**Texas Title I Priority Schools Grant**

**Schedule #4—Program Summary and Application Requirements**

**Part 1: Grant Program Information;**

**Summary of Program: Purpose and Goals**

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

**Allowable Activities**

**Tier I and Tier II Grantees**

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

**Tier III Grantees**

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

The Service Learning Academy, a campus of American YouthWorks Charter School, is an alternative high school for youth ages 16 to 21 who have dropped out of school or are at risk of dropping out of school. During the 2009-2010 school year, 99.2% of students are classified as at risk, 86% are minorities, and 65% are economically disadvantaged. During the 2009-2010 school year the campus implemented aggressive reform activities as a result of entering Stage 4 AYP for graduation rate and math performance. The data driven reform activities were planned during the summer of 2009 at the Summer Planning Academy and later by a Campus Reform Team (which consisted of the Principal, Technical Assistance Provider, Teachers, and PEIMS Coordinator, and Acting Superintendent). The Campus Reform Team used data from the Campus Improvement Needs Assessment and an external evaluation by RH2 Consulting, Inc. to guide reform activities. The cornerstone of the reform efforts for the 2009-2010 school year has been to restructure the campus into small learning communities aligned to Career and College Readiness education clusters.

In reviewing the RFP for the Texas Title I Priority Schools grant, the Campus Reform Team was able to see a parallel between current reform efforts and the Transformation Model. The goal of reform efforts is for the Campus to exit improvement status by increasing the graduation rate from 3 % to 70 % and increasing math performance from 33 % to 67% for all students who tested. In addition to these AYP goals, the campus set out to increase the student attendance rate from 72% to 80% and increase ELA performance from 59 % to 73 %. Reform activities to address the above goals align with the objectives of the Transformation Model:

**Comprehensive Instructional Reform:** The Service Learning Academy instructional model allows for high levels of differentiated and individualized rigorous instruction. The campus adopted C-Scope as the curriculum and A+ Learning System, which is an individualized computerized instructional program, as method of instruction (both programs are research-based and proven to increase student achievement). All students on the campus belong to a worked-based instructional program and spend time on working on community service projects outside of the classroom working. Through the grant, the campus will be able to continue reform efforts through fully aligning all courses to the C-Scope curriculum and refining the use of data to differentiate instruction.

**Increase Learning Time and Create Community Oriented Schools:** The Service Learning Academy instructional model allows students to receive instruction up to 8 hours per day, 4 hours in the classroom and 4 hours on the work site. For the 2010-2011 school year, the Service Learning Academy will extend the school year into the end of June and offer a summer session in July. Although the students have completed work projects within the community, through the Transformation model, the Service Learning Academy will be able to develop activities to bring the community and student families into the school environment.

**Provide Operational Flexibility and Sustainable Support:** Over the school year, the Campus Principal had operational flexibility in that he hired campus staff, developed small learning communities, and developed an extended year calendar. Through the Transformation model, the Principal will receive additional training on budgeting and receive LEA technical assistance support to assist with guiding the campus through the Transformation Reform process.

A gap in the current reform efforts is that the efforts do not develop and increase teacher school leader effectiveness. Through this grant, the Service Learning Academy will be able to raise achievement through on-site coaching and visits to "model" sites who have implemented CTE small learning communities. Further, the Service Learning Academy will be able to develop an incentive program for staff which may include performance bonuses, compensation for extra hours spent on instructional activities, and school loan forgiveness.

Schedule #4B—Program Description**

**Part 1: Comprehensive Needs Assessment Cont.**

**Section C: Process** Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.**

American YouthWorks Charter School, including the Service Learning Academy campus, traditionally begins the needs assessment process in May and completes the process over the summer months. The process involves gathering campus data, seeking input from stakeholders (including students, parents, and community members), and presenting the data to the American YouthWorks Board of Directors (school board).

