Texas Title I Priority Schools Grant

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information;

Summary of Program: Purpose and Goals

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Allowable Activities

Tier I and Tier II Grantees

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

Tier III Grantees

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Schedule #4A—Program Abstract

Part 1: Grant Eligibility

- Tier I Eligible Campus
 Tier II Eligible Campus
 Tier III Eligible Campus

Identify which timeline the LEA/Campus the applicant will implement.

- Option 1: LEA/campus currently engaged in aggressive reform
 Option 2: LEA/campus in need of foundational technical assistance

Part 2: Grant Program Summary. Provide a brief overview of the program you plan to implement on the campus.

Be sure to address fundamental issues such as your local program goals and objectives that align with the RFA purpose and goals, rationale for program design, etc. Address the specific gaps, barriers, or weaknesses to be addressed by the intervention model to be selected. A response to this question must be completed in the original submission regardless of whether the LEA/campus has selected an intervention model at this time or not.

Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Luling High School has completed the initial portions of a Comprehensive Needs Assessment, replaced a principal, is in the process of replacing and/or reassigning key staff. A Campus Action Team (CAT), with business, community, parents, teacher, and administrator representatives, has been identified and is involved in the planning and transformation process. The district has designated personnel to foster the transformational process by creating a Assistant Superintendent position in central office. Job-embedded professional development has been outlined for Year 1. The pre-work of the grant is nearly complete. Only the attendance at the Summer Seminar, planned for July, needs to be completed. Ninety day action plans will be developed and reviewed at the CAT meetings held periodically.

In the Fall, the district will have a Campus/District Snapshot. Positive Behavior Support will be implemented as large percentage of staff is being trained this summer. Social Service support has been set up for 2010-2011 in conjunction with a community member to provide an arrangement to continue services after the grant period. Campus Leadership Team has started a walk-through observation benchmark. These walk-throughs will continue on a monthly basis next year. A plan to recruit and retain quality staff will be developed by November. The Campus Action Team (CAT) has the responsibility and timeline to review progress and share information with the community. In the spring, professional development plans for summer 2011 and the 2011-2012 school year will be developed.

In Summer I, the above process will be reviewed with new data to changes and refocused support. CAT representatives will attend the NSCD Summer Conference and the High School Summit. The Summer Seminar will be attended again.

In Fall II, professional development plans will be updated. PBS and full vertically aligned curriculum will be fully implemented. Action research project will begin as teachers more to take more ownership of the data collection and analysis. The Professional Learning Community (PLC), with its teacher leaders, will be more active in campus decision-making. In Spring II, the process from Spring I will be repeated with a greater emphasis on teacher ownership. In Summer II, teacher/leader will present the Action Research and lead in the evaluation of the PBS efforts. CAT members will attend the Summer Institute.

In Fall III, Spring III, and Summer III, the process will repeat with a greater emphasis on the depth and appropriateness of data collection. More detailed understanding will be apparent as a result of data analysis in curriculum and instructional areas and in positive behavior support areas. A plan for sustainability will be outlined fully. The Professional Learning Community (PLC), with teacher leaders, will be fully implemented to continue as instructional resources. Administrative professional development and coaching will have been complete. An intense data review, complete with another Campus Snapshot, planned for completion in Fall III, will be part of the data reviewed for progress monitoring and goal setting.

Part 2: Project Management

Section A: LEA (District) Capacity Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Capacity -- Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model.

The district's grant manager is an experienced administrator with successful campus experience. He is the Assistant Superintendent and coordinates the federal and state funds for curriculum and instruction. He also coordinates all discretionary grants so financial resources can be easily coordinated. The Assistant Superintendent and the campus principal are responsible for the district and campus improvement plans respectively.

The district's Superintendent and Board have committed to support the changes necessary to increase student achievement. An experienced administrator has been hired as the new principal to lead the transformational process. The campus has already started the data analysis and planning process with community input and resources.

The district has created a plan for implementation that encompasses the requirements of the transformation process. They have committed to a Campus Snapshot from ESC Region XIII to increase their understanding of all data sources. Coaches from the ESC Region XIII for aspects of instruction are already in place with rapport with teachers. They have worked with an outside consultant with expertise in mentoring campuses to greater student achievement.

