## 2.1 Overview

---

### 2.1.1 Introduction

Module 2: Charter Schools and Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts are integral components of the *Financial Accountability System Resource Guide (FASRG)*.

This module contains references to certain sections of the *FASRG*. Individuals responsible for the oversight and operation of an open-enrollment charter school must bear in mind that other sections of the *FASRG* may also apply to the operation of an open-enrollment charter school program. Also, although this module may identify certain requirements applicable to an open-enrollment charter school, these same and other requirements may also apply to the charter holder, the governing body of the charter holder, and/or the governing body of the charter school. It should be noted, however, that certain requirements discussed in this module may not apply to the non-charter school programs, functions, services, and/or activities of the charter holder. Texas Education Code (TEC), §12.104 discusses some specific requirements applicable to open-enrollment charter schools.

### 2.1.2 Applicability

The charter school modules discuss financial accounting and reporting requirements applicable to open-enrollment charter schools operated by:

- a private or independent institution of higher education as defined under TEC, §61.003; or
- an organization that is exempt from taxation under Section 501(c)(3), Internal Revenue Code of 1986 (26 U.S.C. Section 501(c)(3)).

The financial accounting and reporting requirements discussed in the charter school modules do not apply to open-enrollment charter schools operated by:

- an institution of higher education as defined in TEC, §61.003; or
- a governmental entity.

An open-enrollment charter school operated by an institution of higher education (that is not private or independent) or a governmental entity must adhere to the financial accounting and reporting requirements discussed in the other modules of the *FASRG*.

## 2.1.3 Definitions

This module will use the definitions below.

1. "Charter school" means open-enrollment charter school as defined in TEC, Chapter 12.
2. "Governing body of the charter school" means governing body of an open-enrollment charter school as defined above.
3. "Charter school official" means an officer of an open-enrollment charter school as defined above.
4. "Agent" means any individual or organization that is authorized by the charter holder pursuant to the authority vested in the office they hold or a contractual agreement to conduct business on behalf of the charter holder. This includes, but is not necessarily limited to, the following:
  - Members of the governing body of the charter holder and/or the charter school;
  - Officials, representatives, and/or employees of the charter holder and/or the charter school; and
  - Independent third-party service providers acting on behalf of the charter holder and/or the charter school.
5. "Federal funds" means funds paid by the Texas Education Agency and received by the charter holder pursuant to a federal award granted to the charter holder.
6. "Federal property" means any real or personal property purchased or leased with federal funds.
7. "Public funds" means funds paid by the Texas Education Agency and received by the charter holder pursuant to TEC, §12.106.
8. "Public property" means any real or personal property purchased or leased with public funds.
9. "Real property" means real estate as defined in 19 Texas Administrative Code (TAC) §100.1001(4).
10. "Personal property" means personal property as defined in 19 TAC §100.1001(6).

The following definitions are in accordance with TEC, §12.1012:

11. "Charter holder" means the entity to which a charter is granted under TEC, Chapter 12.
12. "Governing body of a charter holder" means the board of directors, board of trustees, or other governing body of a charter holder.

13. "Governing body of an open-enrollment charter school" means the board of directors, board of trustees, or other governing body of an open-enrollment charter school. The term includes the governing body of a charter holder if that body acts as the governing body of the open-enrollment charter school.
14. "Management company" means a person, other than a charter holder, who provides management services for an open-enrollment charter school.
15. "Management services" means services related to the management or operation of an open-enrollment charter school, including:
- A. planning, operating, supervising, and evaluating the school's educational programs, services, and facilities;
  - B. making recommendations to the governing body of the school relating to the selection of school personnel;
  - C. managing the school's day-to-day operations as its administrative manager;
  - D. preparing and submitting to the governing body of the school a proposed budget;
  - E. recommending policies to be adopted by the governing body of the school, developing appropriate procedures to implement policies adopted by the governing body of the school, and overseeing the implementation of adopted policies; and
  - F. providing leadership for the attainment of student performance at the school based on the indicators adopted under TEC Sections 39.053 and 39.301 or by the governing body of the school.
16. "Officer of an open-enrollment charter school" means:
- A. the principal, director, or other chief operating officer of an open-enrollment charter school;
  - B. an assistant principal or assistant director of an open-enrollment charter school; or
  - C. a person charged with managing the finances of an open-enrollment charter school.

## 2.2 Financial Accounting and Reporting

---

The purpose of financial accounting and reporting by charter schools is to accumulate and provide information to facilitate decision making by various user groups. Certain requirements have been established requiring charter schools to maintain proper financial accounting and reporting systems. In addition, principles and policies to ensure uniformity in accounting have been developed.

### 2.2.1 Authority

#### 2.2.1.1 Generally Accepted Accounting Principles (GAAP)

Guidelines for financial accounting and reporting are derived from generally accepted accounting principles (GAAP). Charter schools are required to adhere to GAAP. The Financial Accounting Standards Board (FASB) defines GAAP in the FASB Accounting Standards Codification TM (Codification) effective for fiscal years 2009/10 and later. FASB ASC 958 (Not-for-Profit Entities) contains information on GAAP specific to non-profit entities. For additional information, see <https://asc.fasb.org/>.

In the absence of specific guidance in this module, the charter holder is to follow GAAP.

#### 2.2.1.2 Texas Education Code

An open-enrollment charter school is subject to state laws and rules governing public schools unless otherwise stated (Texas Education Code (TEC, §12.1063)).

TEC, §12.106 (c) allows the commissioner to adopt rules to provide and account for state funding of open-enrollment charter schools.

As stated in TEC §12.1162, if the Texas Education Agency (TEA) conducts a special accreditation investigation and determines that an open-enrollment charter school fails to satisfy generally accepted accounting standards of fiscal management, the TEA may:

- Temporarily withhold funding
- Suspend the authority of the charter school to operate
- Take other reasonable actions the commissioner determines necessary
- Take any of the actions described by TEC, §39.102(a)

#### 2.2.1.3 Texas Administrative Code

Title 19 of the Texas Administrative Code (TAC) §100.1047 provides rules for accounting for state and federal funds for open-enrollment charter schools. A charter holder must comply fully with:

- GAAP
- Financial Accountability System Resource Guide, as adopted by 19 TAC §109.41
- Federal standards for financial management systems, 34 Code of Federal Regulations (CFR) §80.20, Office of Management and Budget (OMB) Circular A-87, and/or other applicable federal standards
- Financial accountability rating system (Charter FIRST) specified in 19 TAC §109.1001

A charter holder must keep separate and distinct accounting, auditing, budgeting, reporting, and recordkeeping systems for the management and operation of the charter school.

## 2.2.2 State Funds

Funds received under TEC, §12.106 (state funding) after September 1, 2001, by a charter holder are held in trust by the charter holder for the benefit of the students of the open-enrollment charter school and may be used only for a purpose for which a school may use local funds under TEC, §45.105 (c).<sup>1</sup>

Charter schools must account for these state funds using net asset code 420 – Foundation School Program and other State Aid, which is used for all public funds received and state aid that is not reported under net asset codes 380-480. Refer to Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts.

### 2.2.2.1 Use of State Funds

As mandated in TEC, §12.107, state funds paid to the charter holder for the operation of the charter school are to be used for the benefit of the students of the charter school and may only be used for the following purposes authorized in TEC, §45.105 (c):

1. purchasing appliances and supplies,
2. paying insurance premiums,
3. paying janitors and other employees,
4. buying school sites,
5. buying, building, repairing, and renting school buildings, including acquiring school buildings and sites by leasing through annual payments with an ultimate option to purchase, and for
6. other purposes necessary in the conduct of the public schools determined by the board of trustees.

### **Special Allotments**

In addition to the requirements noted above, state funds designated for a specific purpose must be used for purposes consistent with the applicable requirements of the program. Certain Foundation School Program (FSP) funds paid to the charter holder may represent special allotments for:

---

<sup>1</sup> This provision was stated in TEC, §12.107, which was added by HB 6, 77<sup>th</sup> Legislative Session.

- special education
- compensatory education
- bilingual education
- special language
- career and technical education
- gifted and talented education

### **Special Allotment Indirect Costs**

19 TAC §105.11 requires that no more than 48% of each school's FSP special allotments may be expended for indirect costs related to:

- compensatory education
- bilingual education
- special language programs
- special education

19 TAC §105.11 also requires that:

- no more than 45% of each school's FSP special allotments may be expended for indirect costs related to gifted and talented education programs
- no more than 42% of each school's FSP special allotments may be expended for indirect costs related to career and technical education programs

### **Maintenance of Records**

It is the responsibility of the charter holder and the charter school to demonstrate that public funds were used to secure goods and services for the benefit of the charter school's students and that the use of public funds conformed to the requirements of TEC, §45.105(c), as outlined above. The charter holder and the charter school must maintain complete original records that clearly identify the business purpose of any disbursement of public funds and how these are aligned to the requirements discussed in this section and mandated by law.

### **Social Activities**

Unless directly related to the benefit of students, costs of entertainment, including amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities) are unallowable. In addition to demonstrating that this type of expense resulted in a direct benefit to the students, the charter holder and/or the charter school must identify the students that benefited from the applicable disbursement of public funds.

## **2.2.2.2 Adjustments to Funds**

As provided for in TEC, §12.106, the charter holder is entitled to receive state funds from the Foundation School Program (FSP) for the operation of its charter school(s). However, the FSP allocation

is subject to adjustment based on student data submitted by the charter school or as the result of an audit or investigation of student attendance data.

### **Audits**

19 TAC §100.1029 authorizes the TEA to conduct routine audits, monitoring, and other investigations of the charter school or charter holder to determine compliance with the terms of the open-enrollment charter, with the terms of federal or state grants, or as authorized in the Texas Education Code or other law.

### **Student Attendance Accounting**

Charter school attendance records may be audited by the TEA. TEA auditors have the authority to examine attendance records for any year the charter school is required to retain records. An audit, as authorized by 19 TAC §100.1029, is performed in accordance with *Government Auditing Standards* and includes tests of the student attendance accounting procedures as considered necessary in the circumstances. The objectives of an audit of a charter school's attendance accounting system are to determine the following:

- Compliance with rules regarding days of charter school operation and instruction
- Compliance with rules regarding student eligibility
- Compliance with rules regarding student attendance for funding purposes
- Compliance with rules regarding student attendance accounting records
- Completeness and accuracy of student attendance data reported to TEA

All attendance accounting systems must readily reproduce the student attendance data required in the *Student Attendance Accounting Handbook* upon notification of an audit, regardless of the medium of storage used. Student attendance data must be organized into three distinct data sets: the Student Detail Report, Campus Summary Report(s) and the District Summary Report. Each of these reports is described in detail in the *Student Attendance Accounting Handbook* which the charter school should review to ensure that all required documentation is present and available for audit. The retention period for all documentation required should be in accordance with the Texas State Library and Archives Commission Local Library Schedule S-D and G-R.

### **Expansion Amendment**

According to 19 TAC §100.1041(d), if a charter holder, before or without approval for an expansion amendment under 19 TAC §100.1033(d) (relating to Charter Amendment), extends the grade levels it serves, adds or changes the address of a campus, facility, or site, expands its geographic boundaries, or exceeds its maximum allowable enrollment, then the charter holder is not eligible to receive state funds for the activities of the unapproved amendment of its charter school operations (such as receive funds or the attendance of students who are served on the campus that has engaged in an unapproved expansion of its charter school operations).

Audit findings, comments, and recommendations by the TEA are intended to determine the propriety of amounts funded in accordance with state law and to assist charter school officials in implementing better methods for determining and securing such future funding. In the event errors are detected, the TEA State Funding Division will adjust the charter school's current fiscal year's allocation upon receiving the final audit report from the TEA division conducting the audit, unless the report is received during the final quarter of the current fiscal year. If the final audit report is received during

the final quarter of a fiscal year, the audit adjustment will be applied against the charter school's allocation for the subsequent fiscal year.