The Campus needs assessment planning process began at the 2009 Summer Planning Academy held in June. During this process campus and district staff including, the Principal, Teachers, Special Education Teacher, ESL Teacher, PEIMS Coordinator, and Acting Superintendent reviewed campus data which included: (1) Student State Mandated Assessment Data, (2) TAKS Confidential Student Reports, (3) Student Benchmark Data, (4) Student Attendance Rates, (5) Student Graduation Rates, (6) Student Completion Rates, and (7) Student and Teacher Surveys. At the conclusion of the Summer Planning Academy, staff was able to complete a draft of the Campus Improvement Plan which outlined campus needs, goals, objectives and activities to increase student achievement for the 2009-2010 school year.

In July 2009, the Campus Reform Team (which consisted of the Principal, Technical Assistance Provider, Teachers, and PEIMS Coordinator, and Acting Superintendent) met to review the draft and refine the Campus Improvement Plan. The Campus Reform Team reviewed data from the last three years compiled by a team of professionals from School Improvement Resource Center and outlined in the Campus Improvement Needs Assessment. Over the three year period, SIRC consistently identified and documented the need for curriculum adoption and alignment and the development and retention of campus staff. The Team also reviewed data provided from RH2 Consulting, Inc., an external consultant. This consultant completed an independent review of students enrolled in a Career and College Readiness program that incorporated industry certifications and work site experiences versus students who only attended general education classes and were not enrolled in these Career and College Readiness programs. The data concluded that students enrolled in the Career and College Readiness program had higher attendance rates and grade point averages. Based on student data, the CINA, and the RH2 Consulting, Inc. review, the Team was able to finalize a Campus Improvement Plan for the 2009-2010 school year that was presented to the community and American YouthWorks Board of Directors.

In May 2010 the Service Learning Academy held two community meetings for students, parents, and community members to discuss the different Texas Title I Priority Schools (TTIPS) Grant models and the possible impact each model could have on the Service Learning Academy. In conjunction with the meetings, campus staff distributed a student and staff survey to gather information regarding campus climate, learning environment, and instructional. Also during May 2010, the Campus Principal facilitated meetings with campus staff to discuss and evaluate the four TTIPS models. Staff and stakeholders overwhelmingly chose to implement the Transformation model as it is not only aligned to current reform efforts but also will significantly impact long-term improvements leading to exit improvement status.

In June 2010, the Service Learning Academy will review and analyze student performance data including beginning and mid-year benchmark data, state-mandated testing data, regularly-scheduled skill checks, weekly individual goal plans, lesson completion rate and attendance data. All campus and specific district staff will attend the 2010 Summer Planning Academy to review and refine Campus Improvement Plans and Career and College Readiness program feedback and integration.

Schedule #4B—Program Description**

**Part 2: Project Management**

**Section A: LEA (District) Capacity** Responses are limited to **one page each**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Capacity** -- Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model.

American YouthWorks (AYW), the sponsoring entity of American YouthWorks Charter School (of which the Service Learning Academy is one of two campuses) is a non-profit organization in Austin. American YouthWorks has been in operation for over 30 years providing education and job training to low income youth and young adults in the Austin area. AYW employs 90 employees to serve over 800 youth each year in four distinct programs. These programs generate revenue of \$7 million with the majority of funding coming from local, state, and federal grants. To provide services to this number of youth, AYW has an Executive Management Team, an Accounting Department, and a Human Resource Department.

The Executive Management Team oversees and manages all operations of the agency and is comprised of a Chief Executive Officer, Chief Operating Officer, and the Superintendent of the Charter School District. The Executive Management Team has created a system to monitor program and grant performance and handle with efficiency all problems that arise. The Executive Management Team has consistent and regular meetings with the AYW Board of Directors and reports program performance measures and fiscal benchmarks on a monthly basis. The Executive Management Team has a system already in place to ensure that the TTIPS grant is successfully implemented and the Board is apprised of grant progress on a monthly basis.

The accounting department at AYW has at least 15 years of experience in managing State and Federal grants, such as a \$353,000 award from One Star and a \$2,319,000 award from YouthBuild USA. In addition, the Accounting Department also manages two Federal grants and a State discretionary grant from the Texas Education Agency: Even Start Family Literacy Grant, English Language and Civics, and the State Dropout Recovery Pilot Grant. To ensure financial compliance, AYW employs a full Accounting staff, consisting of a Director of Finance, Grant Accountant, Payroll Administrator, and Accounts Payable Clerk. The Accounting Department uses industry standard software, Financial Edge from Blackbaud to process all accounting documents. The Accounting Department has written financial policies and procedures that have been extensively reviewed and approved by the Texas Education Agency. Following State law, AYW also submits to an independent financial audit for each fiscal year. The Accounting Department has the capacity to manage all financial aspects of the TTIPS grant.

