Texas Title I Priority Schools Grant		
Schedule #4—Program Summary and Application Requirements		
Part 1: Grant Program Information;		
Summary of Program: Purpose and Goals		
School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools. Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools"). In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.		
Allowable Activities		
Tier I and Tier II Grantees ■ Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected. Tier III Grantees ■ Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model. ■ If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations. ■ Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected. In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements. The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Developing and increasing teacher and school leader effectiveness (1) Presently, staff needs a powerful means to reflect and analyze personal teaching performance. To develop and increase teacher and school leader effectiveness, staff will collaborate with Texas Health Arlington Memorial Hospital HR to develop a comprehensive Self-Evaluation Portfolio to be used by administrators, teachers and staff to measure end of year contribution. In addition, the Hospital HR department will provide training on creating the portfolio and work closely with school administrators to enhance the Texas commissioner's current appraisal system, PDAS (Professional Development and Appraisal System). Required documentation by PDAS to support 51 evaluation criteria organized in eight domains will be part of the portfolio, along with other student/teacher centered evaluation pieces detailing student performance. To foster staff morale and excellence in teaching, monetary awards will be given after final analysis of the Portfolio(student achievement, staff development, self-report). School leaders, teachers, and staff will be eligible for these awards for outstanding performance. (2) To continue toward our goal to be "Recognized", and to provide Speer staff with research based, cutting edge strategies, Speer will work with Region XI, district specialists, and campus staff, to design and implement a comprehensive staff development plan. This plan will encompass Campus Improvement Plan goals, and provide staff ongoing, high-quality, job-embedded professional development in the areas of Dual Language (PrK-3), Literacy, Math and Science Work Stations, Working with Extreme Student Behaviors, Brain Based Teaching, Technology, Community Culture, Teaching and Learning in the Field, and Self-Evaluation Portfolio Design. Speer will restructure one week of each 6 weeks to Monday – Thursday, 8:20 – 5:05 p.m. for the regular instructional day. This will allow 6 Fridays during the school year to be used as a staff development/vertical alignment day for all teachers. Students will attend school on those days participating in Educational Learning Enrichment.(3) Speer will flex work hours for teachers to pursue continuing education in the areas of math and science, second language, and working with at-risk children and adults living in poverty. Speer will provide space for college professors and trainers to hold specified classes on campus during the day and provide substitutes for all teachers in order for them to participate throughout the school year. Financial incentives will be given to teachers who complete all course work and trainings in specified classes.		
Comprehensive instructional reform strategies: (1) Prekindergarten – 6 th grade data analysis supports the need for comprehensive instructional reform strategies. Consultants will prepare teachers to implement a Critical –Thinking Curriculum, an English Language Proficiency Program, Professional Learning Communities, Vertically Aligned Curriculum, and classroom instruction using technology. (2) Speer will enhance the RTI process by expanding the RTI committee to include community health specialists and private learning organization teachers. These individuals will assist the committee in analyzing student data and making recommendations in teaching strategies, interventions and practices to help Speer staff make decisions that foster student success.		
Increasing learning time and creating community-oriented schools: (1) To increase learning time for all students, we will increase the normal school day by 1.5 hours. This will allow time to implement a Fine Arts Program and an intensive Literacy Program designed and implemented by community organizations and by community professionals. In the summer, during June, July, and August, Speer will offer bi-weekly summer intercessions. Intercessions will be thematic based, support state standards, and provide continual grade level instruction and application of TEKS not mastered on TAKS for grades 3 -6. (2) 2008-2009 Parent Surveys indicate that 80% of our parent population struggle with literacy, speaking English, and have limited education. To create a community-oriented school, we will design and implement a Comprehensive Parent Involvement Program. To assist families in taking action to curb our 35% obesity rate we will partner with community health and wellness organizations and medical specialists to design family programming.		
Providing operational flexibility and sustained support: Arlington ISD will: (1)Allow a student – teacher ratio of 15-1 for grades preK – 6 th . (2) Approve the hiring of additional personnel to support specific requests addressed in grant interventions, (3) Approve the leasing of portables to support needed classroom space and program space, (4) Approve and support the purchase and installation of additional technology, and (5) Support Speer calendar in daily, weekly, and summer intercession requests.

