Texas Title I Priority Schools Grant

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information;

Summary of Program: Purpose and Goals

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Allowable Activities

Tier I and Tier II Grantees

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

Tier III Grantees

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Sam Fordyce Elementary serves grade Pre-Kinder through 5th. The student population consists of 100% Hispanics, 0% White. Of these populations, 60.94% are identified as Limited English Proficient, 2.71% mobility, and 94.2% are identified economically disadvantaged. Our population, whose primary language is Spanish, has close cultural, economic and family ties with Mexico due to past and present immigrant trends and single family homes. Located in a rural community isolated from larger cities, many of our students are destined to grow up in circumstances without the intervention of the school and local outreach organizations. Outreach organizations help parents to become active community members and school supporters. The trend for Sam Fordyce Elementary AEIS scores for the previous years are as follows: 2006- 2007 – Reading 82%, Math 84%, Commended on Mathematics and Science Comparable Improvement in Mathematics; 2007-2008 with Commended on– Reading 87%, Math 91% with Commended on Writing, Mathematics and Science Comparable Improvement in Reading/ELA; 2008-2009- Reading 85%, Math 81% with Commended on Mathematics and Science. Our LEP population scores have also made some moderate gains. LEP students improved from 83% in Reading 77% Math in 2006 to 78% in Reading and 72% in Math in 2009 respectively. Low socio economic students also made some gains from 80% in Reading and 83% in Math in 2006 to 86% and 81% in 2009 respectively. As a recipient of Texas Title I Priority School Grant, Sam Fordyce Elementary will focus on success for all learning community. Project goals are to develop positive leadership qualities in teachers, staff and children, to reiterate a clear and focused mission and a climate of high expectations for all students, to continue to foster positive home-school relations, to increase student engagement, achievement, connectedness, and independence. Campus will focus on Federal requirements of teacher and school leader effectiveness, comprehensive instructional support, increase learning time, creating community oriented schools, operational flexibility, and sustained support. La Joya ISD currently offers professional staff trainings in the summer and during the year. The professional development we offer include but are not limited to the following: Working on the Work (WOW), Strategies Standards, Examine Data, Assessment, and Learning Experiences (SEAL), Teacher Expectation/Student Achievement (TESA), Cooperative Learning, and Responsibility Education. Our goal is to collaborated with these efforts and meet Federal requirements by including the following innovating initiatives to improve leadership and teacher effectiveness by implementing the Franklin Covey's, "The Leader in Me: Promising Results", and Mark Lukert's "Developing Teacher Leaders". Instructional support will include hiring additional highly qualified reduction teachers and math, reading, college and career, and parental involvement strategists to help low performing students in 1st – 5th grades. Activities to extended learning time will include extended day and week enrichment sessions. Our community is critical to the success of this grant. Activities will include parent sessions to include classes in GED, nutritional, citizenship, computer application, ESL and family literacy. The district has always supported the concept of flexible scheduling to accommodate the needs of the students. La Joya ISD has assured campus that these activities will be sustained after the grant monies have seized.

Texas Title I Priority Schools Grant Schedule #4B—Program Description		
Part 1: Comprehensive Needs Assessment Cont.		
Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.		
In <i>Building a Legacy of Excellence</i>, La Joya ISD establishes comprehensive needs assessment (CNA) parameters based (principally) on the student. We believe that a data-based, purposeful approach will yield students whose strong educational development will enable them with assets for a more successful future. Therefore, our CNA process is based on analytic/pragmatic and descriptive systems. This methodology is our avenue for evaluation, establishment, and execution. The process in place to identify priorities (needs) center on sound evaluation. To gather data that contains integrity, a mixed method design is used (Creswell, 2003). All genres of performance-based data, those which fundamentally lie within the realm of quantitative inquiry, form the core of decision-making. Quantitative research involves the collection of numerical data to explain, predict, and/or control phenomena of interest (Gay & Airasian, 2002). Realizing that the affective domain of our stakeholders is as important as numerical data, our evaluation also involves post-positivist methods (or qualitative, as described by Lincoln and Guba, 1985) which permit us to focus on particular issues and study <i>those</i> in depth (Gall, Gall, and Borg, 2003). All together, the evaluation process encompasses a triangulated methodology which yields specific priorities. Findings from our CNA give rise to critical needs. We operationalize critical needs differently from year to year, as these are based on results from ongoing assessments. The specific components of our Campus Needs Assessment (CAN) align very closely to the TEA recommended methodology developed by Region XX. In fact, our process aligns with the Texas Comprehensive Center approach but enhances/expands on several areas. To meet the federal and state mandates, our LEA and campus-based committees analyze mixed-method data in the following areas:		
<u>Title I Part A / State Compensatory CNA</u> • Campus CNA (All information below is included here, with the addition of respective federal, state, and local accountability data) • Program Assessments AEIS-IT, BrainPOP, Communities in School, Family Literacy Program, Fast Forward, iStation, Multimedia, Pearson Digital, Read 180, Reading Renaissance, Scholastic Red, WebCCAT, WOW, SEAL

