
<td>-------</td>
</tr>
<tr>
<td></td>
<td>Perez</td>
<td>Donna</td>
<td>09/05/2018</td>
<td>2080762</td>
<td>Teach</td>
<td>Ivana</td>
<td>09/08/2018</td>
<td>1:05</td>
<td>See File</td>
<td>999998</td>
<td>INT1</td>
</tr>
</tbody>
</table>

3. Select “Observation Log” from the “Upload File Type” dropdown menu
4. Use the **Choose File** button to browse to and select your .csv file for uploading.
5. Click **Upload**

6. Click on **Test Approval** in the Main Menu.

7. Click **Upload Status**

8. Just as you did with the test approval bulk upload, check the upload in the “Upload Type” column and look for errors “Upload Results” column.

9. Review the observation logs for a sample of candidates to ensure the upload was complete and accurate.

The EPP is responsible for ensuring that all data is entered and correct. Do not depend on the “Your file was uploaded successfully” message because it will not detect most errors. Use the Upload Status function to view the data you entered. You can avoid many problems by verifying uploads.
Common Observation Uploading Problems

There are a few common issues that cause ECOS to error out then entering individual observations or uploading bulk observations. Here are issues we have identified:

- Candidate is not in the Finisher Records List as Other Enrolled or Finisher
- Date of the observation is a future date
- Date of the observation is before the beginning date of the assignment
- Observation date is outside the reporting year
- Time is formatted incorrectly. Time must be formatted 00:00
- Comment column contains commas, semicolons, or other punctuation that confuses the .csv format. Keep it simple – for example “See student log”
- Cells are blank where they shouldn’t be or have stray marks where they should be blank
- Blank rows between candidate records
- “Error Line: 1: Missing Delimiter ‘,’ should be 11 in each row uploaded” means there should be 12 columns and there are either too many or too few columns. Copy the spreadsheet into Notepad to identify missing spaces or other anomalies
- TEA ID numbers are missing – for the candidate or the field supervisor
- Nickname used instead of name listed in ECOS
- Column headers present – the upload cannot distinguish between column headers and data, so if you try to upload a file with column headers you will get an error

IMPORTANT FOR OBSERVATIONS IN JULY, AUGUST, AND THE FIRST HALF OF SEPTEMBER: ECOS attempts to attribute these candidates to the succeeding academic year, but it will not be able to do this until the succeeding year’s Finisher Records List is populated with Other Enrolled candidates by the annual data rollover. Please refrain from uploading these observations until after the rollover.

Modifying Observation Records

1. Click Observations on the ASEP menu
2. Enter the candidate’s TEA ID number.
3. Click Search
4. Click the hyperlinked observation date.
5. Modify the record as needed.
6. Click Update
Removing a Record

1. Click **Observations** on the ASEP menu
2. Enter the candidate’s TEA ID number
3. Click **Search**
4. Select the **Remove** box in the row you want to remove
5. Click **Delete Record**

ECOS will confirm the observation has been removed.

Maintain Finishers

Ivana has been a model candidate. She has done everything you asked her to do, and she has done it well. She has completed your program, and you believe she is ready for a standard certificate. Now that she has completed your program, you must mark her as a Finisher on the Finisher Records List.

1. Click **Maint Finishers** in the ASEP menu.
2. Select the relevant year from the dropdown menu.
3. Select “Other Enrolled” from the dropdown menu.
4. Click **Continue**
5. Find Ivana on the list.

6. Select “Finisher” from the dropdown menu in the “Status” column.

7. Click Save at the bottom of the screen.

8. ECOS will confirm “1 updates and 0 removes were performed successfully” at the top of the page.

9. Select “Finisher” from the dropdown at the top of the screen.

10. Confirm that Ivana is now listed as a Finisher on the Finisher Records List.

Please note: Candidates cannot be updated from Other Enrolled to Finisher using a bulk upload.
Changing Certification Fields

Suppose Ivana decides that she would prefer to teach older students and wants to pursue certification in Core Subjects 4-8 rather than Core Subjects EC-6. If your program is approved to offer the certification field, your program can approve this change. You must update Ivana’s record in ECOS to reflect this change. You need to go to the Student Maintenance screen to make this change. There are two ways to reach the Student Maintenance screen.

