Texas Title I Priority Schools Grant

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information;

Summary of Program: Purpose and Goals

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Allowable Activities

Tier I and Tier II Grantees

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

Tier III Grantees

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Part 1: Grant Eligibility

- Tier I Eligible Campus
 Tier II Eligible Campus
 Tier III Eligible Campus

Identify which timeline the LEA/Campus the applicant will implement.

- Option 1: LEA/campus currently engaged in aggressive reform
 Option 2: LEA/campus in need of foundational technical assistance

Part 2: Grant Program Summary. Provide a brief overview of the program you plan to implement on the campus. Be sure to address fundamental issues such as your local program goals and objectives that align with the RFA purpose and goals, rationale for program design, etc. Address the specific gaps, barriers, or weaknesses to be addressed by the intervention model to be selected. A response to this question must be completed in the original submission regardless of whether the LEA/campus has selected an intervention model at this time or not.

Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The goal of our program is to improve academic performance of all students on our campus, while closing the achievement gap for our African American and LEP populations.

Our gaps, barriers and weakness which we will overcome IS the underperforming ACADEMIC ACHIEVEMENT of our students who are economically disadvantaged and often ELL.

We intend to improve performance by extending the school day for students and by providing research-based interventions in the areas of curriculum, instruction, assessments and interventions. Instead of only focusing on short-term (raising state test scores) we will implement programs and actions for college-readiness for our students. When our students are "college-ready," our school will no longer be in danger of missing AYP.

Principles and what we'll do:

- improving student achievement and increasing college and career readiness by building the capacity of campus leaders and teachers (teachers & administrators visit classrooms to dialogue about curriculum & inst. at campus using differentiated instruction model/ increase knowledge & skills of this "young" staff with advanced educational opportunities in college and local professional development
- improving campus climate through social and emotional supports (campus would not be required to take surplus teachers, campus affiliation with TurnAround Schools, Capturing Kids Hearts & Teen Leadership training, leadership surveys and training for administration and teacher leaders
- utilizing district support to transform systems (providing more social workers and tutors at the campus to increase family & student support systems

Key elements and what we'll do:

- extensive training on using data and evaluation systems effectively (sustained training & support in utilization of available data to impact achievement/ teach students how to use their own data to monitor personal progress
- job-embedded professional development models (just in time, on campus professional development/ recruit prospective teachers from nearby colleges and high schools to participate in professional development with our teachers and to work with classrooms to experiment with newly learned models/ focus on TurnAround Schools Six Exceptional Systems
- comprehensive needs assessment and campus processes (Our comprehensive needs assessment shows we need to increase the capacity of our neighborhood to sustain academic success for our kids... we intend to start a PTA and to organize capacity building programs for adults in our neighborhood to better their academic and parenting skills by partnering with local colleges & a home-owned financial institution
- PBS & utilization of community partners (use community partners to strengthen PBS with mentors for kids/ do book studies for teachers, parents & community regarding success for teenage students/ provide a "window to the wider world" by exposing students to colleges and careers outside the Amarillo area/ setting up systems for incentives for teachers & students to excel academically and behaviorally/ implementing a "character counts" kind of program
- maximizing extended learning time (increase the school day for underperforming students, provide camps and other extended learning times during school breaks like Christmas and Spring Break, provide tutors for students and parents

Pending program funding, Travis Middle School has chosen to initiate the Tier III transformation model utilizing the extended implementation period.

Schedule #4B—Program Description

Part 1: Comprehensive Needs Assessment Cont.

Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.