Schedule #4B—Program Description		
Part 2: Project Management		
Section A: LEA (District) Capacity Responses are limited to <i>one page each</i> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Capacity -- Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model.		
La Joya ISD's established resources and support services make it possible for all awarded campuses to fully and effectively implement the required activities of the school intervention model. Enabled by the district's capacity, awarded campuses will be able to carry out all required activities for the duration of the grant. This will occur, of course, only as a support system as the LEA recognizes that School Improvement Grants (SIG) funds are campus-based funds and must be expended this way. Our LEA fully understands that awarded campuses will need its unconditional support to be successful through their transformation process. The capacity in place to provide resources and support services with specialists in the area of curriculum and instruction include: Advanced Academic Services, Athletic, Bilingual/ESL, Career and Technical Education (CTE), Content Area (Math, Reading, Science, and Social Studies) Departments, Curriculum and Evaluation, Early Childhood, Elementary Education, Federal and State Programs, Fine Arts, Migrant Education, Physical Education/Health, Secondary Education, Section 504 / GEH and Dyslexia, Special Education, and Staff Development. The capacity in place to provide resources and support services with specialists in the area of administration and finance include: Accounting, Accounts Payable, Asset Management, Budget & Finance, Child Nutrition Services, Custodial, Employee Assistance Benefits, Facilities, Payroll, Physical Plant Operations, Purchasing and Warehouse Operations, Risk Management, School Support Services, and Transportation. Additionally, there are specialists in the following areas: Academies, Computer Services, Dropout Prevention, Guidance & Counseling / Safe & Drug Free Schools and Community (SDFSC), Health Services, Instructional Resources & Technology, Library Media/Textbook, Public Education Information Management System (P.E.I.M.S), Parental Involvement, Print Shop, Student Services, and the Television Station. To ensure that each awarded campus uses the LEA's resources and support services fully and effectively to implement the required activities of the school intervention model, the newly-established TTIPS Grant Department will work closely with the all of the previously-mentioned departments. This collaboration with each campus TTIPS Grant team (principal, campus grant administrator, campus grant secretary, Site-Based Decision Making (SBDM) committee, others) will make it possible for the timely implementation of required activities.

Part 2: Project Management Cont.		
Section A: LEA (District) Capacity Responses are limited to one page each , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Partnership/Involvement of Others – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.		
Meetings were convened with relevant stakeholders with the effort to provide explanation on Texas Title I Priority School Grant. Meetings were held on May 14 th (Team Leaders), 17 th , (SBDM Members) and May 20 th (All Staff), 2010. These meetings were intended to provide how the grant will be implemented and impact student performance.		
A Meeting was also held at the district level. Meeting was held on May 11, 2010. This meeting focused on deciding if La Joya ISD would pursue the grant and which model would be the best fit for campuses based on TIER designation. Agenda items discussed included:		
➤ La Joya Independent School District's Superintendent, Dr. Alda T Benavides, received information through the Texas Education Agency about the Texas Title 1 Priority Schools Grant. ➤ In turn, Dr. Alda T Benavides set the wheels in motion to ensure key Central Office Personnel attended the Region Workshop ID Number 30693 on which was hosted at Region One located in Edinburg, Texas. ➤ Assistant Superintendent for Elementary and Middle Schools, Gisela Sáenz, informed the Tier I and Tier III campus principals of the upcoming Texas Title 1 Priority Schools Grant TETN Session at Region One so they could all attend. ➤ La Joya Independent School District's Decision Making Team convened and discussed the Narrowing Questions which assisted in determining that the Transformation Model was the model which would be implemented. ➤ This information was then taken to the Campus Site-Based Decision Making Team. ➤ Electronic Registration Online (ERO) working sessions occurred at the district level so Tier I and Tier III campuses could partner up in deciding which programs to include at their campuses. ➤ Parents are part of the Site-Based Decision Making Team. They were informed of the grant. ➤ Marissa Sáenz, Parental Involvement Strategist, will set up parental meetings to discuss the grant information with the parents. The meetings will be conducted in English and in Spanish in order to ensure that all parents understand the grant information presented to them. ➤ May 2010 Issue of The Noticiero- An article will be submitted informing the parents of the grant in English and in Spanish. ➤ Channel 17 Spots will be arranged to inform the general public in English and in Spanish. ➤ La Joya ISD Grant Development Web Page will post the grant applications once the NOGAs come in and the negotiations with TEA are complete. ➤ Campus meetings are being held at the Tier I and Tier III Campuses. ➤ After School Meetings are being held at the campuses. ➤ Web Page updates are being uploaded at the campus websites. ➤ Team Leaders' Meetings have been held as this grant progresses.