In cases of extreme hardship, the audit adjustment may be spread across two years. Charter schools that request extension of the audit adjustment will be required to demonstrate extreme hardship and will be subject to continued financial monitoring throughout the repayment period. The maximum extension of an audit adjustment is the year in which the adjustment is first applied and the subsequent fiscal year.

### **2.2.3 Federal Funds**

Federal funds designated for a specific purpose must be used consistent with the project approved by the grantor office and the applicable requirements of the grant or program. As stated in 19 TAC §100.1047, a charter holder that receives federal funds must comply fully with federal standards for financial management systems, 34 Code of Federal Regulations (CFR) §80.20, Office of Management and Budget (OMB) Circular A-87, and/or other applicable federal standards.

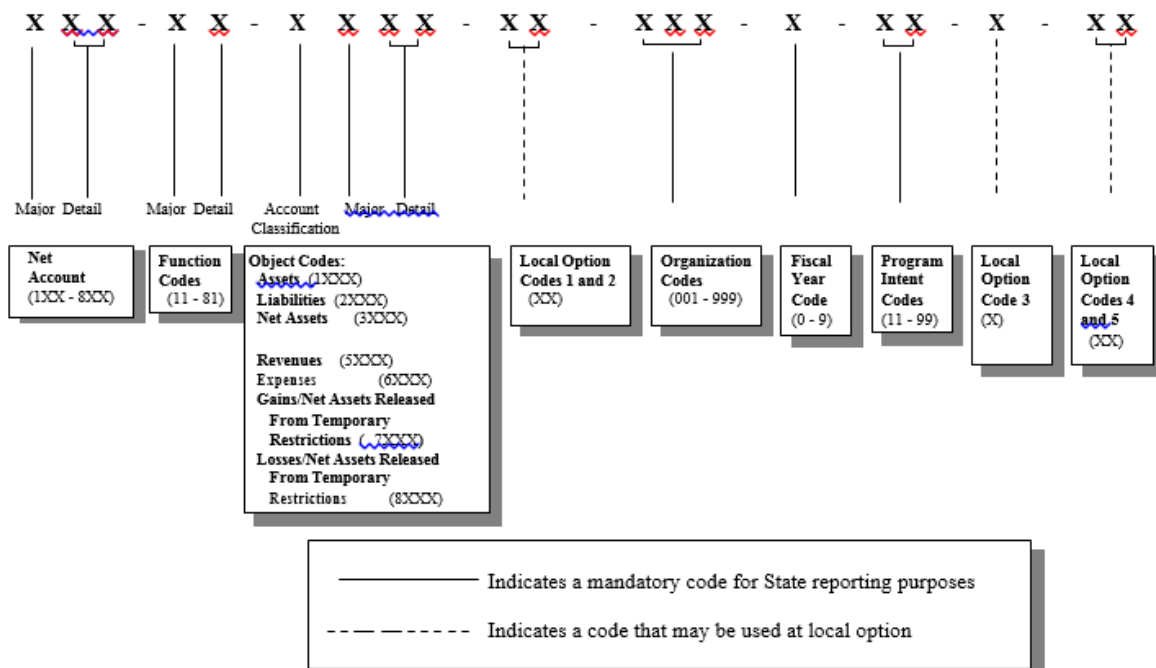

### **2.2.4 Account Code Structure**

Charter schools must adopt a standard financial accounting system. The financial accounting system must meet at least the minimum requirements prescribed by the State Board of Education and also be subject to review and comment by the state auditor. Additionally, the financial accounting system must conform to GAAP.

A major purpose of the account code structure is to establish the standard charter school financial accounting system. Although certain codes within the account code structure may be used at local option, the sequence of the codes within the structure and the account codes are to be uniformly used by all charter schools in accordance with generally accepted accounting principles.

With the exception of the codes that may be used at local option, all charter schools must use the account code structure as described in the Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts. Failure to use the account code structure as discussed in the Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts should be disclosed in the Schedule of Findings and Questioned Costs as a noncompliance issue.

Exhibit 2.2.4.A illustrates the account code structure that charter schools should use.

## 2.2.5 Financial Statement Elements

Local Government Code, §140.005 requires the governing body of a charter school to prepare an annual financial statement showing for each fund:

- The total receipts of the fund, itemized by source of revenue, including service charges, grants of state money, gifts, or other general sources from which funds are derived;
- The total disbursements of the fund, itemized by the nature of the expenditure; and
- The balance in the fund at the close of the fiscal year.

This information must be provided pursuant to statutory requirements discussed in Chapter 552 of the Government Code. The charter school may satisfy this requirement by providing a copy of the Statement of Activities.

The elements of financial statements are those items that are derived from the general ledger accounts maintained by the charter school in its financial accounting system. Some of the major elements are discussed in this section.

### 2.2.5.1 Cash and Investments

Charter schools should adopt policies and procedures that identify the types of investments it is allowed to utilize and the steps that it will follow when using the investments identified.

According to 19 TAC §100.1045, a charter holder shall invest state funds in accordance with Government Code, §§2256.009-2256.016 (also known as the Public Funds Investment Act). State funds invested by a charter holder shall be maintained in a discrete charter investment account, separate and distinct from the operating accounts for the charter school and separate and distinct from any investment accounts related to non-charter activities. A charter holder shall invest state funds in accordance with any applicable provision or covenant contained in a debt instrument, bond indenture, or similar agreement.

Nothing in 19 TAC §100.1045 shall authorize the investment of state or federal grant funds, unless investment of such funds is expressly authorized under the terms of the grant.

Investment of state funds shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment of state funds shall be governed by the following investment objectives, in order of priority:

- preservation and safety of principal;
- liquidity; and
- yield.

### **2.2.5.2 Capital Assets**

Charter schools are responsible for accounting for both current and noncurrent assets. Included within noncurrent assets are capital and intangible assets. Capital assets have certain properties that distinguish them from other types of noncurrent assets. Capital assets are:

- Tangible in nature;
- Long-lived (have a life that exceeds one year);
- Of a significant value at purchase or acquisition time (\$5,000 per unit or lower amount adopted in charter school's policies); and
- Reasonably identified and controlled through a physical inventory system.

Capital assets may include land, buildings, machinery, furniture, and other equipment.

The emphasis in accounting for capital assets is on control and accountability. Accordingly, a variety of data relating to a charter school's capital assets must be accumulated to maintain control and accountability over them. These data include:

- Quantity,
- Location,
- Condition, and
- Life expectancy.

#### **Capital Asset Records**

Capital asset records are necessary to designate accountability for the custody and maintenance of individual items, and to assist in approximating future requirements. All capital transactions for the

acquisition of capital assets should be controlled through a well-defined authorization procedure. If the budget does not authorize the purchase of specific items, approval power, subject to specific monetary limits, should be assigned to the chief executive/operating officer. If approval power has not been assigned to the chief executive/operating officer, then the governing body of the charter school must approve the purchase of specific items.

**Note:** Separate accountability for capital assets is a legal requirement of programs receiving monies from the federal government. Accounting for funds received for these programs is maintained under temporarily restricted net asset codes.

Charter schools shall maintain accurate capital asset records that include the following information:

- (a) A description of the capital asset.
- (b) Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.
- (c) Local, state, and/or federal funds used to acquire the capital asset.
- (d) Whether title vests in the charter school, the state government, or the federal government.
- (e) Acquisition date (or date received, if the equipment was furnished by a donor) and cost.
- (f) Information from which one can calculate the percentage of state and/or federal participation in the cost of the capital asset (not applicable to equipment furnished by a donor).
- (g) Location and condition of the capital asset and the date the information was reported (this may be the date of the last physical inventory taken by the charter school).
- (h) Unit acquisition cost.
- (i) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a charter school compensates the federal awarding agency for its share.

A physical inventory must be taken at least once every two years (a statistical sampling approach is acceptable) to ensure that capital assets exist, and are in use.

### **Public Property**

TEC, §12.128 states that property purchased or leased with funds received by a charter holder under TEC, §12.106 after September 1, 2001 is considered to be public property for all purposes under state law.

Effective with fiscal years starting after September 1, 2001, the charter holder must include an exhibit (see [Exhibit B.11.a – Sample Schedule of Capital Assets for Individual Charter School 1](#)) in the financial and compliance report identifying the capital assets of the charter school and the ownership interest of all parties (i.e., local, state, federal) in all real property and improvements and capitalized personal property acquired with public funds during the term of the charter or presently held by the charter holder. Alternatively, the charter holder may include a note disclosure stating that all property acquired during the term of the charter, and all property presently held by the charter holder, may be considered public property. If an exhibit is included in the financial and compliance report, it must also include a reconciliation of amounts disclosed in the applicable statement of financial position if the exhibit amounts differ from the amounts reported on the applicable statement of financial position.

### 2.2.5.3 Net Assets

Generally, revenues reported on the statement of activities may be presented in three broad categories.

- Local and intermediate sources such as contributions received from charter holder constituents, funds received pursuant to grants from local governmental and nongovernmental entities, and other sources, such as income from investments.
- State sources such as Foundation School Program funding and other formula or state grants.
- Federal sources such as funding through formula or discretionary grants awarded to the charter holder by the federal or state government.

Generally, local and intermediate sources of revenue are reported as unrestricted net assets if these do not have donor-imposed restrictions. In contrast, state and federal sources of revenue are generated pursuant to awards by state and/or federal agencies to the charter holder. These awards represent public funds and state and federal sources of revenue must be classified as temporarily restricted net assets until the funds are expended pursuant to applicable statutes, regulations, and grant requirements.

FASB Accounting Standards Codification (ASC) 958-225-45 (Other Presentation Matters) indicates that the reclassification of net assets attributable to the expiration of donor-imposed restrictions shall be reported as separate items.

In accordance with state law, a charter holder is entitled to receive state aid for the charter school based on student attendance; however, before the charter holder may reclassify state aid from temporarily restricted net assets to unrestricted net assets, it must meet a two part test.

1. First, the charter school must demonstrate that it expended state aid for the benefit of its students.
2. Second, the charter school must expend state aid consistent with TEC, §45.105(c) (see [2.2.2.1 Use of State Aid](#) for further discussion).

The charter school must clearly document that it met these requirements in its financial accounting records before it may reclassify state aid from temporarily restricted net assets to unrestricted net assets.<sup>2</sup>

---

<sup>2</sup> FASB ASC 958 (formerly Statement of Financial Accounting Standards No. 116, *Accounting for Contributions Received and Contributions Made*), permits the reporting of state and federal revenues as unrestricted net assets provided that the restrictions noted above have been met in the same reporting period (*i.e.*, fiscal year) and that this accounting treatment is consistent from period to period and is disclosed in the charter holder's accounting policy. To enable the TEA to conduct its oversight responsibilities, the applicable disclosure must include a statement or table that identifies the total dollar amounts by net asset code that were recognized as temporarily restricted net assets during the fiscal year but were subsequently reclassified to unrestricted net assets as expended or at the end of the fiscal year and upon determination that the applicable restrictions were met.

#### 2.2.5.4 Expenses

Charter schools must ensure that expenses are properly allocated to the appropriate sources of funding, projects and/or cost objectives. This includes not only sources of funding provided by state and/or federal agencies but also by local programs. Local programs include programs, services, activities, and functions administered by the charter school, the charter holder, and any other individual and/or entity affiliated with the charter holder and conducting business on behalf of the charter holder and/or the charter school.

Generally, expenses can be allocated to a specific local, state, and/or federal source of funding, project and/or cost objective. In some instances, however, the transaction that generated the expense cannot be attributed to a specific source of funding, project and/or cost objective. Consequently, the charter school may need to develop a methodology for allocating certain expenses (e.g., administrative overhead costs, business office expenses, facility/office rent expense, management service fees, telephone charges).

