Texas Title I Priority Schools Grant

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information;

Summary of Program: Purpose and Goals

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Allowable Activities

Tier I and Tier II Grantees

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

Tier III Grantees

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

**Texas Title I Priority Schools Grant
Schedule #4A—Program Abstract**

Part 1: Grant Eligibility

Tier I Eligible Campus Tier II Eligible Campus Tier III Eligible Campus

Identify which timeline the LEA/Campus the applicant will implement.

Option 1: LEA/campus currently engaged in aggressive reform
 Option 2: LEA/campus in need of foundational technical assistance

Part 2: Grant Program Summary. Provide a brief overview of the program you plan to implement on the campus. Be sure to address fundamental issues such as your local program goals and objectives that align with the RFA purpose and goals, rationale for program design, etc. Address the specific gaps, barriers, or weaknesses to be addressed by the intervention model to be selected. A response to this question must be completed in the original submission regardless of whether the LEA/campus has selected an intervention model at this time or not. Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Intervention "Groups" Who Participated in Intervention Model Selection: Intervention Model Selection: The district had a variety of groups who were involved in the design of the intervention model. The group had campus and district-level administrators, teachers, parents, paraprofessionals, Region One ESC staff, external consultants, and trainers involved. The proposed project was developed from an extensive study of student, community, and district needs (2008-09 PEIMS and AEIS data, and the US Census). Based on these studies the district decided it will implement the Tier III TEA Designed Model (Transformation) through SIRC and Region One ESC.

The magnitude or severity of the problem to be addressed by the proposed project is significant in nature and based on school ranking percentile.(6 points) AEIS Reading scores indicate the following needs:

2008-2009 AEIS Reading Results					
	Campus	Hispanics	Econ. Disadv.	LEP	State
6th	77%	77%	76%	53%	93%
7th	62%	61%	61%	29%	87%
8th	80%	80%	80%	48%	95%
All Grades	74%	74%	74%	46%	91%
All Tests	54%	54%	30%	24%	74%

Goal: In order to be removed from the bottom 20% of the performing schools and no longer be considered **Title I – Needs Improvement, Stage 1 for Reading**, the Campus goal is to Improve Reading TAKS scores by 2013. **Specific gaps, barriers, or weaknesses related to the severity of the problem have been identified. (4 points)**

- **Objective 1:** Increase overall TAKS scores from 54% in 2008-2009, to a minimum of 57% in 2010-2011, a minimum of 60% in 2011-2012, and 63% in 2012-2013, particularly for 7th grade students and LEP students of all grades as indicated in red in the chart above.

Identified "Gaps "to be addressed by Intervention Model:

- The chart above shows the gaps that exist between All students and Hispanic, Economically Disadvantage, and LEP students.

Identified "Barriers" be addressed by Intervention Model:

- A. P. Solis Middle School studentbody consists of **99.3%** Hispanic which is 52.3% over the State's average of 47%, **96.1%** Economically Disadvantage which is 41.4% over the State's average of 54.7%, and **30.0%** LEP which is 13.2% over the State's average of 16.8%. These demographics are indicative to the high percentage of students with limited Reading comprehension compared to state averages.

Project Management: The district will hire or transition a district employee (use grant funds to replace an existing position) to serve as Project Manager/Shepherd. This individual will be required to hold at minimum a Bachelor's degree and have the knowledge, education, certifications, and experience to oversee a project of this magnitude. The Project Manager will provide guidance, support, training, and resources to the personnel. The Project Manager will oversee and assist with the implementation of the goals and objectives of the grant; ensure financial and grant progress reports are submitted; and approve budget expenditures with the business office personnel.

External Providers: The district has selected the following providers as external trainers and consultants: Region 1 ESC., Dr. Margarita Calderon, UT Austin – Charles A. Dana Center, Learning Wheels, Aric Bostic, Alan M. Blankstein, Dr. Victoria Bernhardt, Marzano, Silver, and Strong, Stetson and Associates, and Communities in Schools as identified on Pg 27.

Program Monitoring: The Project Director, staff, and partners will meet regularly specifically for the purpose of providing feedback to ensure continuous improvement. The campus will establish a scheduled timeline that coincides with the grant period. Milestones of expected accomplishments will be set to monitor the program successes and/or weaknesses. The Project Manager will monitor the implementation of this project on an ongoing basis to ensure successful completion of activities according to the proposed timeline.

Performance Assessment and Evaluation: The selected External Data Analyst from a local research firm holds a Master's Degree and almost 20 years of experience in K-12 education. The contracted external analyst will assist the campus with collection, review and submission of teacher and student data.

Budget: The Chief Finance Officer will review and approve grant expenditures based on budget appropriations and submit financial reports on a timely manner. The Manager will reconcile accounts, review and prepare financial statements, conduct budget analysis, and draw down funds from the TEA web system, if awarded.