Part 2: Project Management Cont.		
Section A: LEA (District) Capacity Responses are limited to one page each, front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Management of Grant Activities – Describe how the LEA and campus will modify its practices and/or policies, as necessary, to ensure its implementation of the intervention(s) fully and effectively.		
The district will modify the practices and policies necessary to ensure the implementation of the interventions by providing specific staff development to increase teacher and leader effectiveness. Campuses will be allowed to extend the maximum of school business days from three to four in order to attend required staff development. Providing operational flexibility by lowering the student/teacher ratio in grade levels of need, the campus will be better equipped to meet the needs of students not meeting the standards. Campuses will also use flexible scheduling in the areas of Reading and Math by increasing the time from forty five minutes to ninety minutes every other day at the middle school level. Elementary campuses will increase learning time by affording students the opportunity to attend Reading and Math Academics to ensure academic success. Parents will also be provided opportunities to learn about their students' academic needs through conferences, trainings, and the use of school facilities to accommodate their needs and ensure they are part of the campus learning community. Campuses will be supported to ensure that instructional reform strategies are being implemented by conducting reflective walk-throughs, conferences with the principal, modeling engaging lessons, providing feedback with specific strategies to improve student achievement. Sam Fordyce Elementary will improve practices and policies with specific activities. Campus administrator with assistance of team leaders will review weekly lesson plans. These lesson plans will utilize the Standards, Evaluation, Assessment and Learning Experiences (SEAL) process. SEAL is designed with the students in mind. SEAL specifies activities that allow all teachers to design engaging lessons. SEAL focuses on students meeting state standards and passing state assessment (TAKS). Campus administrators will provide immediate feedback to teachers that are not following SEAL design. Campus and teachers will meet weekly to review students' weekly assessment grades. This meeting will provide teachers the opportunity to develop more engaging lessons. Working on the Work (WOW) is another district initiative. WOW focuses on having all students be fully engaged with every lesson. WOW identifies the different levels of engagement and provides guidelines on how teachers can make lessons with students in mind. Campus administrators will perform 25 weekly walk-throughs per week, an average of 5 per day. These walk-throughs will provide information on how well teachers are presenting lessons and how much students are learning and retaining.

Section A: LEA (District) Capacity Responses are limited to <i>one page each</i>, front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Resource Management – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.		
Careful planning and organization will enable the LEA and awarded campus to align federal, state, local, and community resources with the school improvement intervention. The usage of these resources will not only meet supplement/supplant issues, but it will have a purposeful structure so that everything is utilized to their maximum impact. To ensure that each awarded campus receives all of the federal, state, local, and community funds it would have received in the absence of the SIG funds, the newly-established TTIPS Grant Department will work closely with the LEA's Finance Department and the Federal and State Programs Department in assuring the continuation of these funds. Once budgets are established, all three LEA departments will work with each campus TTIPS Grant team (principal, campus grant supervisor, campus grant secretary, SBDM committee, others) so that SIG funds are used to supplement the amount of their respective non-federal funds. Specific training and support visits will take place so that a clear understanding of fund usage is evident from all stakeholders. If at any point during the grant period resources are needed to enhance an initiative that has proven to be successful, the LEA will assist the campus in obtaining those resources. In other words, continuous improvement in the transformation process will not be limited to the resources depicted in the application. Rather, the LEA will facilitate in the alignment of all applicable resources so that campus has constant positive support from the LEA.

LEA Support – Describe how the LEA will structure and implement an individual or office with responsibility for supporting the campus' school improvement efforts.		
The LEA will structure an office with the responsibility of supporting the campuses' school improvement efforts because it believes that this is a crucial element for success. This office will have active participation with every awarded campus throughout the entire endeavor. Because the LEA had two Tier I campuses and eleven Tier III campuses, the office, to be known as the Texas Title I Priority Schools (TTIPS) Grant Department, will have two district shepherds. One of the two district shepherds will be responsible for the Tier I campuses. The other will be accountable for the Tier III campuses. The responsibilities of the district shepherds will be to oversee the grant process, specifically the transformation model (which is the model chosen by the qualifying campuses). The shepherds will also provide a direct line of communication to the superintendent and other critical LEA level-leaders. They will assist in eliminating any LEA-level barriers that may hinder the transformation process and serve as a resource and mentor to the administrator and campus. The shepherds will be very active in the community and at the campuses as they will be key agents of positive change. An important responsibility of the district shepherds will be that they attend all local and state trainings, meetings, and professional development sessions. The TTIPS Grant Department will also have support personnel: a secretary for each district shepherd will assist with all clerical duties. For the purpose of having accounting procedures that are aligned with the grant budget, each district shepherd will also have a bookkeeper. Together with the district shepherds, the support personnel from the TTIPS Grant Department will have an unwavering, vested interest in the progression of all campuses. The implementation of the TTIPS Grant Department will lie directly with one goal: campus support. Key for the office will be the linkage of current LEA staff, those with specific expertise, to the needs of the campuses. In the event of needed technical support not available or best suited from within the district, the TTIPS Grant Department will help establish the relationships of external providers and the campuses.