Based upon the eligibility requirements outlined within the RFA, Amarillo Independent School District (AISD) is eligible to apply for funding under this grant program on behalf of Travis Middle School. AISD makes application for funding on behalf of Travis Middle School. Travis Middle School has a very strong commitment to utilize grant funds to provide the resources necessary to meet the campuses significant need: to raise student achievement. During the initial planning phase, district and campus personnel contacted relevant stakeholders (students, staff, parents, community) and invited them to serve as volunteers on a new planning team. The Travis Middle School Title I Priority Team (TIPT) was created as a result. The TIPT team is comprised of the Travis Middle School Principal, a district Instructional Technology Facilitator, the district Director of Federal Programs and Grants, the Program Development Specialist, teacher representatives, parent representatives, community representatives, and the Executive Director of Student Achievement – Palo Duro Cluster. This team was brought together to identify needs in the area of student achievement and guide the development of the grant application. During the team's first meeting, district staff outlined program specifics and proposed the implementation of a school intervention model. The stakeholders' team met once a week for three consecutive weeks to discuss campus needs, intervention strategies, barriers, procedures, and process measures in order to develop this application and the foundation of Travis Middle School Title I Priority program. The team reviewed The Travis Middle School campus improvement plan, the district's current technology resources and capabilities, the 2008-2011 Amarillo ISD Technology Plan (ePlan), and analyzed the following quantitative data sources: the Texas Teacher STaR Chart, the Texas Assessment of Knowledge and Skills (TAKS) results from the 2008-2009 Academic Excellence Indicator System (AEIS), and poverty data from the 2008 Census Bureau. Based upon a thorough review of the needs assessment, the team outlined program goals, proposed the implementation of the Tier III Transformation Model, and developed the strategies and activities outlined within the application as a means to meet the campus challenges head on. The TIPT also developed all procedures and process measures for the program. Pending program funding, all stakeholders will continue to serve on the TIPT to lead the development of the program from the planning phase on through program implementation phase.

The findings of this needs assessment (subsequently summarized) revealed the following challenges:

► The Texas Title I Priority Schools (TTIPS) Grant identifies Travis Middle School as a Tier III school, ranked in the lowest-achieving 20%. Amarillo ISD is a high need LEA serving 22.22% of children from families below the poverty line as identified by the 2008 US Census Data. Travis Middle School serves 839 students in grades 6th – 8th and when compared to the state average Travis has a higher population of "at risk" students and a significantly higher population of economically disadvantaged students, reference Table 1. ► During

the 2009-2010 school year, Travis Middle School was required by TEA to form a Technical Assistance Team based on the underachievement of African American students in ELA, math

and science. See Table 2. ► Retention of highly qualified teachers: 8% of Travis teachers are zero year, with 35% of teachers having fewer than 5 year's experience. ► Underperformance in ELA, Math and science and all tests taken, see table 2. ► Boys, African American, and Hispanics are over-represented with a larger number of discipline referrals. ► Travis does not have a system for sustained and meaningful parental involvement. There is not a PTA or any organized parent forum on campus.

Based upon a comprehensive analysis of the data generated by these assessments it was determined that the primary needs of Travis Middle School

students and staff are as follows:

- Need #1: Increase retention of highly qualified teachers,
- Need 2: Increase ELA achievement at 6th, 7th, and 8th grades for all students as well as each subpopulation,
- Need 3: Increase math achievement at 6th, 7th, and 8th grades for all students as well as each subpopulation,
- Need 4: Increase science achievement at 8th grades for all students as well as each subpopulation,
- Need 5: Decrease discipline referrals at each grade level and for each subpopulation,
- Need: 6: Increase parental involvement.

Partnership/Involvement of Others – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.

Amarillo Independent School District and Travis Middle School consulted with relevant stakeholders continuously throughout application development. Amarillo ISD and Travis Middle School determined the best way to garner stakeholder support for this project was to create a planning team composed of relevant stakeholders. During the initial planning phase, district and campus personnel contacted relevant stakeholders (students, staff, parents, community) and invited them to serve as volunteers on a new planning team. The Travis Middle School Title I Priority Team (TIPT) was created as a result. Section A: LEA (District) Capacity Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Resource Management – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.

Several programs will be combined and coordinated under the Travis Middle School TTIPS Program to provide an effective use of public resources. AISD will coordinate campus funded resources (buildings, computer technology, office consumables, etc) during program implementation, throughout the course of the program, and beyond to sustain and support program goals. AISD will partner with the community planning team members to support the goals of this program.