**Texas Title I Priority Schools Grant
Schedule #4B--Program Description**

Part 1: Comprehensive Needs Assessment Cont.

Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Describe, in detail, the process the LEA and campus followed/will follow to identify the needs of the campus.

Strategies and activities are of sufficient quality and scope to ensure equitable access and participation among all eligible program participants. (5 points) The program will provide equal access and treatment and a variety of activities that allow each applicant to participate without regard to gender, race, origin, color, or handicap. As per **Federal Statutory Requirement #1**: The district has analyzed the needs of each school and selected an intervention for each school as follows.

Pre-Award Work Conducted to Identify Needs of the Campus:

The proposed project is appropriate, and will successfully address low performing academic areas. (6 points) The district and campus administrators attended all the webinars, Region One ESC TETNs, and videoconferencing related to understanding the goals and objectives of the TTIPSG grant. Once the district personnel determined that the campus had a substantial need to apply for this grant, the design team (Superintendent, Assistant Superintendent, Principal, Executive Director of Secondary Education, and Teachers) met to discuss the grant and its implications.

External partners from the Region One ESC staff, training consultants, and a program evaluator were brought in to brainstorm about the campus needs, identify activities, review tracking and monitoring needs, and identify necessary teacher and administrator trainings that would be supplemental to current instruction. The team discussed activities that would be helpful and beneficial enough to make an increase in the low performing content areas to transform this low performing campus into a higher achieving community-based school within the proposed 3 year funding cycle.

After this brainstorming meeting was held on 4/10/2010, the team completed a Comprehensive Needs Assessment (CNA) tool which considered both district and campus needs. In addition to completing the CNA form, the team discussed identification of community partners, designation of personnel to manage this project, identification of teacher leaders, and the need for a more job-embedded professional development plan.

Moreover, the team members also reviewed personnel needs. The team determined that the Principal has made significant progress in the time employed in her current position. Therefore, it was decided that the Principal of this campus would not be replaced at this time. Moreover, the teachers who received favorable evaluations in April 2010 have already been invited to continue their employment during the 2010-2011 school year. Therefore, all of these teachers will be retained. However, more specific and quantitative assessment will be conducted next year and thereafter to determine if Principal and teachers will get invited for continued employment. All of these new expectations will be individually discussed with prospective candidates and will be kept in their personnel file. The district will utilize rigorous, transparent, and equitable evaluations.

Review: Checklist for CNA included: 1) Review of multiple sources of data in the planning and decision-making process; 2) Data was longitudinal as well as current; 3.) Feeder campus stats and needs were reviewed to determine patterns and needs of upcoming student population to the proposed targeted campus; and 4) all grade levels were reviewed along with the identified low performing group.

The needs for the CNA were reviewed over the last few months in addition to longitudinal data which required significant time during the pre award period. This data will again be reviewed during the post award period to set priorities, provide dedicated focus on needs, and meet targeted goals. All of the staff were encouraged to submit surveys, emails, or dialogue with administrators. In addition, students, parents and community needs were considered in the CNA. The model selection (Transformation) matches the needs identified in the CNA.

Post-Award Work for the Identification of On-going Campus Needs: Various methods will be implemented after the post award to continue to assess, monitor, and remedy student and teacher needs.

In **Year 1**, the team members will collect the following: District Snapshot; Behavioral data and PEIMS data to analyze Positive Behavior Support (PBS) implementation, track Social Service Support, collect observation data to guide professional development and student interventions, review plan for recruitment and retention of quality staff, review progress towards goals in SIRC 90-day Action Plan, track attendance at SIRC Summer Seminar, review and revise professional development plans, and track needs assessment data for students and teachers.

In **Year 2**, team member will continue with all of Year 1 processes and include the review of SIRC Action Research Projects and perform an intensive data review and process evaluation on what's working and what still needs to be addressed.

In **Year 3**, team member will continue with all of Year 1 and 2 processes to identify, track, modify, and remedy campus, student, and teacher needs. Additional activities will include administer and review Campus Snapshot, finalize Action Research Projects, collect data for PBS evaluation, create a sustainability plan, and develop a plan to continue the utilize teacher leaders.

Texas Title I Priority Schools Grant
Schedule #4B—Program Description

Part 1: Comprehensive Needs Assessment Cont.

Section D: Groups of Participants Contributing/to Contribute to Needs Assessment Process, ensuring Parents and Community Groups were involved in the process.