1. Select Student Search from the ASEP menu, enter Ivana’s TEA ID number, click Search or
2. Select Maint Finishers from the ASEP menu.
3. Select the relevant year from the dropdown menu.
4. Select “Other Enrolled” from the dropdown menu.
5. Click Continue
6. Select Ivana’s name that is hyperlinked on the Finisher Records List.

Now that you are on Ivana’s record in the Student Maintenance screen. You want to remove the old certification field and add the new certification field.

7. Select “Remove” from the dropdown menu in the Status column for the certification you wish to remove.
8. Select the new certification from the Certification Code dropdown menu below the cell that says “To add a record on the 4 lines provided below, you must select a Certification Code!”
9. Select the appropriate AY from the Reporting Year dropdown menu.
10. Select “Other Enrolled” in the Status column.
11. Click Save at the bottom of the screen.

---

26 See the Sample Change of Certification Documentation in the Other Program Resources section.
Adding or Modifying Test Approval

For Ivana to get her Core Subjects 4-8 certification, she must pass the Core Subjects 4-8 TExES™ exam, so this test must be added. If she had not already passed the Core Subjects EC-6 exam, then you would want to remove permission for that test.

Adding New Test Approval

From the Maintain Test List screen

1. Click on the candidate’s hyperlinked name
2. Click Add Test Approval
3. Enter the candidate’s date of admittance
4. Select the Route
5. Select the Test
6. Select the correct approval level
7. Click Save

Removing Test Approval

1. Open the Test Approval menu in ECOS
2. Click on **Maintain Test List**
3. Set the Current Filter for Applicant(s) and Academic Year as needed based on the eligibility status and initial approval date
4. Click on **Refresh List**
   - If necessary, click on “All” from under the Refresh List button to display all records.
5. Find the candidate and confirm that the correct test is displayed
6. Click on the dropdown menu in the Status column and select “Removed”
7. Scroll down to the bottom of the screen and click **Continue**
8. Confirm selection by clicking **OK**
Data Verification

EPPs are required to report accurate and timely data for accountability purposes. Failure to report accurate and timely data can result in negative consequences for EPPs, up to and including negatively impacting their accreditation status.

Exceptions and Errors

EPPs are required to report accurate data. Accurate data must be submitted in the reporting period. We recognize that there are rare instances where you can’t “fix” data that has been submitted due to system access. For this reason, you may submit exceptions for test approval lists and observations.

On the test approval list, for example, if a candidate was given test approval with the wrong admittance date, or was given permission for two tests with two admittance dates, EPP users are unable to fix that. TEA requires an exception letter to be able to identify the discrepancy and document manual changes to summary data that would not otherwise be supported by the lists. Similarly, if you should have given a candidate test approval to acknowledge admittance, and did not, you must include that on an exception letter so that we can update the candidate in our systems, and you will also report the test approval in ECOS. Please note that these errors are necessarily rare, and that EPPs are required in code to submit timely and accurate data.

Common Test Approval Exceptions

1. Entered the wrong admittance date
2. Error in candidate TEA ID or name

If a candidate dropped out of your program, or if she failed to show up on the first day of class, that is not an exception. These candidates must be included on the test approval and GPA spreadsheets, even though they will not appear on the Finisher Records List as Other Enrolled. They will also be counted as having applied and been admitted, although they will not be counted as retained.

For the observations lists, there may be extraordinary circumstances that resulted in a candidate not getting the required observations. For example, a candidate was issued a standard certificate during the reporting year. You may provide an exception letter to petition TEA to change the denominator and modify the percentage of candidates for whom you provided adequate field support.

Common Observation Exceptions

1. Incomplete Internship due to deactivation of intern or probationary certificate
2. Incomplete Internship due to issue of standard certificate
3. Exempt because candidate qualified for educational aide exemption from THECB
4. Exempt because candidate was already initially certified
5. Exempt because candidate had previously been employed as an ROTC instructor
Data Verification Affidavit

Once all data for a reporting year has been submitted and verified, you must provide an affidavit testifying to the completion and accuracy of the EPP data. Here is what you should expect each fall:

1. On or Before September 15 - The EPP submits the GPA spreadsheet, all required data in ECOS, and any other data in the format required by TEA staff.
2. After September 15 – TEA staff review submitted data and send out deficiency letters identifying needed changes. TEA staff will specify the date by which changes must be made.
3. Programs submit required changes and the data verification affidavit on EPP letterhead.