#### 2.2.6 Cost Allocations

Charter schools must ensure that expenses are properly allocated to the appropriate sources of funding, projects and/or cost objectives. This includes not only sources of funding provided by state and/or federal agencies but also by local programs. Local programs include programs, services, activities, and functions administered by the charter school, the charter holder, and any other individual and/or entity affiliated with the charter holder and conducting business on behalf of the charter holder and/or the charter school.

Generally, expenses can be allocated to a specific local, state, and/or federal source of funding, project and/or cost objective. In some instances, however, the transaction that generated the expense cannot be attributed to a specific source of funding, project and/or cost objective. Consequently, the charter school may need to develop a methodology for allocating certain expenses (e.g., administrative overhead costs, business office expenses, facility/office rent expense, management service fees, telephone charges).

To ensure that expenses are properly allocated to local, state, and federal funds provided to the charter school, the charter school must develop a methodology for allocating certain types of expenses. The independent auditor must ensure that the methodology used is reasonable, properly allocates expenses between local, state, and federal sources of funding, projects and/or cost objectives, and is consistently applied by the charter school.

##### 2.2.6.1 Cost Allocation Plan

In some instances, a charter school may incur expenses that only benefit certain sources of funding, projects and/or cost objectives. However, the nature of the transactions may be such that a one-to-one cost assignment cannot be made. In these cases, the charter school must develop a method for identifying costs and assigning these costs to the benefited source of funding, project or cost objective

on a reasonable and consistent basis. The charter school must maintain an accounting system and records that adequately document and support the propriety of the costs assigned.

### **2.2.6.2 Indirect Cost Rate Proposal**

Indirect costs are costs that have been incurred for common or joint purposes and benefit more than one source of funding, project, or cost objective. Generally, indirect costs are those remaining after direct costs have been determined and assigned directly to a source of funding, project, or cost objective. A cost may not be allocated to a source of funding, project, or cost objective as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been assigned as a direct cost. Indirect costs are normally charged to a source of funding, project or cost objective by the use of an indirect cost rate. The indirect cost rate is documented in an indirect cost rate proposal. The charter school must develop a method for identifying indirect costs and developing a rate to be applied against the funds for every source of funding, project, or cost objective. The charter school must maintain an accounting system and records that adequately document and support the propriety of the costs included in the indirect cost rate proposal.

## **2.2.7 Special Accounting Treatments**

Two areas are discussed as special accounting treatments. Each of these items is accounted for in a different manner from school districts if the charter school is a 501(c)(3) non-profit entity.

### **2.2.7.1 Shared Service Arrangements**

Shared services arrangements are used by school districts and/or education service centers to share personnel or services, when one entity cannot justify the cost of employing a specialized staff member, but a group can justify a portion of the salary. Specific guidance is provided in Module 1: Financial Accounting and Reporting (FAR) and Texas Education Data Standards (TEDS) for school districts (as government entities) to record and report the results of operations of shared service arrangements.

This guidance does not apply to non-profit charter schools since they are 501(c)(3) entities rather than government entities; therefore, non-profit charter schools are required to record the results of shared service arrangements within their own financial statements. If one entity maintains the accounting transactions for all entities sharing services, that entity must provide the necessary accounting information to each of the participating entities to record transactions.

Any charter schools with a governmental charter holder (city, university, community college, etc.) are still required to follow governmental accounting standards and would follow shared service accounting guidelines.

### 2.2.7.2 On-behalf Payments

Governmental Accounting Standards Board (GASB) Statement 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*, requires school districts to record the amounts of TRS benefit payments made by the State of Texas on behalf of the school district. **This statement does not apply to non-profit charter schools since they are 501(c)(3) entities rather than government entities; therefore, non-profit charter schools are not required to record on-behalf payments related to TRS benefits.**

Any charter schools with a governmental charter holder (city, university, community college, etc.) are still required to follow governmental accounting standards and would record on-behalf payments.

## 2.2.8 Internal Control

A strong system of internal control enables the charter school to ensure that resources are properly handled, properly used, and available for designation by management and the board. An important element of a strong system of internal control is a charter school's accounting policies and procedures. These may be included as part of a comprehensive manual that identifies the charter school's administrative, accounting, business, contractual, financial, legal, operating, payroll, personnel, and programmatic functions. The accounting policy and procedures manual is an important means of establishing a strong control environment and should be strictly adhered to by charter school personnel. A sound accounting policy and procedures manual can provide numerous benefits including:

- Providing internal controls and safeguards;
- Providing timely reporting on the status of funds; and
- Allowing systematic disbursements to maximize available funds.

At a minimum, the accounting policy and procedures manual should include discussion concerning:<sup>3</sup>

- The budgeting process including preparation, amendment, and board approval;
- The accounting reports prepared for management and the governing body of the charter school;
- The review and approval of the annual financial and compliance report by the governing body of the charter school;
- The issuance and appropriate use of credit and/or debit cards including the reimbursement process and approval of expenditures;
- The control and confidentiality of accounting, business, contractual, financial, legal, operating, payroll, personnel, and program records;
- The release of accounting, business, contractual, financial, legal, operating, payroll, personnel, and program records to the general public pursuant to open records statutes;
- The data and/or reports needed to ensure that state and federal reporting requirements are met (e.g., PEIMS, Single Audit, expenditure reports);

---

<sup>3</sup> This is not an all-inclusive list. Charter school officials should carefully consider the various administrative, accounting, business, contractual, financial, legal, operating, payroll, personnel, and programmatic functions that need to be discussed in its accounting policy and procedures manual.

- The duties performed by administrative and/or business office personnel with particular emphasis on the segregation of key responsibilities and duties;
- The individuals authorized to initiate, approve, and record transactions;
- The procedures to be followed for the different accounting, business, contractual, financial, legal, operating, payroll, personnel, and programmatic transactions conducted on behalf of the charter school by employees of the charter school, the charter holder, and/or affiliates of the charter holder;
- The charter school's chart of accounts with particular emphasis on compliance with and accurate use of the account codes discussed in the *Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts*;
- The charter school's purchasing functions with an emphasis on compliance with state and federal statutes and regulations; and
- The types of documents (e.g., purchase requisition, purchase order, invoice, receipt, utility billing statement) required for the disbursement of funds.

The governing body of the charter school should review and approve the contents of the accounting policy and procedures manual, including amendments. The accounting policy and procedures manual should be periodically (e.g., biannually) reviewed and updated, as necessary, to ensure that its contents comply with applicable state and/or federal statutes and regulations. Charter school officials should ensure that employees adhere to the accounting policy and procedures manual.

Charter school officials should carefully consider the various administrative, accounting, business, contractual, financial, legal, operating, payroll, personnel, and programmatic functions that need to be discussed in its accounting policy and procedures manual.

## 2.2.9 Data Submission Requirements

The intent of this section is to provide the charter holder, the charter school, and independent auditors information and guidance regarding reporting requirements..

The charter holder is required to submit:

- A financial and compliance report;
- A completed charter school AFR data template;
- Any reports to management (generally referred to as management letters) or other similarly named correspondence from the charter school's independent auditor issued during the audit;
- PEIMS and other reports as required by individual TEA divisions. The PEIMS data is required for submission to the TEA in four separate reports throughout the year. For further information on PEIMS submissions, see the [Texas Education Data Standards](#); and
- Local audit of state compensatory education, in accordance with Module 3: State Compensatory Education of the *FASRG*, if the charter school is notified by the TEA that a local audit is required.

### **2.2.9.1 Annual Financial and Compliance Report**

#### **Submission Requirement**

As provided in TEC, §44.008, the charter holder must submit an original copy of the financial and compliance report and the accompanying management letter to the TEA Division of Financial Compliance within 150 days following the end of the charter school's fiscal year. If the charter holder has a fiscal year end different from the charter school's fiscal year end, it must submit the financial and compliance report to TEA within 150 days following the end of the charter school's fiscal year.

The financial and compliance report and the accompanying management letter will be deemed timely filed if it is complete and is filed within 150 days following the end of the charter school's fiscal year.<sup>4</sup> The financial and compliance report will be deemed complete if it includes a signed certificate of board and a signed independent auditor's report. A financial and compliance report filed with a certificate of board or an independent auditor's report that has not been signed will be deemed incomplete.<sup>5</sup>

If the governing body of the charter holder declines or refuses to approve the independent auditor's report, it must nevertheless file with the TEA a copy of the financial and compliance report with a detailed statement discussing the reasons for failing to approve the report.

#### **Method of Submission**

Effective September 24, 2012, the TEA requires that charter holders file the financial and compliance report in electronic format only, rather than in both electronic and paper formats. The financial and compliance report must be filed in a specified electronic file type. Instructions on this requirement can be found in the [Electronic Report Submission Standards](#) document, (in Adobe Acrobat® pdf format).

#### **Notification by Charter Holder**

If the charter holder is unable to file a complete financial and compliance report on or before the date due, the charter holder must notify the TEA Division of Financial Compliance in writing. The charter holder's notification must identify the name of the firm conducting the audit (include the name of the auditor-in-charge), explain the circumstances causing the noncompliance, and must indicate the date that the charter holder will file the financial and compliance report. The charter holder must also enclose a copy of the independent auditor's engagement letter with the notification letter.

#### **Noncompliance**

If the charter holder fails to file a financial and compliance report on or before the date due, it will be deemed delinquent. Consistent with TEC, §44.008, TEA cannot grant extensions nor waive this filing requirement.

#### **Material Noncompliance**

With regards to the financial and compliance report filing requirement, material noncompliance occurs after the 30th day that the financial and compliance report was due. A charter holder that fails to file the financial and compliance report within 180 days following the end of the charter school's fiscal year end

---

<sup>4</sup> A draft of the financial and compliance report constitutes an incomplete report and will not be accepted to determine if the charter holder complied with the filing requirement.

<sup>5</sup> A draft of the financial and compliance report constitutes an incomplete report and will not be accepted to determine if the charter holder complied with the filing requirement.

will be deemed to be in material noncompliance with the requirements of this supplement, the applicable contract for charter and state law. This finding of noncompliance will also result in potential ineligibility to participate in state and federal grants and programs.

#### **Administrative Action and Investigation**

If the charter holder does not file the financial and compliance report within 180 days following the charter school's fiscal year end, the TEA Division of Financial Compliance may recommend that the TEA consider administrative action against the charter holder. The TEA Division of Financial Compliance may also conduct an investigation of the charter holder's financial accounting practices and compliance with state and federal program requirements.

### **2.2.9.2 Charter School AFR Data Template**

In addition to submitting an AFR in Adobe Acrobat® Portable Document Format (PDF), charter schools must also submit its financial data in a [Charter School Data Template](#) in Microsoft Excel format. As stated in 19 TAC §109.1001(f), charter school financial data must be submitted to the TEA within 30 days of a charter school's AFR's due date or it will not meet the financial accountability standards.

### **2.2.9.3 PEIMS**

The annual audit must include the performance of certain audit procedures for the purpose of reviewing the accuracy of the fiscal information provided by the charter school through the PEIMS. The audit procedures are to be adequate to detect material errors in the charter school's fiscal data to be reported through the PEIMS system for the fiscal period under audit. The charter school's independent auditor must maintain adequate documentation of the work performed to ensure the accuracy of the charter school's PEIMS submission. For further guidance on PEIMS audit procedures, refer to Module 4: Auditing.

See Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts.

### **2.2.9.4 Single Audit and Data Collection Form (Form SF-SAC)**

The Single Audit Act of 1984, also known as the OMB A-133 audit and amended by Title 2, Code of Federal Regulations (CFR), Chapter II Office of Management and Budget Guidance, Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards §200.501, requires a non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part. The \$750,000 threshold is effective for federal funds expended in the entity's first fiscal year after December 26, 2014. Prior to that, the threshold was \$500,000 annually. This requirement applies to the charter holder as a whole and not to any single component of the charter holder (i.e., the charter school).