1	Superintendent — School Board Members and community members relay their concerns on a daily basis and regularly during school board meetings, parent meetings, community functions, athletic events, etc. All concerns from parents and community members along with district and campus personnel issues were factors considered when determining campus needs for the Campus Needs Assessment (CNA).
2	Assistant Superintendent for Business & Finance - Holds meetings and conferences with Principal, parents, community members, and parents on various academic and infrastructure campus needs. These concerns were addressed in the School Culture and Leadership sections of the CNA.
3	Principal — Has parent, teacher, student, counselor, and paraprofessional meetings, conferences, and walk-throughs. The Principal also communicates through corresponds through emails, newsletters, and flyers to have an up-to-date assessment of needs. In addition, the Principal reviews various data reports to desegregate the student and teacher gaps, barriers, and weaknesses. Her input is essential when designing the Leadership Effectiveness component of this proposal.
4	Executive Director of Secondary Education - Meets with the Principal to review academic needs, review instructional materials and assessments, and holds training meetings with the teachers on various instructional strategies and methods. During these visits, much of the needs identified and discussed were considered when working on the CNA instrument.
5	Teachers - Serve as faculty, parents, and community members. Their class, campus, student, and parent's needs were important to be considered when devising a plan on how to raise academics for the next 3 years and thereafter. Their input helped design the teacher quality section of the CNA as well as this grant proposal.
6	Counselor - Reviews the grades, class availability, scheduling issues, student and parent personal and academic needs, along with college readiness needs. These academic and social needs and their impact on the overall campus success was also considered in the CNA.
7	Assistant Principal — Has first-hand knowledge of disciplinary needs, academic needs, nurse identified health issues, cafeteria needs, transportation scheduling needs, and parents concerns. These concerns were addressed in the CNA.
8	Paraprofessionals - Communicate directly with the parents, teachers and students. They hear directly from these individuals what their needs are. These Paraprofessionals are many times the first to identify language, hearing, visual, health, and other academic needs. Their concerns were considered as part of the CNA.
9	Students - Are at the forefront of the reason the campus is in existence. Therefore, their direct guidance on understanding how a student feels, thinks, and acts is important when designing a program to best address their needs particularly in helping to address the focus of improving school climate.
10	Parents — Some are very involved and are eager to share their recommendation and many times speak for the group. Therefore, their concerns were important to be considered when addressing the Parent and Community Involvement needs.
11	Region One ESC staff - Brought in data reports with desegregated data broken down by years, campus, subject area, student type, and special populations. Graphs and charts provided also included longitudinal data in these specific areas as well.

In follow-up, meetings it was discussed the vision for the campus and specific ideas for the Transformation Model. Staff input was gathered through a structured series of questions to which members and administrations could offer recommendations. These ideas were analyzed and synthesized to add specificity to the Transformation plan.

Parents who serve on the Site-Based Decision Making Committee met or were given information about this grant on May 11, 2010. Campus needs and the proposed interventions occurred at this meeting. Parents were happy about the possibilities that the grant affords for their children and will support the improvement initiatives that are implemented.

A Parent-Teacher Organization (PTO) meeting will be held in late May. Information about the grant will also be shared at this meeting.

Section A: LEA (District) Capacity Responses are limited to **one page each**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Program Continuation and Sustainability – Describe how the LEA will sustain the campus reforms after the funding period ends.

The district has a history of coordinating funds to better serve the needs of their leaders and students. A close relationship has been established between the district and various training institutions to provide quality service to the teachers.

Moreover, during the initial planning meetings for the development of this grant, all members agreed that planning for program continuation should be a top priority while developing the proposal. All partners agreed to work together to establish ways and means of continuing this comprehensive plan at the end of the grant period. The district will coordinate multiple federal and state programs and local funds to enhance the services of the teachers. To ensure that the program continues after the grant period, the district will actively look for funding sources that help support and sustain this program over an extended period of time. The district's plan for sustainability will include an examination of what this grants initiative aims to sustain, barriers that prevent the initiative from accomplishing its goals, fiscal constraints, and its resources.

As per Federal Statutory Requirement #8: The district will help sustain this initiative after the end of the program by enforcing a sustainability plan. Section A: LEA (District) Capacity Responses are limited to **one page each**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

External Providers -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.

As per Federal Statutory Requirement #5: The district will recruit, screen and select external providers based on CNA needs, past effectiveness of training provider, and cost effectiveness. External providers who have demonstrated effectiveness with the current identified campus needs and has proven themselves with other campuses similar with demographics, size and type of campus as the targeted campus will be given priority.

The design of the proposed project reflects appropriate application of research based best practices.(5 points) As per TEA's Model options available, the campus has opted to use School Improvement Resource Center (SIRC)'s services as an external provider and follow the recommended TEA Design Model of which SIRC will help campus staff implement this model. The purpose of SIRC is to work in conjunction with the Texas Education Agency to improve student performance. SIRC provides schools with information, clarification, resources, and technical assistance regarding the school improvement process.

The goals of the **School Improvement Resource Center** include developing increased leadership capacity in administrators and building knowledge of content and instructional strategies in teachers. Site Visits – If the intervention program includes site visits to other campuses successfully implementing the intervention model, describe the process for selecting the locations and the expected outcomes of the site visit.