Submit the affidavit only when you are sure that all information has been checked, double checked and triple checked. If the affidavit is submitted prior to the checking period and TEA discovers information is incorrect, the signer and/or EPP may be found in violation of the Texas Educators Code of Ethics and TAC §229.

Affidavit Checklist

1. The affidavit is on EPP letterhead
2. The legal authority signed the affidavit
3. The affidavit has the correct filename
   a. See Appendix 2 for the full filename list that you must use when submitting your affidavit
4. The affidavit was sent as an email attachment to edstandards@tea.texas.gov
Other ECOS Data Features

View Pass Rates
ECOS allows you to view the pass rates for candidates in your program. TEA must manually update this feature periodically. We do this weekly in August and September, but less frequently throughout the year. When a candidate takes a test, Pearson must score the results and report the results to TEA. TEA systems must then be updated. If a candidate takes a test on a Saturday, do not expect the results to be posted on Monday.

1. Click View Pass Rates in the ASEP menu
2. Select the year from the dropdown menu
3. Click Continue.

You will get an overview page with pass rate data for your program. The overview page provides valuable information by itself, as well as easy navigation backwards or forwards one year at a time.

By clicking on the hyperlinked percentages in the “All” and demographic columns you can get more information on candidate performance. Clicking on the “All” percentage will list all the certification tests attributed to your program for the academic year as well as the number of tests taken, number of tests passed, and pass rate. Clicking on the demographic group percentage will list the test results for only the candidates in that category.
Clicking the hyperlinked numbers in the “Tests Taken” or “Tests Passed” columns will bring up a list of the candidates and their results. You can click on the hyperlinked candidate’s name to view her test history.

### All PEP Tests for the Completion Year 2016

</tr>
</tbody>
</table>

**NOTE:** The test pass rate requirements for accreditation are changing beginning in 2017-2018. While you can see testing data through ECOS, as of July 2018, the system is not currently set up to differentiate between PPR and content tests, or to generate a pass rate for candidates admitted after 12/27/2016 on their first two attempts at a test. Once this feature has been updated this manual will be revised.

**View Observations Report**

It is in your best interest to check all the observations reported for your program to ensure you haven’t missed any observations and that your program is meeting SBEC observation requirements. ECOS allows you to list the observations you conducted during an academic year. Remember, this is only a list of the observations that have been reported. If a candidate should have been observed and was not observed, she will not show up in the report. All candidates listed as Other Enrolled on the Finisher Records List completing clinical teaching or an internship – including second or third year extensions - must be observed. Similarly, any candidate listed as a Finisher on the Finisher Records List must have recorded observations.

---

27 See TAC §229.4(a)(1)(B)(i)(II) and (ii)(II).
28 See TAC §229.4(a)(4)(A)(iii)
1. Select Observations Report from the ASEP menu
2. Select the year
3. Select the Observation Type (View All Observations)
4. Select the Semester/Year (Academic Year 9/1 – 8/31)
5. Click Search

The resulting page will show you the observation data you entered in ECOS. You can Click Here at the bottom of the page to download the data as a .csv which will allow you to manipulate the data more efficiently. The resulting spreadsheet will look something like this.

<table>
<thead>
<tr>
<th>Assignment Date</th>
<th>Assignment Type</th>
<th>Candidate Name</th>
<th>Visit Date</th>
<th>Duration Hours</th>

</tr>
</tbody>
</table>

The “All” and “Academic Year” options provide data for the whole year. You may also select individual semesters from the “Semester/Year” dropdown. These semesters correspond with the candidate-to-supervisor ratio per semester reported in the consumer information. Selecting different values from the “Observation Type” dropdown will provide an index of all candidates with that assignment type, and the number of observations recorded for each candidate. This is useful in tracking your compliance with the number of observations per candidate, for both candidates in clinical teaching and candidates on an intern certificate.