Because of the extensive need demonstrated through data, the District will utilize all existing resources to the maximum extent possible to ensure the success of this program. Travis is committed to utilize currently existing facilities, technology, equipment, record keeping, and administrative support. As they are made federally available, Title resources will be utilized to support the programs implemented through this grant as allowable by law. In some instances other grant resources will be used to supplement the strategies and projects that are implemented through this program, but in no instance will funds be used to supplant, or replace, implemented strategies. Where appropriate, professional development and curriculum support will be funded by the District to the extent organizationally and fiscally feasible. Professional development will establish a strong foundation to ensure success in this project. The district's capacity for providing the necessary professional development is strong; training will be provided on an ongoing basis outside of this grant as needs are identified. Travis is committed to directly provide the classrooms, library, and any other fiscal area needed to provide for the meeting with parents and students and any space need for the facilitation of the program. The campus program manager will house at Travis. District staff will be utilized to conduct professional development trainings as feasible to sustain the program through the trainer of the trainer's model. All technology, testing supplies, and materials needed will be supplied by Travis to this project to supplement strategies implemented under it.

<p>The program will be based on a Training of the Trainers Model where district staff will be trained in coaching techniques and the district personnel will then coach campus staff. This will sustain the program long after the grant funding has run out as opposed to bringing in expensive company representatives on an ongoing basis to perform this role.</p> <p>The District's Administrative Advisory Team is committed to this program. Once this program trains teachers and administrators in coaching techniques there will be very little continuation cost. With this in mind, the continuation and sustainability of this program will be based on the utilization of local funds for staff workshops as needed which is contingent upon further District approval.</p> <p>It is important that the inexperienced staff at Travis Middle School is provided the training/support afforded in this grant to increase the capacity of this "learning staff" to remain at the campus and not leave the campus or profession after a few years.</p>

<p>External Providers -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.</p>		
<p>As described earlier, during the initial application development phase, the planning team conducted a campus needs assessment. Based upon the overarching campus needs the team determined to implement the Tier III Transformation Model. Under this model the team developed program specific activities, that when implemented, will provide an effective and efficient transformation model. Certain activities outlined within the campus program may necessitate the selection of an external provider(s). Pending grant funding, the planning team will reevaluate all activities outlined within this application during the planning phase of the grant. Programmatic decisions made during the final planning phase will be incorporated into the Model Selection and Description Report and submitted to the TEA for formal review and approval. Once the TEA has formally approved the activities outlined under the campus Tier III transformation model, and if at that time, activities are included that necessitate the selection of an external provider(s), then at that point the campus will follow regular district protocol concerning the recruitment screening and selection of the providers.</p>		
<p>The Amarillo ISD Procurement Department will assist the campus and program personnel throughout this process. Based upon the requirements of the activity, external providers will be researched, information relative to their services will be reviewed by district personnel, and selection will be made dependent upon the providers ability to supply the necessary service required within the appropriate time frame, and at a reasonable price. All applicable federal and state purchasing and procurement policies and laws will be followed.</p>		
<p>Additionally, by submitting this application, the district ensures that the school will implement the TEA Designed Tier III Transformation model and receive ongoing, intensive technical assistance and related support provided by TEA, on behalf of TEA by the School Improvement Resource Center (SIRC), and/or its subcontractors.</p>