Campus Visits to Highly Effective Campuses Utilizing Intervention Model

Since the Texas Title I Priority Schools Grant is new, there is no other school fully immersed in this program that the district can visit. However, the district will visit other districts that have services provided by Southern Regional Education Board (SREB) and State Education Resource Center (SERC).

The campus's pre-award process for selecting the proposed locations and the expected outcomes will be based on reviewing current districts utilizing services from SERC and SREB to determine those who have similar student demographics and academic needs of which they have experienced academic gains after implementing an intervention model from these providers.

The design team will also consider those campuses that may not necessarily fit our type and size, but have shown significant gains in their campuses with the same academic needs as ours.

In addition to staff researching these training providers, the staff also contacted personnel from these companies to get referrals on campuses with similar needs and demographics as the proposed targeted campus.

The campus's post-award process for selecting the proposed locations and the expected outcomes will be based on Academic Excellence Indicator System (AEIS) and Public Education Information Management System (PEIMS) data that show academic gains from these schools utilizing the transformation model who are first year recipients of the TTIPSG. The campus staff will also welcome any other TTIPSG grantee utilizing the Transformation Model to come visit our site for ideas and training materials that were helpful in the success of our proposed goals and objectives after program implementation.

Part 3: Intervention Model

Section B: Model Selection Process –Describe in detail:

1. The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus.
2. The timeline delineating the steps the campus will take to implement the selected intervention.

Responses are limited to **five pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

As per Federal Statutory Requirement #4: The process the LEA and campus followed/will follow to select a school intervention model that aligns to the identified needs of the campus.

The campus took the following process in selection of a school intervention model: The campus has selected **Option 2: LEA in Need of Foundational Technical Assistance**. This means that the campus will not engage in Option 1: Aggressive Reform since the campus currently does not have a school improvement program underway.

The campus staff needs appropriate time to make staffing decisions. These staffing decisions are usually done for schools during February and March for the following school year. Hence, administrators opted for Option 2 (Transformation Model) since staff has already received their contracts for 2010-2011 and no school improvement program is currently in place.

The campus CNA team and campus staff/faculty will implement the TEA Designed Model with technical assistance provided on behalf of TEA by the School Improvement Resource Center (SIRC). By means of this intervention model, the campus is eligible for **5 Funding Priority Points** for selecting the TEA Designed Model. A. P. Solis Middle School is entitled to an additional, **5 Funding Priority Points** for Tier III, and **3 Funding Priority Points** for incorporating the SES program (Communities in School) for a total of **13 Funding Priority Points**.

The campus will follow the TEA Designed Model that aligns to the identified needs of the campus with assistance from SIRC, TEA's Title I funded technical assistance provider for campuses staged in intervention status in both the state and federal accountability systems. Activities include:

I. Support and technical assistance from SIRC will consist of:

- Training on grant intervention model options;
- Training, assistance, and support in implementing the model and the Tier III program;
- On-site technical assistance via Professional Service Provider (PSP);
- Pre-assessment of the LEA's readiness, capacity, and commitment to implement the grant program;
- Needs assessment of the LEA's systems of support, formative assessment processes, use of data and professional development;
- Assistance with awareness and communications around the grant; and
- On-going technical assistance to LEA and campus, including, but not limited to, phone communication, online resources, face to face mentoring/training, webinars, teleconferencing or discussion boards.

II. The TEA Designed Model for Transformation will be based on three principals:

- Improving student achievement and increasing college and career readiness by building the capacity of campus leaders and teachers;
- Improving campus climate through social and emotional supports; and
- Utilizing district support to transform systems.

III. Key elements on Professional Development will include:

- Extensive Training on using data and evaluation systems effectively;
- Job-embedded professional development models;
- Comprehensive needs assessment and campus processes;
- Positive Behavior Support;
- Utilization of community partners; and
- Maximizing extended learning time.

IV. Tier III Transformation Model Evaluation of the Effectiveness of the Principal:

The district administration along with assistance from SIRC staff will participate in the professional review and develop a growth plan for the campus principal. The principal will not be replaced but rather based on need assessment will receive leadership coaching and professional development training.

V. Performance Goals and Evaluations:

The district and campus administration will hold themselves accountable for meeting the LEA's Annual Performance Goals and TEA's Performance Assessment and Evaluation targets. Benchmarks with target timelines that are realistic to the implementation timeline will be set for each of the three years of the funding cycle.

Monitoring will occur at the campus site by both internal and external consultants. In addition, the district and campus administration agree to provide access to onsite monitoring visits conducted by TEA, SIRC and its contractors. These annual site visits will help validate the implementation reports submitted by the campus. Administrators understand that interviews and complete implementation checklists to measure the progress towards critical success factors and milestones will be reviewed internally as well as by TEA and SIRC staff.