The district adopted CSCOPE, a vertically aligned curriculum, during the 2009-2010 school year. Use of the curriculum, which started initially in 2009-2010, is scheduled for full implementation in Science and Math during 2010-2011 and in English/Language Arts and Social Studies during 2011-2012. Benchmarks will be reviewed and aligned during the respective school year.

The district has created an MOU to work with community entities to provide social worker services for the elementary campus.

Part 2: Project Management Cont.

Section A: LEA (District) Capacity Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Partnership/Involvement of Others – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.

Luling High Schol has established a Campus Action Team (CAT) to lead in the process of ongoing monitoring of grant activities to ensure continuous improvement. This team is comprised of campus and district administrators, teachers, parents, business representatives and community representatives. The CAT will meet regularly to review data and insure progress. The value of the CAT team in the monitoring of the changes in the transformational process is that all stakeholders are continually involved and updated. Each member type of the community has a representative on the community to facilitate the ease of open communication. The mix of the committee also promotes the open analysis and discussion by using both technical and "community friendly" terms for the activities, as well as maximize the technical talents in the local businesses and community.

Initially, the Campus Action Team (CAT) was formed in April and May 2010. They analyzed data, reviewed current state standards, focused on expectations within the move to "college and career readiness", were introduced to anticipated changes in assessment (EOC) and accountability at the state level, and the changes in the Texas Essential Knowledge and Skills (TEKS). They also initiated the process of designing a plan of response, called a Campus Action Plan. Subsequent meetings, emails, and personal communications have continued to enhance the details of the plan. ESC Region XIII is providing technical assistance in the plan development. The department of Systemic Change at ESC Region XIII has been instrumental in the early collection of process data. They will continue to support the Campus Action Team and administrators in the process and work as technical assistants throughout the process.

<p>Management of Grant Activities – Describe how the LEA and campus will modify its practices and/or policies, as necessary, to ensure its implementation of the intervention(s) fully and effectively.</p>		
<p>Luling High School has scheduled full implementation of the Science Curriculum for 2010-2011. Professional development has been scheduled for teachers to prepare for the instructional change. The addition of a Science Coach will provide for coaching of the curriculum, upgrading the formative assessments and new instructional strategies while supporting the RTI process with student interventions. The same is true for the Math Coach who will provide support for the changes in math which will emphasize problem-solving strategies during concept development. The Math Coach will deepen the understanding of the curriculum in the area of math, help identify resources, realign formative assessments, and coach the research-based strategies. Initially, the Math Coach will also help model and implement the RTI process on the campus.</p> <p>Both Coach positions will work with teachers to develop campus assessments that are aligned to the district adopted curriculum.</p> <p>The campus principal will work collaboratively with other secondary principals to develop instructional expertise using the walk-through process to give specific feedback in the alignment of instruction and the delivery of content.</p> <p>College and Career readiness standards will become more tightly aligned in the instructional program as all course move to focus on HERC (Higher Education Readiness Component) standards in lieu of passing rate of TAKS. These will remain priorities as the campus instruction focuses on EOC impact on the campus. A concentrated effort will integrate the district's CTE strands into the core instruction and to support with tutoring and enrichment components with CTE focused activities.</p> <p>Campus personnel will be trained in positive behavior support methods this summer. The campus has adopted a school wide process for supporting students to be implemented with the start of the 2010-2011 school year.</p> <p>Formative data will be collected and analyzed. Timelines will be reviewed. The Campus Action Team (CAT) with its committee, business, and parent representatives, in addition to school personnel will evaluate the data and share the campus progress with the community via website, newspaper, campus newsletters, and community organizations.</p>

LEA Support – Describe how the LEA will structure and implement an individual or office with responsibility for supporting the campus' school improvement efforts.

Luling Independent School District has redesigned a central office position of Assistant Superintendent (2009-2010) to oversee all instructional programs. Previously, areas of curriculum implementation, grant administration, and reform efforts were not centralized under one person's leadership. The excess paperwork and reporting issues will continue to be coordinated and freed from the campus principal.

The Assistant Superintendent also has the duties of the District Shepherd, responsibilities which not been identified in the past. There had been no central contact point for school improvement efforts. The individual who has been identified to hold the position and develop the expertise to fine tune the school improvement efforts for the district is an experienced administrator with campus principal and superintendent experience. Part 2: Project Management Cont.