In addition to an experienced and competent Accounting Department, AYW also employs a Human Resource Coordinator and Administrative Assistant to ensure compliance with all state and federal employment laws. The Human Resource Department has written employment financial policies and procedures that are assessable to all staff. The Human Resource Department has the capacity to assist the Campus Principal with hiring and monitoring the performance measures of any staff hired through the TTIPS grant.

**Part 2: Project Management Cont.**

**Section A: LEA (District) Capacity** Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Partnership/Involvement of Others** – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.

As stated in the previous section, stakeholders were consulted regarding as to whether the Service Learning Academy campus should pursue TTIPS funding and what school reform model would have the greatest impact on student achievement at the Service Learning Academy campus. The process for engaging stakeholders in the application and proposed implementation of the Transformation Model closely mirrors the process for the Comprehensive Needs Assessment in that stakeholders had student and campus data to review in determining grant participation. Prior to meeting with external stakeholders, the Campus Principal met with internal stakeholders, the campus staff to review reform efforts to date, campus and student data, and TTIPS grant objectives and outcomes. After receiving internal support, the Campus Principal and the Curriculum Coordinator then facilitated two community meetings for students, parents, and community members. During these meetings Campus staff was able to use data from the Needs Assessment on campus climate, learning environment, and instructional effectiveness to hold a data-driven discussion on whole school reform, which is the cornerstone of all four models of the TTIPS grant.

To date, all stakeholders have indicated a desire to move forward with the application and implementation of the proposed Transformation Model. Additionally, performance and attendance data collected to date indicates improved student performance as a result of implementing the initial school reform activities that can be incorporated into the Transformation model. Given this, all stakeholders have expressed a strong commitment to expand and enhance the reform model as outlined in this grant.

**Part 2: Project Management Cont.**

**Section A: LEA (District) Capacity** Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Management of Grant Activities** – Describe how the LEA and campus will modify its practices and/or policies, as necessary, to ensure its implementation of the intervention(s) fully and effectively.

AYW has management personnel has extensive experience in managing grants effectively. As was previously stated, AYW was awarded approximately \$6.5 million in grants for the 2010 fiscal year alone. The Chief Operating Officer and Superintendent both have over ten years experience in managing grants to successful outcomes while preserving the efficacy of the grant program. As a result of the number of grants being implemented at AYW, Grant Managers at AYW follow the below process upon receiving a grant award and throughout the entire grant period:

- (1) Reread the grant with their direct manager to:
  - (a) Identify any financial needs (such as hiring, specific supplies, or space needs);
  - (b) Develops a timeline for program implementation;
  - (c) Develop a performance matrix that outlines all performance measures;
  - (d) Develop a data reporting system that maintains the integrity of the data collected.
- (2) Coordinate with the accounting department the grant budget, expenditure reporting process, and grant purchasing guidelines.
- (3) Attend weekly grant management meetings to discuss grant successes and areas that need improvement.
- (4) Attend weekly finance meetings to discuss grant fiscal needs.
- (5) Report monthly on performance measures to the Executive Manager responsible for the grant.
- (6) Create an action plan to implement if grant performance measures are not met.

All Grant Managers receive training in the above process and receive assistance as needed by members of the Executive Management Team. The Grant Manager is directly overseen by either the Chief Operating Officer or Superintendent depending on the services provided in grant program. For the TTIPS grant, the Grant Manager will be overseen by the Superintendent. The Superintendent will monitor grant spending and performance outcomes weekly in management meetings. In addition, the Superintendent will be responsible for reporting performance and financial data directly to the AYW Board of Directors.

