Texas Title I Priority Schools Grant		
Schedule #4—Program Summary and Application Requirements		
Part 1: Grant Program Information		
Summary of Program: Purpose and Goals		
School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools. Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools"). In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.		
Allowable Activities		
Tier I and Tier II Grantees ■ Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected. Tier III Grantees ■ Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model. ■ If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected. In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements. The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Peach Creek Elementary is the targeted campus, and where the district's transformation model is currently in place. The focus at Peach creek has been on student success, hiring and retention of highly qualified teachers and staff, and student and teacher attendance rate. In the 2009-2010 school year the campus was staffed with highly qualified teachers. The continuation of research-based curriculum, CScope (Region VI's) curriculum and common-based assessments were implemented on the campus. All these initiatives were put into place at the beginning of the school year and have reflected an increase of student success in both TAKS and Common-based Assessments. However, there are still fundamental weaknesses at the campus level. Although these initiatives have shown an increase to a proficient level of academic success, Peach Creek Elementary has reached a level of complacency and student achievement has stagnated. For this reason, the school year, 2010-2011 the principal will be replaced. Based on the campus' needs assessment, surveys and TAKS scores the campus will fully implement a comprehensive plan to increase student success. The plan would encompass a total school redesign based on a framework that would produce a true learning community within the school, where the principal and teachers would have shared common vision of becoming a learning organization, engage students and staff to improve student achievement, use data to identify and implement success based on needs of students. A hyper-monitoring teacher walk-through system will be implemented for data collection on instructional strategies and student level of engagement. Another area of concern is the lack of staff to assist struggling learners, the technology and instructional materials to assist these students. The funding from this grant will provide employing highly qualified staff, additional materials for student engagement, and technology in core subjects. Splendora Independent School District (SISD) has selected the modified transformation model. SISD will collaborate with the Schlechty Center; <i>Working on the Work: A Framework for Schoolwide Reform- Engaging Student and Staff to Improve Achievement</i>. The Schlechty Center for Leadership in School Reform works by engaging principals and school staff to develop a plan based on premises, mutual commitments and a three-phased implementation plan that further articulates a school vision, intended results and the means and processes for measuring the results. As part of the collaboration, the Schlechty Center will provide consultants with expertise in building capacity, provide and designing training experiences and tools, intellectual scaffolding, and providing networking opportunities to sustain the program.

Texas Title I Priority Schools Grant		
Schedule #4B—Program Description		
Part 1: Comprehensive Needs Assessment Cont.		
Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.		
Splendora ISD believes in open lines of communication, collaboration with stakeholders and continuous program(s) evaluation. In 2009 the campus was staffed with highly qualified teachers, a new research-based curricula was implemented, and teachers received professional development. Also there has been increased community awareness and parent involvement and participation. The comprehensive needs assessment began with a district wide and campus surveys provided to parents via website in the spring of the school year. This survey included questions on student outcomes and student success, accessibility to the campus administration, counseling services and the climate of the campus to name a few. In addition to the surveys, longitudinal data from TAKS scores, common-based assessments, and student portfolios were used to identify voids in academic structure at Peach Creek Elementary and at the district level. SISD also gathered data on cohorts of students to find trends on student groups and longitudinal assessment data. SISD created several committees consisting of administrators, curriculum coordinators, teachers and parents to address concerns in both the surveys and academic achievement. After reviewing this data, the areas of concern include gaps in achievement and passing rates in some student groups in certain grades levels, and over a time period. In addition, systemically there is a lack of cohesiveness in programs within the district, between grade levels on the campus and even within grade levels. In Splendora ISD, as in most districts; there is a correlation between students' grade-level passing rates, attendance rates, and graduation rates. Although SISD has aggressively addressed these areas, and there has been an increase in all areas, SISD's goal is to have a unified district wide belief and commitment to reduce the learning gaps between student groups, and increase student engagement and success rates. Thus, ultimately extinguishing failure rate and drop-out rate. The lack of program cohesiveness reflects the need of teacher collaboration, and shared school-wide commitment and vision. It is apparent that SISD's focus needs to be on school wide collaboration, where the principals and teachers have a clear, consistent and shared understanding of what students are expected to know. In addition, teachers will be provided training in understanding the role of the teacher to be a leader, designer and guide instruction. Another area of concern that addresses student achievement is the lack of staff to assist struggling learners, the technology and instructional materials to assist these students. SISD will seek to employ highly qualified staff to assist struggling students. The district will purchase additional materials for student engagement, and purchase technology be used for remediation in core subjects. Splendora will be collaborating with Schlechty Center to develop a learning organization and create learning communicates that focus on transforming Peach Creek from a compliance-focused organization to an engagement focused organization. SISD will also use Lead Your School tools and technology for classroom walkthroughs to monitor and support teachers' instructional strategies and engagement.