Section A: LEA (District) Capacity Responses are limited to **one page each**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Program Continuation and Sustainability – Describe how the LEA will sustain the campus reforms after the funding period ends.

Community Partnerships

Luling ISD will continue the community partnerships to ensure regular feedback from the businesses and community. The parent surveys, once developed, will be refined and integrated into the regular needs assessment for the district. These data will be incorporated into the needs assessment portion of the Campus Improvement Plan and the District Improvement Plan.

The social worker support, which is being added to the campus, is being funded through a shared position with another community grant.

Campus Changes and Initiatives

Changes made in the configurations of campus operation will be evaluated at the end of each year. Walk-through evaluations of instruction for professional development implementation, alignment with the District curriculum, and implementation of instructional strategies will remain a focus. Yearly evaluation of teacher effectiveness and strength areas of instruction will be compiled from walk-throughs and PDAS evaluations. These evaluations will be used in teacher assignments and to identify areas of need for professional development.

Administrative Professional Development

Development of the administrative team will continue on a regular basis through monthly administrative meetings focused on the vertical alignment of the curriculum and instructional strategies. Administrative walk-throughs will continue. Productive changes will be maintained.

Teacher professional development in the areas of guided reading, positive behavior support, data analysis and Master Reading Teacher skills are initial costs, which will be supported by the Science Coach and the Math Coach. Materials purchased in the initial implementation will not need to be sustained.

Science Coach and Math Coach

The positions of Science Coach and Math Coach are positions that will lessen or eliminate themselves within a three year period. The responsibilities of such positions include training and supporting teachers in developing their content expertise as well as instructional expertise. In this position, the Coaches will help plan lessons, deepen understanding, model and coach teachers in implementing professional development in the classroom. With the district adoption of a vertically aligned curriculum last year, the focus on guided reading practices and more cognitively guided math instruction instead of basal driven whole group instruction, development of campus-wide positive behavior support procedures, and the implementation of RTI (Response to Intervention), the majority of the position's time will be spent initially in coaching and supporting classroom teachers. As the year progresses, the Coaches will focus more time on strengthening student skills through targeted, small group instruction. In year 2, the Coaches will spend a greater portion of time supporting the teachers as they move from aligned, research based practices in core instruction to a greater use of data to design and support the RTI (Response to Intervention) small groups without additional pull-out support. In year 3, the Coaches will lessen direct modeling and heavy scaffolding to move into more of a facilitating role so that in year 4 the campus is totally self-sufficient with the changes.

PreWork

The Luling High School identified a Campus Action Team, comprised with administrators, teachers, parent, community, and business partners to function as a Lead Team in the analysis of data. This Campus Action Team (CAT) will lead the process of integration of the district, campus, and community efforts to promote greater student achievement. The Campus Action Team has attended a 2.5 day training to understand the state and federal expectations related to college and career readiness, address collection and use of data to analyze instructional programs, build an initial rapport and working relationship, identify and analyze community resources to assist in transformation, and design and implement communication efforts within the business and parent/community roles. The pre-work of the grant is nearly complete as of June 2010.

Steps in the timeline during 2009-2010 school year include:

October - Early consensus building conversations within the parents, community and business representatives.

November - The initial identification of the Campus Action Team core members occurred. This team was originally structure as a TAT team.

Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

- Extending the period of availability of school improvement funds.
This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and *must* be checked.

- "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.
- Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.
This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.

Schedule #4C—Performance Assessment and Evaluation

Part 1: Component Description. By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

Section A: Ongoing Monitoring/Continuous Improvement - Describe the LEA/campus' process for providing ongoing monitoring of grant activities to ensure continuous improvement

Luling High School has established a Campus Action Team (CAT) to lead in the process of ongoing monitoring of grant activities to ensure continuous improvement. This team is comprised of campus and district administrators, teachers, parents, business representatives and community representatives. The CAT will meet regularly to review data and insure progress. The value of the CAT team in the monitoring of the changes in the transformational process is that all stakeholders are continually involved and updated. Each member type of the community has a representative on the community to facilitate the ease of open communication. The mix of the committee also promotes the open analysis and discussion by using both technical and "community friendly" terms for the activities, as well as maximize the technical talents in the local businesses and community.