Part 1: Comprehensive Needs Assessment Cont.		
Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.		
LEA administration reviewed the RFA guidelines, attended webinars and training sessions, reviewed transcripts and power point presentations, and met to discuss response to "Next Steps and To Do List for LEAs" and "Decision-Making Process" checklist provided. Finding interest and willingness to support modified Transformation Models, Arlington ISD Administration, Curriculum and Instruction, Title I, and Grants Office staff's met with eligible campus administrators to review the RFA guidelines. Each campus administrator was asked to: • study the RFA guidelines; consider current campus needs, barriers, and gaps; • consider current campus improvement initiatives; and • meet with their own campus improvement team members to discuss applying for TTIPS grant. The campus improvement team members are established annually and include: School and district administrators; teachers representing all grades, content areas, and teams; representatives of other professional staff, including social workers, counselors, and curriculum leaders; parents and community representatives; and students, if appropriate. After making a decision to apply, principals were encouraged to notify the grants office for further application support and planning. Our campus improvement planning team met to: • review the district's vision and goals; • collect and review a comprehensive needs assessment (a process: creating a school profile of student needs, curriculum and instruction, professional development, family and community involvement while identifying both quantitative and qualitative data); • discuss and analyze strengths, challenges, gaps and identify priorities indicated by the information; and • review researched based school "turn around" options. Annually completing a summary of findings form calls the team to: • identify needs and causes; • set measurable performance objectives; • identify strategies to achieve goals and objectives; • identify resources to achieve goals and objectives; • monitor the progress of achieving each goal and objective; and • complete a summative evaluation. This process began in May, 2010 and will continue through September, 2010. Campus improvement team members, along with lead teachers, SBDM members and grant committee members will review all data, the body of evidence, that represents the state of student performance at Speer for the 2009-2010 school year. Performance of all accountability student groups will be analyzed. All campus improvement plan goals will be analyzed for completion outcomes. All student health data will be analyzed. In addition the end of the year discipline report will be analyzed. Final analysis will include a correlation between student performance and student health and discipline issues.

Part 2: Project Management		
Section A: LEA (District) Capacity Responses are limited to one page each , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Capacity -- Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model.		
<i>Technical Assistance and Training:</i> Arlington ISD has extensive experience administering grant programs. The Grants Office will provide the Transformation Specialist and other identified campus staff with grant management training. This training will cover implementation guidelines and a procedures handbook that includes: • Grant Negotiations • Getting Started • Record Keeping • Personnel vs. Contracted Services • Managing your Grant • Evaluation • Grant Amendments • Audits • Sustainability <i>Guidance and Representation:</i> AISD has chosen a team approach to LEA management for each campus grant and thus providing depth of capacity for grant implementation excellence. This LEA management team is locally called the TAKS Focus Team. This three (3) person team is comprised of a superintendent, executive director, director, or coordinator from the Testing, Administration, and Curriculum and Instruction departments. Our campus team is the Principal, Assistant Principal, two Instructional Facilitators and Licensed Clinical Social Worker. The TAKS Focus Team Executive Director for Elementary Curriculum and Instruction, Testing and Accountability Coordinator, Language Arts Curriculum Specialist and Title I Curriculum Specialist. Because this team represents top AISD management in the areas most likely to be involved in change, challenges, and request for adjustments or modifications of current procedures or policies, AISD believes that our campus will have excellent representative campus guidance and then excellent representation for final modification requests at the superintendent and board levels. <i>Fiscal Oversight:</i> The State and Federal Program Office will provide "supplement and not supplant" guidance and ongoing review. Budgeting and Purchasing Offices will provide review of proper financial planning and expenditures. A Special Revenues Accountant will be assigned to our grant to guide and provide ongoing review of timely expenditures, funding access, and final financial reporting. Because AISD holds this Transformation initiative so highly public and important to our district becoming Recognized, the district internal auditor will select one or more TTIPS grants for an internal audit.