If the charter holder fails to file an annual financial and compliance report that conforms to the requirements of the Single Audit Act, the charter holder will be required to submit a corrected report that adheres to the requirements discussed in 2 CFR Part 200, Subpart F – Audit Requirements.

All charter holders that expend \$750,000 or more in direct or indirect Federal awards must submit a [Form SF-SAC, Data Collection Form for Reporting on Audits of States, Local Governments and Non-Profit Organizations](#) electronically through the Federal Audit Clearinghouse website (<https://harvester.census.gov/>).

## 2.3 Annual Financial and Compliance Report (AFR)

---

Each charter school must have an annual independent audit conducted that meets the minimum requirements of the state board of education, subject to review and comment by the state auditor. The annual audit must include the performance of certain audit procedures for the purpose of reviewing the accuracy of the fiscal information provided by the charter school through the Public Education Information Management System (PEIMS). The audit procedures are to be adequate to detect material errors in the charter school's fiscal data to be reported through the PEIMS system for the fiscal period under audit.

The financial and compliance report discussed in this section represents a critical monitoring instrument that enables the Texas Education Agency (TEA) to properly oversee the financial and programmatic operations of open-enrollment charter schools and to adhere to federal and state monitoring requirements. The independent auditor's assessment of the financial condition, results of operation, internal controls and compliance of the charter school and the charter holder, as discussed in his/her written opinion and other reports, constitute an important element of the TEA's risk assessment process and enables the TEA to identify critical issues that require further intervention. Consequently, the financial and compliance report must conform to generally accepted auditing standards, generally accepted government auditing standards, generally accepted accounting principles, and the requirements of this section. The financial and compliance report must also be filed in a timely manner.

### 2.3.1 Auditor Requirements

#### 2.3.1.1 Licensing

The charter holder must have the audit performed by an independent auditor licensed as a certified public accountant by the Texas State Board of Public Accountancy. Module 4: Auditing includes an in-depth discussion concerning the audit process and addresses specific topics including audit requirements and preparation for the audit.

#### 2.3.1.2 Retention of Working Papers

The auditor shall retain working papers and reports for a minimum of three years after the date of issuance of the auditor's report(s) to the auditee, unless the auditor is notified in writing by the TEA to extend the retention period.

#### 2.3.1.3 Access to Working Papers

Audit working papers shall be made available upon request to the TEA. Access to working papers includes the right to obtain copies of working papers, as is reasonable and necessary.

### 2.3.2 Components of the AFR

The charter holder shall prepare or approve a report of the financial activity of the corporation for the preceding year. State law and the contract for charter require that the charter holder contract with a certified public accountant to audit the financial and programmatic operations of the charter school. FASB ASC 958-205-45 (Not-for-Profit Entities/Presentation of Financial Statements/Other Presentation Matters) addressed certain inconsistencies in reporting by not-for-profit organizations and requires that not-for-profit organizations report financial position, results of operations, cash flow and other disclosures for the entity as the whole. FASB ASC 958 also recognized the special-purpose needs of regulatory bodies that cannot be met by general-purpose financial statements.

To address inconsistencies in the financial and compliance reports filed by charter holders and to ensure compliance with the requirements noted above, the charter holder is required to file an original financial and compliance report that contains the following:

1. Certificate of Board ([Exhibit B.1](#)),
2. Independent Auditor's Report ([Exhibit B.2](#)),
3. Statement of Financial Position for Charter Holder ([Exhibit B.3](#)),
4. Statement of Activities for Charter Holder ([Exhibit B.4](#)),
5. Statement of Functional Expenses for Charter Holder ([Exhibit B.4a](#))
6. Statement of Cash Flows for Charter Holder ([Exhibit B.5](#)),
7. Notes to the Financial Statements ([Exhibit B.6](#)),
8. Statement of Financial Position for Individual Charter School ([Exhibit B.7](#)),
9. Statement of Activities for Individual Charter School ([Exhibit B.8](#)),
10. Statement of Cash Flows for Individual Charter School ([Exhibit B.9](#)),
11. Schedule of Expenses for Individual Charter School ([Exhibit B.10](#)),
12. Schedule of Capital Assets for Individual Charter School ([Exhibit B.11](#)),
13. Budgetary Comparison Schedule for Individual Charter School ([Exhibit B.12](#)),
14. Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* ([Exhibit B.13](#)),
15. Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with 2 CFR Part 200 ([Exhibit B.14](#)),
16. Schedule of Findings and Questioned Costs ([Exhibit B.15](#)),
17. Schedule of Prior Audit Findings ([Exhibit B.16](#)),
18. Corrective Action Plan (if applicable),
19. Schedule of Expenditure of Federal Awards ([Exhibit B.17](#)) (if applicable), and
20. Notes to the Schedule of Expenditure of Federal Awards ([Exhibit B.18](#)) (if applicable).

### **FASB Requirements – Reporting on Entity as a Whole**

The Statement of Financial Position ([Exhibit B.3](#)), Statement of Activities ([Exhibit B.4](#)), Statement of Functional Expenses ([Exhibit B.4a](#)) (or an analysis of expenses by both their natural classification and their functional classification on the face of the Statement of Activities or in the notes to the financial statements), Statement of Cash Flows ([Exhibit B.5](#)), and the notes to the financial statements must be prepared for the entity as a whole (i.e., both for charter and non-charter operations). The purpose of these general-purpose financial statements is to provide relevant information that meets the common interests of various user groups who provide resources to the not-for-profit organization. These exhibits and note disclosures adhere to the requirements of FASB ASC 958.

### **State Requirements – Reporting on Individual Schools**

The Statement of Financial Position for Individual Charter School (Exhibit B.7), Statement of Activities for Individual Charter School (Exhibit B.8), Statement of Cash Flows for Individual Charter School (Exhibit B.9), Schedule of Expenses (Exhibit B.10), Schedule of Capital Assets (Exhibit B.11), Budgetary Comparison Schedule (Exhibit B.12) and Schedule of Findings and Questioned Costs (Exhibit B.15) must be prepared for each individual charter school operated by the charter holder having a separate six-digit county-district number. These exhibits and the certification of board represent special-purpose statements necessary for the TEA’s oversight of charter school financial and programmatic operations. The certificate of board and the exhibits adhere to the requirements of the Texas Education Code and the contract for charter and will be used to ensure compliance with certain statutory, regulatory and contractual requirements, including the PEIMS Data Standards and Texas Education Data Standards (TEDS).

### **Generally Accepted Auditing Standards Requirements**

The independent auditor’s report is required pursuant to generally accepted auditing standards as promulgated by the American Institute of Certified Public Accountants.

### **Generally Accepted Government Auditing Standards Requirements**

The Report on Compliance and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* (Exhibit B.13) is required pursuant to generally accepted government auditing standards as promulgated by the United States Government Accountability Office.

### **Code of Federal Regulations Requirements**

The Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133 (Exhibit B.14), Schedule of Findings and Questioned Costs (Exhibit B.15), Corrective Action Plan, and Schedule of Expenditure of Federal Awards (Exhibit B.17), and the notes to the schedule of expenditure of federal awards (Exhibit are required pursuant to 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

#### **2.3.2.1 Certificate of the Board**

The certificate of board is a required component of the financial and compliance report and must include the original signatures of the presiding officer and the secretary of the governing body of the charter holder. The certificate of board must also indicate if the governing body approved or disapproved the contents of the financial and compliance report and the date that of its approval or disapproval.

See [Exhibit B.1 – Sample Certificate of Board](#).

#### **2.3.2.2 Independent Auditor’s Report**

The independent auditor’s report must be dated and signed by a certified public accountant licensed by the Texas State Board of Public Accountancy. The report must conform to generally accepted auditing standards and generally accepted government auditing standards as promulgated by the American

Institute of Certified Public Accountants and the United States Government Accountability Office, respectively.

See [Exhibit B.2 – Sample Independent Auditor’s Report](#).

### **2.3.2.3 Statement of Financial Position**

In addition to the general-purpose statement of financial position for the not-for-profit organization as a whole (charter holder), the financial and compliance report must include a statement of financial position for each individual charter school operated by the charter holder as of the end of the applicable fiscal year. If the charter holder only operates a single charter school and does not conduct any non-charter activities, this requirement may be met by preparing a general-purpose statement of financial position and a note disclosure that the charter holder only operates a single charter school and does not conduct any other charter or non-charter activities.

See [Exhibit B.3 – Sample Statement of Financial Position for Charter Holder](#) and [Exhibit B.7 – Sample Statement of Financial Position for Individual Charter School](#).

### **2.3.2.4 Statement of Activities**

In addition to the general-purpose statement of activities for the not-for-profit organization as a whole (charter holder), the financial and compliance report must include a statement of activities for the fiscal year end of each individual charter school operated by the charter holder. This special-purpose statement must disclose revenues by detailed object code and expenses by detailed function code as defined in Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts. If the charter holder only operates a single charter school and does not conduct any non-charter activities, this requirement may be met by preparing a general-purpose statement of activities and a note disclosure that the charter holder only operates a single charter school and does not conduct any other charter or non-charter activities. The charter holder must still report revenues by detailed object code and expenses by detailed function code in the notes to the financial statements or as a separate exhibit.

See [Exhibit B.4 – Sample Statement of Activities for Charter Holder](#) and [Exhibit B.8 – Sample Statement of Activities for Individual Charter School](#).

### **2.3.2.5 Statement of Cash Flows**

In addition to the general-purpose statement of cash flows for the not-for-profit organization as a whole (charter holder), the financial and compliance report must include a statement of cash flows for the fiscal year of the charter school for each individual charter school operated by the charter holder. If the charter holder only operates a single charter school and does not conduct any non-charter activities, this requirement may be met by preparing a general-purpose statement of cash flows and a note disclosure that the charter holder only operates a single charter school and does not conduct any other charter or non-charter activities.

See [Exhibit B.5 – Sample Statement of Cash Flows](#) and [Exhibit B.9 – Sample Statement of Cash Flows for Individual Charter School](#).

#### **2.3.2.6 Schedule of Expenses**

The financial and compliance report must include a schedule of expenses for the fiscal year of the charter school for each individual charter school operated by the charter holder. This special-purpose schedule must disclose expenses by object code class as defined in the Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts.

See [Exhibit B.10 – Sample Schedule of Expenses](#).

#### **2.3.2.7 Schedule of Capital Assets**

The financial and compliance report must include a schedule of capital assets for each individual charter school operated by the charter holder as of the end of the applicable fiscal year. This special-purpose schedule must disclose capitalized assets by major object code, as defined in the Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts. This schedule must be supported locally with records that adhere to the requirements discussed in [2.2.5.2, Capital Assets \(Capital Asset Records\)](#). Also, refer to [2.2.5.2, Capital Assets \(Public Records\)](#) for the requirement to reconcile amounts from this schedule to the Statement of Financial Position if the amounts differ.

See [Exhibit B.11 – Sample Schedule of Capital Assets](#).

#### **2.3.2.8 Budgetary Comparison Schedule**

The financial and compliance report must include a budgetary comparison schedule for the fiscal year end of each individual charter school operated by the charter holder. This special-purpose schedule must disclose revenues by detailed object code and expenses by detailed function code as defined in the Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts. If the exhibit discloses a variance(s) between the final budgeted amounts and the actual amounts that exceed 10 percent of the final budgeted amount, the charter holder must include a written statement discussing the cause of the variance and the corrective action(s) that were taken to ensure that the charter school adheres to its budget. If the original and final budgeted amounts vary by more than 10 percent of the original budgeted amounts, the charter holder must include a written statement discussing the cause of the variance(s).

See [Exhibit B.12 – Sample Budgetary Comparison Schedule](#).

#### **2.3.2.9 Schedule of Findings and Questioned Costs**

The financial and compliance report must include a schedule of findings and questioned costs for each individual charter school operated by the charter holder.