Since the TTIPS grant impacts whole school change, in addition to the above general grant management process, the Campus Principal will implement a Campus Transformation Team to ensure successful implementation of the Transformation Model. This Team will be led by the Campus Principal and comprised of the Assistant Principal, Curriculum Coordinator, one General Teacher, one Special Education Teacher, one Work Site Career and College Readiness Teacher, the School Reform Liaison, the Campus Social Worker, the Parent and Community Liaison and a Community Representative. The Campus Transformation Team will meet weekly to monitor the daily implementation and progress of the Transformation Model. Further, this Team will have the ability to collectively address any implementation issues in a timely manner.

**Resource Management** – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.

The Service Learning Academy Campus will align all resources to create a seamless program of school reform. The Campus Transformation Program will use community, local, State, and Federal funding in a way that each funding source works in harmony to support whole school reform.

Currently the Service Learning Academy Campus generates approximately \$400,000 of Foundation School Program funding from student average daily attendance at an attendance rate of 80%. This State funding pays for the salaries of the Principal and Teachers, building occupancy costs, and the costs of general supplies and materials.

To supplement the basic education program, the Service Learning Academy Campus currently integrates Federal funding from Title I, Part A General Allotment, Title I, Part A -School Improvement Program, and Title II, Part A. All formula funding is used to enhance the general education program and not supplant required services. Title I, Part A General Allotment is used to pay the salaries of the Parent and Community Liaison, Test Coordinator, and Accelerated Instruction Teacher. Federal Title I, Part A -School Improvement Program funding is to pay for the salaries of the educational aides placed directly in the classroom for individual tutoring and additional support, curriculum coordinator, and math tutor. Further, with SIP funding the Service Learning Academy Campus was able to purchase three research-based educational programs to support remedial math and reading. The Service Learning Academy Campus uses School Improvement Program and Title II, Part A funding in conjunction for Principal and Teacher trainings. During the 2010 school year, Teachers received training on implementing the CSCOPE curriculum and differentiating instruction. The Service Learning Academy Campus has also aligned another Federal funding resource, a grant from YouthBuild USA, to pay the salaries of the Work Site Teachers. This grant also provides support services for students.

The Service Learning Academy Campus will use funding from the TTIPS grant to fully integrate the Transformation Model on the Campus. The Campus will continue to receive Title I, Part A General Allotment, Federal Title I, Part A -School Improvement Program, and Title II, Part A and will continue funding the activities stated above. The TTIPS funding will not supplant current services, but fund school reform efforts as outlined in the grant application. TTIPS funding will allow the campus to use resources in order to substantially raise the achievement of students and exit improvement status.

**Grant Project Manager Qualifications** – Describe the qualifications of the person selected to be the project manager for this grant on the campus.

The Principal of the Campus, Terence Gahan, will serve as the Grant Project Manager. Mr. Gahan has a Bachelor's Degree in History. He worked at AYW for seven years as a Work Site Teacher for the Environmental Corps before moving into the Principal position. He has served as the Principal of the Service Learning Academy for less than two years and has led the current school reform efforts. In his first year as Principal, with his leadership the campus was able to raise AYP Math TAKS scores by from 11% to 33% and AYP ELA scores by 53% to 73% (with TPM). Projections of the 2010 TAKS scores show a continued increase in AYP Math scores from 33% to 50% and AYW ELA Scores from 73% to 87%. His initiatives have increased the student attendance rate from 72% to 80%. Mr. Gahan is currently pursuing his administrator certification which is not a requirement of serving as an Administrator of a Charter Campus. .

Besides overseeing the daily operations on the Campus, Mr. Gahan also manages a YouthBuild pass-through grant from the Gates Foundation. The purpose of the YouthBuild grant is to increase the number of students who receive a high school diploma as opposed to a G.E.D. In his role as Grant Manager, Mr. Gahan is responsible for reporting on all performance data, managing the program budget, and attending all off-site meetings and trainings.

To strengthen his skills as a Grant Manager and Campus Principal, Mr. Gahan will receive fiscal management training from Region 4 during the months of June and July 2010.

**LEA Support** – Describe how the LEA will structure and implement an individual or office with responsibility for supporting the campus' school improvement efforts.