Program Continuation and Sustainability – Describe how the LEA will sustain the campus reforms after the funding period ends.		
The La Joya ISD will sustain this once the grant funding expires through in-kind matching funds, professional development funding allocated to teachers so the teachers can impart their knowledge to students and therefore, the students will receive rigorous school work which will facilitate their learning. This will allow the students to maximize their learning and pursue further education. What La Joya Independent School District will not sustain our positions currently brought under this grant, such as the Program Director, secretary, District Sheppard, bookkeeper, etc. Any positions which are going to be filled up to take care of this grant will expire once the grant terminates because the school district cannot absorb this cost. Texas Title I Priority School Grant funds will supplement and not supplant any existing programs.

Part 2: Project Management Cont.		
Section A: LEA (District) Capacity Responses are limited to <i>one page each</i> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
External Providers -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.		
The LEA will use a rigorous process in the recruitment, screening, and selection of external providers. The methodology, which will be clear, fair, and well-organized, will be open to the public. Consequently, established procedures will not only provide for objective selection, but also allow all stakeholders input in the process.		
The recruitment of external providers by the LEA will be one that allows all qualified providers an equal opportunity to assist campuses through their restructuring and transformation journey. Recruitment will not be limited to local providers, for if true change is to occur, the LEA recognizes that this process should have no boundaries.		
The screening process for external providers will be comprised of knowledge, skill, and track record reviews through educational, organizational, legal, and financial perspectives. The processes will include multiple stakeholders, particularly parents and community groups. The screening practice will be such a critical component of our transformation process that staff and other resources will be devoted exclusive to this function. In turn, the staff will specifically analyze the historical evidence of educational success, particularly with demographics and academic needs similar to our campuses, from all potential external providers.		
The selection of external providers will only occur when all critical components (sought) are met. Through the consensus of all stakeholders, and with the provider's clear understanding of the campuses' mission, the contractual agreement will be signed. This documentation will include clear roles of the external provider as well as the LEA. Goals for performance will be required in all contracts and a timeframe for large student learning improvements, if applicable, will also be needed. In addition, the contract will specify the support the LEA will provide, including facilities, funding, and services. LEA staff will play a critical role in ensuring that all intentions and services delineated in the contract are carried out. Conversely, if the external providers do not adhere to any component of the contract, the contract will be canceled and immediate successors will be sought.

Site Visits – If the intervention program includes site visits to other campuses successfully implementing the intervention model, describe the process for selecting the locations and the expected outcomes of the site visit.		
The district will conduct site visits to campuses successfully implementing the transformational model. Site visits will be taken beginning the 2011-2012 school year (2nd year of implementation). Campuses will be selected based on similar demographics and high student performance. Campuses will be selected based on their high Limited English Proficient population and their success with this population. The expected outcomes will be that we would be able to model new practices observed at other successful campuses. With the new practices and procedures learned at site visits we will tweak our current practices and procedures to meet our student needs. The team visiting campuses implementing the transformational model will be expected to reflect and debrief on observations. The team will then prepare to share reflections with administrators and staff, to include recommendations on practices and procedures they feel would improve student achievement on our campus and/or district based on their observations from site visit. After all stakeholders listen to practices and procedures, and recommendations decisions will be made by all stakeholders on which practices and procedures we would begin implementing immediately and others we would like to consider for a later date.

Texas Title I Priority Schools Grant
Schedule #4B—Program Description

Part 3: Intervention Model

Section B: Model Selection Process –Describe in detail:

1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus.
2. The timeline delineating the steps the campus will take to implement the selected intervention.

Responses are limited to **five pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

A Meeting was also held at the district level. Meeting was held on May 11, 2010. This meeting focused on deciding if La Joya ISD would pursue the grant and which model would be the best fit for campuses based on TIER designation. Agenda items discussed included:

- La Joya Independent School District's Superintendent, Dr. Alda T Benavides, received information through the Texas Education Agency about the Texas Title I Priority Schools Grant.
- In turn, Dr. Alda T Benavides set the wheels in motion to ensure key Central Office Personnel attended the Region Workshop ID Number 30693 which was hosted at Region One located in Edinburg, Texas.
- Assistant Superintendent for Elementary and Middle Schools, Gisela Sáenz, informed the Tier I and Tier III campus principals of the upcoming Texas Title 1 Priority Schools Grant TETN Session at Region One so they could all attend.
- La Joya Independent School District's Decision Making Team convened and discussed the Narrowing Questions which assisted in determining that the Transformation Model was the model which would be implemented.
- This information was then taken to the Campus Site-Based Decision Making Team.
- ERO working sessions occurred at the district level so Tier I and Tier III campuses could partner up in deciding which programs to include at their campuses.
- Parents are part of the Site-Based Decision Making Team. They were informed of the grant.
- Marissa Sáenz, Parental Involvement Strategist, will set up parental meetings to discuss the grant information with the parents. The meetings will be conducted in English and in Spanish in order to ensure that all parents understand the grant information presented to them.
- May 2010 Issue of The Noticiero- An article will be submitted informing the parents of the grant in English and in Spanish.
- Channel 17 Spots will be arranged to inform the general public in English and in Spanish.
- La Joya ISD Grant Development Web Page will post the grant applications once the NOGAs come in and the negotiations with TEA are complete.
- Campus meetings are being held at the Tier I and Tier III Campuses.
- After School Meetings are being held at the campuses.
- Web Page updates are being uploaded at the campus websites.
- Team Leaders' Meetings have been held as this grant progresses.