A data collection team will be developed to track the quarterly activities that show appropriate evidence of implementation, evaluation of implementation, and evaluation of timeline. The following data will be tracked for each activity. Part 3: Intervention Model

Section C: Groups of Participants – List the groups of participants who will actively assist in the process to select a school intervention model that aligns to the identified needs of the campus.

1	Superintendent —School Board Members and community members relay their concerns on a daily and regularly during board meetings, parents meetings, community functions, athletic events, etc. All concerns from parents and community members along with district and campus personnel will be factors considered when determining school intervention model.
2	Assistant Superintendent for Business & Finance - Holds meetings and conferences with Principal, parents, community members, and parents on various academic and infrastructure campus needs. These concerns were addressed in the School Culture and Leadership sections of the CNA.
3	Principal —Has parent, teacher, student, counselor, and paraprofessional meetings, conferences, walk-throughs, and corresponds through emails, newsletters, and flyers to have an up to date assessment of needs. In addition, the Principal reviews various data reports to disaggregate the student and teacher gaps, barriers, and weaknesses. Her input is essential when selecting the model that aligns to the identified needs of the campus.
4	Executive Director of Secondary Education - Meets with the Principal to review academic needs, review instructional materials and assessments, and holds training meetings with the teachers on various instructional strategies and methods. During these visits, much of the needs identified and discussed were considered when working on the CNA instrument.
5	Teachers -serve as faculty, parents, and community members. Their class, campus, student, and parents needs were important to be considered when devising a plan on how to raise academics for the next 3 years and thereafter. Their input helped design the teacher quality section of the CNA and this proposal and will help in the model selection as well.
6	Counselor -reviews the grades, class availability, scheduling issues, student and parent personal and academic needs, and college readiness needs. These academic and social needs and their impact on the overall campus success was considered in the CNA and will play a role in the model selection.
7	Assistant Principal —Has first-hand knowledge of disciplinary needs, academic needs, nurse identified health issues, cafeteria needs, transportation scheduling needs, and parents concerns. These concerns were addressed in the CNA and will be beneficial in the model selection.
8	Region One ESC staff -brought in data reports with desegregated data broken down by years, campus, subject area, student type, and special populations. Graphs and charts also included longitudinal data in these specific areas as well.
9	SIRC Staff —Conduct needs assessment through on-site visits, assist staff in developing and implementing Campus Improvement Plan, provide content and instructional strategies for teachers, and develop increased leadership capacity in administrators. These actions will help with the selection of an appropriate model selection.

Critical Success Factor 3: Increase Leadership Effectiveness

CSF Milestone	Additional Improvement Activity	Rationale	Supporting Research	Timeline Begin Date	Timeline End Date
3A	Provide embedded PD for Principal/Teacher Leaders and document growth and to facilitate teaching and learning. Activities: P.D. from Alan M. Blankstein, Dr. Margarita Calderon, Charles Dana Center, Learning Wheels, Aric Bostic, Stetson and Associates, and Dr. Victoria Bernhardt will be provided to teachers to equip them with the tools to increase student achievement.	Teachers need relevant job related training to have buy-in.	Quality teaching in all classrooms necessitates skillful leadership at the community, district, school, and classroom levels. Ambitious learning goals for students and educators require significant changes in curriculum, instruction, assessment, and leadership practices. Leaders at all levels recognize quality P. D. as the key strategy for supporting significant improvements. They are able to articulate the critical link between improved student learning and the professional learning of teachers.	9/1/2010	6/30/2013
3B	Sustain evaluation system developed with staff that is clear and detailed.	The more the teacher is aware of evaluation system, the more they will strive for perfection. Establishing parameters for evaluation systems that are at the basis for the development, deployment, and advancement stage of the model begins with the development of standards for district-based educator evaluation systems.	Evaluation Systems are effective in the sense that they will set goals , focus narrowly on how to effectively accomplish the goals, improve classroom observation skills, and use additional sources of data (peer evaluation, student performance, parent evaluation, student evaluation, and self evaluation are discussed).	9/1/2010	6/30/2013
3C	Resource/Data Utilization: Administer the Organizational Health Inventory each spring.	The OHI Instrument measures the health of a school and district through the administration of a survey and a statistical analysis of the results. It measures organizational health in nine areas and serves as a means of determining areas that are strengths and areas that can be improved.	http://www.waynekhoy.com/ohi-e.html	2/1/2010	5/31/2013
3B	Establish an incentive system for good performance on student outcomes.	Teachers need to be compensated for good outcomes. The district will identify ways to recognize and capitalize on their talents through differentiated roles and responsibilities, formal recognition, and/or incentives.	<u>Strategic Management of Human Capital</u> , 2008).	9/1/2010	12/1/2013

