The Honorable Mike Morath  
Commissioner  
Texas Education Agency  
1701 North Congress Avenue  
Austin, TX  78701

Dear Commissioner Morath:

I am writing in response to the Texas Education Agency’s (TEA’s) request on December 31, 2018, for an extension of the State’s waiver of section 1111(b)(2)(D)(i)(I) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA), of the requirement that a State may not assess using an alternate assessment aligned with alternate academic achievement standards (AA-AAAS) more than 1.0 percent of the total number of students in the State. TEA requested this waiver because, based on State data for the 2017-2018 school year, TEA has concluded that it will need to assess more than 1.0 percent of students using an AA-AAAS in the 2018-2019 school year.

After reviewing TEA’s request, I am granting, pursuant to my authority under section 8401(b) of the ESEA, for the 2018-2019 school year, a one-year extension of the State’s waiver of section 1111(b)(2)(D)(i)(I) of the ESEA so that the State may assess with an AA-AAAS more than 1.0 percent of the total number of students in the State who are assessed in reading/language arts, mathematics and science. TEA demonstrated substantial progress in carrying out the plan that was submitted when the State initially requested this waiver a year ago.

As part of this waiver, TEA assured that it:

- Will continue to meet all other requirements of section 1111 of the ESEA and implementing regulations with respect to all State-determined academic standards and assessments, including reporting student achievement and school performance, disaggregated by subgroups, to parents and the public.
- Assessed in the prior school year (2017-2018) at least 95 percent of all students and 95 percent of students with disabilities who are enrolled in grades for which an assessment is required.
- Will require that a local educational agency (LEA) submit information justifying the need of the LEA to assess more than 1.0 percent of its assessed students in any such subject with an AA-AAAS.
- Will provide appropriate oversight of an LEA that is required to submit such information to the State, and it will make such information publicly available.
- Will verify that each LEA that is required to submit such information to the State is following all State guidelines in 34 CFR § 200.6(d) (with the exception of incorporating principles of universal design) and will address any subgroup disproportionality in the percentage of students taking an AA-AAAS.
- Will implement, consistent with the plan submitted in TEA’s waiver request, system improvements and will monitor future administrations of the AA-AAAS to avoid exceeding the 1.0 percent cap.

I note that even though Texas made substantial progress in carrying out its plan, it did not reduce the percentage of students taking an AA-AAAS in mathematics, reading/language arts or science. I am granting this extension despite the fact that Texas has not demonstrated progress in reducing the percentage of students taking an AA-AAAS in each subject. Given the significant work underway, I expect to see the results of these efforts in the 2018-2019 school year and beyond. Beginning next year, any request for an extension of this waiver will be

400 MARYLAND AVE., SW, WASHINGTON, DC 20202

The Department of Education's mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.
contingent on both continued progress implementing your plan and progress in reducing the percentage of students taking the AA-AAAS.

In addition, I want to remind you of the requirement in 34 CFR § 200.6(c)(3)(iv) that the State must make publicly available the information submitted by an LEA justifying the need of the LEA to assess more than 1.0 percent of its students on the AA-AAAS, provided that such information does not reveal personally identifiable information about an individual student. I also encourage you to make available your State’s plan and timeline and your progress to date in reducing the percentage of students taking the AA-AAAS.

Finally, in order to help all States support implementation of the 1.0 percent participation threshold for AA-AAAS participation, the Department is supporting work by the National Center on Educational Outcomes (NCEO) and the Center on Standards and Assessment Implementation (CSAI) to host three Peer Learning Groups (PLGs):

- Digging into Your Data: Building a One Percent Data Analysis and Use Plan
- Guiding and Evaluating District Justifications for Exceeding the One Percent Cap
- Building Capacity of IEP Teams and Parents in Making Decisions about Assessment Participation

If you have questions about any of these PLGs, please contact Susan Hayes, NCEO, at shayes@wested.org or (802) 951-8210.

I appreciate the work you are doing to improve your schools and provide a high-quality education for your students. If you have any questions, please contact my staff at OSS.Texas@ed.gov.

Sincerely,

Frank T. Bogan
Assistant Secretary
for Elementary and Secondary Education