After much collaboration, discussion, and "answering the narrowing of questions", aligned by the grant, among stakeholders at the campus, district and regional level a consensus was reached that our campus would apply for the implementation of the Tier III Modified Transformational Model for the life of the grant.

Meetings were convened with relevant stakeholders with the effort to provide explanation on Texas Title I Priority School Grant. Meetings were held on May 14th (Team Leaders), 17th, (SBDM Members) and May 20th (All Staff), 2010. These meetings were intended to provide how the grant will be implemented and impact student performance.

Sam Fordyce Elementary is a small school situated in a developing rural area about 1 miles north of the Rio Grande River; an area in which most of the community is composed of impoverished families lacking formal schooling. Throughout the past 7 years Sam Fordyce Elementary has made progress in student academic success. In accordance with NCLB and the goals set forth by the employees at Sam Fordyce Elementary, we have fallen short of meeting the set expectations assuring that EVERY child experience academic success. Although much progress and improvement has been made, there is still a lot of work to be done. It is the passion of the employees of Sam Fordyce Elementary to

assure that all of our students master and exceed the state's expectations, it is our goal to achieve Exemplary status, not for status purposes, but because we want ALL of our students to acquire and master the essential skills they need, in order to be successful in their academic endeavors. It is imperative that we prepare our students towards a higher level accountability in which the TAKS test will not be seen as a challenge, but instead as an opportunity to validate the student's academic abilities, therefore boosting their level of confidence, self-responsibility and ultimately helping them become productive citizens in society. Only through rigorous, intentional, and personal focus can we achieve the goals we have set before us, for our campus.

1. Improve Academic Performance

The process and timeline Sam Fordyce Elementary will take to implement as a school intervention model according to the campus needs is as follows: Our goal will be to implement an intense and innovative model that is geared at intervening for each and every child. In order to achieve the first milestone which is to improve academic performance we propose to fully implement the Leader in Me Model by Franklin Covey. The specific goals of this project are as follows and will continue to be enhanced throughout the life of the grant:

1. To develop positive leadership qualities in children, one child at a time.
2. To reiterate a clear and focused mission and a climate of high expectations for all students.
3. To continue to foster positive home-school relations.
4. To increase student engagement, achievement, connectedness, and independence.

The objective of this Project is to foster the following:

1. Teachers, parents, and students will investigate and begin to apply the language of "The Seven Habits" through stories that are developmentally appropriate and engaging.
2. Teachers, parents, and students will listen to the words of Sean Covey as he describes the language of "The Seven Habits" and how he personally has used these themes to help him achieve his personal and family mission.
3. Teachers, parents, and students will discuss how the language of "The Seven Habits" can be used both at home and at school.
4. Teachers, parents, and students will develop avenues for infusing the language of "The Seven Habits" and the themes of personal responsibility and ownership into the school culture.

Finally, there are many areas of the curriculum that can be incorporated into the language of "The Seven Habits". From the outset, students will be reading and reflecting on Sean Covey's work, "The Seven Habits of Happy Kids." This correlates to Standards that have been successfully implemented in many other states which include the following, Learning to Read Independently and Reading Critically in All Content Areas. Students will be expected to comprehend the content of the text, as well as make inferences and draw conclusions from the text. Students will also be required to respond critically through classroom discussions, as well as through writing assignments.

Infusing the language of "The Seven Habits" represents a ubiquitous strategy for positive change that also relates to themes of our current Character Education initiative. Coupled with this initiative, embedded in our curriculum, our campus plans to integrate our current initiative of the values code with the philosophy of Mr. Mark Lukert to an even greater extent by correlating the two together on a six week timeline to "bathe" the children in responsibility education with the ultimate goal of improving student academic performance. By promoting positive leadership in our students, we will continue to reach the mission of the La Joya School District, to prepare and challenge all students to excel academically and to develop social skills and creativity by providing exemplary and innovative educational programs through a supportive collaboration of educators, students, parents, and community.

Innovative Technological Classroom Infuse

Research according to Jim Collins demonstrates that students develop higher order and critical thinking skills through project based learning. In order to facilitate and produce projects such as these, students must have a plethora of resources readily available. As technology becomes more readily available, it is imperative that we adapt and utilize the current supplier of a vast amount of resources: The Internet. Sam Fordyce Elementary plans to purchase laptops for every classroom so that we decrease the amount of time lost going to and from the computer lab. Sam Fordyce Elementary will utilize these laptops as a tool to expose our students to the details of the world that are only but mentioned in text books. We must expose our students to the intricateness and usefulness of the Internet as a learning tool. With our ever-changing technology there is always the likelihood that one model or version of computers or software will become outdated within months, therefore we plan to purchase 100 lap top computers per year to smoothen the progress of updating of outdated software. With the world at our fingertips it is our duty to educate students about the positive, educational wonders of the Internet. As educators, we must instruct and demonstrate to our students that the Internet can be used for more than Twitter, Facebook, Myspace and Youtube. It is a tool that can be used to learn about everything and anything. Because the Internet is an innovative tool that has taken communication to another

level, it is also a civic duty to educate our students of the dangers of communicating with strangers and taking personal responsibility for screening websites that may be harmful to them.