3B	Implement strategies to recruit, retain, and place high quality staff.	Improving achievement requires recruitment of talented teachers and principals and stronger instructional practices, which in turn are driven by strategic talent management. 4C	Implement a school-wide intervention model. Action: The campus will hire a Special Education Strategist and a Safe-School Counselor to diagnose students with special needs. The Strategist will ensure students with academic delays are given one or more research-validated interventions.	Response to Intervention design will provide early, effective assistance to children who are having difficulty learning. Properly used, technology will help students acquire the skills they need to survive in a complex, highly technological knowledge-based economy. Integrating technology into classroom instruction means more than teaching basic computer skills and software programs in a separate computer class. Effective tech integration must happen across the curriculum in ways that research shows deepen and enhance the learning process. In particular, it must support four key components of learning: active engagement, participation in groups, frequent interaction and feedback, and connection to real-world experts. Effective technology integration is achieved when the use of technology is routine and transparent and when technology supports curricular goals.	<u>Why Integrate Technology into the Curriculum?: There's a place for tech in every classroom</u> . Part 4: Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

- Extending the period of availability of school improvement funds.
This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and must be checked.

- "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.
- Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.
This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a School-wide program to do so in order to implement the Tier I reform model selected.

(Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

Section A: Ongoing Monitoring/Continuous Improvement - Describe the LEA/campus' process for providing on-going monitoring of grant activities to ensure continuous improvement

The methods of evaluation provide for examining the effectiveness of project strategies. (2 points)

The campus staff will comply with the evaluation requirements that are established by the Texas Education Agency (TEA). They will submit all evaluation reports in the format requested by TEA. The district agrees to provide information needed to evaluate the effectiveness of the program including child, teacher, staff, and classroom and school data.

The procedures ensure feedback and continuous improvement in the operation of the proposed project through ongoing monitoring and adjustments as needed.(6 points)

The district will solicit feedback and monitor progress on an on-going basis. The Campus staff will use the information to provide for continuous improvement of the project. The Project Manager and campus staff will ensure feedback and continuous improvement through internal and external evaluations that assess the program's efficiency in meeting the stated goals and measurable objectives. Evaluations will be used to monitor and adjust the program as the stakeholders deem appropriate. The absolute priority is for the campus is to meet and exceed the state and local standards.

The campus has processes in place for providing on-going monitoring of grant activities to ensure continuous improvement as well as processes for informative evaluation and data collection, including how each will be used to improve instruction. The design of the proposed project reflects up-to date knowledge from proven research and effective best practices. (5 Points)

Information collected will be used to measure progress and serve as a basis for program modifications or benchmarks of progress. Scores accumulated from progress reports and report cards will be used to gauge participants' academic improvement throughout the grant period. Monitoring will occur through demographic and testimonial information gathered from program participants, parents, staff, collaborating agencies, and the community. Program staff will monitor the academic progress reports, attendance, discipline referrals, and program absence reports. Analysis of the data will be performed on a frequent and continuous basis so as to yield feedback to the Project Manager and staff on a timely basis. The information will serve as a resource in the decision-making for continuous improvement on the program. The methods of evaluation referenced above will provide the ability for team members to examine the effectiveness of the project strategies.

(Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)		
Section B: Formative Evaluation- Describe the LEA/campus' process for formative evaluation, including how the results of the evaluation will be used to improve the grant program		
The formative evaluation processes outlined in the application provide for the identification and correction of problems throughout the duration of the grant project. (4 points)		
<p>The district has designed an evaluation plan that will monitor the implementation of the program on an ongoing basis and will help determine whether the campus met its goals and objectives and achieved the desired results based on the established performance indicators. The campus assures as per Statutory Requirement #15 and Statutory Assurance #5, that they will report to the TEA the school-level data required under Section III of the final federal requirements.</p>		
<p>As per Statutory Assurance #3: The campus will also use a rigorous, transparent, and equitable evaluation system for teachers and principals that will:</p>		
<ol style="list-style-type: none"> 1. Take into account data on student growth as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and 2. Are designed and developed with teacher and principal involvement; 		
<p>The campus will provide quarterly progress reports in order to determine the status of the following:</p>		
<ul style="list-style-type: none"> • Degree of planning, implementation, and evaluation of the project; • Degree of collaboration with local colleges/universities, Region One ESC, and TEA staff; • Level of staff development training; • Level of services actually provided to the targeted population; • Level of the curriculum and instruction that is utilized; • The quality of any products developed as part of the project; • The strengths and weaknesses of the project; • Recommendations for modifying or improving the program as a result of on-going evaluation activities; and • The level of compliance. 		
<p>The formative process will provide the opportunity to identify and correct problems on a timely fashion throughout the grant cycle. The TAKS and End of Course data along with computer generated reports will provide the avenue to determine performance outcome.</p>		
<p>The objectives, strategies, activities, and desired results of the project are clearly specified and are measurable. (5 points) The campus will also track progress toward Critical Success Factors (CSF) and milestones through the Quarterly Implementation Reports (QIR). The district and campus staff understands that CSFs reflect behavioral changes that must be demonstrated by students at the campus or by adults working on their behalf. They also understand that CSFs are essential for the TTIPS SIG program to succeed in meeting the goals and objectives defined for the program. Each CSF will be monitored using measurable indicators, and these indicators enable the district to determine whether they are on track to successfully achieve the desired outcomes.</p>		
<p>Furthermore, the district will evaluate the effectiveness of the campus Principal. The evaluation results will determine whether the Principal should be replaced or retained or needs to receive leadership coaching and professional development.</p>		
<p>As per Statutory Assurance #6: Applicant provides assurance that it will participate in any evaluation of the grant conducted by the U.S. Department of Education, including its contractors, or the Texas Education Agency, including its contractors.</p>