Part 2: Project Management		
Section A: LEA (District) Capacity Responses are limited to <i>one page each</i> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Capacity Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model.		
Splendora ISD will use the Title I Priority School Grant to support a framework for school wide reform. The school reform will begin with campus wide intensive professional development from the Schlechty Center, hiring additional staff to work with struggling students, increase student success by purchasing materials and remediation software for core subjects. In addition, the funding will be used purchase a teacher observation walkthrough program. The funding will be used for professional development from the Schlechty Center Working on the Work: A framework for School Wide Reform, As outlined in the budget page SISD will collaborate with the Schlechty Center in providing the necessary professional development, tools and materials need to effectively implement the transformation model. In addition, student achievement will also be the focus of this grant. Having a unified district-wide vision for preparing students for either Early High School college classes or Career and Technology is the ultimate goal of Splendora Independent School District. In efforts to reach this goal, SISD believes that early intervention for struggling students is the key. SISD will use these funds to employ highly qualified staff to assist struggling students. The staff will provide intervention instruction in the classroom and in a lab setting where small student-group intervention will take place. The instructional staff will also receive professional development and work collaboratively with the classroom teacher(s). Funding will also support materials for classrooms such as teaching kits and manipulatives for hands-on learning in science. In addition, software will be purchased for every core subject. The software will be used campus-wide and will be web-based through the district's server. The software will be used as an additional teaching tool as well as an intervention tools to support the curriculum. The Title I Priority School Grant will also fund a teacher observation, walk-through system for teachers. This system called Lead Your School, will be use to collect data on student engagement and Bloom's levels of instruction. The data then will be used for targeting areas of instruction and professional development. The partial salary of the Project manager will be funded out of this grant. Project manger (description within this grant) will be the liaison between the SISD's business office, principal of the building and the Schlechty Center to ensure that the program and appropriate funding will be use as outlined in this grant.

Part 2: Project Management Cont.		
Section A: LEA (District) Capacity Responses are limited to <i>one page each</i> , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Partnership/Involvement of Others – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.		
A synthesis of research by Henderson and Mapp (2007) concluded that there is a positive relationship between family, and community engagement for improving academic achievement. Splendora ISD is committed to keeping open lines of communication through the use of the district's web page, campus newsletters, monthly public meetings, district program pamphlets and community activities. With the use of these venues SISD communicates with the students, parents, and community. April 2010, district wide and campus surveys were provided to parents via SISD's website. The information from the surveys was reviewed and SISD created several committees consisting of administrators, curriculum coordinators, teachers and parents to address concerns. From this information recommendations were gained and will used in planning for the 2010-2011 school year. In addition, results from these surveys were reported publically. The superintendent meets monthly with Key Communicators. During these meeting the superintendent discusses current programming and any other issues that the members would like to discuss. In addition to the venues already in place, Peach Creek will hold an information forum in August 2010 for parents and community members. At this meeting, the district will review the comprehensive plan in initiating and sustaining school wide reform outlined within this grant. The campus calendar delineating future meetings (once each semester) will be posted on the district main website to encourage parents and community members to attend. Communication will also continue through the school newsletters sent home weekly. Again in the spring of 2010 school year, surveys with questions specifically targeted on questions concerning student performance and achievement, collaboration, relationships with school administration and faculty and the overall parent teacher and student satisfaction will be conducted. The data will be collected and results reviewed and used for future planning in areas of need.