Reading and Writing Connection with Dr. Carroll/Abydos Learning

Along with developing research skills students must develop the ability to put their thoughts into writing. Dr. Joyce Carroll, as co-director of the Abydos Learning, internationally formally known as the New Jersey Writing Project in Texas, has committed herself to visiting our students in the classroom and providing opportunities for them to take part in engaging lessons to help them enhance their reading and writing skills, but most importantly develop a love for reading. Her plan will be to bring an array of instructional methods that will help facilitate research and project based learning at an elementary level.

2. Increase Use of Quality Data

New Version of AEIS-IT

In order to identify and bridge the gaps of the student, teachers must be able to create tailored instruction. In order to make tailored instruction feasible, the teachers must be able to disaggregate data at a more efficient level.

Vertical/Horizontal Alignment

Through the frequent discussion of Hillary Clinton's infamous speech "It Takes A Village," a sense of urgency erupted at Sam Fordyce Elementary. We often discuss how grade-levels must work intentionally and cooperatively to assure academic success of every student not only in their classroom, but of all students in their grade level. Although much discussion and concern has arisen, we find ourselves handicapped in staff and tools as to how to intervene to meet the needs of every single struggling learner. In order to help bridge the gaps of those struggling students and bring them up to par, students must be taught at the same grade level; it is crucial that teachers acquire additional assistance in the classroom. According to the Dual Language Model it is in the best interest of the child to receive Accelerated Instruction versus Remedial Instruction, therefore at Sam Fordyce Elementary we would like to defer from any "pull-out" program. Instead, we would like to utilize the Intervention Strategist in the classroom to help target the students who are below grade level. The Intervention Strategist along with the grade-level team will develop a calculated, personalized plan to bridge the gaps of the identified struggling learners. It will be the goal of the grade-level team and the Intervention Strategist to assure that every student in that grade-level achieves academic success. An Intervention Strategist will be assigned to every grade level, the Intervention Strategists will then come together to communicate plans in progress across the grade-levels.

Furthermore, intentional vertical alignment must be in place in order to assure that similar plans and teaching methods are in place for every grade level. Just as no two snowflakes are identical, no two teachers are identical; because of this some type of consistency must be in place for the sake of the developmental skills of the student. In order to prevent the student from having to learn new steps repeatedly for the same concept being taught, as a school teachers must communicate, weigh out and decide on the most effective ways of teaching basic concepts such as basic facts, main idea, generalizations, and utilizing investigative tools. Together we must establish a sound foundation of basic concepts in order to develop more cognitive skills. In order to make this uniformity possible a special team of Intervention Strategists working collaboratively with teachers, students and themselves must be in place. Intervention Strategists will be utilized as a binding tool to identify, facilitate, communicate and monitor goals, methods and progress across the campus.

Intense Campus Planning

You cannot build a house without a blueprint or a strong foundation, and you cannot move a school forward without a plan or without a team of additional educators; such as the reduction teachers and the Intervention Strategists who will amalgamate together to intervene and create a strong foundation for our students and their achievement. In order for us to implement our plan and develop a clear and concise vision of what we want our school to become, we must merge the additional staff into our educational family. Coming together, as a campus, pledging our dedication, and sharing our areas of expertise is crucial to the obtainment of our goal of continual academic success of our students. Benavides Elementary staff is committed to come together as a campus to modify and update our goals intermittently throughout the school year and summer.

3. Increase Leadership Effectiveness

In order to increase leadership effectiveness, we have determined that it is crucial for the campus as a whole to be involved in various campus wide Book Studies that build on each other throughout the life of the grant. It is our goal to read, John Maxwell's 17 Indisputable Law Teamwork on the first year, Developing the Leader in You, on the second year and The 360° Leader on the 3rd final year.

In order to facilitate the above mentioned collaboration between teachers, the teachers themselves must be taught and trained how to work cooperatively and effectively as a team. Through the book study of John Maxwell's "17 Indisputable Laws of Teamwork" our campus will learn about, discuss and explore the significance and magnitude of teamwork. Through this book study we will embark on the quest of learning how to win the war as a regiment versus trying to win

it as a single soldier. The initiative is to build strong teams in each grade-level, which in turn will compose a fortress of an organization.