Here are some things to consider as you review observation data for your program29

29 See TAC §228.35(g) for specific field supervision requirements.

©Copyright Texas Education Agency          Updated September 16, 2018
1. Are all the observations that your field supervisors have conducted been listed? Be sure to record all observations, not just those required to meet the minimum standards for your candidates.
2. Does each candidate have the same Int Beg Dt (“Beginning Date of Assignment” from the upload or “Assignment Date” from the window)? Individual candidates should not have multiple beginning dates for her internship or clinical teaching.
3. Are the visits of sufficient duration – at least 45 minutes?
4. Did each candidate get at least the minimum number of observations?
5. Are all the candidates who should have gotten observations included on the list? This would include anyone from your program who had an active intern or probationary certificate – including extensions – and any person completing clinical teaching.

To calculate the ASEP standard for compliance, count the number of candidates for whom you have provided the SBEC required support (number of timely observations of the minimum interval), divide by the total number of candidates for whom you should have provided observations, and multiply by 100.

NOTE: Monitor your program’s compliance with the minimum SBEC standards for duration and frequency throughout the school year. The new requirements of TAC §228.35(g) are specific, so be sure you and your field supervisors are familiar with these requirements. There are timing requirements, depending on the kind of intern/clinical teaching experience. Missing the timing on a single observation will make the candidate’s support non-compliant, so be sure to monitor for frequency, duration, and timing of observations for your candidates. We recommend requiring field supervisors to develop schedules that meet the regulatory requirements for observing each of their candidates and monitoring these schedules closely while the field supervisors are learning the new regulations.

View Field Supervisor Ratio
ECOS will calculate and report your field supervisor ratio\(^{30}\). ECOS counts the number of unique candidate TEA IDs and the number of unique field supervisor TEA IDs, then reduces it to a ratio that shows the number of candidates per field supervisor, for example, 12.5:1\(^{31}\).

1. Click **Supervisor Ratio** in the ASEP menu.
2. Select the year from the School Year dropdown menu.
3. Click **View School Year**

\(^{30}\) TEC §21.045(b)(4) and TEC §21.0452(b)(6) added by House Bill 2205, effective September 1, 2015.
\(^{31}\) SBEC has not set a standard for the candidate to supervisor ratio. The annual and semester numbers will be reported in the Annual Performance Report Indicators and the Consumer Information indicators of the annual ASEP report.

©Copyright Texas Education Agency

Updated September 16, 2018
ECOS will report the annual, first semester and second semester candidate to field supervisor ratios for your program, as well as statewide data.

Get Educator Data
Use the Get Educator Data screen to upload a one-column .csv file and receive a file containing all certificates, all tests, or fingerprint status associated with the uploaded social security numbers. Please note that the certificate and test result data will not be restricted to those earned through your EPP.

1. Create a .csv file with the social security numbers about which you need information in column A and save it to a convenient location.
2. Click Get Educator Data in the ASEP menu
3. Click the radio button for the information you need.
4. Click Choose File to browse to your .csv file
5. Click Upload
The results may appear confusing, but the “Text to Columns” feature on the Data tab of Excel can make the data easy to use.

Test Search

The Test Search screen in ASEP provides another source of data. Enter the parameters that are relevant to your research question and ASEP will produce a report with test results for candidates from your program regardless of finisher status. You may find this function is a useful supplement to the test data available through the Pearson Results Analyzer.
Title II Reporting
The US Department of Education (ED) requires reports on initial teacher certification candidates. As of 9/1/2018 two companies support programs with this reporting - Pearson and Westat. Pearson, as the main testing vendor for TEA, generates pass rate data for the Title II reports. Westat puts the pass rate data and significant amounts of other data into the report that the Secretary of Education submits each year to Congress.

Primary User: Your program should have a primary user who is responsible for federal reporting. You should also have a backup person who knows the data and the systems. If these persons change, contact Mark Olofson at Mark.Olofson@tea.texas.gov to coordinate new user accounts with Pearson and Westat.

Title II reporting follows a predictable annual schedule. Each year programs report the previous year’s data, so you will report 2017-2018 data in 2018-2019.