During the initial application development and project design phase for the Texas Title I Priority Schools Grant Program, district and campus personnel contacted relevant stakeholders (students, staff, parents, community) and invited them to serve as volunteers on a new planning team. The Travis Middle School Title I Priority Team (TIPT) was created as a result. The TIPT team is comprised of the Travis Middle School Principal, a district Instructional Technology Facilitator, the district Director of Federal Programs and Grants, the Program Development Specialist, teacher representatives, parent representatives, community representatives, and the Executive Director of Student Achievement – Palo Duro Cluster. This team was brought together to identify needs in the area of student achievement and guide the development of the grant application. During the team's first meeting, district staff outlined program specifics and proposed the implementation of a school intervention model. The stakeholders' team met once a week for three consecutive weeks to discuss campus needs, intervention strategies, barriers, procedures, and process measures in order to develop this application and the foundation of Travis Middle School Title I Priority program. The team reviewed The Travis Middle School campus improvement plan, the district's current technology resources and capabilities, the 2008-2011 Amarillo ISD Technology Plan (ePlan), and analyzed the following quantitative data sources: the Texas Teacher STaR Chart, the Texas Assessment of Knowledge and Skills (TAKS) results from the 2008-2009 Academic Excellence Indicator System (AEIS), and poverty data from the 2008 Census Bureau. Based upon a thorough review of the needs assessment, the team outlined program goals, proposed the implementation of the Tier III Transformation Model, and developed the strategies and activities outlined within the application as a means to meet the campus challenges head on. The TIPT also developed all procedures and process measures for the program.

Pending grant funding, the planning team will reevaluate all activities outlined within this application during the planning phase of the grant. Programmatic decisions made during the final planning phase will be incorporated into the Model Selection and Description Report and submitted to the TEA for formal review and approval. As such, program specific timeline is subject to change based upon final TEA Approval. The following pages outline the timeline delineating the steps the campus will take to implement the selected intervention:

Texas Title I Priority Schools Grant
Schedule #4B—Program Description

Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

- Extending the period of availability of school improvement funds.
This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and *must* be checked.

- "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.
- Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.
This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.

Schedule #4C—Performance Assessment and Evaluation

Part 1: Component Description. By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

Section A: Ongoing Monitoring/Continuous Improvement - Describe the LEA/campus' process for providing on-going monitoring of grant activities to ensure continuous improvement

Each aspect of this program will be closely monitored by the Program Director, the campus-based Program Manager, and the Travis Middle School Title I Priority Team (TIPT) for all reporting requirements and to internally identify the progress which is being made through the implementation of the project. To the extent possible base level statistics and analysis will be collected and then semester reports will be compared to the base in order to identify progress for the campus. A campus needs assessment will be conducted each year and compared from year to year and the quantifiable gains and number of students impacted by the program will be recorded. Surveys will also play a key roll in the monitoring and improvement of this program. A representative sample of teachers and administrators trained and receiving professional development under this program will be given pre/post surveys to determine their perception of program benefits. The internal communication flow that is detailed previously in this application will obviously be a key component of the monitoring and reporting associated with this project. Communication will include such topics as schedules, facilities, special events, participant feedback, challenges and successes.

The implementation schedules for each activity previously noted will be adhered to. If it appears that implementation of some program component is not having the intended effect, program administrators will modify the program, with TEA's consent, to ensure that program dollars are maximized for effectiveness.

Part 1: Component Description. By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

Section B: Formative Evaluation- Describe the LEA/campus' process for formative evaluation, including how the results of the evaluation will be used to improve the grant program

The primary way that the Travis Middle School and Amarillo ISD will be held accountable throughout the implementation of the project is by how well the critical success factors, milestones, and activities (listed in Schedule #4B-Program Description; Part 3: Intervention Model Section D: Improvement Activities and Timeline) are met and on time and how well defined and targeted the performance measures (outlined under Schedule # 4C—Performance Assessment and Evaluation; Part 3: Annual Performance Goals) are met on time. Each of the activity components revolve around a clear cut objective that can easily be identified as completed or not. When the component is completed it will be noted. The Program Director will be responsible for monthly reporting of each project activity that has been completed or when it begins so that the schedule can be followed closely and each campus can be held accountable.

Surveys, to a lesser extent, will also be issued to the participants involved in the programs. Service, curriculum, and instruction evaluation will be based on the quantitative and qualitative findings listed on the next page in the description outlined under Section C: Qualitative and Quantitative Data Collection Methods. The project design in this application accounts for the details and milestones leading up to the implementation of each activity which will allow the campus to meet the overall goals and ultimately fulfill the campus needs. Currently, no major design weaknesses have been identified, but if any do arise throughout the implementation of the project (as identified in evaluations or participant input) they will be addressed by the Travis Middle School Title I Priority Team and ultimately the Program Director.