Part 1: Component Description. By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

Section C: Qualitative and Quantitative Data Collection Methods- Describe the LEA/campus' process for data collection methods to be implemented and 1) how the data will be disaggregated; 2) used to improve instruction; and 3) obtain continuous improvement results

The methods of evaluation include the use of objective performance measures and indicators of program accomplishment that are clearly related to the intended results of the project and will produce quantitative and qualitative data to the extent possible. (2 points) The district and campus staff will use objective performance measures and indicators of program accomplishment that are clearly related to the intended results of the project and will produce quantitative and qualitative data. A wide range of evaluation instruments will be used to identify program accomplishments, refinements or failures.

4. How will the district disaggregated data collected?

In order to disaggregate data collected the district will collect qualitative and quantitative data. In order to collect quantitative data the district will obtain data through methods such as interviews, on-site observations, and focus groups that is in narrative rather than numerical form. Data will then be analyzed by looking for themes and patterns. It involves reading, rereading, and exploring the data.

Quantitative inquiries use numerical and statistical processes to answer specific questions. Various instruments can be used to gather statistics that are used in a variety of ways to support inquiry or program assessment/evaluation. These instruments are standardized state and national instruments that meet reliability and validity indicators. Instruments to be utilized include:

- TELPAS and
- TAKS.

The following qualitative and quantitative data will be collected:

- Attendance rosters—to verify attendance;
- Software reports, TAKS and benchmarks—to monitor student progress;
- Lesson plans, quizzes, school referral reports, course schedules—track activity involvement and progress;
- Teacher, instructor and parent interviews—to monitor personal and academic changes in students;
- Student grade reports, truancy records, district discipline records—track student behavior; and
- Evaluations, TAKS, TELPAS, and training logs—to monitor teacher training.

5. How will data collected be used to improve instruction?

In order to ensure improved instruction the district, campus, and grant staff will also use local benchmarks, surveys, pre-post exams, computer generated reports, and grade reports to measure student program growth. District, campus, and grant staff will meet to review the results of the student's growth and modify the teachers instruction or provide additional professional development if needed to ensure the program's success.

6. How will the district ensure continuous improvement results?

The evaluation design includes processes for collecting data, including (i.e., program activities, number of students served, etc.) and student level academic results (i.e., achievement results, attendance data, etc.) to determine progress on annual goals. (3 points). Statutory Assurance #3.

In order to ensure continuous improvement the district will continue to collect data throughout the grant cycle. A variety of statistical analysis will be used to measure and tabulate the results from the referenced assessment instruments. Internal staff will conduct research analysis of grades, attendance, behavior, parental involvement and other relevant issues to the program. Data and information gathered will be utilized to address the following questions:

- Were the program activities implemented as planned?;
- How effective were the activities in achieving the goals and objectives of the program?;
- What was the impact of the activities on the students?; and
- Were the performance targets met?

An external data analyst will be contracted. The External Data Analyst holds a Master's Degree and almost 20 years of experience in K-12 education. The contracted data analyst will assist the district with the collection, review, analysis, and compiling of data. The data analyst will maintain flexibility when meeting with the district/campus administrators to coordinate activities based on most convenient time for these individuals. The data analyst will meet with Campus Principal, Superintendent, and grant staff to discuss strategies to ensure a high participation rate from teachers, students, and more importantly parents for surveys conducted by the district that will be reviewed and to ensure the campus remains in compliance with TEA.

Describe the process to be implemented to develop the campus' performance goals. Include the groups participating in the development of the goals.

Responses are limited to **two pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The process that will be taken to prepare the campus goals is as follows:

The evaluation design includes the use of objective performance measures and indicators of program accomplishment that are related to the intended results of the project and will produce quantitative and qualitative data to the extent possible. (2 points) The campus design team will address all CNA findings. The team will make measurable objectives tied to the annual goals for student achievement on both the state's assessment and other measures identified by the district. The district will hold the campus accountable for meeting or exceeding these measures.