- August 31, 2018 – The reporting year closes
- September – December 2018 – Upload data to the Pearson system.
- January – Pearson resolution period
- February – Westat Title II reporting opens
- April 30 – Westat Title II reporting closes
- July – Title II reported data available for review
- October – Review/collection period closes
- November – Title II report completed

As of 9/1/2018, Pearson will be the testing vendor through which Title II reporting occurs. Westat will remain the vendor who interfaces with the ED.

Recording Data for Pearson Title II
In addition to documenting data regarding Ivana Teach in the ASEP system, you must also document data for her with Pearson for Title II reporting purposes. Your goal is to provide Pearson with information linking the candidate to your program so that Pearson can then link to the candidate’s testing data. Pearson uses test results from the TExES™ tests for initial teacher certification candidates to calculate and report pass rates for ED purposes.

Training and Resources: Pearson has developed a manual to guide you through the necessary Title II reporting. See www.educationreports.net for additional assistance, or email es-titleII@pearson.com.

Completing the Title II Institutional and Program Report Card (IPRC) Report
In April 2019, you will be reporting on your 2017-2018 cohort. The data you entered in the GPA spreadsheet and APR in September 2018 will help you complete the Westat IPRC report. The IPRC includes only initial teacher candidates from your institution. It does not include administrative, student services, or additional certificate candidates. Extensive guidance
regarding how to report Title II data for Westat is available at the Title II website at https://title2.ed.gov/Public/TA.aspx.

Orientation
Here are some ways to learn about Title II reporting:

1. Recorded webinars are available at https://title2.ed.gov/Public/Webinars.aspx#iprc. The IPRC Overview and Training is a good place to start.
2. Log into ECOS and export your 2017-2018 the candidates listed as Finisher on the Finisher Records List and the candidates listed as Other Enrolled on the Finisher Records List to Excel. Remove anyone not pursuing an initial teaching certificate. These are the folks you’re reporting on.
3. Open the blank Institutional and Program Report Card available with the technical assistance materials here: https://title2.ed.gov/Public/TA.aspx. This is a way to understand what you’re reporting
4. There are a lot of technical assistance materials available through the public Title II website.
   a. The IPRC guide is helpful if you have specific questions. There are also smaller, subject specific guides if you have questions about individual sections of the report.
5. Download the 2017 Texas State Report Data File and look for your program’s data. This is what you will be updating for this year. Remember, in April 2019 you are reporting on 2017-2018 data.
   a. Don’t be overwhelmed by the tabs and columns. Much of this is prepopulated for you.
   b. Data documentation is available at the same page.

The following pages look only at reporting data on enrolled and completer candidates for your program. Remember, Title II is only concerned with initial teacher certification candidates. Do not report on candidates at your program who are pursuing administrative certification, student services certification or a second certification.

Section 1.b & c. Admissions
Your report should reflect at minimum the statutory and regulatory minimum requirements. You should be able to report “Yes” the following are required for entry.

- Transcript
- Minimum number of courses/credits/semester hours completed (TEC §21.0441(a)(2) and TAC §227.10(a)(4))
- Minimum GPA (TEC §21.0441(a)(1) and TAC §227.10(a)(3))
- Minimum basic skills test score (TAC §227.10(a)(5))
- Interview or Other Proficiency (TAC §227.10(a)(7))

Note: If you can admit candidates to a route, but did not admit candidates to that route so that you have no median GPA for admission or completion, enter “-6” to indicate “not applicable.”

©Copyright Texas Education Agency Updated September 16, 2018
Section Enrollment

While you recorded Ivana Teach by name as a Finisher on the Finisher Records list and in the Pearson list, you only need to record her by number in the Westat Title II report. In this way, the Title II enrollment reporting is like the Annual Performance Report (APR) in ECOS. Use the ASEP and GPA data you submitted in September to help you complete the Title II report. NOTE: If your program supports both traditional and alternative routes to certification, you must report information on candidates in these routes separately.

1. Click **Maint Finishers** in the ASEP menu
2. Select 2017-2018
3. Select Other Enrolled
4. Click **Continue**
5. Select **Click Here** to download the data as a .csv at the bottom of the page
6. Open as an Excel spreadsheet
7. Highlight the data columns (row 5 and below)
8. Sort by column G, Cert_Description
9. Delete any candidates not pursuing an initial teacher certificate (principal, superintendent, etc.).
10. Sort by column A, TEA_ed_cert_id
11. Remove any duplicates (candidates listed two or more times because they are pursuing multiple certificates or certification and a supplemental).
   - The conditional formatting function is helpful for this.
12. Sort by Gender
13. Count the number of males and females.
   - If a candidate is listed as “Unk” then use the self-reported gender information for the candidate in ECOS.
15. Count the number of each ethnic group.
   - The countif function is helpful with this.