#### **Disclosures**

This special-purpose schedule must disclose the following:

1. A summary of the auditor's results which should include:
  - a. The type of report the auditor issued on the financial statements of the auditee (i.e., unmodified opinion, modified opinion, adverse opinion, or disclaimer of opinion);
  - b. A statement as to whether significant deficiencies in internal control were disclosed by the audit of the financial statements and whether any such deficiencies were material weaknesses;
  - c. A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee;
2. Findings relating to the financial statements which are required to be reported in accordance with generally accepted government auditing standards; and
3. Findings and questioned costs for state and federal awards.

If the charter holder must prepare a schedule of findings and questioned costs pursuant to the Single Audit Act, then this schedule must conform to the requirements discussed in 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

### **Findings**

Audit findings specific to charter school operations should be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action and for the TEA to arrive at a decision regarding potential administrative action. The following specific information should be included, as applicable, in audit findings:

1. A reference number;
2. A description of the source of funds by net asset code and net asset code description;
3. The criteria or specific requirement upon which the audit finding is based, including statutory, regulatory, or other citation;
4. A complete description of the condition found, including facts that support the deficiency identified and if the deficiency(s) represents an isolated instance or a systemic problem;
5. The total dollar amount of questioned costs;
6. The effect or possible effect of the deficiency(s);
7. Recommendations to prevent future occurrences of the deficiency(s) identified in the audit finding and how to address past deficiency(s); and
8. A statement from charter holder or charter school administrators that discusses the corrective action(s) that will be taken to address the auditor's findings and recommendations.

Audit findings must also be reported consistent with generally accepted government auditing standards as promulgated by the United States Government Accountability Office.

See [Exhibit B.15 – Sample Schedule of Findings and Questioned Costs](#).

### **2.3.2.10 Schedule of Prior Audit Findings**

The Schedule of Prior Audit Findings is required if the charter holder is subject to the Single Audit Act and must conform to the requirements discussed in 2 CFR §200.511(b), Summary schedule of prior audit findings.

See [Exhibit B.16 – Sample Schedule of Prior Audit Findings](#).

#### **2.3.2.11 Corrective Action Plan**

The Corrective Action Plan is required if the charter holder is subject to the Single Audit Act and must conform to the requirements discussed in 2 CFR §200.511(c), Corrective action plan.

### **2.3.3 Required Audit Disclosures**

The Commissioner’s rules concerning open-enrollment charter schools (19 TAC, Chapter 100, Subchapter AA) require certain information to be separately disclosed in the annual audit report.

#### **2.3.3.1 Training Requirements**

The Commissioner’s rules concerning open enrollment charter schools require training for the following charter school officials:

- members of governing bodies of charter holder and school (19 TAC §100.1102)
- chief executive and central administrative officers (19 TAC §100.1103)
- campus administrative officers (19 TAC §100.1104)
- business managers (19 TAC §100.1105)

19 TAC §§100.1102 – 100.1106 contain specifications regarding the timing, course content, exemptions, and number of hours required.

According to 19 TAC §100.1108, the charter holder is required to separately disclose in the annual audit report any member of the governing body of the charter holder or a charter school, and any officer of a charter school, who fails to comply with §§100.1102 – 100.1105 and who continues to serve in such capacity as of the date of the audit report. Failure to comply is considered a material violation of the contract for charter and may be considered by the commissioner in any action or intervention.

A charter school’s independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

#### **2.3.3.2 Management Companies**

A person may not serve as a member of the governing body of a charter holder as a member of the governing body of a charter school, or as an officer or employee of a charter school, if the person has a substantial interest in a management company that has a contract for management services with the charter holder or a charter school.

#### **Management Company Interest Disclosure**

According to 19 TAC §100.1153, the charter holder is required to separately disclose in the annual audit any member of the governing body of the charter holder or a charter school and any officer or employee of a charter school, who has a substantial interest in a management company. If a person is prohibited by this section from serving as a member of the governing body of a charter holder, as a member of the governing body of a charter school, or as an officer or employee of a charter school, the charter holder shall remove the individual from such position immediately. Failure to comply is considered a material violation of the contract for charter and may be considered by the commissioner in any action or intervention.

### **Management Company Loans and Credit Disclosure**

19 TAC §100.1155(c) states that a charter holder must file a copy of each contract for management services, and each amendment, renewal or extension thereto, with the TEA division responsible for legal services for review under this section at least 30 calendar days prior to any performance or payments under the contract.

According to 19 TAC §100.1157, neither a charter holder or a charter school may accept any loan or credit from, or incur any debt to, a management company that has a contract to provide management services to:

1. that charter school; or
2. another charter school that operates under a charter granted to the charter holder.

A charter holder is required to separately disclose in its annual audit report all loans or credit received or indebtedness incurred by the charter holder or the charter school to any person or entity providing management services to the charter school or another charter school that operates under a charter granted to the charter holder. See 19 TAC §100.1157 for additional requirements regarding management company loans.

## 2.4 Compliance

---

The charter holder is responsible for compliance with the federal and state requirements discussed in this section. The independent auditor must conduct audit procedures to determine if the charter holder and/or the charter school complied with these requirements and must identify any issues regarding compliance.

### 2.4.1 Federal Compliance

The [Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards \(2 CFR Part 200\)](#) streamlines and consolidates government requirements for receiving and using federal awards. It was published in the Federal Register (79 Fed. Reg. 75871) on December 19, 2014, and became effective for new and continuation awards issued on or after December 26, 2014. [Title 34 of the CFR, known as Education Department General Administrative Regulations \(EDGAR\)](#), stipulates the federal administrative responsibilities of the State and its subgrantees.

Several state and regulatory requirements are applicable to all or most federal assistance programs. These requirements are discussed in the applicable program grant or performance contract guidelines and other federal and state publications.

#### 2.4.1.1 Cash Management

Federal regulations require that the amount of federal funds maintained locally be minimized. Federal awards generally require that the charter school request payment after the amount has been expended. To ensure compliance with federal requirements, the charter school should adopt procedures that ensure that federal funds are received after it has paid for reimbursable expenses and that it does not maintain a balance of federal funds in excess of that required to meet operational expenses. Any violations of this requirement and the amounts in question must be reported in the schedule of findings and questioned costs included in the financial and compliance report.

See [31 CFR Part 205, Rules and Procedures for Efficient Federal-State Funds Transfers](#).

#### 2.4.1.2 Budget

Federal grant requirements stipulate that the charter holder and/or charter school (the grantee) adhere to the budget approved by the TEA included with the grant application submitted by the grantee. Specifically, 34 CFR §76.770 requires each State to have procedures for reviewing and approving applications for subgrants and amendments to those applications, for providing technical assistance, for evaluating projects, and for performing other administrative responsibilities the State has determined are necessary to ensure compliance with applicable statutes and regulations.

Generally, the grantee may amend the budget without submitting the amendment to the TEA for approval. However, the grantee should refer to the applicable grant application to determine if such amendments are permitted and the conditions that must be met. In certain instances, the grantee may

be required to submit budget amendments to the TEA for approval before the expenditure of funds. In general, if the grantee expends grant funds before the amendment is approved, the amount(s) may represent questionable costs and may be subject to recapture by the TEA.

## 2.4.2 State Compliance

Texas Education Code (TEC), Chapter 12, as amended, authorizes the State Board of Education to grant charters. TEC, Chapter 12, as amended, also authorizes the Commissioner of Education to make rules governing charter school operations and to require reports and issue certain regulations for charter schools. In general, there are several law or rule documents that may specifically apply to charter schools. These are:

- The [Texas Education Code \(TEC\)](#)
- The [Texas Administrative Code \(TAC\)](#)
- Texas Education Agency *Financial Accountability System Resource Guide (FASRG)*
- Texas Education Agency [Student Attendance Accounting Handbook \(SAAH\)](#)
- Texas Education Agency PEIMS Data Standards and [Texas Education Data Standards \(TEDS\)](#)

The above documents set forth the laws, rules, or regulations with which a charter holder must comply for financial-legal purposes. It is not implied here that the above documents include all laws, rules, or regulations affecting charter school operations, as there are others.

### 2.4.2.1 Nepotism

TEC, §12.1055 (Applicability of Nepotism Laws) states that an open-enrollment charter school is subject to a prohibition, restriction, or requirement, as applicable, imposed by state law or by a rule adopted under state law, relating to nepotism under Government Code, Chapter 573.

Independent auditors must perform audit procedures to ascertain the applicability of Chapter 573 of the Government Code and to ensure compliance with its requirements. If Chapter 573 of the Government Code does not apply, independent auditors must nonetheless ensure that the governing body of the charter school complied with the requirements in Local Government Code, §§171.003-171.007 with respect to a personnel matter as discussed in TEC, 12.055(b).

The charter holder and/or the charter school must adopt local policies addressing nepotism. The charter holder and the charter school must refer to TEC, §12.1055; Government Code, Chapter 573; and Local Government Code, §§171.003-171.007 to ensure that local policies comply with state law.

If applicable, a charter holder's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

### **2.4.2.2 Conflicts of Interest**

As discussed in TEC, §12.1054, if a charter school is rated acceptable or higher, then a charter school employee may serve as a member of the governing body of the charter holder or the charter school if the employees do not constitute a quorum of the governing body or any committee of the governing body. However, all individuals serving on the governing body shall comply with Local Government Code, §§171.003-171.007 of the Local Government Code.

Charter schools must adopt local policies addressing conflicts of interest. The charter school must refer to TEC, §12.1054 and Local Government Code, Chapter 171 to ensure that local policies comply with state law. Also, refer to Title 19 of the Texas Administrative Code (TAC) §§100.1131-100.1135 for further regulatory requirements.

If applicable, a charter holder's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

### **2.4.2.3 Depository Contract**

TEC, §12.107(b) requires that a charter school file a copy of the depository contract between the charter holder and any bank into which state funds are deposited. Also, see 19 TAC §100.1043(b) for rules relating to depository contracts and 19 TAC §1013 for rules on filing documents with the TEA.

This information is required to be filed annually by December 1; however, if there has been no change since the last filing, the charter holder may file a statement to this effect in lieu of a copy of the depository contract. A specific format for the depository contract is not prescribed. However, the charter holder must ensure that the depository contract contains the following information:

1. The name of the charter holder and its corresponding federal employer identification number (FEIN);
2. The name of the charter school and its corresponding county-district number;
3. The name of the bank and its corresponding FEIN;
4. The number assigned to the bank account to be used to deposit and disburse public funds;
5. The date that the depository contract was executed; and
6. The signatures of the representatives authorized to execute the depository agreement for the bank and the charter holder.

The charter holder should seek appropriate legal counsel, if necessary, before executing a depository contract with a bank. A copy of the applicable depository contract should be sent to the following address:

Texas Education Agency  
Division of Financial Compliance  
1701 North Congress Avenue  
Austin, TX 78701

According to Government Code, §2257.024, the following items should be considered in the collateralization policy of a school district:

- A public entity may contract with a bank that has its main office or a branch office domiciled in this state to secure a deposit of public funds.
- The contract may contain a term or condition relating to an investment security used as a security for a deposit of public funds, including a term or condition relating to the:
  1. Possession of the collateral;
  2. Substitution or release of an investment security;
  3. Ownership of the investment securities of the bank used to secure a deposit of public funds; and
  4. Method by which an investment security used to secure a deposit of public funds is valued.

Government Code, §2257.002 defines the following items as eligible “investment security” for collateralization purposes:

- an obligation that in the opinion of the attorney general of the United States is a general obligation of the United States and backed by its full faith and credit;
- a general or special obligation issued by a public agency that is payable from taxes, revenues, or a combination of taxes and revenues; or
- a security in which a public entity may invest under Subchapter A, Chapter 2256.

Additionally, it defines the following items as “eligible security”:

- a surety bond;
- an investment security;
- an ownership or beneficial interest in an investment security, other than an option contract to purchase or sell an investment security;
- a fixed-rate collateralized mortgage obligation that has an expected weighted average life of 10 years or less and does not constitute a high-risk mortgage security;
- a floating-rate collateralized mortgage obligation that does not constitute a high-risk mortgage security; or
- a letter of credit issued by a federal home loan bank.