Upon receiving funding to implement the Transformation Model of the TTIPS grant, American YouthWorks Charter District will hire a part-time School Reform Liaison, which is district-level position responsible for supporting and monitoring the Service Learning Academy Campus reform efforts. The School Reform Liaison will report directly to the Superintendent and serve as a member Campus Transformation Team.

As this position must work directly with (and not in opposition of) the Campus Principal, the Campus Principal will have input with the hiring process. The School Reform Liaison must be: experienced in implementing school reform, experienced as a campus leader, and knowledgeable about curriculum/instruction and school climate. The roles and responsibilities of the School Reform Liaison at AYW include:

- (1) Ensure the Service Learning Academy has operational flexibility
- (2) Ensure effective implementation of all components of the Transformation Model
- (3) Monitor campus action plans
- (4) Serve on the Campus Transformation Team
- (5) Identify barriers that may hinder reform efforts

**Program Continuation and Sustainability** – Describe how the LEA will sustain the campus reforms after the funding period ends.

The Transformation Model will create long-lasting results for the Service Learning Academy. The Service Learning Academy Campus will sustain campus reform once the funding to implement the Transformation Model ends by:

- (1) Documentation and campus integration of systems: Many of the Transformation reform efforts include implementing new systems that support student achievement and success. An example is to create a rigorous, transparent, and equitable evaluation system. As systems are created, the systems will be documented as a campus procedure which will allow for current and new staff to be trained on the process, making the process will become part of campus culture.
- (2) Increased funding through additional student Average Daily Attendance: Campus reform efforts included implementing strategies that support student success, such as providing a social worker on campus to assist students in problem-solving barriers to school attendance or completion. As students become more successful at school, the natural correlation is that they will come to school more frequently, increasing Foundation School Program revenue for the campus. This revenue can be a funding source for activities, such as salaries, that require consistent and on-going revenue.
- (3) Establishment of community partnerships: Partners who are enthusiastic about reform efforts may be likely to donate supplies, materials, time, and money to continue program successes. The small learning communities also have work site partners, such as Travis County Parks and Recreation Department, which provides financial support for continued work projects.
- (4) District-level grant writing support: American YouthWorks employs a grant writer to seek funding for initiatives that make an impact on student achievement and success. Once an activity, such as Positive Behavior Support, proves a success, then grantors, such as Foundations, are more likely to fund the activity.

**External Providers** -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.

On March 15, 2010 the American YouthWorks Board of Directors passed a Purchasing Policy that includes guidance on awarding and monitoring the completion of external service providers. This policy requires competitive bidding and requires the district to consider the following before awarding a contract to an external service provider: purchase price, reputation of vendor, quality of vendor's goods and services, the long-term costs of the contact, and as to whether the vendor has been suspended or debarred.

To ensure that contracts are completed per original contractual agreements, AYW has an external services contract that requires the purchasing manager to list deliverables and deliverable dates and is monitored by both the Human Resources Coordinator and the Grant Manager. External Service Providers cannot receive payment for services rendered unless the deliverables/services received are approved by both the Grant Manager and Executive Manager. All external service providers who perform services for the TTIPS grant will follow the above AYW External Contractor Procedures.

The Campus Transformation Team (Campus Transformation Team) will be responsible for recruiting, screening, and selecting External Service Providers for the TTIPS grant. In recruiting service providers, the Campus Transformation Team will take into account: (1) recommendations from TEA and SIRC and (2) service providers who have had success at other Charter Schools with similar populations and goals. The Campus Transformation Team will also complete screening of all external service providers by requesting a resume of successful services provided, contacting a minimum of three references, and an interview. The External Service Provider will be selected based on meeting the requirements of the Purchasing Policy and completing all recruiting and selection process to the satisfaction of the Campus Transformation Team. If the Campus Transformation Team is unable to collectively choose the external service provider, the Campus Principal will make the final determination.

Site visits to a minimum of three other campuses will be included in implementing the Transformation Model. The Campus Transformation Team will research and select sites with student populations similar to that at the Service Learning Academy. In addition, selected sites will have achieved a demonstrated level of success in one or more of the following areas:

- 1) Campus-wide Positive Behavior Support
- 2) Academic excellence
- 3) School climate conducive to academic success and social/emotional well-being.
- 4) College and career readiness
- 5) Community integration/Parent Involvement
- 6) Integrated school-work programs

**Section B: Model Selection Process –Describe in detail:**

1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus.
2. The timeline delineating the steps the campus will take to implement the selected intervention.