Section A: LEA (District) Capacity Responses are limited to one page each , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Partnership/Involvement of Others – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.		
Due to the tight announcement to grant deadline timeline, AISD consulted with members of the board and reviewed the application at a superintendent's cabinet meeting. Eligible campus administrators were presented with the opportunity and asked to review the grant guidelines, present the guidelines to the improvement team which includes community and parent members. Most campus administrators opened the discussion regarding the application to the entire faculty and staff as well. As each AISD campus is funded, it will hold a public meeting/ hearing at the campus to present the Transformation Model and ask for input and participation in possible development sub-committees. Our Title I Family School Representatives along with campus staff will recruit parent engagement for this public hearing, Transformation Model sub-committee(s), and campus improvement team membership if vacated. AISD Public Information Office will assist each campus with announcements as well as programming on progress on our cable TV station, AISD website, campus website, and informational flyers in English, Spanish, and Vietnamese. Campus marquees and student "take home folders" will be used to inform the public about the announcement and other input meetings. Additional organizations and means of informing the public about grant funding include: • Speer community organizations • Speer community specialists • The University of Texas at Arlington • Texas Health AMH newsletter • Weekly publications and newspapers • Tele-Parent system

Management of Grant Activities – Describe how the LEA and campus will modify its practices and/or policies, as necessary, to ensure its implementation of the intervention(s) fully and effectively.		
• AISD's Grants Office will provide technical assistance for guiding all amendment processes. • Community Programs office will provide rapid response for criminal background checks for all employees and volunteers. AISD establishes a "TAKS Focus Team" for any campus facing challenges in meeting state standards. This TAKS Focus Team is comprised of an LEA mid-management leader from testing, curriculum, and administration. Our TAKS Focus Team members meet and work with our campus improvement team throughout the school transformation development and implementation. This TAKS Focus Team will guide the necessary activities for central administration and as needed, school board, review and approval of practices and/ or policies, as needed, to ensure full implementation of transformation initiatives. Our current TAKS Focus Team includes: Principal, Executive Director for Elementary Curriculum and Instruction, Testing and Accountability Coordinator, Language Arts Curriculum Specialist and Title I Curriculum Specialist. • AISD Assistant Superintendent for Personnel (human resource office), guided by the team mentioned above, will work with the campus regarding personnel recruiting, hiring, concerns, incentives, and professional promotion. • Deputy Superintendent for Curriculum and Instruction and his management and training staff will support ongoing imbedded professional development, curriculum alignment, day to day use of data driven instruction, and active use of assessments. • Assistant Superintendent for Administration will work with the campus regarding structure and organizational adjustments such as extended day(s).		
Arlington school sites are ideally equipped meeting all Americans with Disability Standards with adequate meeting space in a variety of settings.		
Our Title I administration has supported campus Instructional Facilitators who will assist the campus Transformation Specialist in assisting our teachers to implement instructional changes, lead campus study teams, and support and coach teachers. Our campus Transformation Specialist will lead our campus, along with our principal and improvement team. Our Transformation Specialist will focus on leading us in implementing student demographic-matched research based instruction and then reviewing and analyzing measurements to assess successes or challenges/ gaps.		
Our campus improvement team will includes 18 members with 2 parents and 2 community members. These members are responsible for returning to their representative groups (grade level, content area, specialty service, parents, or community members) with information about the discussions as well as pending and final decisions. Input from the group that they represent is considered as part of the data to be reviewed.

LEA Support – Describe how the LEA will structure and implement an individual or office with responsibility for supporting the campus' school improvement efforts.		
AISD has established a "team" approach to school improvement rather than establishing a separate office that is staffed with personnel that are not specifically responsible for the critical issues campuses face when challenged by school improvement requirements. AISD believes that there is merit and wisdom in providing a campus with a team of professionals with extensive experience and varied expertise. AISD has identified that transformation and turn around critical issues are typically focused within the areas of: • Testing and its use in guiding instruction; • Administration including organization, management, and personnel; • Curriculum and Instruction implementation; and • Job-embedded professional development Thus, the "TAKS Focus Team" was developed for any campus facing challenges in meeting state standards. This TAKS Focus Team is comprised of an LEA mid-management leader from Testing, Curriculum, and Administration. Our TAKS Focus Team members will meet and work with our campus improvement team throughout the school transformation development and implementation. This TAKS Focus Team will guide the necessary activities for central administration and as needed, school board, review and approval of practices and/ or policies, as needed, to ensure full implementation of transformation initiatives. <i>When needing an advocate, a campus has more power when represented by three (3) rather than one (1).</i>