Initially, the Campus Action Team (CAT) worked together for issues related to the Academically Unacceptable (AU) status. They analyzed data, reviewed current state standards, focused on expectations within the move to "college and career readiness", were introduced to anticipated changes in assessment (EOC) and accountability at the state level, and the changes in the Texas Essential Knowledge and Skills (TEKS). They also initiated the process of designing a plan of response, called a Campus Action Plan. Subsequent meetings, emails, and personal communications have continued to enhance the details of the plan. ESC Region XIII is providing technical assistance in the plan development. The department of Systemic Change at ESC Region XIII has been instrumental in the early collection of process data. They will continue to support the Campus Action Team and administrators in the process and work as technical assistants throughout the process.

As the ongoing monitoring progresses the Campus Action Team will expand to include members of the Professional Learning Community and anticipated members of the CIT (Campus Improvement Team) since Luling High School Elementary School has been an Academically Unacceptable campus accountability rating. This effort will not only expand the expertise in the monitoring process, but allow for continuous access to ongoing data collection.

Meetings will be held every other month starting in September, November, January, March, and May of 2010. The process will continue for the subsequent years of the grant. Agendas, minutes, and updates on grant activities will be posted on the campus website and distributed to parents.

Additionally, the grant manager and the campus principal will meet monthly to reassess progress and collect data for formative evaluation. The Walk-through team will walk classrooms monthly to provide data and overall analysis will be added to the reports. Survey information will be posted on the website after review by the Campus Action Team (CAT).

Brief monthly updates will be prepared for the Board to document progress. These will be prepared by the grant manager and co-presented by the campus principal.

A full day of data analysis and subsequent planning will be scheduled for May 2011 with the Campus Action Team (CAT). Information will be shared with the community.

Section B: Formative Evaluation- Describe the LEA/campus' process for formative evaluation, including how the results of the evaluation will be used to improve the grant program

The Luling High School will collect data regularly from:

- Walk-through Observations of Classroom Instruction by Leadership Team
- Parent Forums – Group Interview Techniques
- Teacher Interview Data – Professional Learning Group Minutes; Team Meeting Minutes
- Lesson Plan Alignment to District Curriculum
- Innovation Configuration Measures of Professional Development Implementation
- Descriptive Comparison documenting changes in the level and processes used in Data Analysis

- Number of Attendees at Professional Development
- Increased percentage of parents and community at school functions
- Percentage of Instructional Time aligned to Curriculum
- Reduced Student Referrals
- Increased Student Attendance
- Number of Social Worker Interactions with Students

Data from these areas will be shared with the Campus Action Team (CAT) every other month at their meetings. Reports will be shared with the community, parents, the Professional Learning Communities (PLC) and the Board. Changes in procedures or processes will be identified at that time of the CAT meeting. For the first 6 of the data sources listed above, the results will be presented in a graph or innovation configuration format to show starting point and growth. Areas which show no growth will be reviewed for changes in the strategies being used.

Schedule # 4C--Performance Assessment and Evaluation

Part 2: Process for Development of Performance Goals

Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals.

Responses are limited to **two pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Luling High School has established a Campus Action Team (CAT) to lead in the process of ongoing monitoring of grant activities to ensure continuous improvement. This team is comprised of campus and district administrators, teachers, parents, business representatives and community representatives. The CAT will meet regularly to review data and insure progress. The value of the CAT team in setting the performance goals in the transformational process is that all stakeholders are continually involved and updated. Each member type of the community has a representative on the community to facilitate the ease of open communication. The mix of the committee also promotes the open analysis and discussion by using both technical and "community friendly" terms for the activities, as well as maximize the technical talents in the local businesses and community.

Initially, the Campus Action Team (CAT) worked in May. They analyzed data, reviewed current state standards, focused on expectations within the move to "college and career readiness", were introduced to anticipated changes in assessment (STAAR) and accountability at the state level, and the changes in the Texas Essential Knowledge and Skills (TEKS). They also initiated the process of designing a plan of response with performance goals, called a Campus Action Plan. Subsequent meetings, emails, and personal communications have continued to enhance the details of the plan.

These actions were an extension of the Campus Improvement Committee (CIC) started meeting to identify data sources and areas of concerns. This initial team started the needs assessment portion of the performance goal process and immediate 90 day type action plans. The Campus Action Team (CAT) has expanded that initial work to longer term performance goals and to enlist the support of the community in reaching those goals. Initially, teacher and parent input was solicited as individuals. ESC Region XIII technical team provided data and assisted with areas of data analysis.