Part 2: Project Management Cont.		
Section A: LEA (District) Capacity Responses are limited to one page each , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Management of Grant Activities – Describe how the LEA and campus will modify its practices and/or policies, as necessary, to ensure its implementation of the intervention(s) fully and effectively.		
In Splendora Independent School District from the superintendent to campus administrators this vision is clear and the commitment is non-surpassing. The vision for all students in Splendora Independent School District is called the "Wild Cat Way" The Wild Cat Way is the continuum of programming from full day Pre-Kindergarten through high school. As reflected in the diagram on page 31 of this grant. The Wild Cat Way conscientiously planned, and intention to prepare students to a path of either college bound or career bound. Students, parents, counselors and administrators meet at least semi-annually beginning in 5th grade to discuss each student's college or career and technology pathway. The Wild Cat Way is the path that leads students for either college and/or career readiness has been SISD's dropout prevention plan. The commitment to ensure the implementation of intervention will take place in a concise and effective manner. It will occur in several ways. First, a new principal to be hired will have had at least three years of administration experience and has a proven record of high student achievement. In addition, the district assures that the campus will be staffed with highly-qualified teachers and staff according the criteria of No Child Left Behind. Next, in order to provide ongoing, high-quality, job-embedded, professional development, SISD will collaborate with Schlechty Center. This process will begin with the superintendent, curriculum department and Peach Creek's principal and assistant principal is commitment to building a partnership with the Schlechty center. Next, the principals will attend the comprehensive two-day principal training. Whereas, teachers and staff will attend a three-day comprehensive training from the Schlechty Center. The campus will then embrace the training provided by the Schlechty center and will use the built-in on-site support provided by a Schlechty consultant to ensure that the focus of the transformation model takes place. In addition, teachers will be hyper-monitored with the use of a walkthrough software and data used by both the administrators and teachers to improve instructional strategies. This comprehensive plan will make certain that Peach Creek Elementary will make a transformation from a compliance-focused organization to an engagement focused organization. Finally, the project manager will maintain and provide all necessary documentation of trainings and data outlined in this grant. The project manager will be responsible for communication between the superintendent of the school district, outside evaluators and TEA.

Resource Management – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.		
Splendora ISD assures that the funds under this proposal will be used to increase state, local and federal funds. Other initiatives that SISD will be implementing will be paid out of local, state and federal funding sources. Splendora Independent School District's salary scale is higher than the state scale, and is competitive with the surrounding area schools. For this reason, SISD can attract highly qualified teachers in subject specific shortage areas. SISD believes that teacher and student attendance affects student achievement and reduces the likely-hood for dropouts. Therefore, SISD has an incentive plan for teachers, staff, administrators, cafeteria, custodial and maintenance employees and administrators. This incentive plan includes paying 1% of the average teacher salary for 96% teacher attendance, another 1% for 96% of student attendance and additional 1% if Peach Creek Elementary School becomes Exemplary Campus. This incentive plan is funded through local funds. Splendora ISD will pay for one-half the Program Managers salary from ARRA funds. In addition, SISD will pay the salary from a combination of local, state and federal funding. SISD has received the Beginning Teacher Induction Mentoring Grant, Cycle 3; This support will provide teacher mentors for new teachers to the profession. The mentor teacher will have at least three years teaching experience, and a record of increasing student achievement. All new teachers (to the profession) assigned to Peach Creek will be given a mentor teacher. The incentive will be \$1,000 to be paid at the end of the school year. SISD has also received the District Awards for Teacher Excellence (DATE) grant which is a strategic compensation program for teacher. Teachers meet the requirements of improving academic success on TAKS testing and increase Commended performance on TAKS testing will be monetarily compensated in the fall of the 2011-2012 school year.

Program Continuation and Sustainability – Describe how the LEA will sustain the campus reforms after the funding period ends.		
Splendora ISD will continue to seek funding sources to maintain all programs that have positively impacted student achievement. It is SISD's intention to continue to support professional development opportunities for teachers and administrators, maintain a positive school climate, and provide the best learning environment for our students. In addition, all SISD students will graduate with employability skills or college credits. The vision and goal of SISD is to provide "The Wild Cat Way" (pg. 31) for each and every SISD student. The Wild Cat Way is a continuum of programming from Pre-Kindergarten through graduation. All students will be provided an educational program with relevance and rigor. Peach Creek Elementary feeds into the Jr. High and High schools. At both the Jr. High and High school students develop a career path for either or/and Career Technology Academies, Early College High School classes or Dual Credit. All students will graduate from SISD with employable skills gained from the career technology academies or having college readiness skills or up to 60 hours in college credits. After the funding of this grant ceases SISD will continue to support programs that have positively impacted student achievement. It is SISD's commitment to continue to maintain a level of 100% highly qualified teachers and staff as well as provide meaningful professional development opportunities. SISD will actively seek other funding and use local, state and federal funding to continue programming that positively impacts student achievement. This will enable the students who feed into the Jr. High school to be prepared and be successful in the path of "The Wildcat Way".