The Service Learning Academy Campus began the TTIPS grant selection process in May 2009 shortly after the release of the official TTIPS Request for Application. Prior to May 2009, the Service Learning Academy Campus had completed a comprehensive needs assessment which included campus data for the last three school years. Campus data reflected a need for academic improvement in Math, with only 1% of 9<sup>th</sup> graders passing the Math TAKS test in 2008 and only 33% of 10<sup>th</sup> graders passing the Math TAKS test. Additionally the Campus reported only 5 graduates out of 153 students. This data was used to drive current reform efforts for the 2010-2011 school year which included reconstituting the school into small learning communities and purchasing and fully implementing the CSCOPE curriculum with other remedial materials used as supplements. Since the Service Learning Academy students are ages 16 to 21 and the majority of the students have a barrier to completing their education, the small learning communities were aligned with Career and College Readiness clusters: Architecture and Construction, Agriculture and Natural Resources, Audio Video and Information Technologies, and Human Services.

Despite the fact that the Service Learning Academy Campus is already involved in aggressive reform efforts and early school year data suggests that the small learning communities are positively impacting student achievement, the Principal of the Service Learning Academy Campus held three meetings to review the campus needs and the four TTIPS reform models. The first meeting was held with Campus staff to determine if there was interest in pursuing the TTIPS grant. After the Principal was able to determine that the staff was interested in whole school reform which is characteristic of the Transformation Model, he held two community meetings to garner the opinions of students, their parents/families, local businesses, local non-profit partners, and the community as a whole. At the end of the three meetings, all stakeholders were committed to continuing school reform efforts over the next three year period. Further stakeholders determined that the Transformation Model was the model that most mirrored the Campuses current reform efforts and had the potential to make a long-term impact on student achievement. Through further review of the Transformation Model, the Campus Principal, with support from the Superintendent, determined that the Texas Transformation Project would be the most effective vehicle for change on the Campus as the Service Learning Academy would receive technical assistance by the School Improvement Resource Center.

Upon funding, implementation of the Texas Transformation Project will begin immediately as follows:

**Part 4: Waiver Requests**

Applicants must check the waivers in which the LEA/campus intends to implement.

- Extending the period of availability of school improvement funds.  
*This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.*

**Note:** Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and must be checked.

- "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.  
*Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.*
- Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.  
*This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.*

**Section A: Ongoing Monitoring/Continuous Improvement** - Describe the LEA/campus' process for providing ongoing monitoring of grant activities to ensure continuous improvement

The Service Learning Academy Campus will employ a fulltime Grant Coordinator to assist the Grant Manager (Principal) with ongoing monitoring and implementing reform activities to ensure continuous improvement. Grant data, including performance measures will be tracked through two internal district systems:

- RSCCC Student Database- tracks student demographics, student attendance and grade reporting information.
- Eduphoria- tracks student TAKS Scores and Teacher Professional Development Appraisal System reports.

The PEIMS Coordinator and the Service Learning Academy AYP Clerk will ensure that the data has been entered accurately. The Grant Coordinator will be responsible for reporting monthly to the Campus Transformation Team on the Critical Success Factors, Transformation Model Timeline, and Performance Measures. The Campus Transformation Team meets weekly to review this data and reform implementation issues. This team will be able to problem-solve implementation issues as they arise and revise actions as necessary.

The School Reform Liaison will work with the Principal and Grant Coordinator to develop 90 day action plans. These action plans will lead the Transformation Reform Efforts for the next 90 day period. Action Plan implementation will be led by the Principal. The School Reform Liaison will be responsible for submitting all required reports to the Texas Education Agency for grant compliance.

The Principal will report data monthly and implementation concerns and corrections to the Superintendent. The Superintendent is responsible for reporting the grant performance to the American YouthWorks Board of Directors.

Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals.