Steps include:

1. Identify a Performance Measure;
2. Establish base data from the most recent year's performance;
3. Set a realistic Year 1 Progress Goals;
4. Set an increased goal from Year 1 for Year 2 Progress Goals;
5. Set an increased or maintain Year 2 Progress Goals; and
6. Reevaluate initial Performance Measures set in initial TTIPSG grant proposal with the assistance of SIRC, Region One ESC staff, and campus personnel (staff/faculty).

Areas of focus will include:

1. Improve Academic Performance;
2. Increase the Use of Quality Data to Drive Instruction;
3. Increase Leadership Effectiveness;
4. Increase Learning Time;
5. Increase Parent/Stakeholder Involvement;
6. Improve School Climate; and
7. Increase Teacher Quality.

Groups participating in the development of the goals will include:

1. **Superintendent**—School Board Members and community members relay their concerns on a daily and regularly during board meetings, parents meetings, community functions, athletic events, etc. All concerns from parents and community members along with district and campus personnel will be factors considered when determining campus' performance goals.
2. **Assistant Superintendent**-Holds meetings and conferences with Principal, parents, community members, and parents on various academic and infrastructure campus needs. These concerns will be addressed in the School Culture and Leadership sections of the CNA and will help in developing goals.
3. **Principal**— Will have parent, teacher, student, counselor, and paraprofessional meetings, conferences, walk-throughs, and corresponds through emails, newsletters, and flyers to have an up to date assessment of needs. In addition, the Principal reviews various data reports to desegregate the student and teacher gaps, barriers, and weaknesses. Her input is essential when determining campus' performance goals to the identified needs of the campus.
4. **Executive Director of Secondary Education** - Meets with the Principal to review academic needs, review instructional materials and assessments, and holds training meetings with the teachers on various instructional strategies and methods. During these visits, much of the needs identified and discussed were considered when working on the CNA instrument.

5. **Assistant Principal**— Will have first-hand knowledge of disciplinary needs, academic needs, nurse identified health issues, cafeteria needs, transportation scheduling needs, and parents concerns. These concerns were addressed in the CNA and will be beneficial in setting the campus' performance goals.
6. **Teachers**-serve as faculty, parents, and community members. Their class, campus, student, and parents needs were important to be considered when devising a plan on how to raise academics for the next 3 years and thereafter. Their input helped design the teacher quality section of the CNA and this proposal and will help in the campus' performance goals as well.
7. **Counselor**-reviews the grades, class availability, scheduling issues, student and parent personal and academic needs, and college readiness needs. These academic and social needs and their impact on the overall campus success was considered in the CNA and will play a role in the campus' performance goals.
8. **Region One ESC staff**-brought in data reports with desegregated data broken down by years, campus, subject area, student type, and special populations. Graphs and charts also included longitudinal data in these specific areas as well. Staff from One ESC will help with input on setting campus' performance goals.
9. **SIRC Staff**— SIRC will provide teachers and administrators with quality materials, research, and coaching to effectively implement actions to address key practices. SIRC will work in conjunction with the TEA to improve student performance. SIRC will provide the campus with information, clarification, resources, and technical assistance regarding the school improvement process. SIRC will also assist in developing increased leadership capacity in administrators and building knowledge of content and instructional strategies in teachers. The aim is to raise learning expectations for teachers, students, and administrators and to create a learning culture that facilitates improved student performance.

Initial campus performance goals by subset have been discussed during the initial CNA assessment; however, more specific goals and objectives will be determined after the assistance and intervention of SIRC, Region One ESC staff, and the involvement of more campus staff and faculty.

As per **Federal Statutory Requirement #10**: The proposed annual goals for student achievement on the State's assessments in both reading/language arts and mathematics are discussed under Schedule # 4C—Performance Assessment and Evaluation.

Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

AA. Submission of Audit Reports to TEA: Grantees which are public school districts and open enrollment charter schools agree to submit the required annual audit report, including the reporting package required under OMB Circular A-133, if an audit is required to be conducted in accordance with OMB Circular A-133, to the TEA Division of School Financial Audits in the time and manner requested by the Agency.

Nonprofit organizations (other than charter schools) and universities/colleges shall submit the audit report to the TEA Division of Discretionary Grants. Audit reports must be submitted to TEA within 30 days of receipt of the report from the auditor. Grantees should expend funds in ways that do not result in unsustainable continuing commitments after the funding expires. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

B. Period of Availability and Encumbrances/Obligations: Unless otherwise specified in the Notice of Grant Award (NOGA), all funds are effective from the beginning date specified on the Notice of Grant Award (NOGA) through June 30, 2013.