External Providers -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.		
Splendora Independent School District has conscientiously sought an external provider based on the quality of the program design, historical success rate in assisting public schools, and extensive of review of literature. SISD has chosen the Schlechty Center for Leadership in School Reform. The founder of the center is Phil Schlechty who has been in public school reform for over a decade. Mr. Schlechty's experience and knowledge has been turned into books, professional development conferences and onsite consultation activities. The record for the Schlechty Center for Leadership in School Reform has been instrumental in turning around many low-performing schools across the country. SISD will use the Schlechty Center for Leadership in School Reform for the duration of the grant.

Section B: Model Selection Process—Describe in detail:

1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus.
2. The timeline delineating the steps the campus will take to implement the selected intervention.

Splendora Independent School District (SISD) has begun an aggressive transformation both district and campus wide. It is SISD's commitment and responsibility for all students to graduate either with college credits, with college readiness skills or with skills gained for Career and Technology Academies (CTA). This belief is outlined in what the district calls "The Wild Cat Way" (shown below). The Wild Cat Way has been implemented district wide and it is a purposeful and calculated plan to prepare students to lead to a path of either college bound or career bound.

In order for the Wild Cat Way to be the most successful, Peach Creek Elementary which feeds into Splendora Jr. High School must prepare students for the rigor of either college or Career and Technology Academies.

The Wildcat Way

Peach Creek Elementary (PCE) is the targeted campus, and where the transformation model is currently in place. The focus at Peach Creek Elementary has been on student success, hiring and retention of highly qualified teachers and staff, and student and teacher attendance rate. In the 2009-2010 school year the campus was staffed with highly qualified teachers. The continuation of research-based curriculum, CScope (Region VI's) curriculum and common-based assessments were implemented on the campus. All these initiatives were put into place at the beginning of the school year and have reflected an increase of student success in both TAKS and Common-based Assessments. However, there are still fundamental weaknesses at the campus level. Although these initiatives have shown an increase to a proficient level of academic success, Peach Creek Elementary (PCE) has reached a level of complacency and student achievement has stagnated. In the fall and spring of the 2009-2010 school year several committees were formed to gather and review data, and to make recommendations to the school board and the superintendent. In addition, surveys were given to the community, parents, students, teachers, and staff.

SISD is committed to increasing academic success and reaching the goal of preparing every student in "The Wild Cat Way, and being an Exemplary school district. For this reason, SISD will continue with the modified transformation model and will use the Texas Title I Priority School Grant to develop a comprehensive school plan. The plan would encompass a total school redesign based on a framework that would produce a true learning community within the school, where the principal and teachers would have shared common vision of becoming a learning organization, engage students and staff to improve student achievement, use data to identify and implement success based on needs of students. A hyper-monitoring teacher walk-through system will be implemented for data collection on instructional strategies and student level of engagement. In addition, materials and software will be used as intervention strategies for struggling students. Finally, a strategic compensation plan for teachers will implemented. Improving School Climate, and Increasing Leadership Effectiveness: In the spring semester the superintendent formed a committee consisting of the assistant superintendent, directors, and other administrators. This committee's goal was to gather data from surveys, and research on PCE's school climate and leadership effectiveness. The committee gained three important issues to be addressed. First, there was a need for a shared campus-wide vision. Secondly, they recommended teachers have more time to collaborate in ways to increase student achievement. Lastly, they recommended providing teachers professional development to increase the relevance and rigor of lessons. Splendora ISD will target several areas identified to improve school climate and increasing effectiveness. Improving school climate will begin with a comprehensive professional development plan for both administrators and teachers. SISD has chosen the Schlechty Center for Leadership in School Reform. The Schlechty Center has developed a national network with over 30 school districts, and 18 of these school districts are in Texas. The Schlechty Center has developed partnerships with school leaders across the country to transform their classrooms, schools, and school districts from places focused on compliance to those focused on engagement. SISD will use the Title I Priority School Grant to partnership with the Schlechty Center. This partnership will provide ongoing comprehensive training for central office administrators, the campus principals and teachers throughout the three years of the grant cycle. Professional development opportunities for the newly-hired campus principal will include a Principals Academy (Leadership Development conference) sponsored by the Schlechty Company. This academy will provide the campus principal with a deep understanding of fundamental concepts such as the nature of engagement, the core of business of school and marketing the change. The principal will develop plan for leadership, exploring the role of the principal and including appropriate strategies for causing and sustaining change, and work to create and sustain engagement-centered schools. In years two and three the principal will attend the Schlechty Center's Leadership academy. Besides the principal academies the principal will also attend Design Team Conference and Coaching for Design Level II that will be a collaborative-teaming effort between the lead teachers on the campus and the principal. As stated above, SISD will seek to employ a principal who has been a school principal for at least three years, with a record of high student achievement and the willingness to embrace the vision of the district. He will be required to participate and lead the campus in professional development and execute the strategies learned from the Schlechty Center. He or she will support and utilize teacher leaders to improve instruction, increase teacher collaboration time, monitor student data, and be a resource to the campus and stakeholders. The principal will keep open lines of communication with the superintendent, the program manager of the grant, teachers, staff, and other stakeholders.