**Reporting Other Enrolled**

1. Select Enrollment from the Program Data Collection menu.
2. Enter the total number of students enrolled in 2016-2017. This numbers should equal the total number of candidates listed as Other Enrolled on the Finisher Records List and the number listed as Retained in your APR, minus any non-teacher candidates.
3. Enter the number of males enrolled in 2016-2017. This number should equal the total number of males on your APR, minus any non-teacher candidates.
4. Enter the number of females enrolled in 2016-2017. This number should equal the total number of females on your APR, minus any non-teacher candidates.
5. Sum the males and females. It should equal the total number of students enrolled.
6. Enter the total number of candidates enrolled by ethnicity. Use the APR categories
7. Click **Save**
Legislative Budget Board Reporting for Public Colleges and Universities

Each fall EPPs that are public colleges and universities are required to report certification rates of teacher education graduates to the Legislative Budget Board (LBB). Private universities and alternative certification programs do NOT report to the LBB. TEA will contact institutions required to submit LBB reports by email in September. The report is due to TEA based on when TEA must report to the LBB.

To facilitate the reporting process and ensure the consistency and accuracy of data, the LBB, State Auditor’s Office, and educator preparation entities asked TEA to collect graduate information from the entities and, using centralized records in the TEA database, calculate the LBB certification rate.

The LBB certification rate is based on the percentage of an institution’s undergraduate teacher education program graduates who become certified to teach no later than the end of the fiscal year following the year of graduation from the program. This measure indicates how well an undergraduate teacher education program’s production of certified educators.

IMPORTANT: You must report the performance measure to the LBB using ABEST. TEA is simply calculating the rate for you. It is your responsibility to enter the rate in ABEST.

The FY 2019 LBB performance measure will reflect the certification rate of your 2016-2017 graduates. The rate is the percentage of graduates who became certified as of August 31, 2018.
1. Create a .csv file listing the teacher candidates who graduated between September 1, 2016 and August 31, 2017. Do not use headers. There should be 4 columns when you’re done. See the Bulk Upload section on page 12 for details about creating a .csv file.

   A. EPP County/District Number (CDN) (6 characters)
   B. Graduate’s social security numbers (9 characters – no dashes)
   C. Graduate’s last name (maximum 25 characters)
   D. Graduate’s first name (maximum 20 characters)

Your spreadsheet will look something like this.

<p>| | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>B</td>
<td>C</td>
<td>D</td>
</tr>
<tr>
<td>123456</td>
<td>741852963</td>
<td>Teach</td>
<td>Ivana</td>
</tr>
</tbody>
</table>

2. Click Get Educator Data in the ASEP menu
3. Select the “Load Graduate Files” radio button
   • NOTE: This is the year the new teachers graduated
5. Click Choose File to browse to the .csv file you created
6. Click Upload

Viewing Legislative Budget Board Report for Public Colleges and Universities

After you submit your list of graduates to the ECOS system, you will need to retrieve and verify the results. TEA will ask you to verify the certification rates ECOS calculates via email. Follow these steps to view your results.

1. Click Other Reports in the ASEP menu
2. Select the “Annual LBB Performance Measure Report” radio button
3. Select the reporting year (2017-2018). NOTE: This is the year AFTER your new teachers graduated from your college or university
4. Click Continue

The report for your program will look something like this.

<table>
<thead>
<tr>
<th>Organization</th>
<th>Total Teacher Education Graduated</th>
<th>Total Graduates Certified</th>
<th>Certification Rate</th>
<th>Not Certified but Recommended</th>
<th>Not Certified but Recommended Percent</th>
<th>Not Recommended but Tested</th>
<th>Not Recommended Tested Percent</th>
<th>Not Recommended Tested</th>
</tr>
</thead>

TEA sends out additional guidance in September to help programs complete this function.
Appendix 1: Sample Letters

Sample Admission Letter

Use Letterhead of EPP\(^{32}\)
Date

Name
Address
City, State, Zip Code

Dear (Candidate Name):

This letter is an invitation of formal admission\(^{33}\) into (Name of Educator Preparation Program) to assist you in securing certification in (Name of Certification).