Organizational Health

Organizational Health is a group of selected leaders from campus whom come together to discuss commendations, recommendations and concerns arising or expressed throughout campus. The purpose of the Organizational Health Team is to assist in the creation of a welcoming environment on campus helping every staff member knows that they are important and necessary to the success of our organization. The Organizational Health Team is a collaboration of different personalities, views and creativity that are bound together by one common goal: the academic success of every child on campus through transformational leadership. It is the Organizational Health Team members' objectives to serve as a motivator and inspiration to their fellow colleagues. After all, a happy employee is a productive employee.

WOW

Through the Working on the Work Framework, the school will be able to assess how much and how soon change can be successfully implemented on campus. The Schlechty Center helps the school identify and analyze why some initiatives succeed and others fail. Through the WOW Framework, Sam Fordyce Elementary will be able to identify and work through the shortcomings we have as an organization. Furthermore, teachers will learn how to redefine themselves as "leaders, designers, and guides to instruction" (Schlechtycenter.org).

4. Increase Learning Time

Reduction Teachers

At Sam Fordyce Elementary a continual and committee effort has always been made to provide the best quality education, however, even after the effort has been made, there continues to be a gap that keeps the staff from completely meeting each need. In collaborating with various stakeholders within our community and evaluating data, it has been determined that hiring additional highly qualified teachers in grades First through Fifth will help reduce the number in the classroom. We believe that this proposal coupled with the other mentioned initiatives will allow for significant progress to be made and milestones to be achieved.

Extended Day/ Week/ Year

By significantly reducing the number of students the teacher works with allows the teacher to have a closer look at all of the students and sets the premise for better diagnosis of what is impeding the student from achieving academic success. According to the diagnosis of the student's impediments, the teacher is now more able to intervene on a more concise level during extended hours after school or on Saturdays. Teachers will work collaboratively to share intervention strategies that are fun, interactive, and age appropriate for their students.

Reading, Math, Science Camps and Academies

Students increasingly dislike school because they are unsuccessful and disengaged. Through camps and academies the objective of Sam Fordyce Elementary is to bring the fun back into learning. Camps and Academies will be fully interactive hands on experiences. Math Camps will allow for students to manipulate tools and experience how math is used in everyday life. Science Academies will explore scientific investigations through the scientific process, allowing students to learn science concepts, skills processes and have fun while they learn. Reading Academies will focus on different genres of literature that are not often emphasized in the traditional classroom such as poetry, theater, song and dance. Camps and Academies are an opportunity to present underprivileged students with culture, art and skill through different lenses in a smaller teacher to student ratio after school, Saturdays and in the summer.

5. Increase Community Involvement

Community based meetings

Because our students come from impoverished families, they are already at a disadvantage versus those students who come from more affluent ones. This does not mean that our students are incapable of achieving academic success, but that they have that many more challenges to overcome. It is not the objective or intention of the school to give the community better houses, but it is our intention to help them create better stability at home. Through education of the community we can help families make the best of their situation with what they have. According to Marzano's Hierarchy of Needs students must have their basic needs met in order to effectively acquire academic success. A happy child is more apt to learn more in the classroom because their focus is on their school work, not whether or not they are going to have food, electricity or water when they get home from school.

Colonia /Community Meetings

Through colonia/community meetings, the Parental Intervention Strategist will communicate with and educate parents about basic health concerns such as hygiene and a balanced diet. The Parental Intervention Strategist will educate parents on topics such as the Food Pyramid and reading and understanding Nutrition Fact labels to help prevent the epidemic spread of gastritis and diabetes among the Hispanic population. Parents will also be informed about programs

such as CHIP and Medicaid that many of our community members are not aware of.

Adult Education and Parenting Courses

Currently the status quo of Parental Involvement is most often automatically associated with the female of the household. Sam Fordyce Elementary would like to take the initiative to gear parental involvement towards the men by developing a men's group in which the men of the community will be taught simple carpentry skills and financial management. The main focus of teaching carpentry skills will include basic plumbing, patching up of roofs, and installment of insulation, sheetrock and ceiling fans. These basic carpentry skills will benefit our students in such a way that the male of the household can learn to improve the living conditions of their homes, thus providing a more stable, secure home for the child thus, the child will be able to come more well rested and more focused to school. Furthermore, the male of the household will develop skills that make them more marketable in the workforce, increasing the probability of them obtaining a more stable job.

Also, because most of the parents in our community have little to no formal education, they are not able to assist their children at home should the child ask for assistance on any given assignment. It will be the initiative of the Parental Intervention Strategist along with Sam Fordyce Elementary to hold classes with parents in regards to helping the child with simple concepts such as comparing size, counting, skip counting, addition and subtraction, counting coins, telling time and explaining the significance of watching the weather or cooking together.

Performance and Progress Talks

Another component to increase community involvement is to educate and explain to the parents the significance of state exams (TAKS) and continuing higher education. Parents must be educated as to what tests are, what they look like, what they mean, what the expectations are, and how they can help. The Parental Intervention Strategist along with the Technology Intervention Strategist will work together to educate the parents about the different state exams administered at each grade level and discuss with parent the progress their son/daughter is making on any given subject. Only through an educated and structured Parental Involvement program will Sam Fordyce Elementary be able to take the level of academic achievement in our community up to the next level of Exemplary status.