Section B: Model Selection Process Cont. Responses are limited to <i>five pages</i> , front side only, with a font size no smaller than 9-point (Arial or Verdana).		
Improving Academic Performance, Increasing the use of Student Data and Increasing Learning Time: Splendora Independent School District commitment is to increase academic performance. In doing so, SISD will provide extensive professional development to gain instruction strategies, the use of student data to drive purposeful instruction, and increase students learning time. SISD will use several strategies to increase academic performance. In late fall of 2009, a committee consisting of administrators, teachers and parents were assembled to review data on student performance and academic achievement. This committee reviewed Peach Creek Elementary School's current year's data, longitudinal data and cohort data. This committee found trends in some student groups in certain grade levels, and over a given time period. As this committee reviewed the student data it was apparent that there was a lack of rigor and relevance. The achievement gaps were evident in programming between classrooms and between grade levels. To begin this comprehensive process SISD will provide extensive professional development to administrators and teachers on the Peach Creek campus. The professional development will be a combination of in-depth trainings, teacher and administrator collaboration, and onsite consultation. The Schlechty Center for Leadership in School Reform will provide the professional development for the duration of the grant. Research shows that students who are engaged in learning, make connections to newly learned concepts, and can work at higher levels of cognition. Research also shows that there is a direct correlation between the caliber of schoolwork students are provided and the willingness of students to engage in schoolwork. Teachers and teacher leaders will participate in several learning opportunities to develop these strategies. All Peach Creek teachers will attend a three-day training called Working on the Work: A Framework for School Wide Reform, Engaging Students and Staff to Improve Achievement. This training will include three phases of school wide reform. Phase One: Engaging the Staff will include a clear vision and a shared understanding of that students are expected to know and be able to do a various grade levels, teachers collaborate with one another at their grade level and grade levels above and below, and design work around "hard-to-teach and difficult-to-learn concepts. Phase Two: will increase teachers' collaboration and communication, teachers will examine measures of student engagement, and the school will share with the district innovative practices and lessons. Phase Three: will reflect student gains in learning, teachers will routinely collaborate with one another within the school and across the levels of the school system, principals and teachers see the relationship between the innovative use of resources and the success of the students using a range of performance measures. Lead teachers will have at least five years of experience, have a high student achievement rate including higher than district's average on TAKS Commended Performance, and excellent communication skills. The lead teachers on PCE will attend additional professional development. This includes Coaching for Design Level II and Design Team conference. Both of these conferences will be conducted by the Schlechty Center. These conferences are specifically designed for teacher leaders, and curriculum coordinators on the campus. These individuals will be trained to build capacity at all levels and will impact school improvement.