Your official admission date is (Month Day, Year)\(^{34}\). (Provide any other entry information that you might need to communicate.)

You have until (Month Day, Year) to respond to our invitation of admission into our program. If we do not receive written communication of acceptance within that time frame, we will consider that you have declined our invitation\(^{35}\).

Sincerely,

(Name and Title of Person Extending the Invitation)

I accept the invitation of admission________

I decline the invitation of admission________

Signature:

Date:

This letter should be retained in the candidate’s record for audit purposes.

\(^{32}\) See 19 TAC §227.17(b), “the EPP must notify the applicant of the offer of formal admission in writing by mail, personal delivery, facsimile, email, or an electronic notification.”

\(^{33}\) See 19 TAC §227.5(11)

\(^{34}\) See 19 TAC §227.17(d), “The effective date of formal admission shall be included in the offer of formal admission.”

\(^{35}\) See 19 TAC §227.17(e).

Appendix 3: Additional Accountability Data

Per TEC §21.04, TEA administers and collects surveys of principals, candidates exiting their teacher preparation program, and teachers who are completing their first year of teaching on a standard teaching certificate. This appendix provides information about the data available to programs related to these items. For the most up-to-date information about these data sets, please see the TEA website.

Principal Survey Data

TEA posts the principal survey results on the Program Provider Resources page for your use. The following briefly explains how to read and interpret these data. This is a reference to help you understand the data. It is not meant to be an alternative to analysis conducted for accreditation purposes in meeting TAC §229.4 (a)(2) requirements. The table below relies on the 2016-2017 results. Other years vary slightly. You may need to use the “Unhide” function in Excel to reveal all the columns.

2016-2017 Principal Survey Calculations

TEA relies on questions 4-39 for accountability purposes. Questions 17 and 25 contain skip logic, and so are excluded from the analysis. Teachers fall into one of four categories: those with SPED and ELL students, those without SPED students, those without ELL students, and those with neither SPED nor ELL students. In determining whether a candidate was “sufficiently prepared,” TEA totals the results for each survey question then uses one of four different denominators. The number of “sufficiently prepared” teachers from your program divided by the total number of candidates from your program yields the percentage sufficiently prepared for accountability purposes.

<tbody>
<tr>
<td><strong>BZ-DL</strong></td>
<td>These columns transform the survey data from a 1-4 to a 0-3 scale, where 0 is “Not at all prepared” and 3 is “Well prepared.” Q17 (BZ) and q25(CA) are the skip logic questions for teachers with SPED and ELL students. Question 40 (DL) does not translate successfully here.</td>
</tr>
<tr>
<td><strong>DM</strong></td>
<td>Sum of questions 4-8 regarding the classroom environment. 10 is the minimum score for sufficiently prepared.</td>
</tr>
<tr>
<td><strong>DN</strong></td>
<td>Sum of questions 9-16 regarding instruction. 16 is the minimum score for sufficiently prepared.</td>
</tr>
<tr>
<td><strong>DO</strong></td>
<td>Sum of questions 18-24 regarding students with disabilities. 14 is the minimum score for sufficiently prepared, but not all teachers are graded here.</td>
</tr>
<tr>
<td><strong>DP</strong></td>
<td>Sum of questions 26-30 regarding English Language Learners. 10 is the minimum score for sufficiently prepared.</td>
</tr>
<tr>
<td><strong>DQ</strong></td>
<td>Sum of questions 31-34 regarding technology integration in curriculum and instruction. 8 is the minimum score for sufficiently prepared.</td>
</tr>
<tr>
<td><strong>DR</strong></td>
<td>Sum of questions 35-38 regarding using technology with data. 8 is the minimum score for sufficiently prepared.</td>
</tr>
<tr>
<td><strong>DS</strong></td>
<td>Result on all questions on the 0-3 scale. Although the spreadsheet provides information on performance in areas like Instruction, the program is only held accountable for the overall performance number. The minimum varies by teacher type. All student types - 64 No SWD – 50 No ELL – 54 No ELL or SWD - 40</td>
</tr>
<tr>
<td><strong>DT – DV</strong></td>
<td>Survey totals by teacher type</td>
</tr>
<tr>
<td><strong>DW – EB</strong></td>
<td>Yes (1)/No (0) indication if the teacher was above standard in classroom environment, instruction, SWD, ELL and technology integration.</td>
</tr>
<tr>
<td><strong>EC</strong></td>
<td>Yes (1)/No (0) indication if the teacher was above standard overall. This is used for accountability.</td>
</tr>
<tr>
<td><strong>ED</strong></td>
<td>Yes /No indication if the teacher was above standard overall.</td>
</tr>
</tbody>
</table>