6. Improve School Climate

Monthly, Six Weeks, Semester and Yearly Perfect Attendance Celebrations

Mobile Gaming/ REAL Fun, Comedian, Ventriloquist, Magician

In reflecting on the Organizational Health Survey conducted during the 2009-2010 school year it is safe to mention that the climate at Sam Fordyce Elementary for the most part is significantly. However, being awarded with the means to be able to staff and student success to an even greater extent is phenomenal. We believe that if we are given an opportunity to celebrate staff and students for making every effort to be at school to learn that academic progress of students is inevitable. We know from experience, and research tells us that if adults are happy, children will be happy, if children are happy, they will learn.

7. Increase Teacher Quality

Team Building Activities

Sheltered Instruction, Observational Protocol (SIOP)/ English Language Proficiency Standards (ELPS)/ Gifted and Talented (G/T) Hours/ Cooperative Learning/ Working on the Work (WOW)/ Scholastic Red/ Dual Language Model Professional development geared at teacher quality has always been a means in which La Joya conducts business, anyone who has ever worked in our district knows that we pride ourselves in providing our teachers with the necessary skills needed to embrace, nurture and teach any student that walks in through the door. Throughout the year and during the summer, an amazing array of various courses are offered at the district level in order to help teachers gain a greater level of expertise in providing engaging lessons for their students. However, even though these efforts are made, for unknown or personal reasons, teachers do not or cannot attend these trainings/courses. Through the awarding of this grant, this process will be facilitated by providing teachers at the campus level the flexibility, time and resources needed. On a small scope, this process would obligate teachers to actively participate and develop their own professional portfolios.

Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

- ☒ Extending the period of availability of school improvement funds.
This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and must be checked.

- ☐ "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.
- ☐ Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.
This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.

Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals. Responses are limited to two pages , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Dr. Americo Sam Fordyce Elementary evaluated various information obtained through surveys conducted with major stakeholders: parents, teachers, students and community members. The surveys allowed us to evaluate programs available for our Title I students which require a partnership between parents and schools in order to make an impact on student achievement. Information obtained provides feedback on parental needs and requirements to promote a high collaboration between all entities to improve student achievement at our campus. The results of the survey confirm the following: conduct additional meetings at times that are more accessible to parents, provide additional opportunities for parents to volunteer their homes to host meetings thus providing additional community meetings and to provide resources and opportunities to receive vocational technical skills and support. The campus needs assessment process also provides student feedback. Students were surveyed with a questionnaire on various school components such as academics, safety, and nutrition. At Sam Fordyce Elementary, the priorities to address were: increase learning opportunities through academic field experiences, provide technology support to enhance multi-media learning experiences and to provide a more intensive and extensive program efforts to combat and minimize gang activity, violence and bullying behavior. The Organizational Health Institute (OHI) is an instrument in which all teachers are surveyed on a yearly basis. The data is used to help leaders improve their effectiveness on a day to day operation of a campus. Teachers are asked to participate in this survey where feedback is provided to the leader to build leadership capacity. The OHI survey consists of the following ten dimensions: goal focus, communication adequacy, optimal power equalization, resource utilization, cohesiveness, morale, innovativeness, autonomy, adaptation, and problem solving adequacy. This OHI survey is highly individualized to meet the unique needs of each individual campus. This process will help move each campus, staff and administrative unit to the level in which student performance is a priority.

- L. Financial Management and Accounting:** Grantee assures it will maintain a financial management system that complies with federal standards established in 34 CFR 80.20 and 74.21 and that provides for accurate, current, and complete disclosure of the financial results of each grant project. The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

- O. Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.
- Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

For the purposes of this section, an elementary school or secondary school has a limited public forum whenever the school involved grants an offering to, or opportunity for, one or more outside youth or community groups to meet on school premises or in school facilities before or after the hours during which attendance at the school is compulsory. Nothing in this section shall be construed to require any school, agency, or a school served by an agency to sponsor any group officially affiliated with the Boy Scouts of America, or any other youth group listed in Title 36 of the United States Code (as a patriotic society). Compliance with this provision will be enforced through rules and orders issued by the Office for Civil Rights. A secondary school student or the parent of the student may request that the student's name, address, and telephone listing not be released without prior written parental consent, and the local educational or private nonprofit school shall notify parents of the option to make a request and shall comply with any request. Each local educational agency receiving assistance under the No Child Left Behind Act shall provide military recruiters the same access to secondary school students as is provided generally to post secondary educational institutions or to prospective employers of those students (P. L. 107-110, section 9532).
- S. Civil Rights:** Nothing in the No Child Left Behind Act shall be construed to permit discrimination on the basis of race, color, religion, sex (except as otherwise permitted under Title IX of the Education Amendments of 1972), national origin, or disability in any program funded under the No Child Left Behind Act (P.