The Campus Action Team (CAT), RTI Committee for Response to Intervention (RTI), and the Campus Improvement Committee all have identified and analyzed data and data sources for varied purposes this school year. All data reviewed was incorporated into the discussions that produced the performance goals. The Campus Action Team (CAT) is the team that has led the most recent data analysis and will continue to lead the establishing and monitoring of performance goals through the next three years.

As the ongoing monitoring progresses, the Campus Action Team will expand to include members of the Professional Learning Community and anticipated members of the CIT (Campus Improvement Team) since preliminary review of the spring 2009-2010 scores suggest that Luling High School will receive an Academically Acceptable accountability rating in July by a small margin. This effort will not only expand the expertise in the monitoring process, but allow for continuous access to ongoing data collection and evaluation toward development of future performance goals.

Schedule #5—Program Budget Summary

Budget Request by Grant Year: Enter the amount of grant funds requested for each year of the three year grant period.

Year 1: SY 2010-2011 \$199,384

Year 2: SY 2011-2012 \$185,133 *

Year 3: SY 2012-2013 \$170,333 *

* Any Budget Request entered for funds in Year 2 and/or Year 3 constitutes the LEA/campus requesting approval of the waiver for extending the period of availability of these grant funds, whether indicated on Schedule #4B—Program Description: Waiver Requests or not.

Provide any necessary explanation or clarification of budgeted costs

The student achievement areas of greatest concern are in the areas of reading and math. In these areas, the campus has been working with the ESC Region XIII coaches to try and increase the level of teacher expertise. The option to increase the time and level of ongoing coaching with coaches tied to the Luling High School Elementary campus would accelerate the increases in student scores. These positions would be primarily coaches in the fall semester, modeling techniques through direct interactions with students, planning with teachers, developing targeted student interventions, supporting the integration of the RTI process, and reviewing of curriculum materials including benchmark assessments for areas of additional support. In the spring semester, with low student scores, a greater portion of these persons' time would be focused on targeted student intervention.

Luling ISD has not had a social worker on staff. The budgeted costs would allow for the district to afford a social worker in the initial phase of this grant. A community member has agreed to "share staff" to support a full time position in the community. The community member has agreed to explore options of outside funding to support this social worker position and possible expansion of the position as the grant progresses and data supporting change are available.

- L. Financial Management and Accounting:** Grantee assures it will maintain a financial management system that complies with federal standards established in 34 CFR 80.20 and 74.21 and that provides for accurate, current, and complete disclosure of the financial results of each grant project. The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).
- M. Expenditure Reports:** Contractor shall submit expenditure reports in the time and manner requested by Agency as specified in the instructions to the Standard Application System (SAS) which are incorporated by reference. Unless otherwise specified, interim reports are due to TEA within 15 days after the end of each reporting period. Unless otherwise specified, the final expenditure report is due within 30 days after the ending date of the grant. Revised expenditure reports, where the grantee is claiming additional expenditures beyond that originally requested, must be submitted within 60 days after the ending date of the grant, or as specified in the applicable Program Guidelines.
- N. Refunds Due to TEA:** If Agency determines that Agency is due a refund of money paid to Contractor pursuant to this contract, Contractor shall pay the money due to Agency within 30 days of Contractor's receipt of written notice that such money is due to Agency. If Contractor fails to make timely payment, Agency may obtain such money from Contractor by any means permitted by law, including but not limited to offset, counterclaim, cancellation, termination, suspension, total withholding, and/or disapproval of all or any subsequent applications for said funds.
- O. Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.

Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

For federally funded projects, time and effort records must be in accordance with the requirements in the applicable OMB cost principles.
- Q. Forms, Assurances, and Reports:** Contractor shall timely make and file with the proper authorities all forms, assurances and reports required by federal laws and regulations. Agency shall be responsible for reporting to the proper authorities any failure by Contractor to comply with the foregoing laws and regulations coming to Agency's attention, and may deny payment or recover payments made by Agency to Contractor in the event of Contractor's failure so to comply.
- R. Intellectual Property Ownership:** Contractor agrees that all Works are, upon creation, works made for hire and the sole property of TEA. If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