Use either the filter function or sort function to separate the candidates from your program (column BH). Copy these data into a separate spreadsheet for analysis.

Row EC indicates whether each candidate met standards, i.e., averaged 2 or higher (on a 0-3 scale), where 2 is the equivalent of “sufficiently prepared.” To calculate your percentage, count the number of ones and divide that by the total number of ones and zeros. For example, if there were 100 principal surveys conducted on candidates from your program and 86 had ones in column EC and 14 had zeros, then your percentage would be 86% ((86/100) *100).

Most candidates need a score of 64 or higher out of 96 possible points in column DG to meet standards. The exceptions are those without ELL or SPED students (rows 9 and 12), which have a different denominator.

**Exit Survey Data**

TEA posts the exit survey results on the [Program Provider Resources](#) page for your use. These data are also available to you through the Reports option in the ASEP menu. The following is a reference to help you understand the data. It is not meant to be an alternative to analysis conducted for accreditation purposes in meeting TAC §229.4 (a)(4)(B) requirements. The table below relies on the 2016-2017 results. Other years may vary slightly.
### Column(s) | Explanation
--- | ---
A-C | Program identifying information
D | Person-Survey ID – Cannot be linked to TEA ID
E-BD | Survey question answers, generally on a 1-4 scale, where 1 is “Well prepared” and 4 is “Not at all Prepared.” See the exit survey itself on the Program Provider Resources page on the TEA website. Questions 1-3 allow the candidate to identify her circumstances. Questions 17 (column U) and 25 (column AC) enable skip logic for first year teachers who do not have special education or ELL students. Question 46 is removed from the Quality Analysis spreadsheet to simplify calculation.
H-L | Questions 4-8 regarding the classroom environment
M-T | Questions 9-16 regarding instruction
V-AB | Questions 18-24 regarding students with disabilities
AD-AH | Questions 26-30 regarding English Language Learners
AI-AL | Questions 31-34 regarding technology integration
AM-AP | Questions 35-38 regarding using technology with data
AQ-BA | Questions 39-50 regarding the quality of field supervision. Question 46 is removed from the Quality Analysis spreadsheet to simplify calculation.
BB-BC | Questions 51 and 52 regarding the length and frequency of field observations. Answers other than 1 here indicate a candidate reporting she was not sufficiently observed.
BD | Question 53 regarding the candidate’s overall evaluation of the level of preparation for the first year of teaching.
BE | This column sums the results of questions 39-50 and compares them to a passing average of 2, “Frequently.” The cell logic is =IF(SUM(AQ2:BA2)<=22, 1,0). If the sum is 22 or less, it identifies the candidate as frequently getting good field support or “1.” If the sum is 23 or more it identifies the candidate as not getting good field support, “0.”
BF-BG | Sum the results by program and calculate a percent getting good field support.

Row BE indicates if each candidate met standards, i.e., averaged 2 or less (on a 0-4 scale), where 2 is the equivalent of “frequently” receiving field support. To calculate your percentage, count the number of ones and divide that by the total number of ones and zeros. For example, if there were 100 exit surveys completed by candidates from your program and 86 had ones in column BE and 14 had zeros, then your percentage would be 86% ((86/100) *100).

**Teacher Survey Data**

The 2017-2018 academic year was the first year TEA conducted a pilot survey of first year teachers. As of August 2018, we are evaluating the data, and will make it publicly available once we have developed procedures for working with it. This data will be available on the Program Provider Resources page for your use.