Responses are limited to **two pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

For the purpose of the Request for Application, the Principal, Curriculum Coordinator and Service Learning Staff identified performance goals that are aligned to federal and state performance measures, such as the State Alternative Education Accountability system and the Federal Adequate Yearly Progress system. In addition, other performance measures were included that met grant objectives such as Teacher Retention Rates and Student Course Completion Rates.

Upon funding, the Principal will review these performance measures with the following groups: the Campus Transformation Team, Service Learning Academy Staff, and Stakeholders. These groups will be asked to determine if the performance indicators truly measure grant activities and achieving them will result in the school exiting improvement status.

**Schedule #5—Program Budget Summary**

**Budget Request by Grant Year: Enter the amount of grant funds requested for each year of the three year grant period.**

Year 1: SY 2010-2011 \$1,091,474

Year 2: SY 2011-2012 \$567,224 \*

Year 3: SY 2012-2013 \$542,223 \*

\* Any Budget Request entered for funds in Year 2 and/or Year 3 constitutes the LEA/campus requesting approval of the waiver for extending the period of availability of these grant funds, whether indicated on Schedule #4B—Program Description: Waiver Requests or not.

**Provide any necessary explanation or clarification of budgeted costs**

The Service Learning Academy has a great need to implement the Transformation Model and use grant funds for implementation. The Campus is committed to use the funding to implement activities that will improve student achievement and allow the school to exit improvement status. The budget is designed to purchase resources in Year 1 that will have a long-term impact on student achievement.

Year 1: The Campus will purchase operational infrastructure (that includes several capital outlay items) that is vital to student academic achievement, positive community engagement, and post secondary opportunity. This infrastructure will allow teachers to implement project based instruction outside of the traditional classroom. As previously noted the students who attend the campus have experience failure in the traditional school model and have the potential to be more successful in school through project based learning. The majority of the remaining budget will be spent on staff positions to implement grant activities and external consultants to provide technical assistance in the following areas:

- Positive Behavior Support
- Curriculum Alignment
- Technology Capacity
- CTE program/instruction
- Data Disaggregation
- Job Embedded Professional development

Year 2 & Year 3: With the infrastructure in place, the budget will be spent on staff positions to implement grant activities, professional development and other operational costs.

The three year budget is designed to lay a solid foundation for long term impacts. The technical assistance provided over the three year period will enable the campus to create sustainable campus wide systems to support continued high levels academic achievement and positive community engagement. The supply and material purchases will provide the campus with needed instructional resources. Upon exiting the TTIPPS grant, the foundation will be laid, the systems will be in place, and the partnerships established which will allow the Campus to continually graduate career and college ready students.

Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. If an audit has been announced, the records shall be retained until such audit has been completed.
- Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

Contractor, whether a state agency or not a state agency, certifies that no funds provided under this Contract shall be used to purchase supplies, equipment, or services from any companies found to be guilty of unfair business practices within 12 months from the determination of guilt.

**T. Subcontracting:** Contractor shall not assign or subcontract any of its rights or responsibilities under this contract, except as may be otherwise provided for in this application, without prior formal written amendment to this contract properly executed by both Agency and Contractor.

**V. Capital Outlay:** If Contractor purchases capital outlay (furniture and/or equipment) to accomplish the objective(s) of the project, title will remain with Contractor for the period of the contract. In addition to the standard terms of award, all funding provided under the Recovery Act will be subject to the provisions, assurances and conditions for American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

**Terms defined:**

**RECIPIENT** – The term “recipient” means a State and includes the Texas Education Agency (TEA). It also includes any entity that applies for and receives a grant directly from the federal government.

**RECOVERY FUNDS** –The term “recovery funds” means any funds that are made available from appropriations made under the Recovery Act.

**RECOVERY ACT** – the American Recovery and Reinvestment Act (ARRA) of 2009 (P.L. 111-5)

Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

The assignment of a DUNS number is a condition of award of ARRA funds and must be validated by TEA prior to issuing a NOGA for ARRA funds. (Section 1512[c][4] of ARRA and the federal Office of Management and Budget (OMB) to comply with the Federal Funding Accountability and Transparency Act [FFATA], P.L. 109-282.
