# Educator Involvement

## Teacher Institutes

- Each summer (2017 and 2018), approximately **200 Texas teachers participated in STAAR item development.**
- Teacher Institutes will continue to occur each summer to provide input about the assessment program and **improve Texas Essential Knowledge and Skills (TEKS) fluency in practice.**

## Writing

- In 2017, educators were invited to participate in meetings to identify representative responses for each score for STAAR writing prompts.
- In the 2017–2018 school year, about **900 teachers participated in the Texas Writing Pilot.**

## External Item Review Educator Committees

- Annually, approximately **500 educators review prospective items** prior to field testing.
- Although some current Texas teachers write items for the vendor, **TEA continues to explore ways to include more educators in item writing.**

# Texas Commission on Next Generation Assessments and Accountability Recommendations (Sep. 2016)

1. Implement an individualized, integrated system of Texas designed state assessments using computerized-adaptive testing and instruction aligned with the state's curriculum framework.
  - **TEA has made available free, online interim assessments.**
2. Allow the commissioner of education to approve locally developed writing assessments.
  - **The Texas Writing Pilot has been implemented. Preliminary feedback on instructional impact is promising. An appropriation would be required to explore more fully.**
3. Support the continued streamlining of the TEKS.
  - **The State Board of Education (SBOE) has streamlined mathematics, science, and reading language arts standards and adopted streamlined social studies standards in November 2018.**

# STAAR Administration Options to Consider

## Multiple Test Sections

- Allows for fewer questions in a section
- Provides **stronger alignment to regular classroom instructional experiences**
- Accessible to all students with clear breaks
- Allows for continued instruction during test window
- Allows for differentiation by section so that subtests, such as decoding, **can support improved accuracy for students with dyslexia and other learning disabilities**

## Flexible Scheduling

- Can be **given over multiple days**
- Allows schools and districts to schedule each section to fit unique school schedules
- Includes an open test window over two-three weeks
- **No content specific assigned test dates**

# Assessment Costs (Per Test)

- 2017–2018 ETS contract cost : \$92,973,976
- Total STAAR tests administered: 10,361,006
- **Average cost per test administered: \$8.97**
- 2017–2018 Pearson contract cost : \$15,554,613
- Total STAAR Alt 2 and TELPAS tests: 2,520,718
- **Average cost per test administered: \$6.17**

-

# Appendix

# Assessment Development Life Cycle

# Interim Assessment Tool

- **ALIGNED:** The Interim Assessments are a TEA-provided tool that align to the TEKS and the STAAR program.
- **FREE:** The tool is available to public school districts and charter schools for free.
- **ACTIONABLE:** The tool provides actionable data, allowing ALL students to demonstrate academic improvement.

# Uses of the Interim Assessment Tool

- Identifies gaps in the mastery of knowledge and skills, especially for students who are below grade level but working their way toward grade level.
- Monitors academic progress across a school year.
- Predicts STAAR performance.

# HB 1164 (84<sup>th</sup>): Writing Pilot

- The HB 1164 (84<sup>th</sup> Legislature) writing pilot concluded at the end of the 2017–2018 school year.
- TEA is exploring options to extend the writing pilot work. However, a statewide rollout would require additional state funds.
- TEA is exploring options to include automated scoring of writing samples to ensure minimum validity and reliability in scoring.

# Cognitive Complexity of STAAR

Using the Depth of Knowledge (DOK) definitions below, independent analysts rated the cognitive complexity associated with each STAAR item on the 2016 tests.

## Recall (Level 1)

- Students are required to recall a fact, definition, procedure, or piece of information.

## Basic Application (Level 2)

- Students are required to use a skill or concept.

## Strategic Thinking (Level 3)

- Students are required to demonstrate deep content knowledge and engage in abstract thinking.

## Extended Thinking (Level 4)

- Students are required to demonstrate complex reasoning processes, higher-order thinking, and deep conceptual understanding.

# Some Research-Based Assessment Types

## Adaptive Assessments

- An assessment that is tailored specifically to each student based on his or her performance on previous items within the assessment.
- These types of assessments allow for more accurate growth measures (specifically high- and low-performing students)

## Portfolio Assessments

- An assessment that learners complete together with their teachers.
- The writing pilot and proposed writing program use a portfolio approach.

## Classic Standardized Summative Assessments

- An assessment that contains the same questions for all test takers.
- The STAAR assessments currently use this design.

## Possible Savings (\$6.7M)

- Eliminate non-federally mandated assessments (e.g., Grade 8 Social Studies).
  - **\$0.5M SAVINGS**
  
- Eliminate optional assessments (Algebra II and English III).
  - **\$1.6M SAVINGS**
  
- Eliminate additional SSI administrations.
  - **\$2.4M SAVINGS**
  
- Eliminate summer EOC administration.
  - **\$2.2M SAVINGS**

# Assessment Options to Consider

## Add funds for SAT or ACT.

- Increase of universal SAT or ACT costs of ~\$20M including writing (Juniors only) per TEC §39.0261(a)(3).
- Decrease in district and/or parent out-of-pocket expenses (varies, min. \$20M+ savings statewide).
- Decrease in EOC retesting for students who use SAT or ACT as substitutes for EOC assessments.
- Supports federal testing requirements for accelerated students.