Senate Bill 638, 81st Regular Legislative session, added Subchapter F to Chapter 2257 of the Government Code. This allowed for the establishment of a pooled collateral program to begin operations not later than the first business day of April 2010. Financial institutions are required to file reports with the Comptroller’s office to ensure compliance with the collateral requirements.

#### **2.4.2.4 Records Retention**

As used herein, record and records shall mean any and all written, printed, electronic and/or magnetic material, both originals and copies thereof including any and all data or information stored in any electronic and/or magnetic medium, in the possession, custody, and/or control of the charter holder and any of its agents.

#### **Records**

Record and records shall also mean to include the following types of documents.

1. Administrative records, including but not necessarily limited to the following:
  - General correspondence and memorandums;

- Grant files, including grant applications, notices of grant award, correspondence from the grantor, budgets, budget amendments, and expenditure reports;
  - Inventory records for state textbooks;
  - Procedure manual(s) or handbook(s) developed by the administrators of the organization, including any manuals or handbooks addressing accounting, administrative, business, contract, finance, payroll, personnel, and student practices or procedures; and
  - Teacher class and/or work schedules.
2. Business records, including but not necessarily limited to the following:
- Accounting policies and procedures manuals or handbooks;
  - Accounting, finance and payroll reports, journals (including petty cash journals), general ledgers, subsidiary ledgers and registers;
  - Agreements, contracts, and shared service arrangements, including exhibits, amendments, and other supporting documentation for transactions for the purchase of real property, personal property, software, services, etc.;
  - Asset management records, including asset ledgers and subsidiary ledgers, inventory records for real and personal property, documentation evidencing the authorization and disposal of real or personal property;
  - Bank statements, including deposit slips, canceled checks and bank reconciliations;
  - Budgets and budget amendments, including working papers created exclusively for the preparation of budgets;
  - Cost allocation records that document the allocation of costs among accounts and sources of funding, including records relating to interdepartmental or interfund accounting transactions;
  - Corporate credit card statements and the supporting vendor invoices and store or restaurant receipts;
  - Independent auditor annual financial and compliance reports;
  - Internal Revenue Service forms, including Form W-2s, Form 990s, and Form 1099s;
  - Journal vouchers, including supporting documentation such as auditor adjustments that evidence journal entries and amendments;
  - Payroll records, including authorization forms, deduction authorizations, direct deposit applications, leave reports, time and attendance reports, and wage and salary schedules;
  - Personnel files, including employment applications, employment contracts, employee service records, certificates, licenses, permits, criminal background checks and work schedules;
  - Purchasing records, including advertisements, invitations to bid, bids, requests for proposals, bid sheets, and requests for quotations or estimates;
  - Purchase requisitions, purchase orders and disbursement vouchers including supporting documentation (e.g., vendor invoices, store receipts, professional service contract, etc.);
  - Reimbursement and travel vouchers including supporting documentation (e.g., hotel room rental statement, restaurant receipts, travel itineraries, etc.);
  - Teacher Retirement System forms and reports; and
  - Electronic files containing accounting, financial and payroll data, including the software files necessary for the maintenance of the data and for the submission of the data to the Public Education Information Management System.

3. Governance records, including but not necessarily limited to the following:
  - Notices, including agendas, of the meetings of the governing body;
  - Notes taken during meetings from which written minutes are prepared;
  - Minutes to the meetings of the governing body, including any audio or video tapes and any attachments, exhibits, schedules, or other material presented to the members of the governing body during the meetings; and
  - Policy manual(s) adopted by the governing body.
4. Student and student attendance records, including but not necessarily limited to the following:
  - School calendars adopted by the governing body;
  - Student enrollment records, including enrollment applications, birth certificates, proof of residency documentation, immunization records, report cards, and academic achievement records;
  - Student attendance records and reports, as defined in the Student Attendance Accounting Handbook;
  - Special program files, including special education student files; and
  - Electronic files containing student and student attendance data, including the software files necessary for the maintenance of the data and for the submission of the data to the Public Education Information Management System.

Refer to Local Schedule SD, Retention Schedule for Records of Public School Districts, and Local Schedule GR, Retention Schedule for Records Common to All Local Governments, for additional guidance. These documents are published by the Texas State Library and Archives Commission.

A record will be deemed to be in the possession, custody or control of the charter holder, including any of its agents, if it either has physical possession of the item or has a right to possession of the item that is equal or superior to the individual, organization, and/or entity who has physical control of the item.

Nothing in this section entitles the Texas Education Agency and any of its representatives to a record(s) that does not pertain to the operation of the charter school and the administration of the charter school's activities, services, programs and functions.

### **Records Maintenance and Retention Policies and Procedures**

The governing body of the charter holder must adopt policies and procedures regarding records maintenance and retention. At a minimum, the policies and procedures must:

1. Identify the types of records typically generated by the charter holder and its agents during the normal course of conducting business activities related to the operation of the charter school and the administration of the charter school's activities, services, programs and functions;
2. Identify which of the records identified pursuant to 1 above are legally required to be retained and which records are retained for management purposes;
3. Identify which of the records identified pursuant to 1 above are deemed essential or vital to the operation of the charter school and the administration of the charter school's activities, services, programs and functions;

4. Identify which of the records identified pursuant to 1 above are subject to disclosure in response to a request filed under the Chapter 552 of the Government Code;
5. Identify which of the records identified pursuant to 1 above are deemed confidential, as discussed in Chapter 552 of the Government Code;
6. Identify the official custodian of records and state their duties and responsibilities;
7. Require the identification of the location of the records identified pursuant to 1 above, including the storage of records on electronic and magnetic mediums and at offsite locations;
8. Require the development and maintenance of a records retention schedule;
9. Discuss the process for safeguarding and preserving records;
10. Discuss the method and timing for the disposition of records, the process to be used for the authorization of the disposition of records, the documentation to be maintained regarding the disposition of records, and the official responsible for authorizing the disposition of records; and
11. Stipulate that contracts with management companies must include a provision that addresses the right of possession of any and all records created and maintained by the management company during and after the period that the contract is effective.

With regards to item 11 above, the governing body of the charter holder must ensure that the records of the charter school created and maintained by a management company are physically maintained within the State of Texas at all times. Refer to Section 100.1159 and 100.1203(a)(3) of the Texas Administrative Code.

If applicable, a charter holder's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

### **Access to Records**

Pursuant to state and federal statutes and regulations and the applicable contract for charter, the charter holder and its agents must grant Texas Education Agency personnel access to any record relating to the operation of the charter school and/or the administration of any charter school activity, service, program and/or function. This includes all accounting, administrative, business, contractual, financial, payroll, personnel, program, student, and other files maintained by the charter school, the charter holder, a management company, and/or other service provider acting as an agent of the charter school and/or the charter holder. Failure to provide access to charter school records by any or all entities and individuals involved in the administration of the charter school may represent a violation of the applicable contract for charter.

The following will be deemed to be a failure to adhere to this requirement:

- Denial of access to any record in the possession, custody or control of the charter holder or any of its agents or

- Failure to respond a written request from the Texas Education Agency for a copy(s) of any record(s) in the possession, custody or control of the charter holder or any of its agents.

The charter holder and its agents must ensure that any and all charter school records are readily accessible to Texas Education Agency personnel.

### **Records Retention**

Charter schools must retain and have access to all financial programmatic records, supporting documents, statistical records and any other records pertaining to federal or state programs. Record retention requirements for federal and state programs are mandated by the Texas State Library and Archives Commission (refer to Local Schedule SD, Retention Schedule for Records of Public School Districts, and Local Schedule GR, Retention Schedule for Records Common to All Local Governments, for additional guidance). The record retention period is automatically extended if the charter school is under investigation, litigation or administrative action. This latter requirement applies to all records that pertain to the investigation, litigation or administrative hearing.

If applicable, a charter holder's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

### **Transfer of Records**

As discussed in TEC, §12.1052(d), a charter holder that ceases to operate a charter school shall transfer its records in the manner specified by the Commissioner of Education to a custodian(s) designated by the commissioner. To ensure that all charter school records are transferred to the custodian(s) designated by the commissioner, the charter holder must provide a detailed inventory of charter school records. Upon completion of the inventory, the charter holder must prepare the records for transfer to the custodian(s).

### **Accounting Record Defined**

The charter holder and the charter school are responsible for maintaining accounting records consistent with generally accepted accounting standards. At a minimum, the disbursement of public funds must be supported with the following:

1. An original internal accounting document that includes a notation that:
  - a. The disbursement was authorized by a charter holder or charter school official;
  - b. The disbursement was authorized pursuant to the budget adopted by the governing body;
  - c. The disbursement was classified in the financial accounting system;
  - d. Identifies the business purpose of the disbursement; and
  - e. Identifies the check number of the account used to disburse the funds.
2. An original and complete third-party document.

## **2.4.2.5 Uniform Grant Management Standards**

The Uniform Grant Management Standards (UGMS) were established to provide a standardized set of financial management procedures for grantor agencies in Texas. State agencies are required to adhere

to these standards when administering grants and other financial assistance agreements with cities, counties and other political subdivisions of the state.

Chapter 783 of the Government Code excludes school districts; however, to further consistency and accountability, some state agencies have applied these standards by rule or contract to all their subrecipients.

If a charter school receives state grants directly or federal block grants from a state agency other than TEA, the auditor must check the grant requirements of that agency, since some require a state single audit for that specific grant, i.e., the charter school may agree voluntarily to a state single audit as a condition of receiving the grant.

The Uniform Grant Management Standards are found on the Comptroller of Public Accounts website.

## 2.5 Budgeting

---

Charter schools must adopt a budgeting process that is consistent with the requirements discussed in the Texas Education Code, Chapter 44 (Fiscal Management). Additionally, the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide (FASRG)* includes information about budgeting.

In addition to the requirements discussed in the section noted above, the governing body of the charter school must formally adopt the charter school's budget prior to the start of the fiscal year and before the expenditure of funds. The budget must include all expenses and must be prepared in a manner consistent with the account code structure used by the charter school. In addition to the budget's initial adoption, the governing body of the charter school must also formally adopt amendments to the charter school's budget.

The minutes to the meetings of the governing body of the charter school must be used to record adoption of and amendments to the budget. The minutes must include a description of the action taken by the board and a copy of the budget and/or amendments adopted.

If applicable, a charter holder's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

## 2.6 Purchasing

---

Texas Education Code (TEC), §12.1053 and federal regulations require that charter schools adhere to certain purchasing and contract statutory provisions.

If applicable, a charter holder's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

Unless a charter school's charter describes procedures for purchasing and contracting approved by the State Board of Education, TEC §12.1053 requires a charter school to adhere to various statutory requirements discussed in different sections of the Government Code and the Local Government Code.

### **Locally Adopted Policies and Procedures**

The governing body of a charter school must adopt policies and procedures that identify the purchasing and contracting requirements that the charter school must follow and the measures that charter school personnel must take to ensure compliance.

### 2.6.1 Real Property Held in Trust

This section is based on statutory requirements discussed in Subchapter D, Chapter 2252 of the Government Code and §100.1071 of the Texas Administrative Code. The requirements discussed in Chapter 2252 of the Government Code apply to charter schools unless the charter school's charter otherwise describes procedures for purchasing and contracting and the procedures are approved by the State Board of Education.

#### **Identification of Trust Property**

A charter school may not purchase real property held in trust until the trustee submits to the governing body of the charter school a copy of the trust agreement identifying the true owner of the property. The trustee is required to identify the true owner of the property to the charter school. Additionally, a charter school may not sell real property to a trustee until the charter school receives from the trustee a copy of the trust agreement identifying the person who will be the true owner of the property. The trustee shall identify the person who will be the true owner of the property to the charter school.