AISD will complete all TEA required and requested reporting practices.

Part 1: Component Description. By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

Section C: Qualitative and Quantitative Data Collection Methods- Describe the LEA/campus' process for data collection methods to be implemented and 1) how the data will be disaggregated; 2) used to improve instruction; and 3) obtain continuous improvement results

The attainment and utilization of both qualitative and quantitative Data will be one of the primary focuses of this project in order to continuously improve the program throughout implementation. Quantitative data will be collected through the use of open-ended questions on pre/post surveys. Surveys will be administered to a representative sample of program participants. These surveys will monitor program expectations before, throughout, and again after participating in the program. Additionally, the monthly program meetings will serve as an ongoing roundtable discussion from which the practical application of the program will be evaluated on an ongoing basis. The campus TTIPS will be responsible for monitoring the qualitative indicators of this program.

Upon receiving notification of grant award, AISD will develop and issue a Request For Proposals to contract with a 3rd party evaluator. The district will insure that the evaluator chosen has the capability to remain independent and objective in carrying out the evaluation, and as such, the evaluator will be external to the grant and will not be involved in program services or activities. The evaluators contracted amount will not be more than 8% of the total funds awarded.

AISD will contract with a professional external evaluator to administer the pre-developed survey instruments and analyze the baseline data. Evaluation of this project will be comprehensive and ongoing, using both qualitative and quantitative methodologies. With a systematic collection and analysis of data, it is possible for the project staff to achieve the goals and objectives of the program. The quantitative analysis to be provided under contract will be directly comparable to: 1) the number of target students and teachers served identified in Schedule #4A- Program Description - Part 1: Comprehensive Needs Assessment; Section A: Campus Grade Levels; 2) the degree by which the RFA program goals, Critical Success Factors, and milestones (outlined within Application Guidelines – Part 2; Program Guidelines, pgs. 13-14 within the RFP) were aligned with the campus developed program goals (outlined in the summary section within this application and again in the narrative section on the next page); 3) the activities developed by the district (outlined under Schedule #4B-Program Description; Part 3: Intervention Model Section D: Improvement Activities and Timeline); and 4) the performance goals developed by the campus TTIPS team (outlined under Schedule #4C-Performance Assessment and Evaluation; Part 3: Annual Performance Goals) and the degree by which they were met. Additionally, student performance will be monitored as it is reported by the Texas Academic Excellence Indicator System (AEIS) on standardized test to observe any indirect performance changes resulting from the implementation of this project. Similarly, the number of AISD employees trained in project areas of focus will be recorded for each year. Program data collection methods will be reassessed during the program planning phase and developed further post award after consultation with the contracted 3rd party evaluator. All finalized qualitative and quantitative data collection methods will be outlined in greater detail within the Model Selection and Description Report.

Part 2: Process for Development of Performance Goals

Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals.

Responses are limited to **two pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

During the initial planning phase, district and campus personnel contacted relevant stakeholders (students, staff, parents, community) via telephone and email and invited them to serve as volunteers on a new planning team. The Caprock High School Title I Priority Team (TIPT) was created as a result. The TIPT team is comprised of the Caprock High School Principal, a district Instructional Technology Facilitator, the district Director of Federal Programs and Grants, the Program Development Specialist, teacher representatives, parent representatives, community representatives, and the Executive Director of Student Achievement – Palo Duro Cluster. This team was brought together to identify needs in the area of student achievement and guide the development of the grant application. During the team's first meeting, district staff outlined program specifics and proposed the implementation of a school intervention model. The stakeholders' team met once a week for three consecutive weeks to discuss campus needs, intervention strategies, barriers, procedures, and process measures in order to develop this application and the foundation of Caprock High School Title I Priority program. The team reviewed The Caprock High School campus improvement plan, the district's current technology resources and capabilities, the 2008-2011 Amarillo ISD Technology Plan (ePlan), and analyzed the following quantitative data sources: the Texas Teacher STaR Chart, the Texas Assessment of Knowledge and Skills (TAKS) results from the 2008-2009 Academic Excellence Indicator System (AEIS), and poverty data from the 2008 Census Bureau. Based upon a thorough review of the needs assessment, the Caprock High School Title I Priority Team (TIPT) identified seven broad based goals that will provide a means to successfully address the identified needs. These goals also directly align with the grant's purpose and goals outlined on pages 13 – 14 of the Application Guidelines-Part 2: Program Guidelines within the Texas Title I Priority Schools RFA. The subsequent bulleted list represents the local campus goals:

- ▶ Improve Academic Performance.
- ▶ Increase Teacher Quality.
- ▶ Improve School Climate.
- ▶ Increase Leadership Effectiveness
- ▶ Increase the Use of Quality Data to Drive Instruction.
- ▶ Increase Parent/Community Involvement.
- ▶ Increase Learning Time

Each of these broad based program goals directly relate to the activities outlined under Schedule #4B-Program Description; Part 3: Intervention Model Section D: Improvement Activities and Timeline. The campus TIPT developed quantifiable performance goals/measures in order to evaluate the effectiveness of the program. The performance goals/measures are outlined under Schedule #4C-Performance Assessment and Evaluation; Part 3: Annual Performance Goals. The performance goals relate directly back to the activities, Critical Success Factors, and Milestones outlined under Schedule #4B-Program Description; Part 3: Intervention Model Section D: Improvement Activities and Timeline.

Texas Title I Priority Schools Grant

Schedule #5—Program Budget Summary

Budget Request by Grant Year: Enter the amount of grant funds requested for each year of the three year grant period.

Year 1: SY 2010-2011 \$1,310,063
 Year 2: SY 2011-2012 \$1,222,806 *
 Year 3: SY 2012-2013 \$1,244,764 *

* Any Budget Request entered for funds in Year 2 and/or Year 3 constitutes the LEA/campus requesting approval of the waiver for extending the period of availability of these grant funds, whether indicated on Schedule #4B—Program Description: Waiver Requests or not.

Provide any necessary explanation or clarification of budgeted costs

The stakeholders' team met once a week for three consecutive weeks to discuss campus needs, intervention strategies, barriers, procedures, and process measures in order to develop this application and the foundation of Travis Middle School Title I Priority Program. Based upon a thorough review of the needs assessment, the team outlined program goals, proposed the implementation of the Tier III Transformation Model, and developed strategies and activities in alignment with expected costs as a means to meet the campus challenges head on.

All expected costs associated with the Travis Middle School TTIPS Program support the overall goals of the Texas Title I Priority Schools Grant. A cost analysis was conducted to ensure that the budgeted costs meet expected student goals and the overall budget will support positive student outcomes. The costs are justifiable in that each line item directly relates to either a program activity, milestone, critical success factor, performance measurement, or goal. The in-depth analysis the campus planning team conducted ensures alignment between the expected costs with the scope of the grant. The total request for grant funding under this program is for \$3,777,633. With 842 students enrolled on campus (based upon the current spring 2010 semester enrollment counts), this equates to a cost of approximately \$4,486 per student participant at Travis Middle School. This is appropriate based on the number of high quality activities to be implemented and the number of new resources to be made available to both students and staff as a means to facilitate student academic growth under the Campus Tier III Transformation Model.

All expected costs outlined within the budget were reviewed by the Amarillo ISD business department to ensure compliance with all federal and state budgetary requirements. Specific budgetary items are explained below:

Tutors will be used to extend the school day for students. They will also be used to work in conjunction with teachers in professional development. Tutors and teachers will learn collaboratively and practice new skills in the classroom. We will not need to hire substitutes because the teacher or the tutor will be in classrooms while the other is learning. Often times, teachers and tutors will practice new skills/concepts together in the same classroom.

There will be one social worker per grade level. Our student population is 92 percent economically disadvantaged and they need assistant connecting with community resources.