Improving Academic Performance, Increasing the use of Student Data and Increasing Learning Time cont: In addition to professional development opportunities administrators and teachers will have an opportunity collect and review data on student and teacher engagement. Lead Your School is a professional organization who provides schools the tools to hyper-monitor teachers and gage students level learning (Bloom's Taxonomy). Lead Your School is a recognized professional organization that has been instrumental in turning around low performing schools. Peach Creek Elementary School will be using tools and techniques from Lead Your School. Peach Creak Elementary was staffed with 100% highly qualified teachers during the 2009-2010 school year. SISD is making every effort to continue to staff the entire campus with highly qualified teachers and staff for the duration of the grant. SISD will continue to use the Region VI Educational Service Center CScope Curricula. This curricula is research-based, comprehensive curriculum, and over 30 districts are using this successful curriculum. Surveys and committee recommendations have identified a need for teachers to be able to collaborate in a group as assigned on grade levels and review data in a timely manner. SISD will implement weekly curriculum meetings to discuss academic achievement and gaps in student learning. In addition, teachers will have a common planning period which will allow for collaboration between teachers, lead teachers, curriculum coordinators and the campus principal. Strategies gained from extensive professional development will be implemented in the planning process. SISD is committed to prepare students to be successful in the path of the Wild Cat Way (diagram on page 31). Since Peach Creek Elementary School is a feeder school into the Jr. High school it is imperative that all students be prepared for rigor thus being successful in his/her career path. SISD believes that the first signs of a struggling student warrant early intervention, continuous monitoring, and additional instructional time. For this reason, Peach Creek Elementary will offer supplemental educational services in the way of tutorials. Tutoring will be offered three times a week before and after school. Students will have individual assistance and work-on subject specific software. In addition, SISD has increased its Pre-Kindergarten program from on-half day to a full-day beginning in 2009-2101 school year. SISD's intention is to continue the full day program. Increasing Parent and Community Involvement: Splendora Independent School District has a Community Education Department within the school district. The Community Education Department works collaboratively with the schools to encourage and support parent involvement activities. The principal of Peach Creek Elementary (PCE) will work collaboratively with the Community Education Department. The principal of Peach Creek Elementary will work with the teachers to invite the community and parents to at least 6 family nights during the school year. These will include math night, science night, and reading and language arts night, social studies night, two open houses. PCE will also hold teacher-parent conferences twice a year. We feel that engaging the parents of our students as well as our community as a whole, is vital to building a network of learning and support for our students. We will pursue high levels of involvement from both these parties.

Texas Title I Priority Schools Grant

Schedule #4B--Program Description

Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

- ☐ Extending the period of availability of school improvement funds.
This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and must be checked.

- ☐ "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.
- ☐ Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.
This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.

(Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)		
Section A: Ongoing Monitoring/Continuous Improvement - Describe the LEA/campus' process for providing on-going monitoring of grant activities to ensure continuous improvement		
Splendora ISD TTIPS project will use a variety of methods to collect information regarding the status of the project and where it may be improved. One of our main resources will be the use of formal and informal surveys among all of the stakeholders. Using the data collected from those surveys, we will interpret the information and make improvements to address any deficiencies identified. While we expect minimal calls for improvements, we understand the nature of such programs and will adapt as quickly as possible. We will also require walkthroughs by multiple stakeholders to ensure maximum efficiency and effectiveness. It is our belief that all systems must have effective quality control measures in order to achieve a desired level of effectiveness. Our plan also has a comprehensive parental involvement unit that will solicit feedback from the parents of our students as well as our community as a whole. Data disaggregation will be integral in the ongoing monitoring/continuous improvement process. Items such as DMAC, TAKS, End of Course, and PEIMS will allow Splendora ISD the opportunity to look at the status and efficiency of our TTIPS product in an in-depth manner.

Section B: Formative Evaluation- Describe the LEA/campus process for formative evaluation, including how the results of the evaluation will be used to improve the grant program		
Splendora ISD will establish a comprehensive evaluation process for all grant activities. One such evaluation tool will be formal and informal surveys to students, parents, and teachers regarding the activities. Feedback from/about the students concerning if there has been any changes to their self-esteem, academic performance, or any other positive or negative effects that might come from the participation in the grant activities. Each survey will be specific to each stakeholder according to their needs. We will also provide for staff development evaluations for any training that faculty/staff may receive. Furthermore, we will ensure that activities performed are appropriate and efficient through observation of grant activities. We hope to use a comprehensive approach to solicit feedback combining what the Formative evaluation and our tools for ongoing monitoring/continuous improvement as well.