Part 2: Project Management Cont.		
Section A: LEA (District) Capacity Responses are limited to one page each , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
Program Continuation and Sustainability – Describe how the LEA will sustain the campus reforms after the funding period ends.		
AISD consistently and strongly supports the identification of “what works” with grant funding. As successful initiatives are identified under temporary funding, AISD makes even effort to sustain that initiative with available or other external funding. Currently, AISD finds itself rapidly growing in high need student populations. This may bring additional SCE and Title I funds that would be available to support successful initiatives. Upcoming state and federal expectation and mandates will also need to be considered and may include some of these Transformation Model requirements that will have been established. Required statue directives are funded with existing dollars. Most importantly in following the belief that making decisions at the closest point nearest to the issue, challenge or concern is best: AISD supports campus improvement teams having the responsibility of planning/ budgeting to continue successful initiatives and eliminating programming that may feel and look good, but does not produce student achievement. This would include the nonrenewal of personnel contracts that supported specific reform strategies or programming followed by approval of hiring other qualified personnel to effectively continue the initiative.

External Providers -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.		
AISD will assist the campus improvement team by recruiting vendors within the field of concern. An example might be "school improvement" in general. AISD Curriculum and Instruction (C & I) office will invite several TEA recommended companies to present their services. Improvement team's members will then review the options and make a choice. When reviewing external providers, resource curriculum and/or software, AISD asks the office linked closest to the request to review the service, review the researched-base, and make recommendations. As an example: If a campus identifies a software that appears to have been successful in another Transformation Model, the AISD Instructional Technology Office will be asked to review that software, the company's successful training record, and its validity for use with the AISD population under consideration. AISD also expects the district office or the campus improvement team recommending/ selecting the external provider to complete background checks or references from previous users of the material or service. AISD will follow its process for selecting contractors over \$25,000 by working with and completing the appropriate forms provided by the purchasing and finance offices.

Site Visits – If the intervention program includes site visits to other campuses successfully implementing the intervention model, describe the process for selecting the locations and the expected outcomes of the site visit.		
Site visits have not been specifically identified for this campus, but in the past, AISD has followed a process of: • Identifying a campus whose academic success had been researched and proven successful. • Reviewing that campus's likeness to the campus considering a partial or complete replication to this model. • Reviewing online and video samples of the location. • Reviewing data on the success of the model. • Holding a conference call with the location that includes local campus improvement team members. • Scheduling a site visit with the location. • Completing requests for travel for several team members. • Making the visit. • Returning to report on the location's campus analysis and action plans and similarities to the local campus. • Improvement planning team develops a summative statement on the positive and negative issues of selecting this model. • Seek consensus from the improvement team. • Present decision to the faculty, parents and stakeholders.

Part 3: Intervention Model		
Section B: Model Selection Process –Describe in detail:		
1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus. 2. The timeline delineating the steps the campus will take to implement the selected intervention.		
Responses are limited to five pages , front side only, with a font size no smaller than 9 point (Arial or Verdana).		
AISD selected the Modified Transformation Model because all eligible Tier 3 campuses had already begun school improvement initiatives.		
AISD was not interested in selecting a model that required administration to remove the principal. It is not that AISD is not willing to remove a principal. Last August after the final TAKS scores were released, AISD did remove a principal. AISD thought it premature to make such a judgment without having access to the final 2010 campus TAKS results.		
When Tier 3 eligible campus administrators were presented with the opportunity, all were in agreement that the Modified Transformation Model was most appropriate in that it allowed them to continue to implement currently initiated school improvement activities.		
Timeline		
August 2010		
• Principal will lead the campus improvement team including the TAKS Focus Team in reviewing the Transformation Model Requirements. • Team will complete a Data Analysis and Action Plan form.		
Step 1: Review Disaggregated Student Performance Results - Identify Areas and Student Groups Not Meeting 2011 State Accountability Standards.		
Step 2: Conduct a Student-level Data Review and Objective Analysis - Generate a list of students not meeting the standard in each Step 1 group and consider factors that may affect student results. Identify the objectives those students failed to master; chart and analyze objectives missed to determine patterns or trends. Describe identified trends or patterns related to mastery of TAKS objectives (specify objectives).		
Step 3: Consider Contributory Factors for Lower Performance – In reviewing the longitudinal record of students in the group(s) identified above as not meeting the 2011 TAKS performance standards, consider factors that may play a causal or contributory role. Identify each area of concern, and describe your findings related to the group(s) and/or students identified. Issues related to: Student Mobility; Attendance; Discipline; Home Supports for Student Learning; Curriculum: Instructional Quality; Student Support; Budget; and Other.