These warranties will survive the termination of the Contract. If any preexisting rights are embodied in the Works, Contractor grants to TEA the irrevocable, perpetual, non-exclusive, worldwide, royalty-free right and license to (i) use, execute, reproduce, display, perform, distribute copies of, and prepare derivative works based upon such preexisting rights and any derivative works thereof and (ii) authorize others to do any or all of the foregoing. For School Districts and Nonprofit Organizations: The foregoing Intellectual Property Ownership provisions apply to any school districts, nonprofit organizations, and their employees, agents, representatives, consultants and subcontractors. If a school district or nonprofit organization or any of its subcontractor(s) wish to obtain a license agreement to use, advertise, offer for sale, sell, distribute, publicly display, publicly perform or reproduce the Works, or make derivative works from the Works, then express written permission must first be obtained from the TEA Copyright Office.

For Education Service Centers (ESCs): The foregoing Intellectual Property Ownership provisions apply to an Education Service Center (ESC) and its employees, agents, representatives, consultants, and subcontractors. If an ESC or any of its subcontractor(s) wish to obtain a license agreement to use, advertise, offer for sale, sell, distribute, publicly display, publicly perform or reproduce the Works, or make derivative works from the Works, then express written permission must first be obtained from the TEA Copyright Office.

For Colleges and Universities: The foregoing Intellectual Property Ownership provisions apply to any colleges and universities and their employees, agents, representatives, consultants, and subcontractors; provided, that for all Works and derivative works created or conceived by colleges or universities under the Contract, they are granted a non-exclusive, non-transferable, royalty-free license to use the Works for their own academic and educational purposes only. The license for academic and educational purposes specifically excludes advertising, offering for sale, selling, distributing, publicly displaying, publicly performing, or reproducing the Works, or making derivative works from the Works that are created or conceived under this Contract and colleges and universities and their employees, agents, representatives, consultants, and subcontractors are prohibited from engaging in these uses and activities with regard to the Works unless the prior express written permission of the TEA Copyright Office is obtained.

S. Unfair Business Practices: Unfair Business Practices: By signing this Contract, Contractor, if other than a state agency, certifies that Contractor, within the preceding 12 months, has not been found guilty, in a judicial or state agency administrative proceeding, of unfair business practices. Contractor, if other than a state agency, also certifies that no officer of its company has, within the preceding 12 months, served as an officer in another company which has been found, in a judicial or state agency administrative proceeding, to be guilty of unfair business practices.

Contractor, whether a state agency or not a state agency, certifies that no funds provided under this Contract shall be used to purchase supplies, equipment, or services from any companies found to be guilty of unfair business practices within 12 months from the determination of guilt.

T. Subcontracting: Contractor shall not assign or subcontract any of its rights or responsibilities under this contract, except as may be otherwise provided for in this application, without prior formal written amendment to this contract properly executed by both Agency and Contractor.

U. Use of Consultants: Notwithstanding any other provision of this application, Applicant shall not use or pay any consultant in the conduct of this application if the services to be rendered by any such consultant can be provided by Applicant's employees.

V. Capital Outlay: If Contractor purchases capital outlay (furniture and/or equipment) to accomplish the objective(s) of the project, title will remain with Contractor for the period of the contract. Agency reserves the right to transfer capital outlay items for contract noncompliance during the contract period or as needed after the ending date of the contract. This provision applies to any and all furniture and/or equipment regardless of unit price and how the item is classified in Contractor's accounting record.

W. Agency Property (terms): In the event of loss, damage or destruction of any property owned by or loaned by Agency while in the custody or control of Contractor, its employees, agents, consultants or subcontractors, Contractor shall indemnify Agency and pay to Agency the full value of or the full cost of repair or replacement of such property, whichever is the greater, within 30 days of Contractor's receipt of written notice of Agency's determination of the amount due. This applies whether the property is developed or purchased by Contractor pursuant to this contract or is provided by Agency to Contractor for use in the contract project. If Contractor fails to make timely payment, Agency may obtain such money from Contractor by any means permitted by law, including but not limited to offset or counterclaim against any money otherwise due to Contractor by Agency.

X. Travel Costs: Amounts authorized for maximum recovery for travel and per diem costs against any state or federal funding source are restricted to those amounts which are approved in the State of Texas Appropriations Bill in effect for the particular funding period. Any amount over this limit must come from local funding sources. Applicant must recover funds at a lesser rate if local policy amounts are less than the maximum allowed by the state. Out-of-state travel may not exceed the federal government rate for the locale. Travel allowances are not allowable costs.