Section C: Qualitative and Quantitative Data Collection Methods- Describe the LEA/campus' process for data collection methods to be implemented and 1) how the data will be disaggregated; 2) used to improve instruction; and 3) obtain continuous improvement results.		
At Splendora ISD we understand the importance of Data disaggregation and how data can help drive student achievement and accomplish the closing of achievement gaps. That is why we are instituting very strong policies towards the use of data to help encourage our staff to understand different data sources. Our data collection efforts will be a vital part of our monitoring of our program. We will collect quantitative data in a number of different ways: TAKS, PEIMS, grades, and any other methods deemed necessary. Our qualitative data collection will include data collected through both our formal and informal survey process. We will survey each stakeholder separately so that we may understand the full spectrum of the data collected. Each teacher, parent, community member and student will be surveyed and we will study the results and make recommendations for the project as needed.

Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals.		
Responses are limited to two pages , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Splendora ISD will proceed with an intense goal setting process that will include many parties through various sources of media. As stated before, a network of learning and support must first be established in order to improve a students achievement. This achievement will only occur if that network is in place, and the goals that are set come from those networks. The goal setting process will be centered around the closing of achievement gaps and ultimately how to appropriately prepare our students to be career and/or college ready. The first objective will be to involve many of the same parties that have participated in the establishment of our needs assessment. We feel the two greatest contributors will not be from Splendora ISD, it will be from the parents of our students and the community. Parental Involvement includes but is not limited to: • Public Forums • Formal surveys • Informal surveys • Access to staff involved with the project in order to solicit feedback. Community Involvement • Make local industries and retailers aware of grant and provide information accordingly. • Public Forums • Formal Surveys • Informal surveys. • Staff Access With both of these entities we will ensure that varying media is provided in order to clearly articulate that their feedback is necessary to establish a goal oriented project that will excel. The goals for improving academic performance, increasing the use of quality data to drive instruction, increasing leadership effectiveness, increasing learning time, increasing parent/stakeholder involvement and improving school climate, will be determined by the parties above, as well as, the teachers and students. As mentioned in our performance measures we will have multiple ways to measure growth and change as it becomes available through the use of grant funds. The entities discussed will have major input into what they ultimately feel is appropriate for their children to achieve. <u>Some of the goal ideas that will be discussed include:</u> • Annual Performance goals as layed out by the grant • Closing the achievement gap • Improving any achievement gaps for certain ethnicities • Improving data disaggregation methods • Improving the use of value added data • Establishing more open lines of communication with parents and community. • Achieving a college and/or career readiness for all students. On the following page is an illustration of the combination of networks necessary to improve Peach Creek Elementary.

- L. Financial Management and Accounting:** Grantee assures it will maintain a financial management system that complies with federal standards established in 34 CFR 80.20 and 74.21 and that provides for accurate, current, and complete disclosure of the financial results of each grant project. The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

Revised expenditure reports, where the grantee is claiming additional expenditures beyond that originally requested, must be submitted within 60 days after the ending date of the grant, or as specified in the applicable Program Guidelines.
- N. Refunds Due to TEA:** If Agency determines that Agency is due a refund of money paid to Contractor pursuant to this contract, Contractor shall pay the money due to Agency within 30 days of Contractor's receipt of written notice that such money is due to Agency. If Contractor fails to make timely payment, Agency may obtain such money from Contractor by any means permitted by law, including but not limited to offset, counterclaim, cancellation, termination, suspension, total withholding, and/or disapproval of all or any subsequent applications for said funds.
- O. Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.
- Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

Agency shall be responsible for reporting to the proper authorities any failure by Contractor to comply with the foregoing laws and regulations coming to Agency's attention, and may deny payment or recover payments made by Agency to Contractor in the event of Contractor's failure so to comply.
- R. Intellectual Property Ownership:** Contractor agrees that all Works are, upon creation, works made for hire and the sole property of TEA. If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

Nonprofit organizations (other than charter schools) and universities/colleges shall submit the audit report to the TEA Division of Discretionary Grants. Audit reports must be submitted to TEA within 30 days of receipt of the report from the auditor. Grantees should expend funds in ways that do not result in unsustainable continuing commitments after the funding expires. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

B.