The charter school is required to maintain adequate documentation demonstrating adherence to this requirement.

#### **Noncompliance**

A conveyance of property is void if a charter school fails to comply with the requirements noted above.

A charter school's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

#### **Confidentially**

A trust agreement submitted to the governing body of the charter school is confidential information.

## 2.6.2 Competitive Procurement

Charter schools must adopt local policies addressing competitive procurement to ensure compliance with state and federal requirements and that purchases are made using a process that provides the best value for the charter school. Charters schools should refer to TEC §§44.031-44.901 for state laws on purchasing.

Generally, federal regulations require that grantees and subgrantees use their own procurement procedures in accordance with applicable state and local laws and regulations and provided that the procurements conform to applicable federal law and the standards discussed in Title 2 of the Code of Federal Regulations (CFR), §§200.317-200.326 and Appendix II to 2 CFR Part 200. Generally, 2 CFR §200.318 requires the following:

1. Maintenance of a contract administration system;
2. Maintenance of a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts;
3. Local procedures that provide for a review of proposed procurements to avoid purchase of unnecessary or duplicative items;
4. Ensure that awards are made only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement;
5. Maintenance of records sufficient to detail the significant history of a procurement; and
6. Good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements, including, but are not limited to, source evaluation, protests, disputes, and claims.

### **Noncompliance**

A charter school's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

## 2.6.3 Competitive Procurement Procedures on Certain Public Works Contracts

This section is based on statutory requirements discussed in Subchapter B, Chapter 271 of the Local Government Code, as amended, and in Title 19 of the Texas Administrative Code (TAC) §100.1073. The requirements discussed in Chapter 271 of the Local Government Code apply to charter schools unless the charter school's charter otherwise describes procedures for purchasing and contracting and the procedures are approved by the State Board of Education.

### **Bidding Procedures**

If a charter school is required by statute to award a contract for the construction, repair, or renovation of a structure, road, highway, or other improvement or addition to real property on the basis of competitive bids, and if the contract requires the expenditure of more than \$50,000 from charter school funds (Local Government Code, §271.024), the bidding on the contract must be accomplished as discussed in Subchapter B, Chapter 271 of the Local Government Code, as amended. The charter school must adopt procedures that identify transactions subject to competitive bidding requirements and that discuss the steps that staff must take to ensure compliance with applicable law.

### **Noncompliance**

As discussed in Subchapter B, Chapter 271 of the Local Government Code, as amended, a contract awarded in violation of state law is void. Furthermore, a violation of the competitive bidding requirements may represent a criminal offense that could result in prosecution of a charter school officer and/or employee and in immediate removal of the officer and/or employee from office and/or employment.

A charter school's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

## **2.6.4 Professional Services**

This section of the supplement is based on statutory requirements discussed in Subchapter A, Chapter 2254 of the Government Code and Section 100.103 and 100.1205 of the Texas Administrative Code. The requirements discussed in Chapter 2254 of the Government Code apply to charter schools unless the charter school's charter otherwise describes procedures for purchasing and contracting and the procedures are approved by the State Board of Education.

### **Professional Services Defined**

A charter school is responsible for ensuring compliance with applicable state law for the following types of professional services:

- (1) accounting;
- (2) architecture;
- (3) landscape architecture;
- (4) land surveying;
- (5) medicine;
- (6) optometry;
- (7) professional engineering;
- (8) real estate appraising; or
- (9) professional nursing.

This includes services provided by individuals licensed or registered as:

- (1) a certified public accountant;
- (2) an architect;
- (3) a landscape architect;
- (4) a land surveyor;
- (5) a physician, including a surgeon;
- (6) an optometrist;
- (7) a professional engineer;
- (8) a state certified or state licensed real estate appraiser; or
- (9) a registered nurse.

### **Procedures for the Procurement of Professional Services**

The charter school must adopt procedures that identify transactions subject to the requirements discussed in Subchapter A, Chapter 2254 of the Government Code and Section 100.1205 of the Texas Administrative Code and that discuss the steps that staff must take to ensure compliance with applicable law.

### **Noncompliance**

A contract entered into or an arrangement made in violation of applicable state law is void.

A charter school's independent auditor is required to identify any instances of noncompliance in the Schedule of Findings and Questioned Costs.

## **2.6.5 Conflict of Interest Statements**

Local Government Code, Chapter 176 provides information regarding conflict of interest statements to be filed by vendors and certain school district employees. HB 23 passed by the 84th Legislature made modifications to the requirements for conflict of interest statements in Chapter 176 of the Local Government Code and requires charter schools to follow the requirements. Refer to the [Texas Ethics Commission](#) for additional information and sample forms.

## 2.7 Accountability

---

Each year, the commissioner of education will determine the accreditation status of each charter school, as determined by TEC, §39.052. The charter's school's performance under the financial accountability rating system is one of the factors considered in the determination of the accreditation status.

The following laws and rules discuss the financial accountability rating system, determination of the accreditation status, and interventions and sanctions.

- Texas Administrative Code (TAC), Title 19, 109.1001 (Financial Integrity Rating System of Texas (FIRST))
- 19 TAC 97.1055 (Accreditation Status)
- Texas Education Code (TEC), 39.052 (Accreditation Status)
- TEC, 39.082 (FIRST)
- TEC, §39.102 (Interventions and Sanctions)

According to 19 TAC §100.1021, the commissioner of education may either revoke the charter of an open-enrollment charter school or reconstitute the governing body of the charter holder if the commissioner determines that the charter holder:

1. committed a material violation of the charter, including failure to satisfy accountability provisions prescribed by the charter, as determined under 19 TAC §100.1022;
2. failed to satisfy generally accepted accounting standards of fiscal management, as determined in 19 TAC §100.1022;
3. failed to protect the health, safety, or welfare of the students enrolled at the school, as determined in 19 TAC §100.1022 and 19 TAC §100.1025;
4. failed to comply with Texas Education Code (TEC), Chapter 12, Subchapter D, or another applicable law or rule, as determined in 19 TAC §100.1022;
5. failed to satisfy the performance framework standards as set forth in the Charter School Performance Framework Manual established under TEC, §12.1181, as determined in 19 TAC §100.1022; or
6. is imminently insolvent as determined by the commissioner in accordance with 19 TAC §100.1022(h) of this title (relating to Standards to Revoke and Modify the Governance of an Open-Enrollment Charter).

See 19 TAC §100.1022(c), for the minimum financial performance required.

According to 19 TAC §100.1023, the commissioner of education shall temporarily withhold state funds, suspend the authority of an open-enrollment charter school to operate, impose a sanction under TEC, Chapter 39, Subchapter E, and/or take any other reasonable action the commissioner determines necessary, if the commissioner determines that a charter holder:

1. committed a material violation of the school's charter;
2. failed to satisfy generally accepted accounting standards of fiscal management; or
3. failed to comply with this subchapter or another applicable rule or law.

Additionally, the following laws discuss the criteria for not renewing a charter and revoking a charter.

- TEC, §12.1141 (Renewal, Denial of Renewal, or Expiration of Charter)
- TEC, §12.115 (Revocation or Modification of Governance)

## 2.8 Other Requirements

---

Other requirements for charter schools are discussed in this section.

### 2.8.1 Non-Profit Status

The auditor should check that the corporation continues in existence and maintains its non-profit status, as a failure to do so is considered a material violation of the charter contract.

### 2.8.2 State Compensatory Education

Charter schools are subject to all the guidelines and requirements contained in FASRG Module : State Compensatory Education.

## **Appendix A: List of Acronyms**

---

AFR – Annual Financial and Compliance Report

ASC – Accounting Standards Codification

CFR – Code of Federal Regulations

EDGAR – Education Department General Administrative Regulations

FASB – Financial Accounting Standards Board

FASRG – Financial Accountability System Resource Guide

FIRST – Financial Integrity Rating System of Texas

FSP – Foundation School Program

GAAP – Generally Accepted Accounting Principles

GASB – Governmental Accounting Standards Board

OMB – Office of Management and Budget

PEIMS – Public Education Information Management System

SAAH – Student Attendance Accounting Handbook

TAC – Texas Administrative Code

TEA – Texas Education Agency

TEC – Texas Education Code

TEDS – Texas Education Data Standards

TRS – Teacher Retirement System

UGMS – Uniform Grant Management Standards

**Independent Auditor's Report**

Board of Directors  
Anywhere Charter Holder  
10 Main Street Anywhere, TX 79999

Members of the Board of Directors:

**Report on the Financial Statements**

We have audited the accompanying consolidated financial statements of Anywhere Charter Holder as of August 31, 20BB and 20AA, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Anywhere Charter Holder as of August 31, 20BB and 20AA, and the changes in its net assets and

its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

#### **Other Information**

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information required by the Texas Education Agency and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

#### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 20BB, on our consideration of Anywhere Charter Holder's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal controls over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Anywhere Charter Holder's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Anywhere Charter Holder's internal control over financial reporting and compliance.

Jones and Jones, CPAs

## **Notes to the** **Financial Statements**

Anywhere Charter Holder  
Notes to the Financial Statements  
For the Year Ended August 31, 20BB

Note 1: Summary of Significant Accounting Policies

The general-purpose financial statements of Anywhere Charter Holder (the corporation) were prepared in conformity with accounting principles generally accepted in the United States. The Financial Accounting Standards Board is the accepted standard setting body for establishing not-for-profit accounting and financial reporting principles.

Reporting Entity

The corporation is a not-for-profit organization incorporated in the State of Texas in 19WW and exempt from federal income taxes pursuant to Section 501(c)(3) of the Internal Revenue Code. The corporation is governed by a Board of Directors comprised of seven members. The Board of Directors is selected pursuant to the bylaws of the corporation and has the authority to make decisions, appoint the chief executive officer of the corporation, and significantly influence operations. The Board of Directors has the primary accountability for the fiscal affairs of the corporation.

Since the corporation received funding from local, state, and federal government sources, it must comply with the requirements of the entities providing those funds.

Corporate Operations

Initially, the corporation operated a summer program for at-risk youths. This program was still in operation during the fiscal year ended August 31, 20BB. In 19XX, the State Board of Education of the State of Texas granted the corporation an open-enrollment charter pursuant to Chapter 12 of the Texas Education Code. Pursuant to the program described in the charter application approved by the State Board of Education and the terms of the applicable Contract for Charter, Anywhere Charter School was opened on September 1, 19YY. Subsequent to the awarding of the charter for Anywhere Charter School, the corporation applied for and received a second charter in 19YY. Pursuant to the program described in the charter application approved by the State Board of Education and the terms of the applicable Contract for Charter, Anywhere Charter Academy was opened on September 1, 19ZZ. Anywhere Charter School and Anywhere Charter Academy were organized to provide educational services to at-risk students and their programs, services, activities and functions are governed by the corporation's board of directors.

Basis of Accounting and Presentation

The accompanying general-purpose financial statements have been prepared using the accrual basis of accounting in accordance with generally accepted accounting principles.

Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the organization and changes therein are classified and reported as follows:

**Net Assets Without Donor Restrictions** – Net assets available for use in general operations and not subject to donor restrictions. Assets restricted solely through the actions of the Board of Directors are reported as net assets without donor restrictions, board-designated.

**Net Assets With Donor Restrictions** – Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity.

### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### Contributions

The corporation accounts for contributions as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

Support that is restricted by the donor is reported as an increase in temporarily restricted or permanently restricted net assets in the reporting period in which the support is recognized. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

### Cash and Cash Equivalents

For financial statement purposes, the corporation considers all highly liquid investment instruments with an original maturity of three months or less to be cash equivalents.

### **Fair Value Measurement of Financial Instruments**

The requirements of Fair Value Measurements and Disclosures of the *FASB Accounting Standards Codification* (ASC) apply to all financial instruments and all nonfinancial assets and nonfinancial liabilities that are being measured and reported on a fair value basis. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB also establishes a fair value hierarchy that categorizes the inputs used in valuation methodologies into three levels.