Y. Funds for Religious Worship, Instruction: No funds will be used to pay for religious worship, instruction, or proselytization, or for any equipment or supplies for such, or for any construction, remodeling, repair, operation, or maintenance of any facility or part of a facility to be used for religious worship, instruction, or proselytization (34 CFR 76.532 and P. L. 107-110, section 9505).

Z. Disclosure of Gifts and Campaign Contributions: The grantee shall file disclosures of gifts and campaign contributions as required by State Board of Education Operating Rule 4.3, which is incorporated as if set out in full. The grantee has a continuing obligation to make disclosures through the term of the contract. Failure to comply with State Board of Education Operating Rule 4.3 is grounds for canceling the grant.

AA. Submission of Audit Reports to TEA: Grantees which are public school districts and open enrollment charter schools agree to submit the required annual audit report, including the reporting package required under OMB Circular A-133, if an audit is required to be conducted in accordance with OMB Circular A-133, to the TEA Division of School Financial Audits in the time and manner requested by the Agency.

Grantees which are **nonprofit organizations (other than charter schools) and universities/colleges** that expend \$500,000 or more total in federal awards in any fiscal year and are thus required to conduct a Single Audit or program-specific audit in accordance with the requirements in OMB Circular A-133, agree to submit a copy of such audit to TEA when the schedule of findings and questioned costs disclosed audit findings relating to any federal awards provided by TEA. A copy of such audit shall also be submitted to TEA if the summary schedule of prior audit findings reported the status of any audit findings relating to any federal awards provided by TEA.

A **nonprofit organization or university/college** grantee shall provide written notification to TEA that an audit was conducted in accordance with OMB Circular A-133 when the schedule of findings and questioned costs disclosed no audit findings related to any federal awards provided by TEA or when the summary schedule of prior audit findings did not report on the status of any prior audit findings related to any federal awards provided by TEA. Nonprofit organizations (other than charter schools) and universities/colleges shall submit the audit report to the TEA Division of Discretionary Grants. Audit reports must be submitted to TEA within 30 days of receipt of the report from the auditor. Failure to submit a copy of the audit to TEA could result in a reduction of funds paid to the grantee, a refund to TEA, termination of the grant, and/or ineligibility to receive additional grant awards from TEA.

BB. Federal Rules, Laws, and Regulations That Apply to all Federal Programs: Contractor shall be subject to and shall abide by all federal laws, rules and regulations pertaining to the contract project, including but not limited to:

1. **Americans With Disabilities Act**, P. L. 101-336, 42 U.S.C. sec. 12101, and the regulations effectuating its provisions contained in 28 CFR Parts 35 and 36, 29 CFR Part 1630, and 47 CFR Parts 0 and 64;

The applicant understands that failure to comply with one or more of these provisions and assurances may result in the Texas Education Agency (TEA) taking one or more enforcement actions authorized in Title 34 of the Code of Federal Regulations (CFR) §§ 74.62 and 80.43.

In addition to the standard terms of award, all funding provided under the Recovery Act will be subject to the provisions, assurances and conditions for American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

Terms defined:

RECIPIENT – The term “recipient” means a State and includes the Texas Education Agency (TEA). It also includes any entity that applies for and receives a grant directly from the federal government.

RECOVERY FUNDS –The term “recovery funds” means any funds that are made available from appropriations made under the Recovery Act.

RECOVERY ACT – the American Recovery and Reinvestment Act (ARRA) of 2009 (P.L. 111-5)

GRANTEE – the subrecipient of TEA and applicant of funds.

A. One-Time Funding: Unless otherwise specified, ARRA funding is considered one-time funding that is expected to be temporary. Grantees should expend funds in ways that do not result in unsustainable continuing commitments after the funding expires. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

B. Period of Availability and Encumbrances/Obligations: Unless otherwise specified in the Notice of Grant Award (NOGA), all funds are effective from the beginning date specified on the Notice of Grant Award (NOGA) through June 30, 2013. The paragraph in the General Provisions pertaining to Encumbrances and Obligations applies as follows:

All encumbrances shall occur on or between the beginning and ending dates of the contract.