The community liaison will begin a PTA or PTO (we have never had a parent organization at our campus). This person will also set up parent trainings/sessions and events. He/she will connect with surrounding colleges and organize higher learning opportunities for our parents and kids.

We will use translators to communicate with families in their home language. We have around 18 different languages spoken at our school.

Teacher incentives will include money available for graduate classes as well as travel to professional conferences. Teachers will be paid for extra work with students during holiday breaks, after school hours and on Saturdays.

We will work with TurnAround Schools to develop exceptional systems in collaboration, standards alignment, assessment, data management and interventions. We will provide professional development to decrease discipline referrals in order to keep students in class where they can learn (Capturing Kids Hearts, Teen Leadership, Character Counts, etc.)

Technology hardware and software will be used to increase the collaboration capacity of adult staff and to increase student achievement.

Transportation for students will be to bus our students to holiday/weekend extended learning time events at our campus.

- L. Financial Management and Accounting:** Grantee assures it will maintain a financial management system that complies with federal standards established in 34 CFR 80.20 and 74.21 and that provides for accurate, current, and complete disclosure of the financial results of each grant project. The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

If Contractor fails to make timely payment, Agency may obtain such money from Contractor by any means permitted by law, including but not limited to offset, counterclaim, cancellation, termination, suspension, total withholding, and/or disapproval of all or any subsequent applications for said funds.
- O. Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.
- Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

Agency shall be responsible for reporting to the proper authorities any failure by Contractor to comply with the foregoing laws and regulations coming to Agency's attention, and may deny payment or recover payments made by Agency to Contractor in the event of Contractor's failure so to comply.
- R. Intellectual Property Ownership:** Contractor agrees that all Works are, upon creation, works made for hire and the sole property of TEA. If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

For Colleges and Universities: The foregoing Intellectual Property Ownership provisions apply to any colleges and universities and their employees, agents, representatives, consultants, and subcontractors; provided, that for all Works and derivative works created or conceived by colleges or universities under the Contract, they are granted a non-exclusive, non-transferable, royalty-free license to use the Works for their own academic and educational purposes only. The license for academic and educational purposes specifically excludes advertising, offering for sale, selling, distributing, publicly displaying, publicly performing, or reproducing the Works, or making derivative works from the Works that are created or conceived under this Contract and colleges and universities and their employees, agents, representatives, consultants, and subcontractors are prohibited from engaging in these uses and activities with regard to the Works unless the prior express written permission of the TEA Copyright Office is obtained.

S. Contractor, whether a state agency or not a state agency, certifies that no funds provided under this Contract shall be used to purchase supplies, equipment, or services from any companies found to be guilty of unfair business practices within 12 months from the determination of guilt.

T. Subcontracting: Contractor shall not assign or subcontract any of its rights or responsibilities under this contract, except as may be otherwise provided for in this application, without prior formal written amendment to this contract properly executed by both Agency and Contractor.

U. Use of Consultants: Notwithstanding any other provision of this application, Applicant shall not use or pay any consultant in the conduct of this application if the services to be rendered by any such consultant can be provided by Applicant's employees.

V. Capital Outlay: If Contractor purchases capital outlay (furniture and/or equipment) to accomplish the objective(s) of the project, title will remain with Contractor for the period of the contract. Agency reserves the right to transfer capital outlay items for contract noncompliance during the contract period or as needed after the ending date of the contract. This provision applies to any and all furniture and/or equipment regardless of unit price and how the item is classified in Contractor's accounting record.

In addition to the standard terms of award, all funding provided under the Recovery Act will be subject to the provisions, assurances and conditions for American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

Terms defined:

RECIPIENT – The term “recipient” means a State and includes the Texas Education Agency (TEA). It also includes any entity that applies for and receives a grant directly from the federal government.

RECOVERY FUNDS –The term “recovery funds” means any funds that are made available from appropriations made under the Recovery Act.

RECOVERY ACT – the American Recovery and Reinvestment Act (ARRA) of 2009 (P.L. 111-5)

Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

B.