Inputs may be observable or unobservable. Observable inputs are inputs that are developed using market data, such as publicly available information about actual events or transactions, and that reflect the assumptions that market participants would use when pricing the asset or liability. Unobservable inputs are inputs for which market data are not available and that are developed using the best information available about the assumptions that market participants would use when pricing the asset or liability. A three-tier hierarchy categorizes the inputs used to measure the fair value as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets for liabilities that the charter holder can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.
- Level 3 inputs are unobservable inputs for the asset or liability.

Assets measured at fair value at August 31, 20BB are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>Bond proceeds held in trust:</u>				
<u>Money market mutual funds</u>	<u>\$ xx,xxx</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ xx,xxx</u>
<u>Total assets measured at fair value</u>	<u>\$ xx,xxx</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ xx,xxx</u>

### Capital Assets

Capital assets, which include buildings and improvements, furniture and equipment, vehicles, and other personal property, are reported in the general-purpose and specific-purpose financial statements. Capital assets are defined by the corporation as assets with an individual cost of more than \$5,000. Such assets are recorded at historical cost and are depreciated over the estimated useful lives of the assets, which range from three to twenty years, using the straight-line method of depreciation. Expenditures for additions, major renewals and betterments are capitalized, and maintenance and repairs are charged to expense as incurred. Donations of assets are recorded as direct additions to net assets at fair value at the date of donation, which is then treated as cost.

### Note 2: Capital Assets

Capital assets at August 31, 20BB and 20AA were as follows:

	<u>20BB</u>	<u>20AA</u>
<u>Land</u>	<u>\$ xxx,xxx</u>	<u>\$ xxx,xxx</u>
<u>Buildings and improvements</u>	<u>x,xxx,xxx</u>	<u>x,xxx,xxx</u>
<u>Vehicles and equipment</u>	<u>xxx,xxx</u>	<u>xxx,xxx</u>
<u>Total property and equipment</u>	<u>x,xxx,xxx</u>	<u>x,xxx,xxx</u>
<u>Less accumulated depreciation</u>	<u>xxx,xxx</u>	<u>xxx,xxx</u>
<u>Property and equipment, net</u>	<u>\$ x,xxx,xxx</u>	<u>\$ x,xxx,xxx</u>

Capital assets acquired with public funds received by the corporation for the operation of Anywhere Charter School and Anywhere Charter Academy constitute public property pursuant to Chapter 12 of the Texas Education Code. These assets are specifically identified on the Schedule of Capital Assets for each individual charter school.

### Note 3: Long-Term Debt

Long-term debt at August 31, 20BB consists of the following:

<u>Note payable to a bank, 5% interest, principal and interest due monthly in installments of \$x,xxx, commencing</u>	<u>\$ x,xxx,xxx</u>
---	---------------------

October 1, 19YY. Final payment is due October 1, 20MM.  
The note is secured by a first lien on land and buildings of  
the charter school.

<u>Less current portion of long-term debt</u>	<u>xxx,xxx</u>
<u>Total long-term debt</u>	<u>\$ x,xxx,xxx</u>

Future maturities of long-term debt at August 31, 20BB are as follows:

<u>Year Ended August 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
<u>20CC</u>	<u>\$ xx,xxx</u>	<u>\$ xx,xxx</u>	<u>\$ xx,xxx</u>
<u>20DD</u>	<u>xx,xxx</u>	<u>xx,xxx</u>	<u>xx,xxx</u>
<u>20EE</u>	<u>xx,xxx</u>	<u>xx,xxx</u>	<u>xx,xxx</u>
<u>20FF</u>	<u>xx,xxx</u>	<u>xx,xxx</u>	<u>xx,xxx</u>
<u>20GG</u>	<u>xx,xxx</u>	<u>xx,xxx</u>	<u>xx,xxx</u>
<u>Thereafter</u>	<u>xxx,xxx</u>	<u>xxx,xxx</u>	<u>x,xxx,xxx</u>
	<u>\$ x,xxx,xxx</u>	<u>\$ xxx,xxx</u>	<u>\$ x,xxx,xxx</u>

#### Note 4: Pension Plan Obligations

##### Plan Description

The charter school contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing, multiple-employer defined benefit pension plan with one exception; all risks and costs are not shared by the charter school, but are the liability of the State of Texas. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701 or by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, [www.trs.state.tx.us](http://www.trs.state.tx.us), under the TRS Publications Heading.

##### Funding Policy

Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) the state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2)A state statute prohibits benefit improvements or contribution reductions if, as a result of a particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 1 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal year 2009, 2008 and 2007, and a state contribution rate of 6.58% for fiscal years 2009 and 2008 and 6.0% for fiscal year 2007. The charter school's employees' contributions to

the System for the years ending August 31, 20BB and 20AA were \$xx,xxx and \$xx,xxx , respectively, equal to the required contributions for each year. Other contributions made from federal and private grants and from the charter school for salaries above the statutory minimum for the years ending August 31, 20BB and 20AA were \$x,xxx and \$x,xxx, respectively, equal to the required contributions for each year.

#### Note 5: Health Care Coverage

During the year ended August 31, 20BB, employees of the charter school were covered by a Health Insurance Plan (the Plan). The charter school contributed \$xxx per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay contributions or premiums for dependents. All premiums were paid to licensed insurers.

#### Note 6: Deferred Revenue

Deferred revenue at August 31, 20BB and 20AA consisted of the following:

	<u>20BB</u>	<u>20AA</u>
<u>ESEA Title I Part A – Improving Basic Programs</u>	<u>\$ x,xxx</u>	=
<u>Child Nutrition</u>	<u>x,xxx</u>	=
<u>Total</u>	<u>\$ x,xxx</u>	=

#### Note 7: Net Assets with Donor Restrictions

Net Assets with Donor Restrictions for the years ending August 31, 20BB and 20AA consisted of the following:

	<u>20BB</u>	<u>20AA</u>
<u>ESEA Title I Part A – Improving Basic Programs</u>	<u>\$ x,xxx</u>	=
<u>ESEA Title X – Public Charter School Grant</u>	<u>x,xxx</u>	=
<u>Total</u>	<u>\$ x,xxx</u>	=

#### Note 8: Leases

Future minimum payments under noncancelable operating leases as of August 31, 20BB are as follows:

<u>20CC</u>	<u>\$ xxx,xxx</u>
<u>20DD</u>	<u>xxx,xxx</u>
<u>20EE</u>	<u>xxx,xxx</u>
<u>20FF</u>	<u>xxx,xxx</u>
	<u>\$ x,xxx,xxx</u>

Rent expense was approximately \$ xxx,xxx during 20BB.

#### Note 9: Related Party Transactions

The corporation paid Ms. Jane Doe, an employee of the corporation, \$120,000 in rent for each of the years ended August 31, 20BB and 20AA, on a property she owns. The building is a commercial property used as administrative offices. The corporation pays \$10,000 per month on a three-year lease which began in September 19ZZ. Ms. Jane Doe is the human resources supervisor and oversees all human resource functions for the corporation.

#### Note 10: Commitments and Contingencies

The charter school receives funds through state and federal programs that are governed by various statutes and regulations. State program funding is based primarily on student attendance data submitted to the Texas Education Agency and is subject to audit and adjustment. Expenses charged to federal programs are subject to audit and adjustment by the grantor agency. The programs administered by the charter school have complex compliance requirements, and should state or federal auditors discover areas of noncompliance, charter school funds may be subject to refund if so determined by the Texas Education Agency or the grantor agency.

## **Compliance and Internal Control**

---

**Exhibit B.13**

---

**Sample Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

---

JONES AND JONES, CPAs  
Post Office Box 99  
Anywhere, TX 79999

**Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

Board of Directors  
Anywhere Charter Holder  
10 Main Street  
Anywhere, TX 79999

Members of the Board of Directors:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Anywhere Charter Holder, as of and for the year ended August 31, 20BB, and the related notes to the financial statements, and have issued our report thereon dated October 30, 20BB.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Anywhere Charter Holder's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Anywhere Charter Holder's internal control. Accordingly, we do not express an opinion on the effectiveness of Anywhere Charter Holder's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Anywhere Charter Holder's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Anywhere Charter Holder in a separate letter dated October 30, 20BB.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Jones and Jones, CPAs

**Exhibit B.14    Sample Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

---

JONES AND JONES, CPAs  
Post Office Box 99  
Anywhere, TX 79999

**Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

**Report on Compliance for Each Major Federal Program**

We have audited Anywhere Charter Holder's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Anywhere Charter Holder's major federal programs for the year ended August 31, 20BB. Anywhere Charter Holder's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of Anywhere Charter Holder's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Anywhere Charter Holder's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Anywhere Charter Holder's compliance.

**Opinion on Each Major Federal Program**

In our opinion, Anywhere Charter Holder complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 20BB.

### **Other Matters**

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 20BB-001 and 20BB-002. Our opinion on each major federal program is not modified with respect to these matters.

Anywhere Charter Holder's response to the noncompliance findings identified in our audit is described in the accompanying Schedule of Findings. Anywhere Charter Holder's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Report on Internal Control Over Compliance**

Management of Anywhere Charter Holder is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered Anywhere Charter Holder's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Anywhere Charter Holder's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of Anywhere Charter Holder as of and for the year ended August 31, 20BB, and have issued our report thereon dated October 30, 20BB, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

Anywhere Charter Holder  
Schedule of Prior Audit Findings  
For the Year Ended August 31, 20BB

Finding 20AA-1Criteria

Paragraph K, Records Retention and Management, of the applicable Contract for Charter states  
“Charterholder shall implement a records management system that conforms to the system  
required of school districts under the Local Government Records Act, Section 201.001, et seq.,  
Local Government Code, and rules adopted thereunder; provided, however, that records  
subject to audit shall be retained and available for audit for a period of not less than five (5)  
years from the latter of the date of termination or renewal of the charter.”

Condition

Anywhere Charter Holder (the corporation) did not maintain adequate documentation to support certain  
disbursements from charter school funds. Specifically, the corporation did not require that original receipts be  
filed before the payment of amounts owed on charter school credit card accounts.

Total amount of unsupported expenditures: \$xx,xxx

Effect

Charter school funds were used to pay unsupported expenditures and, consequently, the charter school was  
unable to adequately account for the disbursement of funds. The corporation may have violated the Contract  
for Charter.

Recommendation

The corporation must maintain adequate documentation to ensure that disbursements are adequately  
supported. Corporation employees should be adequately trained and supervised to ensure that the accounting  
policies and procedures are followed in a proper and timely manner. The corporation should use local funds to  
reimburse the state and federal programs that paid for the unsupported transactions.

Management Response

The corporation will train staff to ensure that they are knowledgeable of the corporation’s accounting policies  
and procedures. The management of the corporation will monitor employee adherence to these guidelines  
and rules. The corporation will reimburse the state and federal programs the amount of \$xx,xxx for the  
supported transactions identified by the auditor.

Status

Auditors did not identify any additional lapses in documentation requirements. The corporation reimbursed  
the applicable state and federal programs the amount of \$xx,xxx.

Management’s Explanation for not implementing the Recommendation

N.A.

<u>Total Expenditures of Federal Awards</u>			<u>\$ xxx,xxx</u>

Anywhere Charter Holder  
Notes to the Schedule of Expenditure of Federal Awards  
For the Year Ended August 31, 20BB

Note 1: Standard Financial Accounting System

For all federal programs, the corporation used the net asset classes and codes specified by the Texas Education Agency in the *Module 3: Charter Schools - Financial Accounting and Reporting Non-profit Chart of Accounts, Nonprofit Charter School Chart of Accounts*. Temporarily restricted net asset codes are used to account for resources restricted to or designated for specific purposes by a grantor. Federal and state financial assistance is generally accounted for in temporarily restricted net asset codes.