September 2010 Step 4: Consider Strategies the Campus May Employ to Improve Student Performance: Consider the need for and identify changes that campus will make in order to address the area(s) of lower performance. Changes should be made as part of the school improvement plan. A. Campus/ Staff Information: grades served; total number of students; instructional and support staff assigned to content areas not meeting 2011 standards; instructional aides assigned to content areas not meeting 2011 standards B. Data Disaggregation: method of disaggregation – computer software; manual; other C. Staffing Changes: If yes, type of change? Specify anticipated outcome for targeted students. D. Curriculum Changes: If yes, identify the changes to be made: specify anticipated outcome for targeted students. E. Organizational Changes: list the type of changes to be made (schedule, redesign, block schedule, tutorials, etc. and specify anticipated outcome for targeted students. F. Professional Development Activities: 2010 – 2011: Should the campus schedule any additional professional development activities or make changes to current professional development activities as a result of the state academic accountability results? If yes, list the type of professional development completed or to be conducted. Specify anticipated outcome for targeted students. G. Budgeting Changes Specific these or Transformation Model Area(s): Should any budgeting changes be made at the campus level? If yes, list the significant area and amount of increase from previous year. Specify anticipated outcome for targeted students. H. Additional Support from Central Office: Should the district provide additional support to the campus? If yes, identify the additional support needed. Specify anticipated outcome for targeted students. I. Special Program Focus: Data Relevant to students identified in the TAKS Focus performance areas that are served through special programs? If yes, indicate the program and findings to be reviewed. Bilingual; ESL; Career and Technical Education; No Child Left Behind; Special Education; or Other. • Discuss dividing into Transformation Model sub-committees to more thoroughly investigate corrective solutions and recommendations to the improvement team.

Part 4: Waiver Requests		
Applicants must check the waivers in which the LEA/campus intends to implement.		
☒ Extending the period of availability of school improvement funds. <i>This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.</i> Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and <i>must</i> be checked. ☐ "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model. <i>Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.</i> ☐ Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold. <i>This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.</i>

Schedule #4C—Performance Assessment and Evaluation		
Part 1: Component Description. By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)		
Section A: Ongoing Monitoring/Continuous Improvement - Describe the LEA/campus' process for providing on-going monitoring of grant activities to ensure continuous improvement		
AISD will comply with all TEA evaluation requirements. The external technical assistance contractor will guide the district in its evaluation of the implementation, resource allocation, management, effectiveness of activities, impact of activities, and extent of which the performance targets were met. The Transformation Specialist will electronically collect data on attendance, professional development, student success, parent and community engagement, and other success measures as submitted and/or collected by teachers and staff. The campus improvement planning team including the TAKS Focus Team will hold no less than six (6) data review meetings to consider formative changes and adapt or modify activities or parent or professional training. Consensus will be sought for adjustments. The Transformation Specialist and principal will hold no less than four (4) data review meetings with the Director for State and Federal Funding. Following formal student assessments (benchmark test, three and six week reports, TAKS) results will be reviewed for improvement. Monthly partnership meetings will include review of data collected and collaborative success and challenges. The partnership meeting will also provide the venue for resolution for improvement. The partnership group will include: contracted agency representation, volunteer parent/community representation, teachers, campus administration, and district administration. Led by the Transformation Specialist, principal, and external technical assistance contractor, AISD will evaluate the: • Extent to which the activities of the project were implemented as planned (May 2011). • Effectiveness of the activities in achieving the goals and objectives of the project (end of the second, fourth, and sixth six weeks). • Impact of the project activities on the participants (December 2010 and May 2011). • Extent to which the performance targets were met (June 2011). Feedback and data collection will be solicited as the activity occurs. Example: Professional development sessions may have a pre and post assessment or a post session feedback and plan for using the newly learned skill within instruction. Parent and community meetings will usually ask for a session feedback through open ended or Likert Scale questionnaire. Weekly grade level or content team meeting minutes will include feedback on progress and challenges of the week.

- L. Financial Management and Accounting:** Grantee assures it will maintain a financial management system that complies with federal standards established in 34 CFR 80.20 and 74.21 and that provides for accurate, current, and complete disclosure of the financial results of each grant project. The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

Revised expenditure reports, where the grantee is claiming additional expenditures beyond that originally requested, must be submitted within 60 days after the ending date of the grant, or as specified in the applicable Program Guidelines.
- N. Refunds Due to TEA:** If Agency determines that Agency is due a refund of money paid to Contractor pursuant to this contract, Contractor shall pay the money due to Agency within 30 days of Contractor's receipt of written notice that such money is due to Agency. If Contractor fails to make timely payment, Agency may obtain such money from Contractor by any means permitted by law, including but not limited to offset, counterclaim, cancellation, termination, suspension, total withholding, and/or disapproval of all or any subsequent applications for said funds.
- O. Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.
- Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

Agency shall be responsible for reporting to the proper authorities any failure by Contractor to comply with the foregoing laws and regulations coming to Agency's attention, and may deny payment or recover payments made by Agency to Contractor in the event of Contractor's failure so to comply.
- R. Intellectual Property Ownership:** Contractor agrees that all Works are, upon creation, works made for hire and the sole property of TEA. If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

These warranties will survive the termination of the Contract. For School Districts and Nonprofit Organizations: The foregoing Intellectual Property Ownership provisions apply to any school districts, nonprofit organizations, and their employees, agents, representatives, consultants, and subcontractors. If a school district or nonprofit organization or any of its subcontractor(s) wish to obtain a license agreement to use, advertise, offer for sale, sell, distribute, publicly display, publicly perform or reproduce the Works, or make derivative works from the Works, then express written permission must first be obtained from the TEA Copyright Office.

For Education Service Centers (ESCs): The foregoing Intellectual Property Ownership provisions apply to an Education Service Center (ESC) and its employees, agents, representatives, consultants, and subcontractors. If an ESC or any of its subcontractor(s) wish to obtain a license agreement to use, advertise, offer for sale, sell, distribute, publicly display, publicly perform or reproduce the Works, or make derivative works from the Works, then express written permission must first be obtained from the TEA Copyright Office.

For Colleges and Universities: The foregoing Intellectual Property Ownership provisions apply to any colleges and universities and their employees, agents, representatives, consultants, and subcontractors; provided, that for all Works and derivative works created or conceived by colleges or universities under the Contract, they are granted a non-exclusive, non-transferable, royalty-free license to use the Works for their own academic and educational purposes only. The license for academic and educational purposes specifically excludes advertising, offering for sale, selling, distributing, publicly displaying, publicly performing, or reproducing the Works, or making derivative works from the Works that are created or conceived under this Contract and colleges and universities and their employees, agents, representatives, consultants, and subcontractors are prohibited from engaging in these uses and activities with regard to the Works unless the prior express written permission of the TEA Copyright Office is obtained.

Contractor, whether a state agency or not a state agency, certifies that no funds provided under this Contract shall be used to purchase supplies, equipment, or services from any companies found to be guilty of unfair business practices within 12 months from the determination of guilt.

- T. Subcontracting:** Contractor shall not assign or subcontract any of its rights or responsibilities under this contract, except as may be otherwise provided for in this application, without prior formal written amendment to this contract properly executed by both Agency and Contractor.

- U. Use of Consultants:** Notwithstanding any other provision of this application, Applicant shall not use or pay any consultant in the conduct of this application if the services to be rendered by any such consultant can be provided by Applicant's employees.

- V. Capital Outlay:** If Contractor purchases capital outlay (furniture and/or equipment) to accomplish the objective(s) of the project, title will remain with Contractor for the period of the contract. Agency reserves the right to transfer capital outlay items for contract noncompliance during the contract period or as needed after the ending date of the contract. This provision applies to any and all furniture and/or equipment regardless of unit price and how the item is classified in Contractor's accounting record.

For the purposes of this section, an elementary school or secondary school has a limited public forum whenever the school involved grants an offering to, or opportunity for, one or more outside youth or community groups to meet on school premises or in school facilities before or after the hours during which attendance at the school is compulsory. Nothing in this section shall be construed to require any school, agency, or a school served by an agency to sponsor any group officially affiliated with the Boy Scouts of America, or any other youth group listed in Title 36 of the United States Code (as a patriotic society). Compliance with this provision will be enforced through rules and orders issued by the Office for Civil Rights. L. 107-110, section 9532).
- S.
